Subject: HB 4109 Support
Date: Monday, February 10, 2020 10:54:36 PM

Dear Chair Salinas and members of the Committee on Health Care,

I am writing to urge your strong support of HB 4109, phasing out chlorpyrifos in Oregon, and ask that you vote HB 4109 out of your committee with a "do pass" recommendation.

The science on chlorpyrifos is clear: chlorpyrifos is known to harm kids' brains. Chlorpyrifos is linked to infertility, cancer, respiratory diseases, developmental disorders and more.

Oregon needs to act urgently to protect human and environmental health from this unsafe and unnecessary pesticide. HB 4109 will end aerial spraying of chlorpyrifos in Oregon, protect children by prohibiting chlorpyrifos use within 300 feet of schools, and add stronger protections for farmworkers.

HB 4109 includes a phase-out period of more than a year to give farmers time to adjust to the many alternative options, just like farmers in Hawaii and California. These are reasonable steps for Oregon to ensure response to the long-standing warnings that there are no safe levels of exposure to this extremely neurotoxic chemical.

A phase-out will not only protect children and farmworkers; it will benefit pollinators and other wildlife also exposed to the toxic pesticide, and encourage safer alternatives that promote healthy soils.

It is my strong belief that chlorpyrifos has no place in Oregon. Thank you for considering my testimony in strong support of the measure.

Respectfully,
DeEtte David-Miller
