Dear Senators

The bills scheduled for April 5th, are once again a solution in search of a problem. The amendments proposed for these bills do nothing but make them more complex and confusing for anyone attempting to abide by them. The gun owners of this state had demonstrated over and over that they do not need to be regulated, legislated and dictated to. I strongly urge you to oppose these bills.

I pay a lot of money to our state in the form of taxes and hunting, fishing and mining permits and licenses. I pay more for ammuntion, camping fees, fishing gear and mining supplies. Our state does not need anymore restrictions. Instead, we need to concentrate on encouraging more participation in these activities.

I am very concerned about the way these bills are being forced on us. I am a very vocal voter and I do remember who voted how. Please, vote NO on these bills.
