Please support HB 2269 to fund the critical work of Cleaner Air Oregon. If DEQ doesn't receive funding for this work, it will not happen, especially with the federal budget cuts we're facing.

We know that environmental exposure to pollution disproportionately affects people who are economically disadvantaged. I live in Portland’s central eastside, one of the worst areas of the county for air toxics. I'm a long distance runner, a bicyclist, and I have mild asthma. If HB 2269 doesn't pass, my respiratory health will get worse, predisposing me to respiratory diseases including lung cancer. Please listen to the people and not industry by supporting HB 2269 today.
