

### **Helping Students Plan and Pay for College**

Presented to the Joint Ways and Means Education Subcommittee March 18, 2013 Bob Brew – Interim Executive Director

### OSAC Mission

Create a college-going culture for all Oregonians by providing access through information, mentoring, and financial support.

### **OSAC's Role**

### Who is OSAC?

The only state agency solely dedicated to accessing higher education.

Governed by a seven-person citizen board of commissioners, including two students, that provides regulatory oversight and guidance on agency policies.

**Programs administered by 21 staff** 

## **OSAC** Programs

**Oregon Opportunity Grant** and Other State & Federal Grants

Private Scholarship Programs

### ASPIRE Outreach and Information

Provided nearly \$63 million in postsecondary funding to 64,540 students through private scholarships, the Oregon Opportunity Grant, and other state and federal programs.

Had contact with nearly 75,000 high school students and provided one-on-one mentoring to nearly 8,400 students.

### Agency Long-Term Goals

Oregon Opportunity Grant: Award Opportunity Grant funds available to all eligible students based on the Shared Responsibility Model.

**ASPIRE Program:** Make ASPIRE available to all elementary, middle, high schools, and community colleges in the state.

**Private Scholarship Program:** Increase the number of scholarship funds from 450 to 1,000 over the next three biennia.

### **Guidance & Support for Post-Secondary Aspirations**

### **Guidance & Support for Post-Secondary Aspirations**

The **Guidance and Support for Post-Secondary Aspirations** initiative will strategically invest **\$10.4 million** to increase the number of 9<sup>th</sup> grade students who are on-track for graduation and to increase the number of students who earn a high school diploma and enroll in post-secondary by:

- Supporting comprehensive systems of monitoring and support for struggling students, and
- Ensuring that middle and high school students who have never thought of themselves as college-going are directed toward, and able to access, post-secondary and career and technical opportunities that match their interests.
