WHEN IT COMES TO MJ + KIDS

WHAT GETS THROUGH TO THEM?

OUR ANSWER TO GOVERNOR HICKENLOOPER'S QUESTION

"WHAT CAN WE TELL THE KIDS OF COLORADO TO GET THEM TO STOP AND THINK TWICE ABOUT USING MJ?"

- MESSAGING STRATEGY —

My beautiful amazing brain.

It's the only one I've got. It's key to me. It's mine for life. Weed will do irreparable harm to it.

Elevate the amazingness of their brain. Their brain is key to hopes, dreams and plans for the future. Marijuana is a threat to their developing brain.

THREE RECOMMENDATIONS

MARIJUANA IS ALREADY A PUBLIC HEALTH ISSUE MJ – LOW PERCEIVED RISK –AND KIDS–LOVE THEIR BRAINS

RECOMMENDATION #2 COMMIT TO A MARIJUANA PREVENTION EFFORT TO INFORM, SUPPORT, AND TREAT KIDS.

INFORM	SUPPORT	TREAT
Provide a solid foundation of factual information that can stand up to being challenged and give them a legitimate reason to say no.	Help them through their confusion. Provide school-based life- oriented counseling.	Develop school and community-based treatment programs.
e.g. Communications http:// dontbealabrat.com e.g. Curriculum http:// www.narconon.org/drug- education/	e.g. Breckenridge CO High School e.g. OHA's Youth Suicide Prevention Plan	e.g. Dr. Paula Riggs, Adams City High Pilot Program and Dr. Christian Thurstone, Denver STEP.

Goal: Respect their intelligence. Plant the seed of doubt. Expose the real risks of MJ.
