11. ADDITIONAL TERMS OF THIS CONTRACT

IMPORTANT TERMS:

You have agreed to sell to the transferee future payments totaling Four Hundred Fifty-Nine Thousand Eight Hundred Fifty Dollars and 20/100 Cents dollars (\$459,850.20) in exchange for a purchase price of Eighteen Thousand Seven Hundred Fifty Dollars and 00/100 Cents dollars (\$18,750.00).

Those future payments have a discounted present value equal to Three Hundred Fifty-Five Thousand Thirteen Dollars and 75/100 Cents dollars (\$355,013.75). This is the value of your structured settlement in current dollars. This amount was calculated by applying the discount rate of 1.20% percent utilized by the Internal Revenue Service to value annuities in probate proceedings.

The purchase price to be paid to You was calculated using a discount rate of 17.02% percent.

The purchase price payable to You is less than the present value of the future payments stated above because the discount rate of Your transaction is greater than the rate utilized by the Internal Revenue Service.

For comparison purposes:

If You did not sell Your right to receive structured settlement payments, but instead borrowed the net amount of \$18,750.00 and paid that loan back in installments with each of the payments You are now selling, the equivalent interest rate You would be paying for that loan would be 17.02% per year.
