Subject: Jane Doe Testimony: SB 5524 for April 10th Public Hearing. (Daisy Gomez)
Date: Friday, April 07, 2017 1:43:59 PM

Hello I am a student attending my local Community college. During my senior year of high school we had all found out about this new grant, for all that wanted to attend a community college. This grant has helped me be debt free and focus on my studies. If I had never been granted this grant I probably wouldn't have attended college because I didn't want to be drowning in loans, for a dream that I want to accomplish. I would be more than grateful if this grant kept giving students, like me, the chance to keep going to school with financial help and making our dreams come true. Thank you!

Sincerely, a student that doesn't want to lose their Oregon promise grant
