Subject:	CLEANER AIR IN OREGON
Date:	Thursday, May 11, 2017 7:50:04 PM

For far too long, communities across the state have been forced to bear the very real health risks and costs imposed on them by the lack of an adequate air toxics regulatory program. Cleaner Air Oregon will establish a regulatory framework within which public health risks will be identified and, when necessary, reduced. It is fair that the sources placing communities at risk of harm play a greater role in funding the effort necessary to reduce those harms than they have historically been asked to play.

As a Oregonian, I strongly support HB 2269 to fund the critical work of Cleaner Air Oregon. If DEQ doesn't receive funding for this work, we know it will not happen, especially with the federal budget cuts we're facing. It makes no sense to go this far and not finish the job.

Thank you for registering my voice on this issue.
