I strongly feel that the bills which were first heard on April 5th, as well as similar gun control bills, are a solution in search of a problem. The proposed legislation will have little effect other than to burden those who follow the law in our state. The gun owners of this state have demonstrated time and time again that they do not need to be regulated, legislated and dictated to.

Oregon has many common sense gun laws on the books already and does not need further legislation that will not make anyone safer. I strongly urge you to oppose these bills and any others that may come up.
