

Bonneville Power Administration

Overview

House Committee on Energy and Environment
Crystal Ball, Oregon Constituent Account Executive
February 3, 2015

BPA Profile

- BPA is a federal power marketing administration headquartered in Portland.
- BPA is part of the U.S. Department of Energy, but it is self-funded.
- Congress created BPA in 1937.
- BPA markets the largest supply of low cost, clean, carbon free energy in the nation.
- BPA operates and maintains the largest electric transmission system in the Pacific Northwest.

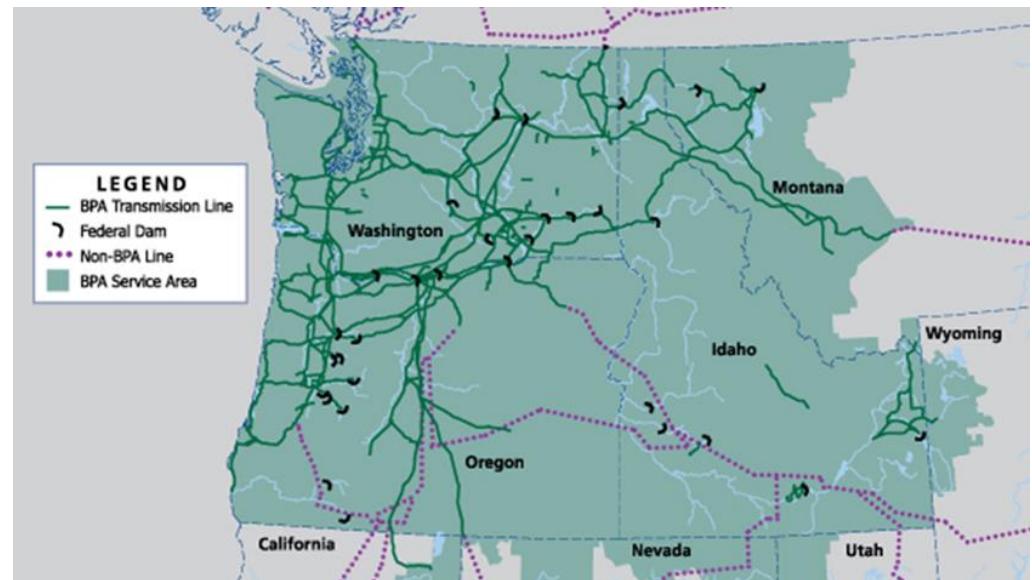

BPA Customers

BPA's customers include:

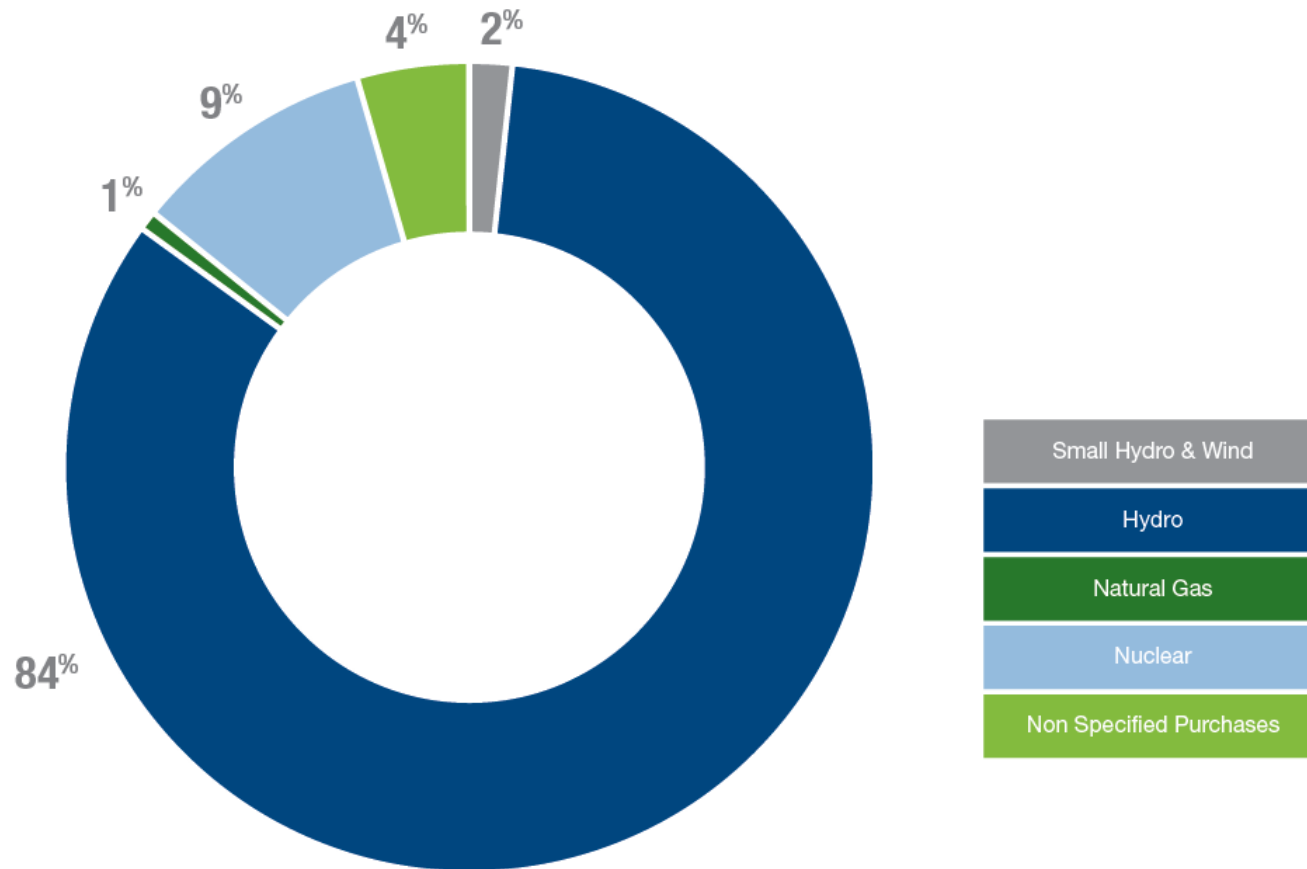

- Consumer-Owned Utilities
electric cooperatives,
municipalities, people's
utility districts
- Direct Service Industries
- Tribal Governments
- Federal Agencies
- Investor-Owned Utilities
- Power Marketers
- Resource Developers

BPA also sells or exchanges power with utilities in Canada, California and other parts of the Western United States
