Subject:	HB 2007 Stop this knee jerk reaction to housing needs, Save our right to zoning appropriately, Allow public review !!
Date:	Friday, June 23, 2017 4:10:38 PM

My family strongly opposes House Bill 2007.

We live in the USA, where local municipalities make the best decisions for their areas. This terrible bill is reactive, and would take away our rights to plan our communities correctly and with local input.

This is not a communist state, where "government knows best". This bill would allow the destruction of our beautiful historical districts, in favor of apartment blocks.

This bill is backed by builders that stand to reap the profits, and has had minimal chance for public review.

Stop this madness.

Stop this bill.

Take time to create a workable option.
