

House Bill 4126

Sponsored by Representative GARRETT; Representatives BAILEY, GILLIAM, READ (Presession filed.)

SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure **as introduced**.

Expands state policy relating to ecosystems. Adds ecosystem services to principles guiding state water quality program and state fill-removal program.

Directs Governor's office to facilitate review of state conservation plans. Directs Institute for Natural Resources to provide information to specified entities in order to assist in development of integrated ecosystem services methodologies.

Authorizes state agencies and local governments to allow use of credits for ecosystem services as compensatory mitigation. Specifies circumstances under which state agency may purchase or receive credits for ecosystem services.

Declares emergency, effective on passage.

A BILL FOR AN ACT

Relating to ecosystem services; creating new provisions; amending ORS 196.805, 468.583 and 468B.015; and declaring an emergency.

Be It Enacted by the People of the State of Oregon:

STATE POLICY REGARDING ECOSYSTEM SERVICES

SECTION 1. ORS 468.583 is amended to read:

468.583. (1) It is the policy of this state to:

(a) Support the maintenance, enhancement and restoration of ecosystem services throughout Oregon, focusing on the protection of land, water, air, soil and native flora and fauna[.];

(b) **Favor approaches to compliance with state regulatory requirements that maintain the integrity of ecosystem services at the watershed or other appropriate landscape scale;**

(c) **Conserve ecosystems in a manner that provides long-term ecological, economic and social benefits; and**

(d) **Provide incentives to private landowners to conserve ecosystem services.**

(2) **State agencies and local governments are encouraged to adopt and implement programs that use market-based approaches to conserve or enhance ecosystem services as one approach to meet conservation, economic and environmental regulatory goals within the context of existing programs. Such market-based programs should, to the greatest extent practicable, be designed to:**

(a) **Provide an opportunity for added economic return to agricultural and forest landowners who exercise good stewardship;**

(b) **Result in restoration and maintenance jobs that provide family wages;**

(c) **Produce enduring, quality conservation, permitting and mitigation outcomes that make the greatest ecological difference by targeting priority areas that contain important resources or connectivity between existing conservation lands;**

NOTE: Matter in **boldfaced** type in an amended section is new; matter [*italic and bracketed*] is existing law to be omitted. New sections are in **boldfaced** type.

- 1 (d) Increase the pace of conservation and habitat restoration;
- 2 (e) Provide disincentives for actions that negatively impact priority areas and services;
- 3 (f) Produce a positive trend in the recovery of species and ecosystems that contribute to
- 4 the full suite of values of biodiversity and ecosystem services;
- 5 (g) Complement and add value to other conservation strategies and programs;
- 6 (h) Operate efficiently with low transaction costs; and
- 7 (i) Have clear and predictable rules and provide for transparent, accountable and credible
- 8 transactions.

9
10 GOVERNOR'S OFFICE

11
12 **SECTION 2.** (1) Before the end of calendar year 2013, the Governor's office, with assist-

13 **ance from the Oregon Watershed Enhancement Board, shall:**
14 (a) Facilitate a review of relevant local, state, regional and federal conservation plans

15 that could impact ecosystem services as defined in ORS 468.581 and propose a process for

16 these plans to be spatially aligned and coordinated, with a focus on potential cost savings and

17 efficiencies in the implementation of the conservation plans.
18 (b) Recommend objectives that support the maintenance, enhancement and restoration

19 of ecosystem services as described in ORS 468.583.
20 (2) The Governor's office shall make information about the process proposed under sub-

21 section (1)(a) of this section, and information about the recommended objectives developed

22 under subsection (1)(b) of this section, available to the public on the website of the

23 Governor's office.
24
25 INSTITUTE FOR NATURAL RESOURCES

26
27 **SECTION 3.** (1) The Institute for Natural Resources created under ORS 352.239 shall, to

28 the extent practicable, provide information to local governments, state agencies, federal

29 agencies, conservation organizations, private landowners and businesses to assist in the de-

30 velopment of public domain integrated ecosystem services methodologies that:
31 (a) Use multiscale modeling applicable to landscape and site level assessments;

32 (b) Address context in terms of value within the broader ecosystem;

33 (c) Are applicable to all land and water types;

34 (d) Address water quality, carbon quantity and biodiversity functions and values;

35 (e) Can be applied with low transaction costs;

36 (f) Incorporate best available ecological information;

37 (g) Are compatible with existing methodologies where appropriate;

38 (h) Are transparent;

39 (i) Provide consistent results;

40 (j) Quantify ecological values individually and generate an overall ecosystem integrity

41 score;

42 (k) Provide for the monitoring of cumulative effects and overall program effectiveness;

43 and

44 (L) Are flexible enough to allow private landowners to receive payments for multiple

45 types of ecosystem services.

1 (e) Focus on restoration where restoration efforts will most likely be successful;

2 (f) Provide incentives to private landowners who voluntarily implement conservation
3 measures on their property; and

4 (g) Are relatively low cost.

5 (2) In any documents related to grants for conservation purposes, state natural resource
6 agencies are encouraged to specify the circumstances under which ecosystem services may
7 be sold to third parties.

8 **SECTION 6.** A state agency may purchase or receive credits for ecosystem services:

9 (1) To comply with mitigation requirements or advance the mission of the state agency
10 to achieve ecological outcomes.

11 (2) In advance of any mitigation requirements to ensure that the state agency mitigates
12 the impacts of the agency's development projects.

13 (3) As part of grant or landowner conservation incentive programs administered by a
14 state agency or as part of voluntary ecosystem services markets.

15
16 **WATER QUALITY**

17
18 **SECTION 7.** ORS 468B.015 is amended to read:

19 468B.015. Whereas pollution of the waters of the state constitutes a menace to public health and
20 welfare, creates public nuisances, is harmful to wildlife, fish and aquatic life and impairs domestic,
21 agricultural, industrial, recreational and other legitimate beneficial uses of water, and whereas the
22 problem of water pollution in this state is closely related to the problem of water pollution in ad-
23 joining states, it is hereby declared to be the public policy of the state:

24 (1) To conserve the waters of the state through innovative approaches, including but not limited
25 to the appropriate reuse of water and wastes;

26 (2) To protect, maintain and improve the quality of the waters of the state for public water
27 supplies, for the propagation of wildlife, fish and aquatic life and for domestic, agricultural, indus-
28 trial, municipal, recreational and other legitimate beneficial uses;

29 (3) To provide that no waste be discharged into any waters of this state without first receiving
30 the necessary treatment or other corrective action to protect the legitimate beneficial uses of such
31 waters;

32 (4) To provide for the prevention, abatement and control of new or existing water pollution;
33 *[and]*

34 (5) To cooperate with other agencies of the state, agencies of other states and the federal gov-
35 ernment in carrying out these objectives[.]; **and**

36 (6) **To protect, restore and enhance ecosystem services, as defined in ORS 468.581, in**
37 **implementing the provisions of this chapter.**

38
39 **FILL-REMOVAL**

40
41 **SECTION 8.** ORS 196.805 is amended to read:

42 196.805. (1) The protection, conservation and best use of the water resources of this state are
43 matters of the utmost public concern. Streams, lakes, bays, estuaries and other bodies of water in
44 this state, including not only water and materials for domestic, agricultural and industrial use but
45 also habitats and spawning areas for fish, avenues for transportation and sites for commerce and

1 public recreation, are vital to the economy and well-being of this state and its people. Unregulated
 2 removal of material from the beds and banks of the waters of this state may create hazards to the
 3 health, safety and welfare of the people of this state. Unregulated filling in the waters of this state
 4 for any purpose, may result in interfering with or injuring public navigation, fishery and recre-
 5 ational uses of the waters. In order to provide for the best possible use of the water resources of
 6 this state, it is desirable to centralize authority in the Director of the Department of State Lands,
 7 and implement control of the removal of material from the beds and banks or filling of the waters
 8 of this state.

9 (2) **When administering fill and removal statutes**, the director shall take into consideration
 10 all beneficial uses of water including **protection, restoration and enhancement of ecosystem**
 11 **services, as defined in ORS 468.581, and** streambank protection [*when administering fill and re-*
 12 *moval statutes*].

13 (3) There shall be no condemnation, inverse condemnation, other taking, or confiscating of
 14 property under ORS 196.600 to 196.905 without due process of law.

15 (4) The director shall delineate wetlands in accordance with the United States Army Corps of
 16 Engineers Wetlands Delineation Manual of 1987, or subsequent federal manual as adopted by rule
 17 by the director, and applicable guidance issued by the United States Army Corps of Engineers for
 18 the area in which the wetlands are located.

19 (5) The Department of State Lands shall give priority to the review of wetland delineation re-
 20 ports submitted with or in advance of an application for fill or removal of material from the waters
 21 of this state.

22
 23 **MISCELLANEOUS**
 24

25 **SECTION 9. Sections 3 to 6 of this 2012 Act are added to and made a part of ORS 468.581**
 26 **to 468.587.**

27 **SECTION 10. The unit captions used in this 2012 Act are provided only for the conven-**
 28 **ience of the reader and do not become part of the statutory law of this state or express any**
 29 **legislative intent in the enactment of this 2012 Act.**

30
 31 **EMERGENCY CLAUSE**
 32

33 **SECTION 11. This 2012 Act being necessary for the immediate preservation of the public**
 34 **peace, health and safety, an emergency is declared to exist, and this 2012 Act takes effect**
 35 **on its passage.**
