Special Purpose Appropriation

Child Welfare Differential Response \$ 5,000,000 \$ 5,000,000

Summary of Revenue Changes

The Department of Human Services (DHS) is funded with a mix of General Fund, Other Funds and Federal Fund revenues. Almost all of the General Fund is used as match or to meet state maintenance of effort requirements to receive Federal Funds. Other Funds revenues come from a wide variety of sources such as nursing home provider taxes, grants, unitary tax assessment, estate collections, third party recoveries, fees, and charges for services. The largest single Federal Funds source is the Supplemental Nutrition Assistance Program (SNAP/food stamps); the benefits are reflected in the budget as Nonlimited Federal Funds. Federal Funds subject to expenditure limitation include the Title XIX Medicaid program, Temporary Assistance to Needy Families (TANF), Title IV-E Foster Care and Adoption Assistance, Child Welfare Services, Title XX Social Services Block Grant, and Basic 110 Rehabilitation funds. Some of these sources are capped block grants (e.g., TANF, Social Services Block Grant); others provide federal matching funds as partial reimbursement of state costs (e.g., Medicaid, Foster Care and Adoption Assistance). The major revenue change in this budget is the loss of about \$400 million in one-time Other and Federal Funds revenues, primarily from the federal American Reinvestment and Recovery Act (ARRA) stimulus funds, used in the 2009-11 budget but not available for 2011-13. The budget assumes \$20 million of federal fiscal year 2012 (FFY 2012) TANF contingency funds. As of this report these funds were included in the approved FFY 2012 TANF funding. To be eligible for these funds Oregon must spend more than \$111 million in countable Maintenance of Effort (MOE) spending in FFY 2012. Any future availability of these funds is dependent on federal budget decisions and state MOE spending.

Summary of Human Services Subcommittee Action

DHS supports children, families, seniors and people with physical and developmental disabilities by providing a range of services through 170 field offices and community partners. With the implementation of House Bill 2009 (2009 session) and the creation of the Oregon Health Authority (OHA), the DHS budget now includes two program areas – Children, Adult and Families (CAF) and Seniors and People with Disabilities (SPD) - as well as administrative support for both DHS and OHA in its Central and Shared Services.

The Subcommittee approved a budget of \$7.97 billion total funds for DHS, which is 1.6 percent above the 2009-11 Legislatively Approved Budget. However, without the Nonlimited Federal Funds expenditures for the SNAP/food stamps program benefit payments, the budget is 1.2 percent total funds less than in the 2009-11 biennium. The budget consists of \$2.03 billion General Fund, \$430 million Other Funds, \$3.13 billion Federal Funds, \$2.38 billion Nonlimited Federal Funds, and 7,389 positions (7,296.10 FTE).

The Subcommittee reviewed the packages used to build the Governor's budget, and the agency's repricing ("reshoot") adjustments for caseload, cost-per-case, and other changes since the Governor's budget was developed. The Governor's budget included adjustments to eliminate the standard cost-of-living (COLA) increase, reduce projected increases in Personal Services costs by 5.5 percent for DHS as a whole, and continue administrative, provider and program reductions made during the 2009-11 biennium as part of the General Fund allotment reductions to balance the statewide budget. The Subcommittee generally approved these adjustments as part of its recommended budget.

The Subcommittee approved the following three statewide packages that cover the entire agency:

- Package 801: Targeted Statewide Adjustments – This package implements a statewide reduction action included in the Ways and Means Co-Chairs' budget, which is a 6.5 percent reduction from total General Fund Services and Supplies expenditures. The total agency-wide reduction is \$9.3 million General Fund.
- Package 802: Vacant Position Savings – This package removes position authority for positions that have been vacant for an extended period of time. The total position reduction for DHS is 38 positions (30.52 FTE) and \$3.5 million total funds.
- Package 819: Supplemental Statewide Ending Balance – The recommended budget for DHS includes a reduction of \$73.7 million General Fund for a supplemental ending balance. The reduction is intended to be applied against spending levels in the second year of the biennium and to not affect program delivery in the first year. To reinforce that intent, the agency's budget bill includes specific language allowing the agency to expend up to 54 percent of its total biennial General Fund appropriation in the first year of the biennium.

The amount of the reduction for the supplemental ending balance may be restored during the February 2012 session to the agency for the second year of the biennium depending on economic conditions. Therefore, the Co-Chairs of the Joint Committee on Ways and Means expect the agency director to closely monitor the quarterly revenue forecast and other economic indicators to gauge adequacy of funding in the second year and manage the budget accordingly.

Children, Adults and Families

Children, Adults and Families (CAF) is responsible for helping Oregon's vulnerable families and individuals improve their capacity to be self-sustaining while creating a safe and permanent living environment for children. CAF provides services in three key program areas:

- *Self Sufficiency* programs promote independence for families and adults. The programs include the Supplemental Nutrition Assistance Program (SNAP/food stamps), Temporary Assistance for Needy Families (TANF), and related programs including Job Opportunity and Basic Skills (JOBS) services, Employment Related Day Care (ERDC), Refugee Assistance, and youth prevention services.
- *Child Welfare* programs help provide safe and permanent families for Oregon's abused, neglected, and dependent children through child protective services, in-home services, out-of-home care, and adoptions.
- *Vocational Rehabilitation Services* works with businesses, schools, and community programs to help youths and adults with disabilities other than blindness prepare for and find employment.

CAF administers these programs through coordination and collaboration with the families and individuals as well as community partners, and through direct services provided by state staff. Field staff provides CAF program services and benefits to clients through more than 100 Child Welfare and Self Sufficiency field and branch offices, and 34 Vocational Rehabilitation field offices throughout the state. CAF is also responsible for qualifying individuals and families for the Oregon Health Plan (OHP) and the Healthy Kids Program, in coordination with the Oregon Health Authority.

The Subcommittee approved budget for CAF is \$4.30 billion total funds, which is a 4.1 percent increase from the 2009-11 Legislatively Approved Budget (LAB). The approved General Fund budget of \$791.7 million is about 4.8 percent more than LAB. The total funds increase includes an additional \$191 million in Nonlimited Federal Funds for SNAP benefits. Excluding these Nonlimited Federal Funds, the recommended budget is 1.1 percent below the 2009-11 level.

The Governor's budget reshoot adjustments for CAF increased the budget by \$19.2 million total funds, including a \$7.2 million General Fund increase and a decrease of 77 positions (93.68 FTE). The reshoot included a \$28.3 million General Fund, \$31.2 million total funds increase for updated caseload and cost per case projections in DHS' spring 2011 forecast. Self Sufficiency caseload costs account for most of this increase.

TANF caseloads are projected to average 29,308 a month, up 7.1 percent from 2009-11 monthly averages. SNAP caseloads are projected to average 421,642 a month, an increase of 11.9 percent from 2009-11 monthly averages. In Child Welfare, the average monthly caseload for 2011-13 is 23,331, up 2.1 percent from 2009-11 caseloads. Additional staffing resources associated with the updated caseload projections account for an increase of \$15.3 million total funds (\$10.3 million General Fund) and 117 positions (99.94 FTE).

Also included in the budget reshoot is the assumed use of TANF Contingency Funds of \$20 million to backfill General Fund with Federal Funds, the agency's repricing of the Self-Sufficiency Modernization Project and the Childcare Billing and Attendance Tracking project, and the transfer of 196 positions in the Oregon Health Plan eligibility processing center and the Medicaid Policy Unit to the Oregon Health Authority.

The Subcommittee recommended budget includes program and budget changes recommended by the Governor, and the budget repricing/“reshoot” modifications for this budget, with some significant adjustments. The major elements of the budget are summarized below:

- \$13.3 million available from certain Other Funds and Federal Funds resources – insurers’ tax for the Healthy Kids eligibility work, federal Child Care and Development Funds carried forward from the 2009-11 biennium, and federal Social Services Block Grant funds – will be used instead of General Fund to fund program staff and services.
- The ERDC program is retained in this budget and not moved to the Early Learning Council. Funding is provided for an average of 9,000 cases during the biennium at the 2009-11 provider rate and client co-payment levels. This frees up \$26 million General Fund from the higher funding level in the Governor’s budget to address increased cash assistance caseloads and other TANF program needs.
- In the TANF program, enhanced grants for pre-SSI/SSDI clients are eliminated in October 2011, and post-TANF payments are eliminated for the biennium. The up-front eligibility process and the JOBS re-engagement and disqualification process are tightened, resulting in caseload, budget and staffing reductions.
- The recommended budget maintains the current 60-month TANF time limit, adding funds to buy back the 18-month time limit proposed in the Governor’s budget.
- \$10 million is added to the Governor’s budget funding for JOBS employment and training services. Within the total \$60 million available, the JOBS program will be redesigned to focus on “job ready” and “near job ready” clients during 2011-13. However, the significant reduction in overall JOBS program funding from the 2009-11 level means many current JOBS clients will lose employment and training services and other support services beginning July 1, 2011. This level of funding continues to put Oregon at risk of additional work participation penalties related to the TANF program. Three work participation penalties are currently in the federal appeal process.
- The budget funds the Family Support and Connections program at \$4.2 million, maintaining all but about \$250,000 of the 2009-11 funding level.
- The Parents as Scholars program is closed to new participants for the 2011-13 biennium, but funding will continue for those already in the program until their educational plans are completed.
- The budget includes \$6.2 million General Fund for new, contracted domestic violence specialists in CAF offices, but does not include the Governor’s \$10 million General Fund request for child welfare differential response. However, \$5 million is to go to the Emergency Board for a Special Purpose Appropriation for this use. The agency is to refine its plans around this \$5 million and report to the 2012 legislative session with a proposal on how the funding would be spent.
- An additional \$1.6 million General Fund and \$6.6 million Federal Funds is approved to support Senate Bill 964 family preservation and reunification child welfare services. These funds will be used in part for contracted services and related pilot projects in three to six counties as the budget will allow. Estimated savings based on the projected impact of contracted service programs have already been assumed in this budget. In addition, \$658,250 General Fund was approved for use as match to continue the IV-E waiver for child welfare.

- Child welfare foster care base rates are reduced by 10 percent, and funding for contracted Behavioral Rehabilitation Services (BRS) is reduced by a level equivalent to a 10 percent rate cut as a savings target. This mirrors the adjustment for these same services in the Oregon Youth Authority budget. The Subcommittee expressed its intent that the agencies work with the providers to achieve the savings with a focus on improvement management of the beds and expenditures. This could include some combination of reductions in capacity, reductions in rates, or other management actions.
- A mix of Federal Funds, including one-time funds from a federal Adoption Assistance award, will be used to continue post-adoption services during the 2011-13 biennium.
- Vocational Rehabilitation Services funding for client services is reduced by 10 percent General Fund, as recommended by the Governor.
- Funding and staffing is added to improve the agency's efforts to address issues of equity by providing culturally responsive and specific services to achieve better outcomes for the racially, ethnically and culturally diverse individuals it serves. No resources are added for the Critical Incident Review Team.
- Information technology projects for Automated Child Care Billing and Attendance and Self Sufficiency Modernization (SSM) will continue at revised funding levels. New staff in the Governor's budget for the SSM project is eliminated, since any project staff will be part of the Oregon Health Authority budget.
- The budget does not fund 486 new positions proposed to improve field staffing levels in the Self-Sufficiency and Child Welfare programs. The intent is that the agency fills position vacancies held open during the 2009-11 biennium for budget savings, so field staffing levels relative to the agency's workload model would effectively stay about the same during the 2011-13 biennium as in the 2009-11 biennium.

The following budget note was approved regarding the TANF/JOBS program restructuring anticipated as a result of the funding reductions in the Subcommittee recommended budget:

Budget Note

The Department of Human Services is directed to report to the 2012 Legislature on the impact of the restructured Temporary Assistance for Needy Families (TANF) program and JOBS employment and training services on program clients and program outcomes. The Department is to work with the Employment Department, the Department of Community Colleges and Workforce Development, WorkSource Oregon, the Family Services Review Commission and other stakeholders to review the program changes and develop any recommendations for potential program improvements.

Seniors and People with Disabilities

Seniors and People with Disabilities (SPD) provides services for seniors and adults with physical disabilities, and adults and children with developmental disabilities (DD). SPD administers Oregon's Medicaid long-term care program under a federal Home and Community Based Care waiver under Section 1915(c) of the Social Security Act. Clients receive a range of services including case management, supportive in-home care,

community-based residential care, and nursing facility care. SPD and its partners provide Medicaid long-term care services to about 27,900 seniors and adults with physical disabilities. Services to about 23,000 individuals with developmental disabilities include case management, family or community support services, and comprehensive (residential) care.

The SPD budget supports local Area Agencies on Aging (AAAs) staff, county and state Medicaid field staff, and the disability determination services unit that determines eligibility for Social Security Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) benefits. The budget also includes Oregon Project Independence and federal Older Americans Act funding; federally required supports to aged, blind, and disabled persons who receive SSI; and limited employment programs for elderly and disabled persons. SPD also now has responsibility for the state's Medicare buy-in programs for low income elderly and disabled Oregonians, paying Part B Medicare premiums for more than 85,000 persons each month.

The Subcommittee approved a budget of \$3.54 billion total funds for SPD, which is 3.6 percent below the 2009-11 Legislatively Approved Budget. The budget consists of \$1.22 billion General Fund, \$169 million Other Funds, \$2.15 billion Federal Funds, and 2,034 positions (2,018.08 FTE).

The Governor's budget reshoot adjustments for SPD increased the budget by \$321 million total funds, including a \$121 million General Fund increase and a decrease of 121 positions (73.23 FTE). The reshoot included a \$108 million General Fund and \$317 million total funds increase for updated caseload and cost per case projections in the spring 2011 forecast. Long-term care repricing and DD Comprehensive Services account for all the increase and are slightly offset by DD local field payments and DD Support Services.

Overall, long-term care caseloads for seniors and people with disabilities are forecast to grow 4.4 percent during the 2011-13 biennium, from an average of 27,866 in the 2009-11 biennium to 29,103 in the 2011-13 biennium. The growth is attributed to the economic downturn as well as demographic and program changes. In developmental disability services, demand is projected to increase 10 percent from the 2009-11 level, growing from 19,050 to 20,954 on average for the 2011-13 biennium.

In addition to the statewide packages, the Subcommittee approved Package 810: LFO Analyst Adjustments, which reduced SPD's budget by \$56.5 million General Fund, \$160 million total funds, and 102 positions (101.00 FTE). The package consists of the following adjustments:

- The budget makes a \$6.6 million General Fund, \$16.6 million total funds reduction based on using a lower, riskier long term care caseload forecast. The savings reflect a re-projection of costs based on the most recent actual caseloads, instead of the agency's official Spring 2011 forecast level.
- New long term care provider rate reductions, a \$97.5 million General Fund, \$264 million total funds reduction item in the Governor's budget, are restored for the first year of the biennium. The budget does reflect savings of \$51.5 million General Fund, \$147.6 million total funds in long-term care provider costs. The pricing is based on a 19 percent rate reduction from the 2009-11 level for nursing facilities in the second year of the biennium; a 16 percent rate reduction from the 2009-11 level for community-based care facilities in the second year of the biennium; and savings equivalent to a 14 percent rate reduction in home care worker costs that could be achieved through changing eligibility for insurance benefits for the second year of the biennium.

Implementation of the proposed long-term care reductions is contingent on approval by the federal Centers for Medicare and Medicaid Services (CMS), and, for home care workers, the reductions are subject to collective bargaining. The Subcommittee Co-Chairs' intent is that the long-term care provider reductions anticipated in the budget would be revisited during the 2012 legislative session when the results of discussions with CMS, negotiations with the providers, and any alternative cost savings or additional resources such as caseload savings, possible Special Disability Workload (SDW) funds due to the state from the federal government, increased federal funds from a Medicaid 1915(k) state plan option, and possible SPD administrative efficiencies will be better known. The Legislature expects the agency to work with providers, stakeholders and the Legislature to develop a strategy to help minimize provider rate reductions in the second year of the biennium to the extent possible.

- In-home care Instrumental Activity of Daily Living (IADL) service hours will be reduced 10 percent, beginning January 1, 2012. Overall this is about a 5 percent reduction in in-home hours, reducing costs by \$4.1 million General Fund, \$11 million total funds.
- An additional \$3 million General Fund is allocated to Oregon Project Independence, which brings program funding to \$9 million General Fund for the biennium.
- The Alternatives to Employment (ATE) program and related transportation services for individuals with developmental disabilities are funded to continue at 90 percent of the 2009-11 level.
- Current support services for 18- to 21-year olds with developmental disabilities are continued.
- Developmental Disability Family Support Program services are funded at \$2 million General Fund, slightly more than half of previous funding, to prioritize families who are at risk for crisis, respite care, behavior support plans and adaptive equipment. The agency will also have \$600,000 General Fund that was part of the Governor's budget to create a Family to Family network to help support families of children with developmental disabilities.
- Targeted Case Management services in Community Developmental Disability Programs and brokerages continue with overall funding about 2 percent less than previous funding levels.
- The budget sets a \$2.4 million General Fund, \$6.4 million total funds efficiency target for State Operated Group Homes.
- The budget does not fund 102 new positions included in the Governor's budget to improve staffing levels for client eligibility and Adult Protective Services. The intent is that the agency fills position vacancies held open this biennium for budget savings.

As in the Governor's proposal, the recommended budget anticipates using, in the second year of the biennium, \$6,950,134 Other Funds from the Developmental Disability (Fairview) Community Housing Trust Fund to support program services. The Other Funds will be matched where possible with federal Medicaid matching funds to continue program services for individuals with developmental disabilities and their families. The community housing grant program will continue during the 2011-13 biennium, at reduced levels as funding permits.

Even with the additional Fairview trust fund resources, the budget reflects further reductions in provider rates for comprehensive services, and limiting adult support services to only Medicaid-eligible individuals.

The Subcommittee approved the following two budget notes for the Seniors and People with Disabilities budget:

Budget Note

Oregon has a duty to enhance and preserve a long-term care system prepared to address the needs of low-income seniors and people with physical disabilities, provide maximum service delivery and make the best use of public funds as Oregon's population ages. The Governor shall convene key stakeholders, including representatives from the Department of Human Services, to study and recommend:

1. The best mix of services and supports, including supports to caregivers, to be available in every Oregon community that will keep seniors and people with disabilities as independent as possible, healthy and safe.
2. Specific plans and recommended steps to best blend state and federal resources with private pay to assure access to high quality care and supports for individuals, families and caregivers.
3. Plans and recommended steps to better align state and local administrative structures, identify cost efficiencies and create incentives to assure consistent, efficient and effective service delivery and high quality service outcomes.

The work group shall seek broad input from all stakeholder groups before submitting recommendations to the appropriate legislative committee by January 2012.

Budget Note

Funding is continued at reduced levels during the 2011-13 biennium for the Alternatives to Employment (ATE) programs and related transportation services. The Department is directed to review and report to the 2012 Legislature on utilization, cost and outcome data for services received by adults in ATE programs, including services for adults not engaged in employment activities. By July 1, 2012, the Department of Human Services is to restructure its contracts with program providers to assure the quality of client services, clarify objectives of non-employment day programs, measure and report client outcomes, and minimize administrative costs within available funding.

Central and Shared Services

The Department of Human Services' (DHS) Central and Shared Services is the new model for central administrative functions that support both DHS and the new Oregon Health Authority (OHA) created in House Bill 2009 (2009). This budget structure includes Central Services supporting DHS only, and Shared Services supporting both DHS and OHA.

Central Services include functions that are housed separately in each agency because they are directly related to policy and program in the agency, such as the director's office, communications, parts of budget and human resources, the Governor's Advocacy Office, and debt service.

Shared Services between DHS and OHA include central administrative support services which will be housed in one agency but which will provide services to both agencies. Joint governance and service-level agreements will define the relationship between DHS and OHA for these shared services. For 2011-13, DHS' Shared Services budget includes the Budget Center; Office of Forecasting, Research and Analysis; Office of Financial Services; Human Resources Center; Facilities Center; Office of Document Management; Office of Contracts and Procurement; Office of Investigations and Training; Internal Audits and Consulting Unit; Office of Payment Accuracy and Recovery; the Office of Continuous Improvement; and Shared Services Administration. Direct charges and services for central government assessments and usage charges are not part of this budget structure. Those are part of the Program Support and Administration budgets in the Children, Adults and Families and Seniors and People with Disabilities program areas.

The Subcommittee approved a budget of \$133.3 million total funds, which is a 188 percent increase above the 2009-11 Legislatively Approved Budget (LAB). This substantial increase from the LAB reflects the double-count of the Shared Services expenditures which were not part of the 2009-11 budget. The approved General Fund budget of \$25.9 million is about a three percent decrease from the LAB. The budget includes \$98.5 million Other Funds, \$8.9 million Federal Funds, and 648 positions (628.00 FTE).

The Governor's budget reshoot adjustments for Central and Shared Services increased the budget by \$1.7 million total funds, including a \$0.1 million General Fund decrease and an increase of 19 positions (17.04 FTE). These include correcting a double-counted reduction; shifting Debt Service for the Self Sufficiency Modernization project from the Children, Adults and Families budget; and moving expenditures for the Office of Administrative Hearings to the Oregon Health Authority budget. After the Debt Service adjustment, the budget includes a total of \$17.9 million General Fund for Debt Service payments on information technology projects.

One other budget adjustment approved by the Subcommittee abolishes three positions and establishes two new positions for an agency Director and executive assistant. The original positions were placed in the Oregon Health Authority's budget. The agency is reviewing other position changes that are needed to "true up" its Shared Services staffing, and are to report back on any proposed changes in the fall of 2011.

Emergency Board

As noted in the Children, Adults and Families section above, HB 5030 includes a \$5 million Special Purpose Appropriation to the Emergency Board for child welfare differential response services. If not allocated to DHS by December 1, 2012, the appropriation will become available to the Emergency Board for any other purpose for which it may allocate funds.

Summary of Performance Measure Action

See attached Legislatively Approved 2011-13 Key Performance Measures form. The Subcommittee approved the measures and their targets.

Legislatively Approved 2011-13 Key Performance Measures

Agency: HUMAN SERVICES, DEPARTMENT of

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2012	Target 2013
1 - OVRS CLOSED -EMPLOYED - The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed.		Approved KPM	54.70	66.00	66.00
2 - TANF FAMILY STABILITY – The percentage of children entering foster care who had received TANF cash assistance within the prior two months.		Approved KPM	32.90	30.00	30.00
3 - TANF RE-ENTRY – The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.		Approved KPM	61.90	65.00	65.00
4 - SNAP (Supplemental Nutrition Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.		Approved KPM	74.00	80.00	80.00
5 - SNAP (Supplemental Nutrition Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments.		Approved KPM	96.50	95.00	95.00
6 - ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS.		Approved KPM	48.40	60.00	60.00
7 - ABSENCE OF REPEAT MALTREATMENT - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization.		Approved KPM	93.50	94.10	94.10
8 - TIMELINESS and PERMANENCY OF REUNIFICATION OF CHILDREN.		Approved KPM	125.00	125.00	125.00
9 - TIMELINESS OF FOSTER CARE RELATED ADOPTIONS.		Approved KPM	109.10	104.40	104.40
10 - ACCESS TO I&R and I&A - Access to accurate and consistent Information & Referral and Information & Assistance for people who are not currently served by SPD.		Approved KPM	94.20	95.50	96.00
11 - SENIORS LIVING OUTSIDE OF NURSING FACILITIES - The percentage of Oregon's seniors receiving SPD long-term care services who are living outside of nursing facilities.		Approved KPM	82.20	83.50	84.00
12 - DEVELOPMENTAL DISABILITY SUPPORT SERVICES – The percentage of eligible adults who are receiving adult support services within 90 days of request.		Approved KPM	96.07	98.00	98.00

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2012	Target 2013
13 - PEOPLE WITH DISABILITIES IN COMMUNITY SETTINGS – The percentage of individuals with developmental disabilities who live in community settings of five or fewer.		Approved KPM	98.50	98.60	98.70
14 - INTEGRATED EMPLOYMENT SETTINGS - The percentage of people with developmental disabilities who receive SPD services who are working in integrated employment settings.		Approved KPM	28.70	40.00	40.00
15 - ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of seniors and adults with physical disabilities experiencing abuse.		Approved KPM	0.57	0.54	0.53
16 - ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of people with developmental disabilities experiencing abuse.		Approved KPM	2.43	2.40	2.39
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information	Overall	Approved KPM	72.80	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information	Accuracy	Approved KPM	71.60	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information	Availability of Information	Approved KPM	72.10	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information	Expertise	Approved KPM	72.70	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information	Helpfulness	Approved KPM	72.20	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information	Timeliness	Approved KPM	71.40	75.00	75.00

LFO Recommendation:

Approve deletion of current CAF KPM #21 Timely Adoption, as it is a component of the Timeliness of Foster Care Related Adoptions KPM.
Approve deletion of current SPD KPMs #37, 38, 40, and 42 a, b and c; and approve proposed new measures 11, 12, 13, 15 and 16 to replace them.
Approve the remaining measures with targets as shown, reorganize and renumber.

Subcommittee Action:

Approve the LFO recommendation.

**76th OREGON LEGISLATIVE ASSEMBLY – 2012 Session
BUDGET REPORT AND MEASURE SUMMARY**

MEASURE: SB 5701-A

JOINT COMMITTEE ON WAYS AND MEANS

**Carrier – House: Rep. Richardson
Carrier – Senate: Sen. Devlin**

Action: Do Pass as Amended and as Printed A-Engrossed

Vote: 24 – 0 – 1

House – Yeas: Beyer, Buckley, Cowan, Freeman, Garrard, Komp, McLane, Nathanson, Nolan, Read, Richardson, G. Smith, Thatcher, Whisnant
– Nays:
– Exc:

Senate – Yeas: Bates, Devlin, Girod, Johnson, Monroe, Nelson, Thomsen, Verger, Whitsett, Winters
– Nays:
– Exc: Edwards

Revenue

The budget adjustments in Senate Bill 5701 anticipate a net \$101 million increase in General Fund resources from transfers of Other Funds account balances included in Senate Bill 1579 and other actions. Two major legal settlements contribute to this increase in General Fund resources. First, the State's share of the punitive damages related to the Williams vs. Philip Morris tobacco related case is \$56.2 million. This amount is transferred from the Criminal Injuries Compensation Account by Senate Bill 1579. The second is a multi-state agreement between 49 states and major mortgage lenders over mortgage fraud practices. The amount of \$25.2 million will be directly deposited in the General Fund. Senate Bill 1579 transfers a further \$4 million from the Department of Justice's Education and Protection Fund to the General Fund.

The rebalance plan also assumes a net increase to the June 2012 forecast of \$5 million from lower than anticipated costs related to the issuance of Tax Anticipation Notes (TANs).

Summary of Committee Action

Senate Bill 5701 is the omnibus budget reconciliation bill for the 2012 legislative session, implementing the statewide rebalance plan that addresses changes in projected revenues and expenditures since the close of the 2011 session. The Joint Committee on Ways and Means approved Senate Bill 5701 with amendments to reflect budget adjustments as described below.

Statewide Adjustments/Special Actions

Statewide Restructure of State Government Business Operations

As part of the legislative plan to rebalance the 2011-13 biennium budget, the Co-Chairs of the Joint Committee on Ways and Means included a reduction of \$28 million in combined General Fund and Lottery Funds as part of an effort to restructure state government business operations designed to make permanent changes to the management of agency programs and services. This effort is complementary to the Executive Branch interest in studying and modifying the state's compensation and classification systems to potentially realign the relative balance of management service and represented employees in state government.

Based on this decision, the personal services budgets of selected state agencies were reduced by targeted amounts. These amounts are highlighted in each agency's section of this budget report. The following budget note was adopted, to apply to each agency subject to the management service personal services reduction:

BUDGET NOTE

The budget rebalance plan developed by the Co-Chairs of the Joint Committee on Ways and Means included the elimination of targeted amounts from adopted budgets through actions to be taken to reduce the number of middle managers and public affairs positions in state government and to reduce the amount currently planned for advertising and personal services contracts. In order to make these targeted reductions primarily to personal services appropriations, the Legislative Fiscal Office is directed to work with agencies to identify specific management and other positions to be eliminated as part of a restructuring of business operations aimed at making permanent changes to the management of agency programs and services. Affected agencies are directed to report on the status of this effort, with the assistance of the Legislative Fiscal Office, to the Emergency Board in May 2012. Since these reductions are intended to be permanent, it is expected that no positions recommended for elimination as a result of this plan will be included in the Governor's proposed 2013-15 budget.

E-Government Funding Model Change

The statewide budget rebalance includes General Fund savings in agencies resulting from an upcoming change in the state's e-government funding model. Currently, agencies are assessed by the Department of Administrative Services (DAS) based on the number of an agency's full-time equivalent (FTE) positions to the cost of the statewide contract for e-government services. The expenditure is part of the statewide price list and is budgeted as a State Government Service Charge in an agency's budget.

In November 2011, DAS signed a contract with NICUSA to take over e-government services (the current contract expires in June 2012) using a self-funded model; under the model the vendor will be paid primarily through a convenience fee tied to certain (mostly commercial business) transactions. The new vendor and funding model is projected to be up and running in July 2012; DAS has calculated that it will be able to reduce agency assessments by \$2,232,000 for the last portion of the biennium. Those assessments are eliminated in the DAS budget, along with \$970,912 General Fund budgeted in other state agencies to pay for that assessment.

Emergency Board

The Emergency Board provides General Fund appropriations and Other Funds and Federal Funds expenditure limitation to state agencies for unanticipated needs in approved agency budgets when the Legislature is not in session. As part of the 2011-13 biennium statewide rebalance plan, Senate Bill 5701 adjusts the Emergency Board's general purpose and special purpose appropriations as described below.

General Purpose Emergency Fund

The bill disappropriates \$681,266 General Fund from the Emergency Fund to correspond with a General Fund appropriation to the Department of State Lands, in the same amount, for payment of expenses related to the Portland Harbor Superfund. It also increases the Emergency Fund by \$2.9 million. These two actions leave a balance of \$27.2 million in the general purpose Emergency Fund for the 2011-13 biennium.

Special Purpose Appropriations

Senate Bill 5701 repeals five special purpose appropriations established during the 2011 legislative session for early learning programs and services (\$17.7 million); employment related day care or other supports and services for children and families (\$5.7 million); child welfare differential response (\$5 million); Department of Human Services and Oregon Health Authority caseload and costs for programs and services (\$8 million); and education-related expenses in the Oregon Youth Authority (\$1.7 million). The bill also:

- Reduces a special purpose appropriation for the Department of Forestry by \$2,120,017, with a corresponding \$2,120,017 General Fund appropriation to the Department of Forestry to pay for fire suppression costs.
- Establishes a \$3.5 million special purpose appropriation for the Public Defense Services Commission in the event that the Commission requires additional resources to support trial-level public defense services.
- Establishes a \$1.1 million special purpose appropriation for the Judicial Department to meet any potential operating needs of the courts.
- Establishes a \$60 million special purpose appropriation for potential allotment reduction mitigation; for home foreclosure issues; or for human services caseload increases.
- Establishes a \$10 million special purpose appropriation for the preservation of education programs in case of allotment reductions. This applies to the Community College Support Fund, the Department of Education grant-in-aid programs, and the state General Fund support of the Oregon Health Sciences University.

If the moneys in the special purpose appropriations are not allocated by the Emergency Board before December 1, 2012, the moneys are available to the Emergency Board to be allocated for any purpose for which the Emergency Board lawfully may allocate funds.

Adjustments to Agency Budgets

Education Program Area

Department of Community Colleges and Workforce Development

The Committee approved a 3.5% reduction to the General Fund appropriation for the following programs that had not been subject to the supplemental ending balance adjustment made during the 2011 legislative session:

- Skill Centers – \$19,250
- Trucking Solutions Consortium and loans to students participating in commercial driver training – \$17,500
- National Career Readiness Certificate and on-the-job training programs – \$119,000

The Committee restored \$813,402 for debt service (\$551,965 General Fund, \$261,437 Lottery Funds, and \$200,000 Other Funds) which had been reduced as part of the supplemental ending balance in the 2011 legislative session. The Community College and Workforce Development Department has \$200,000 available in interest earnings on bond proceeds to make a portion of the debt service payment.

As part of the statewide effort to restructure state government business operations and management of agency programs and services, the personal services budget for the agency was reduced by \$95,768 General Fund. A reduction of \$994 General Fund was made for the agency's share of the statewide e-government savings.

Department of Education

The Committee approved a 3.5% reduction to the General Fund appropriation for the Oregon Department of Education (ODE) for the following new programs that had not been subject to the supplemental ending balance adjustment made during the 2011 legislative session:

- School District Collaboration (Senate Bill 252) – \$175,000
- Career and Technical Education (House Bill 3362) – \$70,000
- Accelerated College Credit (Senate Bill 254) – \$8,750
- For Inspiration and Recognition of Science and Technology (FIRST) – \$5,250
- Farm-to-School (House Bill 2800) – \$7,000
- After School Meal and Snack (Senate Bill 480) – \$6,300

An increase of \$5,610,036 Other Funds expenditure limitation was approved for the long-term care and treatment program. The increase supports an additional 271 slots from the implementation of Senate Bill 170 (2011) and \$1.6 million Other Funds for a high-cost reserve and inflation in the average net operating expenditures.

The 2011-13 legislatively adopted budget included \$5 million General Fund to cover the cost from a breach of contract lawsuit. The Department was directed to first use its 2009-11 legislatively approved budget to the greatest extent possible to address the payments, with any remaining balance due to be paid from the 2011-13 appropriation. The Committee approved a reduction of \$2 million General Fund as final payments have been made.

The overall funding level for the State School Fund was increased by \$2.5 million to cover the cost of extending the sunset for the Small School District Supplement Fund until June 30, 2013 (one additional year). Further, the Committee modified the funding sources to address a forecasted decline in Lottery Funds revenues. The General Fund appropriation is increased by \$5,479,570; the Lottery Funds allocation and expenditure limitation is decreased by \$2,979,570 million.

The Committee added \$587,015 General Fund for the Early Head Start Program. With this additional funding, the Department is expected to maintain 59 enrollment slots for the balance of the biennium.

A \$431,521 General Fund reduction in the personal services budget for the agency was made as ODE's share of the statewide effort to restructure state government business operations and management of agency programs and services (\$280,465 Operations, \$151,056 School for the Deaf). The budget was also reduced by \$18,413 General Fund to capture statewide e-government savings.

The Committee restored debt service of \$1,848,887 Lottery Funds and \$61,218 Other Funds to cover obligations that were reduced as part of the supplemental ending balance in the 2011 legislative session.

Oregon Health & Science University

The Committee approved a 3.5% reduction, or \$18,375 General Fund, for new Health Care Loans (House Bill 2397, 2011) that had not been subject to the supplemental ending balance adjustment made during the 2011 legislative session.

Oregon Student Access Commission

Senate Bill 5701 reflects three adjustments to the Commission's budget. The Committee transferred \$34,152 General Fund from the Oregon Opportunity Grants to child care grants to offset the 3.5% supplemental ending balance reduction for that program in the legislatively adopted budget. The second reduced personal services by \$29,294 General Fund for the Commission's share of the statewide effort to restructure state government business operations and management of agency programs and services. The third change was a \$462 General Fund reduction to capture statewide e-government savings.

Teacher Standards and Practices Commission

As part of the Co-Chairs' statewide rebalance plan, the Committee eliminated the \$100,000 General Fund appropriation for the Educator Preparation Improvement Fund established in House Bill 3474 (2011). The Fund remains in statute and the Teacher Standards and Practices Commission may still accept grants, donations or gifts of money.

The Committee also established an \$85,455 Federal Funds expenditure limitation for the Advancing Longitudinal Data for Educational Reform (ALDER) grant funds received through an intergovernmental agreement with the Department of Education. Funds will be used to support staff time, data gathering, and hardware.

Oregon University System

General Fund debt service appropriations for the Oregon University System (OUS) are adjusted based on updated repayment schedules and restorations of supplemental ending balance reductions taken as part of the legislatively adopted budget. General Fund debt service on Article XI-G general obligation bonds was increased by \$1.7 million. General Fund debt service on certificates of participation (COPs) was increased by \$585,977. General Fund debt service for repayment of energy loans to the Department of Energy (SELP) was decreased by \$3.1 million. The net effect of these adjustments is a savings of \$892,900 General Fund. Lottery Funds expenditure limitation for debt service was increased by \$260,577 to meet lottery bond obligations. Sports Lottery was reduced by \$232,960 to make Lottery Funds available to meet debt service obligations, with direction that this reduction be split between the University of Oregon (\$118,613) and Oregon State University (\$144,347), both of which are on track to experience significant increases in athletic revenues in the 2012-13 fiscal year. In addition, Other Funds debt service was increased by \$344,054 to reflect the redirection of lottery bonds proceeds issued in 2007 for capital repair projects to now pay for debt service on existing lottery bonds.

The Committee approved a 3.5% reduction, \$11,550 General Fund, for clinical legal education (House Bill 5056, 2011) that had not been subject to the supplemental ending balance adjustment made during the 2011 legislative session

Human Services Program Area

Oregon Health Authority

The Oregon Health Authority (OHA) budget is organized into several program areas including Health Care Programs, Addictions and Mental Health, and Public Health, as well as Central and Shared Services. Senate Bill 5701 adjusts the OHA budget for updated pricing of program caseloads, costs and revenues, and selected management actions to help “rebalance” the budget. Most notable are additional costs of \$21.3 million General Fund mostly related to a shortfall in personal services funding in the budget, and \$25.0 million General Fund savings primarily related to caseload changes. The rebalance plan includes agency actions to manage a portion of the personal services underfunding. Finally, the rebalance plan includes a number of technical adjustments to fix errors made in the original split of the Department of Human Services (DHS) into two agencies, and to realign resources within OHA. This includes moving 13 positions from OHA to DHS, and a realignment of positions in the Oregon State Hospital.

The budget as adjusted reflects a number of actions to be taken as a result of the \$62.4 million General Fund and \$390,969 Lottery Funds withheld in the legislatively adopted budget for the 3.5% supplemental statewide ending balance. These actions include various program reductions and the use of one-time revenue sources. They also include total administrative reductions of \$15.3 million General Fund, including the expectation that the agency will manage \$8.3 million of the personal services underfunding in the agency through holding position vacancies and other actions. This total also includes a reduction of \$5.1 million General Fund, which is OHA’s share of the statewide effort to restructure state government business operations and management of agency programs and services. The budget was reduced by \$104,840 General Fund and \$100,729 Federal Funds to reflect savings in State Government Service Charges from the changes in the state’s e-government funding model.

With the addition of certain other actions beyond that already described, the approved adjustments result in an overall \$146.5 million increase in the agency’s total funds budget, but a \$24.6 million General Fund decrease. These actions also result in a \$390,969 decrease in Lottery Funds expenditure limitation, an \$18.6 million increase in Other Funds expenditure limitation, a \$152.8 million increase in Federal Funds limitation, and a reduction of 53 positions (53.00 FTE).

A more detailed description of each program area follows.

Health Care Programs

The budget adjustments in Senate Bill 5701 reflect a net reduction of \$34.1 million General Fund in the Health Care Programs budget, with a \$4.3 million increase in Other Funds expenditure limitation and a \$64 million increase in Federal Funds expenditures limitation. Positions are reduced by 18 (18.00 FTE).

The rebalance plan approved by the Committee includes overall savings of \$25.9 million General Fund, primarily as a result of lower caseloads, but also savings from a slight increase in the federal match rate. Increased costs include a shortfall of \$1.2 million in tobacco tax forecast, as well as \$2.6 million in General Fund costs related to the Medicaid Management Information System (MMIS) as a result of new federal requirements. The federal government will contribute \$21.8 million or 90% of these costs. The rebalance also includes an additional \$80 million in Federal Funds expenditure limitation for the Federal Medical Insurance Pool (FMIP), which is a new federal program to provide insurance coverage for high risk individuals.

The Committee approved a number of other actions, partially to manage the \$33.1 million General Fund withheld in the legislatively adopted budget for the 3.5% supplemental statewide ending balance. Federal revenues from both the 2010 and 2011 federal Children's Health Insurance Program Reauthorization Act (CHIPRA) bonuses, totaling \$23.5 million, will replace General Fund. A total of \$16.8 million of insurer's tax revenue will be redirected to help ensure access to health care for children. Of this total, \$11 million will be used to preserve services for children by preventing program reductions in the Oregon Health Plan (OHP) Plus program. These resources come from unallocated funds of \$10 million and an additional \$1 million in reduced marketing/advertising for the Healthy Kids program. Another \$5.8 million will be used in the Family Health Insurance Assistance Program (FHIAP) to prevent further program reductions. These resources result from lower than expected caseloads in Healthy Kids Connect. The following budget note was approved related to the insurer's tax:

BUDGET NOTE

The Oregon Health Authority is instructed to convene a stakeholder work group consisting of all eight health insurers domiciled in Oregon to review whether there is a future for the health insurance premium tax. Further, by December 2012, the work group shall make recommendations on how to address the funding gap that will arise after the September 30, 2013 sunset of the existing tax authority and how to allocate any surplus premium tax revenue in the remaining months of the 2011-13 biennium to health care programs, especially for Oregon's children. The Oregon Health Authority is instructed to memorialize discussions in writing, as well as to provide updates on the work group discussions to the interim health care policy committees.

A number of program reductions are included in this budget, including administrative reductions of \$1.5 million General Fund. In addition, the agency is expected to manage all personal services underfunding within this program area. Membership in FHIAP will be reduced to save \$2 million General Fund, and those clients will be eligible for OHP Standard. Six positions (6.00 FTE) are also eliminated in the program. Funding for outreach workers at Federally Qualified Health Centers will be reduced by \$134,875 General Fund. The Committee approved the addition of \$1 million General Fund to mitigate the earlier reductions to the reimbursement rates for durable medical equipment. These adjustments are expected to be implemented at the same time as the overall rate adjustments for durable medical equipment for the fiscal year beginning July 1, 2012. This budget has also been reduced by \$699,560 General Fund as a result of the statewide effort to restructure state government business operations and management of agency programs and services. The following budget note relating to generic drugs was approved:

BUDGET NOTE

The Oregon Health Authority is directed to pursue a competitive bidding process for the purchase of lowest cost generic drugs within the Medicaid program. The agency shall report back to the Emergency Board by December 2012 on the status and results of this initiative.

At the direction of the Governor and legislative leadership, OHA suspended new program enrollment in OHP Standard effective January 2012. This was done in order to give the Legislature maximum flexibility to rebalance the budget. These resources were not used in the budget rebalance, and the agency is expected to reopen enrollment in this program.

Addictions and Mental Health

Overall budget adjustments for Addictions and Mental Health increase General Fund by \$3.3 million. These adjustments also result in a reduction to Lottery Funds expenditure limitation of \$390,969, an increase in Other Funds limitation of \$5.7 million, and an increase in Federal Funds limitation of \$3.2 million. A total of 35 positions are eliminated (35.00 FTE).

The rebalance plan approved by the Committee includes General Fund costs of \$12 million, primarily a result of underfunded personal services costs. The Oregon State Hospital accounts for \$14.1 million out of the total \$17.5 million General Fund shortfall in personal services funding agency wide. The rebalance plan reports management actions to absorb about 30% of this shortfall. This is a particularly difficult area of the budget in which to manage personal services costs, since holding vacancies of direct-care staff can result in inadequate staffing levels to provide the necessary care, and may also result in higher overtime costs. The rebalance includes a realignment of positions in the Oregon State Hospital. While this has no impact on the budget, it does result in a reduction of 34 positions. An additional Federal Funds expenditure limitation of \$3.9 million is included in the rebalance. A portion of this is needed as a result of more federal resources from Alcohol and Drug program grants than was originally anticipated. The remainder is for additional federal match of General Fund at the state hospital, which was understated in the legislatively adopted budget.

The Committee approved a number of other actions, partially to manage the \$23.4 million General Fund withheld in the legislatively adopted budget for the 3.5% supplemental statewide ending balance. Four wards in the new Oregon State Hospital will not be opened until the beginning of the 2013-15 biennium. This results in one-time General Fund savings of \$19.6 million in 2011-13, primarily as a result of positions held vacant for part of the biennium. Gambling addiction programs have been reduced by \$390,969 Lottery Funds. This is in addition to the program reduction as a result of the 3.5% supplemental ending balance holdback. Funding for the development of new capacity in the community mental health system is reduced by \$2.8 million General Fund, leaving \$4.8 million in the budget to move forward with immediate plans for expansion of capacity.

This budget anticipates using, in the second year of the biennium, \$5.7 million Other Funds from the Community Mental Health (Dammasch) Housing Trust Fund to support program services. This amount is equal to one-half of the current principal in the Fund. The Other Funds will be used to continue to provide community services to children and adults with mental illness. The community housing grant program will continue during the 2011-13 biennium, at reduced levels as funding permits. The following budget note related to the Dammasch Fund was approved:

BUDGET NOTE

Funds from the Dammasch Trust Fund in the 2011-13 budget are being used due to the severe revenue shortfall the state has experienced. Dammasch funds are being used exclusively for vital mental health services. If revenue should substantially increase in the current biennium, the Legislature will restore these funds to their full amount.

This budget has been reduced by \$3.4 million General Fund as a result of the statewide effort to restructure state government business operations and management of agency programs and services. The agency is also expected to manage a portion of the personal services underfunding within this program area.

Public Health

In Public Health, the overall budget adjustments add \$1.8 million General Fund, \$5.1 million Other Funds, and \$5.7 million Federal Funds.

The rebalance plan approved by the Committee includes a General Fund cost of \$1.2 million, primarily a result of underfunded personal services costs. The plan also includes a \$6.2 million Federal Funds expenditure limitation increase for the Office of Family Health and the Office of Environmental Health. This includes grant awards for the Maternal Infant and Early Childhood Home Visiting Program, the WIC Breastfeeding Program, and the Healthy Homes grant.

Actions were approved to manage the \$1.2 million General Fund withheld in the legislatively adopted budget for the 3.5% supplemental statewide ending balance. The agency is expected to manage all personal services underfunding within this program area. This budget has also been reduced by \$303,303 General Fund as a result of the statewide effort to restructure state government business operations and management of agency programs and services. Other approved actions include the transfer of \$1.5 million from the Tobacco Use Reduction Account to the state General Fund.

Central, Shared & Direct Charge Services

The budget adjustments for Central, Shared and Direct Charge Services increase General Fund by \$5.1 million, Other Funds expenditure limitation by \$3.5 million, and Federal Funds expenditure limitation by \$80 million.

The rebalance plan includes a General Fund cost of \$4 million, primarily a result of underfunded personal services costs. The plan also includes a \$3.5 million increase in Other Funds expenditure limitation for Shared Services. Federal Funds expenditure limitation is increased by \$80.4 million to support additional resources for projects supported by the Office of Health Information Technology (OHIT). OHIT has received additional federal grant funds to support the infrastructure that will promote the development of health information technology strategies and applications to support the widespread improvement of the health care system. It also expects to receive \$67.8 million Federal Funds during the biennium to pass through to health care professionals and hospitals in Oregon as incentives to develop electronic health record systems.

The Committee approved a number of other actions, partially to manage the \$4.7 million General Fund withheld in the legislatively adopted budget for the 3.5% supplemental statewide ending balance. The agency is expected to manage all personal services underfunding within this program area. The original \$4.7 million holdback included \$1.9 million General Fund related to debt service, which was added back. This budget has also been reduced by \$691,053 General Fund as a result of the statewide effort to restructure state government business operations and management of agency programs and services.

Department of Human Services

Senate Bill 5701 increases the Department of Human Services (DHS) budget by a net \$103.5 million General Fund, \$22 million Other Funds, \$160.7 million Federal Funds, and 13 positions (13.00 FTE). The 13 positions are moved from the Oregon Healthy Authority, for no net increase between the two agencies. The net adjustments reflect updated pricing of program caseloads, costs and revenues, and selected agency actions to help “rebalance” the legislatively adopted budget; technical adjustments to fix errors made in the initial distribution of resources between DHS and the Oregon Health Authority when that new agency was created; actions to be taken to address the \$73.7 million General Fund unspecified reduction in the legislatively adopted budget for the 3.5% supplemental statewide ending balance; and other actions anticipated in the Ways and

Means Co-Chairs' statewide budget plan. The budget was reduced by \$240,259 General Fund and \$196,576 Federal Funds to reflect savings in State Government Service Charges from the change in the state's e-government funding model. More detailed description of the budget changes and actions in each program area follows.

Central Services

The Central Services budget is reduced by \$522,515 General Fund, \$10,047 Other Funds, \$1.3 million Federal Funds, and 9 positions (8.99 FTE). This includes reductions of \$580,630 General Fund and \$478,824 Federal Funds as part of the statewide effort to restructure state government business operations and management of agency programs and services. This unit is also expected to manage \$310,205 General Fund and \$310,205 Federal Funds in higher-than-budgeted position costs through holding position vacancies and other actions. Technical adjustments are made to move one position (1.00 FTE) into and 10 positions (9.99 FTE) out of this budget.

Children, Adults and Families

Senate Bill 5701 increases funding for Children, Adults and Families (CAF) by \$26.8 million General Fund, \$14.9 million Other Funds, and \$31.1 million Federal Funds. This reflects budget adjustments based on CAF's budget rebalance needs and technical adjustments, the \$28.7 million General Fund reduction made in the 2011-13 legislatively adopted budget for the 3.5% supplemental ending balance, and other actions anticipated in the statewide budget plan.

DHS identified a net \$34.5 million General Fund need in the CAF budget in its financial report to the Joint Interim Committee on Ways and Means in January 2012. The federally-funded Supplemental Nutrition Assistance Program (SNAP) caseload continues significant growth: \$130 million was added to CAF's nonlimited Federal Funds expenditure limitation in December 2011, 5.6% above the legislatively adopted budget level. Caseloads and costs in the Temporary Assistance to Needy Families (TANF) cash assistance programs are forecast to be \$44.1 million General Fund higher than budgeted, with the most notable increase in the TANF Basic caseload, where the average caseload is now projected to be 28,607 monthly, 17.2% higher than the 24,407 average in the legislatively adopted budget. Child Substitute Care caseloads are forecast higher than budgeted, primarily in regular foster care, special contracts, residential treatment, and target children cases. Other substitute care programs show a small savings compared to the budget. Adoptions program caseloads and costs are projected to be lower than funded in the legislatively adopted budget.

Notable revenue adjustments in CAF's budget rebalance and in the statewide budget plan include the use of \$16 million in federal TANF funds received but not spent in the 2009-11 biennium; \$5.1 million in SNAP access and application process bonuses; and \$6.2 million in federal Child Care and Development Fund moneys received from the Employment Department as Other Funds. In addition, \$10 million in federal fiscal year 2013 TANF contingency funds are assumed to replace a \$5 million shortfall in federal fiscal year 2012 funding and to help avoid \$8 million in further reductions in TANF programs.

Key elements of the CAF budget after the Senate Bill 5701 adjustments include the following:

- In the TANF program, basic cash assistance payment levels and income eligibility criteria are unchanged. Current TANF Parents as Scholars clients can complete their education without losing cash assistance. The TANF Family Support and Connections program is maintained at full funding. Adults who meet the federal 60-month time limit in- or out-of-state will not be eligible for TANF in Oregon. The current "job quit"

ineligibility period is extended from 60 to 120 days. Post-TANF payments to working families are ended May 1, 2012, two months earlier than originally budgeted. There continues to be risk in TANF caseloads which are already running above the Fall 2011 forecast level.

- \$9 million in unallocated JOBS funding is maintained for job placement, contracted slots and client support services such as child care and transportation.
- Employment Related Day Care (ERDC) caseloads are funded at an expected 8,500 average cases, with a continued mix of General Fund and federal Child Care and Development Fund moneys. Client co-payments are increased by 10%, an average of \$5 to \$10 monthly for families receiving subsidies. The unallocated \$5.7 million special purpose appropriation to the Emergency Board for ERDC or other supports and services for children and families is eliminated.
- Child welfare services are maintained, including funding for SB 964 (2011) community-based, family preservation and reunification programs. The unallocated \$5 million special purpose appropriation to the Emergency Board for child welfare differential response is abolished. The new initiative to contract for domestic violence advocates in program offices is scaled back, and \$1 million for new infrastructure grants to domestic violence shelters is eliminated. Foster care, adoptions assistance and other child welfare provider reimbursement payments are unchanged from the legislatively adopted budget level.
- Funding for refugee services is decreased by \$100,000, reducing the legislatively adopted budget for the program by less than 1% overall. The \$100,000 reduction is made in federal TANF funds which will be used elsewhere in CAF to free up \$100,000 General Fund.
- Vocational Rehabilitation Services are continued without reduction.

Higher-than-budgeted position costs in CAF total \$15.6 million General Fund and \$15.6 million Federal Funds; these costs will be managed through holding position vacancies and other actions. An additional \$1.9 million General Fund and \$1.9 million Federal Funds reduction is made in CAF self-sufficiency program staffing and other operating costs. The CAF budget is further reduced by \$3 million General Fund, \$180,000 Other Funds and \$2.8 million Federal Funds as part of the statewide effort to restructure state government business operations and management of agency programs and services. Overall, the impact of these actions is expected to reduce CAF staffing by the equivalent of more than 310 positions, and bring field staffing levels for self-sufficiency and child welfare programs down to less than 70% of the workload staffing models for those programs.

Seniors and People with Disabilities

The budget for Seniors and People with Disabilities (SPD) is increased by \$77.2 million General Fund, \$4.4 million Other Funds, and \$129.8 million Federal Funds. Technical adjustments move one position (1.00 FTE) from SPD to the Central Services budget. These budget adjustments address SPD's budget rebalance and technical adjustments, the \$44.1 million General Fund reduction made in the 2011-13 legislatively adopted budget for the 3.5% supplemental ending balance, and other actions anticipated in the statewide budget plan.

DHS reported in January 2012 to the Joint Interim Committee on Ways and Means that caseloads in long-term care facilities for seniors and people with physical disabilities are expected to be down just slightly overall from the caseloads funded in the legislatively adopted budget.

However, costs for in-home cases and community-based care were higher than budgeted, in part because of some clients shifting to home and community-based care settings from Medicare Part A and Part B Buy-in programs that pay Medicare premiums for low-income “dual eligible” seniors who qualify for both Medicare and Medicaid. In the programs serving people with developmental disabilities, caseloads overall were slightly less than initially funded, although costs per case were running higher due to higher client acuity levels and some movement between program settings. Higher Medicaid client participation rates in those programs were expected to provide more Federal Funds to help offset the higher overall costs. Overall, SPD’s budget rebalance showed a small General Fund savings from the legislatively adopted budget, before consideration of the 3.5% supplemental ending balance reduction and the budgeted long-term care reimbursement reduction.

In addition to the unspecified \$44.1 million General Fund reduction for the 3.5% supplemental ending balance, the legislatively adopted budget reflected a reduction of \$51.5 million General Fund, \$147.6 million total funds in the second year of the biennium for long-term care costs for seniors and adults with physical disabilities in in-home services, community-based facilities, and nursing facilities. When repriced for the shift in service settings and costs in the agency’s budget rebalance, to fully restore this reduction would require \$53.4 million General Fund. The adjustments in Senate Bill 5701 include an additional \$40 million General Fund appropriation in this program area, reducing the potential reimbursement reduction from \$53.4 million to \$13.4 million. The Co-Chairs’ intent is that the Governor’s Office, the Oregon Health Authority and DHS will pursue additional federal Medicaid funding or other federal revenue to mitigate or eliminate the full reduction. DHS is expected to report on this issue to the Emergency Board at its May 2012 meeting, with recommendations regarding any further action to be taken at that time. In addition, as part of the Co-Chairs’ budget rebalance plan, an agreement was made to consider using the Emergency Fund to cover the remaining \$13.4 million reimbursement reduction if additional federal funds are not obtainable and the June 2012 Oregon Economic and Revenue Forecast of 2011-13 biennium General Fund revenues, excluding the impact of 2012 legislative session adjustments, exceeds the amount of General Fund revenues in the March 2012 forecast by at least \$25 million.

The approved budget makes no reductions in Oregon Project Independence services, Medicaid adult day services, or Medicaid home-delivered meals programs.

Alternatives to Employment Services, Sheltered Employment, Supported Employment, the Family Support Program and Family-to-Family network for people with developmental disabilities and their families also continue without reductions. The plan avoids further reductions to reimbursement rates for brokerages and community developmental disability programs (CDDPs). It also adds \$7.5 million General Fund for 24-hour residential providers; for supported living providers; and for children’s residential providers including children’s foster care group homes, to bring the 2011-13 biennial budget reductions to no more than 6% below the 2009-11 level. No changes were made at this time for the adult foster care programs, which are currently in collective bargaining negotiations. The following budget note was approved:

BUDGET NOTE

The Department of Human Services is to report to the Emergency Board in September 2012 on the outcome of the negotiations for the adult foster care programs. If the negotiations result in a reduction that is more than 6% below the 2009-11 reimbursement rate, DHS is to identify options for bringing reimbursement for adult foster care programs to no more than a 6% reduction for the balance of the biennium, and include its preferred option in the agency’s next budget rebalance plan.

Costs for crisis diversion and in-home services for some individuals with developmental disabilities will be limited, resulting in budget savings of \$241,149 General Fund and \$956,710 Federal Funds. Clients in three additional state operated group homes for adults with disabilities will be moved to private group homes, for a \$350,190 General Fund and \$571,410 Federal Funds savings this biennium. With three state operated group homes already in the process of being closed, DHS will move a total of 30 clients to private group homes by the end of the biennium, for an estimated net savings of \$1.3 million General Fund and \$3.4 million Federal Funds.

The budget adjustments anticipate \$2.8 million in General Fund savings from a total of \$1.5 million Other Funds and \$1.3 million Federal Funds in increased revenue, based on contractor estimates for higher third-party recoveries for long-term care cases, higher projected estate recoveries, and a new Medicaid 1915(c) waiver for in-home comprehensive services for children with developmental disabilities.

Higher-than-budgeted position costs in SPD total \$9.4 million General Fund and \$10.7 million Federal Funds; these costs will be managed through holding position vacancies and other actions. An additional \$1 million General Fund and \$1 million Federal Funds reduction is made in SPD and Area Agencies on Aging (AAAs) program staffing and other operating costs. The SPD budget is further reduced by \$2.5 million General Fund and \$3.3 million Federal Funds as part of the statewide effort to restructure state government business operations and management of agency programs and services. Overall, the impact of these actions is expected to reduce staffing for AAA, DD, and SPD staffing by the equivalent of 180 positions, with reduced field staffing levels for Medicaid eligibility and case management.

Shared Services

The Shared Services budget is increased by a net \$2.8 million Other Funds and 23 positions (22.99 FTE). Technical adjustments add \$3.5 million Other Funds, based on the transfer of 23 positions to Shared Services from within DHS and the Oregon Health Authority. The budget reflects a reduction of \$716,863 Other Funds as part of the statewide effort to restructure state government business operations and management of agency programs and services. Higher-than-budgeted position costs of \$4 million Other Funds will be managed through holding position vacancies and other actions.

Of note: Senate Bill 5701 abolishes the unallocated \$8 million special purpose appropriation to the Emergency Board established in 2011 for Department of Human Services and Oregon Health Authority caseloads and costs for programs and services. However, the agencies may, if needed, be able to access a part of the new \$60 million special purpose appropriation to the Emergency Board designated for potential allotment reduction mitigation; for home foreclosure issues; or for human services caseload increases.

Public Safety Program Area

Department of Corrections

Senate Bill 5701 adds a net \$38.1 million General Fund for the Department of Corrections (DOC), reflecting a partial restoration of the 2011-13 legislatively adopted budget's adjustment for the supplemental ending balance, a "rebalance" of resources across the agency's divisions, and DOC's share of the statewide effort to restructure state government business operations and management of agency programs and services.

The 2011-13 legislatively adopted budget included a \$48.2 million General Fund (3.5%) reduction for the supplemental ending balance. The Committee restored \$38.1 million resulting in the following reductions and actions the agency must make to close the resulting funding gap:

- The amount of funding dedicated for the reimbursement of counties for the jail costs of incarcerating Ballot Measure 73 offenders is reduced by \$1.6 million General Fund. Requests for reimbursement have been lower than expected for the first six months of the biennium. The agency would need to request further funding or reallocate resources within its budget if requests return to at least the amount assumed in the legislatively adopted budget.
- A greater amount of federal funds through the State Criminal Alien Assistance Program (SCAAP) is now anticipated so \$315,352 General Fund in the Health Services Division may be replaced with an equivalent amount of federal funds.
- The amount of debt service required for 2011-13 is reduced by \$81,641 General Fund through refinancing of existing certificates of participation (COPs). Future biennial budgets will reflect savings due to this refinancing.
- DOC's share of the statewide effort to restructure state government business operations and management of agency programs and services is \$7.9 million General Fund.

BUDGET NOTE

The Department of Corrections is instructed not to close or deactivate any facility or units for the purposes of the \$7.9 million reduction related to the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services without consulting the Emergency Board or the Legislature.

The Committee also approved an agency-wide rebalance of appropriation and expenditure limitation affecting most of the divisions. Overall, this rebalance reflects no net increase in General Fund, a \$98,019 increase in Other Funds expenditure limitation, and a \$7,989 decrease in the Federal Funds expenditure limitation. As part of this rebalance, \$220,875 General Fund is transferred to the Operations Division from the Transitional Services Division accounting for funding for one of the five management positions that were eliminated in the 2011-13 legislatively adopted budget. This bill eliminates the five positions (5.00 FTE) since only the funding was eliminated in the 2011 legislative session. The agency's budget was also reduced by \$266,788 General Fund to capture statewide e-government savings.

The bill also repeals the appropriation section for Chapter 666 (House Bill 2940, 2011) and combines this \$100,095 General Fund appropriation with the primary appropriation for the agency found in Chapter 635 (Senate Bill 5505, 2011). Also established in this bill is an Other Funds expenditure limitation for Capital Improvements of \$413,449 for the replacement of components of the Eastern Oregon Correctional Institution's (EOCI) water heating system utilizing solar panels.

The Other Funds expenditure limitation is increased by \$3.2 million for grants to local jails funded by criminal court fees. This limitation was inadvertently left out of House Bill 2712 (2011). The Federal Funds expenditure limitation is also increased by \$600,000 for a federal grant that the agency has received relating to the Prison Rape Elimination Act (PREA). There are three limited duration positions (0.81 FTE) authorized for the activities associated with this grant.

Oregon Criminal Justice Commission

The Committee approved an increase in the Federal Funds expenditure limitation for the Criminal Justice Commission (CJC) of \$6,987,121 reflecting the amount of federal resources that must be spent by the end of the 2011-13 biennium. At the time final action on CJC's 2011-13 budget was taken during the 2011 legislative session, the amount of available federal funding through various grants was not finalized. These funds will mostly be used for programs similar to drug courts for Ballot Measure 57 offenders.

District Attorneys and Their Deputies

Senate Bill 5701 appropriates \$359,976 General Fund for the District Attorneys and Their Deputies. This increase represents a restoration of the entire amount reduced for the supplemental ending balance in the 2011-13 legislatively adopted budget offset by a \$2,078 General Fund decrease for the e-government adjustment. The only option for adjusting this budget is to reduce the compensation of the 36 locally elected District Attorneys.

Department of Justice

The Committee approved a net reduction of \$160,840 in the General Fund appropriation for the Department of Justice (DOJ). Instead of restoring the \$1.9 million General Fund (3.5%) that had been reduced in the 2011-13 legislatively adopted budget for the supplemental ending balance, several reductions were made to fill the gap. These General Fund adjustments include \$600,652 for the Defense of Criminal Convictions (DCC) program. At this time the agency believes this reduction will not significantly affect the DCC program as long as the target savings from management actions are met and the resources in a special purpose appropriation to the Emergency Board are available for the program. This DCC reduction also leads to decreases in the Other Funds expenditure limitations for the Appellate Division of \$210,442 (one position/1.00 FTE) and for the Trial Division of \$39,347 (0.25 FTE).

The Division of Child Support will use mostly vacancy savings to save \$785,156 General Fund, also resulting in a decrease of \$1,395,709 in federal matching funds. The Committee did approve a \$300,000 General Fund increase and a \$600,000 increase in the Federal Funds expenditure limitation for matching federal funds to continue the development of the replacement of the Division of Child Support's major information management system necessary to keep pace with changing program and federal requirements. The Criminal Justice Division will reduce its District Attorney Assist and Organized Crime programs by \$270,831 General Fund (2 positions/1.00 FTE) which also results in a \$221,874 reduction in the Other Funds expenditure limitation for the Division. Other General Fund reductions include \$10,500 for the grant to Project Clean Slate and \$50,000 from the Civil Rights unit. The change in the General Fund also reflects the use of \$348,950 Other Funds in penalties and other resources collected through the Medicaid Fraud unit to offset an equivalent amount of General Fund.

The DOJ's share of the statewide effort to restructure state government business operations and management of agency programs and services is \$600,000 Other Funds. It is expected all of the agency's programs will be reviewed and that a portion of the resulting reduction could lead to overall General Fund savings as the rate for agency legal services is adjusted.

The Department of Justice has joined the Attorneys General in 49 other states in a financial settlement with major private mortgage lenders. Funding to assist distressed homeowners and direct payments to states are part of this settlement. The following budget note is included for the Department of Justice.

BUDGET NOTE

The Department of Justice may request funding for activities related to mortgage fraud and similar issues from the special purpose appropriation established for this purpose. These activities may include investigation and prosecution of mortgage fraud cases, efforts to assist distressed homeowners access funding made available by the recent multi-state settlement with private mortgage lenders, housing counseling, and other activities relating to possible foreclosures. The Department of Justice shall work with the Department of Consumer and Business Services, the Housing and Community Services Department, and other agencies and entities in formulating a plan for the best use of these funds for presentation to the Emergency Board as part of its request for these funds.

Oregon Military Department

None of the funding reduced in the 2011-13 legislatively adopted budget was restored for the Oregon Military Department. The Committee made further reductions including \$35,046 General Fund in the Operations program through vacancy savings for a facilities engineer position, and transferred \$71,937 in savings from the Capital Debt Service program to the Operations program for general operating services and supplies expenses. The net General Fund increase to the Operations program is \$36,891. The Committee also decreased the Emergency Management program by a total of \$120,897 General Fund. A portion of this reduction is from vacancy savings in the Director of Emergency Management position (\$11,816) with the remainder as the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services (\$109,081).

The Committee appropriated \$4.5 million General Fund to Military Department for depositing into the Oregon Local Disaster Assistance Loan and Grant Account for school districts that have raised at least 50% of the cost from local resources and donations for the replacement and relocation of school buildings damaged or destroyed by a flood that is declared a federal disaster. The Committee also approved \$4 million Other Funds expenditure limitation for the Oregon Local Disaster Assistance Loan and Grant Account for the payment of such expenses.

The Community Support program's Other Funds expenditure limitation is increased by \$118,339 for 2011 fire season expenditures.

The Committee also increased the Capital Debt Service Other Funds expenditure limitation by \$306,589 for cash proceeds from previously issued Seismic Rehabilitation Grant bonding and \$241,578 for cash proceeds from previously issued certificates of participation used to fund various armory capital improvements. These funds will be used in lieu of General Fund, for \$548,167 in General Fund Debt Service savings.

The following budget note was adopted.

BUDGET NOTE

The Military Department is directed to prepare a statewide information technology plan for upgrading Oregon's 9-1-1 system(s) to Next Generation technology. The plan shall include a detailed component to consolidate the state's Public Safety Answering Points based upon the 2012 L.R. Kimball Consolidation Analysis and Next Generation 9-1-1

Implementation Report. The plan is to be submitted through the normal budget review process for an information technology project and be reviewed by the Department of Administrative Services - Information Enterprise Strategy and Policy Division.

Department of State Police

Senate Bill 5701 reflects a net \$5.3 million increase in the General Fund appropriation for the Oregon State Police (OSP), including adjustments for the restoration of the reduction for the supplemental ending balance, adjustments across divisions based on a rebalance plan proposed by the agency, and OSP's share of the statewide effort to restructure state government business operations and management of agency programs and services. The total \$7.8 million reduced in the 2011-13 legislatively adopted budget for the supplemental ending balance (3.5% reduction) is restored across the agency.

The changes in the bill include the adjustment of General Fund appropriations for each division based on updated projected spending for the remainder of the biennium. This "rebalance" of resources generally transfers General Fund from the Forensics and Information Management divisions to the Patrol and Criminal divisions. Major factors for these transfers include final employee compensation decisions greater than what was assumed in the legislatively adopted budget, savings from vacant positions, increasing fuel costs, need to replace patrol car video camera systems, and specific programmatic needs. The Committee also approved a reduction of \$2.5 million General Fund for OSP's share of the statewide effort to restructure state government business operations and management of agency programs and services.

The 2011-13 legislatively adopted budget was also reduced by \$241,486 Lottery Funds for the supplemental ending balance. None of this reduction is restored in this bill. In addition, other cost increases (e.g., employee compensation and fuel costs) have left the Fish and Wildlife Division with a Lottery Funds shortfall of over \$700,000. To avoid further staffing reductions, funding for up to five Fish and Wildlife trooper positions will be transferred from Ballot Measure 76 Lottery Funds to Other Funds resources available from carry-forward of Oregon Department of Fish and Wildlife revenues and vacancy savings. This transfer requires an additional \$436,875 in Other Funds expenditure limitation. An increase of \$202,180 in the Lottery Funds expenditure limitation is also approved taking advantage of a greater use of Lottery Funds balances.

The Committee approved a \$521,944 increase in the Federal Funds expenditure limitation for OSP to execute a spending plan for the use of forfeiture and seizure funds. These federal resources have restrictions on how they may be used; and generally do not include the salaries and benefits of current permanent personnel. They also may not be used to replace or supplant appropriated resources of the agency. OSP plans to use these funds to purchase equipment to increase the productivity and safety of troopers including Tasers, equipment for the bomb squad, "Speak Write" software, and "confidential" funds for Criminal Division detectives.

Department of Public Safety Standards and Training

An increase of \$315,518 General Fund was approved for the Department of Public Safety Standards and Training (DPSST). All of the General Fund for the agency is for Debt Service payments for the certificates of participation (COPs) issued for the construction of the agency's Salem facility. This amount represents what was reduced for the supplemental ending balance during the 2011 legislative session, less the amount of savings from refinancing some of the COPs.

The Committee approved an \$873,897 decrease of Other Funds expenditure limitation for the Criminal Justice Training program. This reduction corresponds with a decrease in the allocation of Criminal Fines Account (CFA) resources to the agency that is included in House Bill 5702 (2012). This allocation adjustment increases the amount of CFA resources available for the General Fund. This reduction in training funding will result in the discontinuation of the child abuse training program and the elimination of six positions (3.75 FTE) including a Training Support Specialist, two Range Masters, a Training Development Coordinator, a Health and Fitness Coordinator and a general trainer position. The agency has stated that these reductions will not affect the number of basic law enforcement training classes.

Oregon Youth Authority

To restore county programs affected by the supplemental ending balance reduction applied in the Oregon Youth Authority (OYA) 2011-13 legislatively adopted budget, the Committee added \$910,596 General Fund for Diversion (\$325,265), Juvenile Crime Prevention (\$276,061), Multnomah County Gang (\$163,264), and Individualized Services (\$146,006). As part of the county funding discussion, state support for the East Metro Gang Enforcement Team (EMGET) was confirmed to be \$1,666,753 General Fund for the 2011-13 biennium. This amount consists of \$566,753 in state General Fund from Multnomah County's gang funding grant along with \$1.1 million in designated EMGET General Fund.

The Committee used \$186,988 General Fund from OYA's operations budget to restore debt service. The budget was also reduced by \$64,628 General Fund to capture statewide e-government savings.

To generate additional program savings, \$1 million General Fund was eliminated from the budget based on lower utilization of about 25 foster care and residential beds. The personal services budget was also reduced by \$1.3 million as part of the statewide effort to restructure state government business operations and management of agency programs and services.

Economic and Community Development Program Area

Oregon Business Development Department

The Committee reduced the agency's General Fund appropriation by \$8,729; reduced Lottery Funds expenditures for operations by \$493,653; reduced Other Funds expenditures for operations by \$277,500; and increased Lottery Funds debt service expenditures by \$2,830,159 and Other Funds debt service expenditures by \$321,885, to restore reductions and fully finance debt service costs on lottery revenue bonds. The budget adjustments will generally allow the agency to implement its budget as it identified it would with the 3.5% holdback that was approved to generate a supplemental statewide ending balance, but with certain modifications. These modifications include limiting the Lottery Funds reduction for the Strategic Reserve Fund to \$700,000; increasing the Lottery Funds reduction for Oregon InC by \$357,000; increasing Lottery Funds for the Government Contract Assistance Program with the understanding that the Department will provide a total of \$290,000 Lottery Funds to that program; and increasing the Lottery Funds reduction to the Oregon Film and Video Office by \$81,125.

The Committee also approved budget adjustments to eliminate any additional grant or loan commitments in the Building Opportunities for Oregon Small Business Today (BOOST) program. The Business, Innovation and Trade Division's Other Funds expenditure limitation was reduced by \$377,500 for the reduction in BOOST program grant expenditures, and Other Funds Nonlimited were reduced by \$3,315,000 for the

reduction in BOOST program loan expenditures. Senate Bill 1579 transfers the combined reduction of \$3,692,500 in uncommitted BOOST program account Other Funds to the General Fund.

Lottery Funds were reduced by \$3,547 for the e-government funding model change. Expenditures were reduced by \$9,006 General Fund and \$432,802 Lottery Funds for the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services. Finally, a \$100,000 Other Funds increase in the Business, Innovation and Trade Division, and one position (0.50 FTE), were approved to implement Senate Bill 817 (2011), which established the Oregon Low Income Community Jobs Initiative.

Employment Department

The General Fund appropriation to Employment Department's Child Care Division was reduced by \$336,868. Of this amount, \$250,000 reflects delayed implementation of a health consultation program model being developed by the Oregon Health Authority that was assumed in the Child Care plan and legislatively adopted budget, and a reduction in administrative costs related to the provision of customized reports for child care providers; the remaining \$86,868 is attributable to the statewide effort to restructure state government business operations and management of agency programs and services.

Senate Bill 5701 amends the agency's Federal Funds expenditure limitations to distinguish expenditures from Federal Funds received for benefits administration and operation of public employment offices from expenditures from federal Child Care and Development Funds.

The Committee increased Federal Funds expenditure limitation for benefits administration and public employment offices by \$12,345,199 and established three limited duration positions (6.50 FTE) to accommodate changes in caseload across several programs, as follows:

- \$1.3 million and 5.00 FTE for timely benefit administration of federal unemployment insurance benefit extensions for two additional months that had been approved by the U.S. Congress as of February 14, 2012;
- \$427,704 for Office of Administrative Hearings adjudication of those benefits;
- \$1.2 million and 3 positions (1.50 FTE) for casework and benefit administration of an anticipated 300 dislocated workers per quarter under a federally approved extension of the expanded Trade Act;
- \$447,958 for information technology expenditures necessary to enable participation in the Treasury Offset Grant Program, which enables the Department to recover employer taxes or benefit overpayments from Federal tax returns; and
- \$9 million for utilization of Federal Funds for administration in place of Other Funds (Reed Act) dollars.

The Employment Department identified \$16.6 million in Child Care and Development Funds carried over from previous biennia. The Committee increased Child Care and Development Federal Funds by \$6.2 million for the Employment Department for allowable child care expenditures, per federal guidelines. The statewide budget plan anticipates this \$6.2 million will be transferred to the Department of Human Services for child care subsidies and related expenditures. Decisions regarding how to utilize the remaining Child Care and Development Funds will be made at a later date.

Other Funds expenditure limitation adjustments resulted in a net reduction of \$5,385,131, consisting of the following:

- An additional \$2.5 million and eight limited duration positions (5.00 FTE) to allow for timely administrative hearings and decisions due to the 2-month extension of federal unemployment insurance benefits, and higher than anticipated caseloads originating in the Department of Education and the Portland Police and Fire Disability Fund;
- An additional \$1.4 million and three limited duration positions (1.88 FTE) associated with the Department's successful grant application for development of a national model workforce registration system;
- A reduction of \$9 million Other Funds due to the receipt and utilization of a like amount of Federal Funds for the administration of Unemployment Insurance activities; and
- A reduction of \$250,000 that is attributable to the statewide effort to restructure state government business operations and management of agency programs and services.

Housing and Community Services Department

The General Fund appropriation for the Department was increased by \$75,956 to restore funding to the General Fund Food Program, and by \$76,910 to restore the 3.5% supplemental ending balance reduction to the Court Appointed Special Advocate (CASA) program transferred and funded in House Bill 4082 (2012). General Fund for the Low Income Rental Housing Fund was reduced by 3.5% (\$16,450). The bill increases Lottery Fund expenditures by \$80,919 for debt service costs on lottery revenue bonds. Other Funds expenditure limitation was increased by a total of \$9,081,162, consisting of \$5 million for the Oregon Energy Assistance Program pursuant to Senate Bill 863 (2011), \$2,697,087 and 20 positions (15.35 FTE) for administration of the Home Ownership Stabilization Initiative, and \$1,384,075 for administration of the CASA program. Federal Funds expenditure limitation was increased by \$5 million to reflect a federal grant award for phase three of the Neighborhood Stabilization Program.

Department of Veterans' Affairs

The Committee increased the General Fund appropriation to the Oregon Department of Veterans' Affairs by a net \$92,536, based on the following adjustments:

- Restoration of \$115,656 of the 3.5% supplemental ending balance adjustment, with the intention that the General Fund appropriation made for Veterans' Disabled Transportation be reduced by \$90,000 in lieu of reductions to other services provided by the Department of Veterans' Affairs; and
- A reduction of \$23,120 that is attributable to the statewide effort to restructure state government business operations and management of agency programs and services.

A technical adjustment was approved to transfer a state agency assessment adjustment from the General Fund appropriation for National Services Organizations to the General Fund appropriation for services provided to the Oregon Department of Veterans' Affairs; this transfer has no net General Fund impact.

Natural Resources Program Area

Department of Environmental Quality

Senate Bill 7501 adds \$193,612 General Fund to restore funding for debt service payments. A one-time \$86,615 General Fund reduction to the Land Quality program captures savings from putting a position on special assignment in the Water Quality program. The agency's share of the statewide effort to restructure state government business operations and management of agency programs and services is \$169,003 General Fund, which was taken in the Water Quality program.

Department of Geology and Mineral Industries

To accommodate increased demand for contract services such as Lidar data collection and FEMA flood hazard mapping, the Committee increased Federal Funds expenditure limitation by \$1,788,385, increased Other Funds expenditure limitation by \$1,709,304, and established 10 limited duration positions (6.37 FTE). General Fund was also reduced \$1,204 in the Geologic Survey program to reflect savings in State Government Service Charges from a change in the state's e-government funding model.

Department of State Lands

For payment of expenses related to the Portland Harbor Superfund, the Committee added \$681,266 General Fund (with a corresponding disappropriation of \$681,266 General Fund from the Emergency Fund) and an increase of \$333,333 Other Funds expenditure limitation.

Other Funds expenditure limitation was increased by \$468,125 for fire suppression and land rehabilitation costs as a result of fire damage during the 2011 fire season on Common School Fund rangeland, and by \$256,139 for completion of the Territorial Seafloor Mapping Project. Federal Funds expenditure limitation was increased by \$428,127 for the Department to finalize administration of existing contract balances for eight federal grants in the Natural Heritage program (\$250,127) and to accept a grant from the Environmental Protection Agency for a Wetland Program Development grant (\$178,000).

State Department of Agriculture

Senate Bill 5701 reflects a number of one-time fund shifts with the agency's budget, using Ballot Measure 66 (M66) ending balance carried over from the 2009-11 biennium and Other Funds in the Animal Health program, to rebalance the 3.5% General Fund supplemental ending balance reductions taken across agency programs as part of the 2011-13 legislatively adopted budget. These rebalance adjustments increase Administration and Support Services by \$29,703 General Fund; increase Food Safety Policy Area by \$150,882 General Fund and \$31,311 Other Funds; decrease Natural Resources Policy Area by \$73,647 General Fund, but increase dedicated Lottery Funds by \$416,788 (which includes about \$290,000 carry forward expenditure limitation for improvements at the Plant Division's Hawthorne facility); and decrease Agriculture Development Policy Area by \$113,203 General Fund, but increase non-dedicated Lottery Funds by \$763.

Additional adjustments were approved to make General Fund available as part of the state-wide budget rebalance plan. These include two fund shifts to use M66 Lottery Funds carry forward to replace General Fund: \$354,631 in the Invasive Weeds program and \$160,724 in the Insect Pest Prevention and Management program. In the Plant Health program, \$10,000 Other Funds was used to replace General Fund. The Agriculture Development and Marketing program was reduced by \$70,000 General Fund to reflect vacancy savings. Finally, General Fund was reduced \$4,328 in the Administrative and Support Services Division to reflect savings in State Government Service Charges from a change in the state's

e-government funding model. The Department's share of the statewide effort to restructure state government business operations and management of agency programs and services is \$197,170 General Fund, which was taken from the Food Safety program.

A 3.5% reduction, \$5,250 General Fund, was approved for individual farm credit mediations (House Bill 5056) that had not been subject to the supplemental ending balance adjustment made during the 2011 legislative session.

State Department of Energy

Senate Bill 5701 adds \$4,249,010 Other Funds expenditure limitation, \$109,164 Federal Funds expenditure limitation, one position and 5.50 FTE for administration of energy incentive programs created or modified by the passage of House Bill 3672 (2011). Lottery Fund expenditures are increased by \$75,746 for debt service costs on lottery revenue bonds.

State Department of Fish and Wildlife

The Committee approved a one-time \$41,000 fund shift, replacing General Fund for services and supplies with Other Funds at the Hatchery Research Center. Funding was adjusted for a fish ladder capital improvement package on Steamboat Creek by decreasing Other Funds capital improvement expenditure limitation by \$70,000 and increasing Federal Funds capital improvement expenditure limitation by \$140,000. When the Natural Resources Subcommittee considered budget requests from the Department, it also recommended the expenditure of \$20,000 from the Commercial Fish Fund to support the Port Orford Ocean Resource Team facility and \$100,000 from the Recreational Shellfish Fund for a subtidal survey of brood stock clams in Tillamook Bay with the understanding that if the Department requires an increase in Other Funds expenditure limitation to accommodate these expenditures they are to return later in the biennium to request such an increase.

In addition, \$12,168 General Fund was restored for debt service payments on outstanding certificates of participation. Finally, General Fund was reduced \$5,368 in the Administration Division to reflect savings in State Government Service Charges from a change in the state's e-government funding model. The Department's share of the statewide effort to restructure state government business operations and management of agency programs and services is \$253,504 General Fund, which was taken from the Fish Division.

A technical correction to the Department's adopted budget eliminates position authority for two positions (2.00 FTE) in the Conservation Strategy program that were added in error. The funding was intended to be used instead for services and supplies

State Forestry Department

The Committee, per the Co-Chair budget plan, restored the 3.5% supplemental ending balance reduction for some agency programs, adding \$1,189,182 General Fund to the Fire Protection program, along with \$102,087 General Fund and \$81,990 Lottery Funds for debt service.

An additional one-time payment of \$200,000 General Fund was approved in the Agency Administration program to fund a position in the Governor's Office to support forest policy issues, in particular finding a solution to the county government financial predicament related to the Oregon & California (O&C) Act reduction in federal forest payments.

The budget for the Private Forests program was reduced by \$932,036 General Fund, affecting 50 positions and 9.92 FTE, for the Department of Forestry's share of reductions to address the statewide General Fund shortfall and budget rebalance. The budget was reduced by \$312,995

General Fund in the Fire Protection program and \$53,178 General Fund for the Department of Forestry's share of the statewide effort to restructure state government business operations and management of agency programs and services.

To cover 2011 fire suppression severity costs, Senate Bill 5701 appropriates \$2,120,017 General Fund for the Fire Protection program. The bill makes a corresponding disappropriation of \$2,120,017 General Fund from the special purpose appropriation made to the Emergency Board for costs associated with contracting for large air tankers and helicopters to supplement fire suppression resources for the 2011 fire season.

General Fund is reduced by \$2,484 in the Protection from Fire program and \$509 in the Private Forests program to reflect savings in State Government Service Charges from a change in the state's e-government funding model.

Department of Land Conservation and Development

To support an anticipated Governor's directive to pilot a regional land use planning project, \$200,000 General Fund was added to the agency's budget to support rulemaking and related activities. In addition, \$350,000 General Fund was appropriated to the Department for distribution to Jackson, Josephine, and Douglas counties through intergovernmental agreements. The counties will use these funds to complete technical studies, mapping, and preparation of materials required for preparing a petition to the Land Conservation and Development Commission for rulemaking to consider regional definitions of agricultural and forest lands.

As part of the statewide rebalance plan, the agency's budget is reduced by \$265,752 General Fund to capture one-time budget savings achieved by holding positions vacant and through the agency director taking a job rotation to the Governor's office. Personal services expenditures are reduced by \$33,801 General Fund to capture the agency's share of the statewide effort to restructure state government business operations and management of agency programs. The budget also reflects a \$3,239 General Fund reduction in State Government Service Charges from a change in the state's e-government funding model.

The following budget note was adopted:

BUDGET NOTE

The Department of Land Conservation and Development shall prepare a report that identifies which counties and cities with a population over 10,000 people have completed or not completed the following:

1. The requirement of urban service agreements contained in ORS 195.
2. Approved facilities plans.

The report shall include the date the county and city's comprehensive plan was approved by the Land Conservation and Development Commission. The report shall include options to bring counties and cities into compliance with the ORS and shall be presented to the Joint Committee on Ways and Means prior to the 2013 legislative session.

State Marine Board

The Oregon State Marine Board (OSMB) Law Enforcement program's funding is increased by a total of \$1.1 million, of which \$757,200 is Other Funds and \$292,800 is Federal Funds that would be transferred from the Facilities program. Of the total amount, \$945,000 would be used to increase funding for fiscal year 2013 law enforcement contracts to a level commensurate with fiscal years 2011 and 2012. Those fiscal year contracts totaled \$5.9 million each.

The Committee also approved a \$105,000 Other Funds expenditure limitation increase for the replacement of marine law enforcement boats. This is in addition to the \$300,000 Other Funds expenditure limitation in the Board's 2011-13 legislatively adopted budget.

Federal Funds expenditure limitation for the Administration and Education program is increased by \$243,200. The limitation would be transferred from the Facilities program for the replacement of the agency's legacy mainframe boat registration system. The project is currently estimated to cost \$310,000. OSMB has identified \$66,800 of Federal Funds in its 2011-13 legislatively adopted budget to partially fund the purchase with the remaining \$243,200 in Federal Funds coming from the Facilities program. Annual operation and maintenance costs are estimated at \$38,250 per year. Federal Funds from the U.S. Coast Guard's Recreational Boating Safety grant would be used to pay for both the registration system's development and ongoing operation and maintenance costs.

The Facilities program's funding is increased by \$509,800 in Other Funds expenditure limitation and the transfer of \$536,000 in Federal Funds expenditure limitation from the Law Enforcement and the Administration and Education programs. According to OSMB, the Federal Funds expenditure limitation is available for transfer because there are insufficient local matching funds for U.S. Fish and Wildlife Service Boating and Infrastructure grants. The \$509,800 in Other Funds expenditure limitation will be used to fund a second round of local grants for facility maintenance and improvements or to match Federal Funds provided through the Clean Vessel Act, which funds vessel waste pump out facilities and dump stations.

These adjustments in Other Funds and Federal Funds expenditure limitation are approved as one-time increases for the 2011-13 biennium and are not to carry forward into the 2013-15 biennium.

State Parks and Recreation Department

Senate Bill 5701 includes an increase of \$1,731,242 in Lottery Funds dedicated to the Parks and Recreation Department, due to a higher than anticipated carryover of Lottery Fund savings from the 2009-11 biennium. This action offsets the 3.5% supplemental ending balance reductions for the Director's Office (\$45,638), Central Services (\$280,114), Park Development (\$592,240), Direct Services (\$673,108), and Community Support/Grants (\$140,142).

The budget is increased by \$861,950 Federal Funds to support disbursement of grant funds received from the U.S. Fish and Wildlife Service for the Natural Heritage Program, and by \$2,190,000 Federal Funds for grant funds from the National Oceanic and Atmospheric Administration and the U.S. Fish and Wildlife Service. The latter funding supports the Park Development program's purchase of property adjacent to the Carl B. Washburn State Park and Ona Beach State Park.

Water Resources Department

Senate Bill 5701 includes an increase of \$25,633 Lottery Funds Debt Service to restore the 3.5% supplemental ending balance reduction. The agency's budget is reduced by \$7,516 General Fund due to savings in State Government Service Charges from a change in the state's funding model for e-government, and by \$247,871 General Fund for the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services.

Oregon Watershed Enhancement Board

The Committee reduced carry forward Lottery Funds expenditure limitation, provided to complete payments during 2011-13 on grants made in the 2009-11 biennium, by \$784,354 because the agency did not need all \$3.3 million in expenditure limitation provided in the 2011-13 legislatively adopted budget to close out these grants.

Transportation Program Area

Department of Transportation

In the Department of Transportation budget, a \$9,211,366 increase in Other Funds expenditure limitation was approved for the Highway Maintenance program for repair of damage sustained during winter storms in 2009 and 2011. The Committee also approved an increase of \$500,000 Other Funds in the Driver and Motor Vehicles (DMV) program to contract with third-party expertise and resources to assist in evaluating DMV's information systems against current and future business needs. The agency expects to develop a prioritized blueprint for moving forward with critical systems modernization initiatives. Deliverables will include prioritized business and technical requirements, environmental/peer analysis, identification of applicable best practices, a comprehensive technology inventory, assessment of the identified technical components to meet current and future needs, and a strategic vision for moving ahead. Subsequent work will include a tactical plan with an interrelated set of viable, prioritized, and phased initiatives.

Debt service on the Oregon Wireless Interoperability Network in the Department of Transportation was decreased by \$15,416,043 General Fund and increased by \$15,970,871 Other Funds. The source of Other Funds is State Highway Funds for the Department of Transportation's share to date of the State Radio Project. Future debt service is expected to be partially paid by the General Fund and State Highway Fund on an assumed benefit ratio of approximately 40% General Fund and 60% State Highway Fund for the 2013-15 biennium and on a calculated benefit ratio in 2015-17 based on the final bond sale amount, and actual usage data; adjusted by actual amounts paid by each fund. To date, General Fund has paid \$14,878,509, 100% of the bond debt.

Department of Transportation Debt Service was increased by \$2,914,388 Lottery Funds to restore the 3.5% supplemental ending balance reduction.

The following budget note was approved:

BUDGET NOTE

The Department of Transportation shall provide a report to the Joint Committee on Ways and Means and the appropriate legislative policy committees by February 2013 on the criteria used for selecting ConnectOregon projects, and the public benefits derived from investments made by ConnectOregon.

Consumer and Business Services Program Area

Department of Consumer and Business Services

The Committee approved a \$2,434,040 Federal Funds expenditure limitation increase and established four limited-duration positions (2.22 FTE) relating to expenditures financed from a U.S. Department of Health and Human Services Health Insurance Rate Review-Cycle II grant. The agency was awarded a \$4,040,777 grant, but only a portion of these funds will be spent this biennium. It is anticipated that the agency will request that the positions be continued, again on a limited-duration basis for the remainder of the Cycle II grant, and request Federal Funds expenditure limitation for the remaining \$1.6 million of grant funds, in its 2013-15 biennium budget request.

Oregon Health Licensing Agency

The Committee approved a decrease of \$20,751 in Other Funds expenditure limitation reflecting the net effect of the fee changes approved in Senate Bill 1579 (2012). The boards affected by these changes include those related to Body Art Practitioners, Respiratory Therapists and Polysomnographic Technologists, Nursing Home Administrators, and Licensed Dietitians. The original license and renewal fees for the Board of Direct Entry Midwifery were approved at \$1,200 per year, with the understanding that the fee increase is necessary by unique circumstances and is not intended to be permanent.

BUDGET NOTE

There was concern with the fee changes for the Board of Direct Entry Midwifery. The agency is directed to report during the 2013 Legislative Assembly on the status of the revenues, expenditures, and current ending balance forecast for the board, including proposals for fee decreases or other regulatory options for the board.

Bureau of Labor and Industries

The Bureau's General Fund personal services expenditures were reduced by a total of \$210,205, for the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services. The budget was also reduced by \$3,610 General Fund for the e-government funding model change.

Administration Program Area

Department of Administrative Services

The 2009-11 budget for the Department of Administrative Services (DAS) contained \$11,271,656 Other Funds expenditure limitation to spend lottery bond proceeds on county court facilities infrastructure projects. Not all of the projects were completed in that biennium, so the agency requested an adjustment to its 2011-13 budget to finish the projects. Accordingly, the Committee approved the establishment of a new Other Funds expenditure limitation of \$3,932,550 specifically for Court Facilities projects. The Committee also decreased the agency's operations Other Funds expenditure limitation by \$1,930,400 to remove spending authority that was initially expected to be used to cover the project costs.

The Committee approved a reduction of \$2,232,000 Other Funds expenditure limitation associated with a change in the state's e-government funding model. Also approved was a technical adjustment to eliminate a position and \$145,000 Other Funds expenditure limitation from the State Controller's Division. The position was added to the budget in the 2011-13 biennium due to a federal requirement that on January 1, 2012, state governments begin to withhold 3% on vendor payments; however, that federal law was repealed in November 2011.

The Committee restored debt service of \$238,488 General Fund and \$332,732 Lottery Funds to cover obligations that were reduced as part of the supplemental ending balance in the 2011 legislative session. To capture the agency's share of the statewide effort to restructure state government business operations and management of agency programs, personal services were reduced by \$2 million Other Funds.

Employment Relations Board

Senate Bill 5701 appropriates \$1 million General Fund to support local government services in the second year of the biennium. The following budget note was adopted:

BUDGET NOTE

The Employment Relations Board is directed to undertake the following items and then report to the appropriate policy committee and the Joint Committee on Ways and Means during the 2013 legislative session:

- Review its administrative processes and procedures and make any necessary changes to improve the timely disposition of hearing and mediation cases;
- Propose to the 2013 Legislature an expedited hearings process as well as any statutory changes that will improve the timely disposition of its hearing and mediation cases;
- Conduct a review of recent opinions issued by the Board and its administrative law judges to evaluate the quality of opinions issued and how they can be improved upon; and
- Report on the number of frivolous claims received and recommendations for reducing the number of any such claims.

Office of the Governor

The Governor's Office budget was increased by a net \$267,362 General Fund, which includes \$375,334 added to restore the 3.5% supplemental ending balance reduction from the 2011 legislative session, and reductions of \$105,000 to the Oregon Education Investment Board and \$2,972 in State Government Service Charges to reflect a change in the state's e-government funding model.

A \$1 Other Funds expenditure limitation was established as a placeholder for future increases to support spending any donations that the Office may receive.

Oregon State Library

As part of the statewide effort to restructure state government business operations and management of agency programs and services, the General Fund personal services budget for the agency was reduced by \$19,886. The following budget note was adopted:

BUDGET NOTE

The State Library is to report to the May 2012 Joint Interim Committee on Joint Ways and Means or the Emergency Board with an analysis of the requests and response received by the Government Research and Electronic Services program. The report shall include the total number of requests received, the nature of requests, and from what entity the request was made, the number of requests that were responded to, and the cost associated with providing responses.

Oregon Liquor Control Commission

The Commission's budget was increased by a net \$507,973 Other Funds, for the following:

- The legislatively adopted budget mistakenly applied a services and supplies reduction to personal services in the Administration and Support Services program of the Oregon Liquor Control Commission, so the technical correction adds \$707,973 Other Funds expenditure limitation.
- A reduction of \$200,000 Other Funds is the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services.

Public Employees Retirement System

The agency's personal services budget was reduced by \$750,000 Other Funds to capture the agency's share of the statewide effort to restructure state government business operations and management of agency programs.

Department of Revenue

The Committee approved a decrease of \$48,504 General Fund to reflect savings in State Government Service Charges from a change in the state's e-government funding model. To capture the agency's share of the statewide effort to restructure state government business operations and management of agency programs, personal services were reduced by \$1,126,687 General Fund.

Secretary of State

Senate Bill 5701 reflects two adjustments to the Secretary of State's budget. The first reduced General Fund appropriations for personal services expenditures by a total of \$128,650, for the agency's share of the statewide effort to restructure state government business operations and management of agency programs and services. The second made a \$4,670 General Fund reduction for the e-government funding model change.

State Treasurer

Other Funds expenditure limitation was increased by \$250,000, for expenditures of grant funds received from the Rockefeller Foundation for the purpose of designing and launching a West Coast Infrastructure Exchange. This increase is approved on a one-time basis and the increase will be

phased-out in the development of the 2013-15 biennium budget. The Treasurer will request grant expenditure authority in his 2013-15 biennium budget request, if additional funding for this initiative is obtained from the Rockefeller Foundation or from other private sources.

Judicial Branch

Judicial Department

Senate Bill 5701 appropriates an additional \$7.4 million General Fund to the Oregon Judicial Department (OJD), partially offsetting the reduction made in the 2011-13 legislatively adopted budget for the supplemental ending balance. The bill also adds \$30.9 million in Other Funds expenditure limitation.

Funding was restored for constitutionally and legally mandated programs, including \$1.9 million for judicial compensation, \$472,922 for jury services, and \$345,207 for Oregon eCourt Program Debt Service. Court Operations, which includes the circuit and appellate courts and administration, are being held to their 2011-13 legislatively adopted budget, which includes \$2 million for Trial and Appellate Courts that was added at the end of the 2011 session. The Chief Justice has total flexibility to move funds and positions within the Operating Programs budget in order to keep the state's unified court system operating. A \$1.1 million General Fund special purpose appropriation to the Emergency Board is included in the bill in the event that the Department requires additional funding for court operations.

The bill includes \$2.4 million General Fund to fund revenue collection activities through the Department of Revenue and the private collection agencies.

BUDGET NOTE

The Oregon Judicial Department is requested to report to the Legislative Fiscal Office on a quarterly basis on the Department's overall revenue activities, including the cost of collection, amounts collected, and collection rates.

The Department's Special Payments were reduced as these payments were not previously subject to the reduction for the supplemental ending balance. County Law Libraries were reduced by \$259,000 General Fund and Conciliation and Mediation Services were reduced by \$259,000 General Fund.

An additional \$2.9 million in General Fund Debt Service was approved for the Oregon eCourt Program to support \$13.7 million in new bonding authority provided for in House Bill 5201. The operations and maintenance appropriation for the Oregon eCourt Program was reduced by \$93,643 General Fund. This action was submitted as part of the Department's reduction plan and is not expected to impact the current roll-out of the program.

The Other Funds expenditure limitation for the Oregon eCourt Program was increased by a total of \$23.4 million, for the following items:

- \$13.7 million in new bonding authority in House Bill 5201;
- \$6 million for previously authorized bonding authority (Senate Bill 5505, 2011);

- \$3.5 million for an available cash balance from previously issued debt; and
- \$134,116 for a fingerprint grant from the Oregon State Police.

The following budget notes were adopted relating to the Oregon eCourt Program.

BUDGET NOTE

The Judicial Department is requested to work with the Legislative Fiscal Office to prepare a revised schedule for completing the deliverables that were defined in the Agreement between the Chief Justice and the Co-Chairs of the Joint Committee on Ways and Means in the SB 5516 (2011) budget report. The Judicial Department and the Legislative Fiscal Office are also requested to establish a regular meeting schedule to review the deliverables and the status of Oregon eCourt. The parties will report to the Chief Justice and the Co-Chairs of the Joint Committee on Ways and Means periodically on the status of the deliverables and the Oregon eCourt program. The Judicial Department will also report as requested to the Joint Committee on Legislative Audits and Technology on the deliverables and the status of the Oregon eCourt program.

BUDGET NOTE

The Oregon Judicial Department (OJD) is requested to develop, by no later than April 1, 2012, a detailed implementation and evaluation plan to manage the pilot court and early adopter court Oregon eCourt implementations. For each trial court, the plan must include a clear definition of the implementation goals & objectives, processes, timelines, and costs; success evaluation criteria and measures for proving successful execution of each plan; and a plan to incorporate the lessons learned after each trial court implementation into subsequent implementations. If OJD determines that the implementation goals & objectives, schedule, or costs should be revised or rebaselined, OJD must immediately provide documentation of any adjustment to the Legislative Fiscal Office (LFO) so that the impact can be calibrated to the affected trial court implementation plan.

LFO will work with OJD to evaluate the success of each pilot and early adopter implementation against the plan. Factors that will be considered will be agreed upon by LFO and OJD and will be documented in each trial court implementation plan. The plan for the initial trial court will specifically include an initial evaluation of the usability of the Odyssey product. Each of the subsequent four early adopter implementations will further test the scalability of the product, and additional components of Oregon eCourt that may have been added; the configurations that have been established; the business functions that have been integrated with the Odyssey product; the system interfaces; and the data conversion plan and implementation.

LFO will request that OJD report after the pilot court and each early adopter implementation on its implementation including a post implementation review of outcomes, success measures and costs, and the lessons learned analysis. OJD should provide recommendations based on these reviews for the next early adopter court. Once all four of the first early

adopters are completed, OJD should conduct a major review to verify that the product(s) and all the methods involved in the implementation for the first five pilot and early adopter courts are sufficient for a successful implementation in Multnomah County. Because Multnomah County is being implemented via a ‘by case-type’ methodology, rather than all case types at once, like the first five trial courts, OJD should provide a Multnomah County-specific implementation and evaluation plan to guide the Oregon eCourt product(s) implementation. Upon completion of this implementation, LFO and OJD will review the Multnomah County implementation against the detailed implementation plan and the OJD assessment to evaluate the success of this implementation. This review will provide the basis for determining readiness of OJD and the contractor for implementing Oregon eCourt in the remaining trial courts.

Other Funds expenditure limitation of \$1.7 million was established for the new and existing Specialty Court grants, which the Department reports will offset the impact of recent General Fund reductions. The Committee also approved a one-time 13.46 FTE increase for the Specialty Courts. The \$1.7 million Other Funds expenditure limitation and 13.46 FTE increase are one-time only, and do not carry forward for the 2013-15 budget.

The Department’s Other Funds expenditure limitation was increased by a total of \$5.5 million for the following purposes:

- \$4.7 million for the State Court Facilities and Security Account for Special Payment transfers to local court security accounts.
- \$670,203 in for new and existing grants for pre-trial release programs and the Citizen Review Board.
- \$226,592 for Debt Service Other Funds expenditure limitation to support the issuance costs of an additional \$13.7 million in bonding.
- \$97,460 Other Funds Capital Improvement for emergency repairs to the Supreme Court Building.
- \$77,860 for a Special Payment to Tri-County Metropolitan Transportation District of Oregon (TRIMET).

This \$5.5 million increase in Other Funds expenditure limitation is a one-time increase and does not carry forward for the 2013-15 budget.

Commission on Judicial Fitness and Disability

The Commission’s Administration program budget was increased by \$6,228 General Fund. The Extraordinary program’s budget was reduced by \$12,647 General Fund, leaving a balance of \$6,200 for any potential prosecutions. The Commission has not prosecuted a case of judicial misconduct in the last two biennia and its total extraordinary budget has been disappropriated each of the last two biennia.

Public Defense Services Commission

Senate Bill 5701 reduces the Commission’s Appellate Division budget by \$112,000 General Fund and increases the Contract and Business Services budget by \$112,000 General Fund. This rebalance action utilizes vacancy savings in the Appellate Division to fund a portion of the Contract and Business Services 3.5% supplemental ending balance holdback which was taken as part of the 2011-13 legislatively adopted budget. A \$3.5 million General Fund special purpose appropriation is included in the bill in the event that the Commission requires additional funding for the trial-level public defense services.

The Public Defense Services Account’s Other Funds expenditure limitation is increased by \$1.4 million for trial-level public defense and by \$1.3 million for the Application and Contribution Program to establish a special payment to the Oregon Judicial Department. In future, the Application and Contribution program is to be budgeted as a special payment rather than as a revenue transfer. The legislative expectation is that the Application and Contribution Program will be funded by the Commission at a level not to exceed \$2.5 million.

Legislative Branch

Budgets for the legislative branch agencies were adjusted for a number of issues, including a change in the way that General Fund reversions are handled for the Legislative and Judicial Branch (see Senate Bill 1579), a reduction in legislative members' budgets, restoration of some supplemental ending balance budget reductions including debt service, and changes in the state's e-government funding model. The net adjustments in Senate Bill 5701 are as follows:

- Legislative Assembly reduced by \$128,160 General Fund.
- Legislative Administration reduced by \$134,851 General Fund.
- Legislative Counsel increased by \$400,043 General Fund.
- Legislative Fiscal increased by \$29,973 General Fund.
- Legislative Revenue reduced by \$14,531 General Fund.
- Commission on Indian Services reduced by \$26,451 General Fund.

Nays: Girod, Thomsen, Whitsett

Exc: Edwards

Prepared By: Monica Brown, Legislative Fiscal Office

Meeting Date: March 5, 2012

WHAT THE MEASURE DOES: This measure implements statutory changes necessary to support the legislatively adopted budget. The measure also transfers a portion of select Other Funds balances to the General Fund for general government use. The measure is effective on passage.

ISSUES DISCUSSED:

- Effect of the amendment and fiscal impact
- Reallocation of funds
- Additional Judicial reporting

EFFECT OF COMMITTEE AMENDMENT: -23 amendment modifies several interim reporting requirements; transfers \$102.4 million from 11 Other Funds sources to the General Fund to help support the 2011-13 statewide budget rebalance; extends the sunset provision for the Small School Fund; changes the transfer date for the School Year Subaccount; ratifies fees established in the 2011 interim; modifies provisions of the Temporary Assistance to Needy Families (TANF) program; exempts certain quasi and semi-independent agencies from statutes concerning financing agreements; permits the Judicial and Legislative Branches to retain unexpended General Fund from the prior biennium; establishes an Operating Fund for the Governor’s Office to accept gifts, grants, and donations; modifies use of funding for circuit court conciliation and mediation and county law library services; requires municipal and justice courts to report caseload and financial information; modifies the Oregon Local Disaster Assistance Loan program to include grants and provides for non-matching grants or loans; and resolves conflicts with HBs 4082 and 4163.

BACKGROUND: Each legislative session, a “program change” bill is introduced by the Joint Committee on Ways and Means. The measure, relating to state financial administration, is not an appropriation bill and therefore does not include the appropriation of funds.

Oregon Legislative Emergency Board
Certificate

November 18, 2011

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 291.326(1)(a), (b), (c), and (d); ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on November 18, 2011, took the following actions:

1. Department of Human Services

Approved transfers of General Fund appropriations and increases in Other and Federal Funds expenditure limitation as outlined in the Department of Human Services 2009-11 Close-Out Plan schedule to close out the Department's 2009-11 budget.

Summary of Emergency Board Action

May 2012

The Legislative Emergency Board met on May 21 – 23, 2012 and considered an agenda of 48 items. The agenda included six agency requests for allocations from the general purpose appropriation made to the Emergency Board; the Board approved five of the agency requests, one of which was approved at an amount less than the request. These allocations included \$593,497 for the Secretary of State, \$550,000 for the Department of Administrative Services for the City of Eugene, \$300,000 for the Department of Justice, and a total of \$170,000 for two requests from the Military Department. There were also two agency requests on the agenda for allocations from special purpose appropriations made to the Emergency Board, totaling \$10.2 million, of which \$8.7 million was allocated. Additional details on these allocations are described below. After the Emergency Board actions, the unallocated balance of the general purpose Emergency Fund is \$25.6 million and the remaining balance of all special purpose appropriations is \$73.4 million.

The agenda included 18 items that requested additional 2011-13 biennium authority to spend Lottery Funds, Other Funds, and Federal Funds. The Emergency Board approved expenditure limitation increases of approximately \$19.7 million Other Funds (including \$13.5 million for the Department of Transportation's rail program) and \$24.1 million Federal Funds (including \$5.5 million for Emergency Unemployment Compensation). Also included was a small increase in Lottery Funds expenditure limitation (\$74,250) for the Parks and Recreation Department. The Emergency Board also authorized the establishment of 42 limited duration positions, with an overall increase of 19.25 FTE; most of these positions resulted from additional federal funding to help unemployment insurance claimants get back to work more quickly (32 positions/15.50 FTE). Also approved was the extension of months to existing positions at the Employment Department for the Emergency Unemployment Compensation program (0 positions/14.50 FTE).

The agenda also included 10 agency reports, which the Emergency Board acknowledged receiving, three of which were in a consent agenda item. The most significant of these was a report from the Legislative Fiscal Office regarding agency plans to accommodate \$28 million in reductions included in the 2011-13 legislatively approved budget. The Emergency Board also heard 20 requests for the submission of federal grant applications, 13 of which were in a consent agenda item (Departments of Education, Community Colleges and Workforce Development, Human Services, Agriculture, Land Conservation and Development, Energy, and Transportation and the Oregon Health Authority). Two of the grant application requests included approvals of associated expenditure limitation increases.

The following is a summary of significant Emergency Board actions taken at the May 2012 meeting:

Education

- Acknowledged receipt of a report on shifting Article XI-F bond proceeds between capital projects at Oregon State University.
- Increased the Federal Funds expenditure limitation of the Department of Community Colleges and Workforce Development by \$851,813 for grants received by the Oregon Youth Conservation Corps, with the understanding that \$500,000 of the amount will be unscheduled until the funds are received.
- Acknowledged receipt of a report by the Legislative Fiscal Office on preliminary findings concerning the 2011-12 School Year Subaccount of

the State School Fund. The Emergency Board provided notice of non-compliance to the Governor for 11 school districts that did not report as required on the use of the funding from the Subaccount.

Human Services

- Increased the Other Funds expenditure limitation of the Long Term Care Ombudsman by \$120,000 and authorized the establishment of one limited duration position (0.50 FTE) for the Senior Medicare Patrol program.
- Acknowledged receipt of reports from the Oregon Health Authority on the Health Insurance

Exchange (HIX) project and on the Health Care System Transformation.

- Approved a request by the Department of Human Services to apply for a federal grant for Education System Collaboration to Increase Educational Stability for Child Welfare.

Public Safety and Judicial Branch

- Allocated \$300,000 from the Emergency Fund to the Department of Justice for costs associated with replacement of the primary information management system for Oregon's Child Support program.
- Allocated \$3,781,798 to the Department of Justice from a special purpose appropriation made to the Emergency Board, increased the Other Funds expenditure limitation by \$2,369,535, and authorized the establishment of five limited duration positions (1.13 FTE) for the Department of Justice for home foreclosure related activities and mediation services associated with the multi-state mortgage foreclosure settlement and SB 1552 (2012) through June 30, 2013; this action also included an allocation to the Housing and Community Services Department (for details, see Economic and Community Development below).
- Allocated \$170,000 from the Emergency Fund to the Military Department for facility and mission requirements at the Portland Air National Guard Base (\$90,000) and the Kingsley Field Air National Guard Base (\$80,000).
- Increased the Federal Funds expenditure limitation of the Military Department by \$5,000,000 and authorized the establishment of 23 limited duration positions (11.50 FTE) for an intergovernmental agreement with the federal government for the Umatilla Chemical Depot, to be unscheduled until a copy of the signed caretaker intergovernmental agreement is provided to the Department of Administrative Services and the Legislative Fiscal Office.
- Established a \$1,804,000 Capital Construction Federal Funds expenditure limitation for the Military Department for the 2011-13 biennium related to a service life extension project at the Milton-Freewater Armory, to be unscheduled until the agency submits more details on the planned project to the Department of Administrative Services and the Legislative Fiscal Office.
- Allocated \$1,084,432 to the Oregon Judicial Department from a special purpose appropriation made to the Emergency Board for court operations, but denied a request for an additional \$4.7 million from the Emergency Fund until more is known about the state's fiscal situation and actual court needs.

- Approved requests to apply for federal grants by the Department of State Police for a Port Security Grant to purchase patrol vessels for the Columbia River and by the Criminal Justice Commission for a re-entry grant through the U.S. Bureau of Justice Assistance.

Natural Resources

- Increased the Other Funds expenditure limitation of the Department of Energy by \$713,675 and authorized the establishment of two limited duration positions (1.08 FTE) to address immediate workload needs in the Energy Facility Siting Division.
- Increased the Federal Funds expenditure limitation of the Department of Land Conservation and Development by \$160,000 for a coastal zone project of special merit grant award.
- Increased the Other Funds expenditure limitation by \$220,175 and the Lottery Funds expenditure limitation by \$73,392 for the Parks and Recreation Department for costs related to the January 2012 floods and damages to state park property.
- Approved a request by the Parks and Recreation Department to apply for a grant from the U.S. Fish and Wildlife Service, National Coastal Wetlands Conservation program.
- Increased the Other Funds expenditure limitation of the Department of State Lands by \$352,000 for a rangeland improvement project in Harney County.

Economic and Community Development

- Allocated \$3,850,000 to the Housing and Community Services Department from a special purpose appropriation made to the Emergency Board and authorized the establishment of one limited duration position (0.50 FTE) for counseling services, legal assistance, and outreach to homeowners for home foreclosure related activities associated with the multi-state mortgage foreclosure settlement and SB 1552 (2012) through June 30, 2013; this action was a joint request with the Department of Justice (see Public Safety and Judicial Branch above for additional details).
- Increased the Federal Funds expenditure limitation of the Employment Department by \$5,500,000 and authorized the extension of existing limited duration positions (14.50 FTE) for the federal Emergency Unemployment Compensation program, and increased the Federal Funds expenditure limitation by \$1,527,235 for Child Care and Development Fund expenditures.
- Increased the Federal Funds expenditure limitation of the Employment Department by \$2,991,915 and authorized the establishment of 32 limited duration positions (15.50 FTE) related to a federal grant to expand programs designed to get

unemployment insurance claimants back to work more quickly and to reduce errors and fraud in claims processing.

- Increased the Federal Funds expenditure limitation of the Oregon Business Development Department by \$480,000 related to a federal grant from the Small Business Administration for State Trade and Export Promotion.
- Increased the Other Funds expenditure limitation of the Department of Veterans' Affairs by \$125,000, established a Federal Funds Capital Construction expenditure limitation for the 2011-13 biennium in the amount of \$499,163, and established an Other Funds Capital Construction expenditure limitation for the 2011-13 biennium in the amount of \$268,780 to build and operate an electronic medical records system and install a secure access system for staff and patients at the Veterans' Home in The Dalles.

Transportation

- Increased the Other Funds expenditure limitation by \$13,500,808 and the Federal Funds expenditure limitation by \$5,141,157 for the Department of Transportation for costs in the agency's rail program.
- Approved requests by the Department of Transportation to apply for federal grants from the Federal Transit Authority related to Bus Livability and the Bus and Bus Facilities grant programs.

Consumer and Business Services

- Acknowledged receipt of a report from the Health Licensing Agency on the status of fee changes.

Administration

- Allocated \$550,000 from the Emergency Fund to the Department of Administrative Services for a grant to the City of Eugene for public safety costs associated with the 2012 U.S. Olympic Team Trials to be held at Hayward Field in June.

- Allocated \$593,497 from the Emergency Fund to the Secretary of State for reimbursement of state and county costs associated with the special elections necessary to fill a vacancy in the 1st Congressional District.
- Established a new Other Funds expenditure limitation for the Public Employees Retirement System of \$2,071,410 and authorized the establishment of three limited duration positions (1.62 FTE) to recover overpayments to certain retirement system benefit recipients.
- Acknowledged receipt of reports by the Department of Administrative Services on bond refinancing, compensation plan changes, and 2013-15 uniform rent rates.
- Acknowledged receipt of a report by the Oregon Liquor Control Commission on revenues and expenditures compared to projections.
- Acknowledged receipt of a report by the Legislative Fiscal Office on agency plans for accommodating reductions of \$28 million General Fund and \$3.8 million Other Funds included in the 2012 session rebalance of the 2011-13 biennium legislatively approved budget; and approved various appropriation transfers and Other Funds expenditure limitation increases within selected state agencies to clarify organizational changes resulting from the reduction. Direction was also provided to the Department of Administrative Services to ensure that the permanent changes recommended in the report would be reflected in the 2013-15 budget and to affected state agencies to implement the recommended changes to the 2011-13 budget. Modifications were made to the Legislative Fiscal Office recommendations for the Department of Corrections and the Department of Forestry.

Oregon Legislative Emergency Board
Certificate

May 23, 2012

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 276.309, 291.326(1)(a), (b), (c), and (d); ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on May 23, 2012, took the following actions:

1. Secretary of State

Allocated \$593,497 from the Emergency Fund established by section 1, chapter 600, Oregon Laws 2011..... \$ 593,497 to supplement the appropriation made to the Secretary of State, by section 1(2), chapter 411, Oregon Laws 2011, Elections Division, for costs associated with the Special Primary Election and the Special General Election held to fill a vacancy in the 1st Congressional District.

2. Judicial Department

Allocated \$1,084,432 from the special purpose appropriation made to the Emergency Board by section 17(1), chapter 110, Oregon Laws 2012..... \$ 1,084,432 to supplement the appropriation made to the Judicial Department by section 1(2), chapter 634, Oregon Laws 2011, Operations, for court operations.

3. Department of Education

Approved, retroactively, the submission of a federal grant application by the Department of Education to the U.S. Department of Education, Office of Migrant Education, in the amount of \$132,000 for the Consortium Incentive Grant.

4. Oregon University System

Acknowledged receipt of a report from the Oregon University System on plans by Oregon State University to shift Article XI-F (1) general obligation bond proceeds between athletic capital construction projects.

5. Community Colleges and Workforce Development

Increased the Federal Funds expenditure limitation established for the Department of Community Colleges and Workforce Development by section 4, chapter 616, Oregon Laws 2011, by \$851,813..... \$ 851,813 for the Oregon Youth Conservation Corps, with the understanding that the Department of Administrative Services will unschedule \$500,000 of the expenditure limitation pending notification of grant awards for 2013.

6. Community Colleges and Workforce Development

Approved, retroactively, the submission of a federal grant application by the Department of Community Colleges and Workforce Development to the U.S. Department of Labor, Employment and Training Administration, in the amount of \$5,469,260 from the Workforce Innovation Fund.

7. Long Term Care Ombudsman

Increased the Other Funds expenditure limitation established for the Long Term Care Ombudsman by section 2, chapter 184, Oregon Laws 2011, by \$120,000..... \$ 120,000 and authorized the establishment of one half-time limited duration position (0.50 FTE) for the Senior Medicare Patrol program.

8. Oregon Health Authority

Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the U.S. Department of Health and Human Services, Grants to Support Oral Health Workforce Activities, in the amount of up to \$500,000 a year for three years, beginning September 1, 2012 and ending August 31, 2015, to increase children’s access to preventive dental health services by utilizing Expanded Practice Dental Hygienists in the statewide school-based dental sealant program.

9. Oregon Health Authority

Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention, Cancer Prevention and Control Programs, in the amount of up to \$7,200,000 a year for five years, beginning June 30, 2012 and ending June 29, 2017, to continue statewide activities to promote and provide breast and cervical cancer screening services for under- and uninsured women.

10. Oregon Health Authority

Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the U.S. Food and Drug Administration in the amount up to \$1.5 million for the first year and up to \$3 million per year for years two through four, for the Tobacco Regulation Awareness, Communication, and Education Program Grant.

11. Oregon Health Authority

Approved the submission of a federal grant application by the Oregon Health Authority to the U.S. Centers for Disease Control and Prevention in the amount of \$234,824 per year for two years, to provide service to additional tobacco Quit Line callers.

12. Oregon Health Authority

Acknowledged receipt of a report from the Oregon Health Authority and the Health Insurance Exchange Corporation on the Health Insurance Exchange Information Technology project and the Health Insurance Exchange Corporation set-up project.

13. Oregon Health Authority

Acknowledged receipt of a report from the Oregon Health Authority on the Health System Transformation and Coordinated Care Organizations.

14. Department of Human Services

Declined to consider the request for submission of a federal grant application by the Department of Human Services to the Centers for Medicare and Medicaid Services in the amount of \$1 million a year for three years, to help identify efficient, effective, and economical procedures for background checks for certain employees of long term care facilities and providers.

- 15. Department of Human Services**
 Approved, retroactively, the submission of a federal grant application by the Department of Human Services to the National Association of State Directors of Developmental Disabilities Services, for up to \$43,200 for participation in the National Core Indicators Project.
- 16. Department of Human Services**
 Approved the submission of a federal grant application by the Department of Human Services to the U.S. Department of Health and Human Services, in the amount of \$250,000 per year for two years, to improve educational stability and permanency outcomes for middle- and high-school aged children in the child welfare system.
- 17. Military Department**
 Allocated \$90,000 from the Emergency Fund established by section 1, chapter 600, Oregon Laws 2011..... \$ 90,000
 to supplement the appropriation made to the Military Department by section 1(2), chapter 623, Oregon Laws 2011, Operations, for operation and maintenance costs at the Portland Air National Guard Base.
- 18. Military Department**
 Allocated \$80,000 from the Emergency Fund established by section 1, chapter 600, Oregon Laws 2011..... \$ 80,000
 to supplement the appropriation made to the Military Department by section 1(2), chapter 623, Oregon Laws 2011, Operations, for operation and maintenance costs at the Kingsley Field Air National Guard Base.
- 19. Military Department**
 Increased the Federal Funds expenditure limitation established for the Military Department by section 3(1), chapter 623, Oregon Laws 2011, Operations, by \$5,000,000..... \$ 5,000,000
 and approved the establishment of 23 limited duration positions (11.50 FTE) for an intergovernmental agreement with the federal government for the Umatilla Chemical Depot, with the understanding that the Department of Administrative Services will unschedule the expenditure limitation until a copy of the signed caretaker intergovernmental agreement is provided to the Department of Administrative Services and the Legislative Fiscal Office.
- 20. Military Department**
 Established for the 2011-13 biennium a Federal Funds Capital Construction expenditure limitation for the Military Department in the amount of \$1,804,000..... \$ 1,804,000
 for the Milton-Freewater Armory, with the understanding that the Department of Administrative Services will unschedule the expenditure limitation until a copy of the final construction contract is provided to the Department of Administrative Service and the Legislative Fiscal Office.

21. Department of Justice

Housing and Community Services Department

Allocated \$3,781,798 from the special appropriation made to the Emergency Board by section 15(1), chapter 110, Oregon Laws 2012 \$ 3,781,798 to supplement the appropriation made to the Department of Justice by section 1, chapter 575, Oregon Laws 2011; allocated \$3,850,000 from the special appropriation made to the Emergency Board by section 15(1), chapter 110, Oregon Laws 2012 \$ 3,850,000 to supplement the appropriation made to the Housing and Community Services Department by section 1, chapter 574, Oregon Laws 2011; increased the Other Funds expenditure limitation established for the Department of Justice by section 2, chapter 575, Oregon Laws 2011, by \$2,369,535 \$ 2,369,535 and authorized the establishment of five limited duration positions (1.13 FTE) for the Department of Justice and one limited duration position (0.50 FTE) for the Housing and Community Services Department for activities through June 30, 2013 related to mortgage fraud and foreclosure.

22. Criminal Justice Commission

Approved, retroactively, the submission of a federal grant application by the Criminal Justice Commission to the U.S. Department of Justice in the amount of \$750,000 for services related to offender re-entry and recidivism reduction, with the understanding that the grant will not be accepted without a waiver from the match requirement or an existing source of funds for the match is identified.

24. Department of State Police

Approved, retroactively, the submission of a federal grant application by the Department of State Police to the U.S. Department of Homeland Security in the amount of \$240,000 for the purchase of two patrol boats for the Fish and Wildlife Division.

25. Oregon Business Development Department

Approved, retroactively, the submission of a federal grant application by the Oregon Business Development Department to the U.S. Small Business Administration in the amount of \$600,000 for funds available under the State Trade and Export Promotion program, and increased the Federal Funds expenditure limitation established for the Oregon Business Development Department by section 4(1), chapter 579, Oregon Laws 2011, Business, innovation and trade, by \$480,000..... \$ 480,000 with the understanding that the Department of Administrative Services will unschedule the expenditure limitation pending award of the grant.

- 26. Employment Department**
 Increased the Federal Funds expenditure limitation established for the Employment Department by section 12(1), chapter 110, Oregon Laws 2012, by \$1,527,235..... \$ 1,527,235
 for expenditures related to child care; and
 increased the Federal Funds expenditure limitation established for the Employment Department by section 12(2), chapter 110, Oregon Laws 2012, by \$5,500,000..... \$ 5,500,000
 and added months to 40 existing limited duration positions (14.50 FTE) for expenditures related to unemployment insurance benefit administration.
- 27. Employment Department**
 Approved, retroactively, the submission of a federal grant application by the Employment Department to the U.S. Department of Labor in the amount of up to \$3 million for Reemployment Eligibility Assessment, authorized the establishment of 32 limited duration positions (15.50 FTE), and increased the Federal Funds expenditure limitation established for the Employment Department by section 12(2), chapter 110, Oregon Laws 2012, by \$2,991,915..... \$ 2,991,915
 for receipt of the grant.
- 28. Department of Veterans' Affairs**
 Approved, retroactively, the submission of a federal grant application by the Department of Veterans' Affairs to the U.S. Department of Veterans' Affairs for a State Home Construction Grant in the amount of \$499,163, increased the Other Funds expenditure limitation established for the Department of Veterans' Affairs by section 2(1), chapter 587, Oregon Laws 2011, by \$125,000..... \$ 125,000
 established for the 2011-13 biennium a Federal Funds Capital Construction expenditure limitation in the amount of \$499,163 \$ 499,163
 and an Other Funds Capital Construction expenditure limitation in the amount of \$268,780 \$ 268,780
 for improvements to the Oregon Veterans' Home in The Dalles.
- 29. Department of Agriculture**
 Approved, retroactively, the submission of a federal grant application by the Department of Agriculture to the U.S. Food and Drug Administration in the amount of \$300,000 to conform to the national Manufactured Food Regulatory Program Standards.
- 30. Department of Agriculture**
 Approved, retroactively, the submission of a federal grant application by the Department of Agriculture to the U.S. Food and Drug Administration in the amount of \$300,000 to achieve and maintain international accreditation for the Department's food testing laboratory.
- 31. Department of Land Conservation and Development**
 Approved, retroactively, the submission of a federal grant application by the Department of Land Conservation and Development to the National Oceanic and Atmospheric Administration in the amount of \$100,000 to help communities manage and reduce exposure to natural hazard risks.

- 32. Department of Land Conservation and Development**
 Increased the Federal Funds expenditure limitation established for the Department of Land Conservation and Development by section 3, chapter 254, Oregon Laws 2011, by \$160,000 \$ 160,000
 for supplemental federal funds received.
- 34. Department of Energy**
 Increased the Other Funds expenditure limitation established for the Department of Energy by section 1, chapter 632, Oregon Laws 2011, by \$713,675 \$ 713,675
 and authorized the establishment of two limited duration positions (1.08 FTE) for energy facility siting activities.
- 35. Department of Energy**
 Approved, retroactively, the submission of a federal grant application by the Department of Energy to the U.S. Department of Energy, State Energy Program, in the amount of \$750,000 to devise a strategy to identify and finance energy retrofit opportunities in public buildings.
- 36. Parks and Recreation Department**
 Increased the Other Funds expenditure limitation established for the Parks and Recreation Department by section 1(4), chapter 584, Oregon Laws 2011, Direct services, by \$220,175 \$ 220,175
 and increased the Lottery Funds expenditure limitation established for the Parks and Recreation Department by section 2(4), chapter 584, Oregon Laws 2011, Direct services, by \$73,392 \$ 73,392
 to repair damage sustained during the January 2012 storm event.
- 37. Parks and Recreation Department**
 Approved the submission of a federal grant application by the Parks and Recreation Department to the U.S. Fish and Wildlife Service, National Coastal Wetlands Conservation Grant Program, in the amount of \$675,000 for the acquisition of approximately 167 acres of coastal estuary and associated freshwater wetlands in Sand Lake, Oregon.
- 38. Department of State Lands**
 Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(5), chapter 412, Oregon Laws 2011, Capital improvements, by \$352,000 \$ 352,000
 for capital improvement expenditures to convert rangeland to more productive use, with the understanding that the Department of Administrative Services will unschedule \$250,000 of the expenditure limitation until certain preliminary wetland, water rights, and archeological survey work is completed.
- 39. Department of Transportation**
 Approved, retroactively, the submission of a federal grant application by the Department of Transportation to the Federal Transit Administration, State of Good Repair Program, in the amount of \$3,420,430 to purchase six new rural service vehicles and replace 11 rural services vehicles on behalf of local transit districts.

- 40. Department of Transportation**
 Approved, retroactively, the submission of a federal grant application by the Department of Transportation to the Federal Transit Administration, Bus and Bus Facilities Discretionary Grant Program, in the amount of \$2,741,657 for capital improvement and facility assistance on behalf of Hood River Transportation District, Coos County, Yamhill County, City of Woodburn, Sunset Empire Transportation District, and the City of Salem.
- 41. Department of Transportation**
 Increased the Federal Funds expenditure limitation established for the Department of Transportation by section 3(5), chapter 542, Oregon Laws 2011, Rail, by \$5,141,157 \$ 5,141,157
 and increased the Other Funds expenditure limitation established for the Department of Transportation by section 2(14), chapter 542, Oregon Laws 2011, Rail, by \$13,500,808 \$ 13,500,808
 for passenger rail projects.
- 43. Health Licensing Agency**
 Acknowledged receipt of a report from the Health Licensing Agency on the status of fee changes.
- 45. Oregon Liquor Control Commission**
 Acknowledged receipt of a report from the Oregon Liquor Control Commission describing revenues and expenditures by program as compared to projections.
- 46. Department of Administrative Services**
 Approved the 2013-15 uniform rent rates as proposed by the Department of Administrative Services and required under ORS 276.309.
- 47. Department of Administrative Services**
 Acknowledged receipt of a report from the Department of Administrative Services on the implementation of compensation plan changes and position allocations.
- 48. Department of Administrative Services**
 Acknowledged receipt of a report from the Department of Administrative Services on the state's Certificates of Participation debt service savings as a result of refinancing.
- 49. Public Employees Retirement System**
 Established an Other Funds expenditure limitation for the Public Employees Retirement System in the amount of \$2,071,410 \$ 2,071,410
 and authorized the establishment of three limited duration positions (1.62 FTE) for recovering overpaid retirement benefits.
- 50. Legislative Fiscal Office (for Department of Justice)**
 Allocated \$300,000 from the Emergency Fund established by section 1, chapter 600, Oregon Laws 2011..... \$ 300,000
 to supplement the appropriation made to the Department of Justice by section 1, chapter 575, Oregon Laws 2011, for costs associated with the replacement of the primary information management system for Oregon's child support program.

51. Legislative Fiscal Office

Acknowledged receipt of a report from the Legislative Fiscal Office on the 2011-2012 School Year Subaccount, and approved providing notice of non-compliance to the Governor for the 11 school districts that failed to submit a report under SB 5553 (2011).

52. Legislative Fiscal Office

Acknowledged receipt of a report on agency plans to accommodate a combined \$28 million General Fund/Lottery Funds reductions assumed in the rebalanced 2011-13 biennium legislatively approved budget from an effort to restructure state government business operations; approved the transfer of General Fund appropriations and Lottery Funds expenditure limitations and increased Other Funds expenditure limitation, per the attached schedule, and directed the Legislative Fiscal Office to provide the details of the reduction plans to the affected agencies for implementation in the 2011-13 budget and to the Department of Administrative Services for inclusion in the development of the 2013-15 budget. The Legislative Fiscal Office will continue to work with the Department of Corrections and the Department of Forestry to refine reduction plans with a subsequent report to the Emergency Board in September 2012 on these two agencies.

The Department of Corrections was directed to eliminate 21 management or public affairs positions effective July 1, 2012 from the positions included in the Legislative Fiscal Office recommendation. In addition, the Department of Corrections was instructed to identify another 20 management positions that will not be included in the agency proposed budget for 2013-15. The Department will report to the Legislative Fiscal Office by September 7, 2012 on all positions that will not be included in the 2013-15 proposed budget.

The Department of Forestry was directed to maintain the wildland fire supervisor positions and forest manager position in the Protection from Fire program and the forest manager position in the Private Forests program listed in the Legislative Fiscal Office recommendation through the 2012 fire season. The Department was directed to work with the Legislative Fiscal Office and stakeholders on alternative fire and private forest program actions to accommodate the \$205,496 General Fund reduction associated with these positions; if no suitable reductions can be identified from program changes, vacancy savings, or other administrative actions that have no adverse effect on the provision of fire protection and forest management activities, the Legislative Fiscal Office will recommend restoration of the funding from the Emergency Fund when reporting to the Emergency Board in September 2012.

53. Legislative Fiscal Office (for Department of Administrative Services)

Established a General Fund appropriation for the Department of Administrative Services and allocated \$550,000 from the Emergency Fund established by section 1, chapter 600, Oregon Laws 2011..... \$ 550,000 to the newly established appropriation for payment as a grant to the City of Eugene for costs associated with public safety at the 2012 U.S. Olympic Team Trials.

Oregon Legislative Emergency Board
Certificate

December 12, 2012

Pursuant to the provisions of ORS 291.328, and acting under the authority of 291.326(1)(a), (b), (c), and (d); 291.371; and 291.375; this hereby certifies that the Emergency Board, meeting on December 12, 2012, took the following actions:

1. Treasurer of State

Deferred to the 2013 legislative session consideration of a request from the Treasurer of State to establish three permanent full-time positions to plan for and initiate replacement of the agency's Local Government Investment Pool Voice Response System, with the understanding that the Treasurer may continue to use existing staff and administratively established positions where necessary to both maintain the functionality of the Voice Response System and to develop a business case for the modernization of the Voice Response System.

2. Judicial Department

Increased the Other Funds expenditure limitation established for the Judicial Department by section 1, chapter 110, Oregon Laws 2012, specialty courts, by \$580,000, and increased the Other Funds expenditure limitation established for the Judicial Department by section 2(1), chapter 634, Oregon Laws 2011, Operations, by \$380,000 for expenditures of grant renewals.

3. Judicial Department

Increased the Other Funds expenditure limitation established for the Judicial Department by section 13, chapter 110, Oregon Laws 2012, capital improvement, by \$110,000 to address deferred maintenance issues with the Supreme Court Building.

4. Oregon Health Authority

Approved the transfer of General Fund appropriations, increased Other Funds expenditure limitations, increased Federal Funds expenditure limitations, and authorized the establishment of 72 positions (18.77 FTE) for the Oregon Health Authority; with the understanding that the Department of Administrative Services will unschedule General Fund, and Other Funds and Federal Funds expenditure limitation; per the attached table.

5. Oregon Health Authority

Acknowledged receipt of a report from the Oregon Health Authority on the agency's efforts to pursue a competitive bidding process for generic drugs within the Medicaid program.

6. Department of Human Services

Allocated \$40,097,207 from the special purpose appropriation made to the Emergency Board by section 15(1), chapter 110, Oregon Laws 2012, to supplement appropriations made to the Department of Human Services, approved the transfer of General Fund appropriations, increased and transferred Other Funds expenditure limitations, and increased Federal Funds expenditure limitations; with the understanding that the Department of Administrative Services will unschedule General Fund and Other Funds expenditure limitation; per the attached table.

7. Department of Corrections

Approved, retroactively, the submission of a federal grant application by the Department of Corrections to the U.S. Department of Justice in the amount of \$191,768 for the Circles of Support and Accountability (COSA) Training and Technical Assistance Project.

8. Department of Corrections

Approved, retroactively, the submission of a federal grant application by the Department of Corrections to the U.S. Department of Justice in the amount of \$291,797 to provide advanced-level skills training for probation officers.

9. Department of Corrections

Oregon Health Authority

Acknowledged receipt of a report from the Department of Corrections and Oregon Health Authority on the purchase of pharmaceutical drugs for the inmate health services program, with the understanding that the agencies will report by April 2013 on steps taken to reduce the cost of pharmaceuticals, which could include, but is not limited to: a) utilizing the Oregon Prescription Drug Program (OPDP), b) working with the Oregon Health Authority to explore 340-B eligibility, and c) resolving whether non-drug supplies can be purchased through OPDP or multiple group purchasing organizations.

10. Department of Justice

Allocated \$1,102,857 from the special purpose appropriation made to the Emergency Board by section 57(1), chapter 600, Oregon Laws 2011, to supplement the appropriation made to the Department of Justice by section 1, chapter 575, Oregon Laws 2011 for ongoing legal costs associated with the defense of the revenue stream from the Master Settlement Agreement.

11. Military Department

Increased the Other Funds expenditure limitation established for the Military Department by section 2(4), chapter 623, Oregon Laws 2011, Community support, by \$133,355 for 2012 fire season expenses.

12. Military Department

Increased the Other Funds expenditure limitation established for the Military Department by section 2(4), chapter 623, Oregon Laws 2011, Community support, by \$300,000, and increased the Federal Funds expenditure limitation established for the Military Department by section 3(3), chapter 623, Oregon Laws 2011, Community support, by \$650,000 for the Oregon Youth Challenge Program.

13. Department of Public Safety Standards and Training

Approved the submission of a federal grant application by the Department of Public Safety Standards and Training to the White House Office of National Drug control Policy in the amount of \$100,000 for the Oregon High Intensity Drug Trafficking Area Training Initiative; and increased the Federal Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 3, chapter 586, Oregon Laws 2011, by \$50,000.

15. Housing and Community Services Department

Approved the submission of a federal grant application by the Housing and Community Services Department to the U.S. Department of Housing and Urban Development for a National Foreclosure Mitigation Counseling grant of up to \$807,804 to provide foreclosure intervention counseling to owner-occupants of single-family properties who are delinquent on their mortgages and/or at risk of default or foreclosure.

16. Department of Forestry

Acknowledged receipt of a report from the Department of Forestry on the 2012 fire season; allocated \$2,660,983 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 537, Oregon Laws 2011, for fire protection expenses, to supplement the appropriation made to the Department of Forestry by section 1(1), chapter 537, Oregon Laws 2011, Fire protection; and deferred to the 2013 legislative session consideration of the request for an allocation of \$22,093 from the general purpose Emergency Fund.

17. Department of Fish and Wildlife

Increased the Federal Funds expenditure limitation established for the Department of Fish and Wildlife by section 4(2), chapter 573, Oregon Laws 2011, Wildlife Division, by \$1,219,834; increased the Federal Funds expenditure limitation established for the Department of Fish and Wildlife by section 4(1), chapter 573, Oregon Laws 2011, Fish Division, by \$1,555,846; and authorized the establishment of three limited duration positions (0.75 FTE) and the reclassification of two positions; to accommodate unanticipated federal revenues and to complete federal contracts.

18. Department of Agriculture

Deferred to the 2013 legislative session consideration of the request by the Department of Agriculture for an allocation of \$446,040 from the general purpose Emergency Fund to fund research on issues surrounding growing of canola.

19. Department of Agriculture

Increased the Federal Funds expenditure limitation established for the Department of Agriculture by section 4(2), chapter 409, Oregon Laws 2011, Natural resources, by \$101,200 for a grant to help meet Korea's phytosanitary requirements for importation of blueberries.

20. Department of Agriculture

Acknowledged receipt of a report from the Department of Agriculture on use of emergency funds approved at the September 2012 meeting of the Emergency Board to help those affected by rangeland fires in Southeast Oregon.

22. Department of Environmental Quality

Increased the Federal Funds expenditure limitation established for the Department of Environmental Quality by section 5(1), chapter 536, Oregon Laws 2011, Air quality, by \$900,000, and authorized within the Federal Funds expenditure limitations established for the Department of Environmental Quality by section 5, chapter 536, Oregon Laws 2011, the transfer \$300,000 from subsection (4), Cross program, to subsection (1), Air quality, for final payments of diesel engine and exhaust improvement grants and purchase of air quality monitoring equipment.

23. Parks and Recreation Department

Approved, retroactively, the submission of a federal grant application by the Parks and Recreation Department to the U.S. Fish and Wildlife Service in the amount of \$60,000 to enhance the Sullivan Gulch Channel.

24. Department of Aviation

Increased the Other Funds Capital Construction expenditure limitation established for the Department of Aviation by section 1(10)(d), chapter 742, Oregon Laws 2007, and increased by section 1(1), chapter 79, Oregon Laws 2012, by \$48,000, for the Chiloquin Apron Rehabilitation, Obstruction Removal and Lighting project.

25. Department of Transportation

Approved, retroactively, the submission of a federal grant application by the Department of Transportation to the Federal Motor Carrier Safety Administration in the amount of \$154,824 to support agency efforts to comply with revised federal regulations for Commercial Driver Licenses and Commercial Learner Permits.

26. Department of Transportation

Approved, retroactively, the submission of a federal grant application by the Department of Transportation to the Federal Transportation Administration in the amount of \$2,400,000 to construct a trail between Warren Creek and Lindsey Creek State Park.

27. Department of Transportation

Increased the Other Funds Capital Construction expenditure limitation established for the Department of Transportation by section 1(5), chapter 615, Oregon Laws 2011, Portland drive testing center, by \$4,187,246 for facility upgrade and remodeling.

28. Department of Transportation

Increased the Federal Funds expenditure limitation established for the Department of Transportation by section 3(4), chapter 542, Oregon Laws 2011, Public transit, by \$12,800,000 for federal transit grant reimbursement to local recipients, and increased the Other Funds expenditure limitation established for the Department of Transportation by section 2(13), chapter 542, Oregon Laws 2011, Public transit, by \$900,000 for federal cost allocation.

29. Department of Administrative Services

Acknowledged receipt of a report from the Department of Administrative Services on Improving Government expenditures that were not anticipated in its legislatively adopted budget for 2011-13, with instructions that the Department: a) unschedule the \$2 million designated for scoping the HR system replacement project until the scoping project and the replacement project are reviewed by the appropriate legislative committee, b) report during its 2013-15 budget request hearing to the Joint Committee on Ways and Means on savings and outcomes achieved by the other eleven Improving Government projects, and c) report to the Joint Committee on Ways and Means as soon as the final costs of the steam tunnel repair project are known and request the inclusion of a capital construction project to the list of 2011-13 approved projects, if necessary.

30. Department of Administrative Services

Established for the 2011-13 biennium an Other Funds expenditure limitation for the Department of Administrative Services in the amount of \$11,965,254 for distributions to taxing districts from the Shared Services Fund.

31. Department of Administrative Services

Acknowledged receipt of a report from the Department of Administrative Services on the coordination of funding requests related to removal of debris from Oregon's beaches created by the tsunami that devastated Japan in March 2011.

32. Citizens' Initiative Review Commission

Acknowledged receipt of a report from the Citizens' Initiative Review Commission on the 2012 initiative review process.

33. Bureau of Labor and Industries

Allocated \$76,069 from the Emergency Fund established by section 1, chapter 600, Oregon Laws 2011, to supplement the appropriation made to the Bureau of Labor and Industries by section 1, chapter 576, Oregon Laws 2011 to fund two positions in the Wage and Hour Division until the end of the biennium, and requested that an equivalent amount of Wage Security and Prevailing Wage Rate funds be reallocated back to the General Fund during the 2013 legislative session.

34. Bureau of Labor and Industries

Increased the Federal Funds expenditure limitation established for the Bureau of Labor and Industries by section 4, chapter 576, Oregon Laws 2011, by \$41,123 for increased caseload and program costs in federal contracts with the Equal Employment Opportunity Commission and the U.S. Department of Housing and Urban Development.

35. Oregon Liquor Control Commission

Acknowledged receipt of a report from the Oregon Liquor Control Commission on sales, revenue, and available expenditure limitation related to agents' compensation and credit card fees, as directed by budget note.

36. Office of the Governor

Employment Department

Approved, retroactively, the submission of a federal grant application by the Office of the Governor to the U.S. Department of Education and the U.S. Department of Health and Human Services in the amount of \$20.5 million for a Race-To-The-Top grant; increased the Federal Funds expenditure limitation established for the Office of the Governor by section 135, chapter 37, Oregon Laws 2012, Early Learning Council and Youth Development Council, by \$1,223,658; increased the Other Funds expenditure limitation established for the Employment Department by section 2(1), chapter 339, Oregon Laws 2011, Operating budget, by \$1,658,526; and authorized the establishment of three limited duration positions (0.39 FTE) in the Governor's Office for the Early Learning Council and two limited duration positions (0.26 FTE) in the Employment Department for the 2011-13 biennium activities under this federal grant; with the understanding that the Department of Administrative Services will unschedule the limitation increases until the funds are received from the federal government.

37. Office of the Governor

Increased the Other Funds expenditure limitation established for the Office of the Governor by section 134, chapter 37, Oregon Laws 2012, Early Learning Council and Youth Development Council, by \$825,616 to cover expenditures.

39. Legislative Fiscal Office

Transferred unallocated balances in the amount of \$24,968,138 from special purpose appropriations made to the Emergency Board to the general purpose appropriation legal citation, per the attached table.

Governor's Recommended Budget for 2013-15 by DHS Program Area

Every year, more than one million people rely on services offered by the Department of Human Services (DHS) and our partners to meet their most basic needs: to be safe, to live as independently as possible and to support their efforts to achieve economic independence. DHS's success in that effort depends upon nearly 7,500 employees across the state, as well as upon thousands of community and service delivery partners, all of whom are dedicated to supporting and improving the lives of Oregonians.

Even though the revenue available for next biennium is less than what would otherwise be required to continue current services across state government, the Governor's Recommended Budget for 2013-15 (GRB) proposes to take advantage opportunities to re-focus Oregon's human services delivery model away from a reactive and expensive crisis oriented model toward a model with increased investment in early intervention, prevention and in-home services.

The GRB for DHS is guided by the following principles:

- Focus on outcomes, rather than on individual programs;
- Focus on the needs of customers and communities, considering changing demographics and anticipating future needs;
- Invest upfront to prevent the need for higher-cost services. Where possible, target investments to supports that will promote independence and avoid, delay or reduce the need for services; and
- Support the transformation of service delivery models to address current gaps, anticipate future needs and to repurpose the time of people delivering services to allow for more time serving people and less time on paperwork and process.

The following is a summary of the program investments proposed by the Governor to balance the DHS budget in a long-term, sustainable manner that -- as much as possible within current funding limitations -- serves the needs of Oregon's most vulnerable citizens.

Aging and People with Disabilities

The Aging and People with Disabilities program area provides services and supports to Oregonians over the age of 65 and to adults with physical disabilities. In 2011, more than 27,800 seniors and people with disabilities received Medicaid long-term care services as a result of the work of APD and its partners. Oregon's senior population is projected to grow from 502,000 to 950,000 by 2030. Currently, only about 4% of Oregon's senior population uses Medicaid-funded long-term care services. In order to

avoid a significant increase in demand on publicly-funded long-term care supports and services as the eligible population grows, it is critical to begin implementing strategies now that support healthy aging, meet the needs of an increasingly culturally diverse population and prevent or delay entry (as appropriate) into costly long-term care services.

The GRB provides a net \$14.9 GF decrease (2.0%) and a \$159.6 million TF increase (7.0%) in APD programs. The GRB assumes the continuation of the Nursing Facility Provider Tax and corresponding increases in Nursing Facility rates. In addition, the GRB assumes that Oregon receives additional Medicaid funding through transition of many services into a State Plan K Amendment. More specifically, the GRB includes:

- A \$7.3 million GF investment (\$13.7 million TF) to improve services to older Oregonians with mental illness, traumatic brain injury, and other dementia related diseases.
- An investment of \$1.8 million GF (\$6.8 million TF) in options counseling services to help Oregonians and their families make informed choices when long-term care services are needed.
- Investment of \$3.0 million GF (\$6.0 million TF) to implement a modern assessment, service planning and case management system to serve Oregonians.
- A \$3.2 million GF investment to pilot innovative approaches to improving long-term services and supports and outcomes.
- A \$675,000 GF investment (\$2.0M TF) to improve the quality of nursing facility care by increasing staffing ratios for certified nurse assistants.
- A \$2 million GF (\$5.3 million TF) investment to support critical community capacity that can meet the needs of individuals with special needs.
- A \$9.1 million GF (\$29.2 million TF) investment in proposed rate increases for in-home and community-based providers to strengthen the Oregon home and community-based model.
- Investment of \$2.5M GF (\$5M TF) to increase access and quality of eligibility, case management and adult protective services through implementation of the workload model. This investment would result in APD staffing levels reaching approximately 95% of the workload model overall.

Developmental Disability Programs

The Developmental Disabilities program area serves over 21,000 children and adults with intellectual and developmental disabilities (I/DD) throughout their life span, and the

number of eligible individuals requesting services is increasing. The State, Counties, Brokerages, Providers, Families and Self-Advocates are all critical parts of Oregon's Developmental Disabilities service system that focuses on individuals with I/DD living in the community and having the best quality of life at any age.

To maintain the high level of customer satisfaction, and to maximize the system's efficacy and financial sustainability into the future, the GRB makes several strategic investments that depend on the state's ability to leverage additional federal funding targeted to I/DD services through transition of some services into a State Plan K Amendment.

More specifically, the GRB includes a net GF increase of \$32.0 million over current LAB (6.1%) with a TF investment of \$173.0 million (12.3%) in DD Programs, including:

- An investment of \$1.2 million GF to expand family-to-family networks from 4 to 10.
- An investment of \$9.4 million GF (\$30.1 million TF) to increase integrated employment options and outcomes for transition age youth and for working-age adults with intellectual and developmental disabilities.
- Restore the Fairview Trust to pre-11-13 levels, adding \$6.9 million GF.
- An investment of \$2.4 million GF (\$4.9 million TF) to implement a statewide electronic record keeping system that will improve the quality of care and increase the efficiency of the system.
- An investment of \$7.4 million GF (\$20.0 TF) to increase available funding for personal care workers and adult foster care providers, improving quality, stability and availability of services.

Child Welfare Programs

Child Welfare Programs serve children and families when children are subject to abuse and neglect in their home environment. Child protection workers respond to all reports of familial child abuse/neglect and, if a child cannot be safe at home, place children in foster care. In the last five years, Oregon has reduced its foster care population, concentrating on safety and is moving toward a system that prevents out-of-home placement (even of abused children) and increases timely and safe return to families. The cost of abuse and neglect – to children, to families, and to the state – is significant.

The GRB targets resources across programs designed to strengthen families, reduce the incidence of abuse and neglect, and transform the state's ability to respond to families in distress and at risk of entering the child welfare system. For vulnerable children and their families, these proposals will also strengthen health and education outcomes as the system innovations depend in part on local communities partnering in

new ways with Child Welfare and on locally driven decisions about filling service gaps that are specific to the needs of abused/neglected children and families.

The GRB recommends a GF increase of \$68.3 million (17.5%) and a TF change of \$109.7 million (13.9%) in Child Welfare programs, including:

- An investment of \$23.6 million GF (\$40.1 million TF) to transform the front-end of the Child Welfare system through the implementation of a Differential Response Model. This investment brings Child Welfare staffing levels to 80% of the workload model.
- An investment of \$11.5 million GF (\$29.5 million TF) in support of outcome-based, locally prioritized child welfare services that support statewide implementation of programs to strengthen, preserve and reunify families (SB 964 (2011)).
- Two additional investments totaling \$2.3 million GF (\$3.7 million TF) to improve Indian Child Welfare Act compliance and enhance outcomes for Tribal children and their families.
- Continuation of the post-adoption program to 11-13 levels by backfilling one time funds of \$108,000 GF.
- An investment of \$750,000 GF to increase services available to runaway and homeless youth.
- An investment of \$0.1 mil GF (\$0.2 mil TF) in the DHS Oregon Licensing and Regulatory Oversight program to improve the safety of licensed child caring agencies.

Self Sufficiency Programs

Self Sufficiency programs are designed to help families achieve economic security with temporary supports for their most basic needs, such as food, health insurance coverage and child care, while working to meet their employment goals. The GRB provides a net GF increase of \$89.7 million (29.4%) and a TF change of \$116.4 (8.8% with non-limited FF SNAP funds, or a 13.3% increase without non-limited FF SNAP funding).

TANF: Oregon has recognized TANF as a prevention program that can support self sufficiency and family stability. To qualify, families with children must be living below 40% of the federal poverty level (FPL) (\$616 per month for a family of 3). TANF has experienced unprecedented caseload growth since the downturn of the economy in 2008, and federal funding for the program has remained unchanged since 1996, making it increasingly difficult to adequately resource the program. The GRB makes the following recommendations regarding the TANF program:

- \$1.1 million GF investment to support the increase in caseload costs.

- Investment of \$46 million to maintain 2011-13 program eligibility levels (this represents a backfill of one-time revenues).
- Program elements are funded to reflect 2011-13 reductions (in pre- and post-TANF, etc.), and the HB 2049 (2011) sunset is extended for another two years.
- JOBS funding remains unchanged from 2011-13 levels of just under \$60 million GF.
- Implementation of a 36 month, full family time-limit starting October 1, 2013 (with some exceptions). This would impact approximately 1,100 families per month.
- Continues funding the Modernization of DHS technology systems with investment of \$7.1 million GF (\$56.1 million TF).
- Self Sufficiency staffing levels at 71% of the workload model overall, including an increase in TANF case management staffing levels from about 35% to about 65%.

ERDC: The Employment Related Day Care program (ERDC) provides child care subsidies to approximately 8500 employed parents with incomes up to 185% (\$2,823 per month for a family of 3), helping them to stay employed.

As part of his investments to enhance school readiness and improve services and supports to young children through the Early Learning Council, the GRB:

- Invested \$11.2 million to backfill one time funds used in 11-13.
- Increases ERDC to over 9,000 cases on average for the 13-15 biennium (investing \$1.5 million GF, \$1.5 TF).
- In partnership with ELC, improve the quality of care through the training and other supports available to child care providers.
- Continues 2011-13 co-pay levels for parents.

Vocational Rehabilitation

The Office of Vocational Rehabilitation Service (OVR) assesses, develops service plans and provides vocational rehabilitation services to youth and adults whose disabilities present impediments to employment. A total of 383,381 working-age adults experience a disability, but only 36% are employed.

The GRB proposal for OVR:

- Invests \$0.74 million GF (\$2.7 million TF), strategically focusing on enhancing OVRS's ability to support the employment of individuals with Developmental Disabilities. This will allow OVRS to serve an additional 318 individuals.

Agency Administration

The Governor included an across the board reduction for all state agency administrative budgets, including DHS. DAS will be leading a process with state agencies which ultimately will result in a proposal to the Legislature recommending how best to meet the overall administrative reduction target.

Conclusion

In his budget message, Governor Kitzhaber says:

“My recommended budget for 2013-15 is guided by one simple premise: that all Oregonians deserve their shot at the American dream... There is no quick fix to the economic challenges Oregonians have faced over the last four years. Central to our success will be having the courage and discipline to look beyond the next two years to where we want Oregon to be in a decade and beyond. We share a vision that includes a strong middle class and expanding economic opportunity for every Oregonian in every community in the state. We share an expectation to raise our families in safe, vibrant neighborhoods with excellent, well-funded schools. And we are committed to the future generations of Oregonians whose prosperity depends on the decisions we are making today to wisely deploy the natural, human and financial capital of this great State. Let's take the next steps together.”

At the Oregon Department of Human Services, we support the Governor's vision for Oregon's future. The release of the GRB this week is the first step in a long process. Between January and the end of June 2013, there will be opportunity to provide input into the final Legislatively Approved Budget for the Department.

As discussions continue about what services Oregon can afford, DHS will maintain its commitment to innovation and transparency, and to prioritizing improvements that will use scarce resources efficiently and effectively.

If you have questions about the GRB budget proposal for the Department, please send them to communications.dhs@state.or.us and we will do our best to promptly get you the information you need.

~Erinn Kelley-Siel, DHS Director

Oregon Department of Human Services

Central and Shared Service Programs

Overview

DHS Central and Shared Services provide critical leadership and business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice, and preserve dignity.

DHS and OHA govern their shared services through a board composed of operational leaders of the two agencies. This approach ensures that shared services are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, implemented recent budget cuts selectively, moved staff in and out of shared services to rationalize service delivery, and begun implementing more integrated systems to support the performance of all our employees.

Performance management system. The system is contained in the Director's Office and is managed by the entire executive team containing the following key elements:

- A clear statement of the outcomes DHS must achieve.
- Descriptions of the processes DHS uses to achieve its outcomes.
- Measures of success for each outcome and process.
- Owners for each measure.
- Written "breakthrough" strategies for each initiative that will significantly improve outcomes and processes.
- A quarterly all-day all-leadership review of progress on each measure and strategy.

Investment in centralized infrastructure. Based on the performance management system, DHS restructured into five programs. DHS then centralized many support services that previously had been performed separately by each program. This creates efficiencies, assigns clear accountability for the performance of support services, and allows targeted investments to improve performance. Better support services ultimately improve performance of all DHS employees and our providers.

Modernization. One of the most important breakthroughs is modernization of DHS's service delivery. This involves redesigning how DHS interacts with its clients and customers – defining where face-to-face contact better serves client needs and advances the agency mission and where on-line and automated processes can more efficiently meet the need or better support DHS staff in their direct service to clients.

DHS Central Services

DHS Central Services consist of the Office of the Director and Policy, the Office of Equity and Multicultural Services (OEMS), the Office of Human Resources, the DHS Office of the Chief Financial Officer and the Office of Communications. These offices provide essential business supports to programs in achieving the department and programs mission, vision and outcomes.

Oregon Department of Human Services Central and Shared Service Programs

The DHS Governor's budget request for Central Services is:

DHS Central Services Total						
	GF	OF	FF	TF	Positions	FTE
LAB	18,389,204	61,409,920	21,398,423	101,197,547	91	90.43
GRB	19,965,924	879,768	21,869,402	42,715,094	86	85.18
Difference	1,576,720	(60,530,152)	470,979	(58,482,453)	(5)	(5.25)
Percent Change	8.57%	-98.57%	2.20%	-57.79%	-5.49%	5.81%

Office of the Director and Policy is responsible for overall leadership, policy development and administrative oversight. These functions are coordinated with the Governor's Office, the Legislature, other state and federal agencies, partners and stakeholders, local governments, advocacy and client groups, and the private sector.

The DHS Director's Office provides leadership in achieving the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity. The office supports all DHS field office and central office programs by managing legislative and legal matters, client concerns, written rules, and contested hearings.

The Office of Equity and Multicultural Services (OEMS) supports the mission of the DHS by providing leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. The office also investigates all claims of discrimination and harassment by staff. The goals of the office include reducing service disparities; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

The Office of Human Resources (HR) serves as a strategic partner to its customers in DHS, providing proactive, comprehensive human resources services. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development to ensure the agency has a diverse workforce with the right skills, training, and support to do their work, now and in the future.

The DHS Office of the Chief Financial Officer (OCFO) provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in supports the mission of DHS. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Office of Financial Services, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

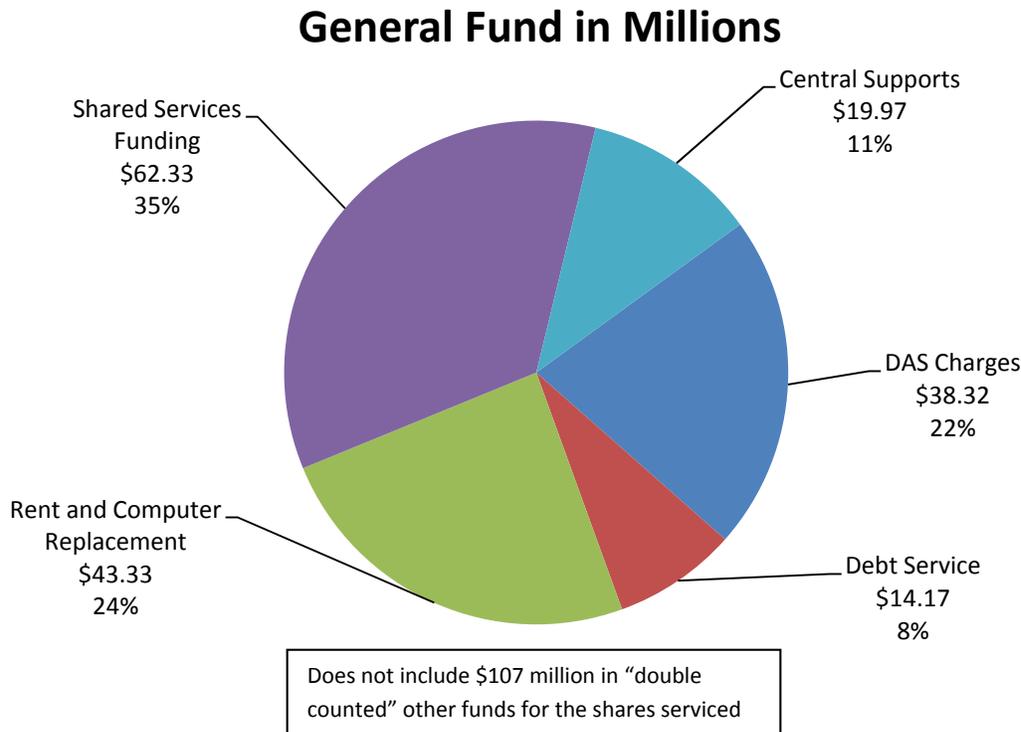

The Office of Communications supports the mission of the DHS by providing accurate information to employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public.

Oregon Department of Human Services Central and Shared Service Programs

DHS Shared Services and Statewide Assessments

DHS Shared Services supports both DHS and OHA by providing optimal business services to ensure accountability, data driven decisions, and stewardship of resources. The Governor’s budget also includes the DAS, SDC and Risk Management assessments, debt service, and the DHS facilities rent and computer replacement budgets.

DHS Shared Services and State Assessments Total

Overview of Shared Services

DHS Shared Services contains the following key offices and programs that serve both DHS and OHA. These services keep program support cost to a minimum for both agencies and are all “other funded”. Each agency has a “Shared Services Funding” budget to pay for services each program receives for both DHS and OHA (Office of Information Services) shared services. DHS shared services are listed below:

Shared Services Administration provides leadership and direction for shared services offices as well as managing the business continuity planning efforts for both DHS and OHA.

Oregon Department of Human Services Central and Shared Service Programs

The Budget Center provides program and administrative budget planning, financial analysis and technical budget support for DHS and OHA. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

The Office of Forecasting, Research and Analysis provides client caseload forecasting services for DHS and OHA.

The Office of Financial Services provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds owed to DHS and OHA. This office provides accurate, accountable and responsive financial management and business services to DHS and OHA clients, providers, vendors, stakeholders and employees in compliance with state laws and federal policies, rules and regulations.

The Office of Human Resources provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training..

The Office of Facilities Management provides coordination of DHS and OHA offices and other facilities statewide.

The Office of Imaging and Records Management provides document and records management services for DHS and OHA through imaging, electronic workflow, data entry, archiving and retention services.

The Office of Contracts and Procurement provides contract and procurement services for DHS and OHA by making purchases, conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

The Office of Investigations and Training conducts and oversees statewide protective services investigations of abuse and neglect, provides technical assistance to community-based mental health and developmental disability programs, and delivers training on investigations and abuse prevention services for DHS and OHA.

The Governor's budget includes one position is requested in Office of Investigations and Training (part of the Office of Adult Abuse Prevention and Investigation). This office is essential for ensuring safety for vulnerable populations groups including adults who receive mental health and/or developmental disability services, children in therapeutic services programs and adults over the age of 65 or who have a physical disability that reside in a long-term care setting or the community. This position will provide an additional resource for quality assurance in this critical adult safety program.

The Internal Audit and Consulting provides independent and objective information about DHS and OHA operations, programs and activities to help management make informed decisions and improve services.

The Office of Payment, Accuracy and Recovery provides services for DHS and OHA by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent

Oregon Department of Human Services Central and Shared Service Programs

activities; investigates and recovers state funds expended for services when a third party should have covered the service; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided.

The Performance Excellence Office (PEO) provides leadership in coordinating continuous improvement and training services for DHS and OHA. PEO uses a blend of project management principles, a strong governance structure, metrics developing and tracking, training and Lean techniques to drive a comprehensive approach to creating a culture of continuous improvement that is cutting red tape, delivering better and faster services to clients, generating cost savings and increasing transparency.

Below is a table comparing the 2011 LAB to the GBB for the OF funded DHS Shared Services. There is included in the GBB a true up” of new positions at a \$0GF cost. This adds 49 positions using S&S funds where historically DHS and OHA have found efficiency in adding positions, for example in Imaging and Records, where centralizing document management for the ease of field use is much more economical.

	2011-13 LAB	2013-15 GBB		2011-13	2013-15 GBB	
Shared Services Office (LAB)	OF	OF	Difference	POS	POS	Difference
Shared Services Administration	\$2,899,269	\$949,203	(\$1,950,066)	8	3	-5
Budget Center	\$3,333,795	\$2,998,171	(\$335,624)	18	16	-2
Office of Forecasting and Research Analysis	\$2,539,392	\$2,802,586	\$263,194	14	13	-1

Imaging and Records Management Services	\$10,471,303	\$10,597,657	\$126,354	59	76	17
Office of Contracts & Procurement	\$5,363,452	\$8,090,559	\$2,727,107	29	42	13
Office of Investigations and Training (OIT)	\$6,430,409	\$6,934,486	\$504,077	30	41	11
Internal Audit and Consulting	\$1,758,126	\$1,980,946	\$222,820	12	10	-2
Office of Payment Accuracy & Recovery (OPAR)	\$26,564,098	\$26,656,763	\$92,665	184	166	-18
Performance Excellence Office	\$2,108,278	\$1,985,499	(\$122,779)	11	8	-3
Publication and Design Section	\$0	\$2,336,086	\$2,336,086	0	15	15
Total DHS Shared Services	\$100,243,851	\$107,624,344	\$7,380,493	602	648	46

DHS also has statewide assessments that include DAS charges such as the State Government Service Charge, Risk Assessment and State Data Center Charges. Rent for all of DHS is in the Facilities budget, IT Direct is for all computer replacement needs. The Shared Services funding is the revenue for the DHS portion of DHS and OHA shared services and Debt services is to pay off Certificates of Participation loans taken for major DHS projects. Each service, both shared and assessed, are important for DHS to attain its programmatic outcomes. It is critical to continue to look for efficiencies in our systems, processes or staffing.

The Governor’s budget includes \$1.07 million in GF and \$2.1 in TF, which corresponds with a similar investment in OHA to allow DHS and OHA to move to upgrade the computers and network infrastructure necessary to achieve their respective program outcomes. DHS and OHA

Oregon Department of Human Services Central and Shared Service Programs

have up to 66%, of over 14,000 active computers over five years of age, which is beyond industry standard lifecycle, causing inefficient work processes due to how slow DHS systems operate on these computers and systems. In addition, as modern systems such as HIX and Eligibility Modernization are implemented, a further strain on the performance of DHS and OHA systems will occur. Many computers will not support these modern applications,

Two tables comparing 2011-13 LAB to 13-2013-15 GBB are set out below for these services.

LAB Statewide Assessments	GF	OF	FF	TF	GF %

Oregon Department of Human Services

Self Sufficiency Programs

Overview

Oregonians access self-sufficiency services when they are in need and have no other alternatives. From all corners of the state, we served over one million Oregonians last year through our Supplemental Nutrition Assistance Program (SNAP). Most Oregonians seeking assistance need help meeting needs such as nutritious food – over 800,000 just this month – or basic supplies through cash assistance for families with children living in extreme poverty such as utilities, housing and basic hygiene needs, or assistance with quality child care so parents can remain employed to maintain a path of financial stability. Programs also help low-income families impacted by domestic violence or refugees seeking a safe area to live. Some programs require involvement in employment services or job training to help them move quickly to supporting themselves and their families. Families can also receive help to apply for other federal programs (such as Supplemental Security Income) if employment is not a viable option.

Challenges

When adequately resourced, staff delivering these programs can help Oregonians transition to jobs and reduce the cycle of poverty. This keeps families safe and stable, supporting the healthy development of young children. Unfortunately, with an economic recession that triggered a dramatic increase in demand from Oregonians and subsequent program reductions as funding resources became strained, these programs have been significantly challenged to achieve results.

Nevertheless, even with the number of Oregon families in extreme poverty seeking cash assistance, increasing by 96 percent since the start of the current recession, DHS employees rose to the occasion – reducing wait-time for SNAP (formerly food stamp) benefits from nine days to same day/next day service for more than 90 percent of the nearly 820,000 Oregonians served. The Governor's budget supports current staffing levels. However, DHS adjusted eligibility positions relative to case management positions which will increase case manager staffing from 35% to 64%. Eligibility staffing will reduce to 72%. Eligibility work is expected to be mitigated by the efficiencies gained through eligibility automation for SNAP and medical once the initial modernization of program computer systems is implemented.

Seeking Self-Sufficiency

Self-Sufficiency programs are designed to help break the cycle of poverty, help Oregonians transition to jobs, support the healthy development of young children and help keep families stable, preventing children from being abused or neglected and from requiring out-of-home placement in more expensive foster care. The economic recession triggered a dramatic increase in demand from Oregonians. For example, the number of Oregon families in extreme poverty seeking cash assistance is 96 percent higher than prior to the start of the current recession.

While some reductions will be implemented or continue from last biennium, the Governor's Balanced Budget provides support for caseload increased costs, including maintaining funding behind the one-time backfill of federal revenues to help Oregonians meet their basic needs including employment assistance and access to quality child care.

Oregon Department of Human Services Self Sufficiency Programs

The Governor's Balanced Budget for Self Sufficiency Programs is:

Self Sufficiency Total						
	GF	OF	FF	TF	Pos	FTE
LAB (Dec Rebal)	303,855,060	145,684,999	446,953,925	896,493,984	2,068	2,065.71
GBB	394,177,657	145,544,021	450,226,101	989,947,779	2,076	2,059.1
Difference	89,671,743	9,513,881	17,175,821	116,361,445	(47)	(58.7)
Percent Change	29.4%	7.0%	4.0%	13.3%	-2.2%	-2.8%

Note: The large increase in GF from LAB to GBB is primarily due to backfilling \$46 million in one-time TANF and SNAP bonus funding, \$11 million in CCDF one-time funding and \$8 million in Provider Tax Backfill related to OHP standard. An additional \$31 million is the phase out of primarily furlough savings from 2011-13. These numbers do not include \$2.5 billion in Non Limited Federal Funds in the SNAP program.

GBB funding includes:

- Capacity to maintain caseload levels;
- Increasing access to Quality Child Care;
- Continuation of previous reductions;
- Implementation of a 36 month time limit for TANF.

Self Sufficiency Totals				
Self Sufficiency Investments/Reductions	GF	OF	FF	TF
DHS IT modernization and eligibility automation continuation	7.12	14.18	34.66	55.96
Continue 185% FPL TANF eligibility for non-needy caretaker relatives	(6.84)	0.00	0.00	(6.84)
Continue 120 day ineligibility for TANF if unemployed without good cause	(0.91)	0.00	0.00	(0.91)
Continue up front assessment and JOBS orientation to be TANF eligible	(3.08)	0.00	0.00	(3.08)
Continue ineligibility for ERDC for Self Employed	(1.97)	0.00	0.00	(1.97)
Continue increased Co-Pay of 10% started in 11-13	(3.41)	0.00	0.00	(3.41)
Increase average monthly caseload from 8500 to over 9000	6.90	0.00	0.00	6.90
Add 36 month time limit	(10.43)	0.00	0.00	(10.43)

Modernization. In addition to an increased demand for services at a time of limited resources, DHS recognizes that Oregon - and our clients - are changing. We are serving more people of diverse backgrounds and with a wide-range of skill sets – and yet, our model of service delivery continues to offer a “one-size-fits-all” approach to qualifying and accessing services. In addition, as the Health and Early Learning systems continue to transform, our model of case management for Oregonians receiving TANF services (and Oregonians receiving Medicaid Long-Term Care services, *see* LTC 3.0), merits re-examination to ensure maximum results and minimal duplication.

Oregon Department of Human Services

Self Sufficiency Programs

To that end, the DHS “Modernization” initiative has two major components:

1. **Service Delivery Modernization:** Changing our service delivery approach to improve the customer experience by creating opportunities for clients to access services in more customized ways and ensuring that clients have the time they need with case managers. This approach allows the department to focus on person and family-centered approaches, rather than service models that are driven by specific programs.
2. **Modernized Technology:** By automating eligibility processes and ensuring data interoperability within and across DHS and OHA programs, including the Health Insurance Exchange, streamlined systems will free up time currently spent on paper and manual processing and allow for that time to be re-invested in time with clients and community partners. This is an extension of our current “continuous improvement” or Lean Daily Management efforts, recognizing the barrier that our outdated technology infrastructure currently plays in the workload effort our staff must make to produce results.

Time Limits

Included in the GBB is a policy change moving from a 60 month time limit for adults who do not meet exemptions to a 36 month full family time limit. This policy change would be implemented in October of 2013. This would change the current policy by limiting TANF eligibility not just to the adult who has reached the time limit, but to the entire household. Additionally, current policy allows exemptions to ‘stop the clock’ as the exemption occurs. The new policy, if implemented, would not consider exemptions during accrual of months, but at the point a person reaches the 36 month limit. During the first six months following implementation, an average of 21 families per month is expected to be impacted. During the last six months of the biennium, an average of 1,634 families per month would be affected by the time limit.

TANF JOBS program. Today, the JOBS program is only funded to serve approximately 15 percent of families needing employment and training services. This funding level continues in this biennium. Previous reductions in JOBS resulted in a 75% reduction in contracted employment and training services. DHS case management staff resources are currently at 35 percent of the need to provide eligibility and case management services given the growth of the TANF caseload. These resource challenges mean that it is more important than ever to think differently about how services are provided to ensure that families can gain employment as quickly as possible.

The reduction in JOBS funding increased referrals of work-ready TANF clients to Workforce Investment Act (WIA) services. Building on the foundation of early partnership across workforce programs, DHS, Oregon Employment Department and the Community Colleges and Workforce Development agency are in the process of identifying strategies to better align service innovations to expand capacity for assessment and referral to both job search and WIA funded training opportunities. Finally, this budget anticipates scaling up efforts to support local development of partnerships with employers for a sector-focused effort to increase subsidized work, on-the-job training, and work experience opportunities.

Extension of other TANF reductions

This budget extends for two years reductions implemented in the 2011-13 biennium, including the continuation of suspensions of key provisions in the HB 2469 (2007) program design. These include:

- Elimination of the State Family Pre-SSI/SSDI enhanced grant
- Extension of the 2011-13 TANF benefit levels, without the Cooperation Incentive for 36,355 families

Oregon Department of Human Services

Self Sufficiency Programs

- Maintains the 2011-13 income limit for relative caregivers who are caring for a child in the absence of a parent.
- Maintains the 2011-13 'job quit penalty' for 120 days for parents who quit a job or cause their own dismissal.
- Maintains the reduction of the Pre-TANF program from up to 200 percent of a grant amount in payments to 100 percent of the grant amount.
- Maintains the modification to the re-engagement and disqualification process.
- Continues suspension of the Parents as Scholars program.
- Continues suspension of the Post TANF program for those who leave TANF due to employment.

Support for family stability and child well-being. More than 35 percent of children in foster care were receiving Temporary Assistance for Needy Families (TANF) supports within two months of entering care. This budget proposes maintaining current funding levels to support family stability and child well-being for families in extreme poverty receiving funds through TANF, thereby reducing the likelihood that those children are abused or neglected and enter foster care. We served 7,336 families during the 2009-2011 biennium – approximately half the estimated need in this program area.

Increase Access to Quality Child Care. DHS proposes continuing two eligibility limitations set to expire at the end of 2011-13 in order to increase the biennial monthly average caseload from 8,500 to 9,000. This budget also includes a General Fund backfill of one time revenues used in 2011-13. This proposal expands opportunities for low-income parents to access child care subsidies and contracted slots and strengthens training for providers in support of health, safety and positive child development.

DHS, in collaboration with the Oregon Department of Employment's Child Care Division, continues its innovative partnerships with child care and education programs by expanding the Head Start contracted child care to Oregon Program of Quality (OPQ) providers. The key goals of the field test are for children to have access to continuous quality child care, for families to have continuity of child care to support their employment, and for providers to have stable funding. A statewide research team has been engaged to evaluate the field test. The field test for expanding contracted child care is related to priorities set by the Governor and the state's new Early Learning Council to better prepare children for kindergarten and beyond. DHS is engaged in this work and is building stronger collaborations with other agencies and partners to integrate our ERDC program with the state's early learning system. Guiding more of our providers through the Oregon Program of Quality will be a priority.

Conclusion

While the need for services continues to exceed available resources, it is critical to also plan how work can be done differently both within the programs and by engaging community partners. For DHS customers, it will be important to assess their needs and connect them quickly to services that help them find work or remove barriers.

Many of the families served in self-sufficiency programs also connected to workforce, health, safety and education systems. As a modernized technology system is developed, the DHS eligibility processes will be streamlined which will allow DHS to re-purpose staff time to support improved employment outcomes for

Oregon Department of Human Services

Self Sufficiency Programs

parents receiving TANF and to better make connections across major systems such as health care and early learning.

The transformation, of our human service delivery model is dependent on the strategic investments outlined in this budget. Specifically without modernization DHS will not be able to realign staff to improve TANF Case Management staff levels without an additional GF investment. These upfront investments will, in the short-run, maximize results for clients and begin reducing the TANF caseload by maximizing employment outcomes. In the long-run, these investments will improve service quality and equity, ensure that DHS clients benefit from coordination with other systems (including health, education, and workforce systems), and allow the Department to maximize results by delivering accurate, culturally appropriate and essential services to Oregon's most vulnerable families.

Oregon Department of Human Services
 Child Welfare Programs

Overview

We provide prevention, protection and regulatory programs for Oregon’s most vulnerable citizens – children and adults – keeping them safe and improving their quality of life. Prolonged economic stress is increasingly putting Oregon children, seniors and adults with disabilities in situations that are unsafe. These issues are disproportionately affecting communities of color contributing to their over-representation in both the child welfare and corrections systems. We know that the demand for state-funded services in the future is directly related to our ability to prevent and mitigate these traumas today.

Engaging Families

Our strategies are foundational on creating an environment that is safe for citizens who are most vulnerable based on family, social and economic issues. We focused our initiatives toward minimizing risk by transforming our interventions to better meet the challenges families are facing. This will enhance our ability to engage individuals who are less able to care for themselves, their families and communities. This creates a stronger continuum of efforts to prevent abuse and neglect, and when necessary, supports efforts to hold perpetrators of that abuse and neglect accountable.

The Governor’s Balanced Budget (GBB) proposal seeks to ensure that Oregonians are safer in the future than they are today by focusing on strategies that have proven to result in the greatest reduction in overall risk. We aim to achieve the following outcomes:

- To continue to build and support an effective array of interventions with community-based supports and services for families before, during and after involvement with the Child Welfare System. This includes strategies to safely and equitably reduce the number of children who experience foster care and providing available services and supports so children are not at risk for re-entry into foster care and families can be stabilized.
- Continue to improved services for children and families of color, targeting strategies to address issues such as overrepresentation in foster care, underrepresentation in family support and family preservation services, and potential disparities in decision-making.
- Continue to maintain a clear focus on protective strategies for the most vulnerable citizens in care in Oregon, including children, the elderly and those with physical and developmental disabilities to keep them safe and healthy.

Funding Request – Strategic Initiatives

The GBB in Child Welfare is projected to be 51% general funds for the 13-15 biennium.

DHS Child Welfare Total						
	GF	OF	FF	TF	Pos	FTE
LAB (Ay13 thru Dec Rebal)	393.53	23.38	386.98	803.89	2,376	2,326.09

Difference	64.43	(1.03)	33.20	96.60	308	228.18
Percent Change	16.4%	-4.4%	8.6%	12.0%	13.0%	9.8%

Children and Families: Child Welfare Services represent a continuum of supports with the ultimate goal of keeping children safe. Historically in Oregon, the safety practice has been removal and placement into foster care. Based on research and feedback from children, youth and families

Oregon Department of Human Services
 Child Welfare Programs

who experience our system, our strategic efforts are refocusing the service continuum to ensure in home safety whenever possible, while also focusing on child well-being, family stability. The goal is avoid removal and placement in foster care by supporting families safely parenting their children at home. Post adoption and guardianship support is another opportunity to help families bridge difficult times as children move through childhood, again preventing them from returning to foster care.

These strategies include:

1. Developing local programs and community capacity that are designed to strengthen, preserve and reunify families involved in the child welfare system;
2. Differential Response - Changing our upfront intervention to more fully engage families to build on their strengths, engage them in community programs and supports, and engage them in outcomes that remediate the issues that are challenging the family;
3. Focusing on addressing the disproportionality of children of color; and
4. Assisting more families in extreme poverty at risk of involvement with Child Welfare.

GBB investments are intertwined in the Child Safety, Child Welfare Design and Delivery, Permanency Planning and Post-Adoption/Guardianship.

DHS Child Welfare Investments						
	GF	OF	FF	TF	Pos	FTE
Fund 5% Shift Differential for additional Indian Child Welfare Act staff duties	0.08	0.00	0.08	0.17		
Achieve better outcomes for Native Americans by adding dedicated staff	2.25	0.00	1.31	3.56	25	18.75
Staff CW at 80% workload to implement Diff Response and OR Safety Model	23.64	2.65	13.90	40.19	281	205.69
Restore Post Adoption to 11-13 level, replacing one-time funds	0.11	0.00	0.33	0.43		

Strengthening, Preserving and Reunifying Families Programs: In 2011, the Oregon Legislature recognized and codified this performance-based approach developing a community-based, programs and services for children and families involved in the child welfare system. This effort compliments the work of the Coordinated Care Organizations and the future work of the Early Learning Council hubs, targeting children and families involved in the child welfare system. Local collaborations of interested stakeholders determine community strengths and service gaps and request funding targeted to specific outcomes focusing on keeping children safe and families together. These programs are an essential compliment to the implementation of Differential Response and supporting children being safely parented at homes. Implementation of this approach and investment in a more comprehensive service continuum has begun in seven counties. This budget would allow us to work with communities and other local agencies to establish these programs statewide. While not shown here, included in the GBB is an investment of over \$11.5 million GF and \$29.5 million TF additional support of these programs.

Differential Response: Traditional child welfare services assume a single approach to protecting a child through investigations: an allegation occurs, and we investigate and decide if maltreatment occurred. This approach is very effective with some families. However, for families that are experiencing neglect, the children enter care at a higher rate than other forms of abuse and stay

Oregon Department of Human Services
 Child Welfare Programs

longer, suggesting the need for a different approach with these families. Based on our data, nearly 60 percent of children are involved with child welfare as a result of neglect (as opposed to physical and sexual abuse). The GBB proposes adding an alternative approach to child protection, known as “Differential Response.” This approach would allow state workers to conduct a family assessment, gauge the needs and strengths of the family, and engage them and community partners in outcomes that keep the family together, benefitting the family as a whole. This alternative approach would not replace investigations or assistance when there is imminent danger or significant safety risk. However, in other states this approach has safely reduced costly foster placements and the associated trauma on the child and families. To succeed and minimize risk of harm to children already identified as having experienced abuse/neglect, this service delivery innovation depends both on investment in culturally specific community-based services such as our Strengthening, Preserving and Reunifying Families Programs , as well as investment in adequate child welfare staffing focused on serving more children safely in their own homes.

The proposed staffing investment will bring the Child Welfare program to nearly 80 percent of the workload model by the end of the 2013-15 biennium, assuming all positions are filled. These staff are critical to the integrity of the Oregon Safety model; our intervention model for safety assessments and safety management. This staffing investment is necessary even without a differential response model so that we can most adequately handle the caseloads. However, if we are provided the combination of staffing, in-home and Strengthening, Preserving and Reunifying Family Program funding, and implement a differential response model, we will be able to make significant progress in preventing and/or delaying children from entering care, reducing the length of stay for those in and providing culturally appropriate, family based services in community settings.

Indian Child Welfare Act: Native American children are currently over-represented in Oregon’s child welfare system. Compliance with the Indian Child Welfare Act is a federal mandate. However, the Act is complex and requires a higher level of expertise and effort than cases involving non-Tribal children. This proposal, a five-percent pay differential for our Tribal Liaisons, would enhance Oregon’s relationships with Tribal governments and the ability to work with Tribal children and families to reduce disparities and improve compliance with the Act. Because of the increased efforts the Act requires, we also propose adding staff across the state and in targeted areas, to manage caseloads.

Licensed care facilities: The most vulnerable citizens in care in Oregon, including children, the elderly and those with physical and developmental disabilities comprise the 50,000 people who reside in 5000 licensed care facilities in Oregon. Through our regulatory activities, we provide an environment of safety for residents through initial licensure, regularly scheduled state and federally mandated surveys/site reviews, and through corrective action processes. (Note part of this budget is included in each program budget that receives services.)

ORLO Investment/Reductions	Office of Licensing and Regulatory Oversight					
	GF	OF	FF	TF	Pos	FTE
Add CW licensing staff to adjust to increasing workloads	0.91	0	0.90	1.81	1	0.88

Currently, Oregon is not meeting our performance targets in this area. This budget proposes to

Oregon Department of Human Services
Child Welfare Programs

increase staff capacity allowing the Department to meet requirements set by federal regulation and state law. This investment is critical to Oregon's ability to avoid negative financial consequences in other state and federally funded services.

Conclusion

We want to break the cycle that causes harm to individuals and drives Oregonians into expensive state-sponsored programs. Our strategies focus on helping ensure that Oregonians are safer in the future than they are today by increasing resources proven to result in the greatest reduction in overall risk. Though those strategies require some upfront, taxpayer investment, we are committed to being accountable for needed service delivery innovations and performance metrics focused on improvements in the lives of those we serve and long-term reductions in the demand for state services. We know that abuse and neglect will never totally be eliminated, but we believe that Oregon should be a place where our children, the elderly, and persons with disabilities are safe, and we believe our budget proposal will improve the state's ability to work with individuals and communities to achieve that goal, while reducing the demand for costly state services in the future.

Oregon Department of Human Services

Vocational Rehabilitation Programs

Overview

We help Oregonians with disabilities become employed through specialized training and new skills. This includes helping youth with disabilities transition to jobs as they become adults, helping employers overcome barriers to employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. A total of 383,381 work age Oregonians experience a disability but only 36 percent are employed. Employment helps people with disabilities become more self-sufficient, involved in their communities and live more engaged, satisfying lives. Investments through this program provide outcomes for individuals, helping them become productive members of our society, contributing to local economies and reducing a reliance on expensive state programs.

Current funding levels

The Governor's Recommended Budget to operate the Vocational Rehabilitation program is \$16.4 million General Funds for the 13-15 biennium. This is a 3.6 percent increase from the Legislatively Approved Budget for the 11-13 biennium.

Office of Vocational Rehabilitation Economy and Jobs Total						
	GF	OF	FF	TF	Positions	FTE
LAB	15,879,444	2,269,521	61,506,963	79,655,928	224	220.28
GRB	16,445,239	2,320,412	64,627,927	89,830,420	224	220.28
Difference	565,795	50,891	3,120,964	10,174,492	0	0.00
Percent Change	3.6%	2.2%	5.1%	12.8%	0.0%	0.0%

Strategic funding proposals

We have prepared a strategic budget to improve our programs effectiveness and enhance the program's ability to provide further employment outcomes for Oregonians. Program improvements focus on return-on-investment through outcomes for our clients, including:

- Serve individuals with developmental disabilities
- Increase youth served transition services
- Improve access for benefits planning
- Expand capacity to serve employers

Serve individuals with developmental disabilities. We will begin serving clients with intellectual and developmental disabilities to improve service equity and provide additional focused support to further enhance the Developmental Disabilities Program Employment First initiative (Healthy People Funding Team). Vocational Rehab and the Developmental Disabilities (DD) program are party to a lawsuit and a Department of Justice civil rights complaint regarding the access of individuals with intellectual and developmental disabilities to supported employment services due to the large number of individuals who have been placed in sheltered employment. A number of these individuals have significant barriers to employment and our counselors and service providers will need additional skills and expertise to assist. We propose creating a service specialist position to provide training and technical assistance for counselors and partners to enhance employment outcomes. The recommended remedies for the civil rights complaint focus on transitioning the focus on sheltered employment into community-based employment. This will require significant changes in service design, delivery, and coordination with education, DD services, community providers and employers.

Improve access for benefits planning. Individuals with disabilities fear losing benefits and necessary critical medical coverage if they become employed, due to federal rules and regulations. We are working with the seven Centers for Independent Living and Disability Rights Oregon (a private non-profit) to sustain the Work

Oregon Department of Human Services

Vocational Rehabilitation Programs

Incentive Network (WIN). WIN was originally developed as a pilot project through a Medicaid Infrastructure Grant and funding may end for these services. WIN is an evidence based practice, providing benefits and work incentives planning to individuals with significant disabilities who want to obtain, maintain, or increase their employment but should not lose other benefits and medical coverage. This allows people on disability benefits to become employed, gain more levels of self-sufficiency, become engaged in their communities and live a higher quality of life. They also begin paying taxes and reduce reliance on those publicly funded services.

This initiative funds positions needed to operate a statewide Work Incentives Network (WIN) on a continuing basis. This includes coordinator positions, training, technical assistance and administrative positions. This investment will increase employment for SSI/SSDI recipients to 590 individuals per year and recover \$900,000 in cost reimbursement to the state for individuals who have ceased benefit due to employment.

Expand youth served in Youth Transition Services. Youth with disabilities that complete high school and transition to work or postsecondary education or some mix do so at rates that exceed national averages through our Youth Transition Program. This nationally recognized school-to-work transition approach is a best practice for young people with disabilities. We partner with local school districts, the Department of Education, and the University of Oregon (which provides technical assistance, training and program evaluation). More schools across the state would like to implement this program and we'd like to increase our capacity to further develop this work ready workforce. Our proposal allows us to serve an additional 1,850 transition age youth.

Expand capacity to serve employers. One of the most significant barriers to employing people with disabilities involves overcoming employer concerns about the costs and efforts associated with hiring someone with a disability. Through one staff position, we provide outreach services, training and technical assistance to employers to help overcome this barrier. Our efforts have resulted in an additional 118 jobs for Oregonians in small businesses and larger organizations, such as Walgreens and Lowes. We would like to double our capacity and outreach efforts with this investment.

Conclusion

Over the course of the last two years, we have focused on improving performance by implementing performance-based job development contracts with private providers. In the past two years, this change has established standard rates for job preparation and job coaching services resulting in an overall reduction of service costs. Employment outcomes increased by 22 percent; cost per case decreased by 5 percent. We are improving the quality of jobs and return on investments with our contracts through a "vendor report card". Beginning in 2013, the report card will publish data about the number and quality of jobs vendors have developed as compared to dollars spent.

This proposal represents the next phase of strategic effort to leverage employment services to enhance the lives of Oregonians and contribute to local economies. Additional no-cost efforts underway include a five-year strategic employment plan that aligns with the state workforce plan; enhancing our employer engagement strategies; and establishing our agency as the model employer of individuals with disabilities. OVRs will also continue to actively engage with the Workforce Investment Board and the Workforce Policy cabinet in the implementation of the Board's 10-year Strategic Plan.

Oregon Department of Human Services

Aging and People with Disabilities Programs

Overview

The state of Oregon is a leader in long term care systems. We are ranked number three nationally by AARP. In 1981 Oregon received the first waiver nationwide for long term care services allowing Oregonians receiving Medicaid to choose services in their own home or their communities rather than an institutional facility such as a nursing home. This waiver provides significant benefits to the State in cost savings and allows Oregonians individual choices to best serve their needs. In Home services average approximately 22 percent of the cost of nursing facility services and community based services average approximately percent. Oregonians value receiving long term care services in a non-institutional setting with over 84 percent choosing alternatives that allow them to remain independent and safe.

Long Term Care Setting (as of April 2012)	# of Recipients	% of LTC Caseload
Nursing Facility	4,509	16%
In Home	10,802	38%
Community Based Setting	13,365	46%
Total	28,676	100%

Oregon's population is aging

Our 65+ population is projected to grow from 502,000 to 950,000 by 2030. While we prepare for this growth we know we must do more than create cost effectiveness in the choices of long term care. We must also look at preventative measures Oregonians can implement now so they never need publicly-funded long term care services.

We have prepared a strategic budget with accompanying legislative concepts to focus on modernization and improvements to help Oregonians sustain long term care services. This complex initiative, called Long Term Care 3.0 seeks to achieve the following outcomes:

- Advance a statewide Aging and Disability Resource Connection infrastructure that will help Oregonians make better choices when long term care services are needed.
- Focus on preventative services that delay or eliminate costly long term care services.
- Integrate long term care coordination with Oregon Health Authority's coordinated care organizations.
- Increase home and community based services.

Funding

The cost to operate the Aging and People with Disabilities program is projected to be \$946M general funds for the 13-15 biennium based on current law, however, the Governor's Recommended Budget is \$725M general funds.

Aging and People with Disabilities (APD) Total	GF	OF	FF	TF	Positions	FTE
LAB (December 2012 Rebalance)	753,342,731	142,607,411	1,446,384,921	2,342,335,063	1,198	1,185.35

Oregon Department of Human Services

Aging and People with Disabilities Programs

Funding Note: DHS and OHA propose transferring program budget responsibility for Medicare premium assistance from DHS to OHA. DHS will maintain responsibility for eligibility as part of our local delivery processes. Budgetary movement will permit OHA flexibility in determining how to best use these resources in their overall policy development.

We believe there are general funds that could be saved and reinvested through the following reductions:

- Elect the State Medicaid Plan K option, providing an extra 6% in federal matching funds for most home and community based services.
- Reauthorize the nursing facility provider tax with a comprehensive nursing facility capacity reduction initiative.
- Reinvigorate a strong diversion/ transition initiative that will decrease the nursing facility caseload.
- Increase funding opportunities afforded under the federal Money Follows the Person grant.

Collectively, these reductions amount to nearly \$103M in savings over the biennium and provide opportunities for strategic reinvestment in the Long Term Care 3.0 initiative.

Aging and People with Disabilities Investments/Reductions (in Millions)	GF	OF	FF	TF	Positions	FTE
Reinstate Nursing Facility Rates and Provider Tax	(18.72)	53.59	58.08	92.95

CNA Staffing Stage 3	0.68	0.12	1.21	2.01		

LTC 3.0 Strategic Funding Investments

Mental health capacity: Increase capacity to meet the needs of aging or people with disabilities who have mental illness. APD currently serves those with severe and persistent mental illness in specialized nursing facilities and residential care facilities and all are at capacity and have waiting lists.

This proposal includes four major components:

Oregon Department of Human Services

Aging and People with Disabilities Programs

- a. Increase 40 specialized living slots supporting both APD and the Oregon Health Authority Addictions and Mental Health program by significantly decreasing the number of seniors served in the Oregon State Hospital. A significant percentage of aging residents we serve at the Oregon State Hospital suffer from traumatic brain injuries, dementia or other organic brain syndromes and placement in an institution for mental disease is not appropriate or cost effective.
- b. Coordinate mental health evidenced based interventions through ADRC's such as "IMPACT," "PEARLS," and other programs that are recommended by the CDC or SAMHSA for aging and people with disabilities who may be suffering from depression, anxiety and other less severe mental illnesses. This does not duplicate current mental health services nor does it substitute services local CCOs are expected to provide.
- c. Training and support programs for case managers, direct care providers, health professionals and others on mental health screening to ensure that older adults and people with disabilities receive the appropriate screenings and interventions.
- d. Develop a statewide Gatekeeper program to enlist the help of utility workers, law enforcement, postal workers, and other service providers to help identify people in need of support. Currently, Gatekeeper programs are only available in Multnomah, Washington, and Clackamas counties. These programs have a long standing evidenced based record of positive impact.

Special population capacity: Support special population capacity development, allowing more individuals to be served outside of nursing facilities at lower costs. Some of the service gaps include settings serving individuals who are obese, or ventilator- dependent or have traumatic brain injuries.

Care Coordination: Invest in high quality care coordination services for Medicaid and non-Medicaid individuals to assist with better health, better care and lower costs and to help prevent some individuals from needing Medicaid-funded LTC in the first place. Case managers are only staffed at a level to provide generic, priority-based case management to individuals with Medicaid-funded Long Term Service and Support (LTSS). This investment would support staff to direct the work of care coordination between offices and Coordinated Care Organizations (CCOs) and increase the number of options counselors to serve individuals with LTSS needs who are not Medicaid eligible.

Innovations: Test ideas to increase quality and lower costs through an "innovation fund". Potential initiatives include improved coordination with CCOs, piloting new service delivery methods and testing new technology. These initiatives will be tracked and the outcomes measured allowing new evidence-based approaches to increase the efficiency and effectiveness of services.

Technology: Leverage the DHS Oracle investment with further technology infrastructure investments to implement a scalable assessment, service planning and case management system to save time, resources, and minimize risk. Other DHS programs will benefit from this initiative.

Oregon Department of Human Services

Aging and People with Disabilities Programs

Provider Rates: Increase rates for home and community based providers. A modest increase will assure continued strong access to home and community based services as we compete in the private market. By the end of the 2011-2013 biennium, these provider groups will have had flat rates for five years (July 2008).

Staffing: Add eligibility and adult protective services staff to meet the needs and expectations of Oregonians for the safety and protection of those we serve. We have transitioned staffing requests from a caseload ratio model (e.g. 1 case manager for every 60 cases) to a workload model that more accurately reflects the workload of local offices. This initiative seeks to fund eligibility workers who assess the necessary services to 85% of the workload model and staff those workers who provide protective services keeping individuals safe to 95% of the workload model.

Conclusion

These initiatives, collectively called LTC 3.0, will help Oregon ensure its long term care system is sustainable and ready to address the inevitable aging population. We believe these initiatives support preventative services to keep individuals from needing long term care in the first place and help all consumers receive high quality, unbiased information on long term care choices as it becomes necessary. Our path to transforming long term care honors choice, safety and independence and offers the most cost-effective solutions allowing our aging population to thrive and approach aging with confidence and dignity. We believe these initiatives will help the state best manage the resources available by providing the right services are delivered at the right time and place through efficient and effective staff to meet the changing population of Oregonians.

Oregon Department of Human Services

Developmental Disabilities Program

Overview

We provide services to cover a lifetime of support to Oregonians with developmental disabilities. People with disabilities of all ages want the same opportunities every Oregonian wants: not just to survive, but to thrive. They want to live in their own homes and make decisions about daily activities, so they can go to school, work, church, enjoy recreation and participate fully in their communities. We currently help approximately 21,000 children, adults and their families have the best quality of life possible at all stages of their lifespan. Due to their economic situation, most individuals with developmental disabilities are eligible for a Medicaid waiver which allows them to remain in their family home or community instead of an institution. Our mission is to help them be fully engaged in life and, at the same time, address their critical health and safety needs.

History and Future State

The state of Oregon is recognized nationally as an innovative leader in developing community-based services for individuals with developmental disabilities. Oregon is one of only three states that have no state or privately operated institutional level services specifically for people with developmental disabilities. In fact, the majority of individuals with developmental disabilities in Oregon, approximately 67 percent, are served in their own home or their family's home.

That is the result of two decades of work to aggressively "re-balance" the developmental disabilities system -- moving from an institutional model with expensive "one size fits all" approach -- to a self-directed, family involved, individually focused and less expensive approach to service. Today, consumers and families report a high level of satisfaction through the increased control over services, the ability to more fully integrate in home communities and the benefits of home community life.

However, to maintain those high levels of satisfaction, to further advance the inclusion of people with developmental disabilities in their communities, and to serve the increasing number of people with developmental disabilities requesting services, the system has an urgent need to continue its evolution in a fiscally sustainable manner.

To that end, we have prepared a strategic budget designed to further improve the customer experience and advance efficiencies to maximize resources. Specifically, we seek to achieve the following outcomes and goals:

- Provide an array of options that are properly distributed to assure access through equitable and culturally competent services.
- Be responsive to emerging consumer demands for individualized, self-directed services and sufficient service choices.
- Assure the health and safety of individuals served.
- Promote maximum consumer independence and engagement in homes and communities.
- Leverage use of available federal funding options.
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies.

Oregon Department of Human Services

Developmental Disabilities Program

Funding

The Governor's Recommended Budget to operate the Developmental Disability (DD) program for the 2013-15 biennium is \$560 million in General Fund.

Developmental Disabilities Program - Healthy People Total						
	GF	OF	FF	TF	Positions	FTE
LAB	523,657,917	35,237,217	839,969,017	1,398,864,151	772	767.01

With the ultimate goal of preventing or delaying access to the highest cost services within our system, we plan to direct funds to improve outcomes, expand on service innovations and strategically advance initiatives in the following areas:

- Employment outcomes
- Quality assurance
- Family-to-family support
- Expand access to services
- Technology
- Improve and implement new models of service

Developmental Disabilities Investments/Reductions	GF	OF	FF	TF
Increase OVRS services to DD clients due to DD employment first referrals	0.31	0.00	1.12	1.43

Strategic Initiatives

Improve employment outcomes. Paid employment is the key to increased independence, choice, and community engagement from an individual and family standpoint. From a program standpoint, the more individuals with developmental disabilities that have meaningful employment, the less dependent they are on public services and service planning flexibility is increased. Recent litigation and U.S. Department of Justice (DOJ) findings have highlighted the criticality of progress in this area, which will be accomplished by:

Oregon Department of Human Services Developmental Disabilities Program

- Increased training and technical assistance activities for provider organizations across the state. Support is needed to transition business models away from group or sheltered employment practices to more individually supported employment models.
- Implementing a new provider rate structure to incentivize the acquisition and maintenance of supported employment.
- Alignment of policies, services and resources between the DD Program, Vocational Rehabilitation Services and the Department of Education to serve an additional 200 individuals.
- Coordinated efforts with other state and local general workforce development and employer engagement initiatives.

Strategies to improve employment outcomes will be measured through the following metrics:

1. By 2016, sheltered workshops will not be an option for young adults leaving school.
2. By 2017, the number of adults served in sheltered workshops will reduce by 492 individuals or 30 percent.
3. Increase integrated supported employment opportunities for adult sheltered workshops by at least 10 percent per year between 2013 and 2017.
4. By 2017, the number of individuals in supported employment will increase by 32 percent, or a total of 1,000 individuals, with 80 percent of capacity growth and placements in individual employment.

Improve quality assurance. To continue our transition to a performance-based service delivery model, we propose to implement National Core Indicators (NCI), a series of nationally recognized quality assurance measures that assesses individual and family service outcomes. This will also allow Oregon to compare its system's performance results with that of other states. We also seek to restore funding for the quality assurance positions eliminated last biennium from Community Developmental Disability Programs (CDDPs) and Support Service Brokerages. These positions are critical to ensuring compliance with state and federal requirements, and allow state and local partners to identify system and service issues proactively.

Support families. We are proposing to double the number of contracted "Family-to-Family Networks" from 4 to 8 locations across the state. These community-based Networks support family members as caregivers for children with disabilities, often delaying or deferring entry into Medicaid-funded DD services. Networks advance a peer-support model, with families helping each other by creating opportunities for shared experience with other families with children with intellectual and developmental disabilities, and by providing respite and system navigation supports. These supports enable families to avoid crises and enable children to remain at home with their families.

Realign Support Services. Support Services is the major in-home program for individuals 18 years and older serving approximately 7,200 individuals monthly. It is the first level of service when adults enter the DD program. The average cost is approximately \$1,000 per month with a maximum monthly limit of \$1,770. When the maximum level of support services is insufficient to meet an individual's needs, the only option into today's system is to advance to a higher level

Oregon Department of Human Services Developmental Disabilities Program

- 24-hour care setting, costing approximately \$5,500 per month. Our budget proposes to realign our service levels, setting new mid-range cost/service limits for in-home support services. This will give the system flexibility to meet an individual's service needs without having to place the individual in a 24/7, higher cost service setting. This realignment will require that we gain approval from our federal partners and require us to build additional provider service capacity.

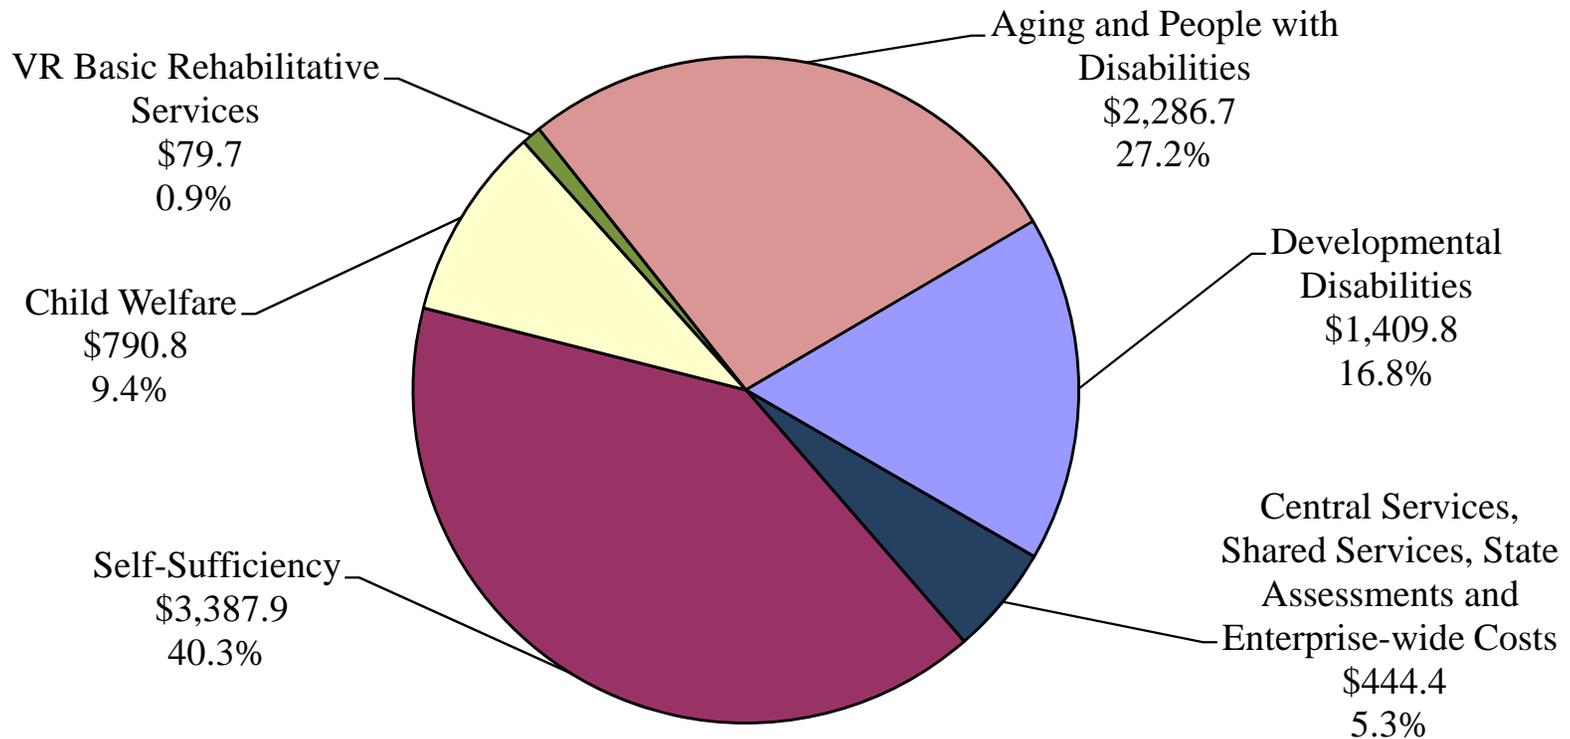

Technology advancements. New technology specifically designed for individuals with developmental disabilities will help us save time, staff resources, provide efficiencies and improve services for individuals we serve. This technology ranges from the use of remote monitoring to use of the various applications available through smart phone technology. We also need to implement a centralized, electronic client record and case management system. Today there is no common, centralized information system for client plans, services, and outcomes. Investment in this system will enhance the system's ability to effectively serve people, plan strategically, and provide required regulatory and oversight functions.

Redefine State Operated Community Programs (SOCP). These 24/7, state-run programs are used when no other community-based program can serve an individual. The program is designed to meet the needs of some of the most challenging individuals eligible for developmental disability services, including individuals who have committed crimes, are highly sexualized, etc. This biennium, the State has reduced our SOCP capacity by 22 percent. In doing so, SOCP is looking to enhance its capacity to serve as a short-term resource, rather than one where people come to live and stay for long periods of time. Resources included in this proposal would be used to stabilize the individual, build community capacity, and work to return the person back into a privately owned/operated community setting as soon as possible. The goal is to assure that the limited capacity of this high-cost service is always available to those most in need, while optimizing its size and minimizing the risk of expansion.

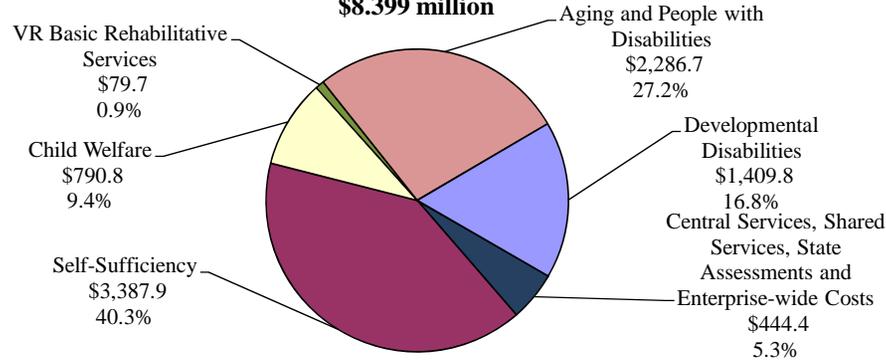

Conclusion

This proposal represents a substantive level of strategic planning that will allow the DD system to improve the quality of service it offers to Oregonians with developmental disabilities and their families that support them. The primary focus is on sustainable, quality service programming that accounts for the short- and long-term budget realities that shape our implementation planning. Out-of-home placements for people with disabilities can range from \$24,000 to \$156,000 a year. Focusing our efforts on helping people with disabilities remain at home or in their community provides not only financial benefits, but better quality throughout their lifespan. We are confident that this plan will maximize resources and strengthen the service system, enhancing its ability to produce results for those we serve.

PROGRAM PRIORITIZATION FOR 2013-15

Document criteria used to prioritize activities:

This chart reflects an attempt by each Department of Human Services program area to prioritize its programs. The general criteria used to guide this prioritization process include:

- Federal program mandates;
- Levels of need;
- Numbers of clients served; and
- Federal financial participation requirements.

In addition, each program area considered its program policy objectives and the department's mission and goals.

It must be noted, however, that prioritization is particularly difficult because most DHS programs form part of an interlinked continuum of care. Very few programs and services provide, in and of themselves, the single solution to the complex issues facing Oregon's most vulnerable populations. The wide array of programs DHS provides and the diverse populations served make application of any set of criteria difficult and of limited value, particularly at the departmental level.

September 1, 2012

The State CFO Required Department of Human Services 10% Reduction Options for the Governor's Recommended Budget

The reduction options presented in this document are not intended to reflect the policy or program recommendations of the agency. The Oregon Department of Human Services (DHS) is acutely aware that the reduction options on this list have significant consequences for Oregonians and the communities in which they live. The agency is -- and has been -- engaged in ongoing search for efficiencies that allow us to reduce costs and maximize resources with minimal impact to clients. We also work to ensure that as services to clients are reduced because of reductions, that we also reduce our infrastructure and administrative overhead concurrently.

Guiding Principles

In approaching these reductions, DHS was guided by a set of priorities in making proposed reductions. However, to reach the targeted reduction levels for the Department – which totals more than \$250 million in General Fund – it was not possible to reflect all of the following principles and priorities in the reduction list:

- For all programs, the agency looked closely at client safety and stability, preserving the infrastructure of programs and the provider-systems that serve clients, maintenance of effort (MOE) issues, legal risk, cross-program impact, cost shifting, and what the reduction would mean in terms of the loss of federal matching funds.
- DHS also looked closely at whether repeated reductions to programs no longer made sense, and whether it was time to consider the elimination of some programs in order to preserve others.
- In Child Welfare programs, DHS prioritized prevention activities and services to keep children safe at home and out of foster care over those further into the child welfare system, such as adoption and guardianship.
- In Developmental Disabilities programs, DHS prioritized continuing programs and services for those clients in long-term care. DHS also made every effort to consider reductions that would not move people into higher cost settings but could keep them at home and in their communities.
- In Self Sufficiency programs and Vocational Rehabilitation programs, DHS prioritized services and programs that helped support and preserve family stability.
- In Aging and People with Disabilities programs, DHS prioritized keeping as much of Oregon's high-quality system in place as possible – that is, prioritizing home and community-based services.

“Assisting People to Become Independent, Healthy and Safe”

An Equal Opportunity Employer

6	Central and Shared Services	Redesign of Administrative Services	\$ (3,406,434)	\$ (2,312,457)	\$ (3,394,172)	\$ (9,113,060)			This reduction is designed to be a placeholder while the Improving Government Steering Team pulls together innovative thinkers in the public and private sector to evaluate and redesign internal administrative services including HR, IT and Financial Services among others.	7/1/2013
7	APD	Eliminate Inflation	\$ (13,250,219)	\$ (215,598)	\$ (21,617,867)	\$ (35,083,684)	-	-	For the most part, providers serving individuals in the Department's Aging and People with Disability programs have not had a COLA since July 2008. At the completion of this biennium, the total period without increases will be five years. Eliminating the COLA will stretch that time period to seven years. Medicaid access to long term care settings may be compromised as the private pay market improves.	7/1/2013
8	CW	Design / Delivery Eliminate Inflation for CSL pkg 31	(829,227)	(2,513)	(1,143,364)	(1,975,104)			This eliminates the standard non-personal services inflation taken on the base at CSL packages 31.	7/1/2013
9	CW	Adoptions: Eliminate Inflation from CSL Package 31 and 32	\$ (1,670,988)	\$ (22,729)	\$ (1,779,282)	\$ (3,472,999)			This eliminates the standard, professional services, and medical inflation taken on the base at CSL packages 31 and 32.	7/1/2013
10	CW	Substitute Care: Eliminate Inflation from CSL Package 31	\$ (2,736,226)	\$ (307,024)	\$ (2,033,487)	\$ (5,076,737)			This eliminates the standard, professional services, and medical inflation taken on the base at CSL packages 31 and 32.	7/1/2013
11	CW	Child Safety: Eliminate Inflation from CSL Package 31 and 32	\$ (473,740)	\$ (113,082)	\$ (1,059,310)	\$ (1,646,132)			This eliminates the standard, professional services, and medical inflation taken on the base at CSL packages 31 and 32.	7/1/2013
12	DD	Eliminate Standard Inflation for all DD Programs	\$ (11,655,900)	\$ (783,592)	\$ (18,732,851)	\$ (31,172,343)			Effective 7/1/13 Eliminate COLA for all program areas in the developmental disability community based service system. Since 2001 there has only been one biennium where COLA was applied to services and program costs (07-09) The majority of costs in programs are staff related. There have been significant increases in insurance costs, and other general operating costs. Minimum wage has increased by statute and programs that used to pay well above minimum wage are now paying at or little above minimum wage. All of this results in unstable work force and general instability of provider organizations with the possible results in increase abuse and health/safety concerns	7/1/2013
13	DD	Eliminate Medical Inflation for all DD Programs	\$ (178,162)	\$ -	\$ (287,009)	\$ (465,171)			Effective 7/1/13 Eliminate COLA for all program areas in the developmental disability community based service system. Since 2001 there has only been one biennium where COLA was applied to services and program costs (07-09) The majority of costs in programs are staff related. There have been significant increases in insurance costs, and other general operating costs. Minimum wage has increased by statute and programs that used to pay well above minimum wage are now paying at or little above minimum wage. All of this results in unstable work force and general instability of provider organizations with the possible results in increase abuse and health/safety concerns	7/1/2013
14	SS	Eliminate Inflation from CSL Package 31	\$ (5,613,106)	\$ (302,363)	\$ (8,989,095)	\$ (14,904,564)			This eliminates the standard, professional services taken on the base at CSL in packages 31 and 32.	7/1/2013
15	APD	K-Plan Option - In Home	\$ (29,173,206)	\$ -	\$ 29,173,206	\$ -			No impact is anticipated.	7/1/2013
16	APD	K-Plan Option - Community Facilities	\$ (33,981,384)	\$ -	\$ 33,981,384	\$ -			No impact is anticipated.	7/1/2013
17	APD	Reinstate MFP	\$ (770,180)	\$ -	\$ 770,180	\$ -			No impact is anticipated.	7/1/2013
18	APD	Reinstate NF Rates and Provider Tax	\$ (18,724,663)	\$ 53,588,250	\$ 58,078,096	\$ 92,941,683			No impact is anticipated.	7/1/2014
19	APD	Decrease Nursing Facility Caseload	\$ (19,043,254)	\$ (1,826,568)	\$ (35,594,637)	\$ (56,464,459)			APD believes it can continue to decrease its nursing facility caseload below forecasted levels with continued diversion and transition efforts. Consumers are generally more satisfied with the home/ community based care placements received. However, continued decreasing caseloads threaten financial solvency of nursing facilities dependent upon Medicaid residents.	7/1/2013
20	SS	TANF - Continue Income Limit for Non-Needy Caretaker Relative Families	\$ (6,838,272)			\$ (6,838,272)			This action maintains a TANF income limit of 185% of FPL for non-needy caretaker relative households (e.g. grandparents or other relatives caring for children in absence of parent). Prior to this action, the income of non-needy caretaker relatives was disregarded in determining eligibility for the TANF program. The income standard, now set at 185% of the FPL, means that approximately 1,650 families are not eligible for TANF cash assistance. These families can no longer rely on TANF to meet the needs of the children in their care and supervision and likely have had to rely on other resources. This reduction will reduce the amount of state expenditures that count toward its MOE obligations for TANF.	7/1/2013

Department of Human Services GBB CSL Reduction List

DEPARTMENT OF HUMAN SERVICES						
Current Service Level Budget	2,561,372,047	419,141,257	3,640,031,799	6,620,545,103	Positions	FTE
	2,561,372,047	419,141,257	3,640,031,799	6,620,545,103	7,466	7,364.14
10% GF Target	256,137,205	41,914,126	364,003,180	662,054,511		

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
21	SS	TANF - Continue "Job Quit" Penalty	\$ (910,234)			\$ (910,234)			This action maintains the requirement which makes families ineligible for TANF when the adult applying for TANF cash assistance, separates from his/her most recent job without good cause. Families ineligible for TANF due to job separation without good cause cannot access TANF for 120 days from the date of the job separation. This reduction effects an average of 25 cases per month.	7/1/2013
22	SS	ERDC - Continue Self Employment Closure	\$ (1,971,022)			\$ (1,971,022)			This action continues closed access to the Employment Related Day Care program to those families where the adult has declared they are self-employed. The ERDC Program helps working parents with an income below 185% of the Federal Poverty Level to access quality child care. (Many self-employed clients work in their home, and have more flexibility in working around children's schedules and in dealing with child care issues than those who are not self-employed.) This reduction effects an average of 155 cases per month.	7/1/2013
23	SS	ERDC - Continue Increased Co-Pay	\$ (3,414,691)			\$ (3,414,691)			This action maintains higher co-pays for families in the ERDC program. This action impacts low income families who have recently transitioned to employment from TANF. This reduction increased these families' chances of not being able to afford child care, putting their job at risk and limit the families' ability to find and keep stable, quality child care.	7/1/2013
24	SS	TANF - Continue Up Front Eligibility	\$ (3,079,764)			\$ (3,079,764)			This action maintains two additional eligibility requirements consisting of an employability assessment and JOBS orientation as a condition of TANF eligibility. Clients are required (unless otherwise exempt) to assist in the assessment of the individual's skills and work readiness and to attend an orientation (group or one-on-one) to develop an initial case plan. Refusal to assist the department in initial assessment, results in denial of TANF benefits. Individuals retain the right to decline screening for alcohol and drug, learning disabilities, mental health, and physical health related issues. This reduction effects an average of 328 cases per month.	7/1/2013
25	VR	Reduce Client Service by 10%	\$ (830,861)	\$ (116,223)	\$ (3,499,320)	\$ (4,446,404)			The proposed reduction would result in an additional 10% decrease in case services forcing the creation of a waitlist. Nearly 2,700 additional individuals would not get services including youth served under third-party agreements with local school districts. This would jeopardize the match dollars that these agreements provide thus further reducing the program budget. Small specialized vendors who rely on the program for revenue would experience a sharp drop in income. Additionally this will impact the ability of the program to meet the required Maintenance of Effort resulting in a reduction in federal funds available, and resulting in the program reinstating the Order of Selection. OVRs with out an investment above the Current Service level is at risk of reinstating the Order of Selection.	7/1/2013
26	SS	TANF - Continue Pre-SSI/SSDI Enhanced Rate Reduction	\$ (2,351,103)			\$ (2,351,103)	-	-	This action maintains the State Family Pre-SSI/SSDI cash assistance grant at the same benefit levels as the TANF program. Prior to this reduction, families in the Pre-SSI/SSDI program received an enhanced payment which helped encourage parents with disabilities to apply for federal Supplemental Security Income benefits, taking them off of TANF. This reduction eliminated the enhanced grant resulting in fewer resources for individuals with disabilities. This reduction has impacted these families' ability to get needed medical supplies and other needs due to lower income. This reduction effects an average of 693 cases per month.	7/1/2013
27	SS	Post TANF - Continue Program Suspension	\$ (3,046,627)			\$ (3,046,627)	-	-	This action maintains the suspension of the Post TANF program which until April 2012, provided \$50 per month for up to one year to families transitioning from TANF to employment in order to support their families basic needs. While receiving these payments, the employment of these parents counted towards the federal work participation requirements. The Post TANF program helped ease the financial "cliff" as adults receiving TANF begin new jobs. Eliminating funding for Post TANF payments has had a negative effect on Oregon's federal work participation rates. This action also reduces the amount of state expenditures that count toward the TANF MOE obligations. This action affected approximately 2000 families.	7/1/2013

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
28	CW	Adoptions: Eliminate Post Adoption Services program , impacting supports for over 400 adoptive and guardianship families each year. (IV-B portion of budget)	\$ (75,323)	\$ (55)	\$ (253,260)	\$ (328,638)			DHS's post adoption services program provides services to adoptive and guardianship families who provide permanent homes for DHS children. These services enhance the stability and functioning of adoptive and guardianship families and their children through the provision of a support network that includes information and referral services, consultation services in response to imminent and current adoptive family crises, support groups, and training. In the federal fiscal year ending September, 2011, the post adoption services contractor (ORPARC) provided 1,619 initial and follow up contacts with families, 34 reported crisis or disruption related services, and training to 718 individuals. Families who adopt special needs children must receive adequate and competent support to help sustain their placements. Eliminating the post adoption services program is a potential disincentive for families to adopt special needs children and it will potentially increase the number of children returning to foster care or residential treatment because families in crisis will be unable to receive the support and advocacy they need within their homes. The 1,619 initial and follow up contacts with the post adoption services program will be deferred to branch offices who neither have the staff to respond, nor the expertise and competency to provide the needed services and advocacy for these families.	7/1/2013
29	DD	Eliminate Fairview Housing Trust Fund	\$ (6,000,000)	\$ 6,000,000		\$ -			Effective 7/1/13 Eliminates options to help families and individuals with I/DD remove housing barriers by funding things such as ramps, accessible bathing options, and other housing modifications. Requires a statute change.	7/1/2013
30	CW	Child Safety: Reduce ISRS budget by 15% , eliminating in-home supports for approximately 390 abused children each year.	\$ (1,095,895)	\$ (28,257)	\$ (1,611,747)	\$ (2,735,899)			This reduction to contracted ISRS will impact child welfare's ability to: 1) safely keep children at home; 2) return children home in a timely manner; and 3) provide the family supports and services to ensure children aren't re-abused and don't re-enter the foster care system. This reduction is estimated to impact approximately 390 children each year who will now need to enter foster care rather than safely stay at home, or return home, to their parents. This reduction will impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.	7/1/2013
31	CW	Child Safety: Reduce ISRS budget by another 15% , eliminating in-home supports for an additional 861 abused/neglected children and their families each year (second reduction to this program).	\$ (1,095,895)	\$ (28,257)	\$ (1,611,747)	\$ (2,735,899)			This second reduction to contracted ISRS will further erode child welfare's ability to: 1) safely keep children at home; 2) return children home in a timely manner; and 3) provide the family supports and services to ensure children aren't re-abused and don't re-enter the foster care system. This reduction is estimated to impact an additional 876 children each year who will now need to enter foster care rather than safely stay at home, or return home, to their parents. This reduction will impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. This reduction will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for Oregon's foster care (out-of-home care) program. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.	7/1/2013
32	DD	Eliminate the Family Support Program	\$ (2,062,412)			\$ (2,062,412)			Effective 7/1/13 This program provides small amount of support that goes a long way to helping family with care of child with developmental disability. Approximately 1,000 children and their families will lose service as a result of this program elimination	7/1/2013
33	DD	Eliminate the Family to Family Program	\$ (600,000)			\$ (600,000)			Effective 7/1/13 1. Eliminate Family to Family Networks. This program began in 2012 after 2011 made significant reductions in the Family Support Program. The funding (\$600K) supports four networks. The work already accomplished by these groups includes family training, identification of local resources, and general support from one family to another. The networks leverage parent time and local resources in an effort to provide support at no cost to DHS/DD.	7/1/2013

10% GF Target	256,137,205	41,914,126	364,003,180	662,054,511		

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
34	SS	TANF - Time Limit 48 Months	\$ (134,978)			\$ (134,978)			This action establishes a 48 month time limit for TANF receipt for the entire family unless a hardship exemption exists. The current Oregon time limit is 60 months and state statute allows for only the adults needs to be removed from TANF once the 60 month limitation has been reached and the family has no hardship exemption. Oregon's policy provides for the children in the home to continue to receive TANF. This action will require each family be reviewed at 48 months of TANF receipt to determine whether a hardship exemption exists. For families where no hardship exists the entire case would close. Some families may see an increase in SNAP benefits as cash benefits end. Ending TANF cash benefits may result in family instability and homelessness. Families would have to rely on other community based safety net programs which have already experienced increased demand. It is not anticipated any families will reach the 48 month time limit in the 2011-13 biennium unless they come from another state and the accrued time (alone or in combination with Oregon accrued time) equals to or exceeds 48 months. This action requires an amendment to ORS 412.079. This reduction would effect an average of 26 cases per month.	10/1/2013
35	SS	ERDC - Reduce caseload cap from 8,500 to an average of 8,000	\$ (5,716,410)			\$ (5,716,410)			Caseload cap is currently 8,500; this would reduce to an average of 8,000. Increase in TANF cases may make it very difficult to get at desired level. This reduction continues the elimination of child care supports for all parents with incomes under .185% of poverty, limiting those supports to only TANF families transitioning to employment. This reduction will further impact the ability of parents to maintain employment, the ability of child care providers to provide care and be employed, and the quality of child care children receive. This reduction will impact family child care providers, child care centers, Early Head Start/Head Start and after-school programs and may increase the number of children left home without an appropriate provider. This would affect 1590 providers. This reduction will reduce the amount of state expenditures that count toward its MOE obligations. ERDC is mainly funded by CCDF federal dollars through an Interagency Agreement with DHS and The Oregon Employment Department (OED). OED has expressed concern about this reduction to DHS.	10/1/2013
36	VR	Reduce Client Service by 10%	\$ (830,861)	\$ (116,223)	\$ (3,499,320)	\$ (4,446,404)			The proposed reduction would result in an additional 10% decrease in case services forcing the creation of a waitlist. Nearly 2,700 additional individuals would not get services including youth served under third-party agreements with local school districts. This would jeopardize the match dollars that these agreements provide thus further reducing the program budget. Small specialized vendors who rely on the program for revenue would experience a sharp drop in income. Additionally this will impact the ability of the program to meet the required Maintenance of Effort resulting in a reduction in federal funds available, and resulting in the program reinstating the Order of Selection. OVRS with out an investment above the Current Service level is at risk of reinstating the Order of Selection.	7/1/2013
37	DD	Reduce all Comprehensive Provider Rates by 4%	\$ (13,353,625)	\$ (249,093)	\$ (22,189,723)	\$ (35,792,441)			Effective 10/1/13 Reduce all provider rates by 4%. This would be an across the board reduction of rates for all DD service providers in the comprehensive system, for children and adults.	10/1/2013
38	DD	Reduce Brokerage Administration by 4%	\$ (141,360)	\$ -	\$ (239,254)	\$ (380,614)			Effective 10/1/13 Reduce the administrative budget of Support Service Brokerages by 4%. This reduction in combination with that taken in the 11-13 biennium will total a 10% reduction in the administration budget. There are 13 Support Service Brokerages serving over 7,300 adults with developmental disabilities. Along with general administration, these resources pay for Personal Agent services, and required specialized administrative functions such as fiscal intermediary services that allow for the paying of other direct services (personal support workers, job related services, caregiver respite, etc.) needed by program participants. This reduction is an equivalent of 1.58 FTE.	10/1/2013
39	DD	Reduce Brokerage TCM by 8%	\$ (881,775)	\$ -	\$ (1,492,416)	\$ (2,374,191)			Effective 9/1/2013 This reduction will reduce Targeted Case Management rates for both Community Developmental Disability Programs (CDDP's) Support Service Brokerages by 8%. Targeted Case Managers are responsible for service coordination for over 20,000 children and adults enrolled in the service system for people with developmental disabilities. The case loads of case managers will increase which will compromise the ability of CDDPs and Brokerages to fulfill their case management responsibilities. Case managers will have to prioritize client health and safety concerns over other required responsibilities and could jeopardize Medicaid compliance assurances and this source of federal funding for the service.	9/1/2013

40	DD	Reduce Comprehensive TCM by 8%	\$ (1,648,343)	\$ -	\$ (2,789,844)	\$ (4,438,187)			Effective 9/1/2013 This reduction will reduce Targeted Case Management rates for both Community Developmental Disability Programs (CDDP's) Support Service Brokerages by 8%. Targeted Case Managers are responsible for service coordination for over 20,000 children and adults enrolled in the service system for people with developmental disabilities. The case loads of case managers will increase which will compromise the ability of CDDPs and Brokerages to fulfill their case management responsibilities. Case managers will have to prioritize client health and safety concerns over other required responsibilities and could jeopardize Medicaid compliance assurances and this source of federal funding for the service.	9/1/2013
41	CW	Child Safety: Remove all GF from ISRS, further reducing the program's capacity by 73% and eliminating services to an additional 4,962 children. This removes the remaining GF in the program budget after the two 15% reductions above.	\$ (5,114,175)			\$ (5,114,175)			This third reduction to contracted ISRS will further erode child welfare's ability to: 1) safely keep children at home; 2) return children home in a timely manner; and 3) provide the family supports and services to ensure children aren't re-abused and don't re-enter the foster care system. This reduction is estimated to impact an additional 4,950 children each year who will now need to enter foster care rather than safely stay at home, or return home, to their parents. This reduction will impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.	7/1/2013
42	CW	Child Safety: Reduce System of Care (SOC) by 15% - flexible fund resource dollars to meet the individual needs of foster children and their families.	\$ (722,490)	\$ (47,742)	\$ (1,254,447)	\$ (2,024,679)			SOC provides for flexible, individualized application of services to meet the unique needs of children including special consideration for a family's cultural preferences. This level of reduction will reduce the availability of these resources to approximately 1,251 children in foster care. Many services provided through System of Care assist in resolving safety issues to prevent entry into foster care and support family reunification. Most of the services purchased through System of Care cannot be purchased with other child welfare fund sources. Therefore, reduction of this funding will mean more children coming into care, longer stays in foster care, decreased ability to return children home to their parents, and decreased ability to meet the individual needs of a child. It likely will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for the program.	7/1/2013
43	CW	Child Safety: Reduce System of Care (SOC) by another 15% - flexible fund resource dollars to meet the individual needs of foster children and their families (second reduction to this program budget).	\$ (722,490)	\$ (47,742)	\$ (1,254,447)	\$ (2,024,679)			SOC provides for flexible, individualized application of services to meet the unique needs of children including special consideration for a family's cultural preferences. This additional 15% reduction will further reduce the availability of these resources to an additional 1,063 children in foster care. Many services provided through System of Care assist in resolving safety issues to prevent entry into foster care and promote family reunification. Most of the services purchased through System of Care cannot be purchased with other child welfare fund sources. Therefore, reduction of this funding will mean more children coming into care, longer stays in foster care, decreased ability to return children home to their parents, and decreased ability to meet the individual needs of a child. It likely will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for the program.	7/1/2013
44	CW	Child Safety: Eliminate System of Care (SOC) General Fund from budget, by reducing flexible fund resources to meet the individual needs of foster children and their families (third reduction to this program budget).	\$ (3,371,619)			\$ (3,371,619)			SOC provides flexible, individualized application of services to meet the unique needs of children including special consideration for a family's cultural preferences. This additional reduction will further reduce the availability of these resources to an additional 6,026 children in foster care. Many services provided through System of Care assist in reunifying families or resolving safety issues, preventing entry into foster care. Most of the services purchased through System of Care cannot be purchased with other child welfare fund sources. Therefore, reduction of this funding will mean more children coming into care, longer stays in foster care, decreased ability to return children to their parents, and decreased ability to meet the individual needs of a child. It likely will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact programs federal funding. Failure to meet the individual needs of children and other federal outcome measures could also result in federal penalties being levied against the state.	7/1/2013

Department of Human Services GBB CSL Reduction List

DEPARTMENT OF HUMAN SERVICES						
Current Service Level Budget	2,561,372,047	419,141,257	3,640,031,799	6,620,545,103	Positions	FTE
	2,561,372,047	419,141,257	3,640,031,799	6,620,545,103	7,466	7,364.14
10% GF Target	256,137,205	41,914,126	364,003,180	662,054,511		

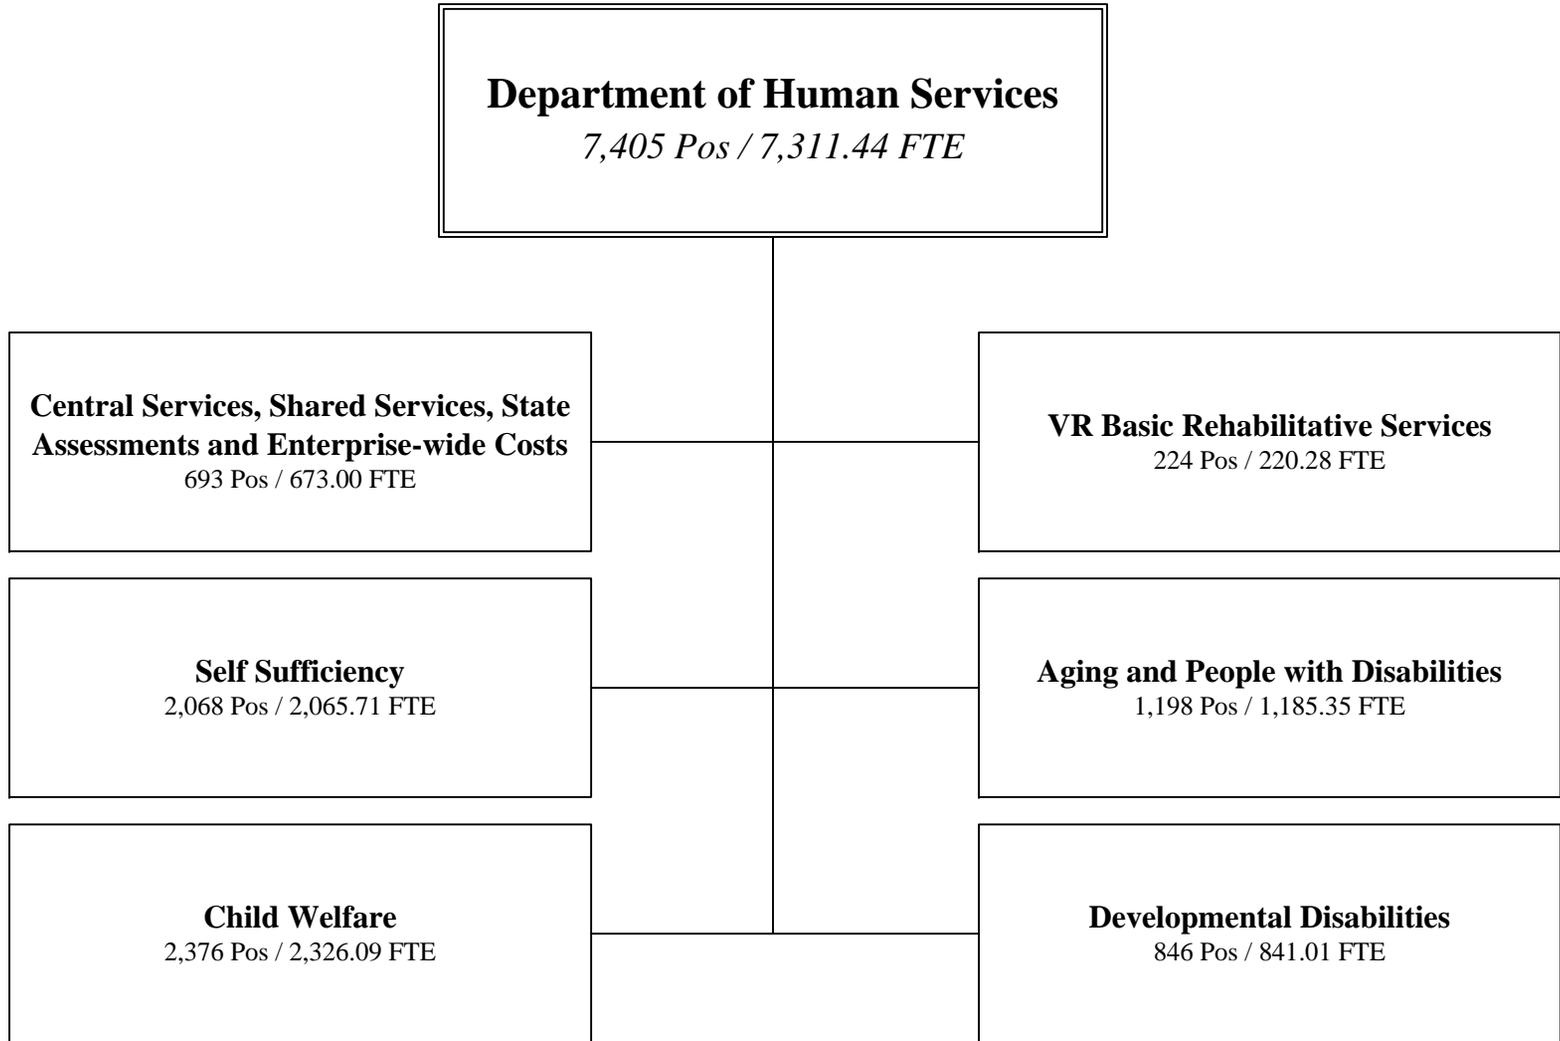

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
45	CW	Child Safety: Eliminate System of Care (SOC). This eliminates the program fully and moves the SSBG federal revenues freed up due to the elimination of SOC to Personal Services in the Field to achieve GF savings.	\$ -	\$ (222,796)	\$ (5,854,084)	\$ (6,076,880)			Total elimination of the SOC budget would mean that Oregon's child welfare system has no resources available to individually tailor services to meet the needs of children in foster care. Failure to provide these services will result in: more children coming into foster care, more children staying longer in care, more instability for children in care, failure to meet state and federal program mandates, loss of federal IV-E resources, federal penalties, and possibly other litigation against the state. Longer stays in foster care will increase costs to the state and result in poorer outcomes for children.	7/1/2013
46	SS	TANF - Time Limit 36 Months	\$ (10,296,862)			\$ (10,296,862)			This action establishes a 36 month time limit for TANF receipt for the entire family unless a hardship exemption exists. The current Oregon time limit is 60 months and state statute allows for only the adults needs to be removed from TANF once the 60 month limitation has been reached and the family has no hardship exemption. Oregon's policy provides for the children in the home to continue to receive TANF. This action will require each family be reviewed at 36 months of TANF receipt to determine whether a hardship exemption exists. For families where no hardship exists the entire case would close. Some families may see an increase in SNAP benefits as cash benefits end. Ending TANF cash benefits may result in family instability and homelessness. Families would have to rely on other community based safety net programs which have already experienced increased demand. During the first six months after implementation an average of 21 families per month are expected to be impacted. During the last six months of the biennium, an average of 1634 per month would potentially meet the time limit. Families will also be impacted if they come from another state and the accrued time (alone or in combination with Oregon accrued time) equals to or exceeds 36 months. This action requires an amendment to ORS 412.079.	10/1/2013
47	SS	Admin Portion for TANF Time Limits	\$ (1,092,863)	\$ (155,588)	\$ (1,141,863)	\$ (2,390,314)	(9)	(13.53)		10/1/2013
48	SS	TANF - Reduce TANF Grant by \$5	\$ (3,492,720)			\$ (3,492,720)			This action reduces TANF cash assistance grants by \$5 for each family. For a family of three the TANF grant will reduce from a maximum of \$506 to \$501. A reduced grant will mean that families may have to rely more heavily on local community resources. Many community based services providers have limited capacity to help these clients due to the economic crisis. For families whose income is approximately 33% of FPL this decrease may result in loss of their housing or inability to pay for their utilities. This reduction has the potential to increase family instability and could result, for some families, in becoming homeless. Client would still be eligible for medical and in some cases the SNAP benefit might increase.	10/1/2013
49	SS	TANF - Reduce Grant by \$5 (This is in addition to reduction by \$5 listed above)	\$ (3,492,720)			\$ (3,492,720)			This action reduces TANF cash assistance grants by an additional \$5 for each family. For a family of three the TANF grant will reduce from \$501 to \$496. A reduced grant will mean that families may have to rely more heavily on local community resources. Many community based services providers have limited capacity to help these clients due to the economic crisis. For families whose income is approximately 33% of FPL this decrease may result in loss of their housing or inability to pay for their utilities. This reduction has the potential to increase family instability and could result, for some families, in becoming homeless. Client would still be eligible for medical and in some cases the SNAP benefit might increase.	10/1/2013
50	SS	TA-DVS - Eligibility only in Domestic Violence by Intimate Partners	\$ (917,202)			\$ (917,202)			The definition of domestic violence in ORS 411.117 includes abuse between family members, household members and intimate partners. Most definitions of domestic violence only include intimate partners. Changing the definition would reduce the number of people found eligible for TA-DVS thus potentially putting themselves and their children at greater risk of abuse or would prevent them from escaping abuse. It would also impact non-profit domestic violence programs. A change in statute would be required. This action will impact approximately 700 families per year.	10/1/2013
51	SS	Refugee - Remove a Portion of TANF Funds	\$ (100,000)			\$ (100,000)			Refugees enter the U.S. as an extremely vulnerable population. This reduction would limit the specialized services that are currently available to newly arriving refugees in Multnomah, Clackamas, and Washington Counties. Because TANF is used in the tri-county area in a Public Private Partnership, the Refugee Program is able to coordinate TANF funds with refugee funds to purchase refugee specific services.	10/1/2013

Department of Human Services GBB CSL Reduction List

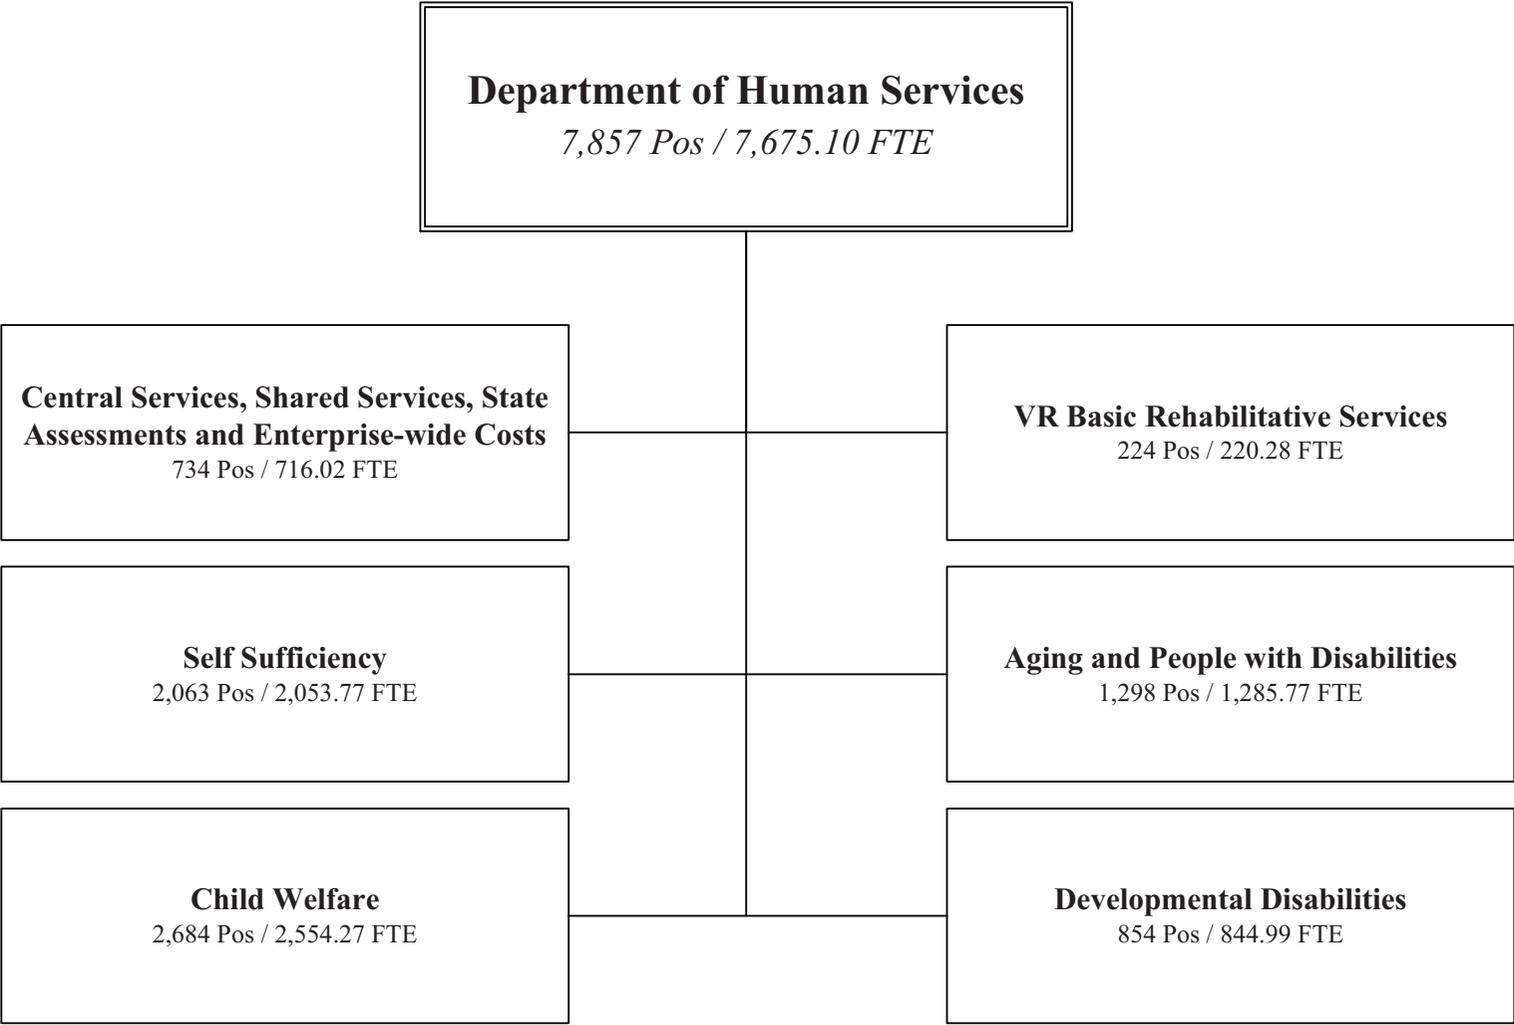

DEPARTMENT OF HUMAN SERVICES

	2,561,372,047	419,141,257	3,640,031,799	6,620,545,103	7,466	7,364.14
10% GF Target	256,137,205	41,914,126	364,003,180	662,054,511		

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
52	SS	ERDC - Reduce caseload cap from 8,500 to an average of 7,500	\$ (5,716,410)			\$ (5,716,410)			Caseload cap is currently 8,500: this would reduce to an average of 7,500. Increase in TANF cases may make it very difficult to get at desired level. This reduction continues the elimination of child care supports for all parents with incomes under 185% of poverty, limiting those supports to only TANF families transitioning to employment. This reduction will further impact the ability of parents to maintain employment, the ability of child care providers to provide care and be employed, and the quality of child care children receive. This reduction will impact family child care providers, child care centers, Early Head Start/Head Start and after-school programs and may increase the number of children left home without an appropriate provider. This would affect 1590 providers. This reduction will reduce the amount of state expenditures that count toward its MOE obligations. ERDC is mainly funded by CCDF federal dollars through an Interagency Agreement with DHS and The Oregon Employment Department (OED). OED has a stake in this reduction and has expressed their concern to DHS.	10/1/2013
53	SS	TA-DVS - 3rd Time Referrals	\$ (702,905)			\$ (702,905)			Individuals who have received TA-DVS at least twice in a life time, and who had not accessed services from a domestic violence service provider, would be required to connect with a local domestic violence service provider for the purposes of safety planning and education about abusers behavior, as part of eligibility determination.	10/1/2013
54	SS	TANF - Count 50% of SSI Income for Children	\$ (10,327,702)			\$ (10,327,702)			To be eligible for federal SSI benefits, an individual must be 65 or older, blind or disabled. Currently the SSI income of an adult or child who is on a TANF case is excluded. The current SSI payment is \$674 per month. If 50 percent of the child's SSI was counted it would reduce the TANF grant by approximately \$337 dollars per month. In some cases this income alone or when added to other family income would result in a TANF case closing due to being over the income limit. When the TANF grant is reduced or ends, the SNAP benefits may increase. Loss of TANF income could result in these families becoming homeless and unable to meet their children's basic food/clothing/shelter needs. This impact will add a strain on non-profits and community-based organizations. In some situations, these vulnerable families may not be able to cope and their children may end up in foster care. This reduction will impact the state's ability to meet MOE obligations. This action will impact approximately 1,272 families.	10/1/2013
Total reductions			\$ (248,296,015)	\$ 50,855,271	\$ (24,448,859)	\$ (221,889,603)	(72)	(74.73)

Department of Human Services (DHS) Revenue Narrative

Forecast methods and assumptions

Revenue for the Oregon Department of Human Services comes from funding sources classified as the state General Fund, Other Funds and Federal Funds. Three major methodologies are used to project revenues for the department:

- The category of expenditures based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) is primarily used for federal entitlement grants.
- Grant cycles and where they fall within the biennium are considered for block grants. Assumptions based on the results of prior grant averaging and the anticipated effect of the federal budget process both are used to project the amount of funds that will be received.
- The historical receipt trends method is used for Other Funds sources such as collections of overpayments and fees unless the agency has additional information, such as anticipated special projects that would increase revenue or a temporary need for additional staff that will change the projections for a specific time period.

DHS projects revenue based on assumptions that take into account:

- Essential packages that adjust the existing base budget to the 2013-15 modified current service level (MCSL) for all legislatively approved programs. Essential packages include phasing program changes in or out, one-time costs, Department of Administrative Services inflation factor, mandated caseload changes, and any needed fund shifts;
- Applicable federal funding limits and requirements, including the availability of state funds to meet matching or maintenance of effort (MOE) requirements;
- Changes in federal policies that affect federal revenue available to DHS programs;
- Expected non-mandated program caseload changes; and

- Recent changes in state or federal statutes and regulations that affect the availability or timing of revenue receipts.

Fee schedules and proposed increases

The Department uses fees as a funding source. See the Fee Listing Report for details.

Significant known federal revenue changes or risk factors

The possibility of sequestration being implemented at the federal level could cause a significant impact in federal funding for programs related to Child Welfare, Self Sufficiency and Vocational Rehabilitation. The impact could be up to \$9.1M dollars for the biennium. The grants that are impacted by sequestration are called out in the narrative that follows.

Self Sufficiency Program

Temporary Assistance for Needy Families (TANF)

Changes to the calculation formula for the caseload reduction credit resulted in the Self Sufficiency Program (SS) not receiving as much credit as the program realized in the past. This reduction was due mainly to a shift in the baseline data being used, with the baseline moving forward to federal fiscal year 2005. Instead of comparing current caseload to older caseloads that were much higher, the comparison is to a caseload that reflects the agency's efforts to significantly reduce caseload.

Additionally, if the agency does not meet the federal requirements for monitoring clients' work, a penalty causes the maintenance of effort requirement to increase an additional 5 percent of the base. This means that rather than the maintenance of effort being set at 75 percent of the base year, it is set at 80 percent of the base year.

Child Care and Development Fund (CCDF)

The Deficit Reduction Act (DRA) reauthorized CCDF for five years and increased appropriations requiring additional state matching funds. SS estimates overall demand for child care subsidies will increase due to the added TANF work requirements.

Targeted case management (TCM)

The DRA contains a more stringent definition for TCM services, while third-party liability language has been changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, including resources available through SS programs.

Child Welfare

Eligibility for Title IV-E adoption assistance

Beginning with FFY 2010, the eligibility criteria for certain children for IV-E adoption assistance has been modified and more children are eligible for assistance. These changes are being phased in to cover all children by FFY 2018.

Targeted case management (TCM)

Oregon's child welfare system effectively utilizes Medicaid through TCM. The DRA contains a more stringent definition of TCM services, while third-party liability language is changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another

program authority, including resources available through child welfare programs.

Title IV-B child welfare services

In FFY 2008, a new requirement was added to states' Title IV-B reporting. By FFY 2012 states must be achieving 90 percent performance in caseworkers visiting children in foster care on a monthly basis. States submitted targets for performance for each year up to FFY 2012 showing how they intended to improve performance from their base year up to the 90 percent mark. Failure to meet these targets results in a penalty in the form of an increase in state match requirement for their IV-B CWS grant. Oregon failed to meet its target for FFY 2009, which will cause a 1 percent increase (from 25 percent to 26 percent) in the state match required for the FFY 2010 grant. Oregon continued to fall below the required 90 percent mark in FFY2011 resulting in the state match rate for the FFY2012 grant going from 26 percent to 30 percent.

Aging and People with Disabilities (APD) and Developmental Disabilities (DD)

Targeted case management (TCM)

The DRA provides a more stringent definition of TCM services. Any program that currently uses Medicaid and has another funding source may be at risk of Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, which could include developmentally disabled programs (DD). Before DHS would be required to stop providing TCM services, viable third-party providers would need to be found to provide or pay for equivalent case management services.

Long-term care reform

The DRA increased the look-back period (the period during which the disposition of assets is reviewed to determine eligibility for services) from three to five years. This change in long-term care asset determinations is a

greater administrative burden because staff are required to review more client documents; additionally the change increases technical assistance and training requirements.

Major funding sources

The following section identifies the major funding sources for DHS. All references to a grant “Title” are references to the originating statute in the federal Social Security Act.

Federal funds

Chafee Foster Care Independence grants (Title IV-E)

The Chafee Foster Care Independent Living program was established to assist youth likely to remain in foster care until 18 years of age and children who “age out” of foster care but have not yet turned 21. The program is designed to help eligible youth make the transition from foster care to independent living. This program also includes the Education and Training Vouchers program.

The Chafee Foster Care Independent Living program is funded with a formula grant based on the number of children in the state in foster care.

This program is funded by two grants. The Chafee Education and Training Vouchers Grant is one that may be impacted by sequestration resulting in a \$0.3M decrease in Federal Funds for 2013-15.

This grant currently funds DHS Substitute Care programs. The projection of revenue is based on grant cycle. These grants require a 20 percent state match.

- Revenue budgeted in 2011-13 LAB is \$7.8 million.
- Revenue budgeted in 2013-15 CSL is \$7.1 million.

Child Abuse Prevention and Treatment Act grant

The Child Abuse Prevention and Treatment Act grant (CAPTA) provides funding to help states improve their child protective service system. The funding is administered by the US Department of Health and Human Services, Administration for Children, Youth and Families. Federal legislation authorizes an annual award of funds to states that submit plans designed to improve their child welfare service system every five years and meet certain other eligibility requirements. The amount of CAPTA funding varies from year to year and has no matching requirement. Funding is provided to the state for use on a statewide basis. A portion of the budget is set aside to support three federally mandated CAPTA panels meant to provide citizen review of and recommendations for improvements to the state's child welfare system.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on grant cycle. This grant will potentially be impacted by sequestration resulting in a \$.08M decrease in funding for 2013-15.

- Revenue budgeted in 2011-13 LAB is \$0.5 million.
- Revenue budgeted in 2013-15 CSL is \$0.6 million.

Child welfare services (CWS) block grants (Title IV-B)

Title IV-B consists of two formula grants. The first is the basic child welfare services grant. It may be used for many services including homemaker, protective and reunification services, and on a limited basis for foster care, adoptions and day care. The amount of federal funding allotted to the state for this grant is based on the state's population of children and state per capita income. IV-B subpart one requires a 26 percent state match.

The second part of Title IV-B is the Promoting Safe and Stable Families grant. The focus of the grant is on family preservation, family support services, reunification, and adoption promotion and support. The amount of federal funding allotted to the state is based on the number of children in the state receiving Supplemental Nutrition Assistance Program (SNAP, formerly food stamps). Match for IV-B sub-part two is a 25 percent state match.

These grants currently fund DHS Child Welfare programs. The projection of revenue is based on the Federal Fiscal Year (FFY) grant cycle, and show a decrease from the previous biennium as a result of decreased carry forward from the prior phase. . These two grants are subject to sequestration which could result in a federal funding decrease of \$.66 M for 2013-15.

- Revenue budgeted in 2011-13 LAB is \$14.3 million.
- Revenue budgeted in 2013-15 CSL is \$8.8 million.

Developmentally Disabled Service Act (DDSA)

Congress sets a national allocation determining the amount of annual funding for this grant, which is administered by the Developmental Disabilities (DD) Council in partnership with DHS. Program expenditures are limited to programs for clients with developmental disabilities and are guided by a state plan submitted to the federal government. There is a 5 percent limit on administrative expenditures except for expenditures by the DD Council.

This grant currently funds DHS Developmental Disabilities programs. The projection of revenue is expenditures-based using estimated Average Daily Populations (ADP) and Cost per Case (CPC). Federal law requires a state or local match, most of which can be in-kind.

- Revenue budgeted in 2011-13 LAB is \$4.1 million.
- Revenue budgeted in 2013-15 CSL is \$4.1million.

Oregon Disability Determination Services (DDS)

Oregon Disability Determination Services (DDS) provides timely and accurate eligibility determinations for Oregon citizens applying for Social Security disability benefits. Although the disability program, as part of the Social Security Administration (SSA), is administered by the federal government, state agencies make the initial

medical determination of disability. The Oregon DDS currently has more than 200 staff and is 100 percent federally funded.

- Revenue budgeted in 2011-13 LAB is \$60.0 million.
- Revenue budgeted in 2013-15 CSL is \$60.0 million.

DD Housing Trust Funds

The Developmental Disabilities program manages three budget funds for housing people with developmental disabilities. Two of the accounts contain the proceeds from the sale of the Fairview State Training Center and the third is an operating fund for expenses such as maintenance, development and technical assistance.

The DD Community Housing Section allocates funds and provides oversight and technical assistance to develop, adapt and maintain safe and appropriate housing for children and adults with developmental disabilities receiving services funded and licensed by Developmental Disabilities programs. Often, providing these services requires that housing be constructed, modified or adapted in order to assure that homes are safe and adapted to the unique needs of the persons who live there.

When Fairview was downsized and then closed, the DD Community Housing Section, in partnership with private nonprofit housing developers, constructed or remodeled 200 homes to provide housing for residents and persons misplaced in nursing homes. The homes incorporate many specialized features and were funded by the sale of general obligation bonds. The 13-15 budgeted amount does not include the balance remaining from the sale of Fairview.

- Revenue budgeted in 2011-13 LAB is \$1.8 million.
- Revenue budgeted in 2013-15 CSL is \$3.4 million.

Family Violence Prevention grant

The Family Violence grant is a discretionary grant that supports states in the establishment, maintenance and expansion of programs and projects to prevent incidents of family violence as well as programs that provide immediate shelter and related assistance for victims of family violence and their dependents. This grant is used in support of the Domestic Violence program.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on grant cycle. The grant is 100 percent federal funds and could be impacted by sequestration resulting in a decrease in federal funding of \$0.4M for 2013-15.

- Revenue budgeted in 2011-13 LAB is \$2.5 million.
- Revenue budgeted in 2013-15 CSL is \$2.6 million.

Supplemental Nutrition Assistance Program (SNAP)

The SNAP program provides children and low-income people access to food, a healthy diet and nutrition education. The program is 100 percent federally funded by the Department of Agriculture Food and Nutrition Service (FNS). SNAP benefits are distributed by DHS in the form of an Electronic Benefits Transfer (EBT) card, known as the Oregon Trail Card. The cashout program provides SNAP benefits to selected elderly clients in four counties using a direct cash payment. These benefits are also 100 percent federally funded.

The SNAP employment and training program provides some reimbursement to families and individuals participating in educational activities and finding employment. The program is 100 percent federally funded up to the state's specified cap. Expenditures above the cap are funded with 50 percent state funds and 50 percent federal funds.

FNS funds 50 percent of the state's administrative costs for operating the SNAP EBT program, the cashout program and the employment and training program. States may receive enhanced funding for up to 60 percent of their administrative costs if their SNAP error rate is below the national average.

This grant currently funds programs in DHS Self Sufficiency and Aging and People with Disabilities. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC).

- Revenue budgeted in 2011-13 LAB is \$2.4 billion.
- Revenue budgeted in 2013-15 CSL is \$2.5 billion.

Foster care and adoption services (Title IV-E)

The foster care and adoption assistance program is an entitlement program funded under the Social Security Act, Title IV-E. Children taken into custody due to imminent risk of harm because of abuse and neglect are provided foster care placement and medical care through grant funding. Title IV-E eligibility is based on a number of factors including the income of the child and the family. Title IV-E-eligible children are also categorically eligible for Medicaid.

Federal financial participation is available at the Medicaid FMAP rate for program costs (average biennium FMAP for 2011-13 is 62.23 percent), and at the rate of 50 percent for administrative expenditures necessary for the proper and efficient administration of the Title IV-E state plan. The state's cost allocation plan identifies which administrative costs are allocated and claimed under this program. Federal financial participation also is available at the rate of 75 percent for the costs of:

- Training personnel employed or preparing for employment by the state or local agency administering the plan; and

- Providing short-term training to current or prospective foster or adoptive parents and the members of the state licensed or approved child care institutions providing care to foster and adopted children receiving Title IV-E assistance.

All training activities and costs funded under Title IV-E must be included in the state agency's training plan that is part of the Child Welfare services plan.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). The increase in expected revenue is based on the case load forecast showing an increase in cases.

- Revenue budgeted in 2011-13 LAB is \$210.2 million.
- Revenue budgeted in 2013-15 CSL is \$262.3 million.

Medicare (Title XVIII)

Medicare provides federal funding for a portion of the costs of the certification and inspection of nursing homes. Federal changes to the Medicare program can affect state program funding, particularly under Medicaid. The Medicare Modernization Act of 2003 (MMA) created a Medicare prescription drug benefit that began in January 2006. With the creation of this new benefit for all Medicare beneficiaries, states are no longer eligible to receive federal Medicaid matching funds for prescription drugs provided to Medicare/Medicaid dual-eligible beneficiaries. Additionally, the MMA requires states to submit a monthly payment to the federal government to help fund the Medicare Part D benefit.

Medicaid (Title XIX)

Medicaid provides reimbursement to states for medical care and medical related services to low income and other medically needy individuals. This includes financing for:

- Health care services provided under the Oregon Health Plan;
- Private insurance premium assistance through the Office of Private Health Partnerships (OPHP);
- Long-term care in institutional and community-based care settings;
- Some client care provided in state hospitals;
- Residential treatment services to adults and youth;
- Central administration of alcohol and drug programs;
- Medical and non-medical transportation for Medicaid-eligible individuals;
- Family planning services for individuals not enrolled in the Oregon Health Plan; and
- Uncompensated care provided by hospitals serving a high proportion of Medicaid and uninsured individuals.

Medicaid also pays, at the normal Medicaid match rate, the Medicare Part B outpatient benefit premium for Oregon Health Plan clients and other Medicare beneficiaries with incomes up to 135 percent of the federal poverty level (FPL). For clients between 120 percent and 135 percent of FPL, the federal match is 100 percent up to an allotment cap. For dual-eligible clients with income at or exceeding 135 percent FPL, there are no Medicaid funds used toward the Part B premium payment. Medicare Part A hospital premiums also are paid for Medicaid clients who have income at or below 100 percent FPL.

State General Fund or Other Funds must be used to match federal Medicaid dollars for administration and direct service payments. The administration match rate is primarily 50 percent. A 75 percent federal fund match is available for skilled professional medical personnel, certification of nursing facilities, and related information systems activities, including the Medicaid Management Information System (MMIS) computer system support and Preadmission Screening and Resident Review (PASRR) activities. The current average federal Title XIX match rate for service payments to providers for the 2013-15 biennium is 62.23 percent. The cost of services and supplies for family planning is matched at 90 percent.

Most services in Oregon are provided through seven Medicaid programs that require waivers of federal requirements. The Oregon Health Plan is the largest of these waiver programs. DHS must obtain approval from the federal Centers for Medicare and Medicaid Services (CMS) to make changes to its Medicaid program whether the

changes are Medicaid state plan services or waiver services. This approval process can be lengthy, sometimes affecting the timing of program changes and the receipt of associated federal revenues.

Medicaid currently funds services in all DHS programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) for Administrative charges, use of time and effort and other measures.

- Revenue budgeted in 2011-13 LAB is \$2.4 billion.
- Revenue budgeted in 2013-15 CSL is \$2.67 billion.

Medicaid XIX Local Match

The Developmental Disabilities (DD) program matches Medicaid Title XIX funds with funds or services from transit districts, community developmental disability programs and others for providing enhanced non-medical transportation and administrative costs.

- Revenue budgeted in 2011-13 LAB is \$13.8 million.
- Revenue budgeted in 2013-15 CSL is \$13.8 million.

Older Americans Act

Funds are allocated to Oregon annually through the Older Americans Act. The Aging and People with Disabilities (APD) program allocates program funds by a federally approved population formula to the 17 area agencies on aging. Emphasis is placed on serving the most economically and socially needy persons 60 years of age and older. There is a 15 percent match requirement of which 10% is met by area agencies on aging and 5% from state sources through local funds, in-kind and Oregon Project Independence (OPI) allocations.

- State administration funds provide for state plan administration. There is a 25 percent match requirement met with OPI funds.

- Title III funds provide for support services such as transportation, legal assistance, in-home care, and congregate and home-delivered meals programs. The act allows for provision of in-home services for frail individuals to prevent premature institutionalization and preventive health services for elderly clients in rural areas. Title III also provides funding for family caregiver support and training and services to prevent abuse of the elderly. The match requirement ranges from 15 to 25 percent depending on whether the funds are paying for administration or program expenditures.
- Title V programs subsidize part-time paid community service work for low-income persons, aged 55 and over and job training skill. There is a 10 percent match requirement, which is met by the program operators.
- Title VII funding provides support for the long-term care ombudsman and prevention of elder abuse, neglect and exploitation. No match is required for Title VII.
- The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs. The projection of revenue is based on actual and projected federal awards.

- Revenue budgeted in 2011-13 LAB is \$31.3 million.
- Revenue budgeted in 2013-15 CSL is \$31.3 million.

Nutrition Services Incentive Program (NSIP)

The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C and local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs through Area Agencies on Aging. Projection is based on history of fund awards from the U.S. Administration on Aging.

- Revenue budgeted in 2011-13 LAB is \$3.5 million.
- Revenue budgeted in 2013-15 CSL is \$3.5 million.

Oregon Project Independence

Oregon Project Independence (OPI) is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or to people who have been diagnosed with Alzheimer's or a related dementia disorder.

OPI is administered locally by area agencies on aging throughout the state. Client eligibility is determined based upon an assessment of functional ability and natural supports related to activities of daily living. The OPI program has no financial asset limitations. A sliding fee scale is applied to clients with net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small minority with income above 200 percent of the FPL pay the full rate for services provided. They generally do so because they need the case management, ongoing support and monitoring that are provided in addition to the actual purchased services.

The OPI program historically has been funded by General Fund and for a short time by excess revenue in the Senior and Disabled Property Tax Deferral Revolving Account. However, due to sharply declining revenue, funds are no longer available from the Department of Revenue property tax deferral account for transfer to the OPI fund. Aging and People with Disabilities received legislatively appropriated General Funds for the purpose of continuing OPI.

- Revenue budgeted in 2011-13 LAB is \$9.5 million.
- Revenue budgeted in 2013-15 CSL is \$9.5 million.

Quality of Care Fund

During the 2009 Legislative Session, HB 2442 required the establishment of the Quality of Care Fund and increases in fee schedules for adult foster homes, residential care and assisted living facilities, as well as increases

in state civil penalties. Revenue collected from APD and DD licensing fees and civil penalties are dedicated to promoting quality of care and life in long-term care settings, including enhancement and maintenance of long-term care facility licensing and regulatory activities and additional training and technical assistance for facilities.

Refugee resettlement

The refugee resettlement program provides time-limited cash and medical assistance as well as social services to refugees entering the country. The refugee resettlement program and administration expenditures are 100 percent federal funds, as defined by the Immigration and Nationality Act of 1980.

These grants will potentially be reduced as a result of sequestration resulting in a reduction of \$0.4M in 2013-15.

- Revenue budgeted in 2011-13 LAB is \$10.2 million.
- Revenue budgeted in 2013-15 CSL is \$10.0 million.

Rehabilitation Act grants (US Department of Education)

The Rehabilitation Act grants are the major funding source for programs provided through Vocational Rehabilitation Services. Rehabilitation Act grants currently fund DHS VR – Basic Rehabilitative Services programs. The projection of revenue is based on grant cycle.

Section 110 (Basic 110 Grant)

Basic 110 Grant, which is available to assist people with disabilities in becoming employed, is a formula grant based on the state's population and per capita income. The funds available to Oregon are divided between Vocational Rehabilitation (87.5 percent) and the Commission for the Blind (12.5 percent). These federal funds must be matched with state funds. Revenues are expected to increase due to additional caseload.

- Revenue budgeted in 2011-13 LAB is \$54.1 million.
- Revenue budgeted in 2013-15 CSL is \$69.6 million.

Section 633 (Title VI-C grant for supported employment)

This grant assists the state in developing programs with public and private agencies for training and services leading to supported employment for individuals with severe disabilities. The grant is 100 percent federal funds and does not require state match, however it is scheduled to roll into the Basic Rehabilitation Grant amount.

- Revenue budgeted in 2011-13 LAB is \$0.6 million.
- Revenue budgeted in 2013-15 CSL is \$0.5 million.

Section 711 (independent living rehabilitation, Part B)

Independent living rehabilitation funds support the state Independent Living Council and Independent Living Centers. This grant is subject to sequestration resulting in revenue reduction of \$.08M.

- Revenue budgeted in 2011-13 LAB is \$626.0 million.
- Revenue budgeted in 2013-15 CSL is \$545.6 million.

Assistive technology

The Assistive Technology Act of 1998 supports state efforts to improve the provision of assistive technology (AT). Grant funds allow implementation of programs designed to meet the AT needs of individuals with disabilities, including plans that improve access to and acquisition of AT devices and services for individuals with disabilities.

This grant is a revenue source of the Oregon Disabilities Council, which was transferred to Vocational Rehabilitation (VR) within the VR – Basic Rehabilitative Services program in the 2007-09 biennium. This grant is subject to sequestration resulting in revenue reduction of \$0.1M.

- Revenue budgeted in 2011-13 LAB is \$0.8 million.
- Revenue budgeted in 2013-15 CSL is \$0.8 million.

Social Services Block Grant (SSBG, Title XX)

The Social Services Block Grant (SSBG) is one of the most flexible grants provided by the U.S. Department of Health and Human Services. The objective of SSBG is to provide the social services that best meet the needs of individuals residing in the state. Oregon uses SSBG to fund varied programs, including employment-related day care, crisis nurseries, supportive remedial day care and the social service components of residential treatment programs. SSBG has no matching or maintenance of effort requirements. This grant is potentially impacted by sequestration which could result in a \$3.1M reduction to the funding level.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on the grant cycle.

- Revenue budgeted in 2011-13 LAB is \$41.4 million.
- Revenue budgeted in 2013-15 CSL is \$42.0 million.

Children's Health Insurance Program (Title XXI)

The Children's Health Insurance Program (CHIP) provides federal matching funds for medical care of children through age 18 who do not have insurance but whose parents earn too much for traditional Medicaid. These services are covered through the OHP. CHIP also supports private insurance premium assistance through the Office of Private Health Partnerships (OPHP).

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC).

- Revenue budgeted in 2011-13 LAB is \$8.2 million.
- Revenue budgeted in 2013-15 CSL is \$5.2 million.

Temporary Assistance for Needy Families (TANF, Title IV-A)

Under the Personal Responsibility and Work Act of 1996 (PRWOA), Oregon is eligible to receive an annual Temporary Assistance for Needy Families (TANF) federal block grant. In order to qualify for this grant, the state must expend a minimum of state and local revenues on TANF-related services to meet federal maintenance of effort requirements (MOE).

Some of these state and federal revenues fund Temporary Assistance to Needy Families (TANF)-eligible services. In Oregon, these services are cash assistance for single and two-parent families, domestic violence emergency assistance, and employment and training (JOBS) services. DHS and other agencies also use TANF revenue to fund related programs such as foster care, prevention services, alcohol and drug treatment services, transportation, and housing assistance for homeless persons. Administrative and direct service costs can also be reimbursed using TANF revenues. Administrative costs are limited to no more than 15 percent of total TANF expenditures with certain limited exceptions.

The block grant concept, under which TANF operates, places restraints on service delivery. Federal funds are capped, which means no federal revenue is available for increasing program costs. This limitation on revenue requires Oregon to essentially self-fund any program increases.

This grant currently funds programs in DHS Self Sufficiency. The projection of revenue is based on the grant cycle.

- Revenue budgeted in 2011-13 LAB is \$326.5 million.
- Revenue budgeted in 2013-15 CSL is \$330.6 million.

Money Follows the Person grant

First authorized under the Deficit Reduction Act of 2005, the federal Money Follows the Person (MFP) rebalancing demonstration program provides assistance to states to balance their long-term care systems and help

Medicaid enrollees' transition from institutions to the community. The MFP demonstration program is designed to help states shift Medicaid's long-term care spending from institutional care to home- and community-based services (HCBS). Congress initially authorized up to \$1.75 billion in federal funds through fiscal year 2011. States were intended to use the funds to increase the use of HCBS and reduce institutionally based services; eliminate barriers and mechanisms in state law, state Medicaid plans, or state budgets that prevent or restrict the flexible use of Medicaid funds; strengthen the ability of Medicaid programs to assure continued provision of HCBS to individuals who transition from institutions; and ensure that procedures are in place to provide quality assurance and continuous quality improvement of HCBS. The Affordable Care Act extended the MFP Program through the 2016 FFY and appropriated an additional \$2.25 billion in federal funds to the program.

Other Funds

Care of state wards

Trust recoveries are Other Funds collected from SSA, SSI and child support payments and used to reimburse the state for the maintenance cost of children in care. Trust recoveries come from collection of SSI disability payments (24 percent), child support payments (53 percent) and SSA death and survivor benefits (23 percent). Trust recoveries are used in place of General Funds to match Title XIX federal funds for the long-term care program.

Trust recoveries currently fund Child Welfare (CW) and DD programs. The projection of revenue is based on caseload trends and historical receipt trends. Revenues are projected to decline due to reduced receipts.

- Revenue budgeted in 2011-13 LAB is \$16.7 million.
- Revenue budgeted in 2013-15 CSL is \$12.8 million.

Collection of overpayment

Overpayment recoveries are recovered program dollars incorrectly paid to or for clients through client error or fraud. Recovery may be made in any of several program areas including food stamps, child care, public assistance

cash and public assistance grant reductions. The projection for these revenues are developed using past performance, inflation and changes in caseloads and regulations as indicators of future trends. Public assistance recoveries are applied against program expenditures during the month of the recovery. Food stamp and child care overpayment recoveries are budgeted as Other Funds.

Currently these funds support programs in the CW and APD programs. The projection of revenue is based on historic receipt trends.

- Revenue budgeted in 2011-13 LAB is \$18.1 million.
- Revenue budgeted in 2013-15 CSL is \$18.1 million.

Client account collections estate recoveries

Other Funds are collected from the estates of clients to reimburse previous cost of care. Collections are used to reimburse cost and offset both the Title XIX program cost and General Fund costs.

Currently funds APD programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). Revenues are projected to increase as a result of increased receipts.

- Revenue budgeted in 2011-13 LAB is \$16.8 million.
- Revenue budgeted in 2013-15 CSL is \$18.7 million.

Domestic violence receipts

Enacted in 1981, marriage license fees are dedicated to fund the domestic violence program. The marriage license fee is currently \$25. Legislation directed that the unitary tax and the criminal fines and assessments account provide additional funding for this program. Expenditures are limited to the amount of revenue actually received.

Domestic violence receipts currently fund programs in the Self Sufficiency (SS) programs. The projection of revenue is based on historical receipt trends for marriage license fees and Department of Revenue projections for criminal fines and assessments accounts.

- Revenue budgeted in 2011-13 LAB is \$1.2 million.
- Revenue budgeted in 2013-15 CSL is \$1.2 million.

Fees and premiums

The CW programs collect fees for adoption home study and registry, sexual abuse therapy fees, and fees for fingerprinting under ORS 409.015. Specific fee amounts are:

- Independent Adoption Placement Reports cost \$675; \$550 passes through to private agencies.
- The fee for registration with the mutual consent registry is \$25. This registry allows individuals who have been a party to adoption access to other party information where both parties have registered and consented to disclosure.
- The non-identifying registry allows registrants to provide genetic, social and health history only for use in the adoption registry. The cost for this registry is \$45.
- The cost of an adoption assisted search is \$400 for the first search request and \$200 for subsequent search requests. This allows individuals to request the agency's assistance in locating biological family members.

For the OHP Standard program, persons age 19 and over in the adults, couples and families eligibility categories are charged a premium on a sliding scale, based on income. Those in the zero to 10 percent of the federal poverty level do not pay premiums while persons with incomes in the 10 to 100 percent FPL pay premiums that range from \$9 to \$20 per family per month.

These fees currently fund CW programs. The projection of revenue is based on historical receipt trends.

Local school funding for rehabilitation services

Other Funds from local schools are used as the 21.3 percent state match needed for the Basic 110 Grant for rehabilitation services which is funded with 78.7 percent federal funds. The Youth Transition Project (YTP) is a collaborative program with school districts that assists youth with disabilities in their transition from school to the community work force. DHS initially pays schools for 100 percent of their eligible vocational rehabilitation services, and the schools then reimburse DHS for the state match portion for the federal funds.

Local school funding for rehabilitation services currently funds CW programs. The projection of revenue is capped based on agreements with schools.

- Revenue budgeted in 2011-13 LAB is \$2.1 million.
- Revenue budgeted in 2013-15 CSL is \$1.9 million.

Provider tax

During the 2003 Oregon legislative session, HB 2747 was passed imposing taxes on four types of businesses that provide health services to many of Oregon's Medicaid clients including long-term care facilities (nursing homes) and Programs of All-Inclusive Care for the Elderly (PACE). DHS was given oversight of the taxes. The long-term care facilities tax increases nursing facility rates and improves the financial stability of the nursing home industry. Effective Sept. 30, 2009, the hospital tax and the Medicaid MCO tax ended. In HB 2116, the Oregon Legislature re-established the hospital tax and instituted a new health insurer's tax to support the OHP. The insurer's tax is 1 percent of health premiums. HB 2116 specifies that certain Medicaid MCO types are subject to the insurer's tax.

Long-term care facilities tax

The current tax rate is set to collect up to 6 percent of resident service revenues of non-exempt long-term care facilities. Revenue projections are based on previous years' cost reports, current year tax reports, and a growth factor. At present, the agency collects approximately \$10 million per quarter in Other Funds through this tax. The

federal match is approximately \$16 million per quarter. Provider tax dollars are used to offset general fund expenditures for nursing facility services.

The provider tax will sunset in June 2014. DHS is submitting a legislative concept to extend the provider tax, but passage is not certain. General Fund revenues will be necessary to backfill the lost provider tax if it is not extended. Additionally, President Obama has proposed a decreasing the maximum collections to three percent. This grant is subject to sequestration and may result in \$3.9M reduction in funding.

- Revenue budgeted in 2011-13 LAB is \$79.7 million.
- Revenue budgeted in 2013-15 CSL is \$110.0 million

Oregon Department of Human Services Director's Office, Operations and Shared Service Programs

Vision

Safety, health and independence for all Oregonians.

Mission

To help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity.

Goals

- People are safe and living as independently as possible.
- People are able to support themselves and their families through stable living wage employment.
- Children and youth are safe, well and connected to their families, communities and cultural identities.
- Choices made by seniors and people with disabilities about their own lives are honored.
- Partners, clients and stakeholders are actively engaged in a variety of collaborative and meaningful ways.
- Culturally specific and responsive services are provided by highly qualified and diverse staff.

- The department is committed to equal access, service excellence and equity for all Oregonians

Director's Office

The DHS Director's Office is responsible for overall leadership, policy development and administrative oversight for all programs, staff and offices in DHS. These functions are coordinated with the Governor's Office, the Legislature, other state and federal agencies, partners and stakeholders, communities of color, local governments, advocacy and client groups, Oregon Tribes and the private sector. Included in the DHS Director's Office are the Office of Equity and Multicultural Services, Community Engagement, the Tribal Unit, the Communications Office and the Legislative and Client Relations Office.

Operations

The Chief Operations Officer is responsible for Shared Services, Internal Audits, Business Intelligence, Licensing & Regulatory Oversight, Continuous Improvement, Information Technology Business Supports, Adult Abuse Prevention & Investigations, Performance Excellence and Program

Integrity; including the Office of Payment Accuracy and Recovery.

Shared Services- These are customer-driven shared services. When the agency split, DHS and Oregon Health Authority (OHA) received legislative approval to maintain many administrative functions as shared services to prevent cost increases, maintain centers of excellence and preserve standards that help the agencies work together. This helps keep control over major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs.

DHS and OHA govern their shared services through a board composed of operational leaders of the two agencies. This approach ensures that shared services are prioritized and managed to support program needs.

Overview of Director's Office services

The Office of Equity and Multi-cultural Services (OEMS) provides leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both internal workforce developments as well as improve service

delivery to all Oregonians. The office also investigates all claims of discrimination and harassment. The goals of the office include reducing service disparities; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

The Office of Human Resources (HR) serves as a strategic partner to its customers in DHS, providing proactive, comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future.

The DHS Office of the Chief Financial Officer (OCFO) provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in supports the mission of DHS. This is done by working closely with DHS programs and the OHA CFO and programs, to ensure accurate, timely and efficient recording and management of financial resources: culturally competent services; authorizing the redistribution of available resources to meet changing needs, establishing administrative controls. The OCFO is

responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Office of Financial Services, the Central Budget Unit, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

The Office of Community Mobility and Engagement (CME) is designed to bring the agency, community partner's and local communities together to achieve the common goals for a healthy and safe community.

Effective community engagement is built on a foundation of mutual respect and collaboration, along with knowledge of the needs with-in the communities we serve. Community engagement is the first critical step that begins the process of bringing people together. Community Mobility & Engagement is essential to DHS's commitment to equitable outcomes for all. It is a framework that actualizes the work of the community and the agency as they try to achieve the stated goals in our mission. CME is built on a foundation of trust, honesty, integrity stewardship and professionalism.

The Office of Communications supports the mission by providing accurate information to employees, clients, legislators, stakeholders and interest groups, providers

and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. The office also provides support to the department's priority projects as defined by the DHS director and Executive Team.

The Office of Legislative and Client Relations supports all DHS field office and central office programs by managing legislative matters, legal matters, client concerns, written rules and contested hearings. The LCRO consists of the following operational areas:

Legislative Unit – This Unit handles all legislative matters for DHS. This team coordinates all DHS legislative matters with legislative offices, key stakeholders and the Governor's Office. This team supports both field and central office staff providing consultation and support in legislative matters, primarily working with central office staff on policy development for program services. During a legislative session, this Unit tracks and assigns all bills related to DHS program and operations. Staff in this Unit support the Director of DHS, the Directors of all program and operations in DHS regarding legislative matters and the District Managers in field offices.

Legal Unit – This Unit manages all law suits, tort claims and subpoenas related to DHS program and operations. Staff in this Unit provide expert consultation to DHS staff (field and central office staff), Department of Justice

(DOJ) and Department of Administrative Services (DAS) Risk Management in policy related to legal matters. This team ensures timely completion of the required judicial documents to move smoothly through a complicated legal matter.

Governor's Advocacy Office (GAO) – This Office handles client complaints coming into Central Office related to DHS services. This Office operates independently in the investigations performed and reports directly to the Governor quarterly on the calls received and handled. The team in this Office works closely with field office staff, central office program staff, the Governor's Office, key stakeholders and the DHS Director's Office to successfully, equitably and respectfully reach a conclusion. Efforts are underway to have the GAO handle all client-related complaints coming into central office and the Director's Office.

Contested Hearings Unit – This Unit provides expert technical support to hearing representatives in DHS field services and to the Administrative Hearings Office regarding DHS contested hearings. This team serves as a liaison for DHS contested hearing representatives and the Department of Justice when required. This team also provides support and advice to the DHS field staff and to Administrative Hearings Office when they are involved in a DHS contested hearing.

Program Rules Unit – This Unit provides expert technical support to program staff writing and filing rules for DHS programs. This team supports staff efforts to arrange Rules Advisory Committees with external stakeholders and performs the required tasks to file a rule with the Secretary of State.

Tribal Affairs We are committed to a positive working relationship with the nine tribes in Oregon. Staff regularly holds meetings with tribal governments through tribal liaisons and continually strives to ensure these communities receive sufficient and appropriate human services.

Overview of Shared Services

DHS Shared Services provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in supports the mission of DHS. DHS Shared Services contains the following key offices and programs:

The Budget Center provides program and administrative budget planning, financial analysis and technical budget support for DHS and OHA. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

Office of Forecasting, Research and Analysis provides client caseload forecasting services for DHS and OHA.

Office of Financial Services provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds owed to DHS and OHA. This office provides accurate, accountable and responsive financial management and business services to DHS and OHA clients, providers, vendors, stakeholders and employees in support of both agencies' missions and in compliance with state laws and federal policies, rules and regulations.

Office of Facilities Management provides coordination of DHS and OHA offices and other facilities statewide.

Office of Imaging and Records Management provides document and records management services for DHS and OHA through imaging, electronic workflow, data entry, archiving and retention services.

Office of Contracts and Procurement provides contract and procurement services for DHS and OHA by making purchases, conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

Office of Investigations and Training conducts and oversees statewide protective services investigations of abuse and neglect, provides technical assistance to community-based mental health and developmental disability programs, and delivers training on

investigations and abuse prevention services for DHS and OHA.

Internal Audit and Consulting provides independent and objective information about DHS and OHA operations, programs and activities to help management make informed decisions and improve services.

Office of Payment, Accuracy and Recovery provides recovery services for DHS and OHA by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided.

Performance Excellence Office (PEO) provides leadership in coordinating continuous improvement and training services for DHS and OHA. PEO uses a blend of project management principles, a strong governance structure, metrics developing and tracking, training and Lean techniques to drive a comprehensive approach to creating a culture of continuous improvement that is cutting red tape, delivering better and faster services to clients, generating cost savings and increasing transparency. The PEO uses a multi-level approach designed to create an organic self-sustaining culture of continuous improvement through all levels of the

organization. The PEO provides lean and continuous improvement training for all agency staff, coaching and mentoring for agency management and oversight of agency performance in continuous improvement and performance excellence.

Rules Coordinator advises, consults, leads, coordinates and trains staff in all DHS and OHA divisions in drafting, interpreting, defining and developing the intent and scope of administrative rules. In addition, the rules coordinator monitors and reviews contested case orders, trains hearing representatives, assists with legal issues and acts as liaison with the Office of Administrative Hearings to discuss performance measures.

Adult Abuse Prevention and Investigations (OAAPI) is responsible for accountable and well-supported programs that focus on customer service and client outcomes; program designs that are developed using model practice; and activities that support continuous quality improvement and facilitate cross program collaboration. The scope of OAAPI services includes over-arching statewide responsibility for assuring protective services are offered or provided and abuse investigations are commenced in response to the reported abuse and neglect for OHA and DHS.

Overview of Operations

Program Integrity (OPI) Provides quality assurance, quality control, and quality improvement related services for DHS. The purpose of the office is to ensure program integrity and improve accuracy through state and federally mandated operational and case reviews (Quality Control Unit), field reviews (Quality Assurance Unit and CMS Waiver group), and regular caseworker trainings.

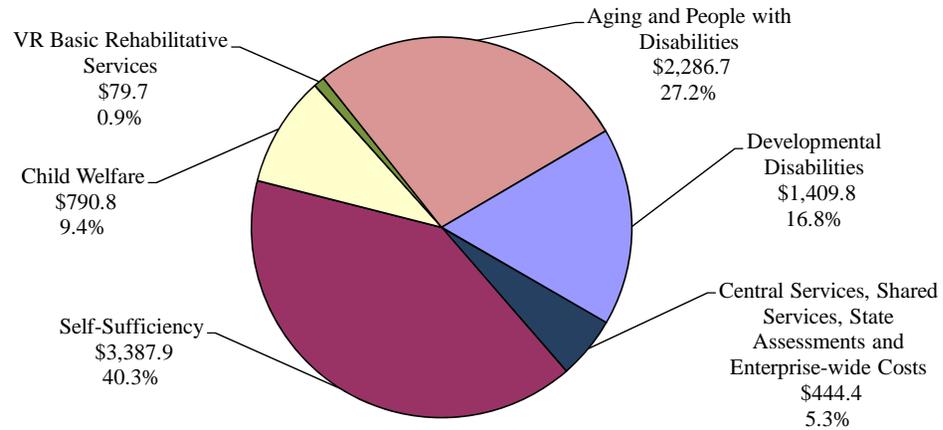

Licensing & Regulatory Oversight Provides for the safety of children, aging and physically disabled, and people with developmental disabilities through licensing, regulatory and corrective action functions within programs provided by the Department of Human Services. This includes Developmentally Disabled (DD), Aging and People with Disabilities (APD), and Child Welfare (CW) providers, adult foster homes, assisted living facilities, residential care facilities', nursing homes, supportive living and employment programs for people with developmental disabilities, and private child care agency licensing. OLRO strives to ensure that service equity and delivery of culturally and linguistically appropriate services are provided to Oregonians.

Business Intelligence provides data-driven information about what we're doing, how it's working, and what we need to be doing next to provide programs with the information they need to make good decisions.

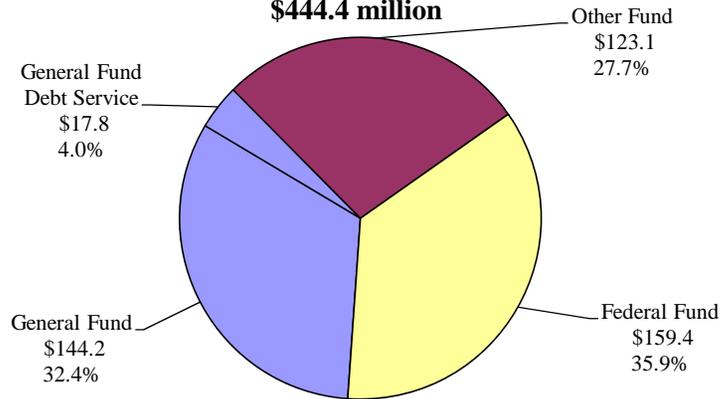

IT Business Supports helps business needs lead our information technology infrastructure needs to transform our work.

Continuous Improvement leads an on-going effort to improve services and processes, and involves all employees helping build standard processes in all DHS programs.

Department of Human Services Self Sufficiency Program

The Department of Human Services Self Sufficiency program (SS) provides assistance for low-income families to promote family stability and help them become self-supporting.

The major program areas within Self Sufficiency are:

- Supplemental Nutritional Assistance Program (SNAP)
- Temporary Assistance for Needy Families (TANF) and TANF-related programs such as Pre-TANF, Family Support and Connections (FS&C), and Post TANF
- Employment Related Day Care (ERDC)
- Job Opportunity and Basic Skills (JOBS)
- Temporary Assistance for Domestic Violence Survivors (TA-DVS)
- Refugee Program
- Youth Services Program
- Program Delivery and Design

Self Sufficiency employees provide direct services through a network of local offices in every county across Oregon. For a list, see <http://oregon.gov/dhs/Pages/localoffices/index.aspx>

The program

Oregonians access self-sufficiency services when they are in need and have no other alternatives. We served over one million Oregonians last year through our Self-Sufficiency programs. Most Oregonians need help meeting needs such as nutritious food – over 806,000 in December 2012 or basic supplies through cash assistance for families with children living in extreme poverty such as toothpaste, bedding, and other basic hygiene needs, or assistance with quality child care so parents can remain employed and maintain a path of financial stability. Self-sufficiency programs also help low-income families impacted by domestic violence or refugees seeking a safe area to live. Some programs require involvement in employment services or job training to help individuals move as quickly as possible to supporting themselves and their families.

Seeking Self-Sufficiency

These programs are designed to help break the cycle of poverty, help Oregonians transition to jobs, support the healthy development of young children and help keep families stable, preventing children from being abused or neglected and from requiring out-of-home placement in more expensive foster care. The

economic recession triggered a rapid increase in demand from Oregonians. For example, the number of Oregon families in extreme poverty seeking cash assistance is 80 percent higher than prior to the start of the current recession.

We seek to achieve the following outcomes and goals:

- Provide an array of options that are properly distributed to assure access through equitable and culturally competent services.
- Be responsive to emerging consumer demands for individualized, self-directed services and sufficient service choices.
- Assure the health and safety of individuals served.
- Promote maximum consumer independence and engagement in homes and communities.
- Leverage use of available federal funding options.
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies.

SERVICES

Supplemental Nutrition Assistance Program (SNAP) is a federally funded benefit program to help low-income families, single adults, and childless couples buy the food they need to meet their nutritional needs. Benefits to clients are 100 percent federally funded; however,

the administration of the program requires a 50 percent state match. Approximately one in five Oregonians or 21 percent of the population receive SNAP benefits.

Self-Sufficiency offices across the state serve approximately 87 percent of the SNAP population. The balance of the population includes elderly persons (65 and older) plus persons with disabilities who require services. They are assisted by Aging and Persons with Disabilities (APD) local offices and their contracted agencies (Area Agencies on Aging, Disability Services Offices and Councils of Government).

Money from the program spreads quickly through the State economy. The United States Department of Agriculture (USDA) calculates that for every \$5 of SNAP benefits, there is \$9.20 of total economic activity. SNAP is an important and constantly growing anti-poverty program. Recent research has shown that SNAP benefits reduce the depth and severity of poverty, and have a particularly strong effect on reducing child poverty.

Food and Nutrition Service (FNS) within the USDA regulates SNAP. Although Federal regulations do allow a few state options, any significant variation

from the regulations must be approved by FNS through a formal process.

Temporary Assistance for Needy Families (TANF)

TANF is a critical safety net program for families with children living in extreme poverty. TANF helps families, including over 63,000 children, from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services. Safety net programs are usually the last step for families with few or no resources left, and any assistance can have an immediate impact on their health, safety and well-being. These families typically use TANF funds to prevent homelessness and to help with other factors contributing to family instability. The goal of the program is to help families address barriers, and gain skills and access to employment opportunities to become self-sufficient.

TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children.

Job Opportunity and Basic Skills (JOBS) program.

Most parents and caretaker relatives must meet additional requirements to receive TANF services. The

JOBS program provides employment and skill building services to parents receiving TANF assistance. Individuals must participate in JOBS to gain skills necessary to join the workforce and retain a job or face possible sanctions, including losing benefits. A TANF family may participate in the JOBS program and access a variety of other programs and services as part of the plan to move a client towards self-sufficiency.

State Family Pre-SSI/SSDI (SFPSS) Program is designed to assist TANF-eligible individuals with disabilities obtain Social Security disability benefits through the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. The program serves individuals who are not required to participate in the JOBS program due to their health condition.

Post-TANF is a program that provides an incentive to employment. This program has been suspended for the remainder of the biennium because of budgetary constraints. Post-TANF provided a small transitional payment of (Reduced from \$150 a month to \$50 due to budget reductions) a month for up to a year for those who leave TANF due to employment. The goal of this incentive was to help families transition to financial

independence to reduce their chances of returning to the program.

Family Support and Connections provides supports to prevent children in at-risk TANF families from entering the child welfare system. Home visiting and community based services are used to guide interventions that build on family strengths and address family functioning issues.

Temporary Assistance to Domestic Violence Survivors (TA-DVS)

TA-DVS provides temporary financial assistance and support services to families with children affected by domestic violence during crisis or emergent situations when other resources are not available. TA-DVS is used to help the domestic violence survivor and the children address their safety concerns and stabilize their living situation, thus reducing the likelihood of the survivor returning to the abuser. These services maintain the safety of these vulnerable children and their parents, and can prevent sometimes life-threatening situations. These services also help prevent child abuse and the need for child welfare intervention.

Refugee Program serves individuals and families who fled persecution in their country of origin and were legally admitted for resettlement by the United States government. The program helps refugees and asylum residents successfully resettle in this country by providing financial, employment-related services and acculturation services. The program guides refugees into self sufficiency through employment as early as possible. The program serves only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR).

Youth Services includes age-appropriate, medically accurate sexual health education programs and multi-site AmeriCorps prevention programs. These services support community prevention efforts to enable TANF families in breaking the generational dependence on public assistance. The Youth Services Programs expand on the historical teen pregnancy prevention program to provide education and tools for youth to resist multiple risk taking behaviors. DHS partners with the Oregon Department of Education and the My Future - My Choice Advisory Committee to develop and implement this sexual health education program. During the 2010-2011 school year, this curriculum was implemented in 17 counties and 26 school districts.

Employment Related Day Care program (ERDC) helps very low-income working families from a variety of cultural and linguistic backgrounds arrange and pay for quality child care. ERDC provides low-income families with the same opportunity to quality child care as other families with higher incomes. Quality child care nurtures a child's learning and development so the child is better prepared to succeed in school. ERDC helps parents stay employed and gain self-sufficiency by assisting with the consistent, stable child care parents need to remain on the job. ERDC also supports care for children with special needs, as well as offering providers who come from diverse cultural backgrounds. Providers required to register with the State must meet a set of health and safety standards, and all are required to complete background checks.

Program Delivery and Design

Program provides design, personnel and service delivery in addition to oversight, planning, reporting, implementation, training, eligibility and benefit issuance for programs that support a diverse, low-income population in need of economic supports and self-sufficiency services to meet their basic needs.

Staff at the State and local levels coordinates with Child Welfare to work with families to increase their

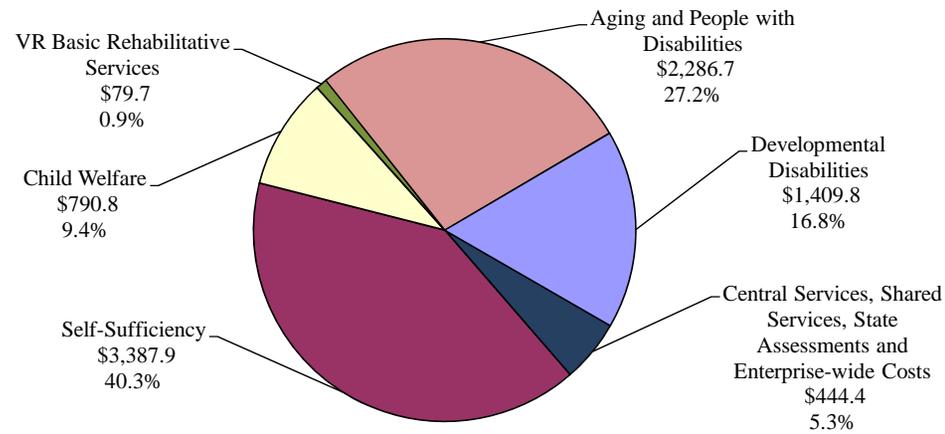

stability and prevent Child Welfare involvement. This collaboration helps to support safety by ensuring children are cared for regardless of the system of service. Other collaborations have been built around domestic violence; housing; alcohol, drug and mental health treatment; workforce development; Vocational Rehabilitation; health care, and education.

Community-based domestic violence advocates located in field offices work with families working with either child welfare and self sufficiency programs. The focus of this effort being to target the major drivers of child abuse/neglect and to stabilize families. *(This resource is shared between Child Welfare and Self Sufficiency Programs).*

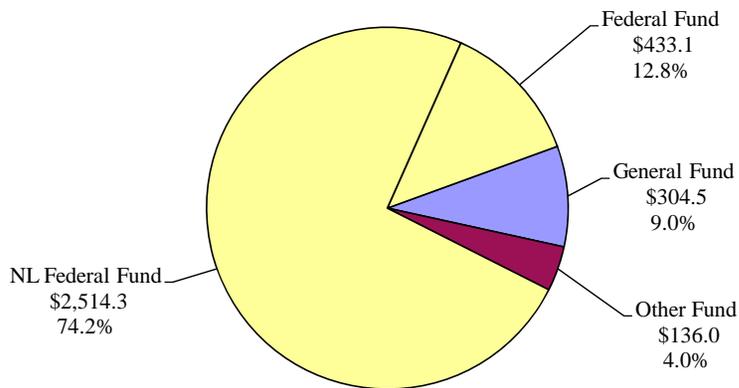

When adequately resourced, staff delivering these programs helps break the cycle of poverty and help Oregonians transition to jobs. This keeps families safe and stable, supporting the healthy development of young children. Unfortunately, with program reductions and an economic recession that triggered a dramatic increase in demand from Oregonians, these programs have been significantly challenged to achieve results managing caseloads.

Even with the number of Oregon families in extreme poverty seeking cash assistance, increasing by 80 percent since the start of the current recession, DHS employees rose to the occasion – reducing wait-time for food stamp benefits from nine days to same day/next day service for more than 90 percent of the nearly 820,000 Oregonians served.

Department of Human Services CHILD WELFARE Program

MISSION

The Department of Human Services Child Welfare (CW) program is responsible for accepting and caring for Oregon's increasingly diverse children in need of protection (ORS 418.015). These children are dependent, neglected, abused, mentally or physically disabled, and placed in legal custody by a court in the State of Oregon (ORS 419B).

INDIVIDUALS WE SERVE

Child Welfare employees provide direct services through a network of local offices in every county across Oregon. For a list, see

<http://oregon.gov/dhs/Pages/localoffices/index.aspx>

During 2011 we served approximately:

- 11,600 children through protective services investigations to keep them safe.
- 556 children found permanent, safe homes through our adoption services.
- Helped 8,920 domestic violence victims address safety concerns
- 4,673 Oregon families stepped forward to be foster parents

- 8,778 children on average in substitute care every day
- More than 75,000 reports of child abuse

Child Welfare Today

We provide prevention, protection and regulatory programs for Oregon's most vulnerable citizens keeping them safe and improving their quality of life. Prolonged economic stress is increasingly putting Oregon children in situations that are unsafe. We know that the demand for state-funded services in the future is directly related to our ability to prevent and mitigate these traumas today.

The CW program focuses efforts that minimize risk to best meet challenges families are facing. The way we intervene enhances our ability to engage individuals who are less able to care for themselves, their families and communities. Today we are focused on a better array of interventions with community-based supports for families before, during and after involvement with the CW system, including strategies to safely and equitably reduce the number of children who experience foster care. This includes better outcomes, available services and supports so children are not at

risk for re-entry into foster care and family stabilization. CW is working to improve services for children and families of color, targeting strategies to address issues such as overrepresentation in foster care, underrepresentation in family support and family preservation services, and potential disparities in decision-making.

CW services represent a continuum of supports with the ultimate goal of keeping children safe. Historically in Oregon that has equated with removal and placement into foster care. Based on research and feedback from children, youth and families who experience our system, our strategic efforts are refocusing the service continuum to ensure safety while also focusing on child well-being, family stability and, when possible, avoid removal and placement in foster care by supporting families safely parenting their children at home. Post adoption and guardianship support helps families bridge those difficult times as children move through childhood, again preventing them from returning to foster care.

SERVICES

This program is designed under four key areas representing a continuum of supports: child safety, substitute care, permanency, planning and post adoption, and program design and delivery.

Child Safety – Guided by the Child Abuse Reporting Law, ORS 419B.005 – 419B.050, which was enacted in 1971 and updated several times, this law was designed to provide early identification and protection of children who have been abused and neglected. DHS is required by statute to assess reports of alleged child abuse or neglect, complete comprehensive safety assessments of children, assess parent or caregiver capacity to protect, and determine whether child abuse or neglect has occurred. In addition, CW is governed by federal laws and performance indicators.

Child Safety Services: Services are provided to children reported to be abused or neglected and families who are impacted by abuse dynamics; typically substance abuse and domestic violence. With very few exceptions, a child abuse report begins with a call to a child abuse hotline. Trained social workers screen over 75,000 child abuse reports each year and collect key information in order to determine next steps and how the call should be handled. If the report meets the criteria to be assigned for an in-person investigation, the family’s information is given to a Child Protective Services (CPS) trained worker who will conduct a comprehensive safety assessment of the family. More than half of all reports (38,000 per year) meet criteria to receive an in-person investigation. This

includes gathering information related to extent of the maltreatment, circumstances surrounding the abuse, adult functioning, child functioning, parenting practices, disciplinary practices, and cultural and communication issues. This combined information is used to determine overall child safety. Approximately 25 percent of those investigations result in necessary intervention to keep children safe.

Child Protective Services administrative rules incorporate a systematic approach to child safety decisions. A procedure manual has been developed to support and clarify this safety intervention approach. The chapters dealing with screening reports of child abuse and assessment are complete and available online.

Differential Response: Traditional child welfare services assume a single approach to protecting a child through investigations: an allegation occurs, and we investigate and decide if maltreatment occurred. This approach is very effective with some families. However, for families experiencing neglect, the children enter care at a higher rate than other forms of abuse and stay longer, suggesting the need for a different approach with these families. DHS data shows nearly 60 percent of children are involved with child welfare as a result of neglect or threat of harm of

neglect (as opposed to other forms of abuse such as physical or sexual abuse). Differential response allows case workers to conduct a family assessment, gauge the needs and strengths of the family and engage them and community partners in outcomes that keep the family together, benefitting the family as a whole. This alternative approach does not replace Child Safety Services described above or further assistance when there is imminent danger or significant safety risk.

Strengthening, Preserving and Reunifying Families (SPRF): The Oregon Legislature recognized and codified this performance-based approach to developing community-based programs and services for children and families involved in the child welfare system. This effort complements the work of the Coordinated Care Organizations and the future work of the Early Learning Council hubs, targeting children and families involved in the child welfare system. Local collaborations of interested stakeholders determine community strengths and service gaps and request funding targeted to specific outcomes focusing on keeping children safe and families together. These programs are an essential complement to the implementation of Differential Response and supporting children being safely parented at home. Implementation of this approach and investment in a

more comprehensive service continuum has begun in seven counties with the rest of the state projected to implement in the 13-15 biennium.

Family Support Team: Also known as Addiction Recovery Teams (ARTs). These teams provide coordinated, culturally appropriate multi-disciplinary services to substance abusing families referred to Child Protective Services.

Domestic Violence/Sexual Assault Funding: DHS makes grants available to domestic violence and sexual assault service providers throughout Oregon. These providers offer crisis lines, crisis response, emergency shelter and other related services to survivors of sexual assault and survivors of domestic violence and their children in a culturally appropriate manner.

In-Home Safety and Reunification Services (ISRS): This program provides culturally appropriate service options to families with children who can remain safely in their homes, or in their communities, in addition to children and families who can be safely reunited. The goals of ISRS are to provide a combination of concrete safety and strengths-based change services that will lead to lasting safety changes within the family's home. Services are designed to

protect children, stabilize the family, and assist parents in establishing linkages to formal, informal, and natural supports and resources so that a child can remain safely with their family without further intervention of the Oregon child welfare system. ISRS supports crucial child welfare initiatives to increase percentage of children remaining safely at home after a child safety threat is identified, and decreases length of time children spend in foster care. ISRS allows for culturally and linguistically appropriate approaches to reduce the disproportionate placement of children of color in foster care as well. Flexible and targeted services are uniquely adapted for populations overrepresented in the child welfare system. These services are time limited in duration and are complimented by SPRF services for families in need of a longer term or more intensive service.

System of Care (SOC) Flexible Funds: These funds continue to be a valuable resource for Oregon's most vulnerable children by offering resources that meet the family's identified needs in relationship to the safety, permanency and well-being of the child. Child Welfare staff use SOC funds to provide culturally specific, individually tailored services not otherwise available. Services are planned through family involvement in case planning, community

collaboration, including diverse communities, and a shared funding of custom-designed services in collaboration with community partners.

Substitute Care – Also known as the Foster Care Program, this is a safety net for children with immediate safety needs. DHS is responsible for accepting and caring for children who cannot remain safely with their parents or families. Services are designed to meet the federal requirement of placing a child in the least restrictive, most home-like setting that can meet the child’s individual needs when a child cannot safely be cared for by his or her parent(s). This program operates 24 hours a day, seven days a week to accept and care for children. These children are dependent, neglected, mentally or physically disabled and placed in the legal custody of DHS by a court. A family, under limited circumstances and for a short time, may place a child in State custody on a voluntary basis; however, most of the children served in shelter care are there involuntarily as a result of abuse or neglect they experienced in their family home.

Types of substitute care include: Relative Care, Family Foster Care or Family Shelter Care and Residential Care. DHS is responsible for background and reference checks, assessment of the family and

certification, training and support of all substitute care resources. We also work with Therapeutic and Enhanced Therapeutic Foster Care organizations, Residential Shelter Care and Residential Treatment facilities.

DHS partners with community members and organizations representing diverse linguistic and cultural perspectives to deliver shelter services across the state. DHS is mandated to provide reasonable efforts to return children to their parents. Today, approximately 64 percent of children return home to a parent. Substitute care also responds to the overall well-being of the child in care addressing behavioral, emotional and social functioning; meeting core educational needs, physical, mental health and needs for family and community connections. DHS works in collaboration with multiple State and local government agencies such as the Oregon Health Authority, Oregon Department of Education, and local law enforcement, community programs, schools, the faith community and volunteer programs.

In addition to meeting the needs of children, this program is also responsible for the certification and support of families that care for children in the State’s custody. This includes recruitment, retention, training, and support for foster families. Families are trained by agency staff and through contracted providers. They

participate in a Structured Analysis Family Evaluation (SAFE) home study, designed to evaluate a family's readiness to meet the needs of children that enter the system. Through deliberate attention to these structures and supports, abuse in foster care is less than one percent. We take abuse in foster care seriously and expect zero tolerance for abuse of children in our care.

Children receiving family foster care services are provided with the basic necessities for the child by the foster parent or relative caregiver. DHS reimburses the foster parent for a portion of the cost of the child's care.

Education services are provided most often through Oregon's public education system. A number of children and youth in substitute care also receive special education services where there is an identified need.

Some children who enter the foster care system are in need of a level of care that combines intensive mental health services and highly skilled foster providers or facility based care. These children are serviced by Behavioral Rehabilitation Services. These are services that are designed to meet youths' mental and behavioral health needs in a time limited environment

with a goal of moving into a less service intensive foster setting.

The complexity of the needs of children coming into substitute care demands comprehensive services to address these needs. Complex mental health needs require oversight of treatment and medication options; complex medical needs require oversight of both treatment and provider capacity; and complex daily care needs demand services and supports for foster parents that include regular respite from daily caregiving responsibilities and day care services for working foster and relative caregivers.

The reliance on the substitute care system over the years has reached a capacity that is no longer sustainable in Oregon. This includes: financial support for the system, limited availability of foster parents, and ongoing research that indicates if substantive preventive services can be immediately put into place that then diverts the removal of children from their families and into the substitute care system. Re-directing resources away from the removal of children from families and increasing the capacity of families who currently have children in the substitute care system by reinvesting in upfront and in-home services within communities will pay far greater dividends to Oregon in the future. This reinvestment will support a

Substitute Care Program that will only be necessary if in home safety and support services are not successful for some families and children.

Permanency, Planning & Post Adoption –DHS establishes permanency through adoption and guardianship for children in foster care who are unable to return to the care of their biological parents. The Federal Adoption and Safe Families Act (ASFA) of 1997 mandated that public child welfare agencies provide permanency for children within shorter timeframes; this was added to Oregon statute in 1999.

DHS helps find a permanent family for youth in our care through adoption or guardianship. Once children are placed in a permanent family, the program continues providing support to the families to meet the special needs and lifelong challenges of children who have been abused and neglected.

DHS provides a comprehensive array of services and operations that include consultation and direction to the process of legally-freeing children for adoption, recruitment of potential adoptive and guardianship families, and selection of adoptive family resources to support services that help ensure the post-legal success and longevity of adoption and guardianship placements. The program provides final consent to all

DHS adoptions. Adoption Assistance, Guardianship Assistance and post adoption services are also available to children through the program. This supplemental support enhances the capacity of parents to meet the special needs of their children and strengthens placement stability. Benefits may include medical and mental health coverage, financial assistance and post adoption or guardianship advocacy, consultation, training, and referral services.

DHS develops administrative rules for private and independent adoption vendors in Oregon and monitors for compliance to include approval of allowable waivers. DHS is also responsible for the Coordination of the Voluntary Adoption Search and Registry Program for Oregon’s public and private adoptions. Additionally, adoptions may be entered into for children with relatives living in other countries pursuant to The Hague Convention and the Intercountry Adoption Act.

Interstate Compact – The Interstate Compact on the Placement of Children (ICPC) was adopted into law by the 1975 Oregon Legislature. At this time, all states are members of the Compact, as are the District of Columbia and the U.S. Virgin Islands. The Compact requires entities seeking to place children with out-of-state families, or into certain types of out-

of-state treatment facilities, to obtain approval from the Child Welfare authorities in the other state before making the placement. If the planned placement is for purposes of foster care, adoption or reunification of a child with a parent, the compact provides for a home study to be completed in which the prospective placement is evaluated to determine if it is safe and suitable before the child is placed. When DHS seeks to place a child with a parent, relative or other identified placement resource in another state; this is done using the Compact.

Youth Transition Services—The foster care Independent Living Program (ILP) serves current and former foster youth to age 21. Services include help with life skills, money management and budgeting, communication and social skills, community connections and supportive relationships, informed decision-making, parenting, health, education support, housing, job readiness, and individual emancipation plans including resolving legal issues in the case of foreign nationals unable to return to their country of origin. A continued focus is to develop transitional plans to ensure youth complete high school and successfully make the transition from school to post secondary education or employment at a level that allows them to be self sufficient. Housing support options are available to eligible youth through the

federal Chafee housing and independent living subsidy programs. Enhanced attention to comprehensive, culturally appropriate transition planning for youth as they transition to living independently will increase successful transition of youth who have long-lasting resources, support, connections and stability in adulthood after leaving foster care.

Program Design and Delivery- This program is the field structure that supports the safety of children across Oregon who are abused or neglected. There are approximately 1,257 child welfare caseworkers across Oregon responding to over 75,000 reports of abuse and neglect, and serving approximately 13,000 abused children annually that experience foster care. This structure is administered in our central office in Salem to support field staff through technical support, policy and standards, evaluation, analysis, and parameters program areas in Child Welfare.

Our service delivery innovation depends on adequate child welfare staffing focused on serving more children safely in their own homes. Currently, staffing is at less than 67% of what is needed. Staff are critical to the integrity of the Oregon Safety Model, our intervention model for safety assessments and safety management.

The program also provides clinical supervision of direct service staff which is critical to building worker competencies including reinforcing positive social work ethics and values, encouraging self-reflection and critical thinking skills, building upon training to enhance performance, and supporting the worker through case work decision-making and crises. This is partially achieved through lower staff-to-supervisor ratios as recommended by the Child Welfare League of America (CWLA). Safety services are delivered through the Oregon Safety Model which is an overarching process that requires safety assessment and safety management at all stages of case management, from screening through case closure.

Child Welfare design and delivery coordinates with Self Sufficiency design and delivery to support family stability and prevent entrance into the foster care system for their common clients. In addition, Child Welfare coordinates with other child and family serving systems including Housing, Oregon Health Plan, Addictions and Mental Health, county-based health and support services, etc. Child Welfare continues to work to eliminate disparities and ensure equitable outcomes for families and children. Contributing cost factors of this program include program mandates (either Federal or State); the number of report/abuse notifications; family stress

factors which affect abuse risk (substance abuse, unemployment, mental or physical health issues, criminal history, etc.); personnel turnover (training/travel costs); work effort required to provide services and personnel packages (i.e., furlough mandates, position cost, etc.). Additional drivers of cost include representation from the Department of Justice connected to dependency matters, court-ordered services and workload associated with Federal mandates such Indian Child Welfare Act (ICWA).

DHS has implemented Lean Daily Management Systems in all districts across the State and central offices. This active process of identifying ways to improve efficiencies will allow DHS to reinvest staff resources to close the gap between positions earned and authorized positions as they are identified.

Currently this effort is directed at delivering more efficient processes surrounding new technology, OR-Kids (Our child welfare reporting system as required by federal regulations.), with a goal of increasing the time staff has to work with families and children, and decreasing the time spent on the processes used to deliver the work. Child Welfare is in the third year of a five-year strategic plan to safely and equitably

reduce the number of children in the foster care system.

A critical element of successfully practicing the Oregon Safety Model for child welfare system is staffing at a level adequate to do the work. At the current staffing levels, it will not be possible to implement significant change and it will negatively impact the program's ability to reduce the number of children in the foster care system. At the current staffing levels, it is challenging to practice to the critical elements of the Oregon Safety Model which may result in additional children entering the foster care system.

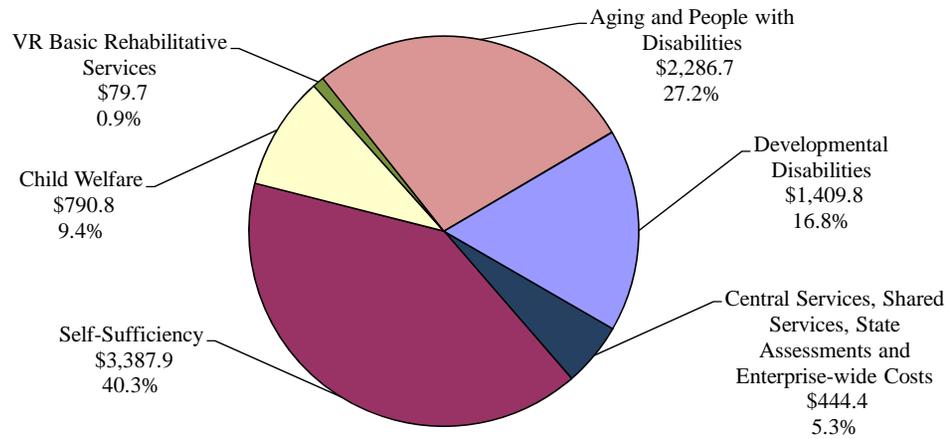

DHS is responsible for caseworker visits with parents and children as well as arranging family and sibling visitations. Research has shown that frequent visitation is one of the single most predictive factors in reunification of children with their biological families. Contact with the caseworker and visitation also are measures in the federal Child and Family Services Review (CFSR).

Karly's Law - Since the law went into effect in 2007, more children have been seen by identified medical professionals, resulting in a more accurate and earlier identification of child abuse victims. *Karly's Law* has

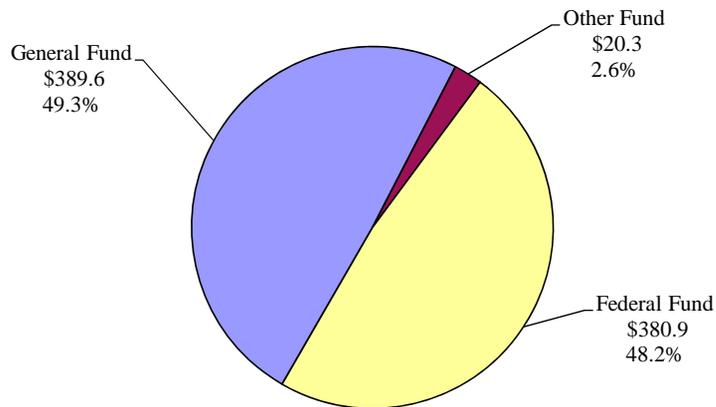

resulted in the development of a review process that has added a greater degree of oversight, transparency and accountability to the Department. This statute was further refined and strengthened in 2009. Since that time the Department has also developed a discretionary review process for cases where systemic issues are or maybe present or where a child has suffered severe harm and a review is likely to impact system change in a manner that increases child safety.

Indian Child Welfare Act- Native American children are currently over-represented in Oregon's child welfare system. Compliance with the Indian Child Welfare Act is a federal mandate. The Act is complex and requires a higher level of expertise and effort than cases involving non-Tribal children. DHS has Tribal Liaisons in child welfare programs to enhance relationships with Tribal governments and to work with Tribal children and families to reduce disparities and improve compliance with the Act.

Department of Human Services

VOCATIONAL REHABILITATION PROGRAM

MISSION

The Department of Human Services Vocational Rehabilitation program assesses, plans, develops and provides vocational rehabilitation services to Oregon's increasingly diverse individuals to become independent through positive employment outcomes.

The program

This is a state and federal program authorized by state law (ORS 344.511 et seq.) and the federal Rehabilitation Act of 1973, amended in 1998.

All working-age Oregonians with a disability legally entitled to work, with the exception of individuals with blindness, are potentially eligible for services. Individuals who experience a medical, cognitive or psychiatric diagnosis that results in an impediment to employment typically are eligible for services. Recipients of Social Security disability benefits are presumed eligible for services.

Approximately 96 percent of all eligible clients currently served by OVRs are persons with severe disabilities. These individuals typically experience

multiple functional limitations requiring several services provided over an extended period.

We have counselors with expertise in the fields of autism, deafness and hearing impairments, mental health, motivational intervention, spinal injury, and traumatic brain injury; and, general caseload managers who provide consultation and technical assistance to agency staff.

Individuals we serve

Vocational Rehabilitation employees provide direct services through a network of local offices across Oregon. For a list, see <http://cms.oregon.gov/dhs/Pages/localoffices/index.aspx>

Services are provided by rehabilitation counselors and support staff who deliver direct client services through 34 field offices and multiple single employee outstations in one-stop career centers and other human services agencies across the state. The demographics in Oregon are changing and our services are adapting accordingly in order to meet the diverse needs of consumers seeking services in order to provide

culturally specific services to consumers and to diversify the workforce delivering those services in order to achieve better outcomes.

Our numbers:

- Helped 15,214 individuals and obtained 1,2,032 employment outcomes. (2012)
- Contract with 39 school districts and consortia on behalf of 115 schools for approximately 1,400 students each year.
- Assisted 121 individuals with intellectual and developmental disabilities and 105 individuals with psychiatric disabilities obtain supported employment outcomes.

SERVICES

This program is designed under four primary areas; basic services, youth programs, supported employment, and independent living.

Vocational Rehabilitation (VR) – These are basic services provided to individuals whose disabilities present societal challenges to employment. A rehabilitation counselor conducts a comprehensive assessment to evaluate vocational potential, including diagnostic and related services necessary for the determination of eligibility for services as well as the nature and scope of services to be provided.

Vocational counseling and guidance builds on this assessment and helps the client identify a vocational goal. The counselor, in partnership with the client, develops an individualized plan for employment and authorizes services and training in support of the plan while maintaining a counseling relationship with the client.

Youth Transition Program (YTP) These services bridge the gap between school and work by providing coordinated vocational rehabilitation services while the student is in school and ensuring a smooth transition to adult services and employment after completion of school. OVRS currently contracts with 39 school districts and consortia on behalf of 115 schools to provide and coordinate these services. Transition specialists work with students in their home schools. Youth with disabilities that complete high school and transition to work or postsecondary education or some mix do so at rates that exceed national averages through our Youth Transition Program. This nationally recognized school-to-work transition approach is a best practice for young people with disabilities. We partner with local school districts, the Department of Education, and the University of Oregon (which provides technical assistance, training and program evaluation).

Supported Employment Services (SES) These services targets individuals with the most significant disabilities who, with intensive training, job coaching and the provision of ongoing supports, can obtain and retain competitive employment in the community. Basic vocational rehabilitation services are provided on a time-limited basis for each client. The Mental Health Program, Developmental Disability Program, other community programs, families and private employers are responsible for the follow-along services once we completed placement and training services. Supported Employment Services combine traditional VR services and support services provided by job coaches, typically at job sites.

The Independent Living Program Services are available through seven Centers for Independent Living (CIL). The CILs are consumer controlled nonprofit organizations. This is a federal program established in Title VII of the Rehabilitation Act of 1973. Oregon's State Independent Living Council was established by Governor's Executive Order 94-12, in 1994. We have the responsibility to:

- receive, account for, and disburse funds received by the State under Title VII, chapter 1;
- provide administrative support services for a program under part B of chapter 1;

- keep records and provide access to such records as the Rehabilitation Services Administration Commissioner finds necessary; and
- submit such additional information or provide such assurances as the Commissioner may require.
- In addition, under the Title I Vocational Rehabilitation Program, Section 101(a)(18)(A)(ii)(II) requires there to be funding provided by Title I in support of the State Independent Living Council's resource plan.

Centers for Independent Living- Centers must provide at least four core services – information and referral, independent living skills training, peer counseling, and both systems and individual advocacy. CILs also provide a range of services based on local needs, many of which compliment services provided through other state and federally funded programs. As an example, benefits planning as an incentive to work, mentoring for individuals transitioning to less restrictive living environments, or training for individuals utilizing state-funded home care workers. Services are provided through a peer-mentoring model, with an emphasis on self-help, self-advocacy, and consumer responsibility. Specialists support clients as they work to achieve identified goals.

Specialists are individuals who have experienced disabilities, and who have successfully overcome barriers to independence, employment and community involvement. Services are provided at the most appropriate location for the consumer's need – at a Center for Independent Living office, the consumer's home, or other community setting. The mentoring approach provides consumers with trusted advisors who understand their barriers and model the skills and qualities consumers are working to achieve.

Vendor report cards improve the quality of jobs and return on investments with our contracts through a “vendor report card”. Beginning in 2013, the report card will publish data about the number and quality of jobs vendors have developed as compared to dollars spent. Report cards support consumers to make informed choices about service providers. The cards will be used with providers to identify areas of best practice, need for program improvement, and determine whether or not to continue contracting with a provider.

Client Status Indicator (CSI), a computer based tool that monitors critical elements of case flow and compliance, work that had previously been completed by staff. This tool will allow for more frequent reviews and feedback opportunities for staff;

identification of training issues; and reduced audit findings.

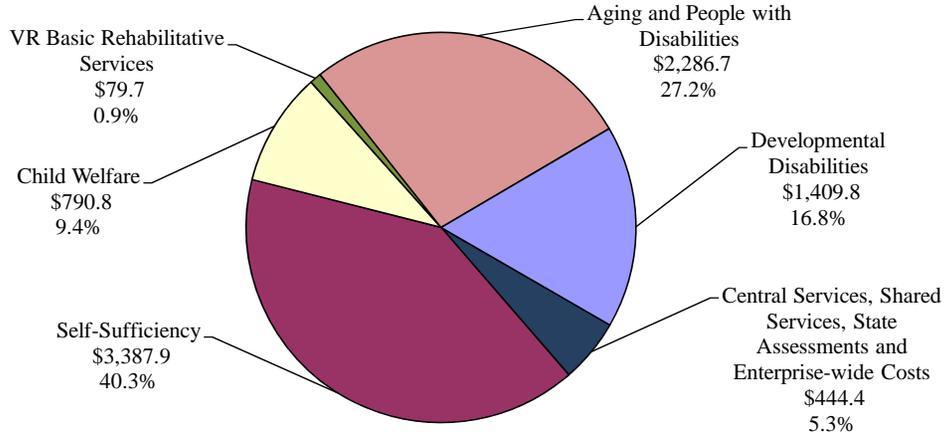

Developmental Disabilities – Employment First initiative, we will support DHS' Developmental Disabilities program to improve service equity and provide additional focused assistance for their Employment First initiative. A number of these individuals have significant barriers to employment and our counselors and service providers will need additional skills and expertise to assist. Services will focus on community-based employment. This will require significant changes in service design, delivery, and coordination with education, DD services, community providers and employers.

Work Incentive Network (WIN). WIN is an evidence based practice, providing benefits and work incentives planning to individuals with significant disabilities who want to obtain, maintain, or increase their employment but not lose other benefits and medical coverage. This allows people on disability benefits to become employed, gain more levels of self-sufficiency, become engaged in their communities and live a higher quality of life.

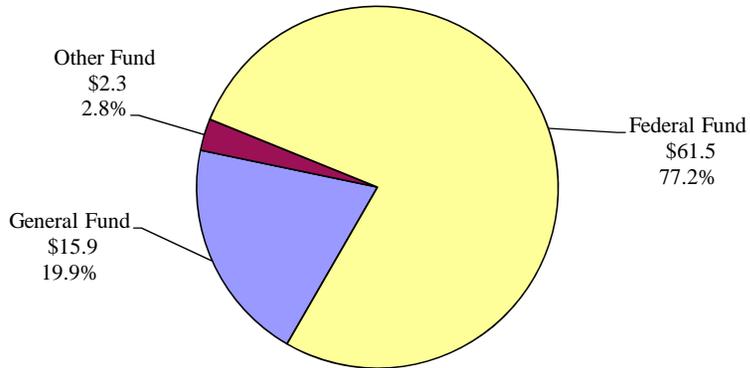

Serving Employers, One of the most significant barriers to employing people with disabilities involves

overcoming employer concerns about the costs and efforts associated with hiring someone with a disability. We provide outreach services, training and technical assistance to employers to help overcome this barrier. Our efforts have resulted in an additional 118 jobs for Oregonians in small businesses and larger organizations, such as Walgreens and Lowes.

Department of Human Services

AGING AND PEOPLE WITH DISABILITIES Program

MISSION

The Department of Human Services Aging and People with Disabilities (APD) program assists seniors and people with disabilities of all ages to achieve well-being through opportunities for community living, employment, family support and services that promote independence, choice and dignity.

GOALS

We help aging and people with disabilities:

- remain as independent as possible;
- sustain the supports needed to maintain quality lives in their home communities;
- honor choices made by them about their own lives;
- by promoting value-driven commitments in statute and policy; and
- by partnering with advocacy groups, commissions and councils, local government partners, and community organizations.

Individuals we serve

During the 2011-13 biennium, we expect to serve approximately:

- 2,000 people age 60 and older through Oregon Project Independence.
- 28,000 aging and people with physical disabilities with long-term care services paid through Medicaid.
- 380,000 aging individuals with Older Americans Act services.
- 150,000 through direct financial support services.

APD and Area Agencies on Aging (AAA) employees throughout Oregon are responsible for providing direct client services through a network of local offices. Employees also determine eligibility of aging and people with disabilities for medical programs provided through the Oregon Health Authority (OHA)

Medicaid Services

More than 27,000 aged and physically disabled Oregonians currently use Medicaid long-term services each month. By federal law, each state must develop criteria for access to nursing facility care paid by Medicaid. Criteria must include financial and asset tests as well as service eligibility criteria. The federal government, through CMS, must approve any criteria established by the states.

DHS created service priority levels (SPLs) to establish eligibility for Medicaid long-term services. SPLs prioritize services for aging and people with physical disabilities whose well-being and survival would be in jeopardy without services. Level 1 reflects the most impaired while Level 17 reflects the least impaired; levels are based on the ability of the person to perform activities of daily living (ADLs). Because of budget constraints, only level 1-13 are funded. ADLs are personal activities required for continued well-being. These include eating, personal hygiene, cognition, toileting and mobility. For many individuals with disabilities, they need assistance from other people to perform daily activities, APD assists thousands of Oregonians who require ADL services in selecting competent providers and establishing effective working relationships with those service providers.

PROGRAMS

APD's budget is sectioned into three key areas; program services, program design, and program delivery.

Program Services

Services focus on supporting fundamental activities of daily living (ADL), such as bathing, dressing, mobility, cognition, eating and personal hygiene. Long-term services ensure that the person is living in a safe and healthy environment. All services promote choice, independence and dignity. Services can be provided in nursing facilities, or community settings such as residential care facilities, foster homes, or in the person's own home. Services are provided through five programs:

- Older Americans Act
- Direct financial support
- In-home services
- Community-based care facilities
- Nursing facilities

Older Americans Act

This is a federal program and is administered through APD. It provides federal funding for locally developed support programs for individuals ages 60 and older. APD distributes funds to local Area Agencies on Aging (AAA's) for service delivery

through subcontractors. Nearly 400,000 Oregonians accessed these services in 2011. AAA's develop services that meet the needs and preferences unique to individuals in their local area. Program mandates require services target those with the most significant economic and social need, to minorities and those residing in rural areas. There are no income or asset requirements to receive services except those related to the Older Worker Employment Program.

APD distributes federal funds to the AAA's using a federally approved intra-state funding formula based on the demographics and square mileage of each area. Programs might include; family caregiver supports, medication management, nutrition via congregate and home-delivered meal programs, senior employment, legal services or elder abuse prevention services. They may also provide assistance to senior centers and sponsor and promote evidence-based wellness and chronic health condition management activities.

Direct financial support

Programs are designed to meet a variety of special circumstances for certain low-income populations.

Cash payments – special needs

APD is required to meet a maintenance of effort (MOE) payment for low-income aged and disabled Oregonians who receive federal Supplemental

Security Income (SSI) benefits. These benefits are focused on payments that allow clients to retain independence and mobility in a safe environment. Examples of Special Needs Payments include; help for non-medical transportation, repairs of broken appliances such as a furnace, or for such things as adapting a home's stairs into a ramp.

Employed Persons with Disabilities Program (EPD)

This program allows people with a disability to work to their full extent and not lose Medicaid coverage. To be eligible, a person must be deemed disabled by Social Security Administration (SSA) criteria, be employed and have adjusted income of less than 250% Federal Poverty Level (FPL). Eligible individuals pay a monthly participation fee and are eligible for the full range of Medicaid benefits and services.

Other benefits

The Centers for Medicare & Medicaid Services (CMS) requires DHS to coordinate with Medicare in many areas and clients need help accessing other programs for which they are eligible. The federal Medicare program is the most common program clients need assistance with. APD determines client eligibility and submits client data to CMS for two Medicare-related programs: Medicare buy-in and Medicare Part D low-income subsidy. APD served

nearly 120,000 clients in these two programs over one year. These programs help low-income beneficiaries with their cost sharing requirements. Securing this coverage also ensures Medicare remains in a “first payor” status, ultimately saving the State’s Medicaid program significant money.

Medicare buy-in programs

Federal law requires states to provide payments for Medicare beneficiaries who meet specific income guidelines. Medicare beneficiaries are people aged 65 and older, as well as younger individuals who have been receiving Social Security Disability Insurance (SSDI) payments for at least two years. APD served more than 90,000 seniors and people with disabilities in the following Medicare buy-in programs in one year:

Qualified Medicare Beneficiaries

Clients receive assistance for the costs associated with the Medicare hospital benefit, Part A, and physician services, Part B, including premiums, deductibles and co-payments. These clients may have income as high as 100 percent of the federal poverty level. This program provides a medical benefit and premium assistance for 60,000 individuals; most of these beneficiaries receive Part A for free. However, the department also pays the Medicare Part A premium in the amount of \$461 per month for more than 3,000

clients who do not have enough of their own or a family member’s work history to receive free Part A coverage.

Other Medicare savings programs Clients in these programs receive assistance with their Medicare Part B premiums only. Specified Low-income Medicare Beneficiaries (SLMBs) and Qualified Individuals (QI-1s) are those who have income above 100 and up to 135 percent of the federal poverty level. These programs serve more than 25,000 clients with monthly premium assistance of \$99.90.

State Medicare buy-in

We help purchase Medicare Part B for clients eligible for both Medicare and Medicaid (dual-eligibles) who are over income for the Medicare Savings Programs (MSPs). By doing this, the state assures the Medicaid program only pays for medical services, such as physician, radiology and laboratory services after Medicare has paid as primary payer. APD supports approximately 3,500 clients through this program.

In-home services

In-home services are the cornerstone of Oregon's community-based care system. For aging or people with physical disabilities, the ability to live in their own homes is compromised by the need for support in

regular daily living activities. For more than 25 years, Oregon has created options to meet people's needs in their own homes. All options are funded with support of the Medicaid program through home and community-based waivers. Oregon has been able to create cost-effective programs that meet people's needs in their homes and other community settings using these waivers and spared Oregonians from the unnecessary use of much higher cost services, primarily offered in nursing facilities.

Services to aging and people with physical disabilities are designed to support assistance with fundamental activities of daily living (ADLs), such as mobility, cognition, eating, personal hygiene, dressing, toileting and bathing. In order to receive in-home services, an individual must be financially eligible for Medicaid. A case manager works with the client and together they identify needs and develop a plan for the in-home services.

Medicaid client-employed Home Care Workers
Home Care Workers (HCW) are hired directly by the client and provide many of the services Medicaid clients need to remain in their own homes. The client, or his or her selected representative, is responsible for performing the duties of an employer. These duties include selecting, hiring and providing on-site

direction in the performance of the care provider duties authorized by a case manager to meet the client's individual needs and circumstances. The HCW must pass a criminal record check. In conjunction with the client, APD develops and authorizes a service plan, makes payment to the HCW on behalf of the client and provides ongoing contact with the client to ensure his or her service needs are met. Approximately 10,500 clients are expected to receive services supplied by HCWs each month in 2013-15.

The Oregon Home Care Commission (HCC) was established in 2000 by an amendment to the Oregon Constitution. It is a public commission dedicated to ensuring high-quality home care services to APD clients using client-employed providers. Service Employees International Union Local 503, Oregon Public Employees Union represents approximately 15,000 HCW's. For purposes of collective bargaining, HCC serves as the home care worker employer of record. The Commission maintains a statewide, computerized registry of workers and provides an extensive training curriculum. The HCC also makes training available to clients to better understand their employer responsibilities and increase their skill in managing the use of HCWs.

In-home agency services

Many clients prefer to receive their in-home services through a home care agency. These agencies employ, assign and schedule caregivers to perform the tasks authorized by the client's case manager. APD contracts with licensed in-home care agencies throughout the state. Agencies work closely with DHS case managers and clients to ensure services are provided as authorized and to ensure the quality of the work performed.

Medicaid Independent Choices

This program offers a choice to clients in the way they receive in-home services and increases clients' self-direction and independence. Clients receive a cash benefit based on their assessed need. They purchase and directly pay for services. Clients are responsible for locating providers, paying their employees, and withholding and paying necessary taxes. Depending upon how they are able to manage their service benefit, many are able to purchase a few additional services or items otherwise not covered by Medicaid to increase their independence or well-being.

Medicaid adult day services

These services provide supervision and care for clients with functional or cognitive impairments. Service may be provided for half or full days in stand-alone centers, hospitals, senior centers and licensed

care facilities.

Medicaid home-delivered meals

Home-delivered meals are provided for to those who are homebound and unable to go to sites, such as senior centers, for meals. These programs generally provide a hot midday meal and, often, frozen meals for days of the week beyond the provider's delivery schedule.

Medicaid personal care services

Services are limited to no more than 20 hours a month. Personal care can be used only for tasks related to the performance of activities of daily living, such as mobility, bathing, grooming, eating and personal health assistance.

Medicaid specialized living services

Services are provided to a special-need client base, such as those with traumatic brain injuries or other specific disabilities that require a live-in attendant or other 24-hour care. The services are provided through a contract with APD and targeted to a specific group of clients living in their own apartments, and assisted by a specialized program offering direct service and structured supports.

Oregon Project Independence (OPI)

This is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder.

Approximately 2,000 Oregonians are served in this program. It represents a critical element in Oregon's strategy to prevent or delay individuals from leaving their own homes to receive services in more expensive facility-based settings, or depleting their personal assets sooner than necessary and accessing more expensive Medicaid health and long-term service benefits. The program was expanded by the 2005 Oregon Legislature to include younger adults with disabilities but no additional funding has been allocated.

OPI is administered statewide by local Area Agencies on Aging (AAAs). Many areas have waiting lists due to high demand and limited program funding. Client eligibility is determined by an assessment of functional ability and natural supports related to activities of daily living. Typical services include assistance with housekeeping, bathing, grooming, health care tasks, meal preparation, caregiver respite, chore services, adult day services and transportation.

The OPI program has no financial asset limitations for clients. A sliding fee scale is applied to clients with

net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small group with income above 200 percent of FPL pays the full rate for services provided. Generally this is because they benefit from the case management; ongoing support and monitoring, in addition to the actual purchased services.

Community-based care

Community-based facilities

These include a variety of 24-hour care settings and services to provide an alternative to nursing facilities. Services include assistance with activities of daily living, medication oversight and social activities. Services can include nursing and behavioral supports to meet complex needs. State and federal guidelines related to health and safety of these facilities have to be met.

Adult foster homes

Services are provided in home-like settings licensed for five or fewer individuals who are not related to the foster home provider. Homes may specialize in certain services, such as serving ventilator-dependent residents.

Residential care facilities

Licensed 24-hour service settings serve six or more residents and facilities range in size from six to more than 100 beds. Different types of residential care include 24-hour residential care for adults and specialty memory care facilities. Registered nurse consultation services are required by regulation.

Enhanced care services

Specialized 24-hour programs in licensed care settings that provide intensive behavioral supports for seniors and people with physical disabilities who have needs that cannot be met in any other setting. These programs support clients with combined funding from APD and the Addictions and Mental Health division of the Oregon Health Authority (AMH).

Assisted living facilities

These facilities are licensed 24-hour settings for six or more residents including private apartments. Services are comparable to residential care facilities. Registered nurse consultation services are required by regulation.

Providence Elder Place

This is a capped Medicare/Medicaid Program of All-inclusive Care for the Elderly (PACE) providing an integrated program for medical and long-term services. 950 Oregonians age 55 and older are served

in this program generally allowing them to attend adult day services and live in a variety of settings. The Elder Place program is responsible for providing and coordinating their clients' full health and long-term service needs in all of these settings.

Capacity

Medicaid residents compete with the private pay market for access to community-based care. The 2008 Supplemental Legislative Session funded an interim rate increase of \$260 per month to help improve access for these clients. Medicaid occupancy levels began to rise and many providers who planned withdrawal from the Medicaid program chose to remain participants. Medicaid access to community-based care is currently strong. When economic conditions strengthen, APD may lose access as competition with the private pay market for vacant beds will increase.

Acuity-based rate restructure

APD overhauled its community-based care reimbursement system in 2002. The system is outdated in that, although adult foster homes, residential care facilities and assisted living facilities all provide similar services, the reimbursement rate is determined by the setting in which the Medicaid client resides rather than the individual's service needs. In addition, with each passing year, Medicaid rates

increasingly fall behind private pay rates. This is especially apparent in Alzheimer’s care in the community. The growth of the 85+ age cohort points to increasing demand for Alzheimer’s services in both the public and private markets. Increased demand, coupled with static Medicaid payment rates, will also challenge Medicaid client access to specialized services. This was recognized by the Legislature in 2008 and led to the passage of SB 1061, which directed SPD to create:

“A reimbursement structure that ensures access to services while controlling costs and maintaining quality care by:

- (A) Reexamining client acuity and appropriate service priority level designations;
- (B) Developing reimbursement rates that are reasonably competitive with rates paid by private payers;
- (C) Creating incentives for providers to participate in the state medical assistance program; and
- (D) Addressing geographic differentials.”

SPD took a variety of steps to meet this directive, including a private market rate study, stakeholder work groups and a complete rewrite of the rate methodology. These recommendations are outlined in SPD’s Recommendations for Revitalizing Oregon’s Community-based Care Reimbursement System

document. These reimbursement changes were put forward in the 2009 Legislative Session as a policy option package (POP) and were not funded due to budget constraints.

Nursing facilities

Institutional services for aging and people with physical disabilities are provided in nursing facilities licensed and regulated by DHS. Nursing facilities provide individuals with skilled nursing services, housing, related services and ongoing assistance with activities of daily living.

Oregon has led the nation since 1981 in the development of lower-cost alternatives to institutional (nursing facility) care. Home and community-based alternatives to nursing facility services emphasize independence, dignity and choice and offer needed services and supports at lower costs than medical models.

Program Design

Staff and services support the administration of APD programs, including:

- Central leadership and administration
- Medicaid eligibility and federal waiver administration

- Development and maintenance of administrative rules
- Administration of Medicare Modernization Act and Buy-in programs
- Provider payments and relations
- Support and leadership for various advisory councils.
- Administration of the Older Americans Act
- Home Care Commission

Program Delivery

Staff and services provide direct services to Oregonians, including:

- Direct service staff located in local offices throughout the state
- Presumptive Medicaid Disability Determination Team
- State Family/ Pre-SSI
- Disability Determination Services

Eligibility and case management services are delivered throughout the state by DHS and AAA employees. ORS Chapter 410 allows AAAs to determine which populations they wish to serve and which programs they wish to administer. Type B Transfer AAAs choose to provide Medicaid services in addition to Older Americans Act and OPI services. In areas where the AAAs do not provide Medicaid

services, DHS has offices to serve seniors and people with physical disabilities.

HISTORY

Over the past 30 years there has been a profound shift in society’s understanding of the importance of independence for aging and people with physical disabilities. Traditionally, states had provided services to these individuals in institutional settings such as nursing facilities. Oregon’s first nursing facility opened in the 1940s. With the passage of the federal statute creating Medicaid, the state began to pay for nursing facility services for eligible individuals in the 1960s.

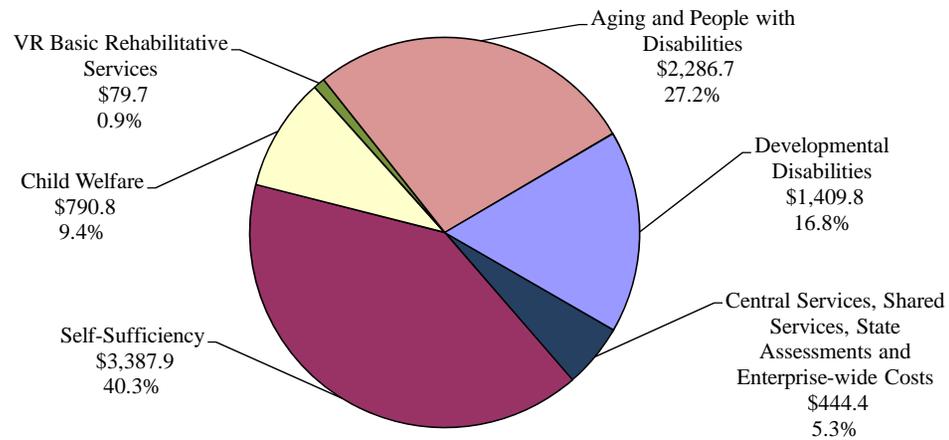

Professional standards and public thinking about how to best serve people with disabilities began to change and life in their communities became more accessible. Civil rights were strengthened and expanded by the Americans with Disabilities Act, which recently celebrated its 20th anniversary in the areas of employment, public accommodations, transportation and housing. Society became available to individuals with disabilities as accessibility increased and society began to accept people with disabilities as part of the community. Families had the ability to remain intact and to keep their loved ones — child, adult or senior — at home.

Federal dollars to fund Medicaid waivers first became available in 1981 for “Home and Community-Based Services.” That same year the Oregon Legislature updated its policies around disabilities and found that significant numbers of people with disabilities lived in institutions because adequate community services did not exist. The Legislature mandated that the state work to empower people with disabilities, keep them as independent as possible, and develop service settings that were alternatives to institutionalization. The 1981 Oregon Legislature also created the Senior Services Division and a strong statutory mandate to support seniors in their own homes and community settings outside of institutions. This action forged the way for Oregon to lead the nation in the development of lower-cost alternatives to institutional care. In response to that mandate, Oregon applied for, and received, the first home and community-based waiver that allowed Medicaid funds to provide long-term services outside an institution. Throughout the 1980s and 1990s, Oregon received waivers that allowed services for unique groups of people. For Medicaid-eligible aging and people with disabilities in Oregon, this has meant that the provision of long-term care has, in large measure, shifted away from nursing facilities to in-home services, assisted living facilities, residential care facilities and adult foster homes.

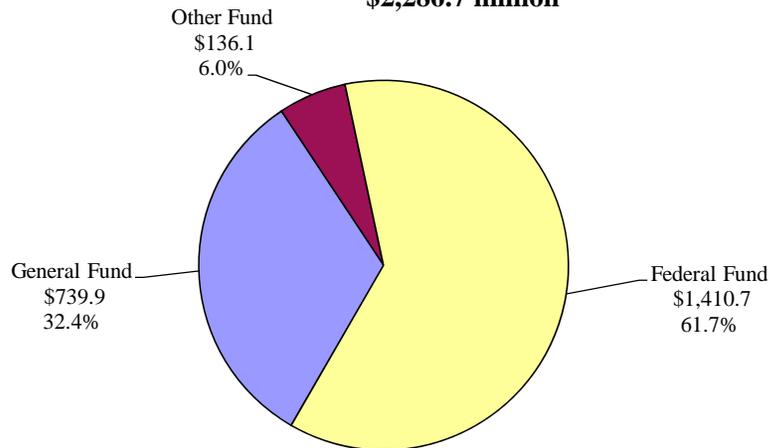

Future populations

The aging population is growing rapidly. The number of people in the United States over age 65 is projected to nearly double from 40.2 million in 2010 to more than 71.4 million people by 2030. In 2010, approximately 13 percent of Oregon’s population was 65 years or older. By 2030, the percentage is expected to increase to nearly 20 percent. In Oregon, people 85 years or older make up a small but rapidly growing group within the total population. By the end of 2010, approximately 76,000 Oregonians will have reached age 85. By 2030, the number is expected to reach nearly 120,000, an increase of almost 57 percent.

Department of Human Services

DEVELOPMENTAL DISABILITIES Program

MISSION

The Department of Human Services Developmental Disability program (DD) cover a lifespan of support to Oregonians with intellectual and other developmental disabilities (I/DD). Our mission is to help individuals be fully engaged in life and, at the same time, address any critical health and safety needs.

The program

DD strives to support choices of individuals with I/DD and their families within communities by promoting and providing services that are person-centered, self-directed, flexible, community inclusive, and supportive of the discovery and development of each individual's unique gifts, talents and abilities.

We are committed to work toward service options to assure that people with intellectual and other developmental disabilities have the opportunity to have fulfilling and meaningful lives allowing them to contribute and enjoy their communities.

We currently help over 21,000 children, adults and their families have the best quality of life possible at

all stages of their lifespan. Due to their economic situation, most individuals with developmental disabilities are eligible for a Medicaid waiver which allows them to obtain community-based services instead of an institution.

We seek to achieve the following outcomes and goals:

- Provide an array of options that are properly distributed to assure access through equitable and culturally competent services.
- Be responsive to emerging consumer demands for individualized, self-directed services and sufficient service choices.
- Assure the health and safety of individuals served.
- Promote maximum consumer independence and engagement in homes and communities.
- Leverage use of available federal funding options.
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies.

Individuals we serve

More than 21,000 Oregonians with I/DD access services each month. Individuals eligible for services must have an intellectual or other developmental disability that significantly impedes their ability to function independently. Most individuals meet Medicaid financial eligibility requirements. Most of the services are administered under Medicaid home and community-based waivers. Intellectual and other developmental disabilities include mental retardation, cerebral palsy, Down syndrome, autism and other impairments of the brain that occur during childhood. These disabilities must be expected to be lifelong in their effect and has a significant impact on the person's ability to function without supports. Some people with I/DD may also have significant medical or mental health needs.

SERVICES

Our service system is comprised of three basic components. There are two broad program service areas - support services and comprehensive services. The third major component is program design and delivery.

Program Services

DD offers a broad array of services in order to optimize consumer choice and arrange cost effective

services based on need. The array includes a variety of in-home, congregate care, and ancillary services.

Support Services programs are designed to provide in-home and community supports for a child or adult with I/DD. Supports are things such as respite care, daily staff support and access to assistive devices and equipment. When families are supported to provide the core care, even individuals with the most significant needs have active and engaged lives in their community.

One purpose of support services is to defer the need for full, 24-hour programs or comprehensive care, which represent the higher cost models of service system. Support services are designed to partner with families or other already existing supports, relying on the continuing existence of those supports and filling in the gaps of care and needs with public-funded services.

Services may also include in-home staffing, behavior specialist, job support or community access and equipment. All support services programs are designed to be self-directed, which means the individual and their family identify the type of service, the amount of service and who provides it with a certain fixed amount of funds available to purchase those services. The individual or their

family directly hire or contract with providers. Without these services many individuals will enter into a crisis status and require much more expensive out-of-home services such as group or foster homes. In-home support services average approximately \$680 per month per individual while out-of-home services average approximately \$5,472 per month.

For both children and adults, support services are provided through personal support workers, certified provider agencies, general community businesses, behavior consultants, and respite providers. Personal Support Workers were provided collective bargaining rights in 2010 through HB 3618.

Adult Support Services supports those adults with I/DD who are living at home with families or in their own home and are Medicaid eligible. The majority of support services, approximately 7,300, are provided to adults in this particular program. These services are provided through certified entities called Support Service Brokerages across the state. The program operates under a Medicaid Home and Community Based Waiver. Costs for this service are about \$650 per month. The current annual cap is set at \$21,562 per person, per year for support services. The individual receives case management from a Brokerage and works with staff to identify necessary supports a person requires to remain in their home and

live in the community. Within a funded benefit level the person may use funds for services such as respite, in-home staffing, job support, community access, and equipment.

The General Family Support Program support services are offered to any family of a child under age 18. The program offers minimal support services with the most common request being for respite services. The average amount spent per family is \$625 per year. Our surveys tell us this support is of great value to families. All children in these programs have case managers through their county Community Developmental Disabilities Program (CDDP) and support services are allocated based on need. Most children are also in school programs and the case manager coordinates between school and home.

Long Term Family Support Program services are offered to a family whose child is in a crisis status and without support to the family the child would have to enter more expensive out-of-home services. This program is limited to a maximum of 250 families and each family cannot exceed a service cost of more than \$1,000 per month. Like the general family support program, all children in these programs have case managers through their county Community Developmental Disabilities Program (CDDP) and support services are allocated based on need. Most

children are also in school programs and the case manager coordinates between school and home.

Family-to-Family Networks, These family-driven networks provide training, information, referral, and general support from one family to another. Just having another family to connect with or problem solve is often what it takes to be supported. Networks also help if a child cannot continue to live with the family because of their care needs or the family circumstance changes. Often, once a child moves out of the family home into a foster care or group home care, they stay in 24-hour care for the remainder of their lifespan.

Comprehensive Services are for individuals with the highest level of care needs and those who can no longer remain at home. These services are 24-hour supports, mostly provided in settings outside the family home such as group homes, supported apartments or foster care. Of the 21,000 individuals enrolled in services, 7,000 are living in 24-hour group homes or foster care.

Services are funded under a Medicaid Home and Community-Based Waiver. These waivers provide a statutory alternative to institutional care. Community-based, as opposed to institutional care, remains a more

cost effective program as well as being the most desirable by clients and the State.

Individuals usually receive these services when they are unable to stay at home on their own or with their family. This is usually due to a change in the person's needs or the change in the caregiver's ability to continue providing services. There is a period of 90 to 120 days before comprehensive services are offered, where crisis services may be provided to determine if we can divert long term placements or behavior consultation to determine if an intervention can turn the crisis around.

For children with disabilities, they enter comprehensive service as a voluntary placement because the intensive needs of the child can't be met in the family home or is involuntary through child welfare action. Fifty percent of the children in comprehensive care come in through the child welfare system. Child Welfare programs maintain responsibility for court relationship but DD provides the specific disability related care.

Within comprehensive service, there are also services ancillary to the residential programs. Most adults get day services at 20 - 25 hours a week for out of home activities, including work related services. Non-Medical Transportation is also provided to help

individuals with I/DD when public transportation is not available or not feasible to help individuals participate in employment or other services. DD, service advocates and our stakeholder community have identified that individuals who are engaged in employment have better health and social outcomes.

All day services for adults are based on the *Employment First Policy*. This policy holds the general philosophy that individuals with developmental disabilities have the ability, with the right supports, to be productive and contributing members of their communities through work. This philosophy also recognizes intrinsic and financial benefits of paid work to the individuals with disabilities and their families.

Comprehensive Services are structured to meet the person's needs on a 24-hour basis. Individuals are assessed using either the Supports Intensity Scale or the Support Needs Assessment Profile to determine the extent of support needed and resulting provider payment. The use of a statewide rate assessment tool is a requirement of the Waiver. Services include both residential and day programs if the person is over 21 and out of school.

Group homes, apartment programs and day programs are run by 120 private agencies, the majority being

non-profit organizations. There are approximately 1,200 foster providers. The field services are provided through the county Community Developmental Disabilities Program (CDDP). Case managers determine program eligibility, develop and monitor plans of care, and provide crisis and protective service work.

State Operated Community Program (SOCP) is another component of the Comprehensive Service system. SOCP provides a safety net for Oregon's most vulnerable, intensive, medically and behaviorally challenged individuals with developmental disabilities. SOCP provides services when no other community-based option is available for an individual with I/DD. This includes people with developmental disabilities coming out of the Oregon State Hospital, correctional systems, and from crisis situations where counties and private providers cannot meet the needs of the individual to ensure their health and safety. SOCP focuses on supporting people in community-based settings and enabling them to return to less intensive service levels as quickly as possible.

SOCP provides 24 hour residential and day supports to individuals with I/DD from all across the state who have significant medical or behavioral care needs. The services are provided in small group homes located

across seven counties. The SOCP cannot refuse to serve anyone because their needs are too high.

SOCP started in 1987 when Oregon moved all children living at the state institution for people with developmental disabilities to private providers. There were a small number of individuals with complex medical or behavioral needs who could not be supported by private providers.

From the first homes that were opened by SOCP to today, the profile of the individuals served has changed. As private agencies increase their skills to meet challenging needs and agree to provide services, the person who needs a safety net has changed. In 2000, SOCP had six homes serving 30 people that were considered “medical,” which means they serve people with high medical needs. Today there are three homes for 15 people. In the past, the numbers of people with intensive behaviors had a diagnosis of autism. Today, intensive behaviors are more related to co-occurring mental health diagnosis and/or criminal convictions.

Recent budget reductions have resulted in six homes being closed. This has reduced overall client capacity by 22 percent.

In-Home Comprehensive Service are also provided in some specific situations. For adults there is a comprehensive in-home program individuals that can still be served in their family home but need a level of supports beyond the annual limit of \$21,562 imposed for support services for adults.

For children, there are three specialized in-home programs, each with limited capacity for no more than 200. Collectively these services are known as the Children’s Intensive In-Home Services (CIIS). One of these programs is for children with intensive behavioral issues and without supports would require specialized out-of-home services. The second program is for children with medical issues that without support would require nursing home services. The third program is for children with intense medical needs. These are children that are dependent on life support technology such as ventilators and without these in-home services would require services in a hospital setting.

Diversion or crisis services are available to all individuals with I/DD regardless of the service types or settings they are receiving. These short-term services (which could include additional in-home support, respite or temporary out-of-home placements) are provided to individuals with developmental disabilities who are at imminent risk of

being committed to the state for their care and custody due to potential harm to themselves or others. The purpose is to try and ameliorate the situation creating the crisis situation by focusing intense targeted supports and minimizing the need for costly long-term supports.

Program Design

Staff and services support the administration of ODDS programs through a central office providing strategic planning, program funding, policy development, general oversight, and technical support to community services and support and leadership for various advisory councils.

Program Delivery

The structure for service delivery and design includes a central program administration office and contracted services with Community Developmental Disabilities Programs (CDDP) and Adult Support Service Brokerages (Brokerages). Contracted Community Developmental Disability Programs (CDDP), usually operated by County government are responsible for service eligibility determination, program enrollment, case management, abuse investigation, provider development, quality assurance, and crisis response. CDDP's are also responsible local planning and resource development, and documentation of service delivery to comply with state and federal

requirements. ODDS provides funding for nearly 497 FTE of CDDP staff.

For adults who are getting Support Services, the case management function is provided by the contracted Brokerages.

Community Developmental Disability Programs (CDDP) field reviews ODDS conducts field reviews in each county in a five-year cycle. Areas of review include accuracy and reporting of eligibility for developmental disabilities determinations, targeted case management functions, documentation and billings, incident reporting and abuse investigations, contract development and monitoring, client plan of care reviews and family support implementation. The reviews have assisted ODDS in identifying CDDP-specific strengths and weaknesses requiring more training and technical assistance, as well as common trends across the state that may suggest a need for system changes, improvements, best practices and training.

Adult Support Services field review ODDS conducts annual field reviews of the 13 Adult Support Services brokerages. Areas of review include completeness and quality of assessment and related plan development, timeliness of access to plan development and

implementation, responsiveness to participant needs and choices, documentation of provider and staff qualifications, accuracy of benefit levels, fidelity to department-issued rate and expenditure guidelines, and comparison of plan authorizations to expenditures. The findings are reviewed with the individual brokerages, and the aggregate results are compared to established benchmarks. The outcomes often lead to practice changes and increased understanding of ODDS policy within a specific brokerage. They may lead to overall system changes, focused training for individual or multiple brokerages, and refinement of ODDS policy.

History – future trends

The state of Oregon is recognized nationally as an innovative leader in developing community-based services for individuals with developmental disabilities. Oregon is one of only three states that have no state or privately operated institutional level services specifically for people with developmental disabilities. In fact, the majority of individuals with developmental disabilities in Oregon, approximately 67 percent, are served in their own home or their family's home.

That is the result of two decades of work to aggressively “re-balance” the developmental disabilities system -- moving from an institutional

model with expensive “one size fits all” approach -- to a self-directed, family involved, individually focused and less expensive approach to service. Today, consumers and families report a high level of satisfaction through the increased control over services, the ability to more fully integrate in home communities and the benefits of home community life.

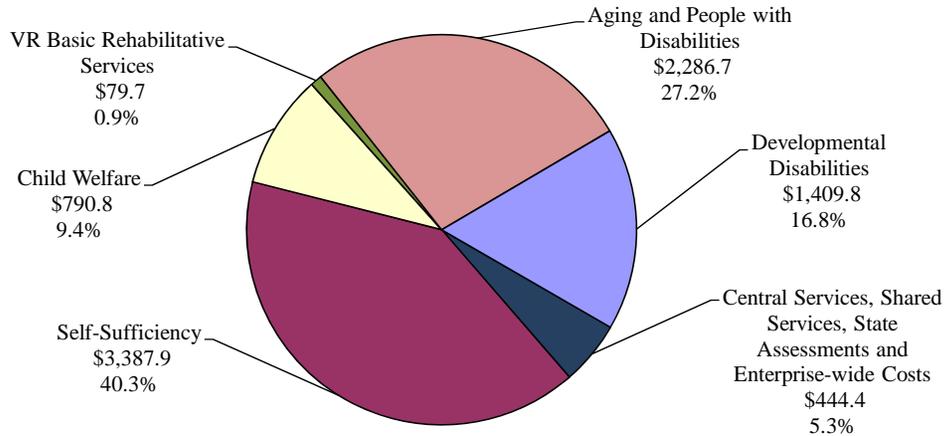

However, to maintain those high levels of satisfaction, to further advance the inclusion of people with intellectual and other developmental disabilities in their communities, and to serve the increasing number of people with I/DD requesting services, the system has an urgent need to continue its evolution in a fiscally sustainable manner.

Nationally and in Oregon, the number of people with developmental disability-related needs, such as the autism spectrum and alcohol and drug-related causes, is growing. There also is an increase in the number of people who need services and have co-occurring mental health or corrections needs. Over the past two years there has been a net increase of over 2,000 children and adults with developmental disabilities requesting new services. As a result of the increase in caseload and the nature of the presenting issues the number of children and adults requiring new or

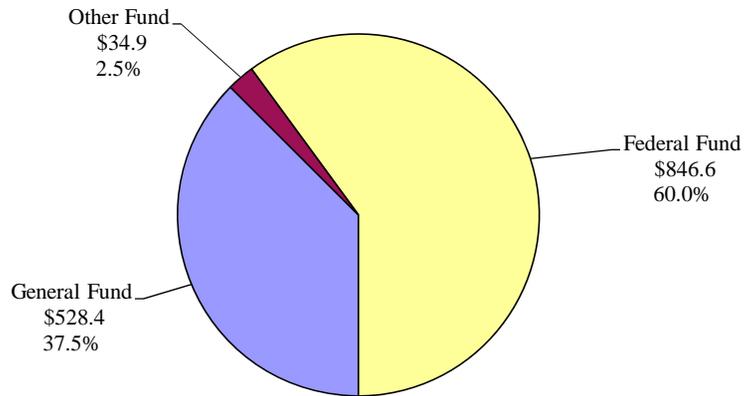

increased funding to meet crisis needs is also increasing.

The overall balance of who is being supported by the 24-hour service system is changing. While caseloads are increasing, access to existing resources based on client turnover is declining due to longer life spans. New services being developed are primarily for children and adults in crisis, whose needs are high, usually due to supports related to significant medical needs or behavior and mental health.

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Central Services
Program Name: Central Services
Policy Option Package Initiative: N/A
Policy Option Package Title: Workforce Strategy Investment Central Office
Policy Option Package Number: 101-1
Related Legislation: N/A
Program Funding Team: Improving Government

Summary Statement:

DHS seeks to expand the funding related central services. This additional funding will allow the department to better serve program and provide support for personnel and management of program funding. This strategic funding proposal would add:

- Staff (OPA3 and OPA4) in support of increasingly complex agency wide projects in the Directors Office.

This investment will provide needed workforce in support of the Department of Human Services central offices which provide financial, employment, training and management support to allow the department to meet its goals of keeping people healthy, independent and safe.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$193,065	\$0	\$191,832	\$384,897

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

Central Services for the Department of Human Services will hire additional staff in the Directors Office to increase support for staffing, policy and financial functions providing more oversight and training for program staff.

2. WHY DOES DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

3. This funding proposal will allow the department to more effectively manage the resources available and provide training and oversight to improve outcomes.

4. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

Improving client outcomes furthers the agency's goal of cultural competency and safety regarding clients we serve.

5. IS THIS POP TIED TO A DHS/OHA PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS/OHA MEASURE THE SUCCESS OF THIS POP?

6. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

7. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

8. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Although Central Office would continue to support the agency programs, the amount of support would be diminished and would delay implementation of training, fiscal policy decisions and staffing related issues.

9. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

10. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

This POP assumes that the positions will be phased in during the 13-15 biennium and will be starting at step two of the salary range.

Implementation Date(s): 9/1/2013 and out

End Date (if applicable): N/A

- a. **Will there be new responsibilities for DHS/OHA? Specify which Program Area(s) and describe their new responsibilities.**
No.
- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**
- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**
- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**
- f. **What are the ongoing costs?**
See the budget figures below.
- g. **What are the potential savings?**
- h. **Based on these answers, is there a fiscal impact?**
Yes, see budget, below.

Policy Option Package Number: 101-7, 101-9

Program Funding Team: Improving Government

Summary Statement:

"This POP reflects changes to allow for balancing the Governor's budget based on recommendations from the Improving Government leadership team. Funding amounts on page 5 have been updated to reflect the reduced amounts in the Governors Balanced Budget."
 The Office of Adult Abuse Prevention and Investigation is essential for ensuring safety for vulnerable populations groups including adults who receive mental health and/or developmental disability services, children in therapeutic services programs and adults over the age of 65 or who have a physical disability that reside in a long-term care setting or the community. This proposal provides an additional resource for quality assurance in this critical adult safety program.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$135,564	\$188,391	\$53,464	\$377,419

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

Office of Adult Abuse Prevention and Investigations (OAAPI) has statewide responsibility for assuring protective services are provided; and for investigations of abuse and neglect for adults who receive mental health and/or developmental disability services, children in therapeutic services programs and adults over the age of 65 or who have a physical disability that reside in a long-term care setting or the community.

The Office is responsible for abuse and neglect responses in more than 6,053 licensed, certified or registered facilities and responded to more than 29,600 reports of abuse or neglect in 2010. OAAPI also ensures the provision of protective services and investigation responses by more than 278 staff in counties and local offices throughout Oregon.

This policy option package would fund one additional FTE to provide resources for appropriate level of quality assurance, quality improvement, technical assistance and oversight to 278 individuals currently in the delivery system through regional program coordination for performance of mission critical work.

2. WHY DOES DHS PROPOSE THIS POP?

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

This proposal ties directly to the DHS mission of ensuring people are safe and living independently as possible as it increases safety assurance.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Not funding this proposal would create resource shortages in a critical safety area and adversely affect the quality of services. The Office of Adult Abuse Prevention and Investigation is essential for ensuring safety for vulnerable populations groups including adults who receive mental health and/or developmental disability services, children in therapeutic services programs and adults over the age of 65 or who have a physical disability that reside in a long-term care setting or the community.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

None.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): _____

End Date (if applicable): _____

- a. **Will there be new responsibilities for DHS? Specify which Program Area(s) and describe their new responsibilities.**

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**
None.

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**
None

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
One Program Analyst 2 – 21 months (phase in 10/13), permanent

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**
None

- f. **What are the ongoing costs?**

- g. **What are the potential savings?**

h. Based on these answers, is there a fiscal impact?

<u>Program Funding Team:</u>	Improving Government

Summary
Statement:

"This POP reflects changes to allow for balancing the Governor's budget based on recommendations from the Improving Government leadership team. Funding amounts on page 2 have been updated to reflect the reduced amounts in the Governors Balanced Budget."

DHS and OHA will have up to 66% of active computers over five year of age which is beyond industry standard lifecycle and slows down productivity. The State Data Center has also not upgraded DHS/OHA network infrastructure in over nine years in many buildings including the Barbara Roberts and Portland State Office Buildings. Both the Network and outdated computers cause inefficient work processes due to how slow systems operate on these computers and systems. In addition, as modern systems such as HIX and Eligibility Modernization are implemented, a further strain on the performance of DHS and OHA IT systems will occur. The worst case scenario is that some computers will not support these modern applications. Older computers will also not support Windows 7 and Windows XP; support for these systems will be soon phased out by Microsoft. Due to DHS and OHA's reliance on IT systems to provide services and ensure safety of clients, modernizing the IT tools and Infrastructure is critical to the long term success of DHS and OHA in achieving program outcomes and ensuring health and safety of Oregonians.

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

The focus of activity for FY13-15 is on increasing program performance and delivery, caseworker effectiveness and efficiency; and client support. By addressing existing and growing gaps in three key areas (PC refresh, network performance and mobile computing/communications) OHA and DHS will be able to better meet agency and client needs while delivering increased performance through the support of transformation and modernization efforts.

a) PC Refresh—Meeting Client and Caseworker Needs

Establish a program for the regular replacement of agency information technology assets as required by the Department of Administrative Services. The Information Technology Asset Inventory/Management policy IRM 107-004-010 requires agencies to support standard lifecycles for agency Information

Technology (IT) assets. In 2011, DHS began replacing PCs that were incapable of supporting future needs (e.g. Windows 7, Office 2010). The allocation of \$1 million by DHS represents a significant investment, but was slightly more than one third of what is needed to simply upgrade platforms that must be replaced. This Policy Option Package represents a long-term effort to fund for the replacement of systems at their end-of-life in order to meet ongoing technology needs for both DHS and OHA.

b) Network Infrastructure—Supporting Modernization, Improving Efficiency

Ensure the building infrastructure across all OHA and DHS facilities is capable of support the next generation of network-centric solutions. As modernization investments continue to place increasing demands on the OHA and DHS information technology infrastructure, a commitment to establishing and maintaining a high-performance network environment will be critical to meeting the needs of human services programs, health insurance plans and medical assistance efforts (i.e. Health Insurance Exchange, Health Information Exchange, Coordinated Care Organization web portals, health care analytics, etc.) will. Maintaining a responsive IT network that meets caseworker/client performance/usability demands is essential to the success of virtually all transformation/modernization efforts.

c) Mobile Computing—Increasing Responsiveness and Productivity

The increasing use of mobile devices—particularly smartphones and tablets—represents a significant shift in the way clients and caseworkers interact with technology. Legacy BlackBerry solutions are incapable of supporting the needs of the OHA and DHS community going forward, and this POP proposes replacement of the entire inventory with more modern hardware (Apple IOS, Windows 8 mobile, or Android). Replacement of the legacy BlackBerry phone infrastructure with a device that functions as a combination email agent, voice messaging agent, telephone (cellular/landline), video conferencing client and remote application delivery platform can provide OHA and DHS users with a range of capabilities unavailable in the current platform.

2. WHY DO DHS and OHA PROPOSE THIS POP?

As new software applications supporting Coordinated Care Organizations, Health Systems Transformation and the modernization of human services programs are released, performance problems associated with aging computer hardware and network infrastructure will become increasingly severe. The need for more processing power and higher network performance has already been experienced by users of two systems: MMIS and OR-Kids (memory in older systems was more than adequate at the time of purchase, but aging systems failed to meet agency needs and MMIS/OR-Kids users required memory upgrades).

During the 2011–13 biennium the Windows 7 operating system and Office 2010 will be rolled out to all users. The operating system and software applications are the current generation of products from Microsoft and will ensure OHA and DHS computers and computer generated products remain compatible across the agencies and with our public and private counterparts as they move in a similar direction. These changes will tax the capabilities of older systems. The resulting poor performance at the desktop PC level will reduce productivity and service delivery.

A 4-year PC lifecycle replacement is the accepted industry best practice for mainstream users to maintain acceptable computer performance for staff productivity. In addition, Microsoft operating system lifecycles typically follow a 4-year cycle from the release to obsolescence. The Windows 7 operating system is the current replacement for the decade old Windows XP platform. As part of the replacement of agency PCs, the technology consulting firm Gartner recommends refreshing the client operating system. This makes the next biennium a critical time for PC upgrades. Failure to replace all systems incapable of running Windows 7 will incur significant support costs to both agencies for the maintenance of the obsolete XP platform.

Maintenance costs on new PCs are covered under warranty, while those associated with an aging, out of warranty inventory are handled as a current expense covered by the business. Current PC vendors provide a 3 to 4-year warranty on systems. Extending the lifecycle beyond the 4-year warranty incurs additional costs (e.g. labor, parts and lost productivity) to maintain increasingly obsolete systems. The lost productivity associated with using and remediating installed systems causes resource issues/impacts, delays client service

delivery and shifts technical resources away from operations and toward remediating failing computers and infrastructure.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

Establishing a PC replacement program executed in parallel with efforts to remediate applications to run in the Windows 7 environment is essential. Given the limitations associated with an aging PC inventory and the operational demands of OHA transformation and DHS modernization, outdated legacy systems should be targeted for immediate replacement. Based on industry best practice, software demands, and hardware maintenance needs, DHS and OHA should strive to achieve a 4-year PC lifecycle replacement plan. In practice this would necessitate replacing approximately 2,750 systems per year (5,500 per biennium). Implementing a PC lifecycle refresh program requires significant investment—there are currently over 3,000 PCs that are greater than 5 years old. The replacement of these aging PCs has been deferred several times due to budget cuts.

4. IS THIS POP TIED TO A DHS or OHA PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS and OHA MEASURE THE SUCCESS OF THIS POP?

No.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No statutory changes are required.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

There are no practical alternatives. Windows XP has reached its end-of-life. The average PC in the inventory is already beyond replacement age. Network hardware in many buildings is nearly a decade old. The wide

area network infrastructure is demonstrably incapable of effectively supporting current needs, let alone future demands.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

The risks to OHA and DHS program delivery will be significant if the legacy PC inventory is not replaced, the network infrastructure is not upgraded and a forward-looking mobile communications solution are not implemented. IT functionality for both OHA and DHS will degrade increasingly over time until it is no longer supportable. The results will be severe for caseworkers and clients.

A key part of the caseworker environment is the personal computing platform used by staff. Microsoft's XP operating system has been at the center of OHA and DHS computing for over a decade. The majority of PCs in use are aging and many cannot support migration to Windows 7 or Office 2010. IT industry data indicates it can take 18 to 32 months to completely transition to a new operating system environment. While both OHA and DHS are a generation behind in operating systems and general office productivity applications, the problem will be further compounded when the next generation of products is released in late 2012.

Network infrastructure across the OHA and DHS agencies (both internal to buildings and Internet/SDC connectivity) is aging and in need of upgrade/replacement. A majority of the networking hardware in OHA and DHS facilities is 5 to 9 years old. The current wide area network transport infrastructure has been in place for over a decade at a majority of OHA and DHS locations and performance is sub-standard at many of these sites. Without a concerted effort to increase performance, the network as a whole will be unable to support currently projected demands.

The mobile communications solution that is currently fielded across OHA and DHS is the BlackBerry phone. These phones represent an aging platform, and the communications network run by Research-In-Motion (RIM) that is required to use the phones with email and instant messaging is both proprietary and outdated. The emergence of Apple's iPhone and Android smartphones (from various vendors) has

dramatically shifted the mobile market. In addition to increased usability and functionality, more modern mobile phones can execute applications beyond anything the legacy BlackBerry is capable of supporting.

Transitioning to a more open platform that does not require a proprietary network simplifies the architecture and opens up a range of potential solutions, including “Bring Your Own Device—BYOD.” A final and quite serious concern is the viability of the RIM corporation (maker of the BlackBerry) going forward. RIM is facing serious challenges that make newer technologies, open platforms, agency specific application storefronts and the risk associated with the current solution critical considerations for OHA and DHS business operations.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

N/A

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): July 1, 2013

End Date (if applicable): _____

a. Will there be new responsibilities for DHS or OHA? Specify which Program Area(s) and describe their new responsibilities.

No new responsibilities.

b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).

No.

c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.

No.

d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.

PC Refresh	# of months	Type
One (1) ISS5 PC Build Team	21 months	Permanent
Four (4) ISS4 PC Build Team	21 months	Permanent
Network Infrastructure	# of months	Type
Four (4) ISS6 Infrastructure Techs	21 months	Limited Duration
Mobile Computing	# of months	Type
One (1) ISS6 Tech	21 months	Permanent
Two (2) ISS4 Tech	21 months	Permanent

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

Start-up Cost Estimates

PC Refresh	
Replace personal computers in 2013-15 to achieve 4 yr lifecycle	\$702,487
Network Infrastructure	
LAN/WAN Infrastructure upgrades	\$300,000
Mobile Computing	
Mobile Phone Replacement	\$25,000
Collaborative Infrastructure Servers	\$75,000

- f. **What are the ongoing costs?**

Ongoing Cost Estimates

PC Refresh	
Replace 260 PCs each month (6,240 per biennium)	\$8,005,920
Mobile Computing	
Mobile Device Management (MDM)	\$48,000
Collaborative Infrastructure Servers	\$336,000

- g. **What are the potential savings?**

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Field Services
Program Name: Self Sufficiency Program Delivery and Design
Policy Option Package Initiative:
Policy Option Package Title: Self Sufficiency Staffing Initiative
Policy Option Package Number: 102-1
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

The recent economic downturn has resulted in many more families with children accessing services from Self Sufficiency. The current TANF caseload is approximately 90 percent higher than prior to the beginning of the recession. The dramatic increase in the number of families applying for and receiving TANF, without additional staffing and program resources to meet the need, has affected the department's ability to provide timely, individualized services. The department has been forced to prioritize services to a very small number of families. Case plan development and referral to services has been delayed which directly impacts low-income families and their ability to access services in a timely manner and in a way that addresses their barriers to self-sufficiency impacting family stability and employment outcomes. In addition, the ability of the department to meet federally mandated requirements in the JOBS program has also been eroded.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option</u> <u>Package Pricing:</u>				

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

We will repurpose and re-class 176 eligibility workers in stages throughout the biennium with approximately 100 positions being re-classed at the beginning of the biennium and the rest in the 2nd half of the biennium as efficiencies are gained through technology of an Eligibility Automation associated with modernizing our service delivery.

2. WHY DOES DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

Appropriate and timely services to families living on less than 43% of the Federal Poverty level is crucial to ensuring that citizens of Oregon are Healthy and Safe. The addition of case management staff will allow engagement services for Self Sufficiency clients in the TANF program. This doesn't create a new program but allows the existing program to operate at improved potential.

Case managers are responsible for services to TANF clients in providing family stabilization supports, referrals and assessments to assist families to improve their health, safety and independence through increase employment outcomes. Without additional case managers DHS will continue to not be available to families in need of services. The addition of case managers will have an impact on our JOBS program providers by increasing referral for services, supporting clients to attend and participate in activities for Self Sufficiency. This increase is expected to result in caseload containment, potential caseload reduction (dependent on economic conditions) and increase participation in meeting federal participation standards.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

The mission of the Department of Human Services is to help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity. Self Sufficiency case managers support this mission by working directly with TANF families to identify barriers, develop case plans, conduct home visits and provide community referrals to address barrier removal in support of employment placement and family stability. Improvements in the staffing of case managers will:

- Directly support people to be safe and live as independently as possible by providing the ability for clients to receive timely and appropriate services to remove barriers and receive assistance for self sufficiency
- Improve the ability to provide equal access, service excellence and equity for all
- Support strong community and business relationships by increasing referral for JOBS services, providing more immediate response to business partners experiencing concern with client outcomes.
- Retain a highly qualified effective and valued workforce. Currently the workload greatly exceeds the ability to provide an effective service and is affecting our staff ability to remain employed.
- Increase Employment Outcomes for citizens we serve

4. IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?

Increased employment;
TANF Re-Entry;
TANF Family Stability;
Teen Pregnancy;
Participation rate;

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No change in existing statute is required

No new statute is required.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The only alternative is to not increase the number of case managers available to provide supports to TANF clients. This alternative will result in continued caseload and client instability.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Caseload will continue to be unstable (continued growth); Federal Participation Penalty will continue for future Federal Reporting years; Family stability efforts will further erode.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

None known at this time.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

- Eligibility Automation is delivered on time in 2013
- Continued increase in on-line application submittals
- Acceptance of the system is achieved by July 2014 and workload savings of approximately 10 minutes (averaged) per intake and recert are realized
- Initial positions are funded at 21 months
- There are vacant HSS3 positions to repurpose in the re-class package
- Case Managers continue to be filled at 100% of allocation

- Caseload savings are re-invested in JOBS to further support caseload reduction through outcomes
- Vacancy fill rates return to 100% in the 2013-15 biennium for all classifications

Implementation Date(s):

October 1, 2013 person/position re-class of 100 eligibility workers to X number of HSCM's (will need to prepare package ahead of time and will use some of the HSS3's to fund the reclassification to SR 21).

July 1, 2014 position re-class of remaining 76 eligibility worker positions to X number of HSCM's (will need to prepare package ahead of time and will use some of the HSS3's to fund the reclassification to SR 21)

End Date (if applicable): Ongoing

- Will there be new responsibilities for Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.**
- Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**
- Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**
Additional case managers will provide increased service to current caseload providing a stabilizing factor for the TANF caseload with potential reduction of 10% over the biennium. This reduction

would be realized through program outcomes of increased TANF Employment, reduced TANF re-entry, TANF Family Stabilization and reduced Teen Pregnancy.

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

Existing positions will be modified.

It is estimated the added responsibility for managing performance-based contracts and adding contracted services will impact both central office and field staff.

Modified existing positions:

- Repurpose/Re-class positions: Re-class 100 eligibility worker (HSS3) positions to HSCM and fill at 21 months as HSCM's – will not be 100 HSCM's as some of the HSS3's will need to be used for funding the reclassification.
- Re-class the remaining 76 eligibility worker (HSS3) positions to HSCM and fill at 12 months as HSCM's (will not be 76 HSCM's as some of the HSS3's will be used to fund the reclassification)

Future Biennia all repurposed/re-classed positions will be 24 months.

- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**
- f. What are the ongoing costs?**

g. What are the potential savings?

Caseload savings (10% of TANF caseload reduction) reinvested to fund positions.

h. Based on these answers, is there a fiscal impact?

TOTAL FOR THIS PACKAGE

What are the sources of funding and the funding split for each one?

2013-15 Policy Option Package

Agency Name: Department of Human Services (DHS)
Program Area Name: DHS
Program Name: DHS Modernization
Policy Option Package Initiative: DHS has the capacity to meet client's needs
Policy Option Package Title: DHS Modernization
Policy Option Package Number: 102-4
Related Legislation: N/A
Program Funding Team: Healthy People

Summary
Statement:

This Policy Option Package continues efforts that began in 2007-09 to transform the process for enrolling people and delivering services in eligibility programs including the Supplemental Nutrition Assistant Program (SNAP), Temporary Aid to Needy Families (TANF), Medicaid and Employment-Related Daycare (ERDC). It also expands and focuses on 2013-15 efforts in the areas of business service, service delivery transformation and technology transformation, and the connectivity and dependency between them.

This comprehensive request supports technology needs and business transformation that will enable future business strategies aligned to a renewed business architecture. The result will be consistent service delivery and maximized economies of scale in social interfaces without geographical constraints that utilizes a full range of technology options including mobile computing, seamless data access and data sharing. This will lead to multiple positive outcomes, greater efficiency for caseworkers and the ability to send referrals based on need and outcomes.

Oracle software (called a “stack”) purchased by DHS and OHA facilitates agency ability to establish a foundation based on business functions - comprehensive case management (intake, assessment, determination, authorization of services) including intelligent, informed referrals to community and provider services. DHS will be able to track service success and send enhanced referrals based on outcomes with a system that tracks provider services and quality and who we send. Instituting and leveraging data warehouse and master data management capabilities will enable DHS to establish performance metrics and share data in ways not currently possible because of the limitations of existing siloed systems. Technology solutions will enable expanded service access providing increased flexibility for clients through increased client touch points. Combined business service transformation and technology solutions will maximize client self service and improve client choices with respect to how much they need to engage in person.

This initiative includes re-engineering the client experience, the way case workers interact with clients, the interface between the client and DHS, delivery of benefits and replacement of aging technology systems far past their usability. Current manual, paper intensive processes are cumbersome and make information sharing extremely difficult will be automated and streamlined.

DHS Modernization has expanded from a singular technology focus to include modernization of the approach DHS uses to perform work and deliver services. This request recognizes the connection between transforming service delivery and technology. Technology re-engineering and replacement are one tool supporting a myriad of service delivery elements including access, eligibility, enrollment, notification, service/benefit utilization, from maintenance to closure.

Automating eligibility determination will lead to increased accessibility, quality, accuracy, timeliness and improved accountability. Information will be stored and accessed through a data warehouse that supports federal, state and local operational management and statistical reporting.

Strategically, technology solutions will enable unified case management, a data warehouse based on the principles of master data management, data strategy and data architecture, and a payments system that will replace multiple, disparate payments solutions. The solutions implemented will lay a technology foundation that will further leverage and extend support for other DHS services including intake and screening, case management, permanency, certification, case planning, licensing, provider systems, protective services and developmental disabilities.

More broadly though, our efforts include examining and transforming how we design our facilities, the facility needs, how we connect with our clients and how we expand choices for client engagement. Service delivery locations will utilize the new technology in concert with the need for face-to-face contact.

To achieve these goals and the expanded view of agency modernization, we've extended the end date for overall modernization from the initial estimate of 6 years to 10+ years. This will extend overall costs, but the end result will be a significant reduction in the total technology systems used to support DHS – from the current 80+ to a handful of enterprise solutions. This will result in far greater efficiency for case workers in all areas – the ability to view clients and cases in a holistic manner, and having just one version of the truth for data. Technology support will be dramatically improved, time spend implementing policy and other requests will improve significantly and total cost of technology ownership should decline over time.

Continued funding is needed to support business process re-engineering efforts within the business and implement technology solutions leveraging the Oracle solution set purchased by DHS/OHA in 2011. Additional funding is necessary to continue to support and maintain both existing legacy solutions until their functionality has been replaced and they are retired as well as support in new capabilities as they are implemented.

The Department of Administrative Services, (DAS) authorized the use of Certificate of Participation, (COP) to fund the project. The first payment for Principal in the amount of \$605,000 and Interest in the amount of \$273,597 is due in 2013-25 for a total of \$878,597.

	General Fund	General Fund Debt Service	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$7,121,232	878,597	\$14,360,000	\$34,655,471	\$57,015,300

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This POP will enable clients to access benefit information, receive assistance easily at all hours, apply for benefits online and make changes to their circumstances in real time or in person. Case workers will be able to focus their time on activities that maximize the value added to clients and further the agency’s mission. Staff will have processes and technology that minimize their administrative work, create additional efficiencies, and ensure accuracy, adequate documentation and consistency in outcomes. The entire system will cost less and produce data to access progress and manage service delivery. Staff will be able to shift from an eligibility focus to a case management and problem-solving approach. Strategically, this shift will build capacity within the client’s circumstances to enhance self sufficiency, safety and choice.

DHS client service begins with client interest, and then moves through the application process into client intake, eligibility determination, then benefit authorization and coordination. DHS Modernization will

transform eligibility services by providing clients with online access channels to determine availability of programs and services, apply for services electronically and track and manage their accounts remotely. One key goal of DHS Modernization is to automate complex eligibility determination, which benefits clients and improves caseworker accuracy and efficiency.

This policy option package continues efforts that began in 2007-09 to improve Oregonians' access to DHS services, automate manual processes and modernize aging systems. DHS case worker staffing levels are significantly below demand, based on current client populations and approved workload model estimates. This gap increases wait times for clients to be assessed for eligibility and receive services. Case workers spend a significant amount of time processing paperwork, performing data entry in multiple systems and manually determining eligibility. Eligibility determination is an error-prone process which compromises data sharing for comprehensive case management. Unified case management is critical to long-term efficiency and accuracy.

Legacy technology solutions are aging and fragile with many custom-built, non-standard interfaces between systems. The result is a technical environment that makes case worker tasks difficult and inefficient, requiring them to enter the same data multiple times into different systems. Information is not readily shared between systems – reporting is extremely challenging in this environment. Current technology is expensive and cumbersome to support. It is complicated, time-consuming and expensive to make system and interface changes in response to federal or state mandates and support caseworker needs.

DHS Modernization efforts are anticipated to continue through the 2015-17 biennium and represent an estimated investment of over \$85 million to fully automate and modernize systems and services.

When realized, DHS clients, case workers, policy and technology will have a fully modernized service delivery and technology environment. Case workers will have automated solutions that support efficient and accurate eligibility determination. Clients will have access to multiple channels to apply for programs/services, update changes to their information, renew their benefit claims, check claims status, or schedule and confirm appointments. Eligibility determination will be automated. Data will be captured electronically at its source, reducing paper and paper management for caseworkers. Case workers will have a cohesive system for capturing and maintaining client information, notes, tracking family stability, safety, needs, assessments and employment readiness activities. Data will be available for accurate reporting. Changes in response to policy will be predictable, rapid, and much less expensive to implement than the current legacy systems.

Technology solutions will be enterprise class, architecturally sound, adhere to industry best-practices, and emphasize solution configuration over custom development in alignment with the DHS/OHA strategic technology plan. Data for management and decision making will be robust, complete and accurate. Error rates will be reduced so there are fewer over-payments and associated recoveries, and ratings will improve for program electronic review (PERM). Duplicate data will be reduced or eliminated and data will be maintained in a secure systems environment which can be scaled to meet business needs.

Primary focus of 2013-15 Project Activities

The primary focus of DHS Modernization in 2013-15 will be to continue the incremental, modular approach to transform the business service model and implement technology solutions. Planned efforts will focus on solution delivery case management, financial payments and data architecture, strategy and data warehouse functions.

This functional focus applies to business and technology transformation activities and lays the foundation for future DHS Modernization activities beyond eligibility.

1. Case Management

- Implement base case management solution on the Oracle platform and begin migrating functionality and data performed by various DHS systems such as Oregon ACCESS and TRACS to an enterprise level platform.
- Expand solutions implemented in 2011-13, which include configuration and implementation of a client portal allowing clients to apply for SNAP, Medical, TANF and ERDC benefits using an integrated, on-line application to schedule online appointments with case workers and access their case information.
- Update Oregon Rules configured in Oracle Policy Administration (OPA) across SNAP, TANF and Medical providing rules information needed to support full eligibility determination.
- Integrate eligibility determination for SNAP, TANF and Medical.
- Continue transforming case management from existing partial case management legacy systems (e.g., TRACS and Oregon Access) to the Oracle platform, moving toward a unified DHS Case Management system.

- Configure and implement an Oracle case worker portal to manage intake, assessment and client eligibility determination for SNAP, TANF, Medical, and ERDC. Create accessibility, functionality and data sharing with other DHS programs (Developmental Disabilities, Adult Protective Services, Child Welfare, and Vocational Rehabilitation).
- Implement telephony solutions including call routing, interactive voice response and web chat.
- Automate notices to clients including appointments, benefits, approvals, closures and reductions.

2. **Financial Systems**

- Configure interfaces for key legacy systems including SNAP, case manager (CM) and the Medicaid Management Information System (MMIS) for seamless continuation of benefit payments using existing legacy solutions while transferring functionality to the Oracle platform.
- Develop foundational capabilities to delivery financial payments and benefits using Oracle. This capability will be leveraged and extended to ultimately replace more than 20 different financial payments systems.

3. **Data Management – Strategies, Architecture, Warehouse**

- Extend Master Data Management system to integrate additional sub-systems as defined and approved. Examples could include: MMIS, OR-ACCESS, Client Maintenance, Food Stamps Management Information System, etc., moving towards retirement of the existing legacy Client Index system.
- Establish analytical reporting for service analytics, partner analytics, case management analytics and contact center analytics.
- Utilize benefit delivery systems (electrical benefits transfer (EBT) card) as a passport of additional client information.

Total Estimated Cost: 2007-2017 (in millions)

	<i>2007-09</i>	<i>2009-11</i>	<i>2011-13</i>	<i>2013-15</i>	<i>2015-17</i>	<i>Total</i>
DHS Transformation / Business Process Re-engineering	\$0	\$0	\$1.50	\$2.60	\$10.00	\$14.10
Support and maintenance (<i>new solutions, infrastructure and services in parallel with sustaining legacy systems</i>)	\$0	\$0	\$1.00	\$16.80	\$6.00	\$23.80
Case Management <ul style="list-style-type: none"> • <i>Client Portal</i> • <i>Caseworker Portal</i> • <i>Eligibility Automation</i> • <i>Telephony</i> 	\$3.20	\$8.64	\$17.50	\$21.50	\$3.00	\$53.84
Data Warehouse / Financial Systems (<i>replacing Legacy Back end Systems</i>)	\$0	\$0.80	\$3.20	\$15.00	\$20.00	\$39.00
Total	\$3.20	\$9.44*	\$23.20	\$55.90	\$39.00	\$130.74
<p><i>* 2009-11 funding of \$12.76 million was estimated as follows for projects:</i> <i>Client online application - \$2.5 million</i> <i>Caseworker online application processing - \$2.5 million</i> <i>Eligibility automation - \$5.0 million</i> <i>Telephony - \$0.5 million</i> <i>Modernization planning - \$1.5 million</i></p>						

2. WHY ARE DHS AND OHA PROPOSING THIS POP?

Oregon’s self eligibility systems were designed and implemented in the 1970s and early 1980s and were primarily meant to generate payments. The eligibility process is still mostly manual and paper-driven. DHS has incorporated the LEAN system to streamline and increase service delivery efficiencies. However the touch points and basic service delivery model remain unchanged. DHS is now assessing transformational ways to improve service delivery and increase the right level of client interaction and support without increasing staff levels.

Transformation of DHS services, initially focused on eligibility is critical to ensure uniform access for clients across the state; current access to data and management of case files are largely branch office dependent. Client information required to determine eligibility is heavy touch and paper based. Substantial manual effort including keying of data into systems and calculation of eligibility is manual. Case files and case management is paper-based and therefore not readily transferable between caseworkers.

Existing systems do not meet the needs of caseworkers or clients, and continue to put children and families in need at risk. There are two primary legacy systems -- SNAP (FSMIS) and the Client Maintenance System (CMS). There are over 35 additional subsystems used to provide, track and maintain caseworker/client interaction information for SNAP, TANF, ERDC and Medical benefits to clients. These systems have over 100 interfaces to other systems within DHS and OHA and with other external entities.

these outdated technologies does not employ service-oriented architecture and re-use principles. The programming languages used for these systems are no longer readily supported by the general IT industry.

- Increase error rate probability due to manual decision processes and complexity of eligibility rules. These errors lead to both over- and under-payment of program benefits.
- Require staff with a unique talent-set to maintain. Because the legacy systems utilize outdated programming languages, it has become increasingly difficult to hire new staff that understands the legacy technology. Furthermore, DHS understands that significant numbers of currently employed technicians will soon qualify for retirement. Comprehensive succession planning is critical.

Utilizing updated rules-based systems will reduce staff calculation errors and increase accuracy of eligibility review audits mandated the federal government. This will in turn improve data accuracy and strengthen the eligibility determination processes.

The limitations of existing systems supporting Oregon's eligibility services include:

1. There is no comprehensive view of a client's service support. Caseworkers only have access to partial case data, limiting information on services a client is receiving and the ability to track other services essential to improving family well-being.
2. System inefficiencies reduce case worker contact with families. Inefficient systems and lack of automated medical determination contribute to high medical eligibility error rates, and excessive administrative and clerical workload for caseworkers, resulting in less time spent providing direct services to clients in need.
3. Data duplication increases security risks and reduces data integrity. This also impacts reporting accuracy and efficiency for client-based programs. SNAP, TANF, ERDD and Medical systems do not use a data warehouse for retrieving uniform data. Duplicate information is stored in multiple systems, with different data structures, security protocols, access and authentication processes.
4. Mandatory reporting is time-consuming, burdensome and more difficult because of the current manual processes. Mandated reports require pulling information from multiple, unconnected systems to produce program outcome information and provide data on accuracy, improvements and accountability. Report data are summary only, requiring staff to manually extrapolate detail for reporting purposes.

There are significant potential points of technical failure in the more than 35 systems supporting support self sufficiency service delivery and one hundred interfaces between these systems and other systems within and outside of the agency. Many systems utilize obscure or outdated programming languages for which there are very limited technical resources and which require unique staff skill sets. It's almost impossible to secure "emergency" staff to make the mandatory code changes. This creates significant risk in the department's ability to support and sustain these solutions.

5. Technical staff who support these systems spend the majority of their time providing maintenance (break-fix). Any system modifications or changes, whether to repair an existing problem or respond to legislative mandates, require extensive testing because of system complexity and interfaces. Changes to any system have a very high probability of impacting others. Resolving system problems is challenging, time consuming and expensive. Support is further complicated by the multitude of platforms and languages used in the various systems. This complexity requires staff to be well-versed in a broad variety of computing disciplines. The risk profile for systems support is high, because staff is highly fragmentation, there's a low ratio of staff to individual systems, and a lack of system documentation.

Field staff and DHS clients will benefit through improved internal processes and external client experience.¹ Benefits that Oregon expects from self sufficiency modernization include:

- 1. Adding new channels of access for customers to improve the client experience:**

- Streamlined decision cycles and improved service response time
- Increased avenues of client access to DHS services
- Increased client satisfaction through use of modern, interactive, accessible technology

- 2. Improving caseworker capacity and retention due to ability to focus more time on direct client services:**

- Increased productivity for caseworkers due to heightened ability to focus on case work
- Increased ability for field supervisors to manage caseworker caseloads and monitor case work

¹ Kost, J. *Strategic Technology Map for Government Human Services Agencies*. Gartner, Research Paper ID Number G00149643. 23 July 2007

- Increased process efficiency due to workflow refinements
- 3. Reducing training time for new staff due to automation of complex medical determination:**
- Reduced case-worker learning curves
 - Reduced error rate due to automation of manual decision trees
 - Reduced errors due to reduction of repetitive and duplicative manual data entry
- 4. Improving system and reporting information for management staff:**
- Improved tracking of program outcome measures through improved data accuracy and access
 - More efficient interfaces with Child Welfare, Seniors and People with Disabilities and Public Health
 - Improved monitoring and tracking;
 - Ability to provide adequate and efficient documentation of services and referrals
 - Improved system response time and ease of use
 - Improved accuracy and completeness of client case forecasting using on-line session statistical data
 - Improved accuracy of federal and state reporting by capture of essential reporting criteria and data
 - Improved data accuracy due to reduction of repetitive and duplicative data entry
 - Reduced response time and risk of implementing new policies, legislative mandates, business rules and operational changes, and time and cost to implement federal guidelines through standardized development protocols
 - Reduced technology response time to code policy changes and legislative mandates
 - Improved security to bring DHS into compliance with state and federal requirements

5. Reducing internal process complexity for staff and managers:

- Increased accuracy of forecasting for DHS budget allowances
- Increased accuracy of benefit level determination resulting in reduced overpayments

6. Improving program information for DHS management:

- More efficient data and program support for service programs and federal grant programs
- Ability to provide information needed to improve performance, increase efficiency and deploy limited resources more effectively, supporting integrity, stewardship and responsibility
- Comprehensive service statistics including accuracy, timeliness and performance in meeting key outcome goals
- Information across program services assisting resource allocation, budgeting processes and legislative requests
-

7. Enabling and supporting strategic initiatives, and meeting DHS infrastructure needs:

- Aligned technology systems and support for CAF needs
- Aligned to the DHS technology roadmap
- Aligned to industry-standards and best-practices
- Aligned to the principles of code re-use and service oriented architecture principles
- Reduced system and procedure complexity
- Reduced number of technology platforms and interfaces, and reduced development and testing time for system changes
- Technologies with sustainable architecture
- Transition planning and training to transform the skills of current maintenance and development staff from obsolete technologies to current technology skill sets

- Improved ability to hire technical staff that have the skill sets needed to make system modifications

As underlying technology shifts to a modular architecture, changes to application systems in response to legislative rule changes will be easier to develop, test and implement. This change will lead to long-term improvements in technology support efficiency and effectiveness. These improvements will provide caseworkers more time to focus on improving the accuracy, timeliness and quality of the support they provide to Oregonians in need.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

Modernization of business service delivery coordinated with dynamic technology solutions will allow DHS to serve Oregon citizens more effectively and assist them on their path to become independent, healthy and safe. Improved access to data will help program administrators, management and supervisors improve performance, identify outcomes accurately and deploy limited resources more effectively. These solutions help serve Oregon’s most vulnerable populations.

4. IS THIS POP TIED TO A DHS or OHA PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS and OHA MEASURE THE SUCCESS OF THIS POP?

This POP directly supports the following DHS Key Performance Measures:

- #4 – SNAP UTILIZATION: The ratio of Oregonians served by SMAP to the number of low-income Oregonians.
- #5 – SNAP ACCURACY: The percentage of accurate SNAP payments.
- #17 – CUSTOMER SERVICE: Percentage of DHS customers rating their satisfaction with the agency’s customer service as “good” or “excellent.”

The following performance measures also will be supported through this POP:

- Percentage of accurate payments

- Percentage of total client applications submitted online
- Utilization rate for caseworker tools

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No statutory changes are required.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

DHS procured enterprise-class Oracle software solution in 2011 which serves as the foundation for modernization and delivery of expanded technology capabilities. A brief summary of options is listed below:

1. Expand and enhance current systems.

Neither feasible nor cost effective.

2. Purchase or transfer a comprehensive self sufficiency system solution secure system integrator capabilities to support implementation.

This approach establishes an on-going dependency on a system integrator for long term system support which is very expensive over time.

3. Purchase an enterprise solution set with the flexibility to configure to Oregon needs without the long-term support of a system integrator.

Oregon has chosen and is actively using this is the approach which is providing a high level of flexibility, relatively quick to market implementation and the benefits of a sustainable technology solution highly applicable for enterprise level use.

4. Custom develop a comprehensive new self sufficiency system.

This alternative was used to deliver some interim capabilities while determining the best overall solution to

support eligibility needs and serve as an enterprise level foundation for other technology and business transformation. Custom developed solutions are expensive to develop and costly to maintain over time. It is also virtually impossible to keep custom applications up with technology progress and is challenging to establish solutions robust enough to serve as enterprise class platforms.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Not funding this package will compromise Oregon’s ability to meet client needs as efforts to realize a full case management system, enable retirement of existing system which are now at high risk of catastrophic failure and will prevent DHS from transforming its service delivery model to one that can improve its service capabilities without continued increases in the cost of providing those services. The result will be compromises and heightened risk to client safety and wellbeing, along with diminished case workers ability to serve them as the population at risk increases. Oregon’s ability to support Health Care Reform requirements will also be compromised. Investments made to date will not leveraged without integration.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

A number of agencies will be affected by the approval of this POP. These include:

- AAA Community Partners – improved access to solutions, data and reporting for services to Senior Citizens
- Oregon Employment Department – improved access to data and reporting for Employment Related Daycare hearings
- Oregon Department of Justice – improved access to data on services to children
- The Commission for the Blind will have access to more timely and accurate statistics of people with vision challenges. This supports better identification of needs and improves services to the vision-impaired

- Children and Families Commission access to improved reporting supports better coordination, community mobilization and coordination among community groups, government agencies, private providers and other parties of programs and initiatives for children 0-18 and their families
- The Economic and Community Development Department will have access to improved reporting. This supports improved investing in human capital and promotes innovation
- Housing and Community Services access to better statistics will result in better forecasting

9. **WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?**

Implementation Date(s): July 1, 2013

End Date (if applicable): June 2017-19 retirement of remaining legacy systems, final migration of solutions to maintenance.

Key assumptions affecting this POP are:

- All QA Vendor and QC Vendor costs are development costs, not maintenance costs
- Unspent COP and limitation will be carried forward into base for funding 2013-15 efforts. This amount is anticipated to range between \$2-4 million.
- Hosting services and costs are accurately estimated
- Hardware, software and hosting services are available and the systems environment supports current versions of technology such as web sphere
- Federal funding will be at 90% for all Medical efforts
- Resources with the necessary skills including project managers and developers will be readily available
- Business partners will have adequate capacity to engage in requirements definition, design review and approval, solution selection and user acceptance testing
- Staffing estimates include a mix of permanent, limited duration positions and consulting services
- Annex facilities will be needed to house the project team

- a. *Will there be new responsibilities for DHS or OHA? Specify which Program Area(s) and describe their new responsibilities.*

For the Department of Human Services: Field service staff will have new data to capture decision points for client benefit applications. There will be a new responsibility for information retrieval and an additional system to manage while the project is in development and being implemented. When technology solution implementation is completed the overall number of system interactions will be reduced and data retrieval improved. DHS Program staff will be responsible for ensuring that rules are communicated timely and input into the Eligibility Automation system to avoid inaccurate benefit determinations.

For the Oregon Health Authority: OIS will have new systems to support including interfaces to other major systems such as MMIS. Until the existing legacy systems are modernized and/or replaced, OIS will be supporting a more significant technology environment on behalf of DHS in terms of both number of systems and complexity.

- b. *Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).*
1. Human Resources – additional hiring for project resources
 2. Information Security/Privacy – additional workload to protect data
 3. Document Management – support management of document workflow
 4. Audit and Consulting
 5. Information Services (computers) – training for maintaining new systems; additional staff until new systems fully implemented and legacy systems sunset
 6. Financial Services (accounting) – additional interfaces and finances, additional accounting costs for COP

7. Facilities – additional space to house project team and contractors, and analysis of the effects of service delivery changes to current field structure of buildings, leases, etc.
8. Contracts and Procurement – additional contracts and amendments
9. Budget, Planning and Analysis – additional budgeting and planning to assess and track project costs
10. DHS Office of Communications – additional communications during development and after as workers learn and share information

c. *Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.*

Clients will have access to benefits through their online accounts. Potential clients will be able to assess programs/service availability online and have improved access options to DHS services.

d. *Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.*

Additional permanent and limited duration positions will be needed within DHS business and OHA: OIS technology areas to effectively develop, manage, and interface with the development and implementation of new technology solutions. Permanent positions within the business are necessary to perform new functions for the business which include: define a business-centric data management strategy, develop new approaches to service delivery from a caseworker/field perspective and to be heavily involved in the core business analytics required to establish master data management, develop Oregon specific rules for eligibility, and long term manage updates and changes to business rules required due to legislative and other policy actions.

Additionally, these resources will function as data stewards which are another new responsibility for the business. New permanent positions are necessary in OIS to support new solutions including the Oracle infrastructure which do not exist today. Business Systems Analysis functions, including documenting requirements, configuring workflow and managing workflow changes in Oracle are new roles and

responsibilities which do not exist today. The BSAs are also responsible for creating test plans, test scripts and managing and facilitating the testing process for initial solution implementation and on-going enhancements. These resources will work in concert with existing staff, contractors and integration vendor consultants in the development and planning efforts and will shoulder the on-going support within the business and technology areas into perpetuity.

Permanent Positions	Strategy	Type
<u>Business Analysis (DHS program)</u> Four (4) Administrative Specialist 2 One (1) Electronic Pub Design Spec 3 One (1) Procurement & Contract Spec 1 Two (2) OPA3 Business Analysts One (1) OPA1 Business Analysts Four (4) OPA4 Business Analysts One (1) PEME Manager	Create permanent position authority and on-going funding within the DHS program area.	Permanent

- e. *What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?*

Start up costs for DHS Modernization include SDC services, system development, consulting services, software licensing and training.

Start-up Cost Estimates

SDC Services	\$1,500,000
Consulting Services - Oracle consulting services - Insight into National trends, solutions, etc	\$20,000,000 \$500,000
Oracle support costs for On Demand, software, Exa services and Exa software (represents DHS Modernization share of total cost) Oracle Software Support for Siebel, and Tech (\$1,122,328) Oracle Exa Software TX (\$333,333) Oracle Exa Hardware Support TX (\$28,166) Oracle Exa Software Support UT (\$297,297) Oracle Exa Hardware Support UT (\$253,353) Peoplesoft Support (\$263,145) On Demand Support (4,925,077) Subtotal \$7,222,699	\$7,222,699
Training	\$500,000
Start-up Costs	\$29,722,699

f. *What are the ongoing costs?*

On-going costs for DHS Modernization are for SDC costs and software licensing. When existing mainframe solutions are retired at end of 2015-17 biennium there is potential for reduction in SDC costs. Additional staff to support the releases of the systems are required throughout the development lifecycle. Permanent position authority and funding will be needed in OIS to support the new technology solutions which replace manual, paper-driven processes.

On-Going Cost Estimates

Oracle support costs for On Demand, software, Exa services and Exa software (represents DHS Modernization share of total cost) Oracle Software Support for Siebel, and Tech (\$1,122,328) Oracle Exa Software TX (\$333,333) Oracle Exa Hardware Support TX (\$28,166) Oracle Exa Software Support UT (\$297,297) Oracle Exa Hardware Support UT (\$253,353) Peoplesoft Support (\$263,145) On Demand Support (4,925,077) Subtotal \$7,222,699	\$7,222,699
Training	\$300,000
Debt Service	878,597
On-Going Costs	\$8,401,296

g. *What are the potential savings?*

Anticipated savings include improved client access; streamlined client benefit application capabilities; automation of eligibility determination; and increased accuracy of client benefit placement which will leverage federal dollars more effectively and potentially result in tangible savings of state funds. System support is expected to be more efficient as the self sufficiency technology shifts from the complex, aging

solutions environment in place today to a modern, streamlined non-duplicative one. Technology improvements are expected to enable caseworkers to focus on client services, supporting Oregon citizens toward the goal of being independent, healthy and safe.

Caseworker productivity is anticipated to benefit as a result of decreased manual, duplicate data entry, automation of manual processes and complex business rules for program eligibility determination and case management functions. Future caseload related staff workload based modeling will incorporate changes to work model resulting from these efforts. Benefits to OIS will result from decreased time to market for development and implementation of technology solutions. Reduced testing cycles and increased product quality are other benefits of the technology shift.

Potential savings associated with implementation of a modernized self sufficiency system include:

- i. Reduced data storage costs due to consolidation of duplicate data from disparate systems
- ii. Reduced data security costs and risks due to data consolidation in the data warehouse
- iii. Reduced number of batch jobs due to integration of two major self sufficiency systems into one
- iv. Reduced number of distributed servers due to technology streamlining sunset of side-systems
- v. Reduced number of reports needed to support the field, reduces State Data Center processing costs
- vi. Cost avoidance due to increased accuracy and reduced over payments

h. Based on these answers, is there a fiscal impact?

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Office of Self Sufficiency Programs
Program Name: Child care Program
Policy Option Package Initiative:
Policy Option Package Title: Increase the Employment Related Day Care (ERDC) caseload cap
Policy Option Package Number: 105-1
Related Legislation:
Program Funding Team: Education

**Summary
Statement:**

DHS proposes continuing two eligibility limitations set to expire at the end of 2011-13 in order to increase the biennial monthly average caseload from 8,500 to over 9,000. This budget also includes a General Fund backfill of one time revenues used in 2011-13. This proposal expands opportunities for low-income parents to access child care subsidies and strengthens training for providers in support of positive child development.

DHS, in collaboration with the Oregon Department of Employment's Child Care Division, will leverage the existing Head Start contracted child care and expand through a field test to Oregon Program of Quality providers. The key goals of the field test are for children to have access to continuous quality child care and for providers to have stable funding. A statewide research team will be engaged to evaluate the field test. The field test for expanding contracted child care is related to priorities set by the Governor and the state's new Early Learning Council to better prepare children for kindergarten and beyond. DHS is engaged in this work and is building stronger collaborations with other agencies and partners to integrate our ERDC program with the state's early learning system. Guiding more of our providers through the Oregon Program of Quality will be a priority.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$6,900,000	\$0	\$0	\$6,900,000

1. **WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?** The ERDC caseload is currently capped at 8,500. This policy option would increase the ERDC caseload cap to allow more low income working families to access high-quality child care.

2. **WHY DOES DHS PROPOSE THIS POP?** ERDC helps very low income working families from a variety of cultural and linguistic backgrounds arrange and pay for quality child care. Stable high-quality child care contributes positive outcomes to early childhood development and school readiness. To be eligible for the program, a family’s income must be less than 185 percent of the 2012 Federal Poverty Level. For a family of three, this amounts to \$2,944 gross income per month. ERDC and families share the cost of child care. Families choose their child care provider and ERDC pays the provider directly for the State portion of the payment. The amount ERDC pays is based on the type of care and hours needed. Families pay a portion, called a copayment, of the child care bill. The copayment is based on a sliding scale depending on the family income and size. As the family’s income increases, the parent’s share of the child care cost increases while still remaining affordable. Currently, the ERDC program serves less than 20 percent of eligible Oregon families. This POP would allow more low income working families to receive ERDC. The ERDC program is a vital support that helps parents stay employed and gain self sufficiency. Providers employed by ERDC clients are contributing members to local economies throughout the state.

3. **HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?** Child care that supports children’s development, especially in the early years, helps children succeed in school and better prepares them for their future. Early learning opportunities for children are generally provided for by the parents. Access to quality child care for low-income families is important so that their children also have the same

opportunities to develop cognitive, social, emotional and behavioral skills to be ready for school. Low-income families are faced with difficult choices when it comes to child care expenses. They may rely on an older sibling, or a variety of family or friends. This may lead to inconsistent or unstable care that interferes with the employment of the parent. Research shows that ERDC is critical in helping low-income families maintain employment. The Governor's Early Learning Council (ELC) embraces the importance of investing in measureable, progressive quality child care.

4. **IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?** Yes, this is tied to the access to quality child care performance measure and aligns with the goals of the Early Learning Council.

5. **DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? No IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.**

6. **WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?** N/A

7. **WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?** If families are not able to receive ERDC supports they may not be able to access quality child care and maintain employment. This may lead to instability in the family and may cause them to access other more costly services. Child care providers may also be affected as more parents are unable to pay for child care.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Oregon Employment Department as the lead agency for CCDF would be affected because this reduces the amount of state expenditures that count toward MOE.

The following Child Care stakeholders, and advocate groups would be in support of this policy option package: Children First, Oregon Association for the Education of Young Children, One Voice for Child Care, Children’s Institute, Oregon ASK, Oregon Community Foundation, child care providers and provider unions – AFSCME (American Federation of State, County and Municipal Employees) and SEIU (Service Employees International Union), Head Start and Oregon Child Care Resource and Referrals. The Oregon Employment Department Child Care Division also supports increasing the ERDC caseload cap.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP? The pricing of this POP is based on the Spring 2012 forecasted cost per case.

Implementation Date(s): Immediate upon passage

End Date (if applicable): Ongoing

a. Will there be new responsibilities for DHS? No Specify which Program Area(s) and describe their new responsibilities.

b. Will there be new administrative impacts sufficient to require additional funding? No Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be

affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).

- c. Will there be changes to client caseloads or services provided to population groups? No
Specify how many in each relevant program.**

- d. Will it take new staff or will existing positions be modified? No For each classification, list the number of positions and the number of months the positions will work in each biennium.
Specify if the positions are permanent, limited duration or temporary.**

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Child Welfare Programs
Program Name: Adoption Services
Policy Option Package Initiative:
Policy Option Package Title: Post Adoption Program Buyback
Policy Option Package Number: 106-1
Related Legislation: Not applicable
Program Funding Team: Safety

Summary Statement:

DHS's post adoption services program provides services to adoptive and guardianship families who provide permanent homes for DHS children. These services enhance the stability and functioning of Oregon adoptive and guardianship families and their children through the provision of a support network that includes information and referral services, consultation services in response to imminent and current adoptive family crises, support groups, and training. In the federal fiscal year ending September, 2011, the post adoption services contractor (ORPARC) provided 1,619 initial and follow up contacts with families, 34 reported crisis or disruption related services, and training to 718 individuals. Families who adopt special needs children must have adequate and competent support to help sustain their placements. The funding for post adoption services was eliminated in the 2011-13 budgets. The department was able to maintain the program using federal Adoption Incentive money which is not available after this biennium.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$108,480	\$0	\$325,439	\$433,919

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

Post adoption services will end on June 30, 2013 without a policy option package. This POP will allow us to continue our contract with ORPARC for post adoption and guardianship services for families who provide permanency to 12,000 Oregon DHS children.

2. WHY DOES DHS PROPOSE THIS POP?

Most adopted children, because they suffered early deprivation or maltreatment, come to their new families with elevated risks for developmental, physical, psychological, emotional, or behavioral challenges. The issues and dynamics present in these permanent placements are often not understood by adoptive parents or the professionals they contact, or the families understand the issues but still struggle to meet the demands of parenting very high needs and challenging children. Post adoption services provides information and referral, education and training, support groups, mentoring, advocacy, and crisis intervention. Crisis intervention is a crucial part of this service in keeping these families intact. Allowing post adoption and guardianship services to expire is first a potential disincentive for families to adopt or become guardians of special needs children because families will know that the supports they receive in foster care will end with adoption or guardianship. It will also potentially increase the number of children returning to foster care or residential treatment because families in crisis will be unable to receive the support and advocacy they need within their homes. The 1,619 initial and follow up contacts received in a one year period by the post adoption services program will be deferred to branch offices who neither have the staff to respond, nor the expertise and competency to provide the needed level of services and advocacy for these families.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

Safe and equitable reduction of children in foster care is a primary goal of the Office of Child Welfare Programs within DHS. Post adoption services provide incentives to get children out of foster care and to keep children in permanent homes once they get there.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

Yes, this POP is tied to two key performance measures. Timeliness of Adoptions; exits to adoption in less than 24 months, and Timely Adoptions; the median number of months from date of latest removal from home to finalized adoption. The availability of post adoption services can help families make decisions towards adoption or guardianship and once a child is placed can help avoid disruption and lead to quicker finalizations.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

Alternatives to consider other than the POP are to absorb the workload with existing field casework staff and to train existing field casework staff on the complexities of working with these families. The reasons for rejecting these alternatives are the already existing high caseloads for caseworkers and the time and costliness of developing their post adoption services competency.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

The volume of contacts made to ORPARC will be deferred to either branch offices or to the adoption/guardianship coordinators in central office in order for families to get the information, referral, advocacy, and crisis intervention services they need to support their children. There will not be the level of competency, service delivery and advocacy that are currently provided by ORPARC staff who are experts in post adoption and guardianship family dynamics. Adverse effects of not funding the POP could include a disincentive to provide permanency for high special needs children, and more children returning to substitute care from permanent placements.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Private adoption agencies that place DHS children and Oregon Tribes would be affected by this POP. Families studied by private agencies and Tribes are eligible for ORPARC services for the DHS children that they adopt or provide guardianship for.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Foster or residential care rates would likely increase with more children adopted or in guardianships re-entering substitute care because families cannot get the crisis intervention they now rely on. Preventing only a small number of children re-entering DHS care makes this POP cost effective.

Implementation Date(s): July 1, 2013

End Date (if applicable): _____

a. Will there be new responsibilities for DHS? Specify which Program Area(s) and describe their new responsibilities.

No.

b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).

No

c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.

No

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
This POP will prevent an elimination of a program rather than adding a new one so no new staff or existing positions will be required if implemented.
- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**
None
- f. What are the ongoing costs?**
IV-B, part 2 funds
- g. What are the potential savings?**
- h. Based on these answers, is there a fiscal impact?**

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Child Welfare Programs
Program Name: Child Welfare Program Delivery
Policy Option Package Initiative:
Policy Option Package Title: Differential Response Positions
Policy Option Package Number: 106-2
Related Legislation: not applicable
Program Funding Team: Safety

Summary
Statement:

Every family receives a comprehensive assessment when contacted by Child Welfare. Differential response is a design for child welfare intervention that allows for more than one way of responding to reports of suspected child abuse or neglect. Adding differential response allows greater flexibility for an earlier and more collaborative process of addressing families' needs. Differential Response evolved out of the growing understanding that not all families are well served through the traditional response that relies on a disposition and identification of the perpetrator of the abuse. The traditional Child Protective Services response is used for the higher risk cases where significant state intervention is needed. Differential response allows for a focus on engaging the family in the identification of stressors that led to their children being unsafe in the first place. This will provide a better connection for families with culturally specific community based services that may prevent further contact with the Child Welfare System. It also provides for a reconnection of the family to their community. Differentiating the front door of Child Welfare has been found in other states to reduce the number of children entering the foster care system.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$23,563,050	\$2,645,376	\$13,852,169	\$40,060,595

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

The overall CW staffing level is projected to only move from 70.1% to 73.3% of need in 2013-15. The request for additional staff is to address workload concerns and to support the implementation of Differential Response as directed by the 2011-13 Legislative session. The safety of children depends on an appropriate staffing level within Child Welfare which allows for proper assessment of need, provision of service, follow-up on compliance and connection to resources within communities. This initiative will increase the overall number of Child Welfare staff to 80% of need over the 2013-15 biennium ensuring that children who are at risk of abuse and/or neglect receive appropriate services to impact safety, stabilization, reunification and permanency.

To reach 80% of need based on the workload model an additional 175 case workers, 57 support staff and 25 Supervisors need to be funded. These positions will be brought in on phases to accommodate the training need and coincide with the roll-out of Differential Response.

2. WHY DOES DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

Appropriate and timely services to children at risk of abuse or neglect are paramount to prevent escalating harm and hasten the ability to reunite or provide permanent families to Oregon children. The additional Child Welfare staff will support appropriate response, address and facilitate implementation of differential response, and support the integrated system goal of:

- Keeping children safely at home
- Increasing and enhancing effective preventive and family reunification services

- Improving the disproportionality of placement and length of stay for African-American and Native American children
- Strengthening partnerships between Child Welfare, community-based organizations, and families.

The expected outcomes of Differential Response and increased staffing are;

- An increased number of children will safely remain at home where possible;
- Parents and/or caregivers will demonstrate improved protective capacities and additional skills in adequately protecting their children by meeting their needs at the end of their service referral;
- Families are connected to timely services that meet their needs and are culturally specific, resulting in increased participation and better outcomes;
- Providers will observe child safety and will identify and respond to changes in family conditions or circumstances that indicate potential safety threats or harm to children, as they emerge;
- Longer periods between incidents without the need for Child Welfare intervention and fewer overall reports of suspected child abuse and/or neglect;
- Increased partnership between Child Welfare and community providers and partners;
- Increased overall worker satisfaction.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

The mission of the Department of Human Services is to help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity. Improvements in the staffing of Child Welfare will

- Directly support people to be safe and live as independently as possible by providing improved staff resources to provide timely and appropriate services to facilitate children safety and improve outcomes for children to remain at home when possible.
- Improve the ability to provide equal access, service excellence and equity for all through improving the disproportional representation of African-American and Native American children in care along with length of stay.

- Support strong community and business relationships by increasing partnering with communities to support families and children, within their communities, to be safe. This is achieved by addressing resources for parents as needed either directly or through referral.
- Retain a highly qualified, effective and valued workforce. Currently the workload greatly exceeds the ability to provide an effective service and is affecting our staff ability to remain employed.

4. IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?

Child re-abuse rate

Number of Children in Foster Care

Number of Children receiving In-Home services

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No change in existing statute is required

No new statute is required.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The only alternative is to not increase the number of Child Welfare staff available to implement the Differential Response system and to remain grossly understaffed. This alternative and not fully implementing Differential Response will result in continued risk to children.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

By not funding this POP, we will expect to see an increase in the number of Oregon children that come into and/or remain in foster care. Additionally, the system of Differential Response will not be adequately funded and the expected outcomes not achieved.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

None known at this time

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

- In-Home caseload will increase overtime (could be closer to the end of the biennium)
- Sub-care caseload will decrease overtime (could be closer to the end of the biennium)
- Training has the capacity to adequately train staff as they come on board
- Differential Response plan will be delivered and approach will be accepted
- Engagement of the community and partners will be successful
- Current case staffing is maintained
- Vacancy fill rate of 100% for SSS1's is maintained
- DHS meets the requirements of HB 4131 enabling the filling of supervisor positions to support the SSS1's

Implementation Date(s):

- October 1, 2013 (1st stage of hiring);
- January 1, 2014 (2nd stage of hiring);
- July 1, 2014 (3rd stage of hiring)

End Date (if applicable): Ongoing

a. **Will there be new responsibilities for Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.**

b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**

Additional computers would be necessary to ensure staff have tools necessary to perform duties, facility costs may be impacted to guarantee staff have place to perform work (depending on service delivery models), desk chairs and basic office equipment would be required.

c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

Additional staff will support the efforts of safely retaining or returning children to their home, an expected caseload factor will be a shift from sub-care to in-home care. There is an expected increase in workload time associated with conducting screening and assessments.

d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

This will take new staff:

- Case worker (SSS1) - 175 positions
- Supervisor (PEMC) - 25 positions
- Support staff (OS2) - 57 positions
- Accounting Technician 3 - 1 position
- Accountant 4 - 2 positions

- Human Resource Analyst 3 - 1 position
- Info Systems Specialist 6 - 3 positions
- Info Systems Specialist 7 - 5 positions
- Info Systems Specialist 8 - 2 positions
- Operations Policy Analyst 3 - 8 positions
- Operations Policy Analyst 4 - 2 positions

Total – 281 positions

e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?

Bandwidth must be able to support additional staff in field offices

Some offices may require additional space

PSU will need to add 6 case worker cohort sessions and 1 supervisor cohort

Computer and basic office equipment will be required (including chairs)

Some staff will require blackberries or equivalent (if in assessment)

f. What are the ongoing costs?

Travel for training (will be an increase in overall budget)

Phone equipment

g. What are the potential savings?

Reduction in sub-care but increase in the In-home caseload (not aware of an overall decrease)

h. Based on these answers, is there a fiscal impact?

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Child Welfare Programs
Program Name: Child Welfare Program Delivery
Policy Option Package Initiative:
Policy Option Package Title: Indian Child Welfare Act (ICWA) 25 Positions
Policy Option Package Number: 106-3
Related Legislation: Not Applicable
Program Funding Team: Safety

Summary
Statement:

The current Child Welfare caseload is higher than prior to the beginning of the biennium. The number of families and children receiving services from Child Welfare, without additional staffing and program resources to meet the need, has affected the department's ability to provide timely, individualized and active efforts. The department has been forced to prioritize services impacting family stability. In addition, the ability of the department to meet federally mandated requirements has also been eroded.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$2,245,746	\$0	\$1,313,170	\$3,558,916

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

The Indian Child Welfare Act (ICWA) requires attainment of active efforts for children receiving services from Child Welfare. Currently all cases are required by the federal government to receive reasonable efforts to qualify for federal funds, however both state and federal law requires active efforts of Native American children due to historical experience of Native American children in Child Welfare systems across the Country. Active efforts are distinguished from reasonable efforts by the additional effort necessary to ensure compliance, understanding and culturally specific experiences through increased:

- Face to face contact;
- Coordination of services so it doesn't fall solely on the parent;
- Hands on service provision; efforts to provide services which are culturally specific;
- Efforts to ensure children in care receive cultural experience opportunities to remain connected with their culture; and
- Efforts to remove barriers for parents to fully access services.

This initiative provides necessary resources to help the department to achieve better outcomes for the Native American populations being served by Child Welfare through active efforts. Failure to provide active efforts can result in loss of federal funding.

The workload model does not account for staff working at the level of Active Effort (AE) for ICWA cases which is projected to be 25% additional work effort per case to meet this standard.

2. WHY DOES DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

Through coordinated partnerships with the Tribes in the State of Oregon, the Department of Human Services Child Welfare have identified a need to increase active efforts for Native American children and families to further support compliance with state and federal law.

This request will provide the resources to support increased face to face contact and coordination of services so it doesn't fall solely on the parent. It will support more hands on provision of services and efforts to provide culturally specific services and experiences for Native American children and families.

Expected results are to positively affect the length and quality of stay for Native American children when they are removed from their family homes and to positively affect those who can be safely retained in their family homes without the need for further intervention.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS? HOW DOES THIS FURTHER THE PROGRAM FUNDING TEAM OUTCOMES OR STRATEGIES?

The mission of the Department of Human Services is to help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity. Improvements in the staffing of Child Welfare to better achieve Active Efforts for Native American children and families will:

- Directly support people to be safe and live as independently as possible by providing improved staff resources to provide timely and appropriate services to meet active efforts and improve outcomes for children to remain at home when possible.
- Improve the ability to provide equal access, service excellence and equity for all through improving the disproportional representation of African-American and Native American children in care along with length of stay.
- Support strong community and business relationships by increasing partnering with communities to support families and children, within their communities, to be safe. This is achieved by addressing resources for parents as needed either directly or through referral.
- Retain a highly qualified, effective and valued workforce. Currently the workload greatly exceeds the ability to provide an effective service and is affecting our staff ability to remain employed.

4. IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No known statute changes required

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

Not increasing resources to better achieve active efforts. This would be staying status quo as we have for several years and further impacting disproportionately Native American Children.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Oregon can lose federal funding for not meeting active efforts which could have a cost potentially higher than the investment to assure active efforts can be met.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

There will be a positive impact to Tribal agencies when the expected outcomes are achieved of positively impacting the length and quality of stay for Native American children in out of home care.

9. WHAT OTHER AGENCIES, PROGRAMS or STAKEHOLDERS ARE COLLABORATING ON THIS POP?

The Statewide ICWA council have reviewed the need for better achieving active efforts, have encouraged this initiative and support the request moving forward.

10. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

These positions will be focused specifically on ICWA only

Specific training is available for these positions regarding active efforts and ICWA

Service costs may increase due to added efforts to meet active efforts requirements

Length of stay for Native American children will decrease eventually (not likely in 2013-15 biennium).

Implementation Date(s): January 1, 2014

End Date (if applicable): Ongoing

a. Will there be new responsibilities for Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.

b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (pages 12-13).
Additional computers would be necessary to ensure staff have tools necessary to perform duties, facility costs may be impacted to guarantee staff have place to perform work (depending on service delivery models), desk chairs and basic office equipment would be required.

c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.

It will take some time to have an impact, however eventually the length of stay for Native American ICWA children will be reduced.

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

This initiative requires New staff phased in for 2013-15 as noted below:

- Caseworker (SSS1): 22 positions at 18 months
- Supervisory (PEMC): 3 positions at 18 months

Future biennia: all positions will be 24 months

- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

Bandwidth must be able to support additional staff in field offices

Some offices may require additional space

PSU will need to add 1 caseworker cohort training session

Computer and basic office equipment will be required (including chairs)

- f. What are the ongoing costs?**

Travel for training (will be an increase in overall budget)

Phone equipment

- g. What are the potential savings?**

None quantifiable in the 2013-15 biennium

- h. Based on these answers, is there a fiscal impact?**

2013-15 Policy Option Package

<u>Agency Name:</u>	Department of Human Services
<u>Program Area Name:</u>	Child Welfare Programs
<u>Program Name:</u>	Child Welfare Program Delivery
<u>Policy Option Package Initiative:</u>	
<u>Policy Option Package Title:</u>	Indian Child Welfare Act (ICWA) Shift Differential
<u>Policy Option Package Number:</u>	106-4
<u>Related Legislation:</u>	not applicable
<u>Program Funding Team:</u>	Safety

Summary
Statement:

Case workers who liaison with Oregon Tribes have additional responsibilities and are required to have a unique set of skills and abilities to do so. There are federal and state laws that protect discrimination of Native Americans in the Child Welfare system. These laws are called the Indian Child Welfare Act (ICWA). They require additional efforts when working with children in child welfare who are affiliated with a tribe resulting in better outcomes for children and families.

This strategic initiative creates a 5% salary differential for workers who carry this additional responsibility and helps retain these workers with the necessary skills and abilities. These additional efforts must be verified by the court and a failure by the Department to achieve the required efforts as established by law can result in a loss of federal funding. We would also increase case management staff to allow for reduced caseloads for workers carrying ICWA cases based on the increased case activity.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option</u> <u>Package Pricing:</u>	\$83,202	\$0	\$83,202	\$166,404

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

The Indian Child Welfare Act (ICWA) requires attainment of active efforts for children receiving services from Child Welfare. Currently all cases are required by the federal government to receive reasonable efforts to qualify for federal funds, however both state and federal law requires active efforts of Native American children due to historical experience of Native American children in Child Welfare systems across the Country. Active efforts are distinguished from reasonable efforts by the additional effort necessary to ensure compliance, understanding and culturally specific experiences through increased:

- Face to face contact;

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Child Welfare Programs
Program Name: Child Welfare Program Delivery & Design
Policy Option Package Initiative:
Policy Option Package Title: Title IV-E Foster Care Eligibility Rate
Policy Option Package Number: 106-6
Related Legislation: Not Applicable
Program Funding Team: Safety

Summary
Statement:

Department of Human Services must change their formula for calculating the Title IV-E eligibility rate which would create an \$11 million loss of federal revenue. With three additional policy analyst in the Federal Advocacy and Integrity unit, Child Welfare could increase their Title IV-E eligibility rate. For each 1% the eligibility rate is increased the federal revenue loss will be reduced by \$2 million. The goal is to achieve a 5.9% eligibility increase, which would offset POP position request as well as cover the loss of Federal Fund revenue.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$11,302,586	\$3,063	(\$10,767,521)	\$538,128

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

In April 2012, the Administration for Children and Families' clarified how states are to calculate their foster care Title IV-E eligibility rates. As a result, Child Welfare must correct the formula used to calculate its eligibility rate. By correcting the formula, it is estimated that Child Welfare will lose \$11 million in federal funds per biennium. These funds are used to pay Child Welfare and Central Services administrative costs, paid through a cost allocation methodology.

Add three Operations and Policy Analyst 2 positions to the Federal Advocacy and Integrity unit.

2. WHY DOES DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

The three additional analysts are needed to mitigate the potential reduction of \$11 million in federal funds. The three additional analysts would be responsible for working with the Title IV-E eligibility specialists in the field to clean up approximately 800 pended cases and develop processes and procedures to ensure timely determinations of Title IV-E eligibility. The goal is to increase the eligibility rate by 5.5% to mitigate the loss of \$11 in million federal funds. An increase of just 1% reduces the loss by \$2 million in federal funds (per biennium). On-going duties would include training, technical assistance, monitoring and quality assurance of all Child Welfare federal eligibility programs (Title XIX, TANF-EA and Targeted Case Management). The main responsibility of these positions will be to improve and maintain the eligibility rates for Title IV-E, Title XIX, TANF-EA and documentation of Targeted Case Management to maximize federal reimbursement for Child Welfare programs.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

Without these positions the Office of Child Welfare Program would be unable to meet two of the Financial Breakthrough goals for 2012 and 2013. These goals are:

- Federal funds increased thru increased eligibility percentages.
- Financial program integrity is improved.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

It’s related to the NOW Fundamentals Outcome Measurement of O6 – Fiscally Responsible. With a significant loss of federal funds the ability to control spending and balance the budget would be negatively impacted.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

Using existing staff to try and mitigate this significant change. That wasn’t feasible due to current staffing level and would greatly delay the ability to complete the tasks, which would prolong the number of months Child Welfare would have a low Title IV-E eligibility rate.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Department of Human Services would lose \$11 million in Title IV-E federal funding.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Citizen Review Board (CRB) and soon to be Court Appointed Special Advocate (CASA) agencies would be impacted by a reduction in Title IV-E eligibility rate. CRB receives Title IV-E reimbursement for administrative costs associated with completing six month administrative reviews. CASA will receive Title IV-E reimbursement for the costs of providing and attending training related to Child Welfare practice. The Title IV-E eligibility rate is part of the calculation for reimbursement and would amount of reimbursement would be reduced equally.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): _____

End Date (if applicable): _____

- a. **Will there be new responsibilities for DHS? None Specify which Program Area(s) and describe their new responsibilities.**

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).** Computers, phones and desk space will need to be provided at the Human Services Building.

- c. **Will there be changes to client caseloads or services provided to population groups? No Specify how many in each relevant program.**

- d. **Will it take new staff or will existing positions be modified? It will take new staff. For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
3 OPA2 positions, 24 months per biennium as a permanent employee.

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training? New computers and phones.**

- f. **What are the ongoing costs?**

- g. **What are the potential savings?**

- h. **Based on these answers, is there a fiscal impact? No, fiscal impact because these are considered federal revenue generating positions. As stated above, a 1% increase in Title IV-E eligibility rate will increase the federal reimbursement by \$2 million a biennium.**

The goal is to achieve a 5.9% eligibility increase, which would offset POP position request as well as cover the loss of Federal Fund revenue.

Summary
Statement:

DHS is proposing an increase of five Client Care Surveyor staff to ensure that care and safety of the vulnerable residents in nursing homes and assisted living facilities one Client Care Surveyor to ensure safety for people with developmental disabilities and one to ensure the safety of children in residential facilities. The client care surveyor is part of a team which surveys facilities to certify they are meeting requirements set by federal regulation, state law, and state rule, as well as CMS conditions of participation in the Medicare and Medicaid programs. Surveys are mandate by CMS to be completed on average every 12.9 months with no facility going beyond 15.9 months. Vulnerable residents are put at risk without regular monitoring systems in place and implemented. These survey systems ensure residents are safe and cared for in a quality manner.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$90,793	\$0	\$90,230	\$181,023

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This proposal adds five Client Care Survey staff for nursing facilities and assisted living facilities, one for developmental disabilities facilities and one for children’s facilities. The additional staffing positions would allow the agency to keep up with current position vacancies by allowing lead-time for training. It currently takes approximately one year to hire and train a Client Care Surveyor for the field. Without gaining additional staffing levels in this area, the agency cannot adequately replace positions which have been vacated in order to meet requirements set by federal regulation, state law, and state rule, as well as CMS conditions of participation in the Medicare and Medicaid programs.

2. WHY DOES DHS PROPOSE THIS POP?

DHS is mandated to meet requirements set by federal regulation, state law, and state rule, as well as CMS conditions of participation in the Medicare and Medicaid programs. Client Care Surveyors are an essential part of meeting these requirements.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

This proposal ties directly to the DHS mission of ensuring people are safe and living independently as possible as it increases safety assurance.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

Alternatives would be an increase in time between survey visits or a decrease in staff training time required for new survey staff. Both of these options prevent DHS from meeting the federal requirements for survey completion and resident safety.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Not funding this policy package would continue to put vulnerable residents in DD and nursing and assisted living facilities at risk. The training time required for a new Client Care Survey person is one year. Without gaining additional staffing levels in this area, the agency cannot adequately replace positions which have been vacated in order to meet requirements set by federal regulation, state law, and state rule, as well as CMS conditions of participation in the Medicare and Medicaid programs.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

None.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): _____

End Date (if applicable): _____

- a. **Will there be new responsibilities for (AGENCY NAME)? Specify which Program Area(s) and describe their new responsibilities.**
- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**
None.
- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**
None.
- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
Five Client Care Surveyors for nursing and assisted living facilities
One Client Care Surveyor for developmental disabilities facilities
One Client Care Surveyor for children's residential facilities
- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**
No.
- f. **What are the ongoing costs?**
Future salaries for permanent positions

g. What are the potential savings?
n/a

h. Based on these answers, is there a fiscal impact?
Yes.

2013-15 Policy Option Package

Agency Name: Aging and People with Disabilities
Program Area Name: Advocacy and Development Unit
Program Name: Medicaid Funded Long-Term Care Services/Older Americans Act Services

Policy Option Package Initiative: APD Innovations and Pilots Initiative
Policy Option Package Title: APD Innovations and Pilots Initiative
Policy Option Package Number: 108-01
Related Legislation:
Program Funding Team: Healthy People

Summary Statement:

This POP supports research and development account funding for innovations and piloting new approaches to long term care services. Initiatives will serve Medicaid, pre-Medicaid and non-Medicaid populations. Innovations and pilots will be tracked and outcomes measured leading to the statewide adoption and implementation of new evidence-based approaches that increases the efficiency and effectiveness of services. The implementation of successful pilots will re-establish Oregon as a nationwide leader in its field. Currently APD relies on grants which may not be timely or offer options to address key areas of innovation. APD is seeking \$3.2 million GF appropriation for this fund.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$3,200,000	\$0	\$0	\$3,200,000

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This POP funds an APD research and development account to move APD from relying solely on grant based opportunities for innovations in services and service delivery approaches. APD has been hampered in its goals to offer the most comprehensive, consumer-preferred, efficient, cost-efficient services and stay current in the latest developments in its field by a lack of resources needed to test new services and new service delivery options. With funding from this POP, APD envisions that it will be able to support 8-10 pilots over the course of a biennium.

Implementation: Innovative and pilot ideas will be submitted to the APD Advocacy & Development unit for consideration. Pilots may cover a wide range of topics such as prevention, service improvements, use of technology, new methods of coordination, cost savings and others that address the needs of seniors and people with disabilities. An application form has been developed to document ideas to be considered. Staff may assist the concept originator to develop the proposed concept to the point of submission. A process for concept evaluation is being drafted which will include such factors as: relationship to key performance measures, agency goals and mission, stakeholder input, partnerships, budget, timing, sustainability, service equity, proposed outcomes and more. Concepts that emerge as priorities will be implemented upon agency approval.

A key element of all approved pilots will be an evaluation component. Periodic evaluation will be required and will be used to determine if the pilot/idea will proceed as planned. Pilots that meet expected outcomes will be considered for permanent implementation, statewide if applicable. Through this process, APD will be better able to focus its resources on locally tested, successful, evidence-based practices that meet agency goals.

2. WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

DHS is proposing this POP to move the agency forward in exploring innovative ways to meet future needs and demands. This package will well-position the agency to offer evidence-based, effective approaches that are preferred by the populations served by APD. The agency will be engaged in continuous improvement in services and service delivery through a program of testing innovative ideas with potential to address DHS and APD mission and goals as well the triple aim of better health, better health care and lower costs.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

This POP furthers the agency mission and goals as it keeps the agency current with evolving population and individual needs and preferred, evidence-based methods to achieve well-being and enhance independence. In statute, APD is charged with providing individuals with opportunities and choice, working with local partners and committed to service excellence. To meeting its mission and goals, APD must have funds to explore new and continuously test and improve current choices and options available.

410.010 State policy for seniors and people with disabilities. (1) The Legislative Assembly finds and declares that, in keeping with the traditional concept of the inherent dignity of the individual in our democratic society, the older citizens of this state are entitled to enjoy their later years in health, honor and dignity, and citizens with disabilities are entitled to live lives of maximum freedom and independence.

- Mission - To help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity.
- Goals related to seniors and people with disabilities - People are safe and living as independently as possible, People are able to support themselves and their families through stable living wage employment, Choices made by seniors and people with disabilities about their own lives are honored, Partners, clients and stakeholders are actively engaged in a variety of collaborative and meaningful ways. Culturally specific and responsive services are provided by highly qualified and diverse staff. The

department is committed to equal access, service excellence and equity for all Oregonians, Children and youth are safe, well and connected to their families, communities and cultural identities.

- APD Mission: The SPD mission is to make it possible to become independent, healthy and safe. SPD contributes to the DHS mission by helping seniors and people with disabilities of all ages achieve well-being through opportunities for community living, employment, family support and services that promote independence, choice and dignity.

4. IS THIS POP TIED TO AN APD PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL APD MEASURE THE SUCCESS OF THIS POP?

Yes.

The DHS 2011-2013 performance measures include:

10- Access to I& R and I & A- access to accurate and consistent Information & Referral and Information & Assistance for people who are not currently served by SPD.

11- Seniors Living Outside of Nursing Facilities- The percentage of Oregon's seniors receiving SPD long-term care services that are living outside of nursing facilities.

One consideration for the approval of pilots will be the key performance measures. Some pilots will likely target individuals not currently served by APD. Most pilots are likely to support community based rather than nursing facility services.

Another internal APD performance measure is percentage of implemented pilots that yield expected results. This POP would directly support this key APD performance measure as the POP funds the pilots to be measured.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No, no existing statute change is needed.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The agency can continue to rely on identifying and applying for individual grants to support pilots and innovations. Grant funding is competitive, may not be timely or address areas of key interest to the agency so is not a reliable source of funding for continuous improvement and innovation.

Grant funding also may come with additional undesirable burdens, commitments, and lack the flexibility needed to support alternatives in Oregon worth pursuing. As a long-time leader of providing long-term care services at the community level, Oregon is often disadvantaged as other states are encouraged by grants and funding opportunities that assist them with getting to Oregon's current environment: they use grants to catch up to us. Innovative opportunities offered through the national funding lens that move Oregon ahead of our current state are rare. Self-funding new innovative approaches would allow Oregon to continue to progress as leaders providing long-term care services and supports without the undesirable strings that may come from other funding sources.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

The adverse effects of not funding this POP include keeping the agency at the status quo of seeking grant funding as available and having limited funding to support testing innovations that could bring greater consumer satisfaction, more efficiency, save costs and further advance and enhance programs and services consistent with agency mission and values.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Other Department of Human Services programs, the Oregon Health Authority, local governments, consumer advocacy and stakeholder organizations will be affected by this POP as they may be partners in pilots, suggest pilots, and are likely to benefit from the results of successful pilots.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

One assumption affecting the pricing of this POP is that approximately 1 % of the organization's budget is enough to fund promising new ideas.

Implementation Date(s): _____ 7/1/13 _____

End Date (if applicable): _____ 7/1/15 _____

a. Will there be new responsibilities for the Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.

- Advocacy & Development unit- will solicit ideas, participate in and manage the evaluation process, staff pilots and evaluations, report outcomes, recommend next steps, facilitate transition of successful pilots to ongoing practice and wider application as appropriate
- | | |
|--------------------------|--------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> |

b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).

No, pilots will be funded through the POP and other administrative needs will be handled by the agency.

- c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**
Changes to services may occur depending on the pilots. Service changes would likely mean a greater array of service choices and/or services that better (more person centered, lower cost, more efficiently) meet service needs.
- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
Existing staff will cover any needs.
- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**
No additional start – up costs related to the POP are anticipated.
- f. What are the ongoing costs?**
On-going costs are anticipated to be 1 % of the current APD agency budget.
- g. What are the potential savings?**
Potential savings are difficult to quantify at this time but the goal of pilots is to increase efficiency and cost effectiveness and enhance cost avoidance. Estimates of savings will depend on individual projects, their success and statewide application.
- h. Based on these answers, is there a fiscal impact? Yes.**

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging and People with Disabilities
Program Name: Aging and People with Disabilities
Policy Option Package Initiative:
Policy Option Package Title: Home and Community Based Rate Increases
Policy Option Package Number: 108-2
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

This policy option package provides a 2.5% rate increase on 10/1/13 and another 2.5% rate increase on 1/1/15. This rate increase will help align Medicaid reimbursement to keep pace with rising costs and the private pay market ensuring access to Medicaid eligible individuals.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$9,100,000	\$0	\$20,120,628	\$29,220,628

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This policy option package provides a 2.5% rate increase on 10/1/13 and another 2.5% rate increase on 1/1/15.

2. WHY DOES DHS PROPOSE THIS POP?

Home and community based care rates have been flat since 7/1/08. Additionally, Oregon's Medicaid reimbursement has not kept up with costs or with the private pay market. This has been identified repeatedly as a significant risk to access for Medicaid individuals.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

This funding will provide assurance of strong home and community based care access in the 13-15 biennium.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

This POP is tied to key performance measure #11:

“SENIORS LIVING OUTSIDE OF NURSING FACILITIES- The percentage of Oregon's seniors receiving SPD long-term care services who are living outside of nursing facilities”.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

Continuing for another two years without a rate increase. When this biennium ends on 6/30/13, home and community based care rates will be flat for five years. Continuing flat rates is not sustainable and will ultimately threaten Medicaid access as the private pay market improves and will negatively impact the quality of care individuals receive in licensed facilities.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

See above.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

None.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

2.5% increase on 10/1/13 and 2.5% increase on 1/1/15.

Implementation Date(s): _____

End Date (if applicable): _____

a. Will there be new responsibilities for DHS? Specify which Program Area(s) and describe their new responsibilities. No.

b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See

Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document). No.

- c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program. No.**

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary. No.**

- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training? N/A**

- f. What are the ongoing costs?**
Roll-up costs in future biennia.

- g. What are the potential savings?**
Continued decreasing nursing facility caseloads.

- h. Based on these answers, is there a fiscal impact? Yes.**

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging and People with Disabilities
Program Name: Medicaid Long Term Care System
Policy Option Package Initiative:
Policy Option Package Title: Mental Health Enhancement
Policy Option Package Number: 108-3
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

Many seniors and people with disabilities face mental health challenges and barriers to actively engage in their communities and to live healthy and productive lives. Some individuals may suffer from isolation, depression and anxiety. Others suffer from traumatic brain injury, mental illness or dementia. These more extensive conditions often make it difficult to serve the individuals in the current delivery system.

This strategic funding proposal will expand enhanced care and extended care capacity to serve the growing, unmet mental health needs of the senior population. We also are seeking funding that will allow us to transition seniors from the Oregon State Hospital who can have their needs met safely in the community.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$7,300,000	\$0	\$3,433,056	\$10,733,056

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This strategic funding proposal would include four major components:

1. **(Specialized Capacity)** First, this proposal would include funding for 40 additional specialized living slots. This capacity would be used to support APD service eligible individuals who are transitioning from the state hospitals or who have failed traditional APD placements because of violence, inappropriate behaviors or other complications from dementia and/or traumatic brain injury. The funding would also include general funds that APD would transfer to AMH to support expansion of the ECOS program by an additional 40 slots. The ECOS program provides intensive mental health services to Medicaid-eligible seniors and people with disabilities who live in APD funded long term care settings. To support these new programs, prevent people from being admitted to the state hospital and to effectively transition individuals from acute care hospitals and the state hospitals, APD needs specialized staff to assist the individuals with these needs and to support providers in meeting their needs.
2. **(Addressing Depression and Anxiety)** The second part of this proposal is to support people with disabilities and older adults who may be suffering from depression, anxiety and other less severe mental illnesses that respond well to evidenced based early interventions but whose condition is rarely identified and/or treated. The concept would be to provide the Aging and Disability Resource Connection Centers (ADRC) funding to coordinate local mental health evidenced based interventions such as “IMPACT,” “PEARLS,” and other programs that are recommended by the CDC or SAMHSA. This funding would provide services that are not offered in the current mental health system and would not replicate what the CCOs are expected to provide. In addition to providing direct outreach and interventions, the ADRCs would add a new component and train individuals to teach suicide intervention skills to community members, professionals, and first responders in Oregon and educate older adults, families, and other community members about the importance of social connection to a

sense of well-being. APD would update the ADRC website to create a single entry point to link to existing information and resources on Alzheimer's disease, related dementias and mental illness.

3. **(Training and Education)** Local APD and AAA case managers need training in the use of simple screening tools and coaching in the integration of mental health screening into their daily work to be successful. Direct care providers, health professionals and others also need training and support to ensure that older adults and people with disabilities receive the appropriate screenings and interventions. This concept would support efforts to ensure that Oregon's Aging and Disability Resource Connection (ADRC), local case managers and medical professionals serving older adults and their families receive training about dementia and depression and develop clear policies and practices to effectively assist and refer people and their families to appropriate services. This effort would also promote universal depression screening and care for adults, particularly seniors by healthcare providers.

4. **(Community identification and referral system)** – Oregon communities need more Gatekeeper programs that enlist the help of utility workers, law enforcement, postal workers, and other service providers to help identify people in need of support. Currently, Gatekeeper programs are only available in Multnomah, Washington, and Clackamas counties. These programs have a long standing evidenced based record of positive impact.

2. **WHY DOES APD PROPOSE THIS POP?**

Approximately 15% of seniors and people with disabilities over the age of 50 suffer from depression. The rate of suicide among Oregonians has been increasing since 2000. The highest suicide rate in the state is among men ages 85 and over (78.4 per 100,000). Over 70 percent of suicide victims had a diagnosed mental disorder, alcohol and /or substance use problems, or depressed mood at time of death. Despite the high prevalence of mental health problems, less than one third of male victims and just about half of female victims were receiving treatment for mental health problems at the time of death. Between 63% and 90% of depressed older adults go untreated or receive inadequate treatment. Stigma, lack of trained personnel and

social isolation add exceptional barriers to these individuals accessing services that can help improve their quality of life and prevent many of these suicides.

13.9 percent of the individual civilly committed to the state hospital are over the age 65. Approximately 90%, of the cases referred to the Neuropsychiatric units of the state hospitals are because APD is regularly working to serve individuals with complex needs. The current delivery system does not meet the needs of individuals with challenging behaviors or conditions.

These statistics show that depression, anxiety, isolation and untreated mental illness cause significant hardship and trauma to individuals and are extremely costly to the health and human service system. APD's delivery system (AAAs, ADRCs and local field offices) can proactively address many of these issues. Additionally, this proposal supports efforts by the Oregon Health Authority – Addictions and Mental Health Division to develop additional resources for older adults and people with disabilities who need intensive mental health interventions.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

This proposal ties directly to the vision, mission and goals of the department. Helping individuals with depression, anxiety and other conditions helps ensure that they will be safe and healthy. It also will help these individuals be served in the least restrictive setting possible, delay their entry into expensive service settings and help them achieve wellbeing. Without this complete package, suicide rates will continue to be some of the highest in the country and individuals who could be served in the community will be hospitalized.

4. IS THIS POP TIED TO AN APD PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

This proposal does tie to a KPM. “Title: SENIORS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregon’s seniors who are living outside of nursing facilities.” However, APD would also propose reviewing state hospitalization rates and suicide rates for the targeted population to ensure that the enhanced and new programs are impacting these statistics as planned.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

There has been ongoing discussion about the needs of this population. The PHD’s suicide report, the Alzheimer Association’s state plan, the State Hospital Replacement Master plan and national research all say the strategies APD is proposing are critical to improving the quality of life, improving health, and ensure safety of the targeted population.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

People will continue to be hospitalized and their quality of life will be negatively impacted. Untreated conditions drive up costs and force individuals to access services at the most expensive level of care.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Oregon Health Authority - Addictions and Mental Health through the transfer of funds to support expansion of the ECOS system.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Assumptions on Specialized Capacity:

- An additional 40 specialized living slots - \$24,000 (TF) per individual for half; and \$10,207 for half, per month. *Starting in January 2014 with 5 “slots” and increasing to 40 during the biennium.*
- An additional 40 ECOS slots - \$231 (TF) per individual, per day 5 days per week. APD would only be responsible for the GF portion. – *Funding transferred to AMH quarterly as slots are filled. Assume 5 slots per month starting in September 2013 with all slots filled by June 2015.*

Assumptions on Addressing Depression and Anxiety

- \$200,000 (GF) for the biennium for each of the 9 ADRCs - *Starting in September 2013.*

Assumptions on Training/Education and Quality Assurance:

- Training - One \$350,000 contract with outside entity to coordinate training and outreach. *Assume 50/50 match rate*
- QA - One \$75,000 contract with outside entity to evaluate effectiveness of programs. Remaining funding is used for appropriate assessment tools and oversight. *Assume 50/50 match rate*

Assumptions on Gatekeeper Program Expansion:

- Based on the Alzheimer State Plan Gatekeeper programs cost \$200,000 (50/50 Admin rate) per Area Agency on Aging (AAA) per biennium. Seventeen AAAs in Oregon with a 50/50 split. *Starts in September 2013.*

- a. **Will there be new responsibilities for APD? Specify which Program Area(s) and describe their new responsibilities.**

APD – Long Term Care Systems –
Coordinating new prevention/early
intervention strategies

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**

No.

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

These clients are in the APD caseload. However, the current service delivery system does not meet their needs.

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

N/A

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

See above.

f. What are the ongoing costs?

All costs will be ongoing.

g. What are the potential savings?

State hospital and local acute care costs. There may be savings to APD but it is not possible to determine those saving at this time.

h. Based on these answers, is there a fiscal impact? Yes.

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging and People with Disabilities
Program Name: Medicaid Long Term Care System
Policy Option Package Initiative:
Policy Option Package Title: Mental Health Enhancement
Policy Option Package Number: 108-3
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

Many seniors and people with disabilities face mental health challenges and barriers to actively engage in their communities and to live healthy and productive lives. Some individuals may suffer from isolation, depression and anxiety. Others suffer from traumatic brain injury, mental illness or dementia. These more extensive conditions often make it difficult to serve the individuals in the current delivery system.

This strategic funding proposal will expand enhanced care and extended care capacity to serve the growing, unmet mental health needs of the senior population. We also are seeking funding that will allow us to transition seniors from the Oregon State Hospital who can have their needs met safely in the community.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$7,300,000	\$0	\$3,433,056	\$10,733,056

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This strategic funding proposal would include four major components:

1. **(Specialized Capacity)** First, this proposal would include funding for 40 additional specialized living slots. This capacity would be used to support APD service eligible individuals who are transitioning from the state hospitals or who have failed traditional APD placements because of violence, inappropriate behaviors or other complications from dementia and/or traumatic brain injury. The funding would also include general funds that APD would transfer to AMH to support expansion of the ECOS program by an additional 40 slots. The ECOS program provides intensive mental health services to Medicaid-eligible seniors and people with disabilities who live in APD funded long term care settings. To support these new programs, prevent people from being admitted to the state hospital and to effectively transition individuals from acute care hospitals and the state hospitals, APD needs specialized staff to assist the individuals with these needs and to support providers in meeting their needs.
2. **(Addressing Depression and Anxiety)** The second part of this proposal is to support people with disabilities and older adults who may be suffering from depression, anxiety and other less severe mental illnesses that respond well to evidenced based early interventions but whose condition is rarely identified and/or treated. The concept would be to provide the Aging and Disability Resource Connection Centers (ADRC) funding to coordinate local mental health evidenced based interventions such as “IMPACT,” “PEARLS,” and other programs that are recommended by the CDC or SAMHSA. This funding would provide services that are not offered in the current mental health system and would not replicate what the CCOs are expected to provide. In addition to providing direct outreach and interventions, the ADRCs would add a new component and train individuals to teach suicide intervention skills to community members, professionals, and first responders in Oregon and educate older adults, families, and other community members about the importance of social connection to a

sense of well-being. APD would update the ADRC website to create a single entry point to link to existing information and resources on Alzheimer's disease, related dementias and mental illness.

3. **(Training and Education)** Local APD and AAA case managers need training in the use of simple screening tools and coaching in the integration of mental health screening into their daily work to be successful. Direct care providers, health professionals and others also need training and support to ensure that older adults and people with disabilities receive the appropriate screenings and interventions. This concept would support efforts to ensure that Oregon's Aging and Disability Resource Connection (ADRC), local case managers and medical professionals serving older adults and their families receive training about dementia and depression and develop clear policies and practices to effectively assist and refer people and their families to appropriate services. This effort would also promote universal depression screening and care for adults, particularly seniors by healthcare providers.

4. **(Community identification and referral system)** – Oregon communities need more Gatekeeper programs that enlist the help of utility workers, law enforcement, postal workers, and other service providers to help identify people in need of support. Currently, Gatekeeper programs are only available in Multnomah, Washington, and Clackamas counties. These programs have a long standing evidenced based record of positive impact.

2. **WHY DOES APD PROPOSE THIS POP?**

Approximately 15% of seniors and people with disabilities over the age of 50 suffer from depression. The rate of suicide among Oregonians has been increasing since 2000. The highest suicide rate in the state is among men ages 85 and over (78.4 per 100,000). Over 70 percent of suicide victims had a diagnosed mental disorder, alcohol and /or substance use problems, or depressed mood at time of death. Despite the high prevalence of mental health problems, less than one third of male victims and just about half of female victims were receiving treatment for mental health problems at the time of death. Between 63% and 90% of depressed older adults go untreated or receive inadequate treatment. Stigma, lack of trained personnel and

social isolation add exceptional barriers to these individuals accessing services that can help improve their quality of life and prevent many of these suicides.

13.9 percent of the individual civilly committed to the state hospital are over the age 65. Approximately 90%, of the cases referred to the Neuropsychiatric units of the state hospitals are because APD is regularly working to serve individuals with complex needs. The current delivery system does not meet the needs of individuals with challenging behaviors or conditions.

These statistics show that depression, anxiety, isolation and untreated mental illness cause significant hardship and trauma to individuals and are extremely costly to the health and human service system. APD's delivery system (AAAs, ADRCs and local field offices) can proactively address many of these issues. Additionally, this proposal supports efforts by the Oregon Health Authority – Addictions and Mental Health Division to develop additional resources for older adults and people with disabilities who need intensive mental health interventions.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

This proposal ties directly to the vision, mission and goals of the department. Helping individuals with depression, anxiety and other conditions helps ensure that they will be safe and healthy. It also will help these individuals be served in the least restrictive setting possible, delay their entry into expensive service settings and help them achieve wellbeing. Without this complete package, suicide rates will continue to be some of the highest in the country and individuals who could be served in the community will be hospitalized.

4. IS THIS POP TIED TO AN APD PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

This proposal does tie to a KPM. “Title: SENIORS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregon’s seniors who are living outside of nursing facilities.” However, APD would also propose reviewing state hospitalization rates and suicide rates for the targeted population to ensure that the enhanced and new programs are impacting these statistics as planned.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

There has been ongoing discussion about the needs of this population. The PHD’s suicide report, the Alzheimer Association’s state plan, the State Hospital Replacement Master plan and national research all say the strategies APD is proposing are critical to improving the quality of life, improving health, and ensure safety of the targeted population.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

People will continue to be hospitalized and their quality of life will be negatively impacted. Untreated conditions drive up costs and force individuals to access services at the most expensive level of care.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Oregon Health Authority - Addictions and Mental Health through the transfer of funds to support expansion of the ECOS system.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Assumptions on Specialized Capacity:

- An additional 40 specialized living slots - \$24,000 (TF) per individual for half; and \$10,207 for half, per month. *Starting in January 2014 with 5 “slots” and increasing to 40 during the biennium.*
- An additional 40 ECOS slots - \$231 (TF) per individual, per day 5 days per week. APD would only be responsible for the GF portion. – *Funding transferred to AMH quarterly as slots are filled. Assume 5 slots per month starting in September 2013 with all slots filled by June 2015.*

Assumptions on Addressing Depression and Anxiety

- \$200,000 (GF) for the biennium for each of the 9 ADRCs - *Starting in September 2013.*

Assumptions on Training/Education and Quality Assurance:

- Training - One \$350,000 contract with outside entity to coordinate training and outreach. *Assume 50/50 match rate*
- QA - One \$75,000 contract with outside entity to evaluate effectiveness of programs. Remaining funding is used for appropriate assessment tools and oversight. *Assume 50/50 match rate*

Assumptions on Gatekeeper Program Expansion:

- Based on the Alzheimer State Plan Gatekeeper programs cost \$200,000 (50/50 Admin rate) per Area Agency on Aging (AAA) per biennium. Seventeen AAAs in Oregon with a 50/50 split. *Starts in September 2013.*

- a. **Will there be new responsibilities for APD? Specify which Program Area(s) and describe their new responsibilities.**

APD – Long Term Care Systems –
Coordinating new prevention/early
intervention strategies

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**

No.

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

These clients are in the APD caseload. However, the current service delivery system does not meet their needs.

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

N/A

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

See above.

f. What are the ongoing costs?

All costs will be ongoing.

g. What are the potential savings?

State hospital and local acute care costs. There may be savings to APD but it is not possible to determine those saving at this time.

h. Based on these answers, is there a fiscal impact? Yes.

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging and People with Disabilities
Program Name: Field Services and Supports
Policy Option Package Initiative:
Policy Option Package Title: Specialized Living Supports
Policy Option Package Number: 108-5
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

The Department of Human Services is requesting \$1,968,950 in additional general fund to support the increase in specialized living settings for individuals who are bariatric, require multiple individuals to assist with transfers, on a ventilator, etc. These individuals are currently limited in their community setting options, are high cost, and have high rates of hospitalization and institutionalization. The Department of Human Services believes that by taking this investment and matching federal funds, we could create additional service settings and provider supports for individuals to transition out of institutional settings and be served in the community.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$1,983,845	\$0	\$3,324,523	5,308,368

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This policy package would provide funding to develop community based resources to assist individuals that currently have limited capacity in Oregon’s long-term care system. Oregon is a leader in community living and providing options for our clients to reside and receive services in the community. However, there are subsets of our population that because of their care needs or conditions are not equally represented in our community service options. Individuals who are bariatric, require multiple individuals to assist with transfers, require ventilator care, etc have limited options for services in our community. Oregon is requesting an investment of \$2,000,000 to support enhanced services and rates in the community for these populations. This general fund investment would be matched with federal funds, and would provide essential placements and community placements for individuals in our communities that have specific needs. The Department would contract with providers to ensure that service options were available in the community for these individuals based on this investment.

2. WHY DOES Department of Human Services PROPOSE THIS POP?

The Department of Human Services is committed to providing community options to individuals. Oregon continues to support the federal mandates for community living (<http://www.hhs.gov/od/topics/community/olmstead.html>) and wants to ensure that individuals have community options and are not institutionalized due to a lack of resources or options within our State system. This investment would allow The Department of Human Services to expand our current utilization of specific needs contracts and specialized living, which focuses on providing enhanced services for populations of individuals who are under-served in our community settings. Currently individuals who require multiple individuals to transition them or are bariatric, often have to utilize institutional settings in order to have their needs met. Furthermore, these individuals have limited institutional settings and are often displaced from their community or natural supports, including family and friends. The Department would

focus on providing additional contracted supports in communities that would allow clients options to become more integrated into their community.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

This request runs parallel to the goals and mission of the agency. The Department of Human Services is dedicated to providing services that allows individuals to be as healthy, safe, and independent as they can be. This goal would assist individuals in being able to be independent and have choice in where they receive their services. This investment is also targeted towards measured outcomes and ensuring that individuals in the community are provided services that not only allow them to be independent, but support their needs in a way that increases their safety and health.

4. IS THIS POP TIED TO A Department of Human Services PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL Department of Human Services MEASURE THE SUCCESS OF THIS POP?

The Department of Human Services would look at our institutional to community ratio and would expect to see continued decrease in the percentage of individuals receiving services in institutions because of this investment. The Department would compare projected ratios and percentages prior to and after implementation of these placements to determine the effectiveness of this investment.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No changes to statute are required.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The Department of Human Services has explored options within our current structure. Currently, contracts are being done for these populations at the individual level. This is extremely burdensome on the system, and creates limited capacity for individuals. The Department of Human Services believes that this investment will allow us to build a provider base that is person-centered in their approach to serving individuals, while maximizing the time and knowledge of providers in serving individuals with these complex needs.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

If this POP wasn't funded, individuals would continue to remain in our acute care hospitals and institutional settings. Without this investment the clients suffers, our provider networks suffer, and we have continued utilization of emergency room services and hospitalization for placement due to a limited provider system.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

This investment is not expected to have any additional affects on other agencies.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

The pricing of this POP is based on average exceptional rate and current specific needs contracts for individuals with like needs. This POP assumes that with this investment 50 individuals will be served in the community during the 2013-2015 fiscal years with a staggered rollout.

Implementation Date(s): July 1, 2013_____

End Date (if applicable): _____

- a. **Will there be new responsibilities for The Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.**

There will be no new responsibilities.

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**

There will not be additional administrative impacts sufficient to require additional funding. The current administrative structure and supplies will support this additional investment.

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

There will be changes to client caseloads and services provided. This will not change client eligibility for services or medical benefits; this will allow clients the ability to access community settings that without this investment may have been limited for these individuals and populations.

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

Existing positions will perform the work to support this investment, without need for additional support or modification. This will not take a change in classification for this investment.

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

There are no start-up costs necessary for this investment.

f. **What are the ongoing costs?**

Ongoing costs will be the ongoing budget to support these individuals in the community. If these placements are determined to be successful in providing a safe and independent setting where and individual can assist with directing their care and maintaining their health, then the Department of Human Services would want to continue to support these settings in our future budget requests.

g. **What are the potential savings?**

There could be some savings between what the cost of care is for these individuals in institutional settings versus a community placement. We believe there are additional savings for the State of Oregon when looking at the time and frequency these populations utilize urgent care, emergency services, and acute care settings; and what is projected to occur in a setting that is more personalized on these individual's care needs.

h. **Based on these answers, is there a fiscal impact?**

We believe that this investment could be cost neutral or support cost savings for the State of Oregon.

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging and People with Disabilities (APD)
Program Name: Advocacy and Development Unit
Policy Option Package Initiative:
Policy Option Package Title: Care Coordination and Statewide ADRC Development
Policy Option Package Number: 108-11
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

This Policy Option Package (POP) would fund the development of high quality care coordination services for Medicaid and non-Medicaid individuals with long term services and supports (LTSS) needs. Currently, case managers are only staffed at a level to provide generic, priority-based case management to individuals with Medicaid-funded LTSS. This POP would support staff to direct the work of care coordination between local APD and Area Agencies on Aging (AAA) offices and Coordinated Care Organizations (CCOs). Additionally, this POP would fund options counselors for its Aging and Disability Resource Connections (ADRC) program in local AAAs, in order to serve individuals with LTSS needs who are not Medicaid eligible.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$1,800,000	\$0	\$5,022,752	\$6,822,752

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This investment would develop a more robust system of care coordination for individuals accessing long term services and supports (LTSS), both inside and outside the Medicaid system.

For individuals accessing Medicaid LTSS, this investment would fund specialized care coordination staff who would work as a liaison between the local office and the newly-developed Coordinated Care Organizations (CCOs) in their communities. Local offices and CCOs have developed Memoranda of Understanding (MOUs) identifying five key areas of care coordination. Care coordination staff would provide the following functions for the local office and central office:

- Serve as a local liaison to the CCO as defined by the local MOU;
- Monitor, gather, document and analyze local office activities related to health systems transformation;
- Develop and adapt health system transformation training/technical assistance material for local office needs;
- Provide on-going technical assistance to managers, supervisors, and line staff around working with CCOs;
- Provide training to staff, consumers, and LTSS providers;
- Participate in future MOU negotiations; and
- Participate in statewide health system transformation training and policy development.

This investment would also support the development of health system transformation information system that interfaces information from DHS LTSS systems with CCO information systems, and a central office policy analyst to direct local office liaisons and track monitor and analyze care coordination between CCOs and the local offices.

This investment also develops a statewide Aging and Disability Resource Connection (ADRC) program to assist individuals who are not yet eligible for Medicaid LTSS. This investment includes 41 options counselors to help seniors, all individuals with disabilities, and veterans in navigating their options for long term services and supports. This investment in options counseling would help these individuals avoid or delay high cost services so that they can access needed assistance within their own resources. In addition, if these individuals may be eligible for Medicaid LTSS, options counselors will provide a seamless transition to the appropriate local office from which they can begin Medicaid-funded LTSS. Options counselors will assist them in the application for Medicaid benefits, and provide a seamless transition to the appropriate local office from which they can begin Medicaid-funded LTSS. Based on the “No Wrong Door” approach, the ADRC would become the recognized community resource where individuals go to answer their questions on LTSS, and would be regarded as the gateway for Medicaid and non-Medicaid options for LTSS.

2. WHY DOES DHS PROPOSE THIS POP?

DHS proposes this investment as a proactive measure to get the most out of health system transformation and to plan for the state’s growing need for LTSS, attributed to the anticipated growth of seniors and individuals with disabilities in the state.

CCOs will provide the health, behavioral health, and (in 2014) the oral health services for a large portion of individuals served by the Medicaid LTSS system. This POP will support the robust care coordination between CCOs and the APD and AAA local offices mandated by House Bill 3650 (2011). Care coordination

between the medical and LTSS system includes the identification of high needs members, the development of individual care plans, transitional care plans, interactive member engagement and member preferences, and the formation of member care teams. Successful care coordination between the medical and LTSS systems would leverage the resources of each system to facilitate communication, reduce redundant or inappropriate care and services, and result in cost savings for both systems.

The ADRC program is a resource for individuals needing information, referral and option counseling services for LTSS. They are not currently eligible for Medicaid LTSS, but are at risk of becoming so without the preventative and early intervention services provided by ADRCs. ADRCs are currently active in four local offices, serving 76 percent of individuals in Oregon in 13 counties. This POP will strengthen option counseling services in the existing ADRCs, and will provide the initial investment of establishing and strengthening options counseling in the areas of the state where ADRCs currently do not exist. A robust ADRC system would provide Oregonians with information and options to help them avoid or delay costly services, and with the growing population of seniors and individuals with disabilities in the state, help them avoid or delay spending down to Medicaid eligibility. Indeed, over 95 percent of seniors and individuals with disabilities do not access Medicaid-funded long term services and supports, This POP builds an infrastructure to help this population – as well as those eligible for Medicaid funded LTSS – achieve a life of independence while remaining healthy and safe.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

This POP meets the mission and goals of DHS and of health system transformation. Regarding the latter, its commitment to robust coordination between CCOs and the LTSS system is consistent with the triple aim of better health, better care, and lower costs. Regarding the POP’s commitment to care coordination for those getting both Medicaid and non-Medicaid LTSS, this POP directly advances DHS’s mission: “To help Oregonians in their own communities achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.” This POP advances APD’s mission as well: “To make it possible to become independent, healthy and safe.”

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

Yes – this POP is tied directly to DHS KPM 10: Access to Information and Referral and Information and Assistance Services for individuals not currently served by DHS. With its commitment to care coordination for those with Medicaid LTSS and without Medicaid LTSS, it is also tied to KPM 11 – Seniors Living Outside of Nursing Facilities.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No – this POP furthers the aim of care coordination between CCOs and Medicaid LTSS as mandated by HB 3650 (2011), and the ADRCs are consistent with existing statute in ORS 410.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The alternatives to this POP include a more minimal collaboration between CCOs and the Medicaid LTSS system, and a scaled-back ADRC system. These alternatives were regarded as inadequate to the care and service needs of the individuals served by this POP, and would be more costly to the state in the future.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

An inadequate collaboration between CCOs and Medicaid LTSS would result in less communication among medical and LTSS providers, poorer and less frequent care coordination between CCOs and local offices, and increase the likelihood of duplicative or inappropriate care or services. Failure to have a robust, statewide ADRC system would likely increase the number of seniors and individuals with disabilities not accessing key preventative services, or LTSS information services, and as a result, utilizing expensive and

inappropriate LTSS, and put them at risk of spending down to Medicaid eligibility. Given the growing senior population in Oregon, and the fact that the department's fastest growing group for Medicaid LTSS is younger individuals with physical disabilities, such a course is unsustainable within future forecasted resources. An investment in care coordination for current Medicaid-eligible individuals, as well as those not yet eligible for Medicaid LTSS, would avoid this fiscally unsustainable path while supporting the department's goals of keeping individuals independent, healthy and safe.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

This POP will draw on local Area Agencies on Aging (AAAs) or Centers for Independent Living (CILs) for care coordination. The Type B Transfer AAAs will be the local office that coordinates care with local CCOs. Regarding the ADRC program, the department will partner with local AAAs (both Type A and Type B Transfer AAAs) as well as local Centers for Independent Living (CILs) and Community Developmental Disabilities Programs (CDDPs) to offer information and referral services, and options counseling. These entities will also assist individuals who may be eligible for Medicaid covered services.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): October 1, 2013

End Date (if applicable): _____

a. Will there be new responsibilities for DHS? Specify which Program Area(s) and describe their new responsibilities.

- APD: oversight of Care Coordinators in local offices, facilitation of sharing information between CCOs and local AAA/APD Offices; training, technical assistance and support for statewide ADRC options counselors
- | | |
|--------------------------|--------------------------|
| <input type="checkbox"/> | <input type="checkbox"/> |

b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected.

The ISS6 will build and maintain IT changes required to interface between the local offices and the local CCOs.

- c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

Yes, there will be care coordination functions to case management between the CCOs and the local offices. It is estimated that of the 29,000 individuals served by APD for LTSS needs, approximately 6,000 will be prioritized for care coordination between the local offices and CCOs by July 2014.

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

This POP will require the following classifications for permanent staffing: 41 Case Managers, 3 Program Analyst 2s, 1 ISS 6, and 1 Operations and Policy Analyst 3. Among the 41 Case Managers, some of the positions may be modified from existing positions.

- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

The startup costs include modification to computer systems to interface CCOs and LTSS better, new materials, outreach, and training. Regarding training and outreach for ADRC options counseling, the department is awaiting decision on a three-year grant with the Administration on Community Living to cover these costs.

- f. What are the ongoing costs?**

Ongoing costs include staffing, outreach, training, and maintenance of systems changes.

- g. What are the potential savings?**

The potential savings include savings to Medicaid medical and LTSS costs and slowed growth in Medicaid LTSS caseload through the prevention and early intervention services of the ADRC.

h. Based on these answers, is there a fiscal impact? Yes.

What are the sources of funding and the funding split for each one?

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging & People with Disabilities
Program Name: APD Delivery Services Staffing
Policy Option Package Initiative:
Policy Option Package Title: Implement Workload Model
Policy Option Package Number: 108-12
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

This policy option package funds Aging and People with Disabilities eligibility workers at 85% of the workload standard and Adult Protective Services workers at 95% of the workload standard. These workers are located in the APD/AAA field offices.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$2,518,044	\$0	\$2,504,125	\$5,022,169

- 1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?** This package would allow the implementation of an updated staffing model for the offices serving seniors and people with disabilities throughout the state. Currently these offices are severely understaffed, which has impacted the ability to timely determine eligibility for medical and food benefits. Workers performing adult protective services have also been unable to respond timely to provide safety and protection needed for all Oregonians to live safely in their communities. The funding to implement the workload model would allow Aging and People with Disabilities (APD) to more accurately predict staffing needs now and in the future, and in turn, fund staffing appropriately to these levels. Implementation would be additional staffing distributed state wide to meet the need in APD offices and Area Agency on Aging offices.

- 2. WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?** Aging and People with Disabilities seek to change the antiquated model of earning staff at this time, due to increasing need of low income Oregonians for medical/food benefits, and the need for safety and protection of the most vulnerable seniors and people with disabilities. This proposal to increase the staffing levels for these 2 position types will continue to ensure access to medical/food benefits, safety and protection for Oregonians.

- 3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?** There is a direct link between an adequate staffing level and the Healthy People program area outcome that Oregonians are healthy and have the best possible quality of life at all ages. The APD Delivery System supports individuals living in their communities in settings of their choice. Partnerships between local law enforcement, local court systems and local advocates are critical to ensure the aging and disability populations are not subject to neglect, financial fraud and abuse. APD program services ensure that low

income Oregonians have access to food and medical services, as well as services and supports that allow them to live safely and as independently as possible.

4. IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL THE DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?

Yes, it is directly related to the Department's abuse prevention key performance measures.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The alternative is to staff offices at a level lower than the workload requires. This negatively impacts timeliness of eligibility determinations and protective service investigations.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

If APD is not allowed to staff the eligibility specialists to a workload standard, there will be a continued decline in the ability of the local office staff to determine eligibility for medical and food benefits for low income Oregonians. If Adult Protective Service workers are not funded to the level of the actual work they are performing, safety and protection for all seniors and people with disabilities in Oregon will continue to be impacted negatively. The most critical cases will be investigated, while prevention and less critical cases will not receive timely attention or support by the limited number of workers.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Local Area Agencies on Aging will be allocated their pro rata share of the additional staff.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): October 1, 2013

End Date (if applicable): _____

- a. **Will there be new responsibilities for Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.**

No.

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).**

Only administrative impacts are those normally associated with new employees.

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

No.

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

Adult Protective Service Workers 9 FTE, permanent for 21 months.

Eligibility Workers (Human Service Specialists) 23 FTE, permanent for 21 months.

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

No start-up costs other than those associated with new employees.

- f. **What are the ongoing costs?**

Continued staffing costs.

- g. **What are the potential savings?**

N/A

- h. **Based on these answers, is there a fiscal impact? Yes.**

2013-15 Policy Option Package

Agency Name: DHS-Aging and People with Disabilities
Program Area Name: Advocacy and Development Unit
Program Name: Medicaid Funded Long-Term Care Services/Older American Act Services
Policy Option Package Initiative:
Policy Option Package Title: LTC 3.0 Infrastructure Investment
Policy Option Package Number: 108-13
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

This POP proposes to replace APD’s aging infrastructure to support changes that are anticipated to come about due to future planning efforts underway through its LTC 3.0 initiative. Beyond anticipated changes, investment in the infrastructure maintenance prevents break down of aging systems and takes advantage of technological gains to improve efficiency of operations.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$3,000,000	\$0	\$3,000,000	\$6,000,000

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

Oregon's Long-Term Care System is based on an aging 30 year old platform that initially led the nation through its vision of supporting individuals in their own homes and in community-based settings, and reducing reliance on institutional care. Failure to keep up-to-date on new technological advances, evidenced-base approaches, better coordination of care with emerging Coordinated Care Organizations, data collection and analysis to support measurable outcomes and incentivize high quality performers, and an aging infrastructure, threaten Oregon's nationwide leadership and the comparably high quality of innovation and quality services Oregonian's have come to expect and deserve. Aging and People with Disabilities, through its Advocacy and Development unit, has undertaken a visioning and planning process that will lead to necessary systems changes that support a modernized Long-Term Services and Supports program for all Oregonians.

2. WHY DOES DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

Virtually all LTC Services and Programs and the systems that support them need review and investment to remain operational for the future. This POP allows for the reasonable investment to Oregon's LTC infrastructure to align with the goals and objectives that come from Oregon's initiated LTC 3.0 planning process. This POP seeks to take maximum advantage of new technological advances, evidenced-base approaches, better coordination of care with emerging Coordinated Care Organizations, data collection and analysis to support measurable outcomes and incentivize high quality performers, and upgrade its aging infrastructure. This POP envisions other improvements including supporting the ability to revise and update critical staff tools such as assessments based on new and emerging best practice and move to electronic sharing of information vital to coordination with the health system as mandated by HB 3650.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

This POP would allow APD to better work towards its statutory obligations outlined below as well as the DHS Vision - Safety, health and independence for all Oregonians and the DHS/APD mission and goals. Without adequate investments in APD infrastructure, the agency is at risk for not managing or meeting its legislative mandates, and DHS/APD vision, mission and goals.

410.010 State policy for seniors and people with disabilities. (1) The Legislative Assembly finds and declares that, in keeping with the traditional concept of the inherent dignity of the individual in our democratic society, the older citizens of this state are entitled to enjoy their later years in health, honor and dignity, and citizens with disabilities are entitled to live lives of maximum freedom and independence.

- Mission - To help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity.
- Goals related to seniors and people with disabilities - People are safe and living as independently as possible, People are able to support themselves and their families through stable living wage employment, Choices made by seniors and people with disabilities about their own lives are honored, Partners, clients and stakeholders are actively engaged in a variety of collaborative and meaningful ways. Culturally specific and responsive services are provided by highly qualified and diverse staff. The department is committed to equal access, service excellence and equity for all Oregonians, Children and youth are safe, well and connected to their families, communities and cultural identities.
- APD Mission: The SPD mission is to make it possible to become independent, healthy and safe. SPD contributes to the DHS mission by helping seniors and people with disabilities of all ages achieve well-being through opportunities for community living, employment, family support and services that promote independence, choice and dignity.

4. IS THIS POP TIED TO an APD PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL APD MEASURE THE SUCCESS OF THIS POP?

Yes, this is tied to KPM relating to percentage of publicly-funded long term care caseload served in settings other than nursing facilities.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

Yes, ORS 410 needs modification. The Department has introduced LC371 to address this need.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM? Maintaining or repairing antiquated infrastructure can be a costly alternative to replacement, both in terms of finances and to the lives of those affected by lack of functionality or unnecessarily slow and undependable nature that has not kept up with modern business practices. This POP proposes replacement rather than repair

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

According to the first National Scorecard on LTC services conducted by the scan foundation, Oregon ranks 3rd in the nation in LTC services. Oregon has slipped from its long standing #1 ranking. Further inaction would inevitably lead to further slippage in Oregon's rankings a direction counter to the goals and objectives of DHS/APD.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Local Area Agencies on Aging would be affected by this POP.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): 7/1/13

End Date (if applicable): 6/30/15

- a. Will there be new responsibilities for DEPARTMENT OF HUMAN SERVICES? Specify which Program Area(s) and describe their new responsibilities.**

- b. Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document). Yes.**

- c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**
Not resulting from this POP.

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**
One Project Manager PEM E, one OPA 3, three OPA 2's, two ISS 8's, two ISS 7's. These are funded for 21 months in 2013-2015 and will be permanent positions.

- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

No significant start-up costs are anticipated as these efforts will align with the Oracle (or existing internal) platform.

- f. What are the ongoing costs?**

Ongoing maintenance and/or licensing fees.

- g. What are the potential savings?**

Increased efficiency in the field related to the decommissioning of Oregon ACCESS, the legacy system currently used to administer long term care services. Oregon ACCESS is built with an obsolete programming language, Power Builder. It is increasingly difficult to recruit programmers with this skill set. Additionally, Oregon ACCESS has become slow and cumbersome.

- h. Based on these answers, is there a fiscal impact?**

Yes.

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Aging and People with Disabilities
Program Name: Medicaid Long Term Care System
Policy Option Package Initiative:
Policy Option Package Title: CNA Staffing Stage 3
Policy Option Package Number: 108-14
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

In 2006, the nursing facility staffing commission issued its final report. The commission recommended that due to “limited resources for nursing staff wages, training, monitoring, and enforcement, Oregon should prioritize a standard shown to reduce the likelihood of serious care problems. In its recommendations, the Commission discusses adaptation of CNA thresholds identified by the empirical analysis to Oregon’s nursing home resident population.” The state agreed to improve funding to bring CNA staffing ratios to 2.46, implemented in three phases. This POP provides the funding to get us to that staffing level standard.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$675,000	\$120,000	\$1,215,309	\$2,010,309

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This POP would fund Phase 3 of the Nursing Assistant staffing standard to achieve 2.46 staffing ratio for CNAs. It would be implemented by a CNA Add-on to the NF rate.

2. WHY DOES DHS PROPOSE THIS POP?

DHS proposes this POP to complete Phase 3 of the Nursing Assistant staffing standard.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?

The POP will improve the quality of care individuals receiving care in nursing facilities.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

No.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The only alternative was to not fund Phase 3.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

The CNA staffing ratio would not reach 2.46 Nursing Assistant staffing standard and the possibility of poor quality of care would continue.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Only nursing facilities will be affected by this POP.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): October 1, 2013

End Date (if applicable): June 30, 2014

- a. **Will there be new responsibilities for DHS? Specify which Program Area(s) and describe their new responsibilities.**

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected.**

No

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.**

No

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

Not to the state.

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

N/A

- f. **What are the ongoing costs?**

There will be a Nursing Assistant staffing standard add-on of \$.53 per resident per day for all nursing facilities. This cost will be funded through Medicaid at the normal FMAP.

- g. **What are the potential savings?**

N/A

- h. **Based on these answers, is there a fiscal impact?**

Yes.

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Developmental Disabilities
Program Name: Office of Developmental Disabilities
Policy Option Package Initiative: Increase developmental disability service Family to Family Networks
Policy Option Package Title: Family To Family Network Expansion
Policy Option Package Number: 109-1
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

Family support is a cornerstone service in the area of developmental disability services. Most children and adults with developmental disabilities are living with family members who provide critical services and supervision. Without family support, many individuals would need to access out of home services at great cost to the State. Current trends in family support indicate that family to family networks are very effective ways to provide that support to one another and learn needed skills and how to access needed services.

This package would develop new Family-to-Family networks targeted in eastern Oregon with specific culturally diverse communities. These family driven networks provide training, information, referral and general support. This would allow us to double our networks increasing to 8 locations across the state. These enhanced support networks allow adults and children with developmental disabilities to delay or defer out of home care and provide support to their families.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$1,200,000	\$0	\$0	\$1,200,000

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This package will expand the number of family to family networks to 8 and make these networks available to many more communities (and families) across the state. These networks will be supported using a contracted training and technical assistance model.

2. WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?

Families are the primary service providers for people with developmental disabilities. Most individuals with developmental disabilities live with family members and rely on them for needed care and supervision. Family members and family units need support in order to continue in these roles. The continuation of families as caregivers is critical for without them many more people would have to access high cost out of home services. The viable sustainability of the developmental disability service system depends on family caregivers. The family to family networks are a viable, cost effective way to provide needed support to families so they can stay in their critical role as caregivers.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?

Creating strong viable family units is a critical piece of the mission of the Department in particular that families and youth are safe, well, and connected to their families. The Family to Family networks are also important to meeting Department goals of supporting effective, efficient and stable services. ODDS have breakthrough initiatives for children and families and this package supports those breakthrough efforts.

4. **IS THIS POP TIED TO A Department of Human Services PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL Department of Human Services MEASURE THE SUCCESS OF THIS POP?** This POP is aligned with the DHS and ODDS fundamentals and Breakthrough improving the stability of families, delivery quality and cost effective services.
5. **DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.** No.
6. **WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?** We considered expanding more historically traditional family support programs by providing resources to respite, in-home supports, and needed consultations. While these transitional services are important and needed, Family to Family networks provide a cost effective complement to the array of options to support families as caregivers.
7. **WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?** Family support is intended to prevent or delay the access to high cost out of home services for individuals with developmental disabilities. More access to higher cost services would be anticipated.
8. **WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?** Community Developmental Disability Programs (CDDPs) would be effected, as the case management entities, they plan and arrange for services, including family support services.

- 9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?** This POP would double the current costs for the family to family network to expand from 4 to 8 networks.

Implementation Date(s): 7/1/13

End Date (if applicable): 6/30/15

- a. **Will there be new responsibilities for the Department of Human Services? There will be no new responsibilities, but the service planning and rate setting functions conducted by case managers will alter. Specify which Program Area(s) and describe their new responsibilities.**
- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document). No.**
- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program. No.**

<u>Policy Option Package Initiative:</u>	Improving employment outcomes for people with Developmental Disabilities
<u>Policy Option Package Title:</u>	Improving employment outcomes for people with Developmental Disabilities
<u>Policy Option Package Number:</u>	109-2, 109-7, and 109-8
<u>Related Legislation:</u>	
<u>Program Funding Team:</u>	Healthy People

Summary Statement:

The Department of Human Services and its Office of Developmental Disability Services (ODDS) has adopted an Employment First Policy, designed to obtain improved employment outcomes for transition age youth and working age adults with developmental disabilities. Specifically, the desired outcomes are to increase the number of individuals with developmental disabilities who secure and maintain jobs in individualized fully integrated employment settings. This objective is also a stated priority the Federal government has for Oregon and other states. Meeting the desired outcome requires investments in state infrastructure, service rates, provider training and technical assistance, and quality management systems.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option</u> Package Pricing:	\$9,378,367		\$11,473,546	\$20,851,913

- 1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?** This POP would facilitate needed design and delivery system changes to meet specific goals in improving employment outcomes (securing integrated employment opportunities) for individuals with Developmental Disabilities served by ODDS. More specifically, this POP will (1) increase staff resources to address changes in strategic planning, policy and practice development and implementation monitoring activities, (2) provide for needed service capacity building and training and technical assistance to community-based service providers, including assisting agencies transform current business models to new models that better deliver integrated employment services, (3) allow for implementation of a new rate structure that focus on and anticipates the expanded delivery of integrated employment services, and (4) provides resources to address associated quality assurance, oversight, improvement activities.
- 2. WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?** The Department has as part of its integrated management model identified improved employment outcomes as an enterprise-wide priority. ODDS has implemented an “Employment First” policy as a vehicle to fulfill its mission and stated goals. This policy also represents a key long term strategy in the ODDS system sustainability plan.

This POP is also important to help ODDS better comply with CMS expectations around rate setting and quality assurance in the implementation of Home and Community-Based waiver services.
- 3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS?** DHS goals included the promotion of independence and self-sufficiency. The improvement opportunities to secure and maintain paid employment is central to an individual with developmental disabilities achieve those goals.

4. **IS THIS POP TIED TO A Department of Human Services PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL Department of Human Services MEASURE THE SUCCESS OF THIS POP?** This POP is aligned with the DHS goals of improving employment outcomes for clients. This POP will be measured as part of the Departments existing process for benchmarking and monitoring implementation of key fundamentals and breakthrough activities.

5. **DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.** No.

6. **WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?** The maintenance of current practice is the alternative. Given resource availability this is not sufficient to achieve the needed outcomes.

7. **WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?** There are possible legal consequences in term of recent challenges by Disability Rights Oregon and the US Department of Justice related to the use of sheltered workshops for adults with developmental disabilities. There are also possible negative consequences from CMS if expectations about improved rate setting methodologies and quality assurance practices are not met.

8. **WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?** Community Developmental Disability Programs (CDDPs) and Support Service Brokerages would be effected because these entities

develop individual service plans, arrange for those services, and address the needed service capacity issues. As such they are the focal points for accomplishing the Employment First goals. Community based service providers will be affected as the entities that implement and are compensated for services. The Office of Vocational Rehabilitation will possibly see increases in referrals.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

Implementation Date(s): 7/1/13

End Date (if applicable): _____

- a. **Will there be new responsibilities for the Department of Human Services?** There will be no new responsibilities, but the service planning, arranging, and monitoring functions conducted by case managers will alter. Specify which Program Area(s) and describe their new responsibilities.

- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).** No.

- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.** No.

- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary. Yes.**

- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training? No.**

- f. **What are the ongoing costs?**

- g. **What are the potential savings?**

- h. **Based on these answers, is there a fiscal impact?**

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Developmental Disabilities
Program Name: Office of Developmental Disabilities
Policy Option Package Initiative: Increase capacity of Vocational Rehabilitations to address Employment First Policy for individuals with developmental disabilities
Policy Option Package Title: Employment First Initiative Impact to OVRs
Policy Option Package Number: 109-3
Related Legislation:
Program Funding Team: Healthy People

Summary Statement:

The Department of Human Services and its Office of Developmental Disability Services (ODDS) has adopted an Employment First Policy, designed to obtain improved employment outcomes for working age adults with developmental disabilities. Specifically these outcomes are to increase the number of adults with developmental disabilities who secure and maintain community-based individual supported employment jobs. This policy is expected to increase referrals of people with developmental disabilities to Oregon’s Vocational Rehabilitation Services (OVRs). This POP will increase the staffing capacity and add service costs to serve an additional 200 individuals with developmental disabilities per year.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$743,055	\$0	\$1,992,550	\$2,735,605

1. **WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?** With this funding OVRs will provide specialized services to persons with Developmental Disabilities by hiring 5 Vocational Rehabilitation Counselors and five Counselor Assistants to provide work exclusively with persons with Developmental Disabilities. By doing this, OVRs will be able to provide services to an additional 200 persons with Developmental Disabilities yearly. This POP will give OVRs the necessary staff to serve clients that are expected to be referred by DD Services as part of the Employment First Initiative. ODDS/OVRs will use a strategy to best leverage mutual funds to accomplish the desired outcome.

2. **WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?** This initiative allows OVRs to improve service equity for persons with Developmental Disabilities. Having additional staffing allows OVRs to have smaller caseloads and more targeted support needed to serve this population. OVRs has a major role in assuring success of the Department's Employment First Policy for individuals with developmental disabilities. This initiative also supports the Department's general goal of improving employment outcomes for all clients of the Department.

3. **HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?** This initiative increases the number of persons with developmental disabilities who become employed as a result of ODDS/OVRs services which is a key performance measure. It also specifically allows OVRs to improve its service equity by serving more persons with Developmental Disabilities. Achievement of these outcomes is central to the long-term system sustainability plan developed by ODDS.

4. **IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL THE DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?** Yes, increasing the rate of employment for persons with developmental disabilities.

5. **DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT. NO**

6. **WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?** It is possible that OVRs could continue with the current service levels however this would not allow OVRs service equity. This would compromise the ability of the Department to meet its desired outcomes in implementing the Employment First Policy for adults with developmental disabilities. Additionally since this population requires a higher level of involvement with staff and counselors, OVRs would not be able to accommodate all of the referrals from developmental disability services as well as serve all other clients coming into the program. This inability to provide services on a timely manner would result in invoking the Order of Selection thereby reducing the amount of services available and the number of successful employment outcomes resulting in reduced revenue for the state.

7. **WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?** In addition to the response to question #6, there is potential for legal action related to the developmental disability population if they are not successfully served in employment settings.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED? Community Developmental Disability Programs (CDDP's) would be affected because, as the case management entities, they plan and arrange for services and assign services. Not having access to effective employment services compromises the quality of service planning. Community service provider entities will be effected since they can produce better employment results that will be compensated. In general the economic consequences of people not being able to enter the workforce when they are capable are far-reaching.

9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

This POP assumes that caseload will be increasing and that in order to achieve employment status for the additional clients expected from the ODDS program there will need to be dedicated counselors with expertise in developmental disabilities. This POP assumes additional staffing at 5 FTE for Vocational Rehabilitation Counselors and 5 FTE Counselor Assistants. Service funding for 200 new DD clients per year is also included. Historical data and similar programs in other states reflect that counselors working with DD clients are only successful when caseloads are no more than 40 cases per counselor.

Implementation Date(s): 9/1/13

End Date (if applicable): _____

- a. **Will there be new responsibilities for the Department of Human Services? Specify which Program Area(s) and describe their new responsibilities. NO**
- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document). NO**
- c. **Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program. The change is as noted, adding staffing to manage OVRs caseloads.**
- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary. There will be new full time staffing through the biennium as outlined below.**
- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training? NO**
- f. **What are the ongoing costs? In addition to the staffing costs, there will be \$1,100,000 per year for services expenditures. (\$110,000 per counselor per year).**
- g. **What are the potential savings? This will help prevent the potential impact of a lawsuit related to service equity for persons with developmental disabilities.**

h. Based on these answers, is there a fiscal impact?

2013-15 Policy Option Package

Agency Name: Department of Human Services
Program Area Name: Developmental Disabilities
Program Name: Office of Developmental Disabilities
Policy Option Package Initiative: Restore Fairview Trust to pre-2011-13 \$13 million balance
Policy Option Package Title: Refill Fairview Trust
Policy Option Package Number: 109-4
Related Legislation:
Program Funding Team: Healthy People

Summary
Statement:

This package would restore \$6,950,134 to the Fairview Housing Trust removed in 2011-13 due to budget shortfalls. This would restore the Trust Fund balance to the pre 2011-13 balance of \$13 million. Under state law (ORS 427.330 - .345) interest from the fund can be used to help address community housing needs of individuals with intellectual and other developmental disabilities. Historically, interest from the fund has been used to make home modifications and other adaptations to help individuals stay in their family homes.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$6,950,134	\$0	\$0	\$6,950,134

1. **WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?** Restoration of the Fairview Housing Trust Fund to its original will maximize the interest earned through this fund under ORS 427.330 - .345 this interest can be used to help address the community housing needs of individuals with intellectual and other developmental disabilities. These funds will be used to address the activities in the ODDS system sustainability plan and implement other strategic innovations/initiatives associated with this plan. Fundamentally this plan is designed to prevent or delay access to high cost 24-hour service models and better promote the use in-home support service models of care.
2. **WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?** To better address needs of individuals with intellectual and other developmental disabilities and address the strategic changes needed by the system. See answer #1.
3. **HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS?** This POP reinforces the use of community base services for people with intellectual and other developmental disabilities which promotes the key values of DHS of integration, independence, self-sufficiency and community contribution.
4. **IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL THE DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?** Yes, to the fundamental measures of people living as independently as possible.
5. **DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.** No.

- 6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?** To consider not restoring the fund to the original level. This option was rejected because of the need to implement innovations and strategies to sustain the system as described in responses to earlier questions. Since this fund is tied to the closure of the Fairview Training Center, this is a highly significant point of interest by advocates who want to see the proceeds from the sale of Fairview be used to further support community services for people with intellectual and other developmental disabilities.
- 7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?** There would be a diminished capacity to use interest from the fund in a meaningful, strategic way.
- 8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?**
- 9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?**

Program Name: Office of Developmental Disabilities
Policy Option Package Initiative: In Home Support Services
Policy Option Package Title: Home and Community Based Funding Increases
Policy Option Package Number: 109-6
Related Legislation:
Program Funding Team: Healthy People

Summary Statement:

This is a place holder to increase rates to providers for in home services. Typically these providers are hired directly by the in-home client. In-home services are becoming the cornerstone of the service delivery system for individuals with developmental disabilities and their families. These services lead to high levels of consumer satisfaction, are extremely cost efficient, and are critical to long-range plans for assuring system sustainability. Toward that end, attracting and maintaining a qualified workforce of in-home providers is critical. This Policy Option Package is submitted as an investment to assuring access to a stable workforce so the benefits of in-home services, at both the individual client and system level, can be fully realized.

<u>Agency Name:</u>	Department of Human Services
<u>Program Area Name:</u>	Developmental Disabilities
<u>Program Name:</u>	Office of Developmental Disabilities
<u>Policy Option Package Initiative:</u>	Implement a centralized, electronic client record and case management system.
<u>Policy Option Package Title:</u>	Electronic Records System for DD Comprehensive and Support Services.
<u>Policy Option Package Number:</u>	109-9
<u>Related Legislation:</u>	
<u>Program Funding Team:</u>	Healthy People

Summary Statement:

The statewide system for serving individuals with developmental disabilities is a highly decentralized structure relying on contracted provider entities for case management and service delivery. As a result, there is no common, centralized information system for client plans, services, and outcomes. This compromises the state's ability to plan strategically, provide required regulatory and oversight functions, and develop service policies and procedures. This POP will allow for the implementation of an already established electronic web-based central client record and case management system. This system will be used by all provider and case management entities with users, including state staff, having access via assigned user roles for security purposes. This system will interface with the current service payment systems already in place and used by the Office of Developmental Disability Services.

- 1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?** This POP will allow for the implementation of an already established electronic web-based central client record and case management system. This system will be used by all service providers and case management entities with users, including state staff, having access via assigned user roles for security purposes. This system will provide for a centralized structure for access to client plans, services, and outcomes. This system will interface with the current service payment systems already in place and used by the Office of Developmental Disability Services. There is a suggested provider of such a service – Therap Services. This is a service that is utilized in other states and is designed for programs serving people with developmental disabilities.
- 2. WHY DOES THE DEPARTMENT OF HUMAN SERVICES PROPOSE THIS POP?** The statewide system for serving individuals with developmental disabilities is a highly decentralized structure relying on contracted provider entities for case management and service delivery. As a result, there is no common, centralized information system for client plans, services, and outcomes. This compromises the state’s ability to plan strategically, provide required regulatory and oversight functions, and develop service policies and procedures. Additionally, because of easier access to statewide information, this POP will allow for greater efficiencies of Department-wide staff engaged in such activities as performance and financial audits, licensing and regulatory activities, and abuse investigations and protective services. This system can also be accessed by CCO’s and as such can assist in efforts to further implement Health System Transformation in regard to individuals with severe disabilities.

- 3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS? By providing access to improved information and data,** this POP will help further all the Department goals as they relate to improved client outcomes, effective and efficient use of resources, improved strategic planning for improved and sustainable future services. This also helps promote statewide goals as they relate to Health System Transformation.
- 4. IS THIS POP TIED TO A DEPARTMENT OF HUMAN SERVICES PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL THE DEPARTMENT OF HUMAN SERVICES MEASURE THE SUCCESS OF THIS POP?** Yes, this POP is tied to most performance measures, fundamental process, and breakthrough measures in that it will be a central component to assessing efficiency, effectiveness, and service outcomes.
- 5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.**
No.
- 6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?** There are possible solutions through the internal development of internal customized systems within the Department, but these are several years in the offering given current resources and competing priorities for existing IT needs. The need for the benefits of a centralized client record and case management system is a current need to be addressed. Discussions with IT representatives are in support of this proposal with the recognition that it might eventually be replaced with an internal system when timing and resources eventually align.

- 7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?** This will continue to compromise the state's ability to provide oversight of services. CMS has expressed concerns about statewide oversight which as a primary funder of service could have adverse consequences or cause less planned response based on compliance with their expectations. Moreover, ODDS has developed a plan to address the sustainability issues associated with the developmental disability system. Lack of access to information that would be provided by this POP could compromise effective implementation and evaluation of that plan. Lastly, the Department faces immediate challenges to its system for providing employment services for people with developmental disabilities. Access to client and case management information on a statewide basis is critical for responding to those challenges.
- 8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?** Community Developmental Disability Programs (CDDP's), as the case management entities, and community service provider entities will be affected since they would be users of the proposed system. OHA and CCO's are also possible users and beneficiaries of the proposed central, electronic record keeping system.
- 9. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?** The assumptions are based on a cost of \$100 per client per month. Client count is based on the 2013-15 forecast of 22,700. The funding for this POP would qualify for an administrative match. For system work OIS has recommended 1 ISS7 and 1 OPA2 for 21 months as contractors.

Implementation Date(s): 7/1/13

End Date (if applicable): _____

- a. **Will there be new responsibilities for the Department of Human Services? Specify which Program Area(s) and describe their new responsibilities.** No.
- b. **Will there be new administrative impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Administrative Services Division LC/POP Impact Questionnaire (at the end of this document).** No.
- c. **Will there be changes to client caseloads or services provided to population groups?** No.
- d. **Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.** No. (See 1B)
- e. **What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?** No. (See 1B)
- f. **What are the ongoing costs?** Annual service costs of \$100 per client.
- g. **What are the potential savings?** It is anticipated that savings will be realized by efficiencies of state staff, in particular those performing audit, regulatory, and abuse/protective service functions related to developmental disability services.
- h. **Based on these answers, is there a fiscal impact?** Yes.

Issue

Should the Department of Human Services continue to manage the budgets for Medicare Premiums, Medicare Skilled Nursing Facility Coinsurance and OHP Post Hospital Extended Care?

Information and Analysis

The Department of Human Services and the Oregon Health Authority will begin operating as separate agencies for the first time in the 2011-2013 biennium. In general, all health care related budgets are now under the management of the Oregon Health Authority. A few notable exceptions exist, however. Those exceptions include:

Medicare Buy-in: This budget pays the Medicare premiums for low-income individuals who, because of their low income, have difficulty making those premium payments. This is a required payment for those individuals who are under 135% of the Federal Poverty Level (FPL) as they are eligible for a Medicare Savings Program. It also contains payments for OHP clients who receive Medicare and are over 135% of FPL. If these premiums were not paid, the Oregon Health Plan would become the first payer on all health claims, resulting in significantly higher costs. These payments are critical to reducing overall expenditures in the Oregon Health Plan. Pooling these resources for Coordinated Care Organization (CCO) contracts may provide additional leverage and purchasing power that would not otherwise be available if the budget remained with DHS.

Medicare Extended Care (Medicare Skilled Nursing Facility coinsurance): Currently, DHS manages the budget for this benefit. This is a Medicare health-related benefit intended to rehabilitate individuals after a period of hospitalization. Medicare pays days 1-20 in full and imposes a coinsurance amount on days 21-100. Transferring this budget to the Oregon Health Authority will give Coordinated Care Organizations the incentive to ensure cost shifts do not occur (e.g. premature hospital discharges) and provide oversight of overall health outcomes.

Oregon Health Plan Post Hospital Extended Care: This benefit mirrors the Medicare skilled nursing facility benefit for individuals without Medicare coverage. The Oregon Health Plan benefit provides for 20 days of

nursing facility coverage after a qualifying hospital stay. Again, transferring this budget to the Oregon Health Authority will give CCOs the incentive to monitor and manage the full continuum of health-related care.

Recommendation: Transfer the following budgets from the Department of Human Services to the Oregon Health Authority during reshoot:

Categories	Clients	Cost Per Case	Total Funds (24-months)	General Funds
Medicare Buy-in (Part A)	5,178	\$469.98	\$58,406,125	\$21,915,280
Medicare Buy-in (Part B)	107,220	\$106.06	\$272,911,118	\$97,888,421
Nursing Facilities Extended Care	125	\$4,608.40	\$13,825,200	\$5,186,305
Nursing Facilities OHP PHEC	10	\$10,872.88	\$2,609,492	\$978,526
		Total	\$347,751,935	\$125,968,532

Transferring these expenditures will allow the Oregon Health Authority to pool these resources and leverage greater purchasing power with the initiatives under consideration. Additionally, it will incent CCOs to manage the full continuum of care for individuals enrolled in their organizations.

Oregon Health Authority

Affirmative Action Report

This report summarizes the progress the Department of Human Services (DHS) and the Oregon Health Authority (OHA) have made in accomplishing its Affirmative Action goals for the 2011-2013 biennium, and identifies the department(s) goals for 2013-2015. DHS and OHA will submit separate Affirmative Action Plans for the 2013-2015 biennium.

ACCOMPLISHMENTS: 2011- 2013

DHS and OHA continue to work to create a diverse, inclusive and multicultural organization, and will continue to build upon our successes to achieve a more culturally competent work force, create culturally appropriate and effective programs and service delivery systems, develop quality improvement strategies with a focus on diversity and create welcoming environments for our diverse client base and staff. The DHS/OHA Affirmative Action Plan is a key component of the departments' ongoing diversity development efforts. These serve to enhance the diversity of our workforce, provide equal employment opportunity, provide guidelines for organizational change, increase participation by diverse constituencies in agency operations, and guide leadership and management by eliminating institutionalized and individual discrimination in the workplace. Our diverse and culturally competent workforce assists the departments to better understand and respond to clients/customers needs.

Progress toward established Affirmative Action goals and Program Development

The following is updated information highlighting significant strategies and progressive steps that are being taken to achieve our 2011-2013 goals:

1. Meet and exceed parity in all EEO job categories and subcategories.

- Increased total department-wide representation of people of color (POC) by 326 employees since July 1, 2010.
- OHA and DHS led the state in employment of women in all EEO job categories.
- Recruited applicants of color by posting job announcements through culturally specific newspaper publications, civic organizations and listserv.
- DHS and OHA position recruitments are sent to the Governor’s Affirmative Action Office for distribution through the Diversity listserv.
- DHS and OHA work with Office of Human Resources Shared Service Recruitment unit to ensure each position at salary range 24 and above is considered for additional strategic recruitment activities over and above the standard advertisement processes.
- Participated in “Say Hey” quarterly gatherings hosted by Partners in Diversity for professionals of color.
- Participated in several job fairs throughout the state which focused on applicants from communities of color, as well as Veterans.
- District staff participated in statewide “Interview Panel” training/orientation which incorporates considerations of culture to include beliefs and practices.
- Continued to strive towards ensuring applicant pools are diverse across education, age, background, ethnicity, experience, etc.

- After an internal review, DHS/OHA began the process of updating the agencies' ADA reasonable accommodations procedure, tracking and best practices regarding reasonable accommodations.

2. Increase DHS/OHA focus on retention.

- Utilized Leadership Academy as an opportunity to promote professional development and promotional advancement for staff of color, women and staff with disabilities.
- Continued to assess the agencies' hiring and retention practices for people of color at Salary Range 21 and above and for people with disabilities at all salary levels.
- The DHS Office of Equity and Multicultural Services (OEMS) and the OHA Office of Equity and Inclusion (OEI) are in the process of finalizing a proposal for the development of Employee Resource Groups.
- DHS and OHA have intranet sites that provide resources to support employees and encourage self-care.
- DHS/OHA provides trainings for staff that outline the importance of a supportive workplace.
- DHS and OHA provide awareness activities to address workplace environment issues using cultural competency training, policy training on the discrimination and harassment free workplace and maintaining a professional workplace.
- Diversity and inclusion staff and representatives for DHS/OHA began to develop and implement ongoing diversity training (in addition to the mandatory cultural competency training). The intent of such trainings is to promote deeper understanding and respect for differences among diverse populations and awareness of individual personal biases and assumptions.

- Created workplace wellness policies that support working mothers (breastfeeding), and people with chronic conditions (physical activity, ergonomics and healthy eating).
- DHS/OHA regularly conducted webinars on health equity and cultural competency. These webinars are promoted and made available to all staff and community partners.
- OHA and DHS revised and implemented a new procedure to investigate, address and track discrimination, harassment and retaliation in the workplace and to address potential systemic issues.

3. Increase DHS/OHA focus on equity, diversity and cultural competency.

- Both DHS and OHA are focused on equity and inclusion in the service to the people of Oregon and are committed to supporting and developing community partnerships to close existing disparities that exist. Each agency has identified specific outcome and process measures.
- DHS added a core value regarding Service Equity with enterprise-wide outcomes and measures related to service equity, employee engagement, customer satisfaction and workforce diversity.
- OHA added a core value regarding Health Equity and has integrated diversity and inclusion and health equity strategies, outcomes and metrics into its enterprise-wide management system.
- OHA and DHS are committed to providing linguistically appropriate services to its customers. To ensure quality and proficiency of its "bilingual staff", OEI and OEMS have developed Bilingual Proficiency Standards policy (still in draft) to establish a standard baseline and assure the language proficiency of its employees.

- DHS developed local diversity strategic plans that include initiatives and strategies to support diversification of our work force and culturally appropriate delivery of services. These plans also support the Agency's 2012 Diversity Strategic Plan. OHA is currently in the process of developing their Diversity Leadership Committee to address similar initiatives.
- Agency diversity and inclusion staff assist programs in reviewing policies and procedures to ensure that elements of cultural competency and cultural appropriateness are embedded throughout such policies.
- DHS and OHA ensured legislative concepts and budget proposals include consideration of cultural competency and cultural appropriateness.
- OHA is working to integrate the principles and practice of equity and inclusion into Health Systems Transformation.
- OEMS, OEI and the Director's Offices have acknowledged through email and website the celebration of cultural events within the state.
- DHS/OHA continues to host community forums within communities of color to increase awareness, solicit input and educate to assess and receive feedback regarding the needs of these communities.
- Some DHS program districts have hosted local diversity conferences. OHA posts information regarding the Health Equity Coalition.
- DHS and OHA diversity and inclusion staff developed culturally competent interview panel training for employees. The training is available for employees through the Learning Center.
- DHS and OHA are working collaboratively across divisions and programs to develop the second State of Equity Report. The purpose of the report is to describe health and social indicators by race and ethnicity in

Oregon overall, and by county or region, as feasible. Potential indicators will include measures of health and human services, health-related behaviors and outcomes, and social factors.

- Maintained administration and management communication of cultural competency efforts and expectations through articles in the DHS/OHA Directors' weekly messages or through the OEI/OEMS Administrator messages.
- Office of Equity and Inclusion produces a newsletter to include a statewide diversity calendar that is made available to all through an extensive listserv and various other networks. The calendar is posted on the OEI web page and is cross-linked with the OEMS website.
- DHS has created "P.A.U.S.E.", a decision-making model to integrate diversity, equity, and cultural competence into all key decision-making.
- DHS and OHA assist in planning and participate in the annual state-wide Diversity Conference.
- Each DHS district is required to have a standing Diversity Committee to address both local and agency-wide diversity and inclusion issues.

4. Increase evaluation, communication and collaboration to achieve Affirmative Action Goals.

- Conducted a statewide training on diversity and its effect on hiring panels to ensure an emphasis on diversification of our work force. Managers were expected to apply what was learned to subsequent hiring practices.
- Department executives reviewed the Affirmative Action reports provided on a quarterly basis.

- OHA has implemented the use of the Intercultural Development Inventory to increase the use of assessment technique strategies and facilitate a discipline of evidence based practice and collaborative learning.
- Participated in “Say Hey” quarterly gatherings hosted by Partners in Diversity for professionals of color.
- OHA convenes a regular meeting of regional diversity and inclusion professionals to collaborate and share and draw from best practices.
- DHS and OHA staff participate in various networking events for diversity and inclusion professionals.
- OHA Cabinet and the Office of Equity and Inclusion formed a subcommittee to develop and implement a strategic diversity development leadership plan for the OHA Cabinet.
- DHS and OHA continue to participate in the Governor’s Marketplace, providing information to various vendor communities on contracting. This annual conference is targeted toward women and minority-owned businesses and provides information to the communities on how to do business with the state.
- DHS and OHA are collaborating with the Office of Contracts and Procurement to increase business opportunity for Minority, Women and Emerging Small Business.

5. Improve ability to measure and benchmark data to document progress and barriers to achieving Affirmative Action goals.

- DHS/OHA reviewed their procedures for applying Veterans’ preference to ensure appropriate considerations for eligibility are consistently being applied in the application process.
- DHS and OHA are using the Oregon E-Recruit System.

- DHS/OHA continued to collaborate with other state agencies and community based organizations around best practices to meet community needs by ensuring culturally competent services and a diverse workforce.
- DHS/OHA provided leadership in forming and supporting community group task forces, forums or committees, such as the African American Advisory Community Council, to strengthen relations with the African American community.
- Both DHS and OHA participated in the creation and review of Request for Application (RFA) for Coordinated Care Organizations (CCOs) to ensure a diversity and inclusion perspectives were incorporated into the RFA proposals.
- OEI and OEMS are addressing health and service equity for all programs and activities within OHA and DHS. The OEI and OEMS have developed policies for collecting, analyzing, and reporting meaningful race, ethnicity and language data across DHS and OHA.
- OHA participated in the Diversity Inc. Top Diversity Employers survey to benchmark its diversity and inclusion progress against industry standards. This will further inform planning and activities for the 2013-2015 biennium.

STATISTICAL SUMMARY

In DHS/OHA as of June 30, 2012;

- There were 10,629 State government employees * – 6814 in DHS and 3815 in OHA.
- Women represent 73 percent of all employees, 77% among DHS employees and 65% among OHA.
 - Women represent 70 percent of all employees at salary range 24 and above, 74% among DHS employees and 63% among OHA.

- People of color represent 20 percent of all employees, 21% among DHS employees and 17% among OHA.
 - People of color represent 14 percent of all DHS employees at salary range 24 and above, 16% among DHS employees and 12% among OHA.
- People with disabilities represent 3.8 percent of all DHS employees, 4.5% among the DHS employees and 2.6% among the OHA employees. The numbers represent only those employees who voluntarily disclose disability status.
 - People with disabilities represent 3.0 percent of all DHS employees at salary range 24 and above, 3.5% among DHS employees and 2.2% among OHA employees.

*The statistics for all of State government includes DHS/OHA.

TRENDS SUMMARY

The Departments have experienced an increase in the workforce representation of women and people of color. We experienced a decline in the number of people with disabilities in DHS/OHA during this report period. Statistical data for people with disabilities are dependent on voluntary, self-identification. DHS/OHA conduct regularly scheduled surveys to offer employees an opportunity to self identify.

2011-2013 Affirmative Action Plan Progress Report

The Governor's Affirmative Action Office establishes parity goals for each agency.

In most EEO job categories the DHS has achieved or exceeded the parity goals established by the Governor's Affirmative Action Office for women and minorities. Of note, there is minor underutilization in Professionals for

People of Color and Service Maintenance for Women. The data also indicates that additional efforts will be needed for people with disabilities for many of EEO job categories.

OHA has also achieved or exceeded parity for women. People of Color are below parity in Officials and Administrators and Professionals. OHA continues efforts to recruit and retain people of color in these areas. Like DHS, OHA will be focusing additional efforts to attract and retain people with disabilities into many job categories.

Corrective Action (2011-2013 and six-year plans)

Although the Department of Human Services and the Oregon Health Authority have been successful in meeting their over-all goals, analysis of the disaggregated figures provide further opportunity for the two agencies to improve the performance of its various divisions and major programs.

The following information identifies areas where DHS/OHA is under parity in EEO job categories (A through H) as of June 30, 2012, and reflects our determination to increase the diversity of our workforce through the use of affirmative action initiatives:

A. Officials and Administrators (SR 24-44):

Women: 0 under parity in this category

People of Color: 16 FTE under parity in this category, 0 in DHS and 16 in OHA.

People with Disabilities: 20 FTE under parity in this category, 14 in DHS and 6 in OHA

B. Professionals (SR 21-33):

Women: 0 under parity in this category

People of Color: 16 under parity in this category, 5 in DHS and 11 in OHA

People with Disabilities: 128 FTE under parity in this category, 58 in DHS and 70 in OHA.

C. Technicians (SR 12-26):

Women: 1 FTE under parity in this category, 1 in DHS and 0 in OHA

People of Color: 0 FTE under parity in this category

People with Disabilities: 5 under parity in this category, 1 in DHS and 4 in OHA.

D. Protective Service Workers:

There are no DHS employees in this EEO job category.

E. Paraprofessionals (SR 14-21):

Women: 4 FTE under parity in this category, 0 in DHS and 4 in OHA

People of Color: 1 FTE under parity in this category, 0 in DHS and 1 in OHA

People with Disabilities: 84 FTE under parity in this category, 42 in DHS and 42 in OHA.

F. Administrative Support (SR 07-23):

Women: 0 FTE under parity in this category

People of Color: 1 FTE under parity in this category, 1 in DHS and 0 in OHA

People with Disabilities: 3 FTE under parity in this category, 3 in DHS and 0 in OHA

G. Skilled Craft (SR 12-26):

Women: 3 FTE under parity in this category, 0 in DHS and 3 in OHA.

People of Color: 1 under parity in this category, 0 in DHS and 1 in OHA.

People with Disabilities: 1 FTE under parity in this category, 0 in DHS and 1 in OHA

H. Service Maintenance Workers (SR 09-20):

Women: 5 under parity in this category, 5 in DHS and 0 in OHA

People of Color: 0 under parity in this category

People with Disabilities: 11 FTE under parity in this category, 0 in DHS and 11 in OHA.

DHS/OHA EEO-4 Job Group Utilization Summary Chart

As of 6/30/2012

EEO-4 Category	Women (Under parity?)		People of Color (Under parity?)		People with Disabilities (Under parity?)	
	DHS	OHA	DHS	OHA	DHS	OHA
A. Officials and Administrators (SR 24-44)	No	No	No	YES 16	YES 14	YES 6
B. Professionals (SR 21-33)	No	No	YES 5	YES 11	YES 58	YES 70
C. Technicians (SR 12-26)	YES 1	No	No	No	YES 1	YES 4
D. Protective Service Workers	NA	NA	NA	NA	NA	NA
E. Paraprofessionals (SR 14-21)	No	YES 4	No	YES 1	YES 42	YES 42
F. Administrative Support (SR 07-23)	No	No	YES 1	No	YES 3	No
G. Skilled Craft (SR 12-26)	No	YES 3	No	YES 1	No	No
H. Service Maintenance Workers (SR 09-20)	YES 5	No	No	No	No	YES 11

**This summary is based on DHS/OHA EEO Report from DAS. "YES" indicates a possible disparity. Larger numbers indicates a greater gap in reaching parity as set by DAS. Note that neither DHS nor OHA employs Protective Service Workers.*

Overall, the Department of Human Services emphasis will be to:(1) maintain our workforce diversity and affirmative action gains, (2) provide for upward mobility and increased representation at higher job levels for women, people of color and people with disabilities, (3) achieve parity representation for the classifications where we are under-represented, and (4) ensure our diverse client population is fully served.

In addition to the aforementioned, the Oregon Health Authority's Cabinet, in partnership with the Office of Equity and Inclusion, is implementing programs and systems that will: (1) provide professional development in the areas of health equity, diversity and inclusion, (2) focus resources toward the recruitment and retention of a diverse and inclusive workforce, and (3) address systemic issues that present barriers to the development of a diverse and inclusive workforce.

Focused initiatives will continue to be emphasized to:

Hold management accountable to set and work diligently to achieve workforce representation and diversity goals specific to their area of responsibility.

Develop a pipeline of qualified employees from underrepresented groups to apply for professional and managerial roles. Leadership development and mentoring opportunities should be increased and targeted.

Provide managerial and non-management staff with training and development opportunities to support career development, organizational growth and effective and inclusive client services. A department-wide cultural competency training initiative started in August 2007 and will provide training to all employees over the next six years.

Continue to support statewide affirmative action efforts, which include encouraging DHS/OHA staff to promote/transfer to other state agencies, i.e. recognize that DHS and OHA are/can be more of a resource for diversity across the state workforce.

Continue to increase the number of qualified women, people of color and people with disabilities on our applicant lists for job openings by working with the OHR Recruitment Unit to maximize the E-Recruit system as a tool for monitoring and ensuring equal employment opportunity by identifying adverse impact or unnecessary barriers to entry.

Continue making proactive use of existing targeted recruitment programs particularly those designed to assist individuals with disabilities.

Expand partnerships with local, state and regional community based organizations, particularly those with ties to people with disabilities.

Improve communication of our commitment to affirmative action and equal employment opportunity through continual program, policy and practice review and the dissemination of this information both internally and externally throughout the department.

Continue to act upon recommendations made as a result of a comprehensive review of DHS/OHA employment practices (recruitment, hiring, retention and promotion) of people of color and people with disabilities, conducted by contractors approved by the Governor's Affirmative Action Office in 2010.

Maintain or develop a strong Diversity Council/Diversity Leadership Committee and local diversity committee structure throughout DHS and OHA.

AFFIRMATIVE ACTION GOALS FOR 2013-2015

The following goals which were identified by an affirmative action planning group from - DHS/OHA for 2011-2013 have been reaffirmed as a focus for the 2013-2015 biennium. Each of the two agencies; however, will submit separate Affirmative Action Plans for 2013-2015.

1. Meet and exceed parity in all EEO job categories and subcategories.
2. Increase recruitment and retention of work force that is representative of the changing demographics of Oregon. This includes veterans and people with disabilities.
3. Increase DHS/OHA implementation and practice of equity, diversity and cultural competency in services and the work place.
4. Increase ability to measure, evaluate and set benchmarks of data, documenting barriers to achieving progress on the affirmative action goals.
5. Maintain and improve communication and collaboration to achieve affirmative action goals.

HUMAN SERVICES, DEPARTMENT of
Annual Performance Progress Report (APPR) for Fiscal Year (2011-2012)

Original Submission Date: 2012

Finalize Date: 10/1/2012

2011-2012 KPM #	2011-2012 Approved Key Performance Measures (KPMs)
1	OVRs CLOSED - EMPLOYED – The percentage of Office of Vocational Rehabilitation Services (OVRs) consumers with a goal of employment who are employed.
2	TANF FAMILY STABILITY – The percentage of children entering foster care who had received TANF cash assistance within the prior two months.
3	TANF RE-ENTRY - The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.
4	SNAP (Supplemental Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.
5	SNAP (Supplemental Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments
6	ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS
7	ABSENCE OF REPEAT MALTREATMENT - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization.
8	Timeliness and Permanency of Reunification of Children.
9	Timeliness of Foster Care Related Adoptions
10	ACCESS TO I & R AND I & A - Access to accurate and consistent Information & Referral and Information & Assistance for people who are not currently served by SPD
11	SENIORS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregon’s seniors receiving SPD long-term care services who are living outside of nursing facilities.
12	DEVELOPMENTAL DISABILITY SUPPORT SERVICES - The percentage of eligible adults who are receiving adult support services within 90 days of request.
13	PEOPLE WITH DISABILITIES IN COMMUNITY SETTINGS – The percentage of individuals with developmental disabilities who live in community settings of five or fewer.

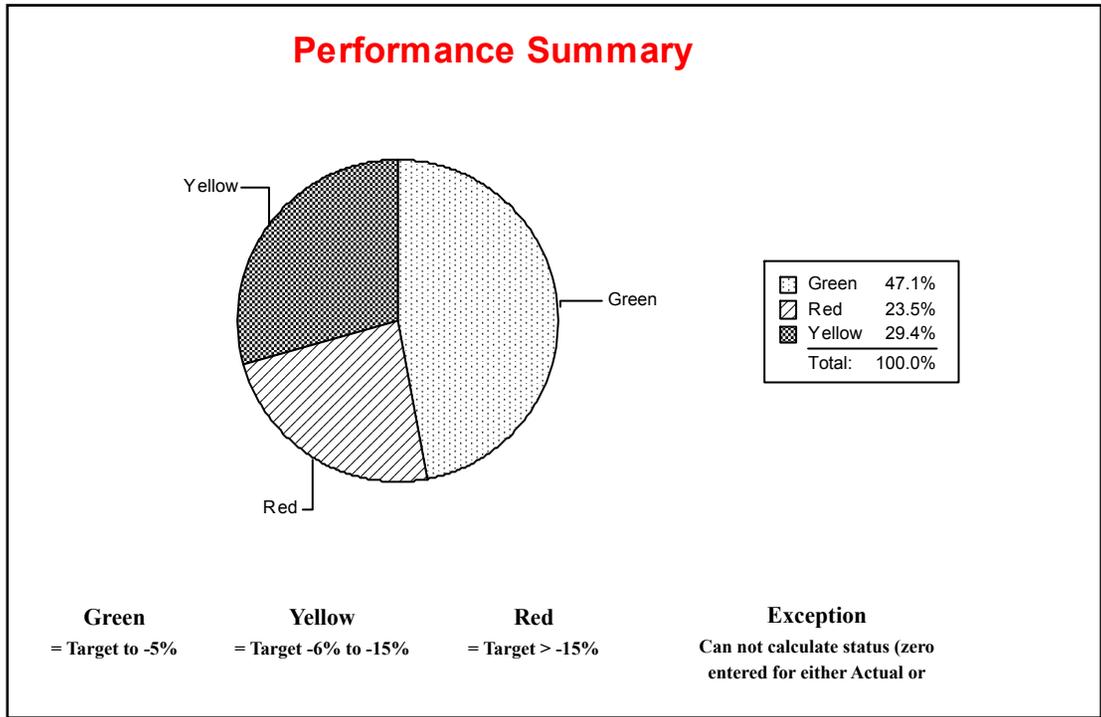

2011-2012 KPM #	2011-2012 Approved Key Performance Measures (KPMs)
14	INTEGRATED EMPLOYMENT SETTINGS - The percentage of people with developmental disabilities who receive SPD services who are working in integrated employment settings.
15	ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of people with developmental disabilities experiencing abuse.
16	ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of seniors and adults with physical disabilities experiencing abuse.
17	CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.

New Delete	Proposed Key Performance Measures (KPM's) for Biennium 2013-2015
NEW	<p>Title: PLACEHOLDER: RE-ABUSE OF SENIORS AND ADULTS WITH DISABILITIES - % of individuals who have experienced re-abuse within a one year period.</p> <p>Rationale: This measure will report re-abuse in facility and community settings to show the effectiveness of protecting victims from repeat abuse.</p>
NEW	<p>Title: PLACEHOLDER: SERVICE EQUITY</p> <p>Rationale: Service equity is a core value for DHS. The Office of Equity and Multicultural Services (OEMS) is charged with providing leadership and direction supporting equity, diversity and inclusion throughout DHS. OEMS is also committed to reducing disparities and barriers within the communities that we serve. DHS has identified KPMs by race and ethnicity and has made the information available in The State of Equity Report. Our goal is to reduce disparities in client outcomes.</p>
NEW	<p>Title: LTC NEED PREVENTION - Percentage of seniors (65+) needing publicly-funded long term care services.</p> <p>Rationale: This proposed new KPM measures effectiveness of strategies to prevent seniors from needing to access publicly-funded long term care.</p>
NEW	<p>Title: LTC RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregonians accessing publicly-funded long-term care services who are living outside of nursing facilities.</p> <p>Rationale: Stakeholder input recommended that this KPM include all long-term care recipients, not just seniors.</p>
NEW	<p>Title: SUPPORTED EMPLOYMENT - Increase the number of individuals in supported employment.</p> <p>Rationale: Supported employment represents breakthrough work the agency is pursuing and is a more functional, refined and meaningful measure. Data structures and capacity are more aligned to report on supported employment. The goal is to increase supported employment by 32% by 2017. We propose to report discrete numbers since percentages may mask success or failure and are not a true representation of progress.</p>
DELETE	<p>Title: ACCESS TO I & R AND I & A - Access to accurate and consistent Information & Referral and Information & Assistance for people who are not currently served by SPD</p> <p>Rationale: DHS proposes to drop this KPM due to a lack of resources to collect the data.</p>

New Delete	Proposed Key Performance Measures (KPM's) for Biennium 2013-2015
DELETE	<p>Title: INTEGRATED EMPLOYMENT SETTINGS - The percentage of people with developmental disabilities who receive SPD services who are working in integrated employment settings.</p> <p>Rationale: We are proposing to replace this KPM with one around supported employment which represents breakthrough work the agency is pursuing and is a more functional, refined and meaningful measure. Data structures and capacity are more aligned to report on supported employment.</p>
DELETE	<p>Title: SENIORS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregon’s seniors receiving SPD long-term care services who are living outside of nursing facilities.</p> <p>Rationale: Stakeholder input recommended the inclusion of all recipients of long term care, not just seniors for this KPM</p>
DELETE	<p>Title: ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of seniors and adults with physical disabilities experiencing abuse.</p> <p>Rationale: PLACEHOLDER: We are proposing to replace this KPM with a measure that reports re-abuse in both facility and community settings. Baseline data are currently being collected.</p>

Proposed Key Performance Measures Targets for Biennium 2011-2013	2012	2013
Title: TANF FAMILY STABILITY – The percentage of children entering foster care who had received TANF cash assistance within the prior two months.	30.00	30.00
Title: SNAP (Supplemental Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments	95.00	95.00
Title: ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS	60.00	64.00
Title: SNAP (Supplemental Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.	80.00	80.00
Title: Timeliness and Permanency of Reunification of Children.	125.00	125.00
Title: TANF RE-ENTRY - The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.	65.00	65.00

HUMAN SERVICES, DEPARTMENT of		I. EXECUTIVE SUMMARY	
Agency Mission: Assisting people to become independent, healthy and safe.			
Contact: Cathy Iles, DHS/OHA Shared Services		Contact Phone: 503-602-1507	
Alternate: Pam McVay, Finance and Research Analysis		Alternate Phone: 503-945-5930	

1. SCOPE OF REPORT

This report covers a broad array of programs throughout the Department of Human Services (DHS), such as employment, child well-being, independence of seniors and people with disabilities that support the mission and goals of the agency. The purpose of this annual performance report is to communicate the results of the work we do. While the primary audience of this report is the Oregon Legislature and other key stakeholders, it is also a communication tool for staff, other governmental agencies and the public.

2. THE OREGON CONTEXT

DHS helps achieve Oregon's goals: Quality jobs for all Oregonians; Safe, caring and engaged communities; and Healthy, sustainable surroundings. The DHS Key Performance Measures support many of the Oregon Benchmarks such as: #14 Workers above 150% of poverty; #51 Child abuse and/or neglect; #52 Elder abuse; #58 Food insecurity; #59 Independent seniors; #60 Working disabled; and, #61 People with physical/cognitive limitations living in poverty. More information about Oregon Benchmarks and state partners can be accessed at http://www.oregon.gov/DAS/OPB/KPM_links.shtml

3. PERFORMANCE SUMMARY

DHS achieved green status on eight (47%) Key Performance Measures. Five (29%) KPMs achieved yellow status. Four (24%) achieved red status. Green status = Target to -5%
Yellow status = Target -6% to -15% Red status = Target > -15%

4. CHALLENGES

Poor economic conditions and unemployment appear to have an influence on many of our measures. Cuts in funding and limited resources (such as staff and providers) have an impact on whether or not we can achieve our desired results. Other challenges include the fact that the work of DHS is complex and requires coordinated efforts to see an impact on the results. It's not uncommon for clients to have multiple barriers to face. They may have drug or alcohol abuse issues, involvement with law enforcement, have mental health challenges, or be unemployed.

It continues to be a challenge to connect the daily work of the agency to intermediate and high level outcomes. However, doing so will enable us to prioritize and clarify the results of what we do (effectiveness) and the importance of efficient processes, thereby creating a culture throughout DHS by which all managers and staff rigorously use performance measures and other metrics for decision-making, managing the daily work and driving improvements throughout the agency. More effective communication with the public and stakeholders of the value of DHS services is desired as we attempt to educate others about our role as good stewards of public resources.

5. RESOURCES AND EFFICIENCY

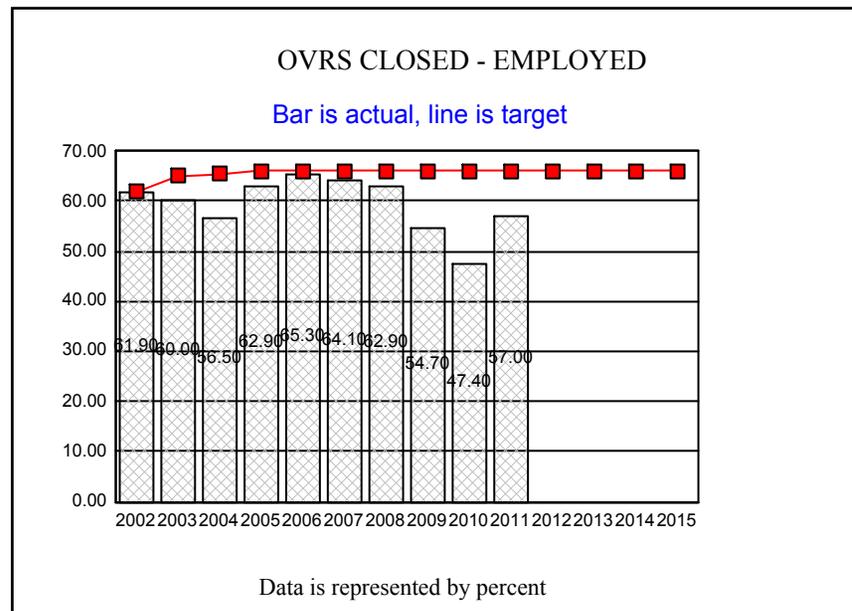

2011-13 Total Fund Budget by Division

This section provides overall budget information for DHS and the major program areas.

Division, Total Funds (in millions), % Funds
Children, Adults and Families, \$4,305.6, 54%
Seniors and People with Disabilities, \$3,543.8, 44%
Central and Shared Services, \$.133.2, 2%
TOTAL FUNDS = \$7,982.6

Source: DHS/OHA Budget, Finance and Analysis Division

KPM #1	OVRS CLOSED - EMPLOYED – The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed.	1997
Goal	People are living as independently as possible.	
Oregon Context	Percentage of individuals receiving services who had employment outcomes during the state fiscal year.	
Data Source	Office of Vocational Rehabilitation Services Core Performance Status Summary Report	
Owner	DHS - Vocational Rehabilitation, David Ritacco, 503-945-6720	

1. OUR STRATEGY

Obtaining and maintaining suitable employment is consistent with the Department’s goal of assisting people to live independently. This outcome measure shows how successful DHS and its partners are at helping people with disabilities become employed in local communities. Based on a Harris Survey of Americans with Disabilities, “Two out of three

unemployed people with disabilities would prefer to be working.” During State Fiscal Year 2011, VR clients who closed with employment earned an average wage of \$11.68 an hour and worked an average of 27 hours per week.

2. ABOUT THE TARGETS

This target, often internally referred to as the success rate, reports the percentage of vocational rehabilitation clients who have received services and maintained suitable employment for a minimum of 90 consecutive days and who have exited the program. A higher percentage indicates more individuals obtaining successful employment outcomes.

3. HOW WE ARE DOING

OVRs' performance declined on this measure with the imposition of the Order of Selection on January 15, 2009, which requires that OVRs serve the most severely disabled clients first, as well with the decline in the labor market during the past year. However, the performance began to improve in FFY 11 increasing from 47% in FFY10 to 57% in FFY 11. Currently, OVRs' percentage of individuals receiving services who had employment outcomes for FFY 12 to date is 57.6%, which continues the improvement in performance seen in FFY11.

4. HOW WE COMPARE

All 50 states have a state run general VR program. The State of Oregon's VR program is required to meet or exceed a national performance level of 55.8 percent. As such, this percentage is considered a minimum acceptable number. The State of Oregon's VR program did not meet this measure in FFY 09 (52.5%) and FFY10 (47%), however Oregon met this requirement in FFY11 (57%) and is on track through June 2012 to meet it in FFY12

5. FACTORS AFFECTING RESULTS

There are two factors which may continue to have an impact on Oregon's performance. The first is the continuing high unemployment rate. The second factor is the threat of the re-imposition of an Order of Selection due to the possibility of further funding cuts at both the Federal and State levels,

6. WHAT NEEDS TO BE DONE

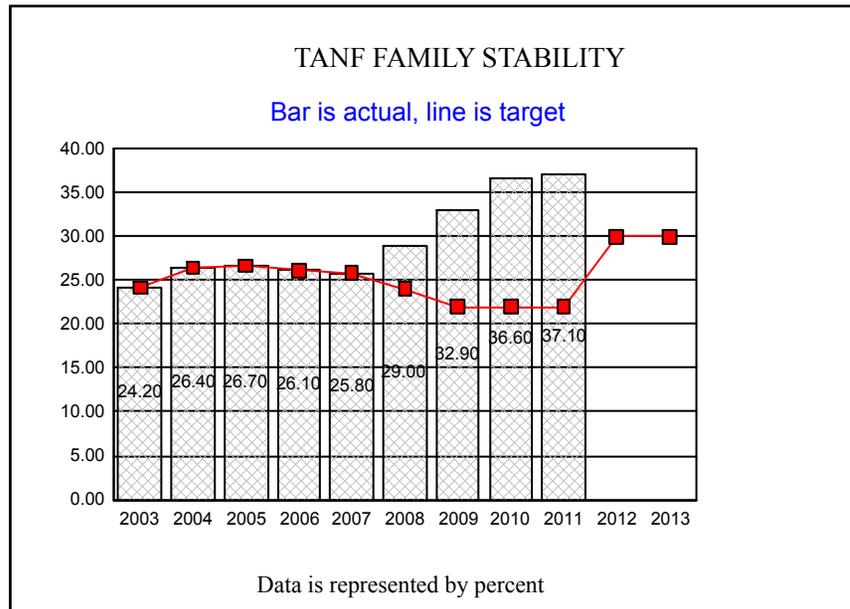

The VR program will continue to conduct program monitoring and implement any necessary program improvements based on the data analysis.

7. ABOUT THE DATA

Reporting cycle – federal fiscal year. The success rate calculation is based on dividing the number of clients who exited the VR program in employment by the number of clients who exited the VR program after receiving services, multiplied by 100.

VR relies on a state and federal relationship. Federal funding requires a state match of 21.3 percent and this has worked well for over 80 years but under the current appropriations, the VR program can meet the needs of only a small percentage of people with disabilities who live in Oregon. The VR program continues to look at state population distributions and have relocated staff to meet the increased demands in specific areas.

KPM #2	TANF FAMILY STABILITY – The percentage of children entering foster care who had received TANF cash assistance within the prior two months.	2007
Goal	People are safe	
Oregon Context	Oregon Benchmark #51 - Number of children per 1,000 persons under 18, who are: a) neglected/abused, b) at substantial risk of being neglected/abused.	
Data Source	Cumulative Federal Fiscal report cycle using AFCARS quarterly is used to identify the number of children entering foster care and Client Maintenance System to identify whether those children were from a household that received TANF cash assistance within the prior two months (referred to as TANF children). The number of TANF children is divided by the total number of children entering foster care for the federal fiscal year to arrive at the percent of children entering foster care who had received TANF cash assistance within the prior two months.	
Owner	DHS - Self Sufficiency, Xochitl Esparza, TANF Manager, 503-945-6122	

1. OUR STRATEGY

This measure tracks the movement of low-income children who leave the TANF program and enter foster care within two months of exit. This is designed to increase the overall effectiveness of the TANF program's family stability efforts.

The programs and services provided include supports to meet immediate needs and holistic family assessments, prevention (Family Support and Connections); Families are offered a holistic family assessment including screenings for physical health, substance abuse, mental health, domestic violence, learning needs and other family stability issues.

Family Support and Connections provides supports to prevent children in at-risk TANF families from entering the child welfare system. Home and community based services are used to guide interventions that build on family strengths and address family functioning issues. The services are designed to strengthen and support families by increasing parental protective factors and addressing risk factors related to child abuse. Temporary Assistance to Domestic Violence Survivors (TA-DVS) provides temporary financial assistance and support services to families with children who need to flee and stay free from domestic violence. TA-DVS is used to help the domestic violence survivor and the children address their safety concerns and to stabilize their living situation, thus reducing the likelihood of the survivor returning to the abuser. These services maintain the safety of these vulnerable children and their parents, and can prevent sometimes life-threatening situations. These services also help prevent child abuse and the need for child welfare intervention.

2. ABOUT THE TARGETS

Our objective is to decrease the percentage of children being served by the TANF cash assistance program who enter the foster care system.

DHS used the 2003 through 2007 performance data to develop a baseline. Currently Foster Care entries are decreasing and TANF cash assistance cases are on the rise, this can cause an increase in the percentage.

3. HOW WE ARE DOING

In FFY2007, 25.8 percent of the children entering foster care had received TANF cash assistance within the prior two months. During FFY2008 29.0 percent of the children entering foster care had received TANF cash assistance within the prior two months. The rate increased to 37.1 percent for FFY2011.

4. HOW WE COMPARE

This is a unique measure for Oregon and, therefore, there is a lack of current data from other states for purposes of a comparison. However, a comparison of Aid to Families with Dependent Children (AFDC) and child welfare caseloads in California, Illinois and North Carolina found the majority of children entering foster care had been removed from AFDC-eligible households (U.S. Department of Health and Human Services, Office of Assistant Secretary for Planning

and Evaluation, 2000).

5. FACTORS AFFECTING RESULTS

The factors affecting results include: multiple child abuse risk factors present in families such as, alcohol or drug use, parental involvement with law enforcement, domestic violence, and unemployment. Often, there are several of these factors in families of child abuse/neglect victims. Following a national trend, the number of Oregon children entering foster care has been decreasing. This has caused an inverse relationship between the total number of children going into foster care and the KPM.

As Oregon's economy worsens it decreases stability in families. There has been approximately 38.4 percent increase in the TANF caseload over the past two FFY's. As the caseload increases a smaller percentage are able to be served.

6. WHAT NEEDS TO BE DONE

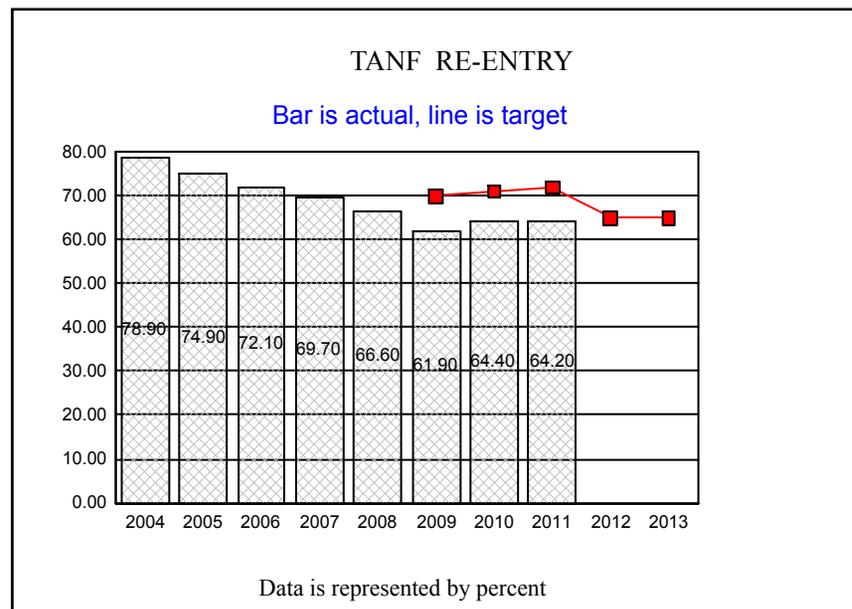

We will continue to monitor data and trends related to family stability, child abuse and foster care utilization.

7. ABOUT THE DATA

Reporting cycle - Federal Fiscal year. AFCARS quarterly data is used to identify the number of children entering foster care and Client Maintenance System to identify whether those children were from a household that received TANF cash assistance within the prior two months (referred to as TANF children). The number of TANF children is divided by the total number of children entering foster care for the federal fiscal year to arrive at the percent of children entering foster care who had received TANF cash assistance within the prior two months.

The percentage can be skewed by differing rate of increase/decrease of the two programs. Currently Foster Care entries are decreasing and TANF cash assistance cases are on the rise, this can cause an increase in the percentage.

KPM #3	TANF RE-ENTRY - The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.	1991
Goal	People are able to support themselves and their families	
Oregon Context	Oregon Benchmark #14 and the DHS high-level outcome; "Percentage of covered Oregon workers with earnings of 150% or more of the poverty level for a family of four."	
Data Source	JAS/TRACS system placement data and Client Maintenance system public assistance data is used to determine the TANF clients who left TANF due to employment and did not return to case assistance ore were still off case assistance 18 months after case closed.	
Owner	DHS - Self Sufficiency, Xochitl Esparza, TANF Manager, (503) 945-6122	

1. OUR STRATEGY

One of the main goals of the Temporary Assistance for Needy Families (TANF) JOBS program is to help clients find and keep employment. The longer clients can maintain

employment, the higher their wages will be. The department's strategies are focused on family stability and as part of this we strive to give clients the tools they need to be successful in the workplace and to reduce incidences of returning to assistance..

Our partners include other state agencies such as the Employment Department and Community Colleges and Workforce Development. We also work closely with county –based services, JOBS program providers, and community social service partners.

2. ABOUT THE TARGETS

Our objective is to increase the number of former TANF clients who do not require future TANF cash assistance. Due to the current economic crisis DHS used only the 2007 performance data to develop a baseline. The target was determined by adding 1% to the baseline performance. The goal for 2012 and 2013 was adjusted to reflect the prolonged effects of the economic recession. This measure has changed from counting all clients who are currently off TANF due to employment, to counting only clients who have never returned. Our goal continues to be focused on achieving high level of success in this area.

3. HOW WE ARE DOING

64.2% of TANF clients that left public cash assistance due to employment between January 2011 and December 2011 were not receiving cash assistance 18 months later, this is slightly lower than 64.4 the previous year. This indicates that the majority of TANF clients who left the program due to employment were having relative success in the workplace, or have found other resources to maintain their own and their family's financial independence. However, the Oregon economic crisis has affected performance in this measure. Oregon's unemployment rate remains higher than the national average. In December 2011, Oregon's unemployment rate was 8.9% .4% higher than the national unemployment rate. The economic crisis has increased demand for TANF/JOBS services and it also has put pressure on funding for the program.

4. HOW WE COMPARE

There are no relevant public or private industry standards that directly compare to this measure.

5. FACTORS AFFECTING RESULTS

This measure may be affected by several things, including the status of the economy, the labor market and industry. It can also be affected by the effectiveness of the JOBS program that determines, coordinates, and provides services to assist TANF clients find and retain employment, and offer strategies to enhance wage gain efforts. As the TANF caseload increases a smaller percentage of families are able to be served in the JOBS program which also affects the program's ability to help families move off assistance through job placement. As a way to help the state balance its budget shortfall, the JOBS Program budget was reduced by half in 2011-13 compared to the previous biennium budget. This meant that the program was funded to support only 25% of those required to participate in employment or other alternatives. Additionally, the Post TANF payment was progressively reduced from \$150 to \$100 and then from \$100 to \$50 in 10/01/10. On May 2011 the Post TANF program was suspended.

6. WHAT NEEDS TO BE DONE

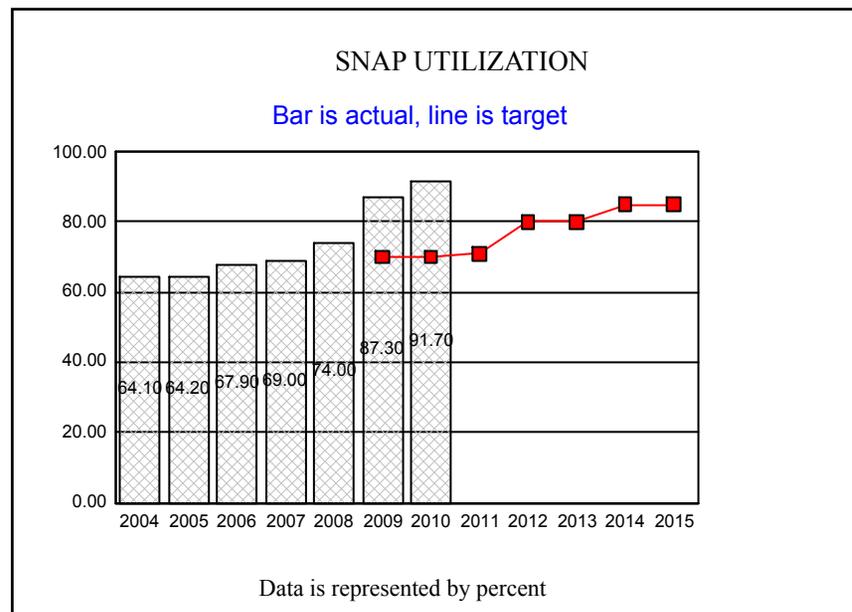

Further study of this measure is needed to ensure it accurately reflects the TANF/JOBS programs' design in future biennia. This measure was modified for calendar year 2010.

7. ABOUT THE DATA

Reporting cycle – Calendar Year. This measure recently changed from counting all clients who left due to employment and are currently off TANF, to counting only clients who have never returned. The methodology and criteria used to obtain the data is adjusted as program changes occur, to ensure the validity of the data. Recidivism and Placement reports are issued separately, on a monthly basis and studied for any potential anomalies, as well as to identify trends in performance. The data is sent to program managers and interested parties.

This KPM was audited in 2009 and was certified as "verified" meaning that performance reported is consistently accurate within plus or minus five percent and adequate controls are in place to ensure consistency and accuracy in collection of all supporting data and subsequent reports.

KPM #4	SNAP (Supplemental Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.	2001
Goal	People are able to support themselves and their families.	
Oregon Context	This performance measure links to the DHS goal, "People are able to support themselves and their families." This measure also links to Oregon Benchmark #57 and the DHS high-level outcome, "Percent of Oregon households that are food insecure as a percentage of the US."	
Data Source	Food Stamp Management Information System and Census estimates.	
Owner	DHS, Self Sufficiency, Belit Burke, (503) 947-5389	

1. OUR STRATEGY

Our strategy is to maintain our outreach efforts, increase access and continue a focus on customer service. Outreach and education efforts will continue to focus on the most vulnerable populations (children and elderly) and the most under-served (the elderly).

2. ABOUT THE TARGETS

Target levels are established to assess the relative improvement in the proportion of Oregonians eligible for Supplemental Nutrition Assistance Program (SNAP) who are accessing the program. An increase in the proportion eligible that accesses the program is a positive outcome. The targets are set using the Program Access Index (PAI), which is one of the measures Food and Nutrition Services (FNS) uses to reward states for high performance.

The PAI is an index of the average monthly number of SNAP participants over the course of a calendar year to the number of people with income below 125 percent of the official poverty level. FNS computes average monthly participation over a calendar year – rather than the Federal fiscal year – to better align the participation count with the annual poverty measure. FNS makes an adjustment to the counts of participants, the numerator of this index, to better reflect State performance in the administration of SNAP.

3. HOW WE ARE DOING

SNAP participation (persons receiving benefits) has increased monthly for several years. In just the last 12-month period (3/31/11 – 3/31/12), the number of households receiving SNAP in Oregon increased by 6.7%: from 411,599 to 439,352 households/805,883 persons (1 in 5 state residents). The DHS SNAP has received federal participation bonuses for the past three federal fiscal years for ranking in the top three states nation-wide in participation rate.

4. HOW WE COMPARE

In 2007 Oregon was ranked number 18 in the nation in participation according to the PAI. In 2008 and 2009, Oregon was ranked second in the nation in SNAP participation based on the PAI and has remained in the top three. FNS ranking is based on the number of potential eligibles compared to the number receiving benefits.

There are eight states within the FNS Western Region: Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon and Washington. (Guam is excluded from this comparison because of its small size and temporary suspension of SNAP.) Within the region, Oregon continues to be ranked 1st in participation (2nd in the nation), the next closest state is Washington, ranked 4th in the nation. California is last in the Western Region and in the nation (ranked 51st). An additional comparison looks at Oregon and other states outside of the Western Region. These states have similar populations and a similar mix of relatively few urban/population centers with larger rural/remote areas as is found in Oregon. These states are: Alabama, ranked 26th; Kentucky, ranked 14th; Minnesota, 40th; Oklahoma, ranked 25th; and South Carolina, 13th.

5. FACTORS AFFECTING RESULTS

Oregon has had great success in encouraging use of the on-line application, which is one of several efforts to ease access to SNAP benefits. The recession created critical need for basic necessities such as food in households that never expected asking for help. Oregon is also working to expand outreach efforts to identify and remove barriers to the SNAP program in all populations.

6. WHAT NEEDS TO BE DONE

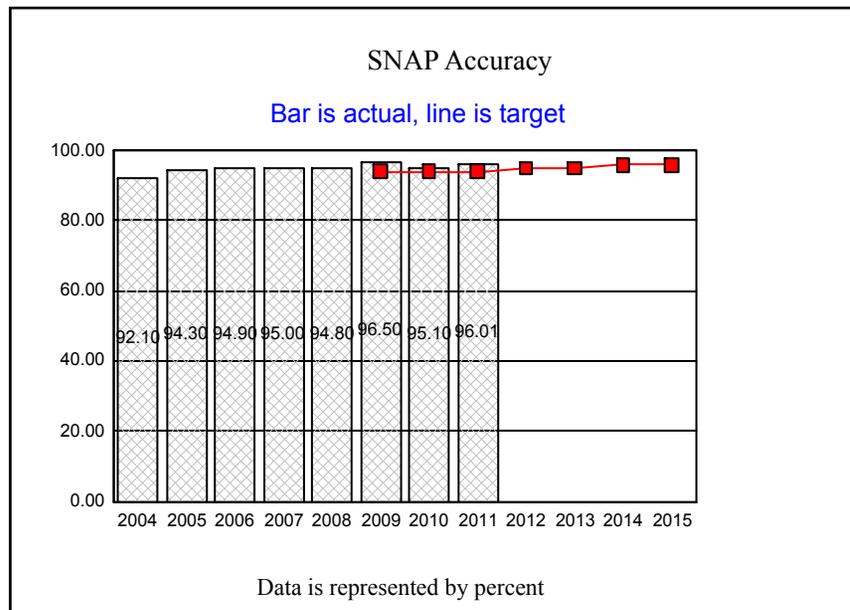

Despite our outstanding performance in getting benefits to eligible households, Oregon as a state has a hunger problem. For several years, Oregon ranked among the top three states in food insecurity: the number of households in which residents were not certain where their next meal was coming from. Finally, the state is making progress. In the latest FRAC data on food hardship, Oregon ranks 26th in the nation^[1]. Oregon continues efforts in outreach and improved customer service to reach more Oregonians; including working to increase population segments that are underserved

[1] Food Research and Action Center; Food Hardship in America (Feb 2012), <http://frac.org/>

7. ABOUT THE DATA

Reporting cycle – calendar year. Reports submitted to Food and Nutrition Services (FNS) from our Food Stamp Management Information system is compared by FNS to Census estimates of Oregonians living at or below the federal poverty level.

KPM #5	SNAP (Supplemental Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments	2009
Goal	People are able to support themselves and their families	
Oregon Context	Oregon Benchmark #58 and the DHS high-level outcome, "Percent of Oregon households that are food insecure as a percentage of the US."	
Data Source	Quality Control (QC) Active case accuracy rate.	
Owner	DHS - Office of Program Integrity - Central Services, Susan Bechtold, Manager - Quality Control Unit, 503-373-7961	

1. OUR STRATEGY

DHS has utilized an effective strategy in the past several years to reduce the error rate to below the national standard. This includes:

- § Use of the SNAP Steering Committee, including field representatives, advocacy groups, policy, and Program Integrity, to oversee accuracy, access and customer services initiatives.

- § Making available a variety of training tools for all levels of field staff, including materials listed on the SNAP policy website. Tools include classroom training, NetLink classes, monthly skill challenges, On Target accuracy newsletter and e-learning.
- § Continuation and enhancement of a local review process which utilizes dedicated program accuracy reviewers. Over three thousand SNAP cases are assessed each month and feedback is shared with local offices. Reports produced from the database help identify areas of concern and keep track of accuracy targets.
- § Updating and expanding SNAP related training, including SNAP core training, interview and narration training, and refresher training.
- § Pursue continuous improvement concepts through Program Integrity Steering Committee.

2. ABOUT THE TARGETS

The target for this measure is for the state's error rate to be below the national standard. The national standard changes every year based on each state's performance. The national standard has improved each year since FY 06. In FY 11, the national error rate was 3.80%, a historic low.

3. HOW WE ARE DOING

Oregon has been out of penalty since lowering the error rate to 5.71 percent in FY 05. In FY 09, Oregon reached an all-time low error rate of 3.54 percent. Oregon decreased the error rate from 4.88 percent in FY 10 to 3.99 percent in FY 11.

4. HOW WE COMPARE

There are eight states within the FNS Western Region: Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon and Washington. (Guam is excluded from this comparison because of its small size.) In FY11, Oregon was ranked fifth in our region in accuracy. The state continues to be ranked first in participation within the region, eight percentage points ahead of the next closest state (Washington).

5. FACTORS AFFECTING RESULTS

Oregon has worked hard to improve our Quality Control Payment Error Rate over the past decade. Despite increasing caseloads, efforts have been successful in reducing the error rate to 3.54 percent in FY 09, an all time low, and to 3.99 percent in FY 11. Strategies contributing to this success include:

- § Statewide Quality Assurance (QA) panel video-conference meetings are held each month to discuss QC errors and preventative measures. This collaborative effort includes participation from field staff, Office of Program Integrity, training staff and policy staff.
- § DHS has implemented an improved intake process. As a result, clients are seen more quickly, benefits are issued sooner and errors caused by delays in processing have been significantly reduced.
- § Provision of "Error Trends" training with a focus on current error trends. Class helps resolve common misunderstanding between SNAP and medical programs.

6. WHAT NEEDS TO BE DONE

Oregon needs to continue to maintain focus on SNAP accuracy. This will be accomplished by continuing to implement the strategies listed above and by ongoing collaborative efforts with Office of Program Integrity, field staff, the SNAP policy unit and training staff. In addition, continuing to move forward with modernization efforts is expected to result in increased program integrity in SNAP.

7. ABOUT THE DATA

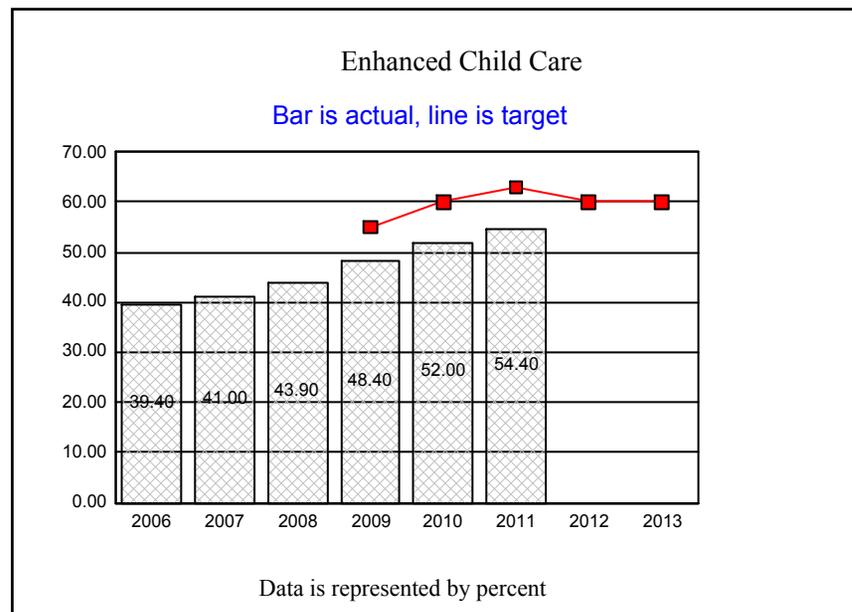

Quality Control (QC) Active Case Accuracy Rate.

This data is available in June every year for the previous Federal Fiscal Year. The data is regressed by federal validation and allows comparison of Oregon to other states. FY 10 and FY 11 payment accuracy data has been regressed by federal validation.

Error rates are published on the FNS Partnerweb website at <https://www.partnerweb.usda.gov>.

The QC active case accuracy rate will be determined subtracting the error rate from 100.

KPM #6	ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS	2009
Goal	People are able to support themselves and their families	
Oregon Context	This performance measure links to the DHS goal, "People are able to support themselves and their families." With respect to children in care this measure links to the DHS goals, "People are healthy" and "People are safe."	
Data Source	DHS Provider Pay system. Percent of children receiving care from providers paid through DHS Provider Pay system receiving the enhanced or licensed rate.	
Owner	DHS - Self Sufficiency, Rhonda Prodzinski, (503) 945-6108	

1. OUR STRATEGY

To improve the quality of care available to subsidized families, DHS provides an incentive of 7% above the standard rate for license-exempt providers who meet the same basic training requirements that are required of licensed family providers.

DHS partners with Child Care Resource & Referral Agencies (CCR&R), Service Employees International Union Local 503 (SEIU) and the Oregon Registry. The CCR&R's educate parents and help them find quality child care. They also assist with provider training that is required to qualify for the DHS enhanced rate. The Oregon Registry documents provider training and encourages trained providers to care for families on the DHS subsidy. DHS, the CCR&Rs, SEIU and the Oregon Registry team together to publicize training and resources available.

A Child Care Orientation class is required for all new license-exempt providers. The Orientation class includes information on resources available including no-cost training on First Aid/CPR, Recognizing and Reporting Child Abuse and Neglect, and Food Handlers to publicize the enhanced rate as well as the USDA Food Program. Providers also receive a license-exempt provider Literacy Tool Kit.

DHS, in collaboration with the Oregon Department of Employment's Child Care Division, will leverage the existing Head Start contracted child care and expand through a field test to Oregon Program of Quality providers. The key goals of the field test are for children to have access to continuous quality child care, for providers to have stable funding and for families to have continuity of quality child care to support their employment. A statewide research team will be engaged to evaluate the field test. The field test for expanding contracted child care is related to priorities set by the Governor and the state's new Early Learning Council (ELC) to better prepare children for kindergarten and beyond. DHS is engaged in this work and is building stronger collaborations with other agencies and partners to integrate our ERDC program with the state's early learning system. Guiding more of our providers through the Oregon Program of Quality will be a priority.

2. ABOUT THE TARGETS

The targets were set based on an anticipated - and desired - increase in the numbers of children receiving care from providers who meet the training standards required to become licensed. These training standards promote child safety and well-being and enhance the quality of child care which encourages a more stable provider base. Stability in care arrangements promotes healthy child development and helps parents remain employed.

3. HOW WE ARE DOING

There was a steady increase in the percentage of children receiving care either from a license-exempt provider receiving the enhanced rate or from a licensed provider from 2009 through present.

4. HOW WE COMPARE

Although a number of states have a tiered reimbursement system for child care providers, requirements vary too widely to draw meaningful comparisons.

5. FACTORS AFFECTING RESULTS

The 2007 Legislature authorized significant rate increases that took effect October 1, 2007. This gave parents increased access to licensed providers. In addition the Legislature authorized significant funding for outreach and training for license-exempt providers. The combination of more parents selecting licensed providers and increased investment in exempt provider training resulted in a steady increase in the percentage of children receiving care from providers earning the enhanced rate or the licensed rate. In July 2010, a Child Care Orientation class became required for all new license-exempt providers.

An analysis of Subsidy Employment by Industry Sector was completed by the DHS Forecasting Unit in April 2010. The majority of ERDC clients work in industries that constrain child care options. Many subsidy parents work evening or night shifts, weekend shift or have a week or less advance notice of work schedule. A recent study confirmed that the majority of subsidy participants have two or more constraints on child care options. [1] Most regulated child care facilities only operate during the day, and many require the parent pay for a part-time or full-time slot, so this limits subsidy parents

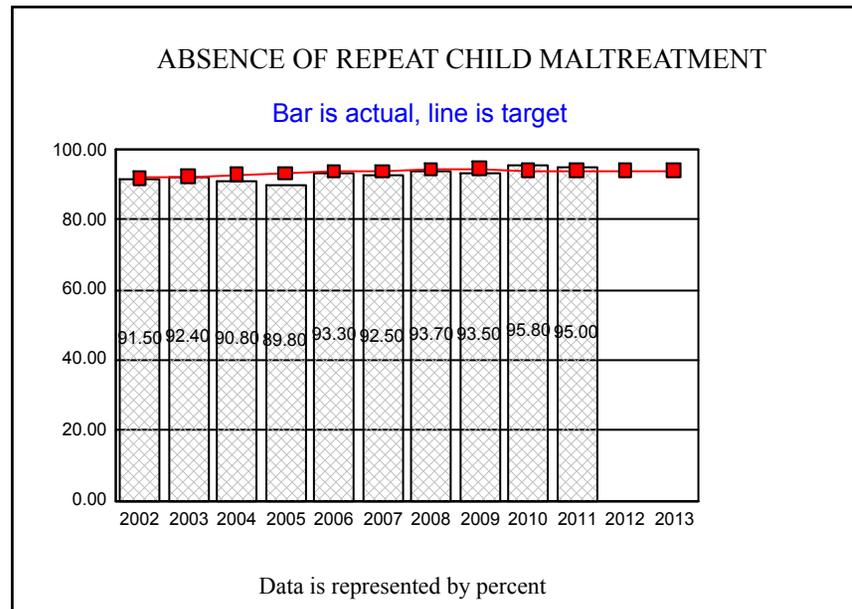

6. WHAT NEEDS TO BE DONE

Efforts to inform parents and providers of the importance of quality child care and training must be improved. Exempt providers are represented by SEIU. DHS, Child Care Resource and Referral agencies and SEIU will continue to work together to promote the enhanced rate and help exempt providers access the training required to earn the enhanced rate. Beginning in September, DHS will offer contracted child care slots for ERDC families with 21 Oregon Programs of Quality (OPQ) facilities and continue contracted slots with some full-day, full-year Head Start programs. OPQ programs have completed a rigorous process of documenting a high level of quality in the areas of collaborative family partnership, child development and learning, physical environment, highly qualified personnel, administrative & business practices and healthy and safety. Field testing will occur with OPQ programs to measure the level of continuous quality child care while participating in the contract. With this expansion of quality providers, we are moving towards more stable programs that promote quality child care providers to a variety of DHS subsidy families.

7. ABOUT THE DATA

Reporting cycle - point in time, October of each year. This measure is reported as a percentage. The data are taken from the DHS Provider Pay system and compares the number of children in care with providers earning the enhanced and licensed rate to the total number of active providers in the system. As a result, the number is very reliable. Any variance caused by possible coding errors would be too small to be statistically significant. The data has been adjusted to include Head Start. Beginning, September 1, 2012, OPQ contracted child care will need to be included.

KPM #7	ABSENCE OF REPEAT MALTREATMENT - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization.	1997
Goal	People are safe	
Oregon Context	This performance measure links to the DHS goal, "People are safe." It also links to Oregon Benchmark #50 and the DHS high-level outcome, "Number of children per 1,000 persons under 18, who are: a) neglected/abused, b) at a substantial risk of being neglected/abused." This measure concerns children who are victims in founded cases of abuse. The term "founded" means that there is reasonable cause to believe that child abuse or neglect has occurred.	
Data Source	State Child Welfare HS data system. State Child Welfare IIS data system.	
Owner	DHS - Child Safety Program, Office of Child Welfare Programs, Stacey Ayers (503) 945-6696	

1. OUR STRATEGY

The state Child Welfare Program in conjunction with the National Resource Center for Child Protective Services (NRCCPS) developed and implemented a comprehensive Safety Intervention Model in March 2007. The Safety Intervention Model includes all actions and decisions required throughout the life of a case to:

- Define Child Welfare as the “safety expert” and assure that all child welfare staff receives training in child safety interventions.
- Assess allegations of child abuse in a timely manner and provide a comprehensive protective capacity assessment of caregivers when a child has been determined to be unsafe.
- Develop focused service plans in families impacted by issues of abuse and create change goals to increase capacity and restore safety for children.
- The Safety Intervention System includes specific statewide training, and policy/procedure development to *reconfirm* the safety of children in their own homes or in out-of-home care throughout the life of the case. Active safety monitoring will enhance safety of children and decrease the potential of reabuse.
- The Model moves away from incident-based child abuse assessments toward comprehensive safety assessments which focus on six factors related to child safety: 1) The extent of the abuse or neglect; 2) The circumstances surrounding the abuse or neglect; 3) Child functioning; 4) Adult functioning ; 5) Parenting; and 6) Disciplinary practices.

2. ABOUT THE TARGETS

The current national standard for Absence of Repeat Maltreatment is 94.6 percent. The Target for 2015 is set at the national standard level, with the 2014 Target representing a middle ground between the 2013 and 2015 Target. Oregon has been performing above the stated Targets for the 2010 and 2011 period. The Targets are not set above current performance because 1. The performance Target selected does represent achievement of the current national standard. 2. Between 2010 and 2011 Oregon experienced a decrease in performance.

3. HOW WE ARE DOING

In 2010, Oregon achieved its best performance in this measure with 95.8% of children not experiencing repeat maltreatment, an increase of 2.3% above 2009. Between 2010 and 2011 Oregon experienced a decrease in performance.

4. HOW WE COMPARE

Oregon’s absence of repeat maltreatment rate is higher than the national standard of 94.6%.

5. FACTORS AFFECTING RESULTS

Much of this decrease can be attributed to the static staff available to do adequate safety analysis for when children remain at home. The comprehensiveness of child abuse/neglect assessments takes significant resources and workload demand and urgency. The major factors affecting families of abused and neglected children are drug/alcohol abuse, parental involvement with law enforcement, domestic violence and poverty. Often, there are several of these factors co-occurring in families of child abuse/neglect victims.

6. WHAT NEEDS TO BE DONE

Oregon has implemented a Safety Intervention model to improve safety intervention and service provision to families impacted by child abuse and neglect. As Oregon's Child Welfare system continues to improve in its use of the Safety Model and how we approach this performance measure, our plan includes ongoing statewide training on comprehensive assessments, in-home safety planning, conditions for return, and reconfirming the safety of children in their own homes or in out-of-home care throughout the life of the case. Active safety monitoring will enhance safety of children and decrease potential of reabuse. A concerted effort to provide further training on the safety model with Supervisors will also occur.

Oregon is also in the beginning stages of implementing a Differential Response system. Once fully implemented, the goal of this alternative response is to decrease the number of children maltreated in Oregon. Differential Response is about assessing the needs of each family on an individual basis and offering services to meet those needs. It allows for greater flexibility in responding earlier and more meaningfully towards a collaborative helping process for families.

Finally, DHS is enacting SB 964 which requires DHS and county partners to implement programs to provide family preservation and reunification services for children in the custody of DHS, with the goal of fostering collaboration across programs and resources to help children remain safely with their families and thereby reduce the number of Oregon children in foster care.

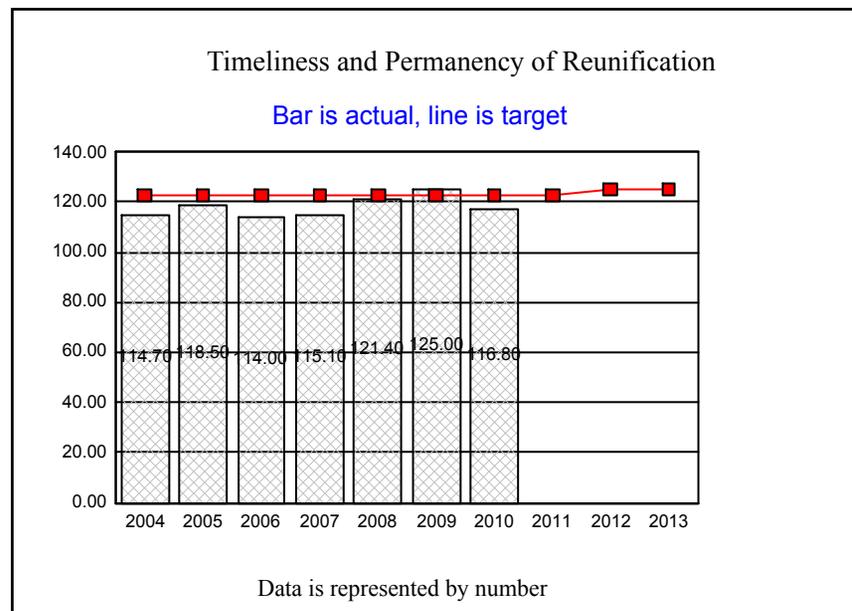

Both Differential Response and SB 964 provide earlier interventions that connect families with preventive, community based services which can prevent further contact with the Child Welfare System, thus further reducing the reabuse rate.

7. ABOUT THE DATA

Definition: Of all children who were victims of a substantiated maltreatment allegation during the first 6 months of the year, the percent who were not victims of another substantiated maltreatment allegation within 6 months of the original abuse/neglect.

This KPM was audited in 2008 and was certified as "verified" meaning that performance reported is consistently accurate within plus or minus five percent and adequate controls are in place to ensure consistency and accuracy in collection of all supporting data and subsequent reports.

KPM #8	Timeliness and Permanency of Reunification of Children.	2009
Goal	People are safe	
Oregon Context	This new systemic key performance measure aligns with Oregon's vision to have safe, caring and engaged communities.	
Data Source	The data used for this KPM are the same data gathered and reported to the federal government every six months as part of Oregon's Federal Child and Family Services Review (CFSR).	
Owner	DHS - Child Well-Being Program, Office of Child Welfare Programs DHS Kevin George (503) 945-5987	

1. OUR STRATEGY

The state Child Welfare Program in conjunction with the National Resource Center for Child Protective Services (NRCCPS) developed and implemented a comprehensive Safety

Intervention Model. This model was implemented in March 2007. The Safety Intervention Model includes actions and decisions required throughout the life of a case to assure safety, and determine "Conditions for Return" among other model attributes. The Conditions for return is the driving factor for families, the Courts and DHS to determine when it's appropriate to reunify the child home

Conditions for Return

"Conditions for return" means a written statement of the specific behaviors, conditions, or circumstances that must exist within a child's home before a child can safely return and remain in the home with an in-home ongoing safety plan.

All Child Welfare caseworker staff and management attend Child Welfare CORE Training as they begin their work in Child Welfare. This multi-week training supports the goals and objectives:

- Children are, first and foremost, protected from abuse and neglect;
- Children have permanency and stability in their living situation;
- Families have enhanced capacity to provide for their children's needs;
- Children receive adequate services to meet their educational, physical and mental health needs.

2. ABOUT THE TARGETS

The target for 2012 and onward represents the national standard for this measure. The national standard is the 75th percentile of performance of all states (i.e. 75 percent of all states perform worse than the national standard). A higher number of this measure represents better performance.

3. HOW WE ARE DOING

This measure is based on federal AFCARS data (Adoption and Foster Care Analysis and Reporting System). There were some conversion issues when the State's legacy data was transferred into the new OR-Kids data system, therefore, reporting this measure for 2011 is unreliable at this time. Conversion data clean-up efforts are being implemented.

4. HOW WE COMPARE

Oregon has been tracking below the National Standard for this performance measure.

5. FACTORS AFFECTING RESULTS

The major factors affecting families of abused and neglected children are drug/alcohol abuse, parental involvement with law enforcement, domestic violence and unemployment. Often, there are several of these factors co-occurring in families of child abuse/neglect victims. Continued availability of resources and services to address these factors may impact these measures in future years.

6. WHAT NEEDS TO BE DONE

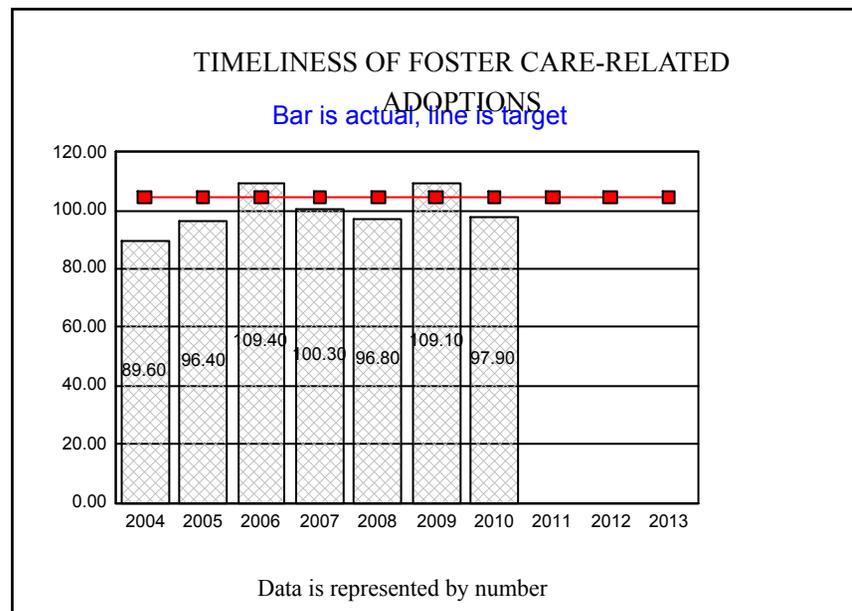

The Child Welfare “system”; Courts, communities, families, and DHS must continue to develop models which allow for a Differential Response to removal of children and necessitating foster care. This non-removal opportunity will assist children and families remaining together and reduce the need for reunification performance measurements.

While reunification remains a focus to reduce the length of time in foster care the department and system partners must simultaneously focus on ensuring safety, preventing re-abuse and re-entry into the foster care program.

7. ABOUT THE DATA

The measure is reported on a federal fiscal year basis (September – October). The data come from the Adoption and Foster Care Analysis and Reporting System, or AFCARS. AFCARS collects case-level information on all children in foster care for whom state child welfare agencies have responsibility for placement, care or supervision, and on children who are adopted under the auspices of the State's public child welfare agency. The data in the AFCARS files are originally collected by the State’s SACWIS (State Automated Child Welfare Information System).

KPM #9	Timeliness of Foster Care Related Adoptions	2009
Goal	People are safe	
Oregon Context	This systemic KPM aligns with Oregon's vision to have safe, caring and engaged communities.	
Data Source	The data used for this KPM are the same data gathered and reported to the federal government every six months as part of Oregon's Federal Child and Family Services Review (CFSR).	
Owner	DHS -Office of Child Welfare Programs, Kathy Prouty, Adoptions Program Manager, 503-947-5358	

1. OUR STRATEGY

While children need and deserve timely permanency, the processes to terminate parental rights and establish a legal and emotional relationship with a new (adoptive) family is complex and time consuming. This process is being accomplished with due care given to protecting the civil rights of the biological family while at the same time assuring, as much

as possible using good social work practice, that the child's new (adoptive) family will truly be permanent and meet his or her current and life-long needs.

Identification and implementation of efficiencies in the adoption process intended to decrease the length of time to achieve finalization and increased monitoring and support of cases and families as they move through the process to finalization, to include:

- Use of the SAFE Home Study model as a common study approach to approval of families
- Improvement to the waiting child recruitment bulletins
- Recombining foster and adopt recruitment
- Targeting specific recruitment strategies in Native American and African American communities
- New tools to enhance in-state general applicant adoptive home recruitment that includes an intra-state web-based photo exchange
- Comprehensive revision of administrative rules for adoptions impacting timeliness to achieving adoption plan goals from recruitment and selection through finalization
- Comprehensive revision of administrative rules addressing early and ongoing concurrent permanent planning with respect to engagement of and placement with relatives and sibling planning
- Comprehensive revision of administrative rules for adoptions impacting timeliness to legally-free children for adoption
- Development and implementation of new statutes, policies and procedures for international adoptions involving children leaving Oregon foster care for transnational adoption by relatives.
- Work with JCIP on the impact Judges can have on increasing timeliness of adoption

2. ABOUT THE TARGETS

The target for this measure represents the goal within Oregon's Program Improvement Plan. The national standard for this measure is 104.4 or higher. The national standard represents the 75th percentile in performance among states (i.e. 75% of states have a Timeliness of Adoptions score LOWER than 104.4).

3. HOW WE ARE DOING

This is a composite measure taking into account separate performance components impacted by practice, policy, and statute. One component, median months to adoption, improved between 2009 and 2010. However, the other components in Timeliness to Adoption indicate decreased performance in the progress towards adoption for those children who are legally free or who have been in foster care for 17 or more months. The net result is a decrease in performance in this KPM by 10.3% from the 2009 level, putting the KPM at 6.2% below the target.

This measure is based on federal AFCARS data (Adoption and Foster Care Analysis and Reporting System). There were some conversion issues when the State's legacy data was transferred into the new OR-Kids data system, therefore, reporting this measure for 2011 is unreliable at this time. Conversion data clean-up efforts are being implemented.

4. HOW WE COMPARE

Currently, Oregon's performance is below the national standard.

5. FACTORS AFFECTING RESULTS

Please see OUR STRATEGY for a partial explanation of the emphasis and efforts made by the department in the last year to facilitate continuous improvement in regard to Permanency Composite 2: Timeliness of Adoptions. In addition, the Department successfully completed the set of Benchmarks and Actions on its Child and Family Services Review Program Improvement Plan specifically targeting and impacting this performance measure.

6. WHAT NEEDS TO BE DONE

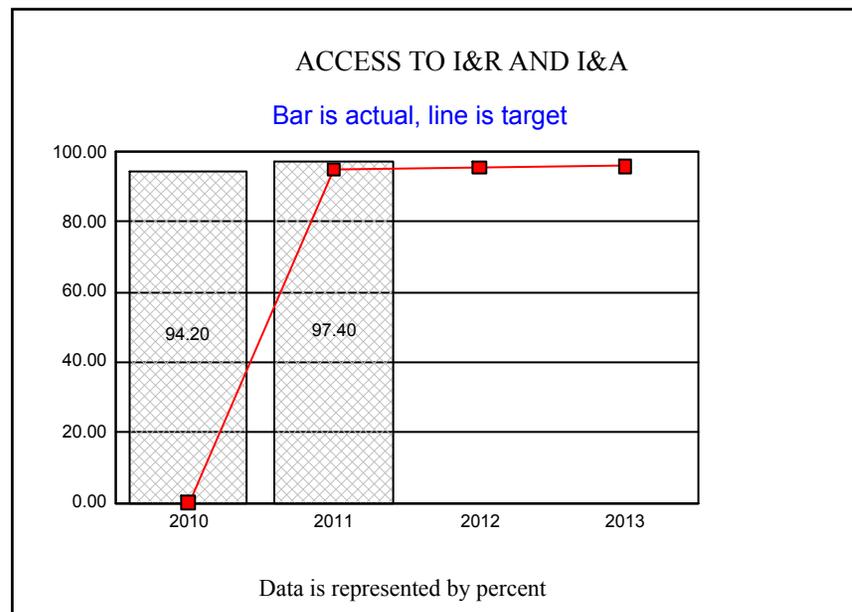

The Department should continue to proceed with implementation and development of the various activities identified in OUR STRATEGY section.

7. ABOUT THE DATA

The timeliness of adoptions composite KPM is made up of five individual measures. There are two measures around timeliness of adoptions, two measures around the progress being made for children in care at least 17 months, and one measure for those children who are legally free and progress towards finalization.

Each of these measures has been combined into one overarching score. A higher score represents better performance. The data represents performance during a federal fiscal year (October – September).

KPM #10	ACCESS TO I & R AND I & A - Access to accurate and consistent Information & Referral and Information & Assistance for people who are not currently served by SPD	2009
Goal	People are living as independently as possible	
Oregon Context	Providing information about long-term services and supports to all Oregonians regardless of income.	
Data Source	Aging and Disability Resource Connection (ADRC) Client Contact Database	
Owner	DHS – Aging and People with Disabilities, Elaine Young, (503) 373-1726	

1. OUR STRATEGY

APD has been awarded several federal grants to operationalize Aging and Disability Resource Connection of Oregon (ADRC) in several Oregon counties. The ADRC employs systematic processes to provide I &A/R to consumers through a web-based application that hosts a resource database and client contact module. Data from this system coupled

with a consumer satisfaction survey will inform the performance measures established by the ADRC.

2. ABOUT THE TARGETS

APD will be establishing the targets for this KPM with BAM and LFO per our budget note.

3. HOW WE ARE DOING

The ADRC Website (www.ADRCoforegon.org) and Client Contact Module was launched in three (3) Area Agencies on Aging (AAA) in January 2011. As of July 2012 we have nine (9) AAAs using the system. We have established one statewide brand for the ADRC to facilitate ease of access for consumers and marketing to increase awareness. The ADRC searchable resource data base has over 6,000 resources for use by consumers and ADRC staff. We are piloting a statewide toll free number (1-855-ORE-ADRC, 1-855-673-2372) in preparation for statewide roll-out in the fall of 2012. 43 Area Agency on Aging Information and Referral Specialists are now nationally certified by the Alliance of Information and Referral Systems (AIRS).

4. HOW WE COMPARE

APD has completed the baseline satisfaction survey with consumers accessing the ADRC and will repeat the survey in the Fall of 2012. The survey was developed, administered and analyzed by the Institute on Aging at Portland State University. The baseline survey has informed the establishment of metric thresholds for the ADRC standards. Future surveys will measure performance on the standards.

5. FACTORS AFFECTING RESULTS

Sustainable mix of funding.

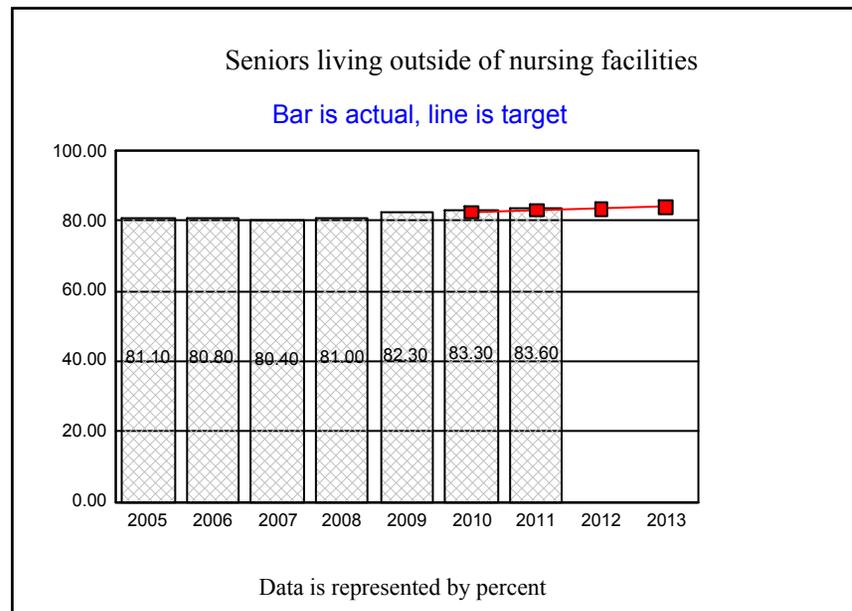

6. WHAT NEEDS TO BE DONE

APD will continue to operationalize ADRCs in Oregon as federal grant funds permit.

7. ABOUT THE DATA

Performance on this measure was calculated by taking the total number of calls recorded in the ADRC Client Contact Modules compared to the number of calls that resulted in a documented referral or assistance.

KPM #11	SENIORS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregon’s seniors receiving SPD long-term care services who are living outside of nursing facilities.	2002
Goal	People are living as independently as possible.	
Oregon Context	Independent Seniors	
Data Source	Office of Forecasting, Research and Analysis	
Owner	DHS – Seniors and People with Disabilities, Mike McCormick, (503) 945-6229	

1. OUR STRATEGY

This performance measure links to the DHS goal – “People are living as independently as possible.” This measure also links to Oregon Benchmark #58 and the DHS high-level outcome “Percent of seniors (over 65) living independently.” This measure concerns seniors and people with disabilities and maintaining them in the most independent settings.

Institutionalization of people age 65 and older has historically been used as a marker of the degree to which seniors are living independently and has been extensively tracked. A nursing facility is an institution; people who live in their own homes, in the homes of family, or in community based care settings, adult foster homes, assisted living facilities, and residential care facilities are considered to be living independently. DHS strategy continues to emphasize maintaining seniors in their home communities, outside of institutions, to the maximum extent possible.

APD has increased its efforts to divert or relocate people who receive Medicaid-funded long-term services from nursing facilities and into home or community settings.

2. ABOUT THE TARGETS

This measure is used by APD to track its performance at helping seniors and people with disabilities age in their own communities. APD recognizes that some people must be served in institutional settings, but some institutionalized individuals could receive services in other less restrictive settings if they were available. Oregon continues to be the nation's leader in identifying and establishing community based options to institutional care, and as a result, the values of choice, dignity, and independence for Oregon's senior and disabled citizens continue to be the focus of all agency activities.

3. HOW WE ARE DOING

APD is making steady, continued progress at serving seniors and people with disabilities in settings less restrictive than nursing facilities.

4. HOW WE COMPARE

In a recent nationwide study conducted by AARP, Oregon's long term care system was ranked #3 over a wide variety of factors.

5. FACTORS AFFECTING RESULTS

Hospitals continue to discharge patients "sicker and quicker". In many cases, hospital preference on discharge of a senior who needs additional care is a nursing facility. While institutional care may be appropriate for certain individuals for short periods of time, DHS must continue to aggressively ensure that seniors are appropriately discharged from nursing facilities.

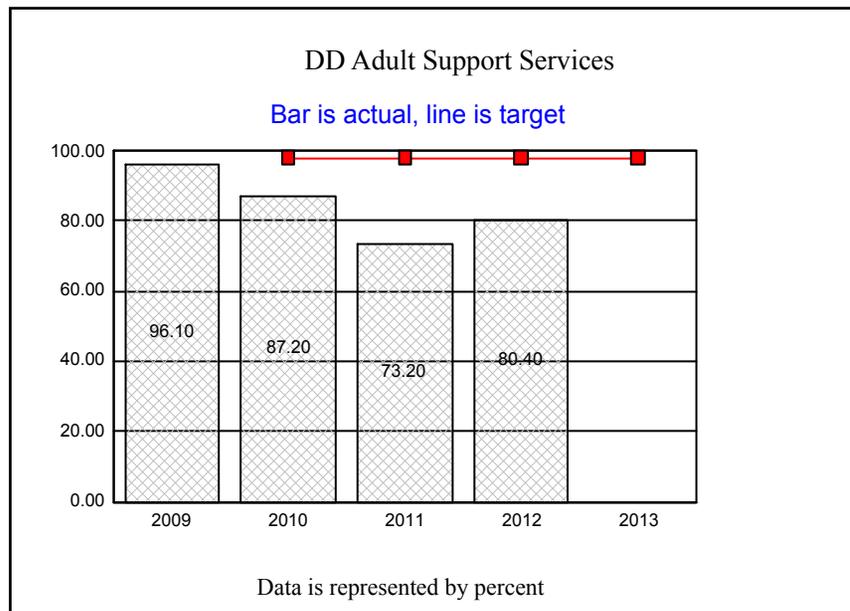

6. WHAT NEEDS TO BE DONE

APD should continue to develop community resources to address the needs of seniors who may not be able to live fully independently, but need not live in an institution. APD needs to reinvigorate its diversion and transition program to ensure the steady rate of deinstitutionalization remains.

7. ABOUT THE DATA

Data comes from the Office of Forecasting, Research and Analysis. The Office of Forecasting, Research and Analysis publishes actual caseloads in long term care each month. The calculation is $1 - (\text{Total Nursing Facility Long Term Care} / \text{Total Long Term Care})$. An average of each calendar year is reported.

KPM #12	DEVELOPMENTAL DISABILITY SUPPORT SERVICES - The percentage of eligible adults who are receiving adult support services within 90 days of request.	2009
Goal	People are independent. People are safe.	
Oregon Context	Oregon Benchmark – Working Disabled	
Data Source	Express Payment & Reporting System (eXPRS)	
Owner	DHS, Developmental Disabilities, Mike Maley, 503-947-4228	

1. OUR STRATEGY

Office of Developmental Disability Services (ODDS) tracks individuals enrolled in case management for developmental disabilities services who will be turning 18 or otherwise eligible for Adult Support Services using the case management service enrolment data system. In addition, all exits from Support Service Brokerages are tracked to best utilize

vacant capacity. Contracts are modified or new providers solicited to meet the forecasted need as resources allow.

2. ABOUT THE TARGETS

Adult Support Services were developed as a result of the Staley Settlement Agreement. This in-home service for adults with developmental disabilities was the key service accessed to eliminate the wait list for services. Based on the provisions of the settlement, these services needed to be accessed within 90-days of eligibility. The settlement agreement ended in June of 2011. But ODDS is still maintaining the 90-day access threshold as a performance measure, since timely access to service and avoidance of a wait list are important system features.

3. HOW WE ARE DOING

Meeting this target is an ongoing challenge. While individuals are still accessing services, the absolute target of 90-days is not always met.

4. HOW WE COMPARE

There is no equivalency in other states or systems from which to make comparisons. This measure needs to be assessed within its own baselines and metrics.

5. FACTORS AFFECTING RESULTS

In October 2011, Legislative action required that only adults with developmental disabilities eligible for federally funded Home and Community-Based Service Waivers would be eligible for Adult Support Services. Up to that time, this was not a requirement for accessing adult support services. This created another level of action prior to enrollment which as slowed down the process. Additionally, costs per case have escalated, this has caused less resources to be available to expand services to meet forecasted needs.

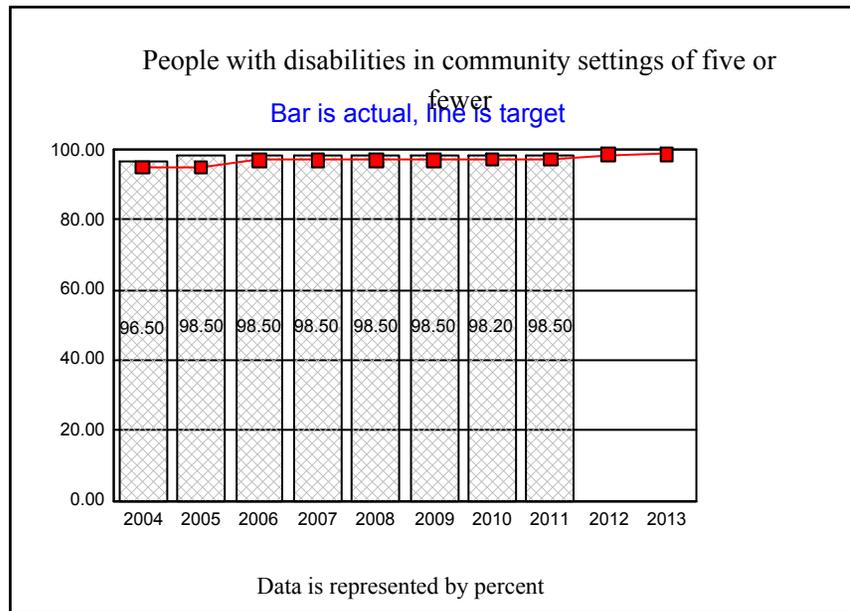

6. WHAT NEEDS TO BE DONE

ODDS is working with the DHS/OHA Forecast and Budget Units to identify trends, future growth, and associated costs. Some modifications to the data collection process may be necessary to assure accurate reporting and analysis.

7. ABOUT THE DATA

Data comes from Express Payment & Reporting System (eXPRS). The reporting cycle is fiscal year. The calculation is: Number of adults receiving adult support services within 90 days of request divided by the number of adults who were eligible and referred for adult support services.

KPM #13	PEOPLE WITH DISABILITIES IN COMMUNITY SETTINGS – The percentage of individuals with developmental disabilities who live in community settings of five or fewer.	2002
Goal	People are living as independently as possible.	
Oregon Context	Increase the percentage of Oregonians with a lasting developmental, mental and/or physical disability who could live on their own with adequate support.	
Data Source	Express Payment & Reporting System (eXPRS)	
Owner	DHS, Developmental Disabilities, Mike Maley, 503-947-4228	

1. OUR STRATEGY

The Office of Developmental Disability Services (ODDS) provides an array of support for people that qualify for services. Historically, many services were provided in large institutions or other congregate care situation. In recent years focus has been on the development of small (5 or less) residential service settings or the provision of supports in the

private home of the individual with developmental disabilities or their family. Critical partners include County Developmental Disabilities Programs, Oregon's network of private service provider entities, and a variety of advocacy/stakeholder organizations.

2. ABOUT THE TARGETS

ODDS provides opportunities to individuals with developmental disabilities to become better integrated with and included in their local communities. By making it possible for people with developmental disabilities to live in small community settings or their own/family homes service outcomes are improved, client satisfaction is higher, and cost efficiencies are achieved. Smaller service settings also provide individuals a chance to experience living in an environment that approximates those experienced by all other Oregon citizens. Additionally, people with developmental disabilities can take advantage of everyday community life and involvement and take advantage of the opportunities this offers.

3. HOW WE ARE DOING

DHS has met or exceeded its target for the past years.

4. HOW WE COMPARE

Oregon ranks near the top in states that provide small residential or in-home services. Oregon is one of only three states that have no public or private institutions (Intermediate Care Facilities for individuals with Intellectual Disabilities – ICF/ID) serving individuals with developmental disabilities.

5. FACTORS AFFECTING RESULTS

ODDS, in recent years through the implementation of the Staley Settlement Agreement and development of Family Support and other in-home type services continues momentum in providing small community-based or family setting services to people with developmental disabilities. Continued implementation of Crisis Diversion assists in keeping people from institutional placement. PASRR- the Pre-Admission Screening Resident Review - is a screening tool which is used to prevent the placement of individuals with mental illness or intellectual or other developmental disabilities (I/DD) in a nursing facility unless their medical needs clearly indicate they require the level of care provided by a nursing facility. When placement into a nursing facility is ruled out, smaller, community based settings are explored. In-home support services and establishment of the Housing Trust Fund also support this measure.

ODDS reviews the programs with people greater than five persons to determine their ability to fill vacancies in the program. Agencies are required to offer vacancies to individuals determined to be in crisis and in need of residential services. If the larger size program cannot meet the need due to low staff to high client ratio, programmatic changes may be required.

6. WHAT NEEDS TO BE DONE

Preservation of policy and funding structures that contribute to the maintenance and / or improvement of efforts for providing in-home services to persons with developmental disabilities, and continued attention to the impact of aging family caregivers and their needs. Access to funding for modifications of homes to assure their accessibility and

appropriateness in regard to individual needs. Finally, access to low income housing options is a major barrier and needs to be addressed.

Next steps also include a focus on quality of life issues, particularly for those clients under age 18, and review of existing larger (6 or more) group homes with respect to their ability to meet the needs of the community.

7. ABOUT THE DATA

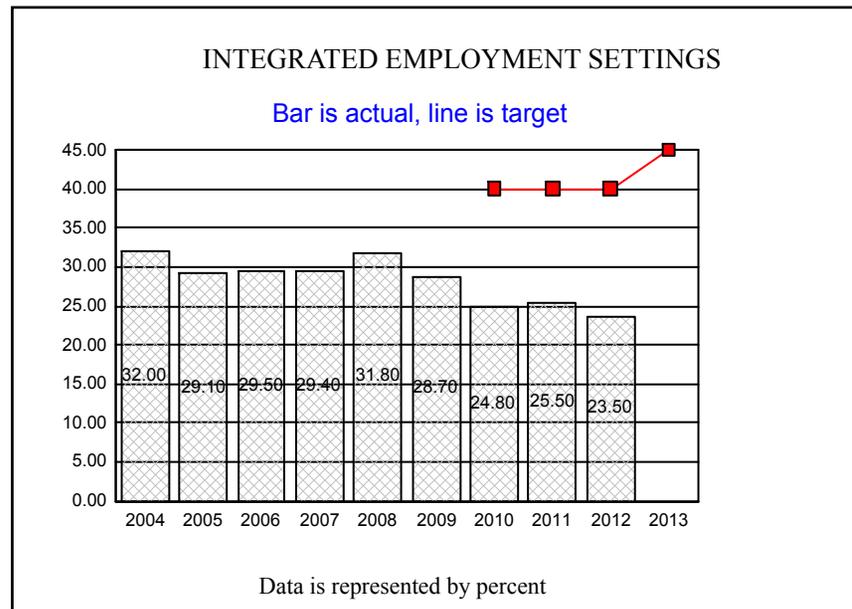

Reporting cycle is calendar year.

Data comes from the following source:-- Express Payment & Reporting System (eXPRS) - count of people receiving Case Management (Service Element 48) and count of residents in settings 6 or more. Formula used for this report is: Calendar Year (SE 48 Count – Count of residents in settings 6 or more) / (SE 48 Count)

2011 data disaggregated: Count of people receiving Case Management = 20,692 Calendar Year (# of residents in settings 6 or more) = 313

$(20,692 - 313) / (20,692) = 98.5\%$
 $(20,379) / (20,692) = 0.984873$

KPM #14	INTEGRATED EMPLOYMENT SETTINGS - The percentage of people with developmental disabilities who receive SPD services who are working in integrated employment settings.	2009
Goal	People are living as independently as possible.	
Oregon Context	People with developmental disabilities who are employed value their wage-earning capacity. People are able to achieve a desired lifestyle. People become less financially dependent over time on long-term state and federal programs.	
Data Source	DEVELOPMENTAL. Use the Employment Outcome System for people in comprehensive services and semi-annual surveys for people in adult support services to determine the percentage of people employed in integrated employment settings.	
Owner	DHS - Developmental Disabilities, Mike Maley, 503-947-4228	

1. OUR STRATEGY

The Office of Developmental Disability Services (ODDS) has developed and trained to an Employment First Policy which requires case managers to ask at each annual client

planning meeting about the person with developmental disabilities seeking and maintaining employment. All providers are required to submit data on individual client wage earnings, time spent in paid employment and primary location for day programs. Increasing community and provider capacity to improve employment outcomes is a strategic key to success

2. ABOUT THE TARGETS

Additional metrics over 5-year period (ending 2017) related to this goal have been adopted by ODDS. Achieving improved employment outcomes for working age adults with developmental disabilities is a key component to the system sustainability plan adopted by ODDS.

3. HOW WE ARE DOING

People with disabilities experience unemployment at a significant amount greater than individuals who are not disabled. The present employment market and tight human service budgets represent a threat to the employment to individuals receiving services from SPD. Consequently, meeting targets has been a challenge. For 2012 ODDS has increased training and technical activity to help in the implementation of its Employment First policy.

4. HOW WE COMPARE

The Institute of Community Inclusion has been collecting national data, while it is often hard to compare data from state to state, based on the latest published report (2011) Oregon is near the top on-third of 41 reporting states in the area of integrated employment for working age adults with developmental disabilities.

5. FACTORS AFFECTING RESULTS

Obtaining paid integrated employment for individuals with developmental disabilities is a challenge. Many factors affect results including attitudes/knowledge among prospective employers, work disincentives that exist with public funding streams, the general economic conditions and business climate and the availability of public resources allocated to this goal.

6. WHAT NEEDS TO BE DONE

Additional efforts need to be made in several critical areas. Included are the areas of continued training and technical assistance, employer education efforts, the alignment of key policies/practices between agencies such as ODDS, Vocational Rehabilitation, and the Department of Education, and integrating efforts with the State's general workforce development and employer engagement strategies.

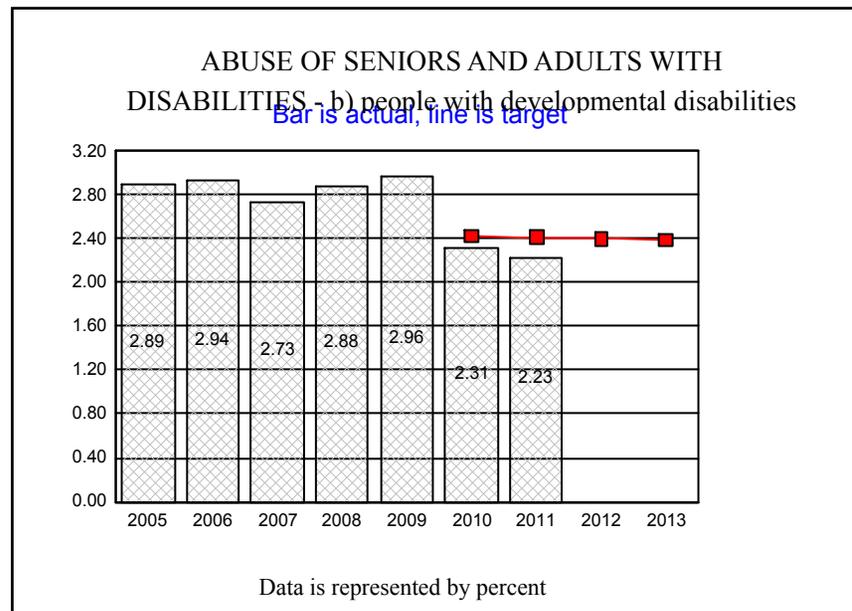

7. ABOUT THE DATA

Reporting cycle is 6-month “snapshot” of available information. These reported data months are March and April.

Data comes from the following source:

Use the Employment Outcome System for people in comprehensive services and semi-annual surveys for people in adult support services to determine the percentage of people employed in integrated employment settings

KPM #15	ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of people with developmental disabilities experiencing abuse.	2010
Goal	People are safe	
Oregon Context	People are safe	
Data Source	Office of Adult Abuse Prevention and Investigations (OAAPI)	
Owner	DHS - Office of Adult Abuse Prevention and Investigations, Marie Cervantes, (503) 945-9491	

1. OUR STRATEGY

Increase training for local protective service investigators and collaboration with brokerages who serve people with developmental disabilities in their own home. Initiate a Prevention Initiative with a focus on clients, their family, providers and the community at large.

2. ABOUT THE TARGETS

The types of services being received by over 15,000 individuals with developmental disabilities is significantly changing. Thus far the abuse rates have primarily reflected licensed residential settings. As individuals receiving brokerage services have surpassed those in residential settings, the abuse reports have been rising. With the passage of HB 2442, additional definitions of abuse are now being reported (including verbal, financial, restraint). The baseline is, therefore, unclear. However, individual decision-making, self-determination and autonomy will affect the ability to provide protection. In comparison, the licensed settings have more control over the employees though not all substantiated abuse results in discharge. A lesser abuse event may be resolved through extra training or supervision.

Because of the changes in the abuse definitions for community clients, including those receiving brokerage services, we propose that the 2010 thru 2012 data be used to establish a baseline and establish an appropriate target going forward. Strategies for intervention and abuse reduction will continue, however. These include additional training for abuse investigators, a domestic violence work group, education for families and clients and participation in local multi-disciplinary teams.

3. HOW WE ARE DOING

Analysis of the 2006 thru 2009 abuse and neglect data included type of abuse, setting and review of individual allegations. It is believed that the number of clients being served and for whom mandatory reports are made has increased due to the Staley settlement where many individuals are receiving services in their own home, and have increased the overall abuse rate from 2.4 to 3.2 percent for this population. Overall, the numbers of abuse and neglect reports and subsequent investigations have averaged around 1000 cases investigating 1500 allegations per year. The serious types of abuse (sexual and physical) have remained relatively low with significant increases in financial exploitation. Strategies to improve performance on these measures include initiation of a prevention initiative which will increase training to providers consumers advocates and the public; leadership of an initiative to address sexual abuse of persons with developmental disabilities that is sponsored by the Attorney General's Sexual Assault Task Force' collaboration with community partners to solicit a grant that will expand local capacity of domestic violence and sexual assault programs to meet the needs of victims of abuse who are developmentally disabled

4. HOW WE COMPARE

There are no National prevalence/incidence studies for abuse of individuals with developmental disabilities.

5. FACTORS AFFECTING RESULTS

For people with developmental disabilities, primarily due to their cognitive limitations, there is a pronounced level of vulnerability resulting in an inability to report along with the inability to protect themselves. Factors affecting performance to target include high turnover of staff in licensed and certified programs; right to self determination; response of the criminal justice system; lack of services knowledgeable and able to respond and support developmentally disabled victims of abuse (e.g. domestic violence shelters, counseling resources).

6. WHAT NEEDS TO BE DONE

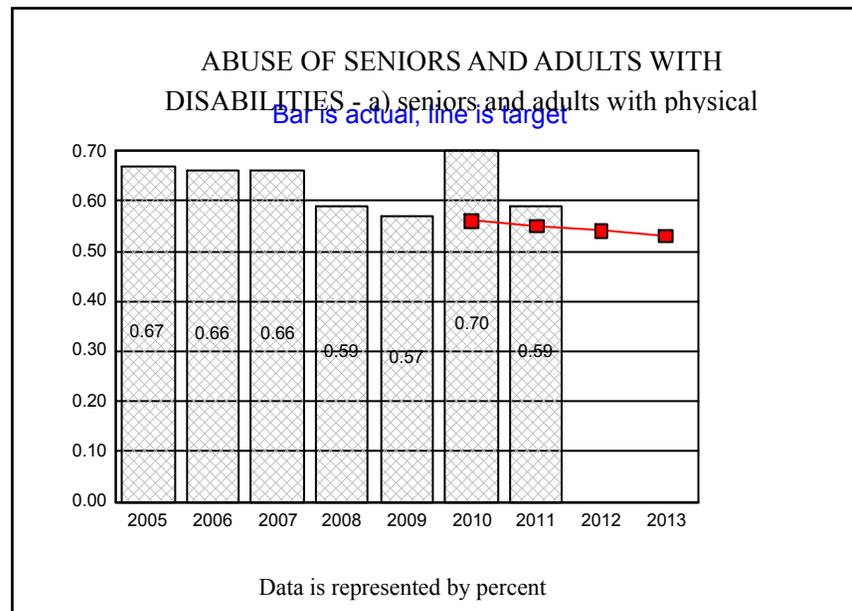

Additional training for protective service investigators and brokerage staff who are serving people in their own homes . Research and collaboration with community response system including domestic violence and sexual assault. Increase county APS office access to resources to experts such s forensic nurses and psychologists . Initiate program focusing on prevention of abuse such as the Attorney General's Sexual Assault Task Force Developmental Disability Initiative and inclusion of clients, their family and the community at large.

7. ABOUT THE DATA

Data is maintained by the Office of Investigation and Training (OIT). The data source is the DD and MH Abuse Database, which reflects the investigation reports submitted to OIT by county and state DD and MH abuse investigators. Several quality assurance checks are conducted before final reports are generated from the database. The data for performance measure was checked for duplication.

Data for People with Developmental Disabilities can be obtained by contacting the *Office of Investigation and Training*.

KPM #16	ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of seniors and adults with physical disabilities experiencing abuse.	2010
Goal	People are safe	
Oregon Context	People are safe. Oregon Benchmark #52 - Elder abuse	
Data Source	Office of Adult Abuse Prevention and Investigation (OAAPI)	
Owner	DHS - Office of Adult Abuse Prevention and Investigations, Marie Cervantes, (503) 945-9491	

1. OUR STRATEGY

Increase public awareness, strengthen collaboration with community partners, strengthen and increase Protective Service Training.

2. ABOUT THE TARGETS

This is a new measure and targets will be established for 2013 by conducting retrospective analysis of the prior three years (2010 thru 2012). In the abuse rate graphs, lower numbers are better.)

In order to measure success in reducing abuse in the community, a preliminary target of under 1% is established. The primary strategy is to assist the victim in moving from the abusive living situations or to remove the abuser from the situation. The underlying ethical value for the Seniors and Adults with Disabilities' protective service model is to balance our obligation to protect older adults and adults with disabilities with their rights to self-determination. Independent adults can make decisions about their own life and the course of action to be taken in abuse situations.

Performance to target comparison could be affected by a number of variables.

This includes but is not limited to the following for Seniors and Adults with Disabilities:

- Right to self-determination;
- Limited resources including local community, state and federal resources;
- Additional training and development needed for APS Specialist's;
- Response of the criminal justice system;
- Development and understanding of intra-agency functions; Self-neglect: The abuse data figures include those clients that are categorized under self-neglect. This may be a result of an individual's right to self-determination that results in abuse, and may not be due to any of the other potential contributory factors.

3. HOW WE ARE DOING

Since our Department currently is below the preliminary target of 1% for the percentage of seniors and adults with disabilities who are abused, it appears that we are meeting the goals of our intervention model described above. However, abuse in the community can be difficult to lower due to the individual's right to make decisions about their own life and the course of action. Additionally, as public awareness of the signs of abuse increases so do the number of abuse reports received by the department resulting in more investigations and interventions. The department wants to encourage individuals to report as suspected abuse.

Strategies to improve the department's performance include:

- On-going Adult Protective Service training including fundamentals of and advanced training for experienced APS workers.
- Continuation of public education efforts;
- Technical Assistance to field offices;
- Basic Adult Protective Service Specialist functions such as screening, consultation, triage, assessment, investigation, intervention, documentation and risk management;
- Collaboration with community partners;
- Continuation of intra-agency relationships/training with other agencies that serve Adult Protective Service clients such as those with mental illness, developmental disabilities, and the Office of Investigations and Training.

4. HOW WE COMPARE

There is no National data on abuse rates.

5. FACTORS AFFECTING RESULTS

Performance to target comparison could be affected by a number of variables. This includes but is not limited to the following for Seniors and Adults with Disabilities :

- Right to self-determination;
- Limited resources including state, federal, and community-type(s);
- Additional training and development needed for APS Specialist's;
- Response of the criminal justice system;
- Development and understanding of intra-agency functions;
- Self-neglect: The abuse data figures include those clients that are categorized under self-neglect. This could be interpreted to mean that it may be an individual's right to self-determination that results in re-abuse, and may not be due to any of the other potential contributory factors.

6. WHAT NEEDS TO BE DONE

- Continue to develop data tracking systems for baseline figures needed for comparison;
- Continue Department activities related to this measure;
- Address the variances and see if any reductions can be made in order to achieve the Department's goals;
- Gather data from public/private industry sources for comparison;
- Respond to legislative request to direct efforts at maintaining to 5%.

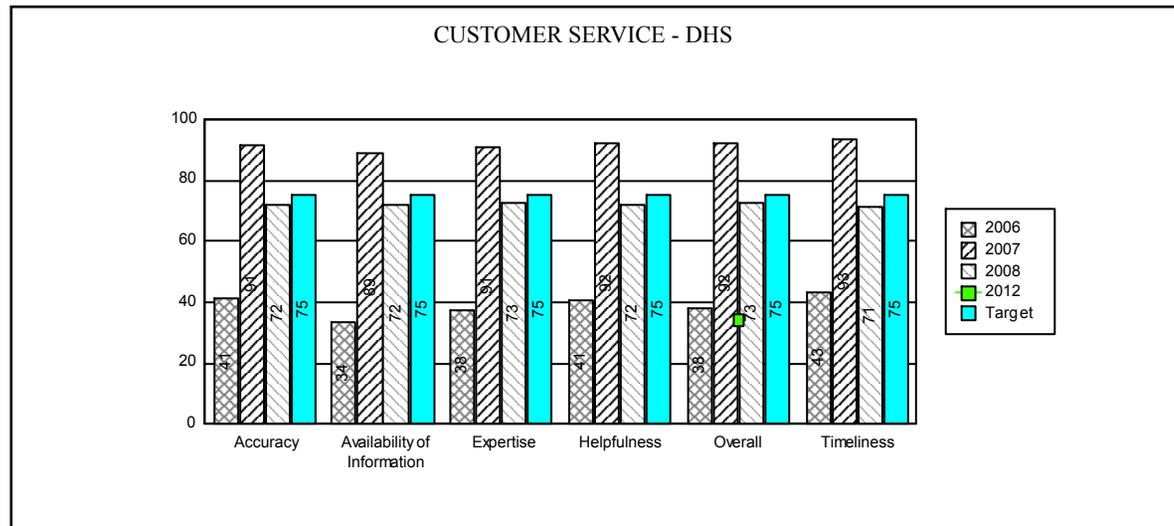

7. ABOUT THE DATA

Reporting cycle is Calendar Year, and will reflect all case that closed during the reporting cycle.

Data is maintained by the Office of Licensing and Quality of Care, Quality Assessment and Monitoring Unit. Original data source is Oregon ACCESS for Community APS and QMDB for facility APS. Since Lane County does not use Oregon Access, abuse data is sent in electronically and then appended to the abuse data. Oregon ACCESS has system edits the help prevent duplication in data. Reports are checked for duplication.

Data for Seniors and Adults with Disabilities can be obtained by contacting the *Office of Licencing & Quality of Care Adult Protective Services*.

KPM #17	CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	2005
Goal	People are independent, self-sufficient, safe & healthy.	
Oregon Context	DHS Mission – Safety, health and independence for all Oregonians	
Data Source	2012 data source: Online Client Survey (January through June 2012 results) 2008 data source: Consumer Assessment of Health Plans Survey (CAHPS)2007 data source: Mail surveys to CAF and SPD clients2006 data source: Web-based survey	
Owner	DHS - Gene Evans, 503-947-5286	

1. OUR STRATEGY

The mission of DHS is to help Oregonians in their own communities achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity. DHS is responsible for the care for our most vulnerable citizens -- children, people with disabilities and seniors. The agency seeks to collaborate with families and among agencies and community organizations, whenever possible. DHS believes that the prevention of problems will result in long-term benefits and savings, and DHS strives to deliver services that are prioritized, innovative and streamlined. Finally, the agency seeks to continuously improve and innovate to increase efficiency with public resources.

2. ABOUT THE TARGETS

Our methodology has varied greatly from year to year making it difficult to develop meaningful targets. In addition, with the split of DHS into two agencies it is unclear how the earlier targets were set. The current DHS Online Client Survey is part of an outcome tracked through the agency's management system. The management system includes a status reporting process. Status for each outcome is reported quarterly and is reported as red, yellow or green. Green status (90% of target or higher) represents outcome areas that have reached agency target. As a result, the agency target for client satisfaction is 90 percent.

3. HOW WE ARE DOING

Each year we've used a different methodology, therefore it's impossible, at this time, to determine whether or not we were seeing an improvement in the service we provide to clients. The current DHS Online Client Survey began in December 2011.

4. HOW WE COMPARE

At this time, we are unable to compare our results to other agencies, organizations or jurisdictions. We can't compare our results from year to year because of the changes in survey methodology.

5. FACTORS AFFECTING RESULTS

Two main factors affect results: Changes in the survey methodology and agency reorganization. In July 2011, DHS was split into two separate agencies – DHS and the Oregon Health Authority (OHA). The DHS customer base changed after the split when several divisions (Addictions and Mental Health, Division of Medical Assistance Programs and the Public Health Division) transferred to OHA. Today, the DHS customer base includes clients who receive services from the following programs: Child Welfare, Self Sufficiency, Aging and People with Disabilities, Developmental Disabilities and Vocational Rehabilitation.

6. WHAT NEEDS TO BE DONE

The agency split created a need for DHS to revisit how it will collect and evaluate satisfaction data from its re-defined customer base. An online survey was created and posted in December 2011. The agency is evaluating after the first six months and developing a plan for consistent, comprehensive and sustainable measurement of customer service. Measuring customer satisfaction is a priority for the agency, and the measure has been incorporated into the management system to be tracked quarterly by the DHS Director and Executive Leadership Team.

7. ABOUT THE DATA

DHS soft-launched its new customer satisfaction survey in mid-December 2011. Data reported in this document spans a period from January 1 through June 30, 2012. The survey is

administered online and in English. There have been 565 responses. The survey is promoted in field offices throughout the state and on the DHS public website.

The 2008 results are from the Consumer Assessment of Health Plans Survey (CAHPS). It was administered through the Division of Medical Assistance Programs (DMAP) over a 10-week period (October-December 2007) using a mixed-mode (mail and telephone) five-wave protocol. Respondents were surveyed in English and Spanish. The sampling plan for the adult and child surveys called for a random sample of 900 eligible members per plan in each age group. To be eligible, members had to have been enrolled in Oregon Health Plan for at least six months as of December 31, 2006. The final selected sample consisted of 13,962 adult OHP enrollees and 13,747 child OHP enrollees. For the customer service questions, we received approximately 10,600 responses. The CAHPS survey is a biennial survey.

HUMAN SERVICES, DEPARTMENT of	III. USING PERFORMANCE DATA
-------------------------------	-----------------------------

Agency Mission: Assisting people to become independent, healthy and safe.

Contact: Cathy Iles, DHS/OHA Shared Services	Contact Phone: 503-602-1507
---	------------------------------------

Alternate: Pam McVay, Finance and Research Analysis	Alternate Phone: 503-945-5930
--	--------------------------------------

The following questions indicate how performance measures and data are used for management and accountability purposes.

<p>1. INCLUSIVITY</p>	<p>* Staff: Staff are involved in the identification and refinement of Key Performance Measures. Feedback is sought to validate the measures. Over the next biennium, staff will become more involved in identifying, tracking and using performance metrics to make improvements to the work we do. These metrics should ultimately link to our KPMs or other high-level measures and inform us of our progress.</p> <p>* Elected Officials: Elected officials provide input to the agency KPMs, targets and strategies.</p> <p>* Stakeholders: Customer feedback is gathered to help guide strategies for effective service delivery. We continue to work closely with Legislative Fiscal Office and DAS Budget and Management to ensure we are making continuous improvements to our KPMs so they provide useful and relevant information for decision-making and management.</p> <p>* Citizens: Community forums related to budget development and priority-setting are a way to identify and validate priorities, expectations and performance areas.</p>
<p>2 MANAGING FOR RESULTS</p>	<p>As a result of Transformation efforts, there is an emphasis on using metrics to identify where improvements are needed, make changes, and track and report results to make sure improvements are sustained. The department has been training work units in the Lean Daily Management System® (LDMS®) which includes a component for developing metrics at the work unit level for the team’s main processes. Key Performance Measures provide a high-level picture of our results, but the underlying metrics provide a more meaningful and actionable management tool.</p>
<p>3 STAFF TRAINING</p>	<p>Management and staff continue to receive training related to transformation and continuous improvement. Training in both online and classroom formats is available. The courses are introducing staff to the principles and concepts for thinking about work in terms of systems, processes and process improvement. A component of these trainings focus on metrics and how to effectively measure the results of our work. People are becoming more familiar with using data and information to inform our strategies and decision-making.</p>

Required courses for managers teach about creating a culture of continuous improvement to achieve results to become a world-class organization and sustain the transformation. Workshops help prepare managers to assist their work groups to establish and sustain LDMS® elements and practices, and improve their ability to guide work teams to constructively and practically select and use metrics to improve their work.

4 COMMUNICATING RESULTS

*** Staff :** · The annual performance report is posted online and used for information sharing. One goal of the Transformation Initiative is to make data and metrics more visible at all levels of the organization. As work units begin using the Lean Daily Management System® (LDMS®), they create visual display boards to post in their areas that include data and metrics about the team’s work to provide current information about the results they are achieving and goals they are working toward. Work unit members meet in front of the display board regularly to review metrics, share information, set priorities and problem-solve when needed.

*** Elected Officials:** · The annual performance report is posted online and included in the agency request document for purposes of sharing performance results, showing accountability, and informing the budget development process. KPMs are presented during the Ways & Means presentations to describe program results.

*** Stakeholders:** · The annual performance report is posted online and used for information sharing.

*** Citizens:** The annual performance report is posted online and used for information sharing.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

Agency: HUMAN SERVICES, DEPARTMENT of

	Green = Target to -5%	Yellow = Target -6% to -15%	Red = Target > -15%	Pending	Exception Can not calculate status (zero entered for either Actual or Target)
Summary Stats:	47.06%	29.41%	23.53%	0.00%	0.00%

Detailed Report:

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
1 - OVRS CLOSED - EMPLOYED – The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed.	57.00	66.00	Yellow	2011	There are two factors which may continue to have an impact on Oregon’s performance. The first is the continuing high unemployment rate. The second factor is the threat of the re-imposition of an Order of Selection due to the possibility of further funding cuts at both the Federal and State levels
2 - TANF FAMILY STABILITY – The percentage of children entering foster care who had received TANF cash assistance within the prior two months.	37.10	22.00	Red	2011	In FFY2007, 25.8 percent of the children entering foster care had received TANF cash assistance within the prior two months. During FFY2011 37.1. percent of the children entering foster care had received TANF cash assistance within the prior two months. DHS continues to seek resources that meet the needs of families being served through the TANF program and that enhances and strengthen partnerships with community partners that provide family-centered, preventative, and comprehensive services for children and families.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
3 - TANF RE-ENTRY - The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.	64.20	72.00	Yellow	2011	While the majority of TANF clients that leave the program due to employment were having relative success in the workplace the status of the labor market and industry has a strong effect on performance for this measure. The current economic crisis has had the greatest effect on low-income families and demand for TANF increased.
4 - SNAP (Supplemental Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.	91.70	70.00	Green	2010	In 2011, SNAP benefits paid in Oregon in the calendar year surpassed \$1B (\$1,211,274,990) for the first time ever.
5 - SNAP (Supplemental Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments	96.01	94.00	Green	2011	Oregon has been successful in reducing the error rate and avoiding penalty for the past seven years. The error rate for FY 09 reached an all-time low of 3.54 percent, compared to the national standard of 4.36 percent. Although Oregon's error rate of 3.99 percent is above the nation standard of 3.80 percent in FY 11, the rate falls within the allowed tolerance level and Oregon will not be assessed a penalty. DHS will continue to focus on accuracy efforts to avoid a federal penalty and ensure our clients receive accurate and timely benefits.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
6 - ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS	54.40	63.00	Yellow	2011	<p>The 2007-2009 Child Care improvements which included funding for provider training for unlicensed family child care providers caused an increase in the number of providers giving enhanced care. The training standards required for providers to receive the enhanced rate increase the quality of child care which encourages a more stable provider base. Stability in care arrangements promotes healthy child development and helps parents remain employed.</p> <p>The implementation of HB2868 in July 2010 which requires new license-exempt providers to attend an Orientation includes information about how to qualify to receive and maintain the enhanced rate. We anticipate a continued increase in the number of providers attending enhanced rate training which will impact the number of children in care with those providers.</p> <p>The Child Care Division's Quality Indicators Project will support efforts of child care providers, funders, and parents to improve child care. Researchers have identified "structural" indicators of quality that have been proven to improve child outcomes: Ratio of children per adult, Group size, Education or specialized training of teachers/caregivers, Teacher compensation level, Staff turnover or stability in caregiver-child relationships, and Accreditation. With the Quality Indicators Project, parents will have more information in making their child care choices. They will be able to use quality indicator reports to compare the different characteristics that affect child outcomes. This may also increase the number of subsidy parents choosing licensed or enhanced rate care.</p> <p>The Oregon Child Care Research Partnership will</p>

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
					<p>complete the third part of the subsidy policy study by February 2012. This will provide valuable information for policy planning for this measure and the Early Learning Council.</p> <p>While there has been a steady increase in the percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS, we did not quite achieve our target for 2010 and 2011.</p> <p>The field test for expanding contracted child care will be evaluated by researchers from Oregon State University (OSU). This field test will help prepare for an emerging statewide Tiered Quality Rating and Improvement System (TQRIS) and address Oregon's diverse populations. The evaluation will be used to assess the extent to which it achieves its goal of stable, high quality early education and care for children. Evaluation findings will help decision makers decide if contracted child care should be continued and/or expanded.</p> <p>Discussions are taking place with CCD and OSU researchers to determine how alignment can occur between the TQRIS and the subsidy program.</p> <p>Recommendations from the ELC may create a need to change this KPM.</p>

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
7 - ABSENCE OF REPEAT MALTREATMENT - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization.	95.00	94.10	Green	2011	Oregon has adopted a safety model for assessing allegations of child abuse. A key tenet of the safety model is the concept of conducting comprehensive safety assessments as opposed to incident based assessments. As we continue to improve our ability to implement the model, we will more accurately identify those families at risk for reabusing their children. A barrier to improving this measure is the significant budget issues that result in significant cuts to services necessary for the families who are at the highest risk.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
8 - Timeliness and Permanency of Reunification of Children.	116.80	122.60	Green	2010	<p>The continued and consistent use of the principles of the Oregon Safety Model, now embedded in administrative rules, should result in continued progress in this measure. As resources remain available to families to support child safety, continued success with return home through well-monitored in-home safety plans should continue to decrease both the length of stay in foster care and continued progress in fewer re-entries into care. Conversely, given the economy and the ongoing limitations on both child welfare and other community resources, the stressors that can impact a family's ability to safely parent their children may increase resulting in an impact on child safety.</p> <p>The department is pursuing the implementation of SB 964 and Differential Response. These models if fully implemented and fully functional are intended to slow down the number of children entering care and thereby reducing the number of children requiring reunification as they will remain within their family constellation.</p> <ul style="list-style-type: none"> · SB 964: DHS and county partners are required to implement programs to provide family preservation and reunification services for children in the custody of DHS, with the goal of fostering collaboration across programs and resources to help children remain safely with their families and thereby reduce the number of Oregon children in foster care. · Differential Response: A differential response model allows for the provision of preventative and early intervention services through the use of community based organizations.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
9 - Timeliness of Foster Care Related Adoptions	97.90	104.40	Yellow	2010	In addition to practice and policy improvement efforts identified in prior sections of this document, the success of implementation of a host of new adoption rules will be critical to further improvement for this composite measure. This has required concerted, ongoing philosophical conversations regarding clear policy and practice shifts and clarification for successful implementation and a recommitment to early, concurrent permanent planning in all cases.
10 - ACCESS TO I & R AND I & A - Access to accurate and consistent Information & Referral and Information & Assistance for people who are not currently served by SPD	97.40	95.00	Green	2011	SPD has been awarded several federal grants to operationalize Aging and Disability Resource Centers (ADRC) in several Oregon counties. The ADRC employs systematic processes to provide I &A/R to consumers through a web-based application that hosts a resource database and client contact module. Data from this system coupled with a consumer satisfaction survey will inform the performance measures established by the ADRC.
11 - SENIORS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregon’s seniors receiving SPD long-term care services who are living outside of nursing facilities.	83.60	83.00	Green	2011	APD should continue to develop community resources to address the needs of seniors who may not be able to live fully independently, but need not live in an institution. APD needs to reinvigorate its diversion and transition program to ensure the steady rate of deinstitutionalization remains.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
12 - DEVELOPMENTAL DISABILITY SUPPORT SERVICES - The percentage of eligible adults who are receiving adult support services within 90 days of request.	80.40	98.00	Red	2012	Access to adult support services is a critical component to preventing or delaying use of higher cost service alternatives. Consequently, this measure remains an important part of the ODDS long range plans to assure sustainability of the system and desired, cost effective services. Efforts will continue to meet the benchmarks of this measure.
13 - PEOPLE WITH DISABILITIES IN COMMUNITY SETTINGS – The percentage of individuals with developmental disabilities who live in community settings of five or fewer.	98.50	97.20	Green	2011	DHS has met its target. SPD needs to preserve policy and funding structures that contribute to the maintenance and / or improvement of efforts for providing in-home services to persons with developmental disabilities, and continued attention to the impact of aging family caregivers and their needs.
14 - INTEGRATED EMPLOYMENT SETTINGS - The percentage of people with developmental disabilities who receive SPD services who are working in integrated employment settings.	23.50	40.00	Red	2012	Implementation of the Employment First policy is a continuing high priority for ODDS. Efforts include the coordination of efforts among key agencies by use of Memorandums of Understanding between ODDS, Office of Vocational Rehabilitation Services, Department of Education and the Oregon Council on Developmental Disabilities.
15 - ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of people with developmental disabilities experiencing abuse.	2.23	2.41	Green	2011	Strategies to improve performance on these measures include initiation of a prevention initiative which will increase training to providers, consumers' advocates and the public; leadership of an initiative to address sexual abuse of persons with developmental disabilities that is sponsored by the Attorney Generals Sexual Assault Task Force.

Agency Management Report

KPMs For Reporting Year 2012

Finalize Date: 10/1/2012

KPMs	Actual	Target	Status	Most Recent Year	Management Comments
16 - ABUSE OF SENIORS AND PEOPLE WITH DISABILITIES - The percentage of seniors and adults with physical disabilities experiencing abuse.	0.59	0.55	Yellow	2011	Strategies to improve the Department's performance include: on-going Adult Protective Service training, continuation of public education efforts, technical assistance to field offices, basic Adult Protective Service Specialist functions, collaboration with community partners, and continuation of intra-agency relationships/training with other agencies.
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	34.00	75.00	Red	2012	DHS is reporting customer satisfaction survey results to its executive leadership team quarterly. The agency is evaluating the survey after its first six months, expanding the number of languages it is available in, and planning promotional activities.

This report provides high-level performance information which may not be sufficient to fully explain the complexities associated with some of the reported measurement results. Please reference the agency's most recent Annual Performance Progress Report to better understand a measure's intent, performance history, factors impacting performance and data gather and calculation methodology.

Department of Human Services AUDIT RESPONSE REPORT

1. DAS: State Cell Phone Plans, audit # 2009-18, (dated 08/26/09)

- DHS, ODOT, and DOC:
 - obtain from vendors cell phone billing and usage reports that identify cost saving opportunities and share those formats and analyses with other agencies as opportunities arise;
 - regularly review cell phone bills and vendor reports to identify zero use phones and usage patterns that indicate a line should be terminated or a plan should be adjusted;
 - update cell phone inventories now and immediately turn off all phones unaccounted for; and
 - update inventories periodically in the future, including accounting for phone returns and line terminations for separating employees.

The department implemented improved procedures on wireless communication device (WCD) usage, many of which reflect the recommendations in the audit report and have generated savings.

The process of identifying the local WCD coordinators began in January 2009. A pilot program for the (primary vendor) districts began in June 2009. Initial pilot training on the new local review process occurred on July 21, 2009. WCD coordinators are in place and have been trained. As new coordinators are added, training is provided by the Statewide WCD Coordinator. Webinar coordinator training is being prepared and will be presented twice a year starting with the second quarter of 2012. Training covers all vendors.

The department began working with WCD vendors in February 2009 to start the process of creating sub-accounts and bundling minutes. The department worked closely with vendors to create the appropriate sub-accounts, establish local coordinator access and receive ordering system training. The use of sub-accounts for each District is an example of how invoices are broken out for each Local WCD Coordinator for review.

Sub-accounts also facilitate roll up to one account allowing the agency to take advantage of volume discounts. Vendors provide other methods to achieve the same goal. Invoices from all vendors are sent to Local WCD Coordinators for review. The department also worked with the vendors to reduce expenses by bundling minutes into a shared pool of minutes. These efforts are ongoing.

DHS Policy DHS-020-006 and procedures DHS-020-006-01 and 02 provide overarching roles and responsibilities for wireless communication devices (WCD); however, they do not discuss inventory process or procedure. Local WCD coordinators have been assigned the responsibility of ordering, inventorying and monitoring the wireless devices and usage for their districts. WCD coordinators are responsible for examination of rate plans, zero use, and possible inappropriate use.

Existing department-wide policies and procedures were initially modified in August 2009 to provide better guidance on roles and responsibilities for all parties involved in the WCD process. This should improve communications between WCD administrators, Financial Services, and WCD users. It should also result in a reduction in duplication of work and improved oversight of this process. However, the processes have continued to change since the last policy update.

In support of the policy changes, the WCD order form was updated to improve the methods to track devices, justify business need, clarify plan needs, and identify supervisor responsibilities. It also clearly identifies if a phone is required for emergency preparedness or used as an office check out WCD, which will be indicated in the DHS Master WCD Inventory List. This updated form was posted on the DHS Form Server July 31, 2009.

Earlier in 2009, the central WCD coordinator began developing a new Master Inventory that includes vendor driven information and information collected internally.

A basic information sheet for new WCD users has been created. This sheet contains important information such as: contact numbers, policy information, plan specifics and basic user instructions. A “WCD Quick

Facts” document has been completed and posted to DHS forms server. Form use will be included in upcoming WCD coordinator training.

The WCD Rapid Process Improvement process has been completed. WCD coordinators continue to monitor rate plans, usage and under-utilized devices.

Smart phone billing is currently received electronically from all carriers. Bills are received monthly/quarterly. Electronic billing data allows the agency to query the “minutes used” and “data used” columns for zero values. Smart phone bills are received centrally. The Sprint smart phone account (approximately 1,600 users) is a bundled plan. If users exceed the voice minutes allowed by the plan, bundled minutes from underutilized plans provide coverage. The agency is working with AT&T and Verizon to evaluate the cost-effectiveness of shifting the remaining smart phone users (approximately 300 users) to bundled plans. All smart phone users have unlimited data plans.

Smart phones are provided at little or no cost to the agency. Additionally, agency accounts are eligible for upgrade/replacement at no cost within the first year. Smart phone accounts are suspended/terminated by matching employee data (OR#) against lines of service when an employ ends state service. This is accomplished through the use of a Mobile Device Management (MDM) software platform. As the agency completes its transition to Apple iOS devices, all state issued smart phones will be managed in this way.

Dedicated cell phone billing is received electronically from all carriers. Bills are received monthly/quarterly. Electronic billing data allows the agency to query the “minutes used” and “data used” columns for zero values. Dedicated cell phone bills are received and processed by local Wireless Communication Device (WCD) coordinators at the field office level. All accounts have a bundled minute option for a nominal cost. Bundled plans are selected by the local WCD coordinator. Local WCD coordinators are responsible for reviewing carrier’s cellular invoices for usage accuracy. If users exceed the voice minutes allowed under their selected plan, bundled minutes from underutilized plans provide overage coverage. The plan to implement a semi-annual review of local WCD coordinator’s records by the

state-wide WCD coordinator has not been implemented due to limited resources. The Office of Information Services (OIS) will develop a plan to spot check the Local WCD coordinators to assure they are actively reviewing their invoices.

Cell phone ordering and inventory, (as compared to smart phones), is currently the responsibility of the local WCD coordinators. Cell phones are ordered in a decentralized way to provide accountability at the office level. A centralized cellular device inventory is not currently maintained. The agencies are in the process of matching employee data (OR#) against lines of service. This will enable the suspension/termination of service when an employee ends state service. Devices are managed by the WCD coordinators and accounted for at the time of issue via the Employee Property Tracking process. When employment ends, the device is returned.

The department also shared the methods for our quarterly review with Department of Administrative Services, so that they can share this information with other agencies.

2. Oregon Health Plan: Timely Eligibility Determinations Conducted on Clients, audit #2009-21, (dated 09/17/09)

- After the department completes urgent and complex projects such as the client transfer, it also considers a final review to identify any errors.

The Department of Human Services agrees with the audit recommendation to require a post-implementation review when the department is working on a project such as the FHIAP to OHP Standard transfer. One critical outcome of this review would be a final reconciliation of records between the two agencies involved.

3. DAS: Agencies Should Explore Opportunities to Earn Purchase Card Rebates, audit # 2010-12, (dated January 2010)

- The four agencies that missed the rebate periodically explore available strategies and analyze the associated costs and benefits of obtaining purchase card rebates. We also recommend these four agencies consider the specific strategies listed in the report. We also recommend that DHS selectively expand its existing pilot efforts to units and/or programs where it would be cost-effective to do so and consider exploring options for electronic payment and interim rebate reports.

DHS and OHA continue to explore available strategies and analyze the associated costs and benefits of obtaining purchase card rebates. Here are the items DHS and OHA have been working on since January 2010:

- *The Oregon State Hospital and Public Health have switched to weekly payment processing, allowing DHS and OHA to take further advantage of the rebates.*
- *We worked with DAS to start making payments to our bank by ACH instead of warrant. This will reduce the time it takes the payment to reach our bank.*
- *We worked with DAS to receive the interim rebate reports to help us analyze the spending trends.*

DHS and OHA have improved payment cycle time and received increased rebates since these steps have been implemented.

4. DHS: Human Services, Department of: Purchase Card Controls, Management Letter #100-2010-03-02 (dated 03/17/10)

- Review the design and operation of its controls over purchase card use to assure that those controls align with the level of risk that management is willing to tolerate.

The department updated its SPOTS policies and procedures that strengthen the procurement controls and enhance SPOTS usage monitoring. This new policy and procedure has been incorporated into ongoing training for all card holders and their supervisors. Card holders that do not attend their required refresher training have their cards suspended.

The new manager training addresses manager responsibilities to ensure proper use of the cards, including security, card limits, documentation and monthly review and tracking. This training will be required for all department managers responsible for reviewing SPOTS usage.

The department's Internal Audit and Consulting unit also completed an audit on the department's SPOTS card use. The department has adopted the recommendations of the audit and continues to improve the SPOTS controls.

DHS and OHA continue to require refresher training for all cardholders and their supervisors every two years. Cardholders that fail to complete this required training have their cards suspended.

The Office of Financial Services (OFS) revised its SPOTS training sessions during 2012 placing a greater emphasis on purchasing rules, policies, and procedures.

- Establish controls over the administration of stored value cards that are consistent with the level of risk that management is willing to tolerate.

The department updated and strengthened the controls in its revised SPOTS policies and procedures. This new policy will strengthen the procurement controls and stored-value card tracking.

The SPOTS coordinator monitors stored value card purchases on a monthly basis. The manager or designee authorizing stored value card purchases are regularly asked specific questions to ensure compliance with policy.

5. DHS: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2009, audit # 2010-19, (dated March 2010)

- Department management seek adequate assurance for the accuracy of all financial information they report. Management should have a documented understanding of the controls involved in transactions, whether automated or manual, to ensure the integrity of the information. When necessary, such as for significant financial systems operated by service providers, department management should obtain independent assurance over the reliability and accuracy of the information. This may be accomplished, in part, by ensuring contracts for significant services require internal control reviews and that the reviews are performed periodically as determined necessary.

The department implemented a new Medicaid Management Information System (MMIS) in December 2008. This system replaced the department's former legacy system used to track, pay and report on a majority of the state's Medicaid eligible services. Operation of the MMIS is a joint effort between the Department of Human Services, who is responsible for the system, and our service provider, who has been contracted to implement it. Both the department and our service provider have experience designing and maintaining large information management systems. Under the current Operations and Maintenance contract, our service provider maintains control over the source code and is responsible for security of the code. Only our service provider's staff have update access for programming changes, implementing change orders, and correcting system defects. The department remains responsible for physical security of the system, for controlling user access, for updating reference tables and identifying errors in data entry and in output.

Over the course of the audit, the department provided a considerable number of documents outlining system operations and controls at both the department and our service provider. However, the department acknowledges that further work is needed to adequately document, communicate and review MMIS internal controls and processes.

The decision to implement the new MMIS in December 2008, was the only practical option available at that time and continues to be a wise financial decision for the state. The federal government, which had been paying 90 percent of the development costs, refused to pay for additional development. Comparisons to other states showed that Oregon was at a greater state of readiness than other states that had gone live with the same system. Although the quality assurance contractor expressed the reservations referenced in the finding, they also expressed their understanding of the department's legitimate reasons for not delaying implementation further.

The decision to go live was supported by a formal readiness assessment process that weighted outstanding issues against funding pressures, staff morale and the likelihood of full stabilization without being in a production environment. The decision was also supported by manual workarounds to ensure that the business processes functioned properly as the system was stabilized.

External audits of the Medicaid Management Information System have been completed by both the Oregon Secretary of State Audits Division (June 2011) and the Department of Health and Human Services Office of Inspector General (April 2011). The department has implemented many of the recommendations from these audits and is actively working on those recommendations not yet implemented. The system on-site Certification Review was also conducted by the Centers for Medicare and Medicaid Services (CMS) in January, 2011. In addition, in August 2011, the department entered into an agreement with a contractor to perform a series of SOC 1, Type 2 service organization control audits covering periods between July 1, 2010 and June 30, 2013. The first of these reports covering the period July 1, 2010 through June 30, 2011, was completed in June 2012.

- Department management ensure accounting personnel have the requisite knowledge, skills, and abilities to accurately perform their assigned duties and ensure the resulting accounting records are in accordance with GAAP. Management should emphasize the importance of understanding GAAP to personnel who are responsible for recording transactions, calculating year-end accruals, and making adjustments that cross fiscal years. Management should also create a better awareness of the differences between budgetary accounting and GAAP, and when each is applicable.

The Department of Human Services (DHS) recognizes that staff skills need to improve. DHS's financial situation presents the most complex accounting and financial management questions in Oregon government. Because of this, DHS financial staff should be the best. The department is committed to achieve excellence not only in producing the annual financial statements, but in improving management and federal financial reporting.

The complexity occurs because DHS keeps accounting records for three different purposes – the statewide financial report, budgetary reporting, and federal reporting. Each of these operate on different time periods, closing deadlines, and accrual rules. Thus, all staff making entries must be cognizant of the effect of their entry on all three reporting processes.

Although the finding itself is a broad statement about staff skills, it is based largely on errors in the precise area where the three reports differ – accruals, prior period adjustments, and other year-end transactions. The errors themselves largely affected statewide financial reporting, not budgetary or federal reporting. They were immaterial to the statewide financial report and, in some cases, had they been entered correctly, would not have changed the statewide financial report. Nonetheless, many were errors and DHS is responsible to ensure staff has the ability and resources to record them correctly.

Due to efforts made in response to a prior audit finding, DHS believes the performance of its Statewide Financial Reporting Team has improved in the last two years. The team developed and documented a detailed process for estimating year-end accruals based on actual accruals in the prior year adjusted for

known variations from prior period activity. This estimation is necessary because state policy requires that financial statement accruals be completed by mid-August – 45 days before the accrual period ends.

Further, to improve performance and strengthen staff knowledge, skills and abilities, the Office of Financial Services has taken the following actions:

- Errors identified from the FY09 audit were documented and reviewed by staff.*
- Statewide Financial Reporting (SFR) team staff attended various trainings in FY 10 including the annual GAAP update training held by GASB.*
- The SFR team created an internal and external year-end task list for year-end closing activities. The internal task list was used by the SFR team to ensure that all of the necessary year-end activities were completed. During the FY 10 close period the SFR unit scheduled weekly meetings to review tasks, update and add to the task list and to problem solve issues. The external year-end task list was sent to OFS staff for the purposes of clarifying each unit's role in the year-end process and providing written guidance on required year-end tasks. SFR team members met with various staff and provided verbal guidance on GAAP required tasks including accruals, prior period adjustments, transferring completed assets, and appropriate backdating of payments and Balanced Transfers. These efforts resulted in reduced errors in FY 10 related to prior period adjustments, improved documentation of entries, and increased staff understanding of their entries related to GAAP requirements. The Lean Daily Management System adopted by DHS has also resulted in improved verbal communication of GAAP throughout DHS's fiscal units.*
- Development of the batch release checklist was completed in April 2010. In-person and V-Con training for batch releasers was completed on August 17, 2010. The purpose of the checklist is to set expectations and provide guidance on what to review prior to releasing a batch. The checklist is to be used as a reference guide and is not required to be completed with each batch.*
- Policy discussion on accrual recording level began in May, 2010. Accrual procedure has been updated and will be reviewed yearly for modification.*

We believe that ensuring that accounting personnel have the requisite knowledge, skills and abilities to accurately perform their accounting duties in this complex environment is an on-going process. During the last year we have taken steps to develop a more robust succession plan including more opportunities for cross-training and job developmentals and rotations. We continue to use Lean methodologies to document and improve our processes. We have formed an internal training committee with the goal of increasing training on the unique aspects of accounting in DHS/OHA.

- Department management obtain independent assurance over the reliability and accuracy of the system's controls.

External audits of the Medicaid Management Information System have been completed by both the Oregon Secretary of State Audits Division (June 2011) and the Department of Health and Human Services Office of Inspector General (April 2011). The department has implemented many of the recommendations from these audits and is actively working on those recommendations not yet implemented. The system on-site Certification Review was also conducted by the Centers for Medicare and Medicaid Services (CMS) in January, 2011. In addition, in August 2011, the department entered into an agreement with a contractor to perform a series of SOC 1, Type 2 service organization control audits covering periods between July 1, 2010 and June 30, 2013. The first of these reports covering the period July 1, 2010 through June 30, 2011, was completed in June 2012. (Please refer to finding 09-01 response for further detail.)

- Department management strengthen controls to ensure that all rates are correct and adequately supported. Further, department management should determine the amount of Medicaid funds applied toward the incorrect or unsupported rates and ensure any unallowable amounts are credited back to the federal program.

Of the four rates found to be inadequately supported, three occurred solely because their determination methodology was not promulgated in Administrative Rule. The rate methodology for most of the Medicaid program is outlined in Oregon Administrative Rule 410-120-1340. However, the rate methodology for the Durable Medical Equipment (DME) program has not been promulgated in rule.

The department's rates for these items is currently set by policy. The department reviewed the policy and determined that the payments to the providers was accurate based upon the existing policy.

The remaining inadequately supported rate involved services provided by a Seniors and People with Disabilities (SPD) Community Developmental Disability Program (CDDP) provider. This determination of this rate was not adequately documented. The federal amount of questioned costs for these services was \$3,464.

The rate found to be incorrect was for a physician administered drug which is priced using Medicare Average Sales Price (ASP) fee schedule. The ASP fee schedule was manually entered into the old claims payment system with a data entry error of two cents and carried over into the new MMIS data conversion. Based on the department's research, the rate was incorrect for a one quarter period (October 1, 2008 to December 31, 2008) before it was corrected. This data entry error caused 30 claims to process incorrectly during the time period at a cost of \$28.24 Total Funds.

The department reviewed the Administrative Rule and determined that the rule should reside in OAR 410-122-0186 and not 410-120-1340 as the prior response indicated. The department originally planned to include the payment method for DME in OAR 410-122-0186 and file it with the Secretary of State on October 15, 2010, with an effective date of January 1, 2011. Unfortunately, the department did not revise the rule as planned. Since October 2010, the department has been working with stakeholders to develop a payment methodology that is consistent with Medicare. The Division of Medical Assistance Programs (DMAP) filed OAR 410-122-0186 on July 29, 2011, to be effective August 1, 2011. This OAR contains the payment methods in effect for Date of Service August 1, 2011 and after.

For the remaining inadequately supported rate, SPD limited the staff authorized to complete the assessment tool used to determine payment rates. Only staff in the Restructuring Budgets, Assessments and Rates Unit within SPD may implement the tools that determine these rates, unless otherwise authorized. This allows for

greater standardization and permits SPD to retain better records of the client assessment and subsequent rate calculations. Prior to the 2009-2011 Biennium, assessment tools could be completed by CDDP or Regional Crisis Diversion staff.

The process that resulted in the use of the one incorrect rate has been discontinued. Beginning July 2009, the process for entering rates into the MMIS system changed from a manual data entry function to an automated download process. The rates are downloaded directly from the Centers for Medicare and Medicaid Services (CMS) website containing the ASP fee table. This file is loaded into a test environment where rates are reviewed by the department's Business Service Unit and Policy Unit. Once this review takes place and the file has been approved, our MMIS service provider is instructed to move the test table into production. An additional review is done during this move in order to assure the file transferred accurately.

DMAP performed a system mass adjustment process (SMAP) to our MMIS for that specific physician administered drug code. A total of 32 claims were found to be incorrect and a SMAP was performed August 5, 2011. The CMS-64 will reflect a prior period adjustment on the quarter ending September 30, 2011.

SPD also made adjustments of \$15,157.81 to federal funds for the periods affected by the unsupported client rate change identified in the original finding. The first of these adjustments for \$3,464 was made in March 2011, and the second for \$12,693.81 was requested in August 2011. The CMS-64 will reflect a prior period adjustment for the second adjustment on the quarter ending September 30, 2011.

- Department management strengthen controls over the eligibility process to ensure that applications are complete, income determinations are accurate, and information entered into the department's systems is accurate. Further, department management should determine the total amount of CHIP funds paid on behalf of ineligible clients and ensure it is properly credited back to the federal program.

Children, Adults and Families (CAF) Self Sufficiency Programs (SSP) continues to proactively strengthen controls over the eligibility process. Income budgeting, signatures, third party liability, placement into correct medical programs and documentation issues are being addressed.

Streamlining eligibility:

In October 2009, the department streamlined the Children's Health Insurance Program (CHIP) eligibility process.

- The CHIP countable income calculation used for the initial eligibility decision was reduced from a three-month income average to a two-month average.*
- The un-insurance requirement was modified to make it less restrictive and easier to verify.*
- Decreased the CHIP un-insurance waiting period from six to two months.*
- The CHIP resource limit was eliminated.*
- Increased the CHIP income limit to 201% of the Federal Poverty Level.*

In May 2010, the department revised OAR 461-115-0705 (Required Verification) providing the new policy that verification is required for any income a client has received as of the date of request. All other income is anticipated unless questionable.

In July 2010, the department revised OAR 461-115- 0071. This rule was revised to require only one signature per application, and now aligns with all SSP Programs.

SSPAT CHIP reviews 2009:

The Self Sufficiency Program Accuracy Team (SSPAT) conducted a special project of CHIP reviews consisting of ten branches between April and June 2009. The primary areas of review were budgeting, available third party resources, effective dates and correct program decisions. Trend information was shared with Program Managers, Line Managers and eligibility workers at the ten branch offices and with the medical training team. Following the project, SSPAT staff developed a CHIP training PowerPoint, which was distributed statewide for local and district use starting in February 2010. The PowerPoint covers

date of request, effective date, private major medical insurance, pursuing assets, income, combining Oregon Health Plan (OHP) households, and changing household members.

Application changes:

In July 2009, DHS implemented the Oregon Health Plan On-Line Application (OHP 7210W). The on-line application is submitted electronically into the imaging system and has an electronic signature.

For all medical programs, staff are trained that an individual does not need to complete a new Oregon Health Plan Application (7210) or Application for all Programs (415F) as long as the client is currently receiving DHS program benefits at the time they make the request for medical benefits. DHS staff review the application currently on file and “pend” for any verification that is needed to determine ongoing medical benefits. The August 2009 On Target newsletter included an article on when an application is needed for medical benefits.

Oregon Health Authority has hired a consulting firm to review the OHP 7210. The purpose is to make the application more user friendly.

Medical Quality Control:

CAF SSP Medical Quality Control (MEQC) completed a review of CHIP cases as part of the federal Payment Error Rate Measurement (PERM) and Quality Control (QC) process.

- Each QC CHIP error was reported to field offices. Eligibility workers and branches were required to take appropriate action to correct errors.*
- QC CHIP errors are discussed at the monthly statewide Quality Assurance (QA) Panel meetings. This is a statewide discussion of root causes of errors with a focus on prevention. Participants include field staff, Program Integrity, policy, and training.*

In 2010, QC conducted a CHIP review project in collaboration with SSPAT. Cases were sampled from offices with the highest number of CHIP cases. The review focused on error prone eligibility elements identified through the PERM and QC reviews: Earned income and private health insurance.

- *A total of 300 cases were sampled for the project.*
- *Error findings were reported to branch offices as they were identified. Corrective action was required for all discrepancies.*
- *Review project concluded in June 2010.*
- *A Statewide error summary will be provided to field leadership.*

Third Party Liability:

In 2010, DHS is implementing a new on-line interactive medical application. The new on-line medical application will have the capability to accept multiple signatures. (With the July 2010 rule change, two signatures are no longer required. Only one signature per household is required.) This new interactive application will also bring to the attention of the case manager if the individual has third party liability.

The Health Insurance Group (HIG) routinely works MMIS report TPL-0689-M, which identifies clients who have had active third party liability (TPL) for the past six months. When they are reviewing the TPL they also check to see if the client is receiving CHIP medical. For individuals who are receiving CHIP medical coverage and have TPL, the case is referred to OHP Statewide Processing Center. The OHP Statewide Processing Center eligibility staff review the case to see if the individual is eligible for Medicaid. If there is not Medicaid eligibility, the medical case is closed.

SSP Training:

SSP training staff developed and delivered Healthy KidsConnect training, practice opportunities and learning assessments for SSP and Seniors and People with Disabilities (SPD) eligibility and support staff. Training for SSP and SPD staff who determines eligibility is focused on new eligibility requirements; case coding; and the role of the Office of Private Health Partnerships (OPHP). SSP trainers provided Healthy KidsConnect classroom training for approximately 950 eligibility staff in 55 sessions

delivered across the state. Also, approximately 425 eligibility staff participated in one of the 17 Healthy KidsConnect NetLink sessions on-line. SSP trainers developed presentations, talking points, pre- and post-testing materials to support local Healthy KidsConnect training for SSP and SPD reception and support staff. Two Healthy KidsConnect focused skill challenges also helped SSP managers assess and support policy knowledge in local unit meetings.

Areas added to the curriculum Fall 2009

- *Screening OHP application for all medical programs.*
- *Presumptive medical process.*

In addition, in October 2010, a Skills Challenge regarding placing a client in the correct medical program will go out to all branch offices.

Self Sufficiency Modernization (SSM) efforts:

CAF SSP program staff are working in partnership with Office of Information Services staff to modernize CAF SSP eligibility systems.

- *The first phase of the new web-based application is the on-line OHP 7210W. The 7210W is a version of the OHP 7210 submitted electronically by the user into the SSP imaging system. A later version of an interview style on-line medical application is being developed for expected implementation in 2011.*
- *In addition to updating some legacy computer systems, a more intuitive user interface will be implemented. Applicant information will be entered on a common data interface screen and the data will be used to populate other screens or systems, reducing data entry errors and improving the accuracy of the client data.*
- *New imaging technology will streamline the eligibility determination process and allow workers instant access to documents, including income documentation. Use of imaging technology will reduce the amount of paper documents that can potentially be misplaced or misfiled and increase the accuracy of the information used to determine eligibility.*

- *The department plans to automate the medical program eligibility decision process using a web-based computer system.*
- *An additional component is a medical benefit calculator for eligibility workers. Eligibility workers will enter client information for each applicant, including income, household composition and other eligibility factors. The benefit calculator will review the eligibility factors for each medical category, including countable income, and assist the eligibility worker in making an eligibility determination. Income calculations will be automated. The new income calculation functionality will improve the accuracy of earned income calculations.*
- *The modernization efforts will continue to be implemented in phases, continuing throughout 2011.*

In June 2010, the department determined the amount of CHIP funds paid on behalf of the ineligible clients identified in the finding and credited the federal program.

On November 1, 2010, the department eliminated the two-month income average for OHP (including Standard) and Healthy KidsConnect (HKC) and implemented budget month income. The client reports what they have received during the budget month and what they anticipate the rest of the month. This new rule streamlines and simplifies the eligibility determination process for eligibility workers and clients. The rule changed from using two-month average to one-month.

With the budgeting change there is ongoing training, Informational Transmittals, On Target Newsletter, and QC Reviews. This will help staff in placing the client in the correct medical program.

The department continues to educate staff on when the two-months can be waived. Office of Healthy Kids sent out a “cheat sheet” for staff explaining when the two-months period can be waived. Office of Healthy Kids is also working with the federal government to see if the State can eliminate the two-months wait period.

The department is using more imaging technology. This allows workers instant access to documents and with the use of imaging, this will reduce the amount of paper documents that can potentially be misplaced or misfiled and increase the accuracy of the information used to determine eligibility.

As of July 15, 2010, the department implemented policy requiring only one signature per household. Policy Transmittal was sent to eligibility workers and the Family Services Manual was updated.

- Department management identify and correct all system coding to ensure compliance with federal eligibility requirements. In addition, department management should ensure follow-up and resolution occurs if a client coded as ineligible in the system remains on the monthly report. Further, department management should determine the total amount of TANF funds paid on behalf of ineligible clients and ensure it is properly credited back to the federal program.

The department discovered during the audit that some family support services that meet the TANF requirements if provided to an eligible client were programmed in the department's financial system to be funded by TANF regardless of the client's eligibility for TANF. This apparently resulted from a misunderstanding of TANF requirements that occurred in the 2007-2009 budget process. The services were incorrectly charged beginning in November 2007.

An analyst in the Federal Compliance Unit is responsible for monitoring the monthly report of clients who have or are approaching services exceeding the \$25,350 annual limit. The analyst is responsible for ending the clients' TANF eligibility. Each month the analyst would verify the clients on the previous month's report had been made ineligible. However, the analyst and management did not research why some clients continued to show on the monthly report.

The department will ensure that the funding for the services, which were programmed to charge federal TANF funds incorrectly, has been corrected. The payments were reprocessed to ensure the federal funds are reimbursed based on the clients' eligibility. The department determined, documented and made appropriate

funding adjustment to the federal program. The documentation and adjustments include the clients who had exceeded the \$25,350 limit to ensure all payments funded by TANF beyond the clients' eligibility have been credited back to the federal program.

The department has implemented a monthly Federal Funding Program Update meeting. Representatives from budget, financial services, federal compliance and program policy are represented at this update meeting. The current expenditures of the federal funds are monitored and discussed. Proposed changes to use of federal funds will be discussed and decisions are made jointly by department fiscal and program management.

The department corrected the funding for the services, which were programmed to charge federal TANF funds incorrectly, in May 2010. In July 2010, the department made adjustments for the 2007-09 biennium and a portion of the 2009-11 biennium to credit funds back to the TANF federal program. In October 2010, (the next quarterly TANF report), an additional adjustment was made for the remainder of the 2009-11 biennium. In total, these adjustments equaled approximately \$6.27 million. We provided the accounting detail regarding the manual adjustment mentioned above to the Region X Office of Administration for Children and Families (ACF). The adjustments were based on the total payments for the service that was incorrectly coded to use TANF funds by using the eligibility of the client. The documentation and adjustments included the clients who had exceeded the \$25,350 limit to ensure all payments funded by TANF beyond the clients' eligibility have been credited back to the federal program.

The department will continue to monitor the monthly \$25,350 report to ensure that any clients reported on previous reports receive the necessary adjustment to payments. Any client that remains on the report more than two months will be completely analyzed, any problems identified will be corrected and documentation of actions taken will be attached to the monthly \$25,350 report. Procedures have been created for this process.

October 2010, Central Office modified the \$25,350 report to include a breakdown per case, per monthly payment. This ensures a more timely and accurate determination of ineligibility when a client exceeds the \$25,350 limit.

As previously noted, the department did create procedures to improve the monitoring and analysis of \$25,350 report. The finding 10-13 Oregon Department of Human Services Eligibility – System coding issues, found that the procedures were being completed accurately, however, services were still being claimed to TANF-EA after the eligibility was appropriately denied. As discussed in the 10-13 Oregon Department of Human Services Eligibility – System coding issues finding, Children, Adults and Families federal compliance, contracts, budget and OR-Kids business analyst staff have completed detailed service definitions, which include appropriate budget and funding sources (federal or state general fund). This work was done with the knowledge of past audit findings and with particular attention to the appropriate use of federal funds. In addition to the detailed service definitions, the OR-Kids financial batch processing should monitor the amount claimed within the 365 days and when the \$25,350 amount is achieved the system should automatically end claiming and send a notice to the Federal Revenue Specialist to close TANF eligibility.

The OR-Kids system was implemented on August 29, 2011. The OR-Kids system has not been accepted at this time due to significant issues which have not been completely corrected. The OR-Kids Project Team and DHS Executive Team are working with the vendor to determine how and when these issues can be resolved. All eligibility, TANF, Title IV-E and Title XIX, have been significantly impacted by the issues mentioned above.

Also impacted by the implementation of the OR-Kids system is the ability to complete adequate queries of the data maintained in OR-Kids. In June 2012, we began working with the Office of Information Services to design reports for Central and Field Offices to use. An Eligibility Report is still in the design stages and is proposed to be available in September 2012. The Eligibility Report will be the mechanism by which the Federal Revenue Specialists will track all their workload including TANF eligibility determinations.

Due to the issues described above and the estimated schedule for accepting the OR-Kids system, the federal compliance unit will be completing the analysis of prior payments and complete a manual adjustment by March 31, 2013.

- Department management ensure that eligibility re-determinations are conducted timely and that all eligibility criteria are substantiated. Further, department management should determine the total amount of TANF funds paid on behalf of ineligible clients and ensure it is properly credited back to the federal program.

Child Welfare (Emergency Assistance Re-determinations)

Procedures established in September 2008, requiring the completion of annual re-determinations for Child Welfare related TANF Emergency Assistance, have resulted in improved compliance. The monthly report used to notify Child Welfare Federal Revenue Specialists (FRS) when re-determinations are due is the same report used by the Federal Compliance Unit analyst to monitor ongoing compliance. Unfortunately, this report can be difficult to understand due to conflicting eligibility history data on Child Welfare's legacy system. The department took or is taking the following actions:

- *Child Welfare sent an Action Request instead of a Policy Transmittal. CW-AR-10-008 was sent to Federal Revenue Specialists and the Supervisors on December 15, 2010.*
- *Provide refresher training to individual FRS' (identified from the Federal Compliance Unit analyst's monitoring of the re-determination report) who are not completing the annual re-determinations timely. A monthly report is provided to all Federal Revenue Specialists in the field offices via e-mail to notify them when an annual re-determination is due. The monthly e-mail reminds the Federal Revenue Specialists of timelines and re-determination procedures.*
- *Continue to analyze and fine tune to monthly report to increase its completeness, accuracy and usability. The monthly report has been enhanced as much as the current system will allow. Unfortunately, due to the complexity of the current Child Welfare IIS/FACIS system some cases are not included on the monthly re-determination report.*

The department sent an e-mail to the Child Welfare FRS to remind them of the requirement to complete TANF re-determinations annually. Refresher training was provided to individual FRS' (identified from the Federal Compliance Unit analyst's monitoring of the re-determination report) who are not completing the annual re-determinations timely.

The department will also continue to analyze and fine tune the monthly TANF re-determination report to increase the accuracy and usability of the report to ensure all re-determinations are being reported and completed timely.

Self Sufficiency (Pre-TANF Eligibility)

The Transition, Referral, and Client Self-Sufficiency (TRACS) narrative system is used to maintain a chronological, legal record of program eligibility and client case plan activity. Information narrated by case workers in TRACS includes specific financial and non-financial information related to eligibility for the Pre-TANF and TANF cash assistance programs, and the final program eligibility determination. The TRACS narrative for the identified Pre-TANF case did not contain clear, detailed information regarding eligibility based on deprivation. The department will take the following actions:

- Send a Policy Transmittal to Self Sufficiency field staff - reminder of TANF financial and non-financial eligibility requirements and TRACS narration to support the eligibility decision.*
- Review and update training materials related to TANF non-financial and financial eligibility factors and TRACS narration.*

In addition, the Operations Improvement Committee, Self Sufficiency Program Managers and others continue to discuss outcomes regarding narration of information in the TRACS system. Included are minimum standards of narration related to financial and non-financial program eligibility, case plan activity, confidentiality and sensitivity of health-related information, and payments in the form of benefits or support services made to families.

To support the intent of TRACS to provide a chronological, legal record of actions taken, the use of standardized narration guidelines and other tools are being explored to assist in capturing the minimum necessary information needed. The SSP TANF Program Analysts and Training Unit Staff meet monthly to discuss SSP policy and training related issues. These meetings provide an opportunity to discuss the application of policy and review training materials for accuracy and clarity, and gave the opportunity to discuss specific policy related to the eligibility for the Pre-TANF program and basic needs and support service payments.

The three incorrect payments identified and issued on the Pre-TANF case, were properly credited back to federal funds by the Office of Financial Services, in June 2010. The department will determine the total amount of TANF funds paid on behalf of the child welfare ineligible client and credit it back to the federal program.

The department continues to send monthly e-mails to the Child Welfare Federal Revenue Specialists to remind them of the requirement to complete TANF re-determinations annually. The department determined that the monthly TANF re-determination could not be fine-tuned anymore. The report is negatively affected by the current legacy systems Individual Eligibility screen. The Individual Eligibility screen is used to document eligibility for three (3) federal programs (TANF-EA, Title IV-E and SSI). Anytime a Title IV-E specialist changes the individual eligibility code it starts the clock for the calculation of when the TANF-EA re-determination is due. It is not possible to change that functionality in the legacy system; however this issue will be corrected with the implementation of the new OR-Kids system on August 29, 2011. Each federal eligibility program, TANF-EA, Title IV-E and Title XIX, will have its own unique eligibility screen. The update to the TANF-EA policy and procedure manual was delayed because the entire policy and procedure manual had to be updated with the implementation of OR-Kids. The scheduled completion date is December 31, 2011.

The OR-Kids system was implemented on August 29, 2011. The OR-Kids system has not been accepted at this time due to significant issues which have not been completely corrected. The OR-Kids Project Team

and DHS Executive Team are working with the vendor to determine how and when these issues can be resolved. All eligibility, TANF, Title IV-E and Title XIX, have been significantly impacted by the issues mentioned above.

The Policy Analyst responsible for TANF-EA was on loan to the OR-Kids project for 10 months (September 2012 – June 2012) at which time she took a permanent position with the project. A replacement was finally hired on November 15, 2012. The new completion date for the update to the TANF-EA policy and procedure manual is July 31, 2013.

- Department management ensure that verification of IEVS required screens are documented when determining client eligibility.

This finding occurred because the department no longer enters into its case management narration system, for every case, separate specific statements that each Income and Eligibility Verification System (IEVS) screen has been checked.

The TANF program policy requires Self Sufficiency workers to verify and document eligibility. Staff are also required to use the information from the IEVS screens as well as other documentary evidence (oral or written) in determining and verifying financial and non-financial eligibility. This is consistent with federal guidance. The three cases identified in this audit included information in the Transition, Referral, and Client Self-Sufficiency (TRACS) narrative system indicating they were eligible.

While the department agrees that verification of financial and non-financial requirements must be adequately documented when determining client eligibility, the department disagrees that the use of IEVS related screens must be independently documented for every client. States are required to participate in the IEVS. Oregon participates as required through regular use of IEVS screens by eligibility workers and cross matching of data across other agencies including: Unemployment Compensation match with Oregon Employment Department (OED); wage match with OED; Social Security Administration income match and

SSN verification. Discrepancy reports are now created monthly for use by eligibility staff. The three cases identified in this audit did not appear in the discrepancy reports.

The IEVS requirement is that States use the information obtained through IEVS. Section 1137 (a)(4)(C) of the Social Security Act provides that “the use of such information shall be targeted to those uses which are most likely to be productive in identifying and preventing ineligibility and incorrect payments, and no State shall be required to use such information to verify the eligibility of all recipients.” There is not a federal requirement for documenting each time IEVS screens are viewed for every case. ACF policy instruction: TANF-ACF-PI-2007-08 provides that eligibility decisions, including denials or closures, cannot be made solely based upon the results of IEVS checks. Consequently, Self Sufficiency staff are required to validate the data obtained through a variety of resources using the source with the most reliability for the given scenario.

Recently, the Office of Self Sufficiency has been working to achieve a more streamlined environment. This is in response to the need for increased efficiency given the high number of intakes and resulting higher than budgeted caseloads. This needed efficiency also comes as a result of staffing related to the TANF program field administration being approximately 40 percent of need.

One of the recent efficiency improvements involved discontinued use of narrative templates. Self Sufficiency workers are still required to document their eligibility decisions, including decisions based on both financial and non-financial requirements. However, staff are instructed to report how they verified pertinent eligibility information about a client.

While the department’s TANF program participates in IEVS as required, the department recognizes improvements could be made to better utilize data from some of our federal partner agencies.

The department will review current policies and guidance to staff regarding verification and documentation of eligibility. The department will also continue to work with federal partners to improve the State's systematic approach to meeting the IEVS requirement.

The department continues to research the requirement to utilize information contained in IEVS screens to support program eligibility related decisions and the options for narration of findings. In addition, DHS is reviewing existing Interagency Agreements with the respective IEVS agencies for language related to information sharing, limitations of information usage, and general information sharing guidelines.

Communication of narration guidelines is messaged to Office of Self-sufficiency Programs (OSSP), Self Sufficiency Program (SSP) staff through existing TRACS and program training. It is also communicated to Districts through feedback by the Accuracy Unit staff of case record reviews.

On July 29, 2010, Self Sufficiency Program Managers, program accuracy, OSSP training and OSSP Field Services met to discuss narration guidelines. OSSP Field Services sent a reminder of the TRACS narration guidelines to all staff on August 19, 2010. The monthly accuracy newsletter, "On Target", for August also included the narration guidelines. The guidelines specify financial eligibility is an aspect that must be addressed in the narrative. Examples of what must be narrated are: "Income - earned, unearned, excluded, calculation, pay stubs/verification used, self employment, results of screen checks, if no income how they are meeting basic needs; NC1/NC2 calculations; resources; pursuing assets; good cause; categorical eligibility."

The OSSP continues to reinforce the TRACS narration guidelines with SSP eligibility workers and staff. In addition, SSP revised training curriculum as needed. Benefit certification periods are six to 12 months in length and SSP serves thousands of families. Because of this, OSSP anticipated this additional attention would yield improvement with applications and re-determinations completed beginning September 2010.

The department continued to reinforce the narrative guidelines with field managers in the Fall of 2010. The department also contacted the Self-Sufficiency Training Unit to ensure the TRACS narrative guidelines are taught in eligibility training, including TANF. On September 13, 2010, OSSP issued a policy transmittal reminding staff that when determining eligibility in the TANF and Pre-TANF program, staff must ensure TRACS narration includes all financial and non-financial eligibility factors. The policy transmittal reminded staff that, “In addition to information obtained from the DHS 415F [Application for Services] and intake interview, case workers can view records from other agencies, such as the Department of Motor Vehicles and Oregon Employment Department, regarding potential income and resources. Eligibility narration must also include income or resources obtained from these records, if applicable.” The OSSP Field Services Narrative Guidelines were also included in this policy transmittal. Local line managers and lead workers also reviewed (as is the expectation) this transmittal with the staff who determine eligibility.

The department once again reinforced the narrative guidelines with field managers and staff in the Spring of 2012. Narration of financial eligibility continued to be the main area that needed reinforcement. For this reason, the monthly accuracy newsletter, "On Target", for April included a reminder of the narration guidelines and the expectation of checking screens and of narrating the results of screen checks in the TRACS system. The April article also included examples of how the results of screen checks can be narrated. The department also issued another Informational Memorandum transmittal in April 2012 reinforcing the narration expectations as they apply to financial eligibility and verifying information through the various IEVS screens available to field staff. A new Multiple Program Worker Guide #23 - All Program Narration Guidelines was added to the Family Services Manual effective May1, 2012. The new worker guide outlines expectations of narration of financial information. In November 2012, uploaded financial narration information was once again included in “On Target.”

- That training be provided to personnel on the use of the electronic time keeping system and applicable work charge codes for the relevant grants, and that all payroll adjustments be based on corrections to actual time and effort charges and not to overcome funding deficiencies. Shared staff should document their actual time and effort at least monthly, and more frequently if they experience constant daily variations as to which

grants they work on. Time that cannot be subdivided between grants should be allocated based on an acceptable cost allocation methodology as discussed in OMB Circular A-87.

Within the Health Promotion and Chronic Disease Prevention (HPCDP) Section there are several “shared” staff who are budgeted in all the HPCDP Chronic Disease grants or cooperative agreements that are included in the CDC Investigations and Technical Assistance Program. These budgets are approved by the CDC. These staff are typically responsible for the management and administrative functions across all the Chronic Disease grants and provide support to all the grants all the time. The charges to any of these grants for shared staff time are approved and allowable expenditures under each grant.

A recent CDC Request for Applications specifically encouraged a shared approach to leveraging resources for chronic disease programs. Our methodology for managing the costs of shared staff across all the grants was based on our interpretation of this guidance from the CDC. We have initiated conversations with CDC about these audit findings. They agree that states, like Oregon, who have acted on their direction to integrate programs and leverage resources across multiple grants are in a difficult situation when it comes to time/activity reporting. The CDC Chronic Disease and Health Promotion Center has agreed to work with Oregon to find a mutually acceptable way to monitor personnel expenses for shared staff whose work crosses multiple grants and cannot be easily dissected to individual grants, while still remaining in compliance with OMB Circular A-87.

The department agrees that a mistake was made in the second instance described above. The employees in the Office of Disease Prevention & Epidemiology who work on multiple grants or cooperative agreements included in the CDC Investigations and Technical Assistance Program are required to do time and activity reporting. They must meet this requirement by over-riding the default coding on the monthly electronic timesheet with the coding for the grants/activities where they worked during the month. Management does not shift payroll costs for employees from one grant to another disproportionately, without regard for which grant the individual actually worked on. The payroll adjustment that was made did not reflect actual grant

activity for the month of May 2009. Rather, adjustments to time/activity reporting needed to have been done over several earlier months to reflect actual time spent on the Cancer Prevention and Control grant.

Per the recommendation above, training was provided in February 2010, for those HPCDP staff whose time is paid from multiple grants. The training included use of the electronic time keeping system and guidance on how to apply charge codes for relevant grants to reflect actual time and effort. Managers and staff on a monthly basis review and project time and effort during the month. Shared staff then document their actual time and effort during the month. Over the past several months, managers have reviewed and see close consistency between projected and actual time spent on various grant activities. Thus, this method of documenting time and effort appears to be a good solution for HPCDP.

The CDC Chronic Disease and Health Promotion Center has undergone multiple major reorganizations over the last several months. However, we have had discussions with the project officers for our various grants and they are supportive of the steps we have taken to assure that time reporting does reflect time and effort.

- Department management implement a procedure to completely review and detect whether assistance payments agree with the signed adoption agreements and to get any amended assistance agreements filed in the case files. We further recommend that the department management work with the designated federal agency to determine the appropriate way to resolve any potential overpayments.

The department's Adoption Program completed a review of the reduction period cases identified in the audit to confirm the following:

- *Payments opened during the reduction period of February through October, 2003, were established in line with the reduced foster care rate and pursuant to a properly negotiated Adoption Assistance agreement.*
- *There was equitable management of payments for new cases opened during the reduction period.*

- *All payments for new cases opened during the reduction period were increased at the same time as longer-standing Adoption Assistance cases.*

Part of this file review also addressed the question of whether there was a signed agreement in the file that recorded the changes in payments, both decreases and increases, from the reduction period. While new agreements were sent to all families to correctly document the changes, not all families returned them and the adoption program did not track this at the time, nor did they file returned agreements directly into subsidy case records.

The absence of a signed agreement supporting the current payment is contrary to federal requirements. The manual review found that in a small number of subsidies, there were no signed agreements and incorrect payments continued until they were identified as a result of the audits and corrective action plan (a period of more than six years). As a result of the review, eight cases were determined to be under-payments in the total amount of \$5,539. A total of 23 cases were determined to be overpayments in the total amount of \$71,693. Most of these were for children placed out of state with more complicated subsidy structures.

Adoption Program management has initiated contact with the Administration for Children and Families Children's Bureau, Region X Child Welfare Program Office regarding how to best resolve the issue. At this point we estimate approximately \$28,000 in federal Title IV-E funds are within the total overpayment amount.

Parents of all children with under and overpayments will receive a corrected Adoption Assistance Agreement with an explanatory letter appropriate for their circumstance. The agreements are retroactive to November 1, 2003. The department will reimburse parents of children with underpayments for the total difference DHS owes on each agreement.

The department manually reviewed all agreements affected by the reduction in 2003 and implemented new matching agreements on all but 19 active cases. The department developed and implemented a new

procedure that involves a second level of review which is conducted on every Adoption Assistance Agreement to ensure that the amount on the agreement and the amount authorized match. The department worked with the designated federal agency and determined there was no overpayment because there is no Federal requirement that Adoption Assistance Agreements reflect the amount of actual adoption assistance payments. This is confirmed in a letter from the Administration for Children and Families. Based on discussions with federal agency, no further actions are required. (See Statewide Single Audit Findings 07-42, 08-28 and 10-23.)

- The agency provide additional training for the one district on transferring case files. We also recommend the agency communicate to all CAF Self Sufficiency branch offices the importance of following established business procedures for transferring case files.

Children, Adults and Families (CAF) District 8 initiated a work group comprised of transfer clerks from each branch office and two Line Managers, all within District 8. The “case transfer workgroup” meets monthly and has developed a District-wide case transfer process and database, as their mechanism for tracking incoming and outgoing case files. The process and database are used for case file transfers within the district, or to another branch office in the state. The workgroup identifies and provides solutions to management of case file transfer issues that may arise.

The department has communicated the expectation of following established transfer procedures at various CAF statewide meetings including: Self Sufficiency Program Managers (April 14, 2010) and the Self Sufficiency Line Manager quarterly meetings (April 20-22, 2010). District Managers have also been engaged in the discussion (July 7, 2010). Case File transfer procedures (FSM MP-WG # 21) are located in the Family Services Manual (MP-WG # 21) and the Field Business Procedure Manual (XVI. Case Files, A. Interoffice Transfer of Case Files).

- Department develop and implement a system to track actual personnel compensation for those individuals working on multiple Federal grants but whose time is not allocated using another time effort and reporting

method. We recommend that those allocations based on actual amounts be reflected in the accounting system and properly allocated to the federal grants.

The DHS cost allocation unit has provided training for the staff affected to ensure appropriate time codes are used to reflect multiple program areas these staff now work on. Codes and basic instructions were communicated to staff on December 16, 2009, for Self Sufficiency Program Accuracy Team (SSPAT) and December 17, 2009, for Quality Control (QC). These instructions directed staff to begin using these codes immediately. Follow-up training was also conducted for both affected areas.

The questioned costs identified in this audit were corrected through an adjustment to the SNAP administrative grant. Furthermore, July 2009 through December 2009, administrative costs for these staff were reviewed and similarly adjusted.

- Department management apply the correct estimated clearance pattern to all applicable vocational rehabilitation expenditures and implement a review process to ensure federal draws are calculated correctly and drawn in compliance with established estimated clearance patterns. Additionally, the department should determine the effect of the errors for the year and assess whether interest is owed to the federal program for vocational rehabilitation federal funds drawn too soon during state fiscal year 2009.

This was the first year that the vocational rehabilitation program was required to calculate a clearance pattern under the Cash Management Improvement Act (CMIA).

All of the formula related errors have been corrected and desk procedures on the check clearance pattern were updated for the OVRS draw process.

We have developed and implemented a review process to ensure federal draws are correctly calculated and drawn in compliance with established check clearance patterns.

Based on the audit recommendation the department analyzed how the original draws were calculated and compared them to the appropriate CMIA estimated check clearance pattern and determined no interest was due to the federal government. The OVRs CMIA for FY 2009 was independently reviewed again to verify that no interest was due. This CMIA report was submitted to the Department of Administrative Services for inclusion into the state CMIA Report.

- Department management comply with federal requirements and ensure eligibility is determined or eligibility extensions are filed within 60 days of an individual's application for services.

The Office of Vocational Rehabilitation Services (OVRs) statewide field services managers sent out a statewide communication, on March 22, 2010, to promptly address the agency expectations for all vocational rehabilitation counselors to perform the eligibility determination process within a 60-day time frame or file for an eligibility extension as appropriate. This statewide correspondence will also serve to help reduce the misperception that eligibility determinations are due within a "two-month period" when the specific requirement is within 60 days.

The eligibility process, including these standardized time frames, became a focus in the new counselor training module being conducted regionally throughout the state during 2010. OVRs administration staff developed a worksheet to assist vocational rehabilitation counselors to better identify and track the salient elements required when completing an eligibility determination, i.e., the number of documented disabilities, and corresponding functional limitations when determining eligibility, and due dates. This new worksheet was distributed during the new counselor trainings.

All VR counselors who failed to meet the eligibility requirements at the time of the Secretary of State audit were sent a personalized letter by OVRs field services managers addressing the performance expectations of eligibility determination compliance time frames.

OVRs administration engaged the branch managers, during the April & May 2010 Statewide Branch Managers' Meeting, in a discussion regarding strategies for achieving compliance on the timeliness of eligibility determinations for services. One such strategy regarded the redirection of the flow of work when the vocational rehabilitation counselor of record is unexpectedly absent due to illness or other unanticipated reasons. Branch managers also reviewed case movement from application through eligibility by generating the "Activity Due Report" in the ORCA case management system. This duty was performed every two weeks for each counselor during the first six months of this corrective action implementation.

OVRs conducted administrative file reviews to monitor compliance and identify the need for technical assistance. Client files were randomly reviewed for quality control by the program technician in the region to evaluate the circumstances pertaining to a client's eligibility status. Notifications of the deficiencies in a staff member's performance are being reported to the local branch manager. The branch manager has been conducting one-on-one discussions with counselors if a deficiency occurs during a random review of the files. To enhance statewide performance, OVRs field services managers have been reading and responding to the case file review sheets being submitted to the administration office on a monthly basis.

The Secretary of State Audits Division completed a federal compliance audit in December 2010 and no finding was noted for eligibility determinations during this review period.

In 2011, OVRs administration and the State Rehabilitation Council significantly expanded the OVRs policy manual to address the recommendations from the Secretary of State Audit Division. All OVRs field staff members were required to attend a mandatory training on these policy changes. There was a specific training module dedicated to both presumed eligibility and eligibility determinations and compliance time frames. The branch managers were trained on the new policy manual in Salem on March 9 & 10, 2011. The regional staff trainings were conducted as follows: Clackamas & East Portland branches on March 29 & 30, 2011; Salem branches on April 5 & 6, 2011; Linn-Benton-Lincoln & Lane branches on April 13 & 14, 2011; Central & North Portland branches on April 20 & 21, 2011; Roseburg & Medford branches on April 26 & 27, 2011; Washington County branch on May 3 & 4, 2011; Bend & Eastern Oregon branches on May

11 & 12, 2011; and in a make-up session for any staff missing their original training site was held in Salem on June 15 & 16, 2011.

Additionally, a mandatory online exam was required of all OVRS field staff on each of the new policy training sections to include eligibility determinations. The online six-part examination required an average of three hours to complete with a deadline for completion by July 15, 2011.

6. DHS: Office of Vocational Rehabilitation Services: Save on Vocational Costs to Serve More Clients, audit #2010-31 (September 2010)

- Oregon's Office of Vocational Rehabilitation Services (OVRS) should take several actions that can help discontinue Order of Selection by serving more clients with its current state and federal resources. In order to save costs OVRS should:
 - Ensure counselors work with clients to approve realistic employment plans by better identifying impediments to future employment and discontinuing payments when clients show an inability to achieve the employment goal.
 - Ensure counselors adhere to the employment plan and only approve expenses directed toward employment impediments and employment goal achievement.
 - Consider using a fee schedule to ensure a reasonable cost to the program for commonly purchased services.
 - Monitor counselor spending approvals to ensure the most prudent decisions are made.
 - Establish realistic budgets for counselors and branch offices that are based on client types, economic conditions and other related factors.
 - Consider reviewing and revising the client contribution policy.
 - Continue with the addition of client maintenance system controls such as the current effort to link authorizations and payments to plan services.

The Office of Vocational Rehabilitation Services (OVRs) designated a Program Improvement Manager who acted as a Project Manager to assist the OVRs Executive Team to develop a plan for program improvement in case management, quality assurance, accountability and cost containment. The Program Improvement Plan is complete and being implemented. A Gantt chart of all program improvement activities to be implemented has been developed and monthly reviews to track the benchmarks identified within the overall plan are being conducted.

OVRs has established a goal to reduce the average cost per case served by 20% from comparable FFY 2008 levels by FFY 2012. This will be accomplished through the implementation of the Program Improvement Plan and close monitoring of program expenditures while simultaneously maintaining the quality of employment outcomes.

OVRs already has the following spending guidelines and controls in place for counselors:

- Spending authority limitations are presently incorporated in ORCA, the program's case management system. The spending authority for counselors is \$5,000 per authorization, \$20,000 for branch managers, and \$50,000 for field services managers. ORCA will not permit the issuance of payment documents beyond one's authority.*
- All four-year school plans must be reviewed and approved by a field service manager and the agency administrator.*
- All vehicle purchases must be reviewed and approved by the administrator. Vehicle purchase is currently an exception to policy and will only be considered when other modes of transportation are not feasible.*
- New counselors' authorizations for services must be reviewed by their managers during their first six months of employment (trial service).*

In addition, in 2008 OVRs began exploring a shift to performance-based contracted services as a strategy to increase the quality of services for the dollars spent. Accordingly, during 2009 OVRs established minimum qualifications for job developers and provided them with training on how to

perform job development using practical marketing and sales techniques appropriate for securing jobs for clients with any level of an employment barrier. OVRs job placement contracts now emphasize performance-based outcomes in three categories: job development, job placement, and job retention. The full implementation to the performance-based methodology was initiated on January 2, 2010. Data analysis regarding the job placement and job retention outcomes and cost analysis has been incorporated as a portion of the Program Improvement Plan.

In addition to performance-based contracts for its job development service providers, OVRs collaborated with Alliance Enterprises, the creator of the program's case management system, in a pilot to develop a report card that gives managers and administrators more information about the performance of vendors. The report card will provide information on the effectiveness of individual vendor success rates across a number of disability and demographic variables. In addition to supporting better program oversight and administration at the management level, this information will help counselors and participants to make informed choices and assist the program to identify best practices. It will also serve as an objective foundation to discontinue issuing contracts to ineffective vendors.

OVRs took the following additional actions relating to cost containment:

- OVRs reviewed current spending approval levels and methodologies. The review included consideration of setting budgets for counselors and branch offices that are based on client types, economic conditions and other related factors such as prior budget management, average costs and rehabilitation rates. The review also looked at improving ways to efficiently monitor and analyze spending patterns and ultimately set a process for routine reviews of spending approval levels.*
- OVRs reviewed staff spending authority levels. It was determined that the most effective method is to distribute partial funding into counselor caseloads (in the ORCA case management system) every six months so that central office can monitor ongoing spending patterns throughout the year.*
- OVRs asked the State Rehabilitation Council (SRC) to partner with them in a review of the current participation contribution policy. OVRs developed the consumer's contribution policy with the SRC, and any change in the existing policy would require their approval. OVRs engaged the SRC in a*

discussion about the level of the participant's contribution as a percentage of income as well as the income threshold for contributing to the cost of services. The SRC moved to maintain current client contribution levels.

- *OVRs is exploring options for a standardized fee schedule. The State's workers compensation's fee schedule was reviewed. It is a complex system that requires medical coding. It is not a practical option for OVRs. The program will continue to explore other options.*
- *OVRs reviewed and revised its Medical Restoration policy in order to provide more effective guidance on medical fees.*

The OVRs Administrator and the new Program Improvement Manager have set concrete timelines for completion of these additional action items as part of the Program Improvement Plan.

- *In order to help client success rates OVRs should:*
 - *Ensure counselors develop and adhere to milestones within employment plans and take quick, appropriate actions if those milestones are not met.*
 - *Establish higher rehabilitation goals for counselors and take constructive actions when those goals are not met.*
 - *Ensure counselors establish clear client expectations.*
 - *Ensure counselors address any prior issues when clients return.*

OVRs has implemented a new case management data monitoring system to identify individual case management issues and program-wide reporting on open cases. This system will strengthen monitoring consumer compliance to the mutually agreed benchmarks incorporated within the employment plans.

In support of more consistent practice, better counselor decision-making, and stronger management oversight, OVRs has taken the following steps focusing on improved case management.

OVRs revised the case closure policy to provide more specific guidance for counselors regarding conditions under which an individual's case file can be closed. After consulting with the Rehabilitation Services Administration (RSA), the OVRs Executive Team and State Rehabilitation Council Policy Committee approved the new policy in August 2010. The State Rehabilitation Council Executive Committee approved this policy in September 2010. Training for all staff was completed.

Over the last two years, training has been provided to counseling staff on how to identify and intervene when participant motivational issues impede engagement in the process and hinder progress with plan services. As a best practice, counselors are being asked to routinely use this methodology when a participant has failed to make sufficient progress toward plan benchmarks.

OVRs has enhanced its automated case management system so that services identified in a client's case plan are linked to services being authorized as the plan is implemented. This automation means that an individual counselor cannot pay for services that are not detailed in the plan or extend services without amending the plan. This enhancement was made available when the newest version of the Oregon Rehabilitation Case Automation System (ORCA) was implemented winter 2010.

Finally, in conjunction with the Spring 2011 ORCA update, OVRs provided training on informed choice to emphasize the application of best clinical practices in the areas of vocational goal selection, establishment of benchmarks to assess and track the client's progress, selection of vendor(s), and specific goods and services. This clinical training will also help counselors provide better occupational guidance to clients. These efforts are expected to result in client plans better aligning with realistic employment goals.

- In order to better assist counselors in performing their duties OVRs should:
 - Complete the drafting of its policy manual.
 - Develop better data monitoring to identify program-wide and individual case management issues, including better reporting on open cases.
 - Conduct regular performance evaluations that incorporate case closure.

- Explore cost-effective training solutions such as those provided for free by vocational rehabilitation Technical Assistance and Continuing Education centers.

OVRs completed a significantly expanded revision of the program's policy manual in May 2011, to address the increased need for consistency in client expenditures across the state. Regional trainings will be conducted on the new policy manual beginning May of 2011.

As a consequence of the Order of Selection, in January 2009, OVRs re-trained all current staff on the eligibility determination process to ensure statewide consistency in establishing the consumer's disability-related functional limitations impacting employment. Eligibility became the focus of recent file reviews conducted by the program's field technicians. Results from those reviews were shared with managers who work with any staff who need additional support and/or who had deficiencies in this area.

In February 2009, the program revised its new counselor training to more narrowly focus on case management and critical case questioning. In March 2009, this class was conducted regionally across the state and was attended by new counseling staff and counselors who would benefit from refresher training.

The program offered this training again in September and December 2010, and will continue to offer it on a regularly scheduled basis. The program will provide training on plan development including appropriately ensuring clear client expectations and appropriate follow-up on any prior problems when clients return. Training will be prioritized for new counselors and counselors in need of additional training. On a go-forward basis, OVRs will continue to provide training, as well as utilize regional resources, to improve counselors' skills to provide effective and cost appropriate services and to promote better counselor decision-making.

Every 12 months, OVRs conducts a branch-wide review to include a random sampling of cases from each counselor. These branch-wide quality assurance reviews are conducted by the regional program technicians and results are provided to each branch manager. The agency will continue to perform file reviews and

identify branch level and statewide trends to develop trainings and to coach staff. In addition, OVRs will take the following actions:

- Under an existing Oregon Administrative Rule, a person may be eligible for VR services if he/she is in the U.S. for other than a temporary purpose and legally entitled to hold employment in this country. On September 1, 2010, OVRs notified all managers that effective immediately OVRs will now require all prospective applicants to supply valid documentation of their legal status to work and proof of identity prior to initiating an application. An application will not be accepted until documentation is obtained and a copy placed in the client's file. Temporary guidelines have been provided to managers throughout the state. Revision on this associated policy will start immediately. Additionally, OVRs is, on its own, randomly auditing 500 files to ensure compliance.*
- OVRs Central Office Administration has involved DHS Human Resources in implementing a monitoring system on a quarterly basis to track position descriptions, performance feedback, and employee development plans. Of the 204 field positions at the end of last quarter (through October 31, 2012), the HR report shows 187 current position descriptions, 170 with written performance feedback, and 178 with current employee development plans. OVR has five new hires on trial service who have not reached six months of employment to warrant a written performance evaluation and twelve vacant positions; thus, a total of 187 active employees are being tracked for performance reviews during the third quarter of 2012. OVRs administration intends to have the remaining 17 performance evaluations completed by December 31, 2012.*

7. DHS: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2010, audit # 2011- 06, (dated March 2011)

- We recommend the Department remove conflicting access rights where it can. In those instances where the conflict remains, DHS should develop and implement a detective control to specifically address those instances.

Due to budget cuts resulting in a hiring freeze coupled with increased caseloads and demands for services, offices needed to reassign some of the daily duties to support staff to accommodate the increasing demand for services.

In January 2011, the Seniors and People with Disabilities RACF administrator sent an email to the SPD Sub-Administrators asking them to review their existing reports and remove any unnecessary current access rights.

In February 2011, Children, Adults and Families (CAF), District Business Experts began a manual compensating controls review process. These reviews are occurring in CAF Self Sufficiency Program (SSP) Field offices monthly.

The Resource Access Control Facility (RACF) report is distributed monthly to the CAF Field Business Experts and Self-Sufficiency Office Managers, as well as the SPD Field Offices. The RACF report identifies employees within a branch office and their respective computer access rights. In addition, a two-page cheat-sheet has been developed and distributed to Business Experts and SSP Office managers to assist in reading the report and accurately identifying those employees with conflicting access.

In addition, an ad-hoc monitoring report has been created. This report, finalized in October 2011 is distributed monthly and is used to identify potential SSP and SPD employees who performed conflicting access functions and replaces the previous manual compensating controls process.

It should be noted that a statewide hiring freeze remains in effect. CAF received permission to fill some previously vacant position; however, this will only bring CAF staffing up to 70 percent of the need. Based on continued reduced staffing and limited resources, it is anticipated the need for staff to have conflicting access will continue.

- We recommend that the department management work with the designated federal agency to determine the appropriate way to resolve any overpayments, or to stop using federal funds for future payments in the 52 cases without a revised adoption agreement and to repay amounts previously overpaid.

After consultation with the Administration for Children and Families, and confirmed in a letter received from ACF, there are no overpayments owed because there is no federal regulation that requires Adoption Assistance Agreements reflect the amount of actual adoption assistance payments. Federal policy allows automatic adjustments without parental concurrence only in the case of an across-the-board rate reduction or increase in foster care maintenance rates. Consequently, when there has been an across-the-board rate reduction or increase in foster care rates, the State could also impose that reduction to the adoption assistance program recipients and the Title IV-E agency need not execute new, signed agreements that reflect the change to the rate. Based on the documentation relative to this finding, ACF will not recover Federal funds. Based on discussions with federal agency, no further actions are required. (See Statewide Single Audit Findings 07-42, 08-28 and 09-19.)

- We recommend the agency implement a process to review applications provided by participants for fraudulent or incorrect information. In addition, we recommend attendance logs be received more timely for review of services provided. We also recommend overpayment letters be sent immediately or as soon as reasonably possible to recover any improper payments.

Eligibility staff are currently trained to pursue questionable information and utilize available resources including Oregon Birth Verification Records. The DHS Child Care Provider Listing form (DHS7494) also asks the provider if they are related to the children. The form states that DHS will not pay the provider if they are the parent, step parent or legal guardian of the child. When processing the form, the Direct Pay Unit (DPU) reviews all open cases for the provider and client to see if all household members are included on the form. If DPU notices a birth father on the open case, they are prompted to further investigate.

Effective October 1, 2010, DHS eliminated the temporary approval of providers while undergoing the background check and now requires the provider (and other subject individuals) to complete and pass the DHS Background Check before allowing payment or authorization for payment to the provider. Though the main reason for this change was to reduce potential risk to children, it may also help identify some fraudulent providers. If information is discovered in the background check that shows evidence that the child care provider is the parent of the child in care, it is reported to the DHS Direct Pay Unit and the provider will not receive payment. Other rule changes are in process for April 1, 2013, to change the department's payment process to only pay for eligible child care services from the date the provider is in approved DHS listing status.

If the information is discovered after payment has been made, DHS pursues an overpayment on the provider. In the fraud case mentioned in the finding, a referral was made to Investigations, an overpayment was written and the client signed an Intentional Program Violation waiver admitting to the charges. On the other overpayment case mentioned, DHS acknowledges that the overpayment letter was not written timely. However, the overpayment had been identified to be worked prior to the audit. This delay was partially due to reduced staffing in the Overpayment unit.

Temporary Assistance for Needy Families (TANF) eligibility includes the requirement that a parent cooperate with the Division of Child Support (DCS) to establish paternity and locate and obtain child support payments for each needy child. Over the past year, DHS and DCS have jointly developed and delivered tools, cheat sheets and in-person training modules to staff that have resulted in increases to the paternity establishment percentage rate and the number of TANF cases in which a child support collection is made.

With implementation of the ERDC reservation list (October 2010 to April 30, 2011, August 1, 2011 to May 31, 2012 and November 1, 2012 to December 13, 2012), for most clients ERDC eligibility is contingent upon receipt of TANF within the prior three months. Combined with the recent emphasis by Department of

Human Services (DHS) and Division of Child Support (DSC) on child support, the number of ERDC cases in which a payment may be made to a parent is further diminished.

In addition to 11 classes provided to new eligibility workers in 2011, field staff has been given five ERDC refresher classes and one Netlink with expanded questions/scenarios as a reminder on who can be a provider. In 2012 the department provided eleven classes for new eligibility workers, four ERDC refresher classes and five Netlink sessions. All training emphasizes specific questions workers can ask the client if they find a potential provider situation questionable. A May 2011 ERDC Skill Challenge and April 2011 article in the “On Target” staff newsletter reviewed in depth who can be a provider and what to do when a situation is questionable. Another “On Target” article appeared in the November 2012 newsletter which focused on setting accurate percentages for clients who are using multiple child care providers. These clients are required to split their child care hours between the providers on their case, assigning accurate percentages of child care hours has reduced the number of overpayments in the program. Further, 95 ERDC cases are reviewed monthly by the DHS Accuracy Team to identify and give immediate feedback on errors. We have found staff education useful in reducing client and provider fraud.

DHS currently has one overpayment writer who works specifically on child care provider payments. This allows the department timely request and review of attendance logs and special reports for appropriate service payments and the writing of overpayments.

DHS is also moving to real time knowledge of child care usage rather than waiting for provider submission of paper billing forms for manual processing. This will be accomplished with the Child Care Billing and Attendance Tracking (CCBAT) project. This project is in development with a pilot that began January 1, 2013. The pilot will gradually expand monthly until the initial rollout begins later in 2013. The DHS Overpayment Unit has seen a workload decrease due to CCBAT system changes already implemented that reduce the risk of overpayments.

- We recommend management ensure the required ADP risk analysis and system security reviews are conducted on the new Medicaid Management Information System (MMIS).

The Information Security and Privacy Office (ISPO) ran a successful application assessment of the MMIS on May 6, 2009, and our vendor made corrections based on the findings. This assessment was conducted and the results were verified by ISPO personnel. An application assessment process is being built into the System Development Life Cycle (SDLC).

ISPO began the MMIS network and server vulnerability scan using the MMIS test environment. ISPO began with the test environment due to the limited number of servers, impact to the business, and ISPO developed the network and server testing processes using a newly purchased software solution.

ISPO ran a successful assessment of the MMIS test environment on December 9, 2010, resulting in no network and server vulnerabilities. This assessment was run and the results were verified by ISPO personnel.

The ISPO completed the MMIS production network and server vulnerability scan utilizing the knowledge gained from the test environment assessment. The initial start date for the production assessment occurred on January 31, 2011. This assessment period covered multiple days due to the large number of servers and the use of multiple software solutions. ISPO is also scheduling an annual MMIS network vulnerability assessment.

ISPO completed an initial application vulnerability assessment for the Medicaid Management Information System (MMIS) web application during May 2011. As part of the MMIS web application Release Management process, ISPO performs an application vulnerability assessment. The last MMIS web application vulnerability assessment was completed during August 2011.

ISPO has been working with HP and MMIS to conduct an application vulnerability assessment in August 2012. The assessment will take several days due to the large number of servers and coordination with HP. In addition, the ISPO is working toward developing and implementing a formalized Risk Management Framework that will include development of regularly scheduled risk assessments and security reviews. It is anticipated that this work will be completed in June 2013.

- We recommend department management identify and correct system coding for all services for which the system is not considering eligibility. Once all service and coding issues have been corrected, department management should identify and reimburse the federal agency the total amount of TANF funds spent on behalf of ineligible clients for these services starting in fiscal year 2009.

The department discovered during the audit that certain services that meet the TANF requirements were programmed in the department's financial system to be funded by TANF, regardless of the client's eligibility for TANF. The services in question appear to be contracted System of Care services; therefore the department will review the process and procedures for inputting executed contracts into the department's financial system.

The department will implement the recommendation by ensuring all services which were programmed incorrectly are corrected. The payments will be reprocessed by using a manual adjustment of funds. The amount of the adjustment will be reported to the federal agency. The department will correct the process and procedures for inputting executed contracts if the review of the current process uncovers a deficiency.

Children, Adults and Families federal compliance, contracts, budget and OR-Kids business analyst staff have completed detailed service definitions, which include appropriate budget and funding sources (federal or state general fund). This work was done with the knowledge of past audit findings and with particular attention to the appropriate use of federal funds.

The OR-Kids system was implemented on August 29, 2011. The OR-Kids system has not been accepted at this time due to significant issues which have not been completely corrected. The OR-Kids Project Team and DHS Executive Team are working with the vendor to determine how and when these issues can be resolved. All eligibility, TANF, Title IV-E and Title XIX, have been significantly impacted by the issues mentioned above.

Also impacted by the implementation of the OR-Kids system is the ability to complete adequate queries of the data maintained in OR-Kids. In June 2012, we began working with the Office of Information Services to design reports for Central and Field Offices to use. An Eligibility Report is still in the design stages and is proposed to be available in September 2012. The Eligibility Report will be the mechanism by which the Federal Revenue Specialists will track all their workload including TANF eligibility determinations.

Due to the issues described above and the estimated schedule for accepting the OR-Kids system, the federal compliance unit will be completing the analysis of prior payments and complete a manual adjustment by March 31, 2013.

- We recommend department management strengthen controls over the eligibility process to ensure that eligibility redeterminations are performed timely and income determinations are accurate.

One of the three cases lacking timely redetermination documentation addressed above involved Children, Adults and Families (CAF), Child Welfare. In this case, we believe the redetermination was completed in a timely manner; however, the proper documentation was missing from the client's case file. The other two cases lacking timely redeterminations were for Seniors and People with Disabilities (SPD) clients. Both SPD clients were determined eligible for Title XIX prior to and after the audit period.

The three cases involving incorrect income and resources determinations were Children, Adults and Families (CAF), Self Sufficiency Programs (SSP) cases.

CAF Child Welfare:

A Federal Revenue Specialist (FRS) is responsible for completing Title XIX redeterminations every 12 months. The FACIS system creates a notice on the assigned FRS workload when a redetermination is due. The notice date is based on the review due date captured on the IIS Individual Information screen. Based on conversations with the FRS and the data displayed on the IIS Individual Information screen, the redetermination was completed appropriately.

Unfortunately the legacy system does not capture the history of when redeterminations are completed if there is no change to the eligibility reason code, which was the situation on this case. The only proof that the redetermination was completed timely was dependent upon a paper copy of the CF190 – Medical Eligibility Form, which the FRS prints upon completion of a redetermination. The copy of the CF190 is given to the case worker to be filed in the Financial Section of the case file. The FRS must rely on other support staff or the case worker to ensure the CF190 is filed. This is a manual documentation process that will be remedied with the implementation of the new OR-Kids system.

The department implemented the recommendation by sending a reminder to the FRSs (via email) of the importance of completing redeterminations timely and ensuring that the CF190 is filed in the case file. The process of filing a paper copy of the CF190 will no longer be necessary with the implementation of the new Child Welfare system called OR-Kids. OR-Kids will keep an electronic history of all eligibility determinations and the CF190 can be printed upon request.

The OR-Kids system was implemented on August 29, 2011. While the OR-Kids system does maintain an electronic copy of the Title XIX determination, there is not adequate reporting functionality to monitor that eligibility determinations are being completed timely and accurately. This should be achieved by March 31, 2013.

The OR-Kids system has not been accepted at this time due to significant issues which have not been completely corrected. The OR-Kids Project Team and DHS Executive Team are working with the vendor to

determine how and when all of these issues can be resolved. All eligibility, TANF, Title IV-E and Title XIX, have been significantly impacted by the issues mentioned above.

Also impacted by the implementation of the OR-Kids system is the ability to complete adequate queries of the data maintained in OR-Kids. In June 2012, we began working with the Office of Information Services and the Office of Business Intelligence to design reports for Central and Field Offices use. An Eligibility Report is still in the design stages and is proposed to be available in September 2012. The Eligibility Report will be the mechanism by which the Federal Revenue Specialists will track their workload including Title XIX eligibility.

Seniors and People with Disabilities:

SPD managers will be asked to remind their staff of the importance of annual redeterminations and utilize reports to monitor compliance. Staff will be reminded to use the tickler system for notification. Within available resources, managers will assign case managers to cover staff absences. Seniors and People with Disabilities has provided training to AAA/SPD Field Managers to specifically address these eligibility redetermination issues. This training was completed in April 2011, and we believe it will strengthen and enhance controls over the eligibility process.

CAF Self Sufficiency:

CAF Self Sufficiency Programs continue to look at ways to streamline and simplify Medicaid and CHIP eligibility criteria.

On November 1, 2010, the department eliminated the two-month income average for OHP (including Standard) and Healthy KidsConnect (HKC) and implemented budget month income. The client reports what they have received during the budget month and what they anticipate the rest of the month. This new rule streamlines and simplifies the eligibility determination process for eligibility workers and clients. The rule changed from using two-month average to one-month.

With the budgeting change there is ongoing training, Informational Transmittals, On Target Newsletter, and QC Reviews. This will help staff in placing the client in the correct medical program.

October 2009, the department made a policy change to waive the six-month private major medical coverage to two-months. The department continues to educate staff on when the two-months can be waived. Office of Healthy Kids sent out a “cheat sheet” for staff explaining when the two-months period can be waived. Office of Healthy Kids is also working with the federal government to see if the State can eliminate the two-months wait period.

The department is using more imaging technology. This allows workers instant access to documents and with the use of imaging, this will reduce the amount of paper documents that can potentially be misplaced or misfiled and increase the accuracy of the information used to determine eligibility.

As of July 15, 2010, the department implemented policy requiring only one signature per household. Policy Transmittal was sent to eligibly workers and the Family Services Manual was updated.

Statewide training for all Self Sufficiency Program medical eligibility staff has been provided to support the November and December policy and application changes. Classroom training consisted of 52 half day sessions for approximately 1,030 staff members. In February 2010, an article was placed in the On Target newsletter around the Autumn 2010 SSP policy changes.

Ongoing training and educational efforts include training tools and newsletters to keep staff alert to current trends and successes; resource materials developed to support worker efforts; specialized websites with training tools and resources; monthly policy transmittals; weekly Self Sufficiency policy update teleconference meetings and ongoing cheat sheets for staff.

As of March 1, 2011, Oregon Administrative Rule 461-115-0530 was amended to allow OHP Standard recipients to receive a twelve-month certification period instead of six months as was previously allowed. This change brings OHP Standard into alignment with all other DHS medical programs.

Combined, these changes reduce the number of redeterminations and streamline budgeting and verification requirements among all DHS programs.

SSPAT:

The Self Sufficiency Program Accuracy Team (SSPAT) has developed a new medical error trends training which focuses primarily on the error prone areas of budgeting, income and verification. This is a 3.5 hour scenario-driven block of instruction. The training will be delivered at branch sites to minimize impact on branch production while maximizing communication and learning within branch teams. Training materials were developed in coordination with policy analysts, quality control staff and CAF trainers. The first session was conducted on March 9, 2011. Trainings will be scheduled based on each district's priorities and branch accuracy trends.

MEQC:

CAF SSP Medical Quality Control (MEQC) and Program Management Evaluations review medical policy decisions, processes and medical application procedures and report out errors. Corrective Action Plans to prevent similar errors are developed and implemented statewide.

- We recommend department management ensure that complete and accurate client information is used to compile the quarterly data reports.

On May 16th, 2011, the Child Welfare SFMA cross walk code file was updated to include 103 additional codes identifying child welfare cases paid with TANF funding that were previously left out of our reporting. As a result, the ACF-199 and ACF-209 for the 1st quarter (ending Dec. 2010) were re-transmitted on June 28, 2011 and included over 500 additional cases per month. Since that date, we have not transmitted any

Child Welfare TANF funded cases. The OR-Kids system was implemented on August 29, 2011. The OR-Kids system has not been accepted at this time due to significant issues which have not been corrected. The OR-Kids project team and the DHS executive Team are working with the vendor to determine how and when these issues can be resolved. All eligibility for TANF, Title IV-E and title XIX has been impacted. We are unable to complete queries of data maintained in OR-Kids . A new eligibility report is still in design and is currently being validated. Due to this issue we hope to have the report completed and ready to transmit soon. We expect this may take until March 31, 2013 .

We have corrected the previously identified coding problem with the JOBS Plus cases. The PTF cases problems were also solved, although PTF cases were discontinued in March 2012.

In addition, although our reports were correctly reflecting our policies related to disability and domestic violence cases being excluded from mandatory participation and thus excluded from the participation reports; we agree that in cases where these clients are voluntarily participating in work activities, we could be including those cases. We made coding changes to also begin bringing those cases into the reports. The cases were retransmitted in June 2012.

- We recommend department management ensure coding is correct when making manual coding adjustments. Department management should correct the coding errors identified.

All coding errors have been corrected. When the coding errors occurred the funding for the TANF block grant had already been drawn to the limit, therefore no overdraw of federal funds had occurred.

Correcting transactions were completed in January 2011. Correcting journal entries were made to fix errors and to move funds from federal to other funds. An additional small correcting entry was made in January 2012. Implementation of the new OR-Kids system will restrict the ability to make manual coding adjustments in the future.

- We recommend department management ensure that the clearance pattern used to draw down federal funds is updated to reflect any changes in the treasury-state agreement.

The State FY 2009 CMIA patterns were inadvertently used for the State FY 2010 federal draws. No interest is due to the Federal government for this issue as funds were drawn at a slower rate than we were entitled to receive.

Corrective actions were completed in March 2011. The department has verified the correct rates are being used for State FY 2011 draws. In addition, a "task" has been entered on staff's June 2011 calendar to verify any CMIA changes needed for the State FY 2012 draw spreadsheets.

- We recommend department management update their contracting policy to address suspension and debarment for governmental entities and communicate this change to contract staff.

The Office of Contracts and Procurement has a procedure on checking the Excluded Parties List System; however, the policy indicated only non-governmental entities were required to be checked.

The debarment policy addressed above was updated on February 14, 2011, to require all contracting entities be checked for debarment. This issue was discussed at the Office of Contracts and Procurement all staff meeting on February 15, 2011. The updated procedure was also distributed to all staff.

8. DHS: Adequate Computer Controls in Place for the Medicaid Management Information System, audit # 2011-12, (dated June 2011)

- We recommend that department management take action to further expedite resolution of the erroneous transactions that resulted from system errors.

The department supports the findings and timelines of the SOS auditors; however emphasizes that efforts to complete the payment reconciliation process have been underway for several months and were initially scheduled to be completed by June 30, 2011(see below). The new Medicaid Management Information System (MMIS) was brought on-line before all functionality was fully operational. This decision was made to ensure the enhanced Federal funding for this project continued.

During the post-implementation stabilization and subsequent maintenance periods, all operational decisions were made to ensure the critical services provided to our clients and the financial solvency of our servicing providers were maintained. An example of this support was creation of the “transitional payments” process, allowing estimated payments to be made to Managed Care plans, with a subsequent reconciliation effort to resolve discrepancies. Owing to the anticipated operational effects of these decisions and the impact they would have to our servicing providers, many of these decisions were made after consultation and planning with Managed Care plan representatives.

The Managed Care subsystem for enrollment and disenrollment was especially problematic in unique circumstances. The corrective programming required to correct these complex enrollment discrepancies was not completed until October, 2010. These Managed Care enrollment and disenrollment errors are directly linked, and have compounded, the Fee-For-Service (FFS) errors identified by the SOS auditors, by paying claims as FFS when the correct payer should have been (but was unknown at the time due to the enrollment errors) a Managed Care plan. The sequential logic used in the processing of these incorrect capitation and FFS payments must now be sequentially reversed during the corrective action period to ensure additional errors are not created.

Starting in October, 2010, following correction of the majority of system defects, the labor and systematic intensive reconciliation process for Managed Care Organizations (MCO) enrollment errors began. After extensive consultation and planning with our Managed Care partners to develop and execute this large effort, the department expected to complete the enrollment/disenrollment and subsequent capitation

adjustments (both overpayments and underpayments) by June 30, 2011. However, this initial target date was extended to December 30, 2011.

The exact amount of the FFS payment errors, and the corresponding corrective action, could not be fully defined until the MCO reconciliation process was complete. For example, if a FFS claim was paid for a client who was, during the MCO reconciliation process, determined to be covered by a MCO, then the payment associated to the FFS claim would be recovered and the appropriate capitation payment processed. If a FFS claim was paid for a client who was determined to not be covered by a MCO at the time the service was rendered, then the FFS payment was appropriate.

Once the MCO reconciliation process was finalized, then the last sequential step in the payment reconciliation plan began. This last step was to overlay the corrected MCO client enrollment onto the FFS claims payment history and determine the appropriateness of the FFS payments made for these enrollment-adjusted clients. This final reconciliation effort was successfully completed by the December 30, 2011, extended target date.

During the startup phases of the new MMIS, there were many identified system defects. Correction of these defects took many months of time and significant levels of resources, but at the time of this writing, all have been corrected and our MMIS has been retro-certified by CMS back to nearly the first go-live date. It now is not uncommon to identify new defects during normal operations of the MMIS, but once identified, system defects are prioritized above system enhancements for corrective resources. Additionally, service level expectations have been established as part of the contract with the MMIS vendor (HP) that outline the expected effort levels and correction timeframes for identified defects – dependent upon the agreed upon levels of severity of the defects. For example, any defect identified that brings the operation of the MMIS to a standstill must have a correction in test within 26 hours. Adherence to these service level agreements is closely monitored.

- We recommend that department management implement the recommendations provided in our confidential security letter.

The department agrees with the recommendations provided in the confidential security letter provided to the department per ORS 192.501. We have taken and will continue to take corrective actions as discussed in our confidential response to the security letter. These efforts are not yet completed.

Beginning on July 1, 2011, only those reports issued specifically to the Department of Human Services or the Oregon Health Authority (or both) are included in their individual Audit Response Report.

9. DHS and OHA: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2011, audit # 2012- 08, (dated March 2012)

- We recommend department management develop controls to ensure all Supplemental Nutritional Assistance Program federal revenues are recorded and year-end financial statement adjustments to expenditures are appropriate.

DHS uses a third-party service provider to administer the Supplemental Nutritional Assistance Program (SNAP). This service provider draws revenue directly from the federal government as benefits are issued to clients. Each month the Office of Financial Services (OFS) receives a report from the service provider and records the federal revenue drawn in the state accounting system. At the end of the year Statewide Financial Reporting unit adjusts expenditures to match the revenue drawn for financial reporting.

The January 2011 revenue recording from the service provider in the amount of \$94,357,598 was missed due to lack of cross-training while an individual was on medical leave. At the end of the fiscal year, the

expenditures were reduced by an equivalent amount. Since the discovery of this error, cross-training has been provided to OFS staff and an additional review has been established by the OFS Reconciliation unit to ensure each month's revenue transaction is posted. Additionally, the Statewide Financial Reporting unit reviews the SNAP program trial balances for reasonableness during the reporting year to identify anomalies and to implement needed corrections prior to year-end close.

The implemented cross-training has been followed since implemented and has provided results. The OFS Reconciliations unit identified an error with an entry made for June 2012 and immediately notified the appropriate staff allowing it to be corrected and properly recorded.

- We recommend department management verify that the initial upload of pharmacy rates in MMIS are complete and accurate.

OHA changed our reimbursement methodology for all enrolled pharmacy providers that serve recipients of Medical Assistance Programs (MAP) from a “lesser of” methodology that reimbursed either a percentage discount off of the Average Wholesale Price (AWP); the Federal Upper Limit (FUL) or the pharmacy's Usual and Customary (U&C) to a “lesser of” methodology based on the Actual Acquisition Cost (AAC) of individual drugs paid by pharmacies to wholesalers or the Wholesale Acquisition Cost (WAC) when an AAC has not been determined; the FUL or U&C. This “lesser of” methodology ensures that pharmacy rates in the MMIS are complete.

As an early adopter of a more transparent methodology, Oregon Medicaid hired a contractor in 2010 to perform data collection and rate setting functions for our more than 700 enrolled pharmacy providers, to implement the new AAC methodology which became effect on January 1, 2011, with the initial upload to the MMIS.

We agree to review the initial upload of pharmacy rates into the MMIS to ensure completeness and accuracy. Staff now review reports generated from the MMIS after each weekly rate load that identify both changes in rates for individual drugs and an error report that identifies whether the load was stopped or unsuccessful in any way.

OHA staff also compares the system generated reports against a weekly report from our rate setting contractor that identifies changes in rates for individual drugs from week to week including those for the initial load. This review allows us to verify that rates have been loaded into the MMIS correctly and resolve any issue or anomalies in the event a rate is loaded incorrectly and to monitor drugs with significant changes in cost from week to week.

The contractor Oregon Medicaid hired to establish the AAC rates is also responsible for addressing pharmacy disputes when reimbursement is below their respective acquisition cost which further serves as a safeguard to ensure accuracy.

- We recommend department management develop procedures to ensure that balance transfers pertaining to prior fiscal years are properly recorded and do not misstate current year fund balances.

In January 2010 Medicaid and CHIP Federal rules changed related to client citizenship documentation requirements. This change allowed the Department to reclassify expenditures from GAAP General Fund to GAAP Health & Social Services Fund for current and prior fiscal years.

These types of adjustments are often large and require complex analysis to determine the appropriate accounting in current and prior periods. OFS will continue to provide training opportunities to program and internal staff on the importance of thorough documentation and understanding correct period recognition of balance transfers that relate to prior periods. The Statewide Financial Reporting unit has updated the year-end task list to include a review of balance transfers that were entered during the accrual period that affect prior periods.

In order to establish criteria for properly recording balance transfers(BT's) pertaining to prior periods, the State Financial Reporting(SFR) unit has researched guidance contained in Generally Accepted Accounting Principles, OAM , and has consulted with DAS. This criterion for properly reporting adjustments of prior period activity was documented, and presented to Shared Services management and Secretary of State Audits. Because prior period adjustment consideration often requires complex analysis, accounting staff were notified (through the LDMS process) to send BT's relating to prior periods to SFR unit for prior period adjustment consideration. SFR unit reviews, discusses the BT's with accounting staff, and educates staff on correct accounting treatment. If a BT is qualified for a prior period adjustment, SFR unit then enters the prior period adjustment to SFMA referencing the BT doc. To further educate staff; at each state fiscal year end, SFR unit sends a training document (with its year end transmittal) and instructions to staff to send their BT's relating to prior periods to SFR unit for prior period adjustment consideration.

- We recommend department management strengthen controls to ensure documentation is maintained in the case files sufficient to demonstrate compliance with federal requirements.

One of the missing applications was for an Adoption Assistance case that began in 2002. Due to prior audit findings for Title IV-E in late 2009, the department instituted a process where the Adoptions Assistance Unit reviews the applications to ensure all documentation which supports the eligibility determination (Title XIX or Title IV-E) is attached. Although this process was not administered retroactively, due to the volume of cases and the lack of resources, cases moving forward should have appropriate documentation. The eligibility for this case was retroactively reviewed and found Title IV-E eligible, thus categorically eligible for Medicaid.

The second missing application was used to apply for Self-Sufficiency program benefits. The application was initially processed by a case worker who determined Supplemental Nutrition Assistance Program (SNAP) eligibility. The same application was used, by a different case worker, to determine Medicaid eligibility, however the application did not get returned to be filed in the case record. The case record was

subsequently transferred to a different branch office, and the application could not be located. It has since been located. The DHS Family Services Manual provides procedures and outlines the steps for transferring case files between branch offices. In addition, DHS Imaging and Records Management Services (IRMS) provides services including imaging of documents and “open archiving” of case records to reduce the volume of applications and case file documents retained in branch offices. DHS sent staff an Informational Transmittal reminding staff of the case file transferring procedures and providing a link to IRMS services information. In addition, DHS published an article in the “On-Target” newsletter for Self-Sufficiency staff about ensuring case files are complete prior to transferring to a different case worker or branch. DHS also added information to the Family Services Manual and Business Procedures manual regarding case file transfer processes internally within a branch. DHS will also research the questioned costs for the Adoption Assistance case and reimburse the Centers for Medicare and Medicaid Services (CMS) the appropriate federal funds. The department hopes to complete this adjustment by June 30, 2012.

DHS will review the case with undocumented income verification and reimburse CMS any federal funds as appropriate based on this review. The department will also address documentation requirements at the next Area Agencies on Aging (AAA) / Seniors and People with Disabilities (SPD) Field Managers meeting and in the newsletter to field staff by June 30, 2012.

To reduce barriers to access and eligibility, the OHA Medical Programs (formerly DHS Medical Programs) have implemented policies that allow a medical program eligibility determination using a previously submitted application, whether or not the prior application was for medical benefits. During this time (the period under review), it was the case worker’s responsibility to remember and obtain any additional information, such as private health insurance, needed to determine medical program eligibility.

The department continues to proactively strengthen controls over the eligibility determination process. Within the past 17 months, updates have been made to the Legacy computer systems to revise a field in the Client Maintenance (CM) system. This is now a mandatory field, requiring data entry by the case worker when setting up the medical case. The purpose of this field is to identify whether or not an individual has

third party insurance. Training for this systems' change, along with other medical policy changes, was delivered statewide to field staff beginning in the fall of 2010. In addition, the training material is posted on the Self-Sufficiency Program, Medical Program Staff Tools website.

Medical program eligibility worker training includes guidance on how to process eligibility decisions. In addition, instruction is given to participants on how to "interview" to ask questions to ascertain eligibility information not captured on the current application in the case file, including whether or not individuals have private health insurance. The new data field and purpose is also explained in detail during the trainings.

DHS also researched the questioned costs for both of the cases missing the private health care information and determined no reimbursement to CMS was necessary.

DHS will review the case with the private dental insurance and reimburse CMS any federal funds as appropriate based on this review. The department will provide the case information to the Health Insurance Group (HIG) for entry into MMIS. The department will also address reviewing applications for insurance policy disclosure and the requirement to send the information to HIG at the next AAA/SPD Field Managers meeting and in the newsletter to field staff by June 30, 2012.

- We recommend department management implement controls to ensure correct rates are used when calculating the Medicare Part B buy-ins and reimburse the federal agency for the overdrawn ARRA funds.

In April 2011, the ARRA enhanced FMAP rate was reduced. The Medicare Part B buy-in calculations are performed in an excel spreadsheet. In April, the department inadvertently retained the prior quarter's FMAP rate resulting in an over draw of the ARRA funds. We have since added a box to the excel spreadsheet used in calculating the buy-in and have it highlighted as a reminder to verify the rate being used prior to draw. We have refunded the overdrawn funds to CMS.

The FMAP is now reviewed prior to the draw to ensure an accurate rate. Also, instead of the rate being included in the formula and updating the formula, a box was created to enter the rate and the formula is based on that box.

- We recommend department management use the standardized contract language and ensure contractors include the standardized contract language with subcontractors to ensure compliance with federal regulations.

Beginning in May 2011, the contract used in the renewal process for Child and Adult Foster Home providers was replaced by the Foster Home Medicaid Provider Enrollment Agreement (SDS0738). This agreement includes the federal and state disclosure requirements. These new agreements are now in place for all Foster Home Providers (child and adult).

The department's contract and Intergovernmental Agreements (IGA) include standardized language with regards to compliance with federal regulations (exhibit G). The IGA or contract requires that exhibit G is attached to any sub-contract. The department will include review for this attachment with sub-contracts during field reviews with Community Developmental Disabilities Programs and Adult Support Services Brokerages. All IGAs have been updated with standardized language with the exception of one county, which is expected to be signed by March 1, 2013.

- We recommend department management ensure the review for suspension and debarment is documented in accordance with department policy.

The Office of Contracts and Procurement (OC&P) reviewed the internal procedure, "Federal Debarment and Suspension Confirmation" and the "OC&P File Checklist" to ensure they comply with the federal debarment requirements. The procedure is in compliance with these requirements. The importance of checking debarment was discussed at the OC&P Unit meeting February 22, 2012. An individual conference was held with staff that had a file without debarment documentation to discuss and document the issue.

OC&P management staff enhanced the training regarding debarment for new OC&P staff. Debarment is listed on the OC&P File Checklist, included in the Contract Processing Standards and a link is included on the OC&P intranet site.

- We recommend department management ensure adequate review of the various calculations of the cost pool statistics is performed.
