Subject: In support of HB2007 w affordable housing amendments
Date: Friday, June 23, 2017 2:53:53 PM

Dear Oregon legislators,

I am a Portland resident from zip code 97213. I support urban densification of my city for many reasons, but mostly because it is the best way to mitigate climate change and reduce the need for use of a car. However, I also believe it needs to be done responsibly and equitably, to offer opportunities for ethnic and economic diversity. I support HB2007, but only if it includes provisions to assure affordable, protected housing for lower income families and households.

Thank you for the good work you do.

Sincerely, Catherine Burke
