Committee members convened at 1:00 PM in the Coffee Creek Correctional facility in order to tour the new building trades pre-apprenticeship training program. Members received a presentation regarding who is eligible for the program, and what job placement prospects look like when the participants are back in the community. The program focuses on teaching the skills necessary for any desired aspect of the construction business. To accomplish this goal the participants will construct small, single room living structures that are complete with electricity.
