

House Bill 2038

Testimony of Donald S. Powell

02-19-2015

1. I testify in favor of this bill.
  2. I am a landowner with a private landing strip on the property.
  3. Recreational flying is a large part of the industry.
  4. From my landowners perspective, guests who land on my strip are little different from those who come to hunt, hike, picnic, ride horses, etc.
  5. This addition to the law adds a small layer of liability protection when inviting the public to use my private property or when it is used without my foreknowledge.
  6. It allows a more cooperative, generous, and comfortable spirit when my private property is used by others.
  7. Overall, it costs the state nothing and adds positively to the body of law in the State.
