February 6, 2015

To: Senate Committee on Business and Transportation

Recently Lincoln County has joined the State's Epermitting system. Like many other cities and counties across the State we are able to provide for electronic tracking and accounting of our building inspection program. We feel that this program benefits our customers and improves the efficiency of our office. As users and supporters of this unique program, we strongly encourage the legislature to continue this program.

Thank you for your consideration,

A handwritten signature in blue ink that reads "Al Eames". The signature is fluid and cursive.

Al Eames, Building Official
Lincoln County
