Summary of Revenue Changes

House Bill 5052 rebalances the State's budget with available resources. Additional General Fund revenues are available from the current ending balance. Lottery funds are reduced in several agencies due to the latest revenue forecast. Other and Federal Funds revenues include available ending balances and grant awards.

Summary of Capital Construction Subcommittee Action

House Bill 5052 is an omnibus budget reconciliation bill implementing actions needed to rebalance, address technical adjustments, and modify appropriations and limitations for some agencies during 2011-13 biennium.

Education Program Area

Department of Community Colleges and Workforce Development

The Subcommittee recommends an increase of \$835,000 Other Funds expenditure limitation for the Department of Community College and Workforce Development (CCWD) for three programs. An estimated \$200,000 is needed for the "Common Core State Standards and Assessments – K-12 Postsecondary Alignment" grant which is for promoting the use of assessments in determining a student's readiness for placement into postsecondary courses. The second program is the "Oregon Credit When It's Due" which supports the expansion of reverse transfer projects in the State. These projects are designed to give associate degrees to former Community College students who have transferred to four-year institutions when they have earned sufficient credits. This is a two year grant where it is estimated that \$300,000 will be spent in 2011-13 with most of the funding being sent to Community Colleges. The final \$335,000 is needed for the "Certified Work Ready Communities" program which is a part of a strategy to enable communities to demonstrate that they have the skilled workforce necessary for a company to locate or expand in the community. Funding for this program is from the Oregon Business Development Department and the Employment Department.

Oregon Department of Education – State School Fund

Lottery Funds expenditures for the State School Fund are reduced by \$8,096,204 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now forecast to be available.

A corresponding increase of \$8,096,204 General Fund is provided in this bill to backfill this loss of Lottery Funds.

Oregon University System

Lottery Funds expenditures are reduced by \$187,232 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now forecast to be available. Lottery Funds are used in the agency budget to support athletic programs, with a small percentage going to scholarships for graduate students.

Human Services Program Area

Department of Human Services

The Subcommittee approved the appropriation of \$5 million General Fund to the Department of Human Services. As part of the agency's 2011-13 rebalance in December 2012, a budget gap was identified in the agency's JOBS program. Budget savings in the Oregon Health Authority are now being moved to the Department of Human Services to address this shortfall. The Subcommittee requested that the Department of Administrative Services unschedule the funds until after the spring caseload forecast is complete and the overall budget situation is known.

Oregon Health Authority

The Subcommittee approved the disappropriation of \$5 million General Fund from the Oregon Health Authority. As part of the agency's 2011-13 rebalance in December 2012, slightly over \$5 million savings were identified in Medical Assistance Programs. Five million of these funds are now being removed from the Medical Assistance Programs budget and appropriated to the Department of Human Services to cover a potential budget shortfall in that agency.

Lottery Funds expenditures are reduced by \$230,568 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now forecast to be available. Lottery Funds are used in the agency budget to support gambling addiction treatment programs.

Public Safety Program Area

Department of Corrections

The Subcommittee approved rebalancing General Fund resources to address the Department of Correction's reorganization implemented by the new director effective April 2012, and management actions taken to address unspecified vacancy savings, mid-management and services and supplies reductions previously approved by the legislature. In general, the agency is able to cover the estimated \$57.5 million shortfall by holding positions vacant (\$17.2 million), savings in services and supplies (\$13.3 million), reduction of medical services (\$12.1 million), savings in debt service from refinancing (\$7.2 million), reducing jail bed reimbursements based on most recent claims (\$6.3 million), and closure of a 50-bed treatment program at Powder River (\$1.4 million). The Subcommittee approved establishing a debt service limitation of \$683,992 Other Funds as part of the rebalance.

The Subcommittee approved an increase of \$79,385 Other Funds and \$871,678 Federal Funds expenditure limitation to allow the recording of broadband telecommunication and network assets from the Oregon Health Network.

The Subcommittee also approved an increase of \$1.8 million Other Funds expenditure limitation to allow the agency to expend carryover balances in Community Corrections' grants for the Linn County Domestic Violence Court (\$23,000), American Recovery and Reinvestment Act (\$291,000), and \$1.486 million in supervision fees.

The Subcommittee approved an Other Funds increase of \$3,053,176 for county juvenile and adult corrections programs and facilities and drug and alcohol programs.

District Attorneys & their Deputies

The Subcommittee approved an increase of \$250,000 General Fund for cost of living adjustments in January and December 2012, employee benefits in excess of the statewide composite rate, and a pay scale increase for the Yamhill County District Attorney. The state maintains a two-tier pay scale for District Attorneys based on county population -- \$90,972 when the population is below 100,000, and \$107,952. As of July 1, 2012, the population in Yamhill County exceeded 100,000.

Oregon Military Department

The Subcommittee made the following adjustments to the Military Department's 2011-13 approved budget.

The Subcommittee approved a \$981,021 reduction in General Fund for the Department's Capital Debt Service and Related Costs program. The Department identified savings to certificates of participation (\$132,932), Article XI-Q bonds (\$616,197), and Article XI-M and XI-N Seismic

bonds (\$231,892) in excess of what is needed to meet outstanding 2011-13 debt service obligations. The savings arose from more favorable interest rates on issued debt than was originally budgeted.

The Subcommittee also approved the following one-time actions:

- The Subcommittee increased the General Fund for the Department's Operations program by \$601,756 due to savings from the Capital Debt Service program, which includes Debt Service saving from Seismic Rehabilitation Grant Program bonding, to fund eight armory and one Portland Airbase maintenance and improvement projects. The General Fund will make available \$1.5 million in matching Federal Funds and \$154,030 in Other Funds (U.S. Department of Energy grant to a private contractor). The Department does not require additional Federal or Other Funds expenditure limitation.
- The Subcommittee increased the General Fund for the Department's Emergency Management program by \$41,000. The General Fund will be used to fund the State's Search and Rescue Coordinator position through the remainder of the biennium.
- The Subcommittee increased the General Fund for the Department's Community Support - Oregon Youth Challenge Program by \$218,000 due to savings from the Capital Debt Service from Seismic Rehabilitation Grant Program bonding. The increase in General Fund is to be used only as a contingency against a possible decrease in program funding due to federal government's sequestration. Federal sequestration could reduce federal matching funds for the program from 75% Federal Funds 25% state funds to 70% Federal Funds and 30% state funds. The Committee directed that the Department of Administrative Services un-schedule the \$218,000 appropriation until the Military Department is able to document that federal sequestration will adversely impact program funding this biennium.

Oregon State Police

The Subcommittee approved rebalancing \$1.5 million General Fund to the Patrol, Criminal, and Gaming appropriation from one-time savings in Administration and Criminal Justice Information Systems. The resources will be utilized to cover extraordinary costs within the Gaming Division, and recruitment and equipment purchases in the Patrol Division.

Economic & Community Development Program Area

Oregon Business Development Department

Lottery Funds expenditures are reduced by a total of \$1,160,310 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now

forecast to be available. The reductions to the agency consist of a \$990,130 reduction to Business, Innovation and Trade, a \$145,632 reduction to Shared Services, and a \$24,548 reduction to the Oregon Film and Video Office.

Oregon Employment Department

The Subcommittee recommends additional Federal Funds expenditure limitation of \$8,214,583, additional Other Funds expenditure limitation of \$119,108, and 46 positions (19.98 FTE) are approved for the Employment Department, for the following purposes:

- Trainings provided to child-care providers, funded through the federal Child Care Development and Development Block Grant: \$550,000;
- Efforts to improve unemployment insurance program integrity, funded through receipt of a federal grant: \$1.4 million, 17 positions (3.6 FTE);
- Expenses associated with administering federal extensions of Emergency Unemployment Compensation: \$6.3 million, 27 positions (15.75 FTE);
- Contracted positions for employment services to eligible individuals under the Workforce Investment Act: \$69,108 Other Funds, 2 positions (0.42 FTE);
- Additional caseload in the Office of Administrative Hearings: \$50,000 Other Funds (0.21 FTE).

Oregon Department of Veterans' Affairs

The Subcommittee recommends a technical correction to properly allocate \$113,331 of the General Fund appropriation to partner agencies of the Oregon Department of Veterans' Affairs.

Natural Resources Program Area

Department of Agriculture

The Subcommittee increased the Other Funds expenditure limitation for the Commodity Inspection program at the Department of Agriculture by \$1,084,000 to accommodate increased demand for specialized commodity certifications and produce inspections.

Lottery Funds expenditures are reduced by \$400 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now forecast to be available. Lottery Funds are used in the agency budget to support the operations of the County Fair Commission.

Department of Forestry

The Subcommittee approved an appropriation of \$1,059,636 General Fund to the Department of Forestry for costs associated with the extended 2012 fire season, unbudgeted district emergency fire cost deductibles, changes in forest land classification, and increases in initial attack resources and the fire insurance premium.

Land Use Board of Appeals

The Subcommittee approved an appropriation of \$36,631 General Fund to avoid personal services shortfall and the agency's ability to meet statutory case review deadlines forcing land development projects to be delayed or withdrawn.

Oregon Marine Board

The Subcommittee approved an increase of \$250,000 Other Funds in the Facilities Grant Program for a facility grant to Metro to complete work on a multi-phased boating access improvement project. The grant is funded by a repayment of grant funds from the city of Portland for a grant project that is no longer eligible for the grant.

Oregon Parks & Recreation Department

The Subcommittee approved a Federal Funds expenditure limitation increase of \$1,645,011 to expend three federal grants awarded in 2012. The first two grants are from the US Department of the Interior, Fish and Wildlife Services. \$1,259,000 is passed through to Benton County to implement the county's Habitat Conservation Plan and associated Prairie Conservation Strategy. \$292,611 is passed through to Yamhill Soil and Water Conservation District for a grant awarded in October 2012. The funds will support continued outreach and education associated with Yamhill County's Habitat Conservation Plan completion.

In September 2012, the federal Institute of Museum and Library Services awarded a Connecting to Collections Statewide Planning grant to the Department. The purpose is training and mentoring for heritage organizations in the state. The total award was \$241,810, of which the Department plans to use \$93,400 in 2011-13.

The Subcommittee reduced constitutionally dedicated Lottery Funds expenditure limitation for the Parks and Recreation Department to align the Department's budget with the March 2013 Lottery revenue forecast. The total expenditure limitation reduction is \$1,053,314. The reductions are spread among several divisions: Director's Office (\$96,542), Central Services (\$50,000), Park Development (\$360,000), Community support and grants (\$296,772), and Oregon State Fair and Exposition Center (\$250,000).

Department of State Lands

The Subcommittee approved an increase in Other Funds expenditure limitation of \$1,200,000 for Portland Harbor Superfund site. Costs are for evaluating ownership of contaminated areas. An insurance settlement provides the funding.

In addition, the Subcommittee approved an Other Funds expenditure limitation increase of \$150,000. This limitation covers the 2011-13 portion of a grant awarded to the South Slough National Estuarine Research Reserve. The grant's purpose is assisting community partners and technical advisors in developing a common understanding of the estuary to support its future health. The grant is from the University of New Hampshire, National Estuarine Research Reserve System Science Collaborative. The total is \$549,846, to be used from September 2012 through August 2014.

Oregon Watershed Enhancement Board

Lottery Funds expenditures from the constitutionally dedicated Watershed Improvement Grant Fund are reduced by \$832,938 to rebalance the state's lottery budget to the March 2013 revenue forecast. Constitutionally dedicated Lottery Funds allocations are currently anticipated to be 4.54% below the level assumed in the May 2011 Lottery Forecast for the 2011-13 biennium. Use of unallocated balances in the Watershed Improvement Grant Fund offset some of the reduction caused by declining Lottery revenue forecasts, reducing the impact of the revenue declines. Use of unallocated balances in the Watershed Improvement Operating Fund are projected to completely offset declining Lottery revenue forecasts, averting the need for expenditure limitations reductions to agencies receiving Lottery Funds from the Operating Fund at this time. Lottery Funds expenditure limitation for monies in the Grant Fund are used in the agency budget to make local grants.

Transportation Program Area

Department of Aviation

The Subcommittee approved an Other Funds expenditure limitation increase of \$180,000 for the Department of Aviation. The Department had several unexpected operations expenses such as:

- an overlap in transferring contracted support services from the Department of Administrative Services to the Department of Transportation (ODOT),
- training and equipment to meet ODOT's accounting standards,
- payment of two mediated settlements,
- wholesale fuel purchases for the three airports that sell fuel to pilots, and
- an unscheduled pavement improvement project at Crescent Lake.

Consumer and Business Services Program Area

Board of Chiropractic Examiners

The Subcommittee approved an Other Funds limitation increase for the Oregon Board of Chiropractic Examiners in the amount of \$69,550 for the purpose of paying Attorney General fees resulting from litigation of contested cases.

Oregon Health Licensing Agency

The Subcommittee approved an increase in Other Funds limitation of \$397,779 for the following purposes:

- \$174,455 for DAS Risk Management
- \$92,630 for Attorney General fees
- \$130,694 for Policy Analyst position

Board of Psychologist Examiners

The Subcommittee approved an increase of \$70,000 Other Funds limitation for the Board of Psychologist Examiners to cover contractor services and attorney general fees associated with contested case hearings.

Administration Program Area

Department of Administrative Services

The Subcommittee approved an appropriation of \$250,000 General Fund to for a World War II Memorial. The funds are intended to be used as matching funds for private donations.

Lottery Funds expenditures are reduced by \$78,446 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now forecast to be available. Lottery Funds are passed through this budget on to counties to support the staging of county fairs across the state.

Office of the Governor

Lottery Funds expenditures are reduced by \$40,436 to rebalance the state's lottery budget to the March 2013 revenue forecast. HB 2837 reduces the allocation of Lottery Funds to the agency by the same amount. All statutory Lottery Funds allocations, excluding allocations to pay debt service, are reduced by 2.18% in the 2011-13 biennium budget rebalance, to reduce total allocations of Lottery Funds to the amount now forecast to be available. Lottery Funds in the Governor's Office fund the Economic Revitalization Team, also known as the Office of Intergovernmental and Regional Solutions.

Legislative Branch Program Area

Legislative Administration

The Subcommittee approved an appropriation of \$250,000 General Fund for the initial planning of the Oregon Capitol Master Plan.

Judicial Branch Program Area

Oregon Judicial Department

The Subcommittee approved a decrease of \$144,202 General Fund for debt service. The agency's appropriation exceeded the amount needed to pay its debt service costs by this amount. Other Funds expenditure limitation in the amount of \$134,116 is transferred from the expenditure limitation for eCourt bond proceeds to the agency's general Other Funds expenditure limitation. This amount of expenditure limitation, approved for grant proceeds unrelated to eCourt, had been added to the eCourt bond proceeds Other Funds expenditure limitation instead of to the agency's general Other Funds expenditure limitation in error.

Public Defense Services Commission

The Subcommittee approved an increase of \$1,500,000 General Fund appropriation to the agency for trial-level public defense services. The increase is to address costs incurred and projected for the current biennium. It is currently forecast that the Commission will need additional funds to cover the full costs incurred this biennium, including costs that will not be paid until the after the 2013-15 biennium begins.

Summary of Revenue Changes

Senate Bill 5549 rebalances budgets for the Department of Human Services (DHS) and Oregon Health Authority (OHA) with available resources. OHA and DHS programs and operations are funded by a mix of General Fund, Lottery Funds, Other Funds, and Federal Funds. The rebalance plan results in no change in General Fund revenue. About \$20 million in additional Other Funds revenue is primarily due to increased costs in the Oregon Health Plan (OHP) Standard program, which is funded through provider assessments and matched with Federal Funds through the Medicaid program. These matching federal dollars are reflected in just over \$75 million in additional Federal Funds revenue, which also includes a significant increase related to the Self Sufficiency Modernization project.

Summary of Human Services Subcommittee Action

The Human Services Subcommittee approved a budget rebalance plan that carries out the DHS and OHA programs and operations for the remainder of the 2011-13 biennium. The plan reflects updated estimates of various caseload costs, other program costs and savings, and non-General Fund revenues. It shifts General Fund appropriations between budget structures, but both DHS and OHA expect to complete the 2011-13 biennium within each agency's current General Fund budget. The plan approved by the Subcommittee requests that the Department of Administrative Services reschedules \$1,469,444 General Fund for DHS and \$237,309 General Fund for OHA. The rebalance plan includes net increases in Other Funds expenditure limitation (\$19,381,471) and Federal Funds expenditure limitation (\$75,270,406).

DEPARTMENT OF HUMAN SERVICES

The Subcommittee rebalance plan expects DHS to complete the 2011-13 biennium within its current General Fund budget, which includes \$5 million General Fund added to DHS budget in HB 5052 (2013). Those dollars were unscheduled until the agency updated its 2011-13 caseload and budget estimates. Of the \$5 million, the plan requests that \$1,469,444 General Fund be rescheduled at this time; the rest would remain unscheduled pending final biennium close out adjustments. The plan also adds \$2,376,753 Other Funds expenditure limitation, \$48.9 million Federal Funds expenditure limitation, and six limited duration positions (0.69 FTE).

The rebalance plan in the Children, Adults, and Families (CAF) program area results in a net savings of \$976,500 General Fund, an increase of \$417,556 Other Funds expenditure limitation, and an increase of \$54,082,870 Federal Funds expenditure limitation. For Self Sufficiency programs, the 2011-13 biennial average caseload for the Temporary Assistance for Needy Families (TANF) program has decreased from the fall forecast. This is in part due to federal action in January 2013 extending the Emergency Unemployment Compensation program, which helps mitigate an expected increase in TANF cases built into the fall forecast. However, costs per case for some program components have increased since that last forecast, driving a net increase of \$1,469,444 General Fund. The Subcommittee budget rebalance plan includes the request to reschedule a portion (\$1,469,444) of the HB 5052 funding to allow DHS to cover increased caseload costs while continuing to serve Job Opportunity and Basic Skills (JOBS) clients. Additionally, the rebalance plan also includes \$46,511,044 Federal Funds expenditure limitation to

complete the 2011-13 biennium portion of the Self Sufficiency Modernization (SSM) project. While additional federal revenues for the project were expected all along, the agency held its request for expenditure limitation pending a review of overall project limitation needed to close out the biennium.

The rebalance plan increases Federal Funds expenditure limitation by \$7.2 million for the Vocational Rehabilitation program, based on federal grant authority and projected expenditures under the current five-year plan.

In Child Welfare, the rebalance plan accommodates a net \$77,489 General Fund increase resulting from fluctuations in costs per case for substitute care and adoptions. Also associated with caseload changes is a net increase of \$417,556 Other Funds and \$1,358,675 Federal Funds. The plan includes a technical adjustment moving \$976,500 General Fund from Child Welfare to Central Services. In the CAF program support budget, \$45,117 total funds is added to cover recently announced telecomm rate increases.

The Subcommittee rebalance plan for Seniors and People with Disabilities (SPD) reflects a net decrease of \$192,976 General Fund and \$6,334,050 Federal Funds expenditure limitation. The plan increases Other Funds expenditure limitation by \$1,959,197 and adds six limited duration positions (0.69 FTE). The net position change for SPD is five positions (-0.31 FTE) due to the transfer of one position (1.00 FTE) from SPD to Central Services. Ongoing actions to reduce administrative expenditures are part of the plan.

In the Aged and Physical Disability (APD) programs, changes in caseload and cost per case are driving net increases of \$45,939 General Fund, \$1,381,007 Other Funds expenditure limitation, and \$638,790 Federal Funds expenditure limitation. The program is also requesting an increase of \$931,089 General Fund to address an accounting error that applied an incorrect federal match rate on expenditures; a corresponding Federal Funds decrease is included. A prior uptick in projected estate recoveries results in a need of an additional \$1 million Other Funds expenditure limitation.

The rebalance plan for APD includes \$240,845 Other Funds expenditure limitation and six limited duration positions (0.69 FTE) to carry out the DHS efforts under the State Innovation Model (SIM) grant that OHA was awarded on February 21, 2013. APD is responsible for working with OHA, Coordinated Care Organizations (CCOs), and stakeholders to promote alignment between medical care and long-term care services. The agency is also involved with payment transformation/financial accountability initiatives falling under the model. Grant funding supports three program analysts, a policy analyst, an information specialist, and an administrative support position. Project activities include creating memorandums of understanding between CCOs and long term care organizations, supporting policy development/direction, and performing data collection and analysis. Activities are expected to continue through the fall of 2016.

Participation rate, caseload, and cost per case changes in the Developmental Disabilities (DD) program result in net decreases of \$1,422,745 General Fund, \$662,655 Other Funds, and \$5,170,020 Federal Funds. Drivers include higher costs for adult foster care and DD client shifts between state and group homes.

The Subcommittee also approved an increase of \$690,416 General Fund to address an accounting error that applied an incorrect federal match rate on expenditures; a corresponding Federal Funds expenditure limitation decrease is included. The plan includes a technical adjustment moving \$385,952 total funds and one position (1.00 FTE) from SPD to Central Services. In the SPD program support budget, \$24,294 total funds is added to cover recently announced telecomm rate increases.

For Central Services, the Subcommittee approved an increase of \$1,169,476 General Fund and Federal Funds (cost allocation) from the two technical adjustments noted previously: transfer in from CAF (Child Welfare) of \$976,500 General Fund incorrectly applied in December 2012 and the transfer in of one position (\$385,953 total funds, 1.00 FTE). No changes were made in Shared Services or Debt Service budget structures.

Even though the DHS budget is balanced with this plan, potential areas of risk and uncertainty remained in the budget. For example, the plan is contingent on the agency's ability to continue to manage caseloads and for projected revenues to materialize. The TANF caseload is particularly sensitive to the economy and is very challenging to predict during the transition from recession to recovery. In addition, while DHS expects to manage internally impacts of federal sequestration (reduced grants over the last quarter of 2011-13), and a small caseload amount in SPD, there may be unforeseen consequences that could affect the agency's budget or program delivery.

OREGON HEALTH AUTHORITY

The Subcommittee approved a budget plan for the Oregon Health Authority (OHA) that completes the 2011-13 biennium within its current General Fund budget, after shifting appropriations between budget structures. The plan adds \$17,004,718 Other Funds expenditure limitation and \$26,352,110 Federal Funds expenditure limitation.

The rebalance plan makes several adjustments to Medical Assistance Programs (MAP). Rebalance issues in this program result in overall net savings of \$1,291,792 General Fund, a net increase of \$17,961,249 Other Funds, and a net increase of \$32,162,407 Federal Funds. The plan includes General Fund savings of \$1.2 million from slightly lower caseloads, and a reduction in General Fund need due to an increase in tobacco tax revenue of \$2.0 million. These savings are offset by a General Fund need of \$2.7 million (\$8.4 million total funds) due to a one-time shift caused by the difference in timing of payments for fee-for-service clients transitioning into Coordinated Care Organizations. The rebalance plan includes an unspecified management action in the amount of \$751,851. As a result of the December 2012 rebalance, \$237,309 General Fund was uncheduled and the Subcommittee requests this be rescheduled to reduce the expected shortfall and unspecified management action.

The Oregon Health Plan (OHP) Standard caseload is higher than originally projected. Additional expenditure limitation of \$15.6 million Other Funds and \$26.2 million Federal Funds is included in the Subcommittee's rebalance plan to accommodate the increased caseload level.

The plan for Public Health results in an increase of \$142,000 Other Funds expenditure limitation to reflect a higher forecast for tobacco tax revenues for the Tobacco Use Reduction Account.

The Subcommittee plan for Central and Shared Services includes a net increase in General Fund of \$2.4 million to fund state assessments and risk charges after accounting for cost allocation actuals to date. Adjustments between fund sources for cost allocation also include a decrease in Other Funds of \$1.1 million and an increase in Federal Funds of \$1 million. Interest earnings on bond proceeds generated \$1.1 million more than anticipated, which will be applied to General Fund debt service, resulting in a corresponding General Fund savings to the budget. Finally, Federal Funds limitation is reduced by \$4.8 million to reflect updated expenditure projections related to the State Innovation Model grant.

While this plan leaves OHA balanced, there are no resources available if caseloads go up, costs increase, or revenues come in lower than expected over the next few months. These are always risks. In particular, the timing and amount of revenues received by MAP through the Designated State Health Program (DSHP) continues to be a budget risk.

Summary of Revenue Changes

The Department of Human Services (DHS) is funded with a mix of General Fund, Other Funds and Federal Funds revenues. Almost all of the General Fund is used as match or to meet state maintenance of effort requirements to receive Federal Funds. Other Funds revenues come from a wide variety of sources such as nursing home provider taxes, grants, unitary tax assessment, estate collections, third party recoveries, fees, and charges for services. The largest single Federal Funds source is the Supplemental Nutrition Assistance Program (SNAP); the benefits are reflected in the budget as Nonlimited Federal Funds. Federal Funds subject to expenditure limitation include the Title XIX Medicaid program, Temporary Assistance to Needy Families (TANF), Title IV-E Foster Care and Adoption Assistance, Child Welfare Services, Title XX Social Services Block Grant, and Basic 110 Rehabilitation funds. Some of these sources are capped block grants (e.g., TANF, Social Services Block Grant); others provide federal matching funds as partial reimbursement of state costs (e.g., Medicaid, Foster Care, and Adoption Assistance).

Several of the agency's federal funding streams have been affected by federal sequestration action in the first quarter of the biennium. To keep programs intact, General Fund is used to backfill the lost revenue for that quarter. However, there continues to be risk related to the uncertainty of continued federal sequestration reductions and the agency may need to revisit this issue in a rebalance report.

Major revenue changes include \$61.5 million Other Funds tied to House Bill 2216, which reauthorizes the Long Term Care Facility Assessment (i.e., nursing home provider tax) and extends it through June 30, 2020. The budget assumes the agency is successful in its request for a federal waiver under the Community First Choice Option State Plan (K Plan). Under the K Plan, the state would draw down an additional six percent in federal medical assistance percentage (FMAP) for services provided through the Aging and People with Disabilities and Developmental Disabilities programs; when coupled with match on maintenance of efforts expenditures, the enhanced rate is expected to generate over \$200 million Federal Funds in 2013-15. Also included in the budget is \$14 million of federal fiscal year 2014 TANF contingency funds.

Summary of Human Services Subcommittee Action

DHS supports children, families, seniors and people with physical and developmental disabilities by providing a range of services through 170 field offices and community partners. Toward more clearly defining roles and improving accountability, the Department reorganized in early 2012 and this restructure is shown in the 2013-15 budget. Central, Shared Services, and State Assessments and Enterprise-wide Costs budget structures continue to reflect DHS administrative and agency-wide support services and, for some shared functions, services provided to the Oregon Health Authority (OHA). In addition, certain cross-program activities, such as licensing and protective services, were consolidated and moved into these structures. On the program side, budget displays were modified to distinguish between five separate program budgets: Self Sufficiency, Child Welfare, Vocational Rehabilitation, Aging and People with Disabilities, and Developmental Disabilities.

The Subcommittee approved a budget of \$9,096,895,050 total funds for DHS, which is 5.9 percent above the 2011-13 Legislatively Approved Budget (LAB). However, without the transfer of Medicare Buy-in (Part A & B) and nursing facility extended care programs to OHA, the budget is a 7.4 percent total funds increase from the 2011-13 biennium. The budget consists of \$2,292,487,909 General Fund, \$473,929,802 Other Funds, \$3,816,132,008 Federal Funds, \$2,514,345,331 Nonlimited Federal Funds, and 7,630 positions (7,480.61 FTE).

The Subcommittee reviewed the packages used to build the Governor's budget, and the agency's repricing ("reshoot") adjustments for caseload, cost-per-case, and other changes since the Governor's budget was developed. Also included in the Subcommittee's recommended budget are 2011-13 interim actions that have an impact on the agency's 2013-15 budget.

The Subcommittee approved two packages related to Senate Bill 822 (2013) policy changes and Public Employment Retirement System (PERS) costs that affect the entire agency. Package 092 (PERS Taxation Policy) reflects savings from eliminating increased retirement benefits resulting from Oregon income taxation of payments if the person receiving payments does not pay Oregon income tax on those benefits and is not an Oregon resident. This change reduces state employer contribution rates by approximately 0.30 percent. The agency-wide reduction is \$1,238,150 General Fund, \$299,146 Other Funds, and \$1,323,746 Federal Funds (\$2,861,042 total funds). Package 093 (Other PERS Adjustments) captures savings from modifying PERS cost-of-living adjustments; this change reduces state employer contribution rates by approximately 2.2 percent. The package also accounts for savings related to an administrative action by the PERS Board expected to reduce state employer contribution rates by up to an additional 1.9 percent. The agency-wide reduction for Package 093 is \$9,893,402 General Fund, \$2,390,315 Other Funds, and \$10,577,365 Federal Funds (\$22,861,082 total funds).

The Subcommittee reviewed and approved the agency's budget by program; major elements of each program and its recommended budget are summarized below in the following report sections.

Central Services, Shared Services, State Assessments and Enterprise-wide Costs

Central Services supports DHS only and includes agency-specific functions directly related to policy and program in the agency, such as the director's office, client relations, parts of budget and human resources, and the Governor's Advocacy Office. Shared Services between DHS and OHA include support services which are housed in one agency but which provide services to both agencies. Joint governance through a board and service-level agreements define the relationship between DHS and OHA for these shared services. DHS' Shared Services budget includes the Shared Services Administration; Budget Center; Office of Forecasting, Research and Analysis; Office of Financial Services; Office of Human Resources; Office of Facilities; Office of Imaging and Records Management; Office of Contracts and Procurement; Office of Investigations and Training; Internal Audit and Consulting Unit; Office of Payment Accuracy and Recovery; Performance Excellence Office; Rules Coordinator; and the Office of Adult Abuse Prevention and Investigations.

The budget for State Assessments and Enterprise-wide Costs contains statewide assessments including various Department of Administrative Services' assessments/charges (e.g., State Data Center, Risk Management, Chief Financial Office), Central Government Services Charges, Oregon State Library, and Secretary of State audits. It also includes the budgets for rent, debt service, and computer replacements.

The Subcommittee approved a budget for Central Services, Shared Services, and State Assessments and Enterprise-wide Costs of \$477,027,901 total funds and 745 positions (724.86 FTE); this funding level is 4.2 percent below the 2011-13 LAB. The General Fund budget of \$195,117,465 is 10.8 percent above the 2011-13 LAB. This General Fund increase is due primarily to correcting a budget hole that was an artifact of separating the DHS and OHA budgets during the development of the 2011-13 budget.

The budget includes standard PERS changes and adjustments related to 2011-13 interim budget actions. Package 081 (May 2012 Eboard) eliminates \$3.2 million total funds and 13 positions (17.04 FTE) to implement staffing reductions driven by HB 4131 (2011.) Package 094 (December 2012 Rebalance) reduces expenditures by \$3.8 million total funds which includes a fund shift of \$3.4 million from Other Funds to General Fund to true up revenue sources. The package also includes a net increase of 49 positions (50.21 FTE) to implement fully the shared services model and to support a realignment of positions between direct program and program support functions for the retained programs. These positions, when added, will formally budget work currently being performed through doublefills and other temporary actions. The positions are funded in the budget by moving expenditures from Service and Supplies to Personal Services.

Another statewide standard adjustment is included for this program, Package 091 (Statewide Administrative Savings). The package is a placeholder for administrative efficiencies in finance, information technology, human resources, accounting, payroll, and procurement expenditures. The Department of Administrative Services (DAS) will continue to work on details of these reductions with agencies and report back during the 2014 session. The package eliminates \$4.1 million General Fund (\$14.9 million total funds) and includes a reallocation of the package target between DHS and OHA due to effects on shared activities.

The Subcommittee approved Package 101 (Central and Shared POP) and Package 102 (Healthy People) in the combined amount of \$2.3 million General Fund (\$3.8 million total funds) and three positions (2.76 FTE). The funding supports two positions for complex project management and one position for client safety, allows the agency to replace computers on a five year cycle, and covers debt service on the next phase of the Self Sufficiency Modernization project.

Additional budget changes were approved by the Subcommittee in Package 810 (LFO Analyst Adjustments). These include expenditure limitation and limited duration positions for a federal grant, a fund shift to capture a federal percentage increase (from 62.86 percent to 63.06 percent) in the FMAP rate, and technical adjustments and transfers. As part of those transfers, six positions are moved in from other programs.

The largest component of the package is an increase of \$17,552,968 General Fund, a decrease of \$17,707,476 Other Funds, and an increase of \$7,375,118 Federal Funds (\$7,220,610 total funds net increase) to correct a budget hole that was an artifact of separating DHS and OHA budgets during 2011-13 budget development. After a biennium of operations and with refinement of a cost allocation model for the “new” DHS, it became clear the programs retained within DHS rely more heavily on General Fund than the programs that had moved to OHA. The correction replaces empty Other Funds expenditure limitation with General Fund and updates the portion expected to be covered by federal dollars.

The Subcommittee added one position (0.75 FTE) and \$87,412 General Fund (\$183,332 total funds) to cover a position (dedicated hotline staff) and other costs associated with Senate Bill 123 (Oregon Foster Children’s Bill of Rights). Two more positions (0.59 FTE) at \$107,117 Other Funds were added in DHS Shared Services to support accounting and investigations work related to Package 403 in OHA. That package implements the next phase of the Oregon State Hospital replacement project.

During the discussion and review of several agency programs, the Subcommittee noted that there seemed to be a potential disconnect between increases in services rates paid to providers and associated increases in direct care worker salaries. An agency-wide budget note (below) was developed and approved to support information gathering and reporting regarding this concern.

Budget Note:

The Department of Human Services shall provide a report to the Joint Committee on Ways and Means during the 2015 legislative session on services, providers, and rates for each agency program relying on direct care workers for service delivery. Dependent on the project’s final scope and expertise required, the Department may contract with a third party to complete the report. The report will include a description of the services, provider type, number of direct care workers, and worker turnover rates.

In addition, the report will show provider rates for the 2009-11, 2011-13, and 2013-15 biennia and the relationship between those rates and direct care worker wages. Where possible, the report will also show comparisons between the 2013-15 rates and what those rates would be if 2003-05 rates had been indexed to inflation from that biennium forward.

Within programs or specific services, the report will also describe how worker wages are determined, for example, whether by the employer or through a collective bargaining agreement. The Department will also identify any current data gaps, attempt to resolve them if possible, and outline strategies to resolve them for future reporting. Finally, the report will explore other options – beyond simply

increasing rates – for ensuring that funding increases translate into wage increases for direct care workers. Some recognized strategies include implementing wage pass through legislation, providing enhanced reimbursements tied to workforce outcomes, specifying a minimum allocation of rate to direct care labor costs, and revising contract language. It is the intent of the Joint Committee on Ways & Means that provider rate increases in the 2013-15 budget have as a priority salary and benefit increases for direct care workers in order to reduce turnover rates.

Self Sufficiency

The Self-Sufficiency program provides assistance for low-income families to promote family stability and help them become self-supporting. The program helps clients meet basic needs, such as food and shelter. Other program services include job training, employment assistance, parenting supports, health care, and childcare. Programs include the Supplemental Nutrition Assistance Program (SNAP/food stamps), Temporary Assistance for Needy Families (TANF), and related programs including Job Opportunity and Basic Skills (JOBS) services, Employment Related Day Care (ERDC), Refugee Assistance, and youth prevention services. Staff in Self Sufficiency field offices also provides eligibility services for the Oregon Health Plan and other non-OHP programs offered through the Oregon Health Authority.

The Subcommittee recommended a budget of \$3,513,858,333 total funds, of which \$380,534,225 is General Fund. The recommended budget is a 3.0 percent total funds and a 25.2 percent General Fund increase over the 2011-13 LAB. The General Fund increase is primarily due to the use of \$65 million non-General Fund resources to balance the 2011-13 budget. The 2013-15 recommended budget includes one-time resources again, but at about half that level; these include TANF federal fund carry-forward, federal TANF Contingency Fund resources, and Child Care Development Fund carry-forward.

The Subcommittee approved budget includes standard PERS changes and adjustments related to 2011-13 interim budget actions. Package 081 (May 2012 Eboard) eliminates \$2.2 million total funds and 13 positions (12.45 FTE) to implement staffing reductions driven by House Bill 4131 (2011.) Package 094 (December 2012 Rebalance) adds \$11.8 million total funds associated with increased TANF costs and expenditure limitation to access funding available for the Self Sufficiency Modernization project.

Package 090 (Analyst Adjustments) and Package 102 (SS – Economy and Jobs) were recommended by the Subcommittee. The packages continue temporary, cost-saving modifications made to the TANF program in 2011-13. These include up-front eligibility process changes, denying aid based on a “job quit” period, post TANF payments, eliminating enhanced payments for clients applying for federal Supplemental Security Income benefits, and setting an income eligibility limit equal to 185 percent of federal poverty guidelines for non-parent caretaker relatives of dependent children. The JOBS program is also flat funded at 2011-13 levels; a partial restoration is made in a separate action. Supporting statutory adjustments for the continued temporary program suspensions will be included in the program change bill. Altogether these changes, along with an inflation reduction used as a funding strategy in the Governor’s budget, generate \$51.8 million in General Fund savings. The Governor’s budget also included a policy change establishing a 36-month time limit for TANF; that change is reversed in a subsequent package.

The Subcommittee approved Package 102 (SS – Healthy People), which has two components. The first is a series of internal staffing changes converting vacant eligibility positions to case management positions to prioritize getting TANF families stable and back to work. The associated

budget adjustments net to zero with respect to dollars, while driving a net position decrease of 13 (15.15 FTE). The overall program budget supports Self Sufficiency staffing levels at 71 percent of the workload model.

The second package component continues the Self Sufficiency Modernization project with a General Fund investment of \$7.1 million (\$56.1 million total funds). DHS is transitioning from program-oriented processes and duplicative systems to more efficient and streamlined systems. One expected project outcome is workers having fewer business processes and less paperwork, giving them more time to spend with clients. Along with General and Federal Funds, the funding package relies on \$14.4 million in XI-Q bond proceeds. The recommended budget also includes 15 permanent positions (15.00 FTE). These positions will be responsible for ongoing activities associated with the project which include defining business-centric data management strategies, developing new approaches to service delivery from caseworker/field perspective, running core business analytics, and managing updates and changes to the business rules required due to legislative and other policy actions.

Budget adjustments to the Employment Related Day Care (ERDC) program, which provides childcare subsidies to employed parents, were approved in Package 105 (SS – Education). An additional \$6.9 million General Fund supports increasing caseload capacity to an average of 9,000 cases over the biennium, which is above the 2011-13 average of 8,500. The package also includes a small inflation reduction and continuation of 2011-13 ERDC policy changes that save \$5.3 million General Fund. One action closes program access to those families where the adult has declared they are self-employed, while the other retains higher co-pays for families in the ERDC program.

Additional budget changes were approved by the Subcommittee in Package 810 (LFO Analyst Adjustments). These include reshoot/”repricing” adjustments to account for caseload and cost per case changes based on the Spring 2013 forecast; an \$11.5 million General Fund increase is driven primarily by the TANF unemployed caseload. The package also adds \$125,500 General Fund for backfill of the first quarter federal sequestration action and reflects technical adjustments, including a transfer of Attorney General funding to Child Welfare.

The package also adds one-time revenues to offset General Fund expenditures: \$7.5 million in TANF carryover, \$4.0 million in current fiscal year TANF contingency funds, \$7.9 million in CCDF carry-forward funding, and \$14 million in federal fiscal year 2014 TANF contingency funds. While some risk is associated with the last component, funding has already been allocated at the federal level. Lastly, the package includes \$2 million General Fund to help increase childcare provider rates; a modest reduction in the average caseload target of 9,000 may also be needed to implement rate increases within available program funding. The last provider rate increase was in 2007.

The Subcommittee approved Package 814 (TANF and JOBS Restorations) which adds \$10 million General Fund to maintain the current TANF 60-month time limit that was proposed at 36 months in the Governor’s budget. Also in the package is a restoration of \$5 million General Fund to the JOBS program; the increased funding will allow the agency to serve more people but the program will still be limiting services to those clients that are most “job ready” and “near job ready”.

Child Welfare Program

Child Welfare programs provide prevention, protection, and regulatory programs for Oregon’s vulnerable children. This includes programs that provide safe and permanent families for children that have been abused or neglected through child protective services, in-home services, out-of-home services, and adoptions.

The Subcommittee approved budget for Child Welfare is \$906,903,176 total funds, which is a 12.8 percent increase from the 2011-13 LAB. The approved General Fund budget of \$446,625,835 is 13.5 percent above the LAB. Along with caseload and cost per case adjustments, this funding level includes the full phase-in of the Strengthening, Reunifying, and Preserving Families program as enacted by Senate Bill 964 (2011). Funding for the program, which focuses on providing services to allow children to remain safely with their families and avoid foster care, at \$11.2 million General Fund (\$23.7 million total funds) is captured within the current service level budget. The Subcommittee adopted a budget note to provide for an interim legislative update and more detailed reporting as the program grows in 2013-15.

Budget Note:

The Department of Human Services shall report, to the Interim Joint Committee on Ways and Means in September 2013, on the following information concerning implementation of the Strengthening, Preserving, and Reunifying Families program under Senate Bill 964 (2011):

- 1) An accounting of program funds spent during the 2011-2013 biennium. For contracted activities, for each contract report should include information on the contractor, services provided, amount of funds expended, specified outcomes, and extent to which those outcomes were achieved.
- 2) An accounting of any contracts issued under Senate Bill 964 (2011) in the 2013-15 biennium including information on the contractor, services provided, contract amount, and a delineation of expected outcomes in each contract.
- 3) For the remaining 2013-15 contracts, information on issuance timelines, services provided, and expected outcomes.

The recommended budget includes standard PERS changes and adjustments related to 2011-13 interim budget actions. Package 081 (May 2012 Eboard) eliminates \$1.5 million total funds and eight positions (7.71 FTE) to implement staffing reductions driven by House Bill 4131 (2011.) Package 094 (December 2012 Rebalance) adds \$11.6 million Federal Funds to reflect expenditures allowed under OHA's Designated State Health Program (DSHP) waiver, along with expenditure authority and positions to support federal grants.

Package 090 (Analyst Adjustments) was approved by the Subcommittee. The package makes a \$750,000 General Fund investment in the Homeless and Runaway Youth program, which supports local programs providing services such as street outreach, day drop-in, and overnight shelter; the amount equates to a 69 percent increase over the 2011-13 program funding level.

The Subcommittee approved Package 106 (CW – Safety) in the amount of \$19 million General Fund (\$25.3 million total funds) and 126 positions (95.87 FTE). The package, which eliminates program inflation as a funding strategy, includes several other changes as follows:

- The addition of \$11.3 million General Fund (\$11.5 million total funds), to comply with an ongoing eligibility rate methodology change that allows the state to retain Title IV-E federal funding for foster care. Three positions (3.00 FTE) are included with this component to ensure ongoing and timely compliance.
- An increase of \$199,273 General Fund (\$614,942 total funds) and one position (0.88 FTE) support ongoing efforts to stabilize post adoption services, including crisis response and consultation, and client care for children in residential care.

- Funding of \$1.0 million General Fund (\$1.4 million total funds) and nine positions (6.75 FTE) to improve state compliance with the federal Indian Child Welfare Act. This includes one position for coordination with each tribe in Oregon.
- The budget includes an investment of \$10.7 million General Fund (\$20.4 million total funds) and 113 positions (85.24 FTE) that will improve Child Welfare staffing by bringing it up to 75 percent of the workload model. This investment will provide for implementation of differential response, which is a design for child welfare intervention that allows for more than one way of responding to reports of suspected child abuse or neglect. The additional capacity also supports improvements in the Oregon Safety Model, statewide expansion of Senate Bill 964 efforts, and compliance with federal requirements.

The following budget note was approved regarding the increase in Child Welfare staff and allocation of resources:

Budget Note:

The Department of Human Services shall report to the Interim Joint Committee on Ways in Means in September 2013 on its plan to allocate or reallocate new and vacant Child Welfare positions to target activities that have been understaffed in recent biennia while continuing to protect children to the fullest extent possible. Focus areas should include implementation of the differential response model, family finding efforts and efforts to ensure that children move from foster care to permanency as quickly as possible. The report should be by DHS Child Welfare district, display both current and augmented positions by role, and describe how the positions will help the agency meet desired outcomes. The Department will also report to the Joint Committee on Ways and Means during the 2015 Legislative Session regarding progress toward program outcomes.

Additional budget changes were approved by the Subcommittee in Package 810 (LFO Analyst Adjustments). These include reshoot/”repricing” adjustments related to the Spring 2013 forecast, which decrease General Fund by \$2.6 million but result in an overall increase of \$4.5 million total funds. Changes are primarily associated with foster care and residential caseload costs. The General Fund savings is offset by an investment of \$2.7 million General Fund (\$5.6 million total funds) to restore permanently 48 residential treatment beds. The forecast for this particular caseload had been artificially constrained because of decreased capacity due to previous budget reduction actions.

The package also contains a fund shift to capture a federal percentage increase in the FMAP rate and \$405,125 General Fund for backfill of the first quarter federal sequestration action. The package includes technical adjustments and transfers that move a position to Shared Services and reprioritize the Attorney General budget by transferring funding into Child Welfare from other programs.

Vocational Rehabilitation Program

The Office of Vocational Rehabilitation Services (OVRs) works with businesses, schools and community program to assist youth and adults with disabilities other than blindness to obtain, maintain or advance in employment. The Subcommittee approved a budget of \$91,459,880 total funds for OVRs, which is a 14.8 percent increase from the 2011-13 LAB. This approved budget includes \$17,716,441 General Fund, an 11.6 percent increase from the LAB.

The Subcommittee approved budget includes standard PERS changes and adjustments in Package 810 (LFO Analyst Adjustments). This package includes \$311,750 General Fund for backfill of the first quarter federal sequestration impact, an increase of \$7.2 million Federal Funds to align the program's budget with a five-year spending plan, and technical adjustments.

In Package 811 (Centers for Independent Living) the Subcommittee approved an additional \$1.0 million General Fund for distribution to Centers for Independent Living (CILs). This increase is expected to bring budgets for Eastern Oregon Center for Independent Living (EOCIL) and Lane Independent Living Alliance (LILA) up to minimum operating level. The funding also covers a portion of the requested increase in overall base funding to CILs.

Aging and People with Disabilities Program

The Aging and People with Disabilities (APD) program provides long-term care services to seniors and people with physical disabilities. Clients receive services in their own homes, in community based care settings, and in nursing facilities. The APD budget supports local Area Agencies on Aging (AAAs) staff, county and state Medicaid field staff, and the disability determination services unit that determines eligibility for Social Security Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) benefits. The budget also includes Oregon Project Independence and federal Older Americans Act funding. The Subcommittee approved a \$2,425,682,990 total funds budget for APD, which is 3.6 percent more than the 2011-13 LAB. The approved General Fund budget of \$705,265,861 is 6.4 percent less than LAB. However, this is a bit misleading as \$125.9 million General Fund (\$347.8 million total funds) was transferred to OHA with the Medicare Part A and B and the nursing facility extended care programs. Without this transfer, which is approved in Package 201, the recommended budget would be 10.3 percent General Fund and 18.4 percent total funds higher than the 2011-13 LAB.

The Subcommittee approved budget includes standard PERS changes and adjustments related to 2011-13 interim budget actions. Package 081 (May 2012 Eboard) eliminates \$2.6 million total funds and 14 positions (14.00 FTE) to implement staffing reductions driven by House Bill 4131 (2011.) Package 094 (December 2012 Rebalance) adds \$8.4 million Federal Funds to reflect expenditures allowed under OHA's Designated State Health Program (DSHP) waiver.

The Subcommittee approved Package 108 (APD – Healthy People) in the amount of \$23.7 million General Fund (\$59.7 million total funds) and seven positions (6.40 FTE). The package includes several components outlined below.

- An increase of \$1.6 million General Fund for research and development funding to support pilot projects to develop new approaches to long term care services. The package add \$2.0 million General Fund (\$4.0 total funds) and two positions (2.00 FTE) to help replace APD's aging infrastructure to support changes that are anticipated to come about due to future planning efforts underway through its Long Term Care 3.0 initiative.
- Includes \$9.1 million General Fund (\$29.2 million total funds) to increase home and community based care rates that have been flat since July 2008.

- The budget includes funding to serve more seniors with severe mental illness in the community instead of at the more costly Oregon State Hospital, at a cost of \$7.3 million General Fund (\$10.7 million total funds). Another \$1.9 million General Fund (\$5.3 million total funds) will support community capacity needed to serve hard to place clients requiring specialized care. The Subcommittee approved \$675,000 General Fund (\$2.0 million total funds) to implement the final phase of the Certified Nursing Assistant (CNA) staffing study, which achieves a staffing standard of 2.46 hours per resident each day for CNAs.
- The Subcommittee approved funding for a new design and restart for the Money Follows the Person program. The budget also adds \$1.8 million General Fund (\$6.8 million total funds) and five positions (4.40 FTE) to improve care coordination between local APD and Area Agencies on Aging (AAA) offices and Coordinated Care Organizations (CCOs). The investment also supports the statewide Aging and Disability Resource Connection (ADRC) program to assist seniors, all individuals with disabilities, and veterans in navigating their options for long-term services and supports.

The Subcommittee approved the following budget note, which is also included in the OHA budget.

Budget Note:

The Department of Human Services (DHS) and the Oregon Health Authority (OHA) are directed to submit reports to the 2015 Legislature on how they have each responded with plans and/or actions that address the recommendations for the agencies contained in the 2013 *Report on Senior and Disability Mental Health and Addictions* in regards to the following:

- Create greater access to mental health and addiction services geared to the needs of seniors and persons with disabilities.
- Increase the capacity of the OHA Addictions and Mental Health program and providers to serve severely impaired seniors and persons with disabilities.
- In the health care transformation process, clarify the collaboration between the Coordinated Care Organizations and the DHS Aging and People with Disabilities (APD) program to develop best practices in dealing with the dual-eligible populations.
- Establish the role that senior and disability mental health and addictions will play in the re-definition of community-based long-term care through APD.
- Provide for greater geriatric training for professionals in the system.
- Create greater public awareness of mental health and addictions issues among seniors and persons with disabilities.
- Create ability to track and report on Mental Health and Addiction.
- Services to elderly and persons with disabilities.

Additional budget changes were approved by the Subcommittee in Package 810 (LFO Analyst Adjustments). These include reshoot/”repricing” adjustments related to the spring 2013 forecast that decrease General Fund by \$23.3 million (\$68.3 total funds), changes driven by updated FMAP rates, and repricing under the approved APD workload model. The Subcommittee added \$311,625 General Fund for backfill of the first

quarter federal sequestration impact and Other Funds expenditure limitation and limited duration positions to support DHS work under the Oregon Health Authority's State Innovation Grant.

The package also contains technical adjustments and transfers, including the transfer of two positions to Shared Services and correcting a double count of funding and positions related to mandated caseload that occurred during budget development. Also included is a fund shift of \$1 million from General Fund to Other Funds to support one-time use of the Quality Care Fund balance.

The budget approved by the Subcommittee is predicated on the agency's successful request for a federal waiver under the Community First Choice State Plan Option (K Plan). Package 812 (State Plan K Option) builds in required and ongoing maintenance of effort (MOE) expenditures at \$16.1 million General Fund. Coupled with the federal matching component, the funding is used to increase rates, increase the in-home housing allowance to support consumers being served in their own homes, and convert the relative adult foster care program to an in-home program. A portion of the investment is also targeted for home care worker collective bargaining. For this program under the K Plan the state is expected to draw down an additional \$92.9 million Federal Funds.

The Subcommittee approved Package 813 (House Bill 2216 – NF Assess and Caseload Reduction) which reflects another underlying assumption in the budget plan, which is continuation of the Long Term Care Facility Assessment. This change allows \$21.6 million General Fund to be freed up for other uses. House Bill 2216 (2013), which contains the extension, also will provide for higher reimbursement rates and outlines a strategy for helping providers reach a goal of reducing Oregon's long term care bed capacity by 1,500 beds by the end of 2015.

The Subcommittee also approved the following budget note associated with the potential repurposing of excess bed capacity.

Budget Note:

The Legislative Assembly is invested in ensuring that local resources exist to serve seniors, people with disabilities, individuals with mental illness, and individuals with physical or mental health needs in need of community transitions or placement. More capacity is needed to divert or transition individuals currently residing in the Oregon State Hospital or other costly inpatient settings.

As the Department conducts regional meetings required under House Bill 2216, the Department of Human Services should consult at the state level and with local communities regarding the need for more community based settings for these populations. The Department shall also engage with local nursing facility providers that are considering taking advantage of the capacity reduction initiatives contained in HB 2216 to assess opportunities for more residential and supported housing capacity development for the afore-mentioned populations.

The Department, in partnership with the provider community, shall track and report on discussions about capacity reduction and transition. The first report will be to the Joint Committee on Ways and Means during the 2014 Legislative Session. The second report will be to the Interim Joint Committee on Ways and Means or the Emergency Board, during or near November 2014.

Developmental Disabilities Program

The Developmental Disabilities (DD) program provides services for Oregonians with intellectual and developmental disabilities of all ages. DD offers supports to children and families ranging from in-home family support, intensive in-home supports, and out of home, 24-hour services delivered by proctor/foster care or residential care providers. Services for adults range from brokerage support services to assist an individual to live in their own home or with family or friends, to 24-hour comprehensive services. The Subcommittee approved a \$1,681,962,770 total funds budget for DD, which is 15.8 percent more than the 2011-13 LAB. The approved General Fund budget of \$547,228,082 is 1.8 percent more than the LAB. The Subcommittee approved the following specific budget adjustments:

The Subcommittee approved budget includes standard PERS changes and adjustments related to 2011-13 interim budget actions. Package 081 (May 2012 Eboard) eliminates \$1.0 million total funds and five positions (5.00 FTE) to implement staffing reductions driven by House Bill 4131 (2011.) Package 094 (December 2012 Rebalance) adds \$12.0 million total funds to reflect federal expenditures allowed under OHA's Designated State Health Program (DSHP) waiver and to leverage additional local match resources.

The Subcommittee approved Package 109 (DD – Healthy People) in the amount of \$26.2 million General Fund (\$64.8 million total funds) and 42 positions (28.06 FTE). The package includes several adjustments as follows:

- Adds \$1.2 million General Fund to support four additional Family to Family networks, making services available to more families across the state with a particular focus on eastern Oregon.
- As part of implementing an electronic web-based central client record and case management system, \$2.4 million General Fund (\$4.8 million total funds) and two positions (1.66 FTE).
- Adds \$4.8 million General Fund (\$13 million total funds) to cover roll-up costs associated a 1.25 percent wage increase for Personal Support Workers (PSW) effective April 1, 2013. The budget also includes \$7.4 million General Fund (\$19.9 million total funds) as a placeholder for costs that will remain indeterminate until the conclusion of collective bargaining.
- At a total of \$10.3 million General Fund (\$25.7 million total funds) and 40 positions (26.40 FTE), the budget supports the Employment First Initiative and associated Quality Assurance efforts. These resources will allow the program, in partnership with Vocational Rehabilitation and the Department of Education, to carry out activities under the Governor's Executive Order #13-04. That directive sets out a process for moving people with developmental disabilities out of sheltered workshops and into integrated employment.

The Subcommittee in Package 810 (LFO Analyst Adjustments) approved additional budget changes. These include reshoot/"repricing" adjustments to account for caseload and cost per case changes based on the Spring 2013 forecast. It also includes changes driven by updated FMAP rates, a correction to the FMAP rate for the State Operated Community Programs (SOCP), and \$16,625 General Fund for backfill of the first quarter federal sequestration action. The package also contains technical adjustments and transfers, including the transfer of three positions to APD and a \$250,000 from General Fund to Other Funds to support one-time use of the Quality Care Fund balance.

The budget approved by the Subcommittee assumes the agency's successful request for a federal waiver under the Community First Choice State Plan Option (K Plan). Package 812 (State Plan K Option) builds in the required and ongoing MOE expenditures at \$29.5 million General Fund, which are used primarily to restore six percent rate reductions taken by programs in previous biennia. These include group homes, specialized living, transportation, and adult foster care. About \$13.5 million General Fund is set aside to fund a bargaining pot for health care insurance for Personal Support Workers. Under the K Plan for this program the state is expected to draw down an additional \$126.6 million Federal Funds.

The Subcommittee also approved the following two budget notes for this program.

Budget Note:

By January 2015, the Department of Human Services will implement a uniform needs assessment tool for individuals receiving developmental disabilities services. Any assessment tool used by the Department must be evidence-based and consider broad stakeholder input. Implementation of the uniform needs assessment tool should be done equitably and with stakeholder input.

Budget Note:

As the Department of Human Services implements CMS approved Medicaid State Plan 1915(K) Option in Developmental Disability Services, the Department shall eliminate program wide monetary caps on brokerage consumer's individual service dollars. The Department shall base access and amount of an individual's brokerage personal service budget on needs identified through a functional needs assessment and the individual's goals identified through the person centered planning process. The department will continue to develop an individual service plan that is based upon the individual's goals and is designed to provide individualized supports necessary to further the achievement of those goals. Funding for all services will be in accordance with regulations established by the Centers for Medicare and Medicaid Services. The department is directed to keep person centered planning and self-determination as foundations of the DD system.

Summary of Performance Measure Action

Legislatively Approved 2013-2015 Key Performance Measures

Agency: HUMAN SERVICES, DEPARTMENT of

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2014	Target 2015
1 - OVRS CLOSED - EMPLOYED – The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed.		Approved KPM	57.00	66.00	66.00
2 - TANF FAMILY STABILITY – The percentage of children entering foster care who had received TANF cash assistance within the prior two months.		Approved KPM	37.10	30.00	30.00
3 - TANF RE-ENTRY - The percentage of Temporary Assistance for Needy Families (TANF) cases who have not returned within 18 months after exit due to employment.		Approved KPM	64.20	65.00	65.00
4 - SNAP (Supplemental Nutrition Assistance Program) UTILIZATION - The ratio of Oregonians served by SNAP to the number of low-income Oregonians.		Approved KPM	91.70	85.00	85.00
5 - SNAP (Supplemental Nutrition Assistance Program) ACCURACY - The percentage of accurate SNAP payments		Approved KPM	96.01	96.00	96.00
6 - ENHANCED CHILD CARE - The percentage of children receiving care from providers who are receiving the enhanced or licensed rate for child care subsidized by DHS		Approved KPM	54.40	60.00	60.00
7 - ABSENCE OF REPEAT MALTREATMENT - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization.		Approved KPM	95.00	96.00	96.00
8 - TIMELINESS AND PERMANENCY OF REUNIFICATION OF CHILDREN		Approved KPM	116.80	125.00	125.00
9 - TIMELINESS OF FOSTER CARE RELATED ADOPTIONS		Approved KPM	97.90	104.40	104.40
10 - LTC NEED PREVENTION - Percentage of seniors (65+) needing publicly-funded long term care services.		Approved KPM		5.00	5.00

Agency: HUMAN SERVICES, DEPARTMENT of

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2014	Target 2015
11 - LTC RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES – The percentage of Oregonians accessing publicly-funded long-term care services who are living outside of nursing facilities.		Approved KPM		85.09	85.96
12 - DEVELOPMENTAL DISABILITY SUPPORT SERVICES - The percentage of eligible adults who are receiving adult support services within 90 days of request.		Approved KPM	80.40	98.00	98.00
13 - PEOPLE WITH DISABILITIES IN COMMUNITY SETTINGS – The percentage of individuals with developmental disabilities who live in community settings of five or fewer.		Approved KPM	98.50	98.60	98.60
14 - INTEGRATED EMPLOYMENT SETTINGS - The percentage of adults with developmental disabilities who receive ODDS services who are working in integrated employment settings.		Approved KPM	23.50		
15 - ABUSE OF PEOPLE WITH DEVELOPMENTAL DISABILITIES - The percentage of people with developmental disabilities experiencing abuse.		Approved KPM	2.23	2.20	2.20
16 - PLACEHOLDER: ADULT PROTECTIVE SERVICES		Approved KPM	0.59		
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Accuracy	Approved KPM	75.00	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Availability of Information	Approved KPM	75.00	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Expertise	Approved KPM	75.00	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Helpfulness	Approved KPM	75.00	75.00	75.00
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Overall	Approved KPM	75.00	75.00	75.00

Agency: HUMAN SERVICES, DEPARTMENT of

Mission: Assisting people to become independent, healthy and safe.

Legislatively Proposed KPMs	Customer Service Category	Agency Request	Most Current Result	Target 2014	Target 2015
17 - CUSTOMER SERVICE - Percentage of customers rating their satisfaction with DHS above average or excellent: overall, timeliness, accuracy, helpfulness, expertise, availability of information.	Timeliness	Approved KPM	75.00	75.00	75.00
18 - PLACEHOLDER: SERVICE EQUITY		Approved KPM			

LFO Recommendation:

Approve KPMs #1 through 9, 12, 13, 17, and 18 with targets as shown. Approve delete/new (replacement) requests for current KPMs #10 and 11, with targets as displayed. Modify requested change for KPM #14 as follows: Retain the old KPM but change the wording slightly, to: "Integrated Employment Settings: The percentage of adults with developmental disabilities who receive ODDS services who are working in integrated employment settings. Also, for KPM #14, show the most current result but leave the targets blank. Executive Order (EO) #13-04 establishes a policy group that is to recommend employment outcome metrics; that group is expected to evaluate this KPM and develop targets that fit EO objectives. Targets can be communicated to the Legislative Fiscal Office after review. Retitle KPM #15 to "ABUSE OF PEOPLE WITH DEVELOPMENTAL DISABILITIES" and approve the targets as presented. Direct the agency to reconsider this measure as it works to develop the Adult Protective Services KPM. Deny request to delete/replace KPM #16. Retain KPM #16 as a placeholder performance measurement for Adult Protective Services and direct the agency to develop an alternative KPM for 2015-17, with the understanding that DHS will continue to capture, analyze, and report on abuse-related data as part of the agency's overall program management responsibilities. Approve the customer service performance measure elements with targets as shown. Approve the placeholder request for Service Equity as KPM #18; specific measure and targets to be included with requested KPMs for 2015-17. Direct the Department of Human Services, as the agency works to align KPMs with its performance-based management system for the 2015-17 budget cycle, to improve the consistency of measurement components, displays, and comparisons.

Sub-Committee Action:

Approved the LFO Recommendation.

Biennium

2013-15

Summary of Capital Construction Subcommittee Action

House Bill 5006 allocates resources from the Criminal Fine Account (CFA). The CFA includes criminal fines and other financial penalties imposed on conviction for felonies, misdemeanors, and violations other than parking infractions which are collected through the courts – the Oregon Judicial Department (OJD) for the circuit courts and the local Municipal (city) and Justice (county) Courts and remitted to the Department of Revenue.

ORS 137.300 establishes the CFA and identifies program priorities, but does not specify a funding level for the programs. Expenditure limitations for programs receiving CFA allocations are established in the separate appropriation bills for the various receiving agencies. Once the specific program allocations have been made, the balance of revenues in the CFA is deposited into the General Fund.

For the 2013-15 biennium, the revenue forecast inclusive of the changes in HB 2562 for the CFA totals \$112.1 million. The Capital Construction Subcommittee approved allocations to agencies totaling \$67.1 million, leaving a balance of \$45 million to be deposited into the General Fund. The specific allocations accomplished through this bill are outlined in the following table:

Agency/Program (Bill number containing expenditure authority)	Allocation
<i>Department of Public Safety Standards & Training (HB 5042)</i>	
Operations	\$ 24,410,000
Public Safety Memorial Fund	110,000
Subtotal:	<u>\$ 24,520,000</u>
<i>Department of Justice (HB 5018)</i>	
Child Abuse Multidisciplinary Intervention (CAMI)	\$ 9,982,089
Criminal Injuries Compensation Account (CICA)	8,520,223
Regional Assessment Centers	764,721
Child Abuse Medical Assessments	646,707
Subtotal:	<u>\$ 19,913,740</u>
<i>Oregon Judicial Department (HB 5016)</i>	
State Court Facilities & Security Account	\$ 6,414,462
Court Security Program	2,960,118
Subtotal:	<u>\$ 9,374,580</u>
<i>Oregon Health Authority (HB 5030)</i>	
Emergency Medical Services & Trauma Services	\$ 331,824
Alcohol & Drug Abuse Prevention	42,884
Law Enforcement Medical Liability Account (LEMLA)	1,300,000
Intoxicated Driver Program	4,323,000
Subtotal:	<u>\$ 5,997,708</u>
<i>Department of Corrections (HB 5005)</i>	
County correction programs and facilities, and alcohol and drug programs	<u>\$ 4,257,421</u>
<i>Department of Human Services (SB 5529)</i>	
Domestic Violence Fund	\$ 2,224,675
Sexual Assault Victims Fund	533,332
Subtotal:	<u>\$ 2,758,007</u>
<i>Oregon State Police (HB 5038)</i>	
Driving Under the Influence Enforcement	<u>\$ 253,000</u>
<i>Governor's Office (SB 5523)</i>	
Arrest & Return for Extradition	<u>\$ 22,500</u>
Total Allocations:	<u>\$ 67,096,956</u>

JOHN A. KITZHABER, MD
Governor

August 14, 2013

The Honorable Kate Brown
Secretary of State
136 State Capitol
900 Court Street NE
Salem, OR 97301

Dear Secretary Brown:

Under Article V, section 15a, of the Oregon Constitution, the Governor has the power to veto "single items in appropriations bills, without thereby affecting any other provision of such bill." Exercising that constitutional authority, I hereby disapprove and veto Sections 99(4), 99(5), and 100 of Enrolled House Bill 5008 without affecting the remaining provisions of the bill.

House Bill 5008 is an appropriations bill that includes actions regarding the legislatively adopted budget for the Public Employees' Benefits Board (PEBB) and the Oregon Educators' Benefit Board (OEBB). In my view, we should be expecting better value from our health care partners and creating a health care delivery system that is accountable for the money paid. PEBB and OEBB members have stepped up over the past two years with increased contributions and in taking greater responsibility for their personal health. It is now time to increase the accountability from our health system partners.

The budget from HB 5030 reflects my expectation that PEBB and OEBB not take the traditional pathway of budget balancing that only shift costs to members but rather fundamentally changes how care is delivered to members and their families. By improving health, eliminating waste and controlling costs, we want to ensure that PEBB and OEBB members have the care they need today and in the future. As a responsible employer, we want to continue to collaborate with our employees on how best to improve employee health. Together we have made headway on these fronts, and there is a lot more to be done. This is a step to get more value for the employee's and taxpayers' dollars.

Accordingly, I am exercising my constitutional authority to disapprove and veto Sections 99(4), 99(5), and 100 of Enrolled HB 5008 without affecting the remaining provisions of the bill.

Sincerely,

John A. Kitzhaber, M.D.
Governor

Summary of Revenue Changes

The General Fund appropriations made in the bill are within resources available as projected in the May 2013 economic and revenue forecast by the Department of Administrative Services Office of Economic Analysis, supplemented by transfers from various agency accounts to the General Fund for general governmental purposes as authorized in House Bill 2322, plus other actions to reduce state agency expenditures.

Summary of Capital Construction Subcommittee Action

House Bill 5008 appropriates General Fund to the Emergency Board for general purpose and targeted special purpose appropriations, and makes other adjustments to individual agency budget and position authority as described below.

Emergency Board

The Emergency Board allocates General Fund and provides Lottery Funds, Other Funds, and Federal Funds expenditure limitation to state agencies for unanticipated needs in approved agency budgets when the Legislature is not in session. The Subcommittee appropriated \$30 million General Fund to the Emergency Board for general purposes.

House Bill 5008 makes eight special purpose appropriations to the Emergency Board, totaling \$111.1 million General Fund:

- \$86.5 million General Fund for allocation to state agencies for state employee compensation changes.
- \$12.9 million General Fund for allocation to state agencies for compensation changes for home health care workers who are not state employees.
- \$1,702,192 General Fund for second year operational costs for the Oregon State Library. The 2013-15 budget for the State Library provides for only one year of budget authority for the agency (see House Bill 5022). The release of this appropriation, by either the Legislature or the Emergency Board, is contingent on a successful reorganization plan being submitted and approved by the Legislature in 2014.
- \$4.6 million for the Department of Education for costs over and above the amount included in the Department's budget bill (Senate Bill 5518) relating to assessments and other resources aligned to common core standards including those assessments required under the federal Elementary and Secondary Education Act (ESEA). The Department of Education must report on what assessments it plans to implement and on the most current estimates of the costs for each component of the assessment when making the request for this special purpose appropriation.
- \$1,789,557 General Fund for the Department of Education's Youth Development Division. This amount represents program funding for the second year of the biennium for youth development grants, performance-based contracts, and services provided at the local level. Prior to requesting this special purpose appropriation, the Youth Development Council will report back to the Joint Committee on Ways and Means during the 2014 Legislative Session with a plan for investing and distributing these funds. The plan must take into account (1) the furtherance of the policy directives and youth academic and developmental outcomes outlined in House Bill 3231; (2) Oregon's

40/40/20 educational goals; and (3) the Oregon Education Investment Board's Strategic Plan. In developing this plan, the Youth Development Council shall consult with representatives of youth, parents, schools, service providers, labor, business, local governments, tribal governments, and communities.

- \$225,000 General Fund one-time funding for the Oregon Hunger Response Fund, for allocation to the Housing and Community Services Department after receipt of the agency's report on alternate, sustainable service delivery models, pursuant to a budget note.
- \$3.3 million General Fund for the Oregon Health Authority for adult residential room and board rate increases within the alcohol and drug system, after receipt of the agency's study on both the youth and adult system, during the 2014 legislative session. Based on the findings of that study, some or all of this funding could be allocated at that time.
- \$100,000 General Fund for the Oregon Health Authority for staffing needs related to the Dental Pilot Projects. These projects were established in Senate Bill 738 (2011), but no funding was provided. While the funding for the pilots is expected to come from foundations and private funders, the agency needs staff to manage the program.

If these special purpose appropriations are not allocated by the Emergency Board before December 1, 2014, any remaining funds become available to the Emergency Board for general purposes.

Adjustments to Approved 2013-15 Budgets

OMNIBUS ADJUSTMENTS

Omnibus adjustments reflect budget changes in multiple agencies based on reductions in Department of Administrative Services' assessments and charges for services, a reduction to the Attorney General rates, an increase resulting from a new Secretary of State Archives assessment, and debt service adjustments. Also included is a 5% reduction to services and supplies (excluding the fixed costs of State Government Service Charges, Attorney General charges, rent, and fuel and utilities) that is applied to General Fund and certain Lottery Funds only. Total savings are \$36.5 million General Fund, \$1.7 million Lottery Funds, \$5.7 million Other Funds, and \$1.6 million Federal Funds.

Omnibus adjustments also include a 2% supplemental ending balance holdback that is applied primarily to General Fund, and excludes debt service as well as selected programs. This reduction may be restored during the 2014 legislative session depending on statewide economic conditions. Agency detail for this adjustment is shown in Attachment A. Total budget reductions include \$154.9 million General Fund and \$1.4 million Lottery Funds.

Another statewide adjustment, which is included in agency budget bills and not in House Bill 5008, affects most state agencies. Package 091 (Statewide Administrative Savings) is a placeholder for administrative efficiencies and associated budget reductions in finance, information technology, human resources, accounting, payroll, and procurement expenditures. The Subcommittee affirmed that the reductions, at \$62.0 million total funds, are permanent and ongoing as they reflect fundamental changes in business processes. The Department of Administrative Services (DAS) will continue to work on details of these reductions with agencies and report to the Joint Committee on Ways and Means during the 2014 session. Agencies should direct concerns regarding permanency or implementation of the reductions to DAS. The Department will include a plan for resolving any issues related to these reductions as part of its 2014 report.

ADMINISTRATION

Oregon Department of Administrative Services

House Bill 5008 includes one-time General Fund appropriations to the Department of Administrative Services (DAS) for the following purposes:

- \$500,000 to the East Valley Water District to support completion of an environmental impact study on a proposed water storage project.
- \$250,000 to the Historic Public Market Foundation to assist with development of the James Beard Public Market in Portland.
- \$400,000 for distribution to 211info, which is a statewide, nonprofit information and referral service for community and social services. The state currently supports about one-third of the organization's operating budget, primarily through contracts with individual state agency programs for specific services. 211info also receives funding from local governments, other nonprofits, grants, and foundations. This direct General Fund appropriation is intended to help 211info maintain statewide program access over the 2013-15 biennium. An additional request to support around-the-clock operations was not funded; right now 211info operates Monday through Friday from 8 am to 6 pm. To gain a better understanding of how state agencies can most effectively use 211info and to provide the legislature information to help evaluate potential future funding requests, the Subcommittee adopted a budget note:

Budget Note:

The Department of Administrative Services shall work with other state agencies to identify all information and referral services for state government, with a primary focus on help lines (for example, 1-800 numbers). The Department will submit a report to the Joint Committee on Ways and Means during the 2014 legislative session summarizing the purpose, scope, and cost of each service. For each state agency currently using 2-1-1 the report shall also provide information on the service(s) being provided, including but not limited to, contract provisions, utilization, benefits, costs, and budget. Finally, the report shall include an analysis of potential cost savings or efficiencies that might be achieved by broader use of 2-1-1.

The Subcommittee added \$27,100,007 Other Funds expenditure limitation for one-time cost of issuance and special payments associated with the disbursement of proceeds from several Lottery Bond sales; projects are detailed below and approved in the Lottery Bond bill (Senate Bill 5533). There is no debt service in the 2013-15 biennium as the bonds will not be sold until the spring of 2015. Debt service in 2015-17 is calculated at a total of \$4,882,645 Lottery Funds: \$2,193,283 for the Lane Transit project; \$1,835,741 for the Portland Convention Center hotel project; \$637,464 for the Confederated Tribes of Umatilla; and \$216,157 for the North Central Education Service District project.

- \$10,239,248 Other Funds for disbursement to Metro for the purpose of assisting with the development of a hotel near the Portland Convention Center.
- \$3,562,986 Other Funds for disbursement to the Confederated Tribes of Umatilla for construction a 1.5 mile road extension from the Port of Umatilla into the Confederated Tribes of Umatilla, which will open additional industrial land for development.
- \$1,042,755 Other Funds for disbursement to North Central Education Service District for partial funding of digital switch technology acquisition that would serve the educational and public safety needs of Wheeler, Gilliam, and Sherman Counties.
- \$12,255,018 Other Funds for disbursement to the Lane Transit District for the West Eugene EmX extension project.

House Bill 5008 includes Other Funds expenditure limitations for the following purposes:

- \$400,000 one-time Other Funds increase to support a DAS contract with the Province of British Columbia on behalf of Multnomah County. The county wants to contract with Partnerships BC, which is a government-owned infrastructure development company, to develop a business case for a new Multnomah County Courthouse. Oregon counties are prohibited from contracting with foreign governments, but the state is allowed. This contract will be issued outside the normal, competitive procurement process because under ORS 190 DAS may enter into intergovernmental agreements with foreign governments and bypass this process. Multnomah County will pay for the planning work through DAS to Partnerships BC.
- \$2,955,118 Other Funds increase to the Enterprise Asset Services budget unit to correct a mistake when too much services and supplies expenditure limitation was inadvertently removed from the program in House Bill 5002, the budget bill for the Department of Administrative Services.
- \$24,141,833 one-time increase to the Shared Services Fund to accommodate first year payments from the Fund to counties. In 2007 the Legislature established a new program, the Shared Services Fund, to provide state support to local taxing districts affected by participation in the Strategic Investment Program. Local taxing districts are now eligible to receive payments from the state that are calculated to equal 50% of the personal income tax revenue attributable to the earnings of persons employed as result of a SIP property tax exemption. These payments would otherwise have gone to the state General Fund.

The Subcommittee increased Lottery Funds by \$21,380 to reflect additional Lottery Funds for County Fairs support. The funding is available due to the termination of the County Fair Commission, for which the Department of Agriculture had received Lottery Funds for minimal administrative support of Commission operations.

The Subcommittee also added the following budget note on how to best meet the information technology needs of small state agencies:

Budget Note:

The Department of Administrative Services is directed to report back to the February 2014 Legislative Session with a plan to address the specific needs of smaller (<300 FTE) agencies with regard to Information Technology and Telecommunications Management. The Department shall also report on resources that will be necessary to implement such a plan and how those resources would be funded.

Office of the Governor

A \$900,000 Lottery Funds limitation and three limited duration Principal Executive/Manager F positions (3.00 FTE) are added to the Office of the Governor. These positions will focus on streamlining the permitting process for significant projects across all levels of government; federal, state, county and city.

The Subcommittee approved budget adjustments for an increase in the statutorily set salary for statewide elected officials as provided for in House Bill 2322. The statewide elected officials include the Governor, Secretary of State, State Treasurer, Attorney General, and the Commissioner of Labor and Industries. Each is to receive a salary increase of \$5,000 per year, beginning on January 1, 2014. The impact on the Office of the Governor is an increase of \$9,174 General Fund, including other payroll expenses. Statewide elected officials last received a salary

increase in July of 2009. Statutory Judgeships are also to receive a salary increase (see Judicial Branch program area narrative). The compensation for members of the Legislative Assembly remains unchanged.

The following budget note was approved:

Budget Note:

The Joint Committee on Ways and Means approved a budget with House Bill 5028, the budget bill for the Oregon Business Development Department, that concerned the Regional Solutions program. That budget note is repealed, and the following, also concerning the Regional Solutions program, is adopted.

The Transportation and Economic Development Subcommittee approved a \$1 Other Funds expenditure limitation for the Oregon Business Development Department for Regional Solutions. Prior to legislative approval of any increase in the expenditure limitation for this program, the Office of the Governor shall report to the Interim Joint Committee on Ways and Means with a request to introduce a bill, for consideration during the 2014 Session of the Legislative Assembly, to establish the Regional Solutions program. In addition to any other provisions in this report that the Governor may include, the report shall include requested provisions to: provide for the establishment of Regional Solutions Centers; identify the membership, governance and duties of the Centers; establish criteria on the use of funds allocated to the program; define the process for the development and approval of funding proposals; establish authority for the Oregon Business Development Department to distribute moneys to projects funded under the program and to provide effective oversight of the uses of the moneys so distributed; and delineate the activities and responsibilities of the Oregon Business Development Department for administering the program. The Office of the Governor shall submit this report to the Interim Joint Committee on Ways and Means no later than during the Legislative Days in November 2013.

Department of Revenue

The Subcommittee approved funding for the implementation of the replacement of the agency's core information technology applications (Core System Replacement project). The estimated one-time cost of implementation totals \$70.9 million and is scheduled to be fully completed by the 2017-19 biennia. Overall, the project will be funded with \$12.5 million of General Fund and \$58.4 million of Article Q-bonds. General Fund will provide for Debt Service repayment. Ongoing costs are roughly estimated at 2-3 times the initial one-time costs.

For the 2013-15 biennium, the Subcommittee approved \$26.5 million of Other Funds expenditure limitation for development costs, which will be financed with Article XI-Q bonds approved in House Bill 5506. Personal Services are increased by \$6.0 million Other Funds (31 positions/31.00 FTE), \$18.8 million Other Funds for Services and Supplies, and \$1.7 million for Capital Outlay. Major costs include: \$11.3 million for vendor contract payments; \$1 million for vendor contracted maintenance; \$1.5 million for an independent quality assurance/control vendor; and \$3 million in vendor contract contingency costs.

Unless otherwise approved by the Legislature or the Emergency Board, the positions budgeted for the Core System Replacement project are established as permanent full-time positions under the following conditions: (a) the positions will be abolished on or before the completion of the project; (b) the positions are to remain in the Core System Replacement program (i.e., CSR summary cross reference) and may not be transferred to any other program or used for any other purpose other than the development to the Core System Replacement project; and (c) the positions may not to be included in any permanent finance plan action.

The Subcommittee appropriated \$3.6 million General Fund for the agency's payments to the Department of Administrative Services for State Data Center charges and for vendor contract maintenance costs to support the ongoing maintenance of the vendor product after installation.

The Subcommittee appropriated \$1.6 million in General Fund Debt Service to support repayment of Article XI-Q General Obligation bond proceeds approved in SB 5506. General Fund Debt Service for the 2015-17 biennium will total \$10.1 million. Other Funds expenditure limitation of \$521,182 is included for the cost of issuance of the bonds.

The Department of Administrative Services is requested to unschedule \$13 million of Other Funds expenditure limitation related to the May 2014 Article XI-Q bond sale pending a Department of Revenue report to the Legislature in 2014 on the status of the project.

The Subcommittee adopted the following budget note:

Budget Note:

The Department of Revenue (DOR) is directed to work with the Department of Administrative Services (DAS) in the development and implementation of the Core Systems Replacement Project. DAS is to provide DOR with the oversight of the project, including support for project management, information technology systems development lifecycle, procurement, quality assurance, and other needs to successfully complete this project.

DOR is to submit updated key foundational project management documentation, each accompanied by an independent quality control review, to Legislative Fiscal Office (LFO) on or before February 1, 2014, as available for review.

DOR and DAS are directed to report to LFO every six months through the biennium on the status of the project using DOR's standard project management reports as well as provide copies of all Quality Assurance and Quality Control and Independent Verification and Validation reports upon their receipt by the agency.

The Subcommittee disappropriated \$440,937 General Fund and reduced Other Funds expenditure limitation by \$146,979 from the Administration program due to the passage of Senate Bill 184, which allows for agencies to send notification by first class mail, or in some cases by an alternative method such as e-mail, in lieu of certified mail. The reduction is the difference in cost between certified mail and first class postage that is estimated to be realized by the agency.

Secretary of State

The Subcommittee approved budget adjustments for an increase in the statutorily set salary for statewide elected officials as provided for in House Bill 2322. The statewide elected officials include the Governor, Secretary of State, State Treasurer, Attorney General, and the Commissioner of Labor and Industries. Each is to receive a salary increase of \$5,000 per year, beginning on January 1, 2014. The impact on the Secretary of State is an increase of \$9,174 General Fund, including other payroll expenses. Statewide elected officials last received a salary increase in July of 2009. Statutory Judgeships are also to receive a salary increase (see Judicial Branch program area narrative). The compensation for members of the Legislative Assembly remains unchanged.

Treasurer of State

The Subcommittee approved budget adjustments for an increase in the statutorily set salary for statewide elected officials as provided for in House Bill 2322. The statewide elected officials include the Governor, Secretary of State, State Treasurer, Attorney General, and the Commissioner of Labor and Industries. Each is to receive a salary increase of \$5,000 per year, beginning on January 1, 2014. The impact on the Treasurer is an increase of \$9,174 Other Funds expenditure limitation, including other payroll expenses. Statewide elected officials last received a salary increase in July of 2009. Statutory Judgeships are also to receive a salary increase (see Judicial Branch program area narrative). The compensation for members of the Legislative Assembly remains unchanged.

CONSUMER AND BUSINESS SERVICES

Bureau of Labor and Industries

The Subcommittee approved budget adjustments for an increase in the statutorily set salary for statewide elected officials as provided for in House Bill 2322. The statewide elected officials include the Governor, Secretary of State, State Treasurer, Attorney General, and the Commissioner of Labor and Industries. Each is to receive a salary increase of \$5,000 per year, beginning on January 1, 2014. The impact on the Bureau of Labor and Industries is an increase of \$6,881 General Fund and \$2,293 Other Funds expenditure limitation, including other payroll expenses. Statewide elected officials last received a salary increase in July of 2009. Statutory Judgeships are also to receive a salary increase (see Judicial Branch program area narrative). The compensation for members of the Legislative Assembly remains unchanged.

ECONOMIC AND COMMUNITY DEVELOPMENT

Oregon Business Development Department

The Subcommittee increased the General Fund appropriation by \$280,954, to fully-fund 2013-15 biennium debt service costs for Article XI-Q general obligation bonds issued to finance Innovation Infrastructure projects. Debt service costs are higher than originally projected, because the bonds are not eligible to be issued on a tax-exempt basis. This increase will provide a total of \$694,286 General Fund to pay 2013-15 biennium debt service costs on the \$5,000,000 project. Debt service costs will increase to \$1.4 million in the 2015-17 biennium.

The Subcommittee established two new Lottery Funds expenditure limitations, and approved the establishment of three full-time, limited-duration positions (3.00 FTE). The first Lottery Funds expenditure limitation of \$1,124,525 supports three limited-duration positions housed in the Shared Services/Central Pool program area, and associated services and supplies costs. These include two positions in regional governance solutions and one position for West Coast Strategies. The second newly-established Lottery Funds expenditure limitation provides \$250,000 for Business, Innovation and Trade for an ongoing Economic Gardening services pilot project. Both of these Lottery Funds expenditure limitations are approved on a one-biennium basis, and will be phased out in the development of the Department's 2015-17 biennium current service level budget.

The bill includes several budget adjustments to allow expenditures of bond proceeds authorized for the Department by Senate Bill 5506 and Senate Bill 5533, and payment of the costs of issuing those bonds. The Other Funds expenditure limitation for the cost of issuing Article XI-Q bonds for the agency is reduced by \$115,000, and the Other Funds expenditure limitation for the cost of issuing lottery revenue bonds for the re-

capitalization of the Special Public Works Fund is reduced by \$132,221 from the levels approved in House Bill 5028, the Department's budget bill. These adjustments will provide expenditure limitation of \$120,000 for the cost of issuing the Article XI-Q bonds, and \$258,580 for the cost of issuing the lottery revenue bonds. These costs will be funded from bond proceeds.

The Subcommittee increased the Other Funds expenditure limitation for the seismic rehabilitation grant program by \$30,000,000 to permit expenditure of bond proceeds approved for that program. Finally, the Subcommittee increased the agency's Nonlimited Other Funds expenditures in the Infrastructure Finance Authority by \$12,000,000 for expenditure of lottery revenue bond proceeds transferred to the Special Public Works Fund. Loan award expenditures from the Special Public Works Fund are not limited in the Department's budget.

Housing and Community Services Department

The Subcommittee approved Other Funds expenditure limitation to enable the Department to expend \$5 million in bond proceeds and \$76,190 for cost of issuance for preservation of existing affordable housing. The funds will help provide financing for the acquisition of affordable housing properties with expiring subsidies from owners who do not wish to renew their federal contracts; the properties will be acquired by new owners who commit to keeping them affordable to low-income Oregonians, rather than having the units convert to market-rate housing. The proceeds are anticipated to provide gap financing to preserve an estimated 200 units of affordable housing. The bonds are included in Senate Bill 5533.

The bill includes \$225,000 General Fund for one-time funding for the Oregon Hunger Response Fund for the first year of the biennium. An additional \$225,000 General Fund is included as a special purpose appropriation to the Emergency Board.

Department of Veterans' Affairs

Expenditure limitation is provided to the Oregon Department of Veterans' Affairs for cost of issuance in the amount of \$65,000 Other Funds, and a General Fund appropriation for debt service in the amount of \$502,814, related to the issuance of \$4 million in Article XI-Q bonds for completion of construction of a second Veterans' Home skilled nursing facility in Linn County. Other and Federal Funds Capital Construction expenditure limitation to spend the Article XI-Q bonds and federal matching funds from the U.S. Department of Veterans' Affairs is included in Senate Bill 5507.

A one-time General Fund appropriation of \$350,000 is made to the Oregon Department of Veterans' Affairs for veterans' suicide prevention and crisis intervention telephone counseling services, allocated pursuant to the following budget note:

Budget Note:

The Oregon Department of Veterans' Affairs shall establish a veterans' crisis suicide line that offers free, anonymous assistance, 24 hours a day, to active-duty service members, veterans and their families. The Department shall establish an RFP process for the line to contract with a provider that has a contractual affiliation with the National Suicide Prevention Line and the National Veteran's Crisis Line, and has capacity to answer at least 30,000 veteran or suicide calls per year. The Department shall establish the line within 90 days of passage.

EDUCATION

Department of Education

The State School Fund is adjusted in this bill to reflect a rebalance of statewide resources, decreasing General Fund and increasing Lottery Funds expenditure limitation by \$12,826,545.

The Other Funds expenditure limitation of the Department of Education for the Grant-in-Aid budget unit is increased by \$11,341,084 and the Other Funds expenditure limitation for the Operations unit of the Department of Education is increased by \$658,916 for increased resources for the Network of Quality Teaching and Learning. The funding is contingent on the increased distribution of up to \$12 million from the Common School Fund over and above the standard distribution according to the policy adopted by the State Land Board on April 14, 2009. The increased resources for the Network will be used for grants, contracts and other assistance distributed to school districts, education service districts, and other entities as well as for agency staffing and associated costs for the following components of the Network: (1) \$2.6 million for Educator Effectiveness, (2) \$1.2 million for Student Centered Learning, (3) \$500,000 for Educator Preparation, (4) \$1.0 million for Closing the Achievement Gap, (5) \$2.2 million for Aligning Professional Development Plans to School Improvement Objectives and Educators' Needs, and (6) \$4.5 million for Supporting Implementation of Common Core Standards. Three new limited duration positions are established (two Education Program Specialist 2 and a Program Analyst 4) and the FTE is increased on two other Program Analyst 4 positions for a total FTE increase of 3.38 FTE. This \$12 million increase is a one-time increase for only the 2013-15 biennium.

The Subcommittee approved an increase of \$2.0 million General Fund in the amount appropriated for the strategic initiatives in the grant-in-aid budget unit. These additional funds are for an increase in resources for the Seamless Transitions policy package (package 305) for collaboration or consortiums of post-secondary institutions and school districts to increase the award of college or community college credits for high school students. The combined funding of this \$2.0 million and the \$2.0 million appropriated for this purpose in Senate Bill 5518, is to be used to support the Eastern Promise consortium and the expansion of consortiums into other regions of the state.

The bill includes \$1.5 million General Fund for Student Achievement Improvement Grants established in House Bill 2322. The Department of Education is to award at least two grants per congressional district to schools considered high poverty under Title I of the federal Elementary and Secondary Act, serving students in grades Kindergarten to 8th grade that are in the bottom five percent of all schools based on the rating system used by the Department for academic performance. The funds are to be used to hire at least one licensed teacher at the school. The grant program is only authorized for the 2013-15 biennium.

The following budget notes were approved:

Budget Note:

The Oregon Department of Education is instructed to report to the Interim Joint Committee on Ways and Means before January 1, 2014 on progress on implementing its 2013-15 strategic plan. This first report is to be a baseline for future reports to the Legislature for measuring the success of transforming the agency to focus more on assisting and collaborating with educational partners, closing the achievement gaps, and being more "results-focused." The report should include the following:

1. A breakdown of the agency's education programs and services with a description of each program and service, including overall purpose, description of federal or state laws or rule that govern the program, target group served, overall funding by fund type, amount of program funding, amount of staff resources dedicated to the program based on FTE, amount spent on administrative costs at the state level, and description of measurements use to gauge the performance of the program or service.
2. Actions taken by the agency in the past six months to become more collaborative with partners and to improve customer service.
3. Actions taken by the agency in the past six months to increase the share of funding the agency receives that is passed through to educational partners.
4. Comparison of the staffing levels and operations of the Oregon Department of Education with education agencies in other states with similar missions and responsibilities.
5. Description of changes in the overall measures and metrics established by the agency as part of it strategic plan development.

The Department will consult with the Legislative Fiscal Office in determining the level of detail included in item #1 above and how specific the program level that should be in the report to the Legislature. In addition to the report due by January 1, 2014, the Department is instructed to provide updated information on the items above during the budget presentation to the Joint Committee on Ways and Means during the 2015 Legislative Session.

Budget Note:

The Department of Education shall not purchase or acquire the interim item bank and related assessments from Smarter Balance Assessment Consortium. The Department shall provide each district with available funds to administer a locally selected and established interim growth assessment system for students in grades Kindergarten through ninth that is capable of informing instruction and measuring student academic performance against a stable scale irrespective of grade level.

The Subcommittee approved an increase of \$500,000 General Fund for the Farm to School program described in ORS 336.431. This program enables schools to offer fresh, locally sourced products and to promote mutually beneficial educational activities and focus on children's long-term health habits. In addition, Federal Funds expenditure limitation for early learning programs was increased by \$1.0 million to reflect a larger carry-forward of child care related funds from 2011-13.

Department of Community Colleges and Workforce Development

A specific Other Funds expenditure limitation for debt service for Article XI-G bonds is established in the amount of \$307,051 for the Department of Community Colleges and Workforce Development. A corresponding reduction in another Other Funds expenditure limitation for the Department is made for a net change of zero across the entire agency.

Oregon Health and Science University

House Bill 5008 includes a General Fund appropriation of \$1,000,000 through the Department of Administrative Services, for the Primary Health Care Loan Forgiveness Program in the Office of Rural Health at the Oregon Health and Science University. This program provides loans to eligible primary care practitioners enrolled in an approved rural-specific Oregon training Program, and was established in 2011. This provides additional funding for the 2013-15 biennium.

Higher Education Coordinating Commission

The Subcommittee approved an increase of \$859,630 General Fund for the budget for the Higher Education Coordinating Commission (HECC) to reflect the added responsibilities of House Bill 3120 and Senate Bill 270. Both of these bills are related to post-secondary education governance. This funding is in addition to the amount already included in House Bill 5033, the budget bill for the HECC. This funding will be used to fund six permanent positions (3.69 FTE) – a manger, two Operations/Policy Analyst 4 positions, two Education Program Specialist 2 positions, and one Procurement and Contract Specialist 3 position. The manager position is budgeted to start in October of 2013 with the remaining positions to start in April 2014. The following budget note was approved:

Budget Note:

Prior to final adoption of any significant change to the distribution of the Community College Support Fund, the Higher Education Coordinating Commission is directed to consult with the appropriate legislative committees including the interim policy committees with jurisdiction on post-secondary education issues and the interim Joint Committee on Ways and Means or Emergency Board on the proposed distribution change.

Oregon University System

The Subcommittee increased the General Fund appropriation for public university support by \$15,000,000 with direction that the money be used to reduce resident undergraduate tuition increases at the state's seven public universities. The Subcommittee adopted the following budget note to limit tuition increases on resident undergraduate students:

Budget Note:

In adopting the budget for the Oregon University System, the Legislature intends that increases in the base rates for tuition paid by resident undergraduate students on all seven campuses and one branch campus (EOU, OIT, OSU, OSU-Cascades, PSU, SOU, UO and WOU) may not exceed an average of 3.5% at any individual campus in any given year of the 2013-15 biennium. For students choosing the Tuition Promise program at WOU, rates of increase over the prior cohort may not exceed 5.7% in any given year. These limits on tuition shall apply to all seven campuses and one branch campus for the next two academic years (2013-14 and 2014-15) regardless of the outcome of any governance changes that may be implemented during the biennium.

House Bill 5008 includes General Fund appropriations to the Oregon University System (OUS) State Programs budget unit for the following purposes:

- \$1,200,000 to expand fermentation science programs at Oregon State University.
- \$250,000 one-time appropriation to Oregon State University for technical assistance to help shellfish hatchery larval production affected by ocean acidification and assist with the maintenance of OSU's Mollusca Brood Stock Program with the intent to produce larval strains more resilient to the adverse effects of ocean acidification.
- \$80,000 to increase the base funding for the Labor Education and Research Center at the University of Oregon.

The Subcommittee adopted the following budget note related to public university support of State Programs with non-state funding:

Budget Note:

It is the expectation of the Legislature that university support for State Programs housed within the Oregon University System be maintained or increased in the same manner as other university programs during the 2013-15 biennium.

The Subcommittee also approved a decrease of \$856,000 General Fund from the budget for the Oregon University System to reflect the shifting of various responsibilities in House Bill 3120 and Senate Bill 270 from the Chancellor's Office (CO) to the Higher Education Coordinating Commission (HECC). Both of these bills are related to post-secondary education governance. This reduction related to transfer of duties from CO to HECC rolls-up to a \$1,200,000 General Fund reduction in the 2015-17 biennium.

HUMAN SERVICES

Oregon Health Authority

The Subcommittee added \$1,360,000 General Fund to the Oregon Health Authority for the following purposes:

- \$200,000 General Fund for providing fresh Oregon-grown fruits, vegetables and cut herbs from farmers' markets and roadside stands to eligible low-income seniors under the Senior Farm Direct Nutrition Program. Another \$100,000 General Fund was added for the same purpose for eligible individuals through the Women, Infants and Children Program.
- \$260,000 General Fund to increase reimbursements for ambulance transport services.
- \$200,000 General Fund for the Oregon State Hospital to contract for legal services from the Marion County District Attorney, to address the issue of chronically violent patients at the hospital.
- \$700,000 General Fund for breast and cervical cancer screening services. Of this total, about \$400,000 is needed to backfill funding shortfalls in the first year of the biennium related to reductions in funding from the Komen Foundation, as well as reductions resulting from federal sequestration.

The transfer of \$100,000 General Fund from the CCare program to the Oregon Vasectomy Project was approved. This will supplement the project's \$10,000 Title X federal funds.

The Subcommittee approved additional rate increases for the Alcohol and Drug system in Addictions and Mental Health (AMH). A total of \$800,000 General Fund will be used to provide a 2.4% rate increase effective July 1, 2013, and another \$1.4 million General Fund will be used to increase the room and board rate for youth residential beds from \$60 per day to \$90 per day effective July 1, 2013. (The agency's regular budget bill, House Bill 5030, already increases those rates from \$30 per day to \$60 per day.) The funding for these changes comes from two sources: \$1.7 million from the "reinvested" dollars in the AMH budget, resulting from dollars freed up as more clients will have insurance beginning January 2014, and \$500,000 General Fund from the Intensive Treatment and Recovery Services (ITRS) program. With the Affordable Care Act expansion, many of the ITRS clients will have insurance, and less General Fund will be needed to maintain the program level.

ITRS is reduced an additional \$3.3 million General Fund, and this funding is placed in a special purpose appropriation in the Emergency Board, to be available for rate increases in the adult residential system for alcohol and drug treatment for the second year of the biennium. As documented in the budget report for House Bill 5030, the agency will do a study of both the youth and adult systems and report to the 2014 Legislature. Based on the findings of that study, some or all of this special purpose appropriation could be allocated at that time. The Legislature could also decide to reduce the youth rate based on the results of that study.

House Bill 5030, the budget bill for the Oregon Health Authority, eliminated all Other Funds Nonlimited authority for the Public Employees' Benefit Board and the Oregon Educators Benefit Board, and instead moved all expenditure limitation to Other Funds Limited. This bill reverses that, resulting in a decrease in Other Funds Limited of \$3.2 billion and an increase in Other Funds Nonlimited of the same amount.

The following budget notes related to the Oregon State Hospital and the Blue Mountain Recovery Center were approved:

Budget Note:

The Oregon Health Authority shall report to the interim Joint Committee on Ways and Means or the Emergency Board by December 2013 on recommendations for decreasing the use of overtime and improving patient and staff safety at the Oregon State Hospital.

In order to make recommendations, the Oregon State Hospital will form a work group that will include representation from some of the major classifications of employees, particularly those providing direct care of patients, such as psychologists, psychiatrists, registered nurses, mental health therapists, mental health therapy technicians, mental health security technicians, and managers.

The report should include the following:

- Data on overtime hours worked and costs over the last 12 to 18 months, as well as the reasons for the use of this overtime. Details on mandated overtime should be reported.
- Data on the numbers and types of assaults on patients and staff over the last 12 to 18 months, as well as the costs, both direct and indirect, associated with those assaults. The report should also contain information on the concentration of those assaults involving a small number of individuals.
- Recommendations for reducing overtime and reducing assaults, and the status of implementing those recommendations. The report should include, but not be limited to, recommendations related to the float (relief) pool, such as the appropriate mix of permanent full-time, permanent part-time, limited duration, and temporary positions. The report should also consider recommendations for working with the Marion County District Attorney to address issues related to chronically violent patients.

Budget Note:

The Oregon Health Authority shall report to the appropriate legislative committee in September and December on the planning for the transfer of patients from the Blue Mountain Recovery Center (BMRC) pending its closure on January 1, 2014. Additionally, the Oregon Health Authority shall convene a workgroup comprised of the appropriate representatives of the various stakeholder groups, to identify future options for BMRC staff and facilities. The workgroup will have the following charge:

- (1) To identify needed services for Eastern Oregon's most vulnerable people, including those with:
 - (a) acute and chronic mental illness who require special services to enable them to successfully function in society;

- (b) substance abuse and subsequent involvement with the criminal justice system; and
- (c) mental illness and additional complications arising from age-related conditions.

- (2) To advise the legislature and the Oregon Health Authority on strategies to best retain the existing specialized mental health workforce in the region; and
- (3) To advise the legislature and the Oregon Health Authority on the best utilization of the current facilities and identify additional capital improvements to provide the above-identified services.

Department of Human Services

The Subcommittee added \$5 million General Fund and \$9.7 million Federal Funds expenditure limitation (\$14.7 total funds) to the Aging and People with Disabilities budget for the following purposes:

- \$1,300,000 General Fund and \$2,900,000 Federal Funds limitation to advance the implementation date for home and community based care rate increases from October 1, 2013 to July 1, 2013. Rates have been flat since July 2008 and were increased as part of the Department's budget as approved in Senate Bill 5529.
- \$2,500,000 General Fund and \$5,600,000 Federal Funds limitation to partially restore the instrumental activities of daily living (IADL) reduction that occurred in January 2012. Using available funding, the Department will develop and implement a plan to restore hours to the maximum extent possible. The plan may include a phased-in restoration as the Department conducts eligibility re-assessments for consumers served in long term care programs.
- \$700,000 General Fund to augment \$1.6 million General Fund already approved to support projects (innovations and pilots) to develop new approaches to long term care services. The additional amount includes \$350,000 General Fund for a grant to the Neighborhood Housing and Care Program, which is implementing a model for serving people living with HIV/AIDS in their homes. The average age and acuity of these individuals is growing along with the baby boomer population.
- \$500,000 General Fund and \$1,200,000 Federal Funds limitation to help cover Homecare Worker compensation costs associated with nurse delegation duties.

The 2013-15 budget approved for the Department of Human Services (DHS) in Senate Bill 5529 continued some reductions in developmental disability program budgets for community programs and brokerages. These reductions left equity (parity) relative to state office costs at levels ranging from 85% to 95%, depending on the budget component (e.g., case management and brokerage options). After completion of the DHS budget in Senate Bill 5529, DHS discovered that, within the budgeted funding level for these programs and with some updated assumptions in the budget model, equity for both programs could be brought up to 94% across all components. The Subcommittee approved the Department's plan to realign the budgets for the programs and implement the revised parity level. DHS is currently developing workload-based models for both programs and plans to build those models into the agency's 2015-17 budget proposal.

The Subcommittee added \$1,000,000 Other Funds expenditure limitation for the Employment Related Day Care (ERDC) program to help cover child care provider rate increases while providing subsidies to as many employed parents as possible. This funding is currently available due to lower than expected 2011-13 utilization of federal Child Care Development Fund dollars by the Child Care Division; General Fund may be needed in future biennia to cover these expenditures.

Long Term Care Ombudsman

The Subcommittee added \$585,488 General Fund and seven permanent positions (2.81 FTE) to support work under Senate Bill 626, which expands duties of the Long Term Care Ombudsman to advocate for residents of care facilities who have mental illness or developmental disabilities. There are about 7,600 persons living in 1,816 licensed adult foster homes and group homes in Oregon serving persons with developmental disabilities and mental illness.

To provide the subject matter expertise needed to develop and refine the expanded program, the agency would add one permanent full-time Program Analyst 4 position. Five full-time deputy ombudsman positions (Program Analyst 2 classification) would ultimately be needed to work with approximately 125 new volunteers. Consistent with an expected gradual ramp-up for the new program, four of these positions would be phased in over the last 12 months of the 2013-15 biennium, with the fifth position phased-in at the start of the 2015-17 biennium. A half-time volunteer recruiter position (Program Analyst 1) would also be required to develop and maintain volunteer ranks and an Administrative Specialist would help support the new program, staff, volunteers, and an expanded advisory committee.

In addition, to help the agency better serve its existing clients, the Subcommittee increased the agency's budget by \$200,000 General Fund, which covers salary and other costs associated with adding one full-time deputy ombudsman position (1.00 FTE). This position will supervise 25 to 30 additional volunteers, increasing facility coverage (visits) with an emphasis on adult foster homes.

JUDICIAL BRANCH

Judicial Department

The Subcommittee increased the General Fund appropriation for judicial compensation by \$634,980, to finance a second salary increase for judges during the 2013-15 biennium. Judicial salaries are established by statute. House Bill 2322 increases the salaries of judges by \$5,000 per year beginning January 1, 2014, and by an additional \$5,000 per year beginning January 1, 2015. The 2013-15 biennium cost of the House Bill 2322 salary increases totals \$2,539,916. House Bill 5016, the budget bill for the Judicial Department, includes \$1,934,859 General Fund to fund the first \$5,000 salary increase. The General Fund increase included in this bill provides the additional funds needed to pay the second \$5,000 salary increase for the six months that it will be in effect in the 2013-15 biennium.

An Other Funds expenditure limitation increase of \$335,000 was approved for operations, for costs of issuing Article XI-Q bonds to finance a \$4.4 million capital construction project to renovate the exterior of the Supreme Court Building, and to finance a \$15 million grant to support development of a new courthouse for the Multnomah County Circuit Court in Portland. The cost of issuing the bonds will be financed from the proceeds of the bonds.

The Subcommittee also established a \$1 Other Funds expenditure limitation for the Oregon Courthouse Capital Construction and Improvement Fund. This newly-established Fund will hold Article XI-Q bond proceeds and county matching funds, and will be used to fund the purchase, remodeling or construction of courthouses owned or operated by the State. Senate Bill 5506 authorizes \$15 million of Article XI-Q bond proceeds that would be deposited into this Fund. The Legislative Assembly or the Emergency Board must increase the \$1 expenditure limitation, before bond proceeds and county matching funds could be distributed to the county for a construction project.

The Subcommittee reduced the Other Funds expenditure limitation on expenditures of Article XI-Q bond proceeds for Oregon eCourt by \$190,767, to correct an error in House Bill 5016, the Judicial Department's budget bill.

Public Defense Services Commission

The Subcommittee increased the General Fund appropriation for Professional Services by \$2,409,367. This increase includes three components:

- General Fund is increased \$2,400,000 to reduce trial-level juvenile dependency caseloads and improve the quality of legal services in juvenile dependency and termination of parental rights cases. The approved funding level will support an approximate 4.5% average reduction in the caseloads of attorneys providing these services, however, the agency may choose to distribute available funds on a pilot project basis. The agency will make caseload reductions conditional upon agreement to implement established best practices, and will evaluate the impacts of the caseload reductions.
- General Fund is increased \$864,567 to increase compensation paid to public defender contractors, hourly-paid attorneys, and hourly-paid investigators. The funds provided by this action will be added to the \$2,135,433 General Fund appropriated to the Commission for this same purpose in House Bill 5041, to provide a total of \$3,000,000 for compensation increases. From the \$3,000,000 available, the agency is to allocate \$2,329,729 to reduce the average salary differential between public defender salaries and district attorney salaries, allocate \$218,141 to increase the compensation rates for hourly-paid attorneys, and allocate \$452,130 to increase the compensation rates for hourly-paid investigators.
- General Fund is reduced \$855,200 as a result of passage of Senate Bill 40, which reduces crimes for the unlawful manufacture and possession of marijuana and marijuana products. The fiscal impact of these actions will reduce costs to the Commission by this amount.

LEGISLATIVE BRANCH

Legislative Administration Committee

The Legislative Administration Committee has increased expenditures related to the Capitol Master Plan project. The bill establishes an Other Funds limitation of \$615,000 for the cost of issuance of Article XI-Q bonds for the project. It also includes a General Fund appropriation of \$1,421,341 for the debt service on the bonds issued for the 2013-15 biennium. Expenditure limitation for the project costs are provided in SB 5507 (the capital construction bill).

Legislative Fiscal Officer

House Bill 5008 establishes an Other Funds account called the Legislative Fiscal Office Operating Fund.

NATURAL RESOURCES

State Department of Agriculture

The bill adds \$34,060 General Fund to increase special payments to USDA-APHIS-Wildlife Services for predator control activities. \$65,940 General Fund was also added to the Department of Fish and Wildlife for the same purpose. With these increases, state-support in both

departments for predator control activities will be equalized at \$415,889 for the 2013-15 biennium. The Subcommittee added the following budget note related to this increase:

Budget Note:

The Department of Fish and Wildlife and the Department of Agriculture shall, using information provided by USDA-APHIS-Wildlife Services, report to the appropriate subcommittee of the Joint Committee on Ways and Means during the 2015 Regular Session on wildlife conflicts responded to by Wildlife Services agents by species, resource type, and methods used to address the conflict, summarized by county.

The Subcommittee reduced Lottery Funds by \$21,380 to reflect the ending of the County Fair Commission, for which the Department had received funding for minimal administrative support. The moneys will now instead be added to the Lottery Funds support for County Fair payments by the Department of Administrative Services.

Columbia River Gorge Commission

The budget for the Columbia River Gorge Commission was reduced by \$79,873 General Fund to match the lower appropriation made by the State of Washington for Columbia River Gorge Commission activities.

State Department of Energy

House Bill 5008 increases the Department's Other Funds expenditure limitation by \$9,876,190 for home energy efficiency programs that will further the Ten Year Energy Plan goal of meeting new electric energy load growth through energy efficiency and conservation. This expenditure limitation includes \$76,190 for cost of issuance associated with \$5 million in Lottery Bond proceeds, as well as \$4.8 million in unexpended public purpose charge single family weatherization funding transferred from the Housing and Community Services Department in House Bill 2322.

The bill clarifies the use of Lottery Funds by the Department of Energy, to be consistent with the agency's adopted budget.

Department of Environmental Quality

House Bill 5008 removes \$17,140,248 Other Funds expenditure limitation for debt service payments mistakenly added in Senate Bill 5520. This subsection of Senate Bill 5520, the budget bill for the Department of Environmental Quality, is not necessary because the agency was also provided nonlimited Other Funds authority to pay debt service costs during the 2013-15 biennium in the same bill. This adjustment will prevent authorized Other Fund debt service payments from being erroneously doubled counted in 2013-15.

Department of Land Conservation and Development

The Subcommittee approved \$116,000 General Fund to supplement grant funding for the Southern Oregon Regional Land Use Pilot Program. The bill also includes \$80,000 General Fund for a grant to the Columbia River Gorge Commission for continuation of work on urban planning issues inside the Oregon portion of the National Scenic Area in the Columbia River Gorge. In addition, a reduction of \$35,000 General Fund in the Planning Program was approved because rulemaking will not be required to implement provisions of House Bill 2202 to mining on land zoned for exclusive farm use.

State Department of Fish and Wildlife

The Subcommittee added a one-time \$50,000 General Fund appropriation as state match for a study on the effects of cormorant predation on listed salmonids. The state support will be matched with \$150,000 Federal Funds to hire seasonal positions to conduct population surveys, conduct diet studies to help verify the extent of salmonid predations, and assist in on-going hazing efforts.

The bill also adds \$65,940 General Fund to increase special payments to USDA-APHIS-Wildlife Services for predator control activities. \$34,060 General Fund was also added to the Department of Agriculture for the same purpose. With these increases, state-support in both departments for predator control activities will be equalized at \$415,889 General Fund for the 2013-15 biennium. The Subcommittee added the following budget note for both agencies:

Budget Note:

The Department of Fish and Wildlife and the Department of Agriculture shall, using information provided by USDA-APHIS-Wildlife Services, report to the appropriate subcommittee of the Joint Committee on Ways and Means during the 2015 Regular Session on wildlife conflicts responded to by Wildlife Services agents by species, resource type, and methods used to address the conflict, summarized by county.

State Forestry Department

The Department has received a pre-award notice from the U.S. Department of Agriculture regarding the availability of \$3 million of federal legacy dollars to be applied to the Gilchrist Forest acquisition. Limitation in that amount is added for the 2013-15 biennium. The total amount includes \$600,000 for recently-available infill acreage.

To cover the expense of bond issuance for the Gilchrist Forest purchase and the East Lane construction, the Subcommittee increased Other Funds expenditure limitation by \$120,000.

The Department is directed to use up to \$200,000 of the Forest Revenue CSF account to supplement Policy Package 486, SB 5521 (2013), for the same purposes as Package 486. Package 486 provided \$250,000 Other Funds expenditure limitation to meet statutory requirements for forest research and monitoring on the Elliott State Forest.

The following budget note was approved for the State Forestry Department:

Budget Note:

Senate Bill 5521 (2013) provided \$2,885,000 Lottery Funds limitation to the Department of Forestry for the Governor's dry-side forest health collaboration effort for a new business model to improve federal forest project management and technical and scientific support. In administering the funding, the department is authorized to also consider a small grant program and a limited duration liaison position, from the \$2,885,000, at the department's discretion. The small grants are to be administered by the Oregon Watershed Enhancement Board using the Board's existing expenditure limitation. The position, if created, is to be the state's point of contact for the US Forest Service, congressional delegation, local forest collaborative groups, and the state Legislative Assembly.

The Department is directed to report to the Legislature in February 2014 on specific plans, expected outcomes, progress, and the amount of federal funding and support provided to the collaboration.

Parks and Recreation Department

Other Funds expenditure limitation is increased by \$5,000,000 for lottery bond proceeds designated to be passed through to a local recipient for the Willamette Falls project. In addition, the limitation is increased by \$69,882 for cost of issuance expenses. There is no debt service in the 2013-15 biennium as the bonds will not be sold until the spring of 2015. Debt service in 2015-17 is \$0.9 million Lottery Funds.

Department of State Lands

House Bill 5008 increases the Department's Other Funds expenditure limitation by \$307,360. This is for unspent limitation associated with the conversion of 960 open rangeland acres currently leased for livestock grazing. The acreage will be converted to about 620 acres of irrigated agriculture land. The expenditure limitation was authorized by the Emergency Board in May, 2012. Due diligence review and determination of wetlands, required before undertaking the conversion, has taken longer than expected. After the final wetlands determination report in July 2013, the agency can move ahead to complete the project.

The Subcommittee increased the Federal Funds expenditure limitation in anticipation of two Environmental Protection Agency grants to develop scientifically based tools for functions-based, watershed-scale approach to wetlands mitigation in Oregon. The Department expects final notification on the grants in September 2013. The total amount is \$135,000. The Department of Administrative Services (DAS) is requested to unschedule the limitation until such time as State Lands notifies DAS and the Legislative Fiscal Office that the funds are awarded.

Water Resources Department

The Subcommittee approved \$10,242,513 Other Funds expenditure limitation from bond proceed resources for water supply projects including, but not limited to, statewide piping and lining open, rock or dirt-lined irrigation canal projects; implementation/completion of the Umatilla Basin Aquifer Recovery Project, repairing the Dam at Wallowa Lake and constructing a new reservoir in Juniper Canyon; the Willamette Basin Long-Term Water Allocation Study; the Deschutes Basin Study; and development of above and below ground water storage projects with partners in Oregon, Washington State, and Canada.

PUBLIC SAFETY

Department of Corrections

If House Bill 3194 becomes law, the operational budget for the Department of Corrections (DOC), excluding Community Corrections, is reduced by \$19.7 million General Fund and 197 positions (65.31 FTE). This reduction eliminates most of the mandated caseload estimate included in House Bill 5005, and reflects a decrease in projected bed utilization of approximately 700 in 2013-15 from the April 2013 corrections forecast. Although the operational budget is decreased overall, the Department did receive \$168,302 General Fund and 0.79 FTE to support the transitional leave program requirements in House Bill 3194.

The Subcommittee made several modifications to DOC's Community Corrections budget. First, \$9 million General Fund was approved to enhance baseline funding for community corrections programs. Further, if House Bill 3194 becomes law, baseline funding is increased to total

\$215 million, or an additional \$8.09 million General Fund. At \$215 million, the Community Corrections baseline would be \$33 million, or 18%, above the 2011-13 legislatively approved budget. Also, conditional on passage of House Bill 3194, \$5 million General Fund was approved for jail support. DOC will distribute these dollars to counties based on each county's proportion of the baseline funding formula.

The following budget note was approved:

Budget Note:

As in the 2011-13 legislatively approved budget, the Department of Corrections is instructed to address the level of unspecified reductions in its budget without closure of existing facilities and without use of layoffs to reach the reduction goal. A report on what steps may be needed to reach reduction goals will be presented to the Joint Committee on Ways and Means during the February, 2014 legislative session.

Criminal Justice Commission

House Bill 3194 creates the Justice Reinvestment Account (Account) to support grants to counties for programs to reduce recidivism and decrease utilization of state prison capacity. However, the bill itself does not establish a funding level. The Subcommittee approved \$10 million General Fund for the Account with the understanding that an additional \$5 million would be approved during the February 2014 legislative session if the legislative assembly receives a 2013-15 General Fund forecast that is higher than the close of session forecast. This approval was made with the understanding that the Governor's Office will also direct the Criminal Justice Commission (CJC) to allocate \$5 million in federal funds from the 2012 and 2013 Byrne/Justice Assistance Grants for similar grants to counties. In the 2015-17 biennium, the current service level is expected to total \$20 million General Fund for the Account.

The Subcommittee also approved \$190,000 General Fund and the phase-in of one Program Analyst 4 (0.88 FTE) to support grant administration and the Task Force on Public Safety as authorized in House Bill 3194.

The following budget note was approved:

Budget Note:

CJC is directed to administer the Justice Reinvestment Program and Specialty Courts Grant Programs during 2013-2015 using General, Other and Federal Funds. CJC will work with the Justice Reinvestment Grant Review Committee and the Criminal Justice Commission to distribute and allocate these different funds in an efficient and effective manner. CJC will report back on the results of this work during the February 2014 legislative session.

Department of Justice

The Subcommittee approved an increase in Other Funds (Criminal Fine Account) expenditure limitation by \$700,000 to support an increased allocation to Child Abuse Multidisciplinary Intervention (CAMI). With this adjustment, CAMI would receive in total General Fund and Criminal Fine Account allocations, \$10.7 million or 9.9% increase over the 2011-13 legislatively approved budget.

An increase of \$1.8 million General Fund was approved for the Oregon Domestic and Sexual Violence Services Fund (ODSVS). If House Bill 3194 becomes law, an additional \$2.2 million General Fund, for a total of \$4 million, is approved. These adjustments augment the \$4.4 million General Fund authorized in House Bill 5018.

This bill includes a reduction in the Other Funds expenditure limitation for the Department of Justice's Civil Enforcement Division of \$471,040. During consideration of House Bill 5018, this amount was shifted from the Non-limited budget category. Upon further review, restitution and refund payments from the Protection and Education Revolving Account can correctly be categorized as Non-limited.

The Subcommittee approved the first phase of funding to replace the Child Support Enforcement Automated System (CSEAS). This approval included \$1.6 million General Fund for debt service on XI-Q Bonds authorized in Senate Bill 5506, \$14.1 million Other Funds expenditure limitation, and \$27.4 million Federal Funds. In total, the CSEA projected is estimated to cost \$109.4 million with federal funding supporting two-thirds of the project. The Subcommittee also approved the following budget note:

Budget Note:

The Department of Justice (DOJ) is directed to work with the Department of Administrative Services (DAS) in the development and implementation of the Child Support System Modernization project. DAS is to provide support to and collaborate with the DOJ in the information technology systems development lifecycle, procurement, quality assurance, and other support needed to successfully complete this project. DOJ and DAS are directed to report to the Legislative Fiscal Office at a minimum of every six months through the remainder of the biennium on the status of the project as well as provide copies of all Quality Assurance, Quality Control, and Independent Verification and Validation reports upon their receipt by the agency. DOJ is also to submit an update on the status of foundational project management documentation, including copies of completed documents, each accompanied by independent quality control review, to LFO by December 1, 2013.

The Subcommittee approved budget adjustments for an increase in the statutorily set salary for statewide elected officials as provided for in House Bill 2322. The statewide elected officials include the Governor, Secretary of State, State Treasurer, Attorney General, and the Commissioner of Labor and Industries. Each is to receive a salary increase of \$5,000 per year, beginning on January 1, 2014. The impact on the Department of Justice is an increase of \$9,174 Other Funds expenditure limitation, including other payroll expenses. Statewide elected officials last received a salary increase in July of 2009. Statutory Judgeships are also to receive a salary increase (see Judicial Branch program area narrative). The compensation for members of the Legislative Assembly remains unchanged.

The Subcommittee also authorized \$75,000 General Fund to support the Oregon Crime Victims Law Center. Further, the Defense of Criminal Conviction program was reduced by \$391,724 General Fund to reflect a smaller increase in mandated caseload.

Oregon Military Department

The Subcommittee appropriated \$275,000 of General Fund for the Oregon Local Disaster Assistance Loan and Grant Account under the Emergency Management program for possible loans or grants from the account. The Department will need to request Other Funds expenditure limitation from either the Legislature or the Emergency Board specific to a local disaster in order to expend funds from the Account.

The bill includes \$15,000 General Fund for the Oregon Youth Challenge program for the reimbursement of fuel costs of participating youths' parents or legal guardians who travel to the program to visit their children. The Oregon Youth Challenge program is to establish a reimbursement policy for such expenses and is to expend no more than the appropriation provided, unless federal matching funds are available for this purpose.

General Fund Debt Service of \$314,523 was approved to support repayment of Article XI-Q General Obligation bond approved in Senate Bill 5506 for the 2013-15 biennium (Sharff Hall – Portland and Roseburg Armory). The appropriation reflects a reduction of \$78,840 for General Fund Debt Service savings from previously issued bonds. The General Fund Debt Service for the 2015-17 biennium will total \$2.2 million and will include Debt Service costs for Sharff Hall, the Medford Armory, the Roseburg Armory, and the Baker City Readiness Center. The Subcommittee also approved \$237,345 Other Funds expenditure limitation for the cost of issuance for the four projects.

Oregon State Police

To address concerns for diminishing availability of public safety services in some Oregon counties, particularly in the areas of patrol and criminal investigations, the Subcommittee approved \$1.16 million General Fund and 10 trooper positions (2.50 FTE) within the Patrol Division, \$462,000 General Fund and four trooper positions (1.00 FTE) within the Criminal Division, \$1.47 million General Fund for forensic equipment and one Forensic Scientist (0.88 FTE), and \$300,000 General Fund to support contractual payments for medical examiner services in Southern Oregon.

Department of Public Safety Standards and Training

The Subcommittee approved \$1 million Other Funds (Criminal Fine Account) expenditure limitation and four Public Safety Training Specialist 2 positions (3.52 FTE) to support the Oregon Center for Policing Excellence.

Oregon Youth Authority

The General Fund appropriation for the East Multnomah County gang funding is increased by \$126,673 for extraordinary inflation associated with personnel costs. Total funding with this addition is \$1,833,428.

Because of savings in capital projects, Oregon Youth Authority is able to redirect unspent funds to debt service, eliminating the need for the same amount of General Fund. The Subcommittee approved establishing a new other Funds expenditure limitation for \$384,877 for debt service. The General Fund reduction is included in the omnibus adjustments.

TRANSPORTATION

Department of Transportation

Senate Bill 665 proposed moving the Statewide Interoperability Coordinator (SWIC) position and support for the Statewide Interoperability Executive Council from the Department of Transportation to the Department of Administrative Services. The bill was not heard. The agencies are instructed to complete planning for the transfer and report to the February 2014 Legislature on status of the federal FirstNet grant funding and how the SWIC's salary and other expenses will be paid. Two positions that were eliminated from the Department of Transportation's Highway Maintenance unit budget in anticipation of Senate Bill 665's passage are restored. They are a Project Manager 3 and an Operations and Policy Analyst 4. Other Funds expenditure limitation is increased by \$391,871 in Personal Services to support the positions.

House Bill 3137 permits an individual to submit to the Department of Transportation a voluntary odometer reading for a vehicle over ten years old as part of transfer of any interest in the motor vehicle. The measure has a fiscal impact to the Driver and Motor Vehicles Division. If the bill becomes law, it is understood that the Department may proceed with implementation if the National Highway Traffic Safety Administration odometer fraud grant in the same amount, for which the Department applied in May, 2013, is awarded. If the grant is not awarded and the Department can find no other funding to implement the measure, the Department may request funding from the Legislature in February 2014.

The Subcommittee approved an increase in Other Funds expenditure limitation in the Transportation Program Development section of \$42,000,000 in lottery bond proceeds for ConnectOregon V. In addition, the limitation is increased by \$691,683 for cost of issuance expenses. There is no debt service in the 2013-15 biennium as the bonds will not be sold until the spring of 2015. Debt service in 2015-17 is \$7.6 million Lottery Funds. The following direction was provided:

Budget Note:

In order to ensure Connect Oregon Funds are used efficiently and effectively, the department shall take steps to ensure that projects are delivered on time and on budget. Actions shall include, but not be limited to, the withholding of five percent of the moneys awarded. Of the amount withheld under this section, the department shall release to the recipient:

- (a) Eighty percent when the recipient has completed the project.
- (b) Twenty percent when the recipient has submitted and the department has accepted the final performance measure report as established by agreement between the department and the recipient. The department may not pay and the recipient forfeits the amount withheld under this paragraph if the recipient does not submit a final performance measure report before the due date in a manner that is acceptable to the department as established by the agreement between the department and the recipient. Additionally, if the recipient does not submit the performance measure report before the due date, the recipient may not apply for another performance grant during the next application cycle.

Public Transit Other Funds expenditure limitation is increased by \$3,500,000 lottery bond proceeds for the Salem Keizer Transit Center. In addition, the Other Funds limitation is increased by \$62,986 for cost of issuance expenses. There is no debt service in the 2013-15 biennium as the bonds will not be sold until the spring of 2015. Debt service in 2015-17 is \$0.6 million Lottery Funds.

General Fund debt service in Senate Bill 5544 for the Lane Transit EmX project is eliminated, for a reduction of \$757,944. Lottery Funds debt service for this borrowing will begin in the 2015-17 biennium.

Other Funds expenditure limitation is increased in the Rail Division by \$10,000,000 for lottery bond proceeds for Coos Bay Rail. In addition, the limitation is increased by \$239,248 for cost of issuance expenses. There is no debt service in the 2013-15 biennium as the bonds will not be sold until the spring of 2015. Debt service in 2015-17 is \$1.8 million Lottery Funds.

Adjustments to 2011-13 Budgets

Emergency Board

House Bill 5008 disappropriates \$50,447,306 General Fund from the Emergency Board. This represents all remaining appropriation in the Emergency Board for the 2011-13 biennium.

Oregon University System

The Subcommittee acted to align 2011-13 Other Funds expenditure limitations, adopted for the Oregon University System (OUS) before Senate Bill 242 (2011) was passed, with current budget reality, by removing a total of \$2,329,480,585 Other Fund limited and \$2,236,635,139 Other Funds non-limited authority approved by the Legislature during the 2011 Regular Session. With the passage of Senate Bill 242 (2011) the Oregon University System and its seven public universities were reorganized as non-state agencies. Part of this change involved removing OUS from being subject to Other Funds expenditure limitation by the Legislature.

Oregon Youth Authority

House Bill 5008 includes a supplemental General Fund appropriation of \$200,000 for operations.

Military Department

The Subcommittee disappropriated \$460,000 of General Fund for the Oregon Local Disaster Assistance Loan and Grant Account, which is in the Emergency Management program. There are currently no outstanding loan or grant requests for the account. The Subcommittee also disappropriated \$26,748 of General Fund Debt Service savings from the Capital Debt Service and Related Costs program.

Summary of Revenue Changes

House Bill 5101 appropriates additional General Fund and provides additional Other Funds expenditure limitation for revenue increases that were approved during the 2013 1st Special Session. The sources of these revenues are included in HB 3601.

Summary of Joint Committee on Special Session Action

House Bill 5101 is an omnibus budget reconciliation bill implementing actions needed to adjust legislatively adopted budgets due to the additional projected General Fund and Other Funds revenue provided to six agencies as part of an overall legislative plan for the 2013 1st Special Session.

Education Program Area

Department of Community Colleges and Workforce Development

The Committee approved an additional \$15 million General Fund for the Community College Support Fund for community college districts. This additional funding brings the total amount of General Fund appropriated for general purpose payments to Community Colleges to \$465 million and will be distributed to the 17 community colleges through the existing distribution mechanism. The Committee adopted the following budget note:

Budget Note

In adopting this appropriation for the Community College Support Fund for community college districts, the Legislature intends that the additional \$15 million will be distributed to the 17 community colleges to freeze or limit the increases in tuition and fees for the second year of the biennium to the extent possible given the amount of additional funding available.

Oregon Department of Education – State School Fund

An additional \$100 million is recommended for the State School Fund bringing the total General Fund appropriation for the 2013-15 biennium to \$6,322,625,891 and the total funds amount for the State School Fund to \$6,650,400,826. This additional \$100 million will be distributed to school districts and Education Service Districts (ESDs) through the statutorily established education distribution formula for the fiscal year beginning July 1, 2014 (second school year of the biennium).

In adopting this additional funding for the State School Fund, the Legislature intends that the \$100 million General Fund for the second school year of the biennium be used by school districts to hire additional teachers and/or other educational professionals in order to decrease class sizes and to add back days to the school year in order to increase instructional time for students.

Oregon University System

The Committee increased the General Fund appropriation for public university support by \$25,000,000 with direction that the money be used to reduce resident undergraduate tuition increases at the state's seven public universities. The Committee adopted the following budget note to limit tuition increases on resident undergraduate students:

Budget Note:

In adopting the additional funding for the Oregon University System, the Legislature intends that increases in the base rates per credit hour paid by resident undergraduate students for the Winter 2014 and Spring 2014 terms on all seven campuses and one branch campus (EOU, OIT, OSU, OSU-Cascades, PSU, SOU, UO, and WOU) may not exceed an average of 2%. For students choosing the Tuition Promise program at WOU, rates of increase over the prior cohort may not exceed 4.3% for the Winter and Spring 2014 terms. For the 2014-15 academic year, the Legislature intends that there be no increases in the base rates per credit hour paid by resident undergraduate students at all seven campuses and one branch campus (EOU, OIT, OSU, OSU-Cascades, PSU, SOU, UO, and WOU). For students choosing the Tuition Promise program at WOU, rates of increase over the prior cohort may not exceed 2.2% for the 2014-15 academic year.

Human Services Program Area

Department of Human Services

The Committee added a total of \$10 million General Fund to the Department of Human Services' (DHS) 2013-15 legislatively adopted budget for Oregon Project Independence (OPI), which brings program funding up to just under \$20 million General Fund and essentially doubles program capacity. OPI, which is entirely state-funded, helps seniors 60 years and over live independently and safely in their own homes by providing individualized personal care, housekeeping, and case management support. Program funding has either decreased or remained flat over the last three biennia, while costs associated with transportation, administration, and direct services increased during the same timeframe.

For future distribution to programs or activities supporting seniors, the Committee set aside \$26 million General Fund in a special purpose appropriation to the Emergency Board. Potential investments include augmenting services to seniors administered by local Area Agencies on Aging, backfilling Quality of Care Fund dollars, improving services for older adults with mental illness, and supporting efforts associated with

SB 21 (2013), which requires planning to improve and strengthen Oregon's publicly funded long term care system. Specific decisions regarding the programs or activities to be funded are anticipated to be made during the 2014 legislative session.

Oregon Health Authority

HB 3601 includes a graduated tax increase in the cigarette tax that is dedicated to funding community mental health services through the Oregon Health Authority. The increase is expected to provide at least \$20 million of revenue during the 2013-15 biennium for these programs.

The Committee added a total of \$10 million Other Funds expenditure limitation to the Oregon Health Authority's (OHA) 2013-15 legislatively adopted budget for the following investments in community mental health programs:

- \$5.8 million Other Funds expenditure limitation to fully fund the mental health system for children and young adults for 18 months of the biennium, consistent with the agency proposal for that investment during the 2013 legislative session. This investment is expected to include funding for school access to mental health, system of care and wraparound, parent child interaction therapy, young adult co-occurring disorder treatment, Oregon Psychiatric Access Line for Kids, and a youth sex trafficking program.
- \$4.2 million Other Funds expenditure limitation to provide additional community based, coordinated services to individuals in crisis with mental health and co-occurring mental health and substance abuse disorders, in order to avoid costlier levels of care such as hospitalization or the criminal justice system.

The remaining \$10 million of revenue will be available for additional investments in adult community mental health services later in the biennium, such as supported housing and peer delivered services. The decisions regarding the specific programs to be funded are anticipated to be made during the 2014 legislative session. The agency will review options to provide housing and related necessary support services for people with mental illness, including a rental assistance/support model, and a model to build additional housing using public-private partnerships, and will report on options and recommendations to the Joint Committee on Ways and Means during the 2014 legislative session.

The agency will provide an update on the program activities and outcomes realized with the additional funding, as part of the anticipated report on the implementation of the program investments in the community mental health system included in the 2013-15 adopted budget. That report is required by September 2014 per a budget note in HB 5030 (2013).

Transportation Program Area

Department of Transportation

The agency's 2013-15 legislatively adopted budget includes \$2 million General Fund for senior and disabled transportation. The program distributes funds to counties, transit districts, and tribes that provide transportation services for older adults and persons with disabilities. To help offset projected declines in program non-General Fund revenue sources (cigarette taxes and identification card fees) and to provide additional resources for the Department's Elderly and People with Disabilities Transportation Program, the Committee added \$5 million General Fund. The additional resources are expected to be used to maintain the existing system and improve services wherever possible. Funding should also allow communities to match federal resources to help support local projects. Potential projects include continuing the current Veterans' Transportation Pilot project which is only funded through June 2014, developing small volunteer transportation programs to supplement area services, and allowing contractors to operate more hours providing more riding opportunities per day.

Miscellaneous Program Area

Emergency Board

The Committee appropriated \$26 million General Fund to the Emergency Board, as a special purpose appropriation, for allocation to state agencies for senior services. Additional information regarding potential use of these dollars is in the DHS section of this budget report narrative.

Summary of Revenue Changes

The General Fund appropriations made in the bill are within resources available as projected in the February 2014 economic and revenue forecast by the Department of Administrative Services Office of Economic Analysis, supplemented by one-time savings identified in several agencies, as well as a transfer from Secretary of State's Corporate Division as authorized in House Bill 4157.

Summary of Capital Construction Subcommittee Action

House Bill 5201 is the omnibus budget reconciliation bill for the 2014 legislative session, implementing the statewide rebalance plan that addresses changes in projected revenues and expenditures since the close of the 2013 session. The Subcommittee approved House Bill 5201 with amendments to reflect budget adjustments as described below.

Statewide Adjustments

EMPLOYEE COMPENSATION DISTRIBUTION

The Subcommittee approved allocating \$86.5 million General Fund to state agencies for employee compensation. This amount is 100% of the General Fund special purpose appropriation to the Emergency Board, made by House Bill 5008 (2013) for employee compensation. Also approved were associated expenditure limitation increases of \$2.6 million Lottery Funds, \$84.7 million Other Funds, and \$44.2 million Federal Funds. The General Fund component is expected to cover about 90% of the statewide estimate of costs for compensation and benefit changes agreed to through collective bargaining or other salary agreements. Lottery Funds, Other Funds, and Federal Funds expenditure limitations are calculated at the full cost estimate level.

Section 105 of the budget bill reflects the employee compensation amounts approved for each agency; adjustments for agencies are not addressed in the agency narratives, although they are included in the table at the beginning of the budget report.

2% HOLDBACK

House Bill 5008 (2013) included a 2% supplemental ending balance holdback that was primarily applied to General Fund, and excluded debt service as well as selected programs. Agencies' 2013-15 legislatively adopted budgets were reduced by these amounts. With the current statewide economic conditions and revenue forecast, these budget reductions are being partially restored. Generally, 25% of the holdback is being restored to each affected agency, although there are a number of exceptions. Restorations include a total of \$68.3 million General Fund and \$0.3 million Lottery Funds. Section 104 of the budget bill reflects the restoration amounts for each agency. More detail is available in the narrative for each affected agency; agencies without General Fund or Lottery Funds in their budgets were not affected.

PACKAGE 091

Package 091 Statewide Administrative Savings is another 2013-15 adjustment affecting most agency budgets and captured in agency budget bills. The 2013 Legislature approved this package of \$62.0 million total funds in permanent reductions as a placeholder for administrative efficiencies.

The placeholder, which carried forward from the Governor's budget, was simply a pro rata calculation across personal services and services and supplies expenditures in administrative budget structures. The Department of Administrative Services (DAS) committed to work out reduction details with agencies and report to the Joint Committee on Ways and Means during the 2014 session. The areas targeted for reduction were finance, information technology, human resources, accounting, payroll, and procurement expenditures.

The legislative expectation was that DAS would present a statewide plan identifying specific efficiencies and realigning placeholder reductions, if needed. However, DAS did not come forward with a plan, but instead reported that efforts to realize the savings in Package 091 met with unexpected challenges. These include actual savings taking longer than one biennium to materialize and some ideas requiring up front investments that would offset any near term savings. Since DAS failed to deliver a plan, the Legislative Fiscal Office worked with state agencies and their DAS budget analysts to replace placeholders with specific reduction actions. For some agencies, the updated Package 091 will deviate from placeholder expenditure categories or appropriations; these changes are described in the individual agency narratives. Agency narratives, where applicable, will also identify position count and full-time equivalent (FTE) decreases.

Emergency Board

The Emergency Board allocates General Fund and provides Lottery Funds, Other Funds, and Federal Funds expenditure limitation to state agencies for unanticipated needs in approved agency budgets when the Legislature is not in session. As part of the 2013-15 biennium statewide rebalance plan, House Bill 5201 adjusts the Emergency Board's special purpose appropriations as described below:

- Eliminates a special purpose appropriation for state agencies of \$86.5 million, with corresponding General Fund appropriations to various state agencies for state employee compensation changes.
- Eliminates a special purpose appropriation for state agencies of \$12.9 million, with corresponding General Fund appropriations to the Department of Human Services (\$11,038,678) and the Oregon Health Authority (\$1,861,322) for compensation changes for home health care workers who are not state employees.
- Eliminates a special purpose appropriation for the Oregon Department of Education (ODE) of \$4.6 million, with a General Fund appropriation of \$4.4 million to ODE for assessments including those assessments required under the federal Elementary and Secondary Act and linked to Common Core Standards.
- Eliminates a special purpose appropriation for the Oregon Department of Education (ODE) of \$1,789,557, with a corresponding General Fund appropriation to the ODE for program funding for the second year of the biennium for youth development grants, performance-based contracts, and services at the local level.
- Eliminates multiple special purpose appropriations for the Housing and Community Services Department totaling \$9,215,066, with a General Fund appropriation of \$8,540,066 to the Housing and Community Services Department for second year operations, and an appropriation of \$225,000 to the agency for one-time supplemental funding to the Oregon Hunger Response Fund for fiscal year 2014.
- Eliminates a special purpose appropriation for the Oregon Health Authority of \$3.3 million, with a General Fund appropriation of \$2,942,895 to the Oregon Health Authority for adult residential rate increases within the alcohol and drug system.

- Eliminates a special purpose appropriation for the Oregon Health Authority of \$100,000, with a corresponding General Fund appropriation to the Oregon Health Authority for staffing needs related to the Dental Pilot Projects.
- Reduces the special purpose appropriation of \$26 million for seniors made by House Bill 5101 (2013 Special Session) to appropriate \$13,295,373 General Fund to programs benefitting seniors in multiple agencies, but primarily in the Department of Human Services.
- Establishes a \$24 million special purpose appropriation for the Oregon Health Authority or the Department of Human Services for caseload costs or other budget challenges that the agencies are unable to mitigate.
- Establishes a \$3.5 million special purpose appropriation to be allocated for future costs associated with higher education governance changes; including costs incurred by the Higher Education Coordinating Commission as duties and responsibilities are transferred from the Chancellor's Office to the Commission and for impacts on the budgets of the four technical and regional universities.
- Establishes a \$1.3 million special purpose appropriation to be allocated to the Judicial Department for Operations support. The Department may request funds to finance one-time operations investments and service increases.
- Establishes a \$700,000 special purpose appropriation to be allocated to the Judicial Department for third-party debt collection costs.

If remaining special purpose appropriations are not allocated by the Emergency Board before December 1, 2014, any remaining funds become available to the Emergency Board for general purposes.

The Subcommittee established a reservation within the general purpose Emergency Fund of \$350,000 for the Board of Parole and Post-Prison Supervision (BPPPS) for replacement of the Parole Board Management Information System (PBMIS). Allocation of the reservation is contingent upon the Board providing a project budget, project plan, and periodic status reports. BPPPS may request allocation of the reservation from the Emergency Board after the Legislative Fiscal Office approves the project budget and project plan.

A reservation was also established within the general purpose Emergency Fund of \$3.5 million for the Statewide Longitudinal Data System proposed by the Oregon Education Investment Board (OEIB), Oregon Department of Education (ODE), and the Higher Education Coordinating Commission (HECC). Prior to the release of this reservation, the agencies must meet the requirements of the budget note included in this bill for OEIB relating to completing a refined business case, development of a comprehensive set of foundational project management documents, and completion of an assessment of the foundational project management documents and a project risk assessment by an independent Quality Assurance contractor.

Adjustments to Agency Budgets

ADMINISTRATION

Department of Administrative Services

The Subcommittee approved an \$8,644,690 Other Funds expenditure limitation increase for Enterprise Technology Services (ETS) to begin a \$40 million technology equipment lifecycle replacement plan. Due to continued use of equipment past its useful life, the state is now experiencing unacceptable levels of technology service outages that impact state government operations. DAS estimates there is now more than \$40 million

worth of equipment and infrastructure past the 5 year useful life. DAS will enter into lease-to-own agreements to finance the equipment replacement. Existing ETS rates are estimated to be sufficient to generate enough revenue to pay the \$8,644,690 Other Funds needed for leases-to-own agreements that will be entered into this biennium. Use of this additional revenue will likely preclude DAS from lowering ETS rates mid-biennium as was being contemplated by the ETS Customer Utility Board. Use of existing rate revenue will avoid costs associated with borrowing the money internally, as was initially recommended by the Department. The \$8,644,690 Other Funds increase for 2013-15 rolls-up to \$18,743,503 in 2015-17 for the second phase of the equipment replacement plan. DAS plans to incorporate a depreciation factor in future ETS rates, which will allow the state to accommodate lifecycle replacement costs on an ongoing basis. The Subcommittee also approved a \$5,121,497 Other Funds expenditure limitation increase and the establishment of 19 positions (10.22 FTE) for ETS to meet the increasing demand for technology services from state and local governments, including implementation of IT projects approved in 2013-15 adopted budgets.

The Subcommittee adopted the following budget note to ensure proper oversight of state information technology assets and projects:

Budget Note:

The Oregon Department of Administrative Services (DAS), working with the State CIO, shall produce a comprehensive inventory report of all current information technology (IT) assets as required under current law with a special emphasis on the planned replacement or modernization status of information systems in use by all executive branch agencies. This inventory report shall include, but not be limited to:

- Agency name, Information System (Application) name, Agency Program owner, and business purpose of the Information System
- Age, Date of last upgrade, and planned changes/enhancements/retirement for the Information System (Application) in the future

In addition, DAS and the State CIO shall produce a comprehensive report of all IT projects underway in the 2013-15 biennium or planned for the 2015-17 biennium. The IT project report shall include, but not be limited to:

- Agency name, project title/name, project description, estimated budget (for all biennia), estimated start and completion date.

Both the IT inventory and project reports shall include:

- A narrative explanation of the methods, assumptions and tools used and any challenges DAS or the State CIO faced in collecting IT asset and/or IT project information;
- A narrative description of any statutory, rule or policy changes or resource allocations DAS or the State CIO believes are necessary to support continued or better IT asset inventory and/or IT project reporting.

The State CIO shall include a narrative section focused on planned statewide information systems modernization as well as the IT inventory and project reports outlined above, in the appendix of the State Information Technology and Telecommunications Plan (changed to Enterprise Information Resources Management Strategy in HB 4135) the State CIO is required to develop and update each biennium under ORS 291.039.

The IT inventory and project reports and a status report on the completion of the State IT and Telecommunications plan (changed to Enterprise Information Resources Management Strategy in HB 4135) shall be presented to the Joint Committee on Legislative Audits, Information Management and Technology and the General Government Subcommittee of the Emergency Board or the interim Joint Committee on Ways and Means before the start of the 2015 session. The State IT and Telecommunications Plan (changed to Enterprise Information Resources Management Strategy in HB 4135) shall be presented to the General Government Subcommittee of the Joint Committee on Ways and Means and other appropriate committees during the 2015 session.

The Subcommittee approved a \$700,000 Other Funds expenditure limitation for the Chief Operating Office for two special projects that cross multiple agencies or require some independence. The first such project is a \$350,000 limitation increase to purchase a statewide license for the Agora software program to be used by multiple state agencies. Agora offers tools to link economic and community development projects with project funders. The second special project involves the expenditure of \$350,000 Other Funds to examine the Cover Oregon Website Project. At the request of the Governor, DAS contracted with First Data Government Solutions through the Enterprise Initiatives Master Price Agreement. First Data Government Solutions will complete a third party assessment of the Cover Oregon Website Project. Funding for the contract will be transferred from the Oregon Health Authority and Cover Oregon to pay the cost of this assessment and any applicable legal fees

The Subcommittee approved a \$1,220,548 Other Funds expenditure limitation increase for Enterprise Asset Management (EAM) for the state motor pool. A \$1,047,548 Other Funds increase is for the purchase of 47 new vehicles and for fuel and maintenance of these vehicles. The Subcommittee also increased the Other Funds expenditure limitation for EAM by \$173,000 to accommodate the transfer of an auto mechanic position from the Oregon Department of Transportation to the state motor pool to consolidate light fleet maintenance in the Salem area.

House Bill 5201 includes one-time General Fund appropriations to the Department of Administrative Services for the following purposes:

- \$345,000 for disbursement to the SW Oregon Assessment and Taxation Coalition involving the assessors of Coos, Curry, Douglas, Jackson, Josephine, Klamath, and Lane counties for a pilot project to form partnerships for the delivery of taxation and assessment services, to seek ways to deliver these services more efficiently.
- \$200,000 for disbursement to Oregon Health and Science University Office of Rural Health for the Primary Health Care Loan Forgiveness Program.
- \$100,000 for disbursement to the City of Forest Grove for initial planning costs associated with construction of a community center facility. The building could potentially house city hall, city offices, and a police station.
- \$80,000 for disbursement to Sustainable Northwest for completion of a Western Juniper utilization and marketing project.
- \$20,000 for disbursement to the Medford Senior Center for their Senior Nutrition Program.

The Subcommittee added \$9,033,609 Other Funds expenditure limitation for one-time cost of issuance and special payments associated with the disbursement of proceeds from Lottery Bond sales; projects are detailed below and approved in in Senate Bill 5703. There is no debt service allocated in the 2013-15 biennium, as the bonds will not be sold until the spring of 2015. Debt service for 2015-17 is estimated at a total of \$1,640,046 Lottery Funds: \$588,086 for the Port of Morrow Community Revitalization Revolving Loan Fund; \$270,707 for the Stayton

Stormwater project; \$176,765 for the Beaverton Community Health Collaborative project; \$176,765 for the Mid-Columbia Medical Center; and \$427,723 for the Cornelius Library matching fund project.

- \$2,958,304 Other Funds for disbursement to the Port of Morrow for a Community Revitalization Revolving Loan Fund that would be available to Malheur, Harney, Grant, Baker, Union, Wallowa, Umatilla, Morrow, Gilliam, Sherman, and Wheeler counties for energy conservation, renewable energy, and general business development projects.
- \$2,451,194 Other Funds for disbursement to the City of Cornelius for a new public library with the stipulation that the City of Cornelius secures matching funds and commitments of no less than \$10.4 million by the end of the 2013-15 biennium, prior to the distribution of the lottery revenue bond proceeds for the project.
- \$1,544,053 Other Funds for disbursement to the City of Stayton to purchase property and develop a storm water detention facility in Stayton. The facility is expected to improve water quality for downstream agricultural users and manage peak storm flows into the Salem Ditch and Mill Creek.
- \$1,040,029 Other Funds for disbursement to the Mid-Columbia Medical Center to support capital construction projects to expand or improve the medical center.
- \$1,040,029 Other Funds for disbursement to the Beaverton Community Health Collaborative for the construction of a multi-service health and wellness facility.

The Subcommittee accepted technical adjustments to the revenue reductions assumed in the Department 2013-15 legislatively adopted budget by increasing the assumed Other Funds revenue by \$1.5 million for the Chief Operating Office, \$1.8 million for Enterprise Human Resource Services, and \$437,180 for the Chief Information Office. In addition, the Subcommittee approved another technical adjustment to move a limited duration position to Enterprise Technology Services from the Chief Information Office where it was added by error in the legislatively adopted budget.

The Subcommittee approved and updated Package 091 Statewide Administrative Savings, eliminating 2 Custodian positions (2.00 FTE) and one Production Supervisor position (1.00 FTE). Because some of the administrative reductions were not achievable, particularly the \$5,771,223 Other Funds in Enterprise Technology Services (ETS), Other Funds reductions were taken in the Chief Information Office (\$3,515,338) to eliminate empty Other Funds expenditure limitation and Enterprise Asset Management (\$130,906) to eliminate the two custodian positions. These reductions allowed restorations of \$3,183,353 Other Funds in ETS and \$462,891 Other Funds in Enterprise Human Resource Services. The Subcommittee also approved the standard 25% restoration rate for the supplemental ending balance reductions, which resulted in the restoration of \$13,953 General Fund.

Oregon Advocacy Commissions Office

The Subcommittee approved a restoration of \$8,301 General Fund for the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. The restoration fully restores the original holdback reduction.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings. A portion of the agency's reduction to personal services was moved to services and supplies.

Employment Relations Board

The Subcommittee increased the agency's General Fund appropriation by \$116,236 and Other Funds expenditure limitation by \$148,020 to fund employee pay differentials, unemployment benefits, payment of accrued employee vacation time, a temporary double-fill of an administrative law judge position, and mediator travel expenses. The source of Other Funds is from the agency's state agency assessment ending balance (\$87,998) and fee revenue balance (\$60,022). Projected fee revenue is higher than anticipated in the agency's legislatively adopted budget for 2013-15. With the exception of the employee pay differentials and mediator travel expense, the remaining items are considered one-time increases and are not to carry forward into the 2015-17 biennium.

With this General Fund appropriation, the agency did not require a restoration of its 2% ending balance holdback.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings. A portion of the agency's reduction to personal services was moved to services and supplies. The reduction to services and supplies now totals \$7,162 and will come from savings achieved by a renegotiated facilities rental agreement.

An adjustment was made related to the agency's compensation plan that moved \$11,645 of Other Funds expenditure limitation from the Employment Relations Board Administrative Account (i.e., state agency assessments) to expenditures supported by fee revenue.

Government Ethics Commission

The Subcommittee approved an updated Package 091 Statewide Administrative Savings. A portion of the agency's reduction to personal services was moved to services and supplies.

Office of the Governor

The Subcommittee approved a restoration of \$51,520 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback.

The Subcommittee appropriated \$1,080,000 General Fund for the Public Infrastructure Commission and the West Coast Infrastructure Exchange. The governor's Office may transfer some, or all, of the funds to the State Treasurer for the implementation of House Bill 4111.

Oregon State Library

Of the agency's original \$32,951 supplemental ending balance holdback reduction, the agency has achieved savings of \$14,335 General Fund by reducing Fiscal Year 2014 Ready-to-Read grants. The remainder of the holdback, \$18,616, was restored by the Subcommittee to be used for Fiscal Year 2015 Ready-to-Read grants. The restoration represents 57 % of the initial holdback.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings. The agency's personal services budget was reduced by \$5,956 General Fund and \$20,209 Other Funds by reducing pay differentials. The remaining personal services reduction was moved to services and supplies.

The Subcommittee adopted the following budget note related to the reorganization of the State Library.

Budget Note:

The Co-Chairs of the Joint Committee on Ways and Means will establish a workgroup to build upon previous State Library reorganization efforts, including the 2012 Joint Committee on Ways and Means report on the consolidation and improvement of library and archives services as well as subsequent proposals this biennium. The purpose of the workgroup is to modernize the delivery of state library services by improving access to public information, eliminating duplicative services and costs, increasing utilization of digital resources, and increasing collaborative partnerships across entities.

The workgroup shall recommend draft legislation for introduction in the 2015 legislative session for the reorganization of state library services, which should, where possible, incorporate national best practices pertaining to library reorganizations.

The workgroup will include Legislative members, and other members chosen to represent the interests of state library service users and employees.

It is the Co-Chairs' expectation that the workgroup will be staffed by the Legislative Fiscal Office with assistance from the State Librarian, State Archivist, State Law Librarian, Department of Administrative Services – Project Management Office, the Department of Administrative Services – Chief Financial Office, and Legislative Committee Services. Staff of the Oregon Historical Society is also invited to participate as staff to the workgroup.

Oregon Liquor Control Commission

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating a total of three positions (2.50 FTE), and making shifts between personal services and services and supplies in various agency programs. As approved, Package 091 now consists of the following elements:

- Personal services reductions totaling \$50,048 and 0.5 FTE (seasonal liquor distribution worker), services and supplies reductions totaling \$137,000, and capital outlay reductions of \$409 in the Distilled Spirits program;
- Personal services reductions of \$239,002 and abolishment of one management position (1.00 FTE) in the Public Safety program; and
- Personal services reductions totaling \$121,390 and 1.00 FTE (Office Specialist 2 position), services and supplies reductions totaling \$85,000 and capital outlay reductions totaling \$1,980 in the Support Services program.

Public Employees Retirement System

The Subcommittee approved an updated Package 091 Statewide Administrative Savings. The agency was able to reduce its personal services by only \$45,651 due a reduction in temporary employees and overtime. The remaining personal services reduction of \$1,041,400 was moved to services and supplies. The reduction to services and supplies now totals \$1,393,957 and will come from savings to employee training, office expense, data processing, and professional services. The capital outlay reduction of \$29,380 reduced the budget for data processing hardware.

The Subcommittee increased the Other Funds expenditure limitation for the Operations program by \$1,022,945 for the implementation of Senate Bill 861, which was passed by the Legislature during the 2013 special session. This includes four limited duration Retirement Counselor 1 positions (3.33 FTE). Personal services total \$392,428 and services and supplies total \$630,517.

The four limited duration positions were established administratively on November 1, 2013; therefore, the agency does not require position or FTE authority, but does require the associated expenditure limitation. The revenue to fund these expenses is from a transfer from the Oregon Public Employees Retirement Fund from current year earnings. The Other Funds expenditure limitation was approved only as a one-time increase and does not carry forward into the 2015-17 biennium.

Other Funds expenditure limitation was increased for the Operations program by \$718,750 in services and supplies for phase two of a three phase project to move the administration of the Individual Account Program from a third-party administrator to the agency. The Other Funds expenditure limitation was approved only as a one-time increase and is not carried forward into the 2015-17 biennium.

The Subcommittee requests that the Department of Administrative Services unschedule the entire amount of the Individual Account Program expenditure limitation, pending a Department of Administrative Services – Chief Information Office review and recommendation to approve the project being submitted to the Legislative Fiscal Office for its review and recommended approval.

Department of Revenue

The agency did not require a restoration of its 2% ending balance holdback that totaled \$3.3 million General Fund, due to vacancy savings. The vacancy savings occurred in programs that did not require a rebalance of the agency's budget.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating eight permanent full-time positions and reducing one permanent full-time position to part-time (8.50 FTE). The alternative plan minimizes the impact to the agency's Information Technology Division so as to support its transition of legacy information technology systems to a new information system entitled the Core System Replacement project.

The positions eliminated include: Accountant 1 position (1.00 FTE); Office Specialist 1 positions (1.00 FTE); Office Assistant 2 position (1.00 FTE); Information System Specialist 4 position (1.00 FTE) and a Fiscal Analyst 2 position is reduced from permanent full time to permanent part-time (0.50 FTE) in the Administrative Services Division. Two Administrative Specialist 1 positions (2.00 FTE) are eliminated from the Personal Tax and Compliance Division. An Information System Specialist 3 position (1.00 FTE) and an Information System Specialist 5 position (1.00 FTE) are eliminated from the Property Tax Division. In addition, \$71,904 of Other Funds for services and supplies is eliminated in the Property Tax Division in order to achieve the reduction target.

The Subcommittee disappropriated \$2.1 million in one-time General Fund savings, which are in addition to the General Fund savings the agency set aside to compensate for its 2% ending balance holdback. The additional vacancy savings include: Administration (\$990,828), Property Tax (\$139,386), Personal and Compliance (\$716,614), and Business Divisions (\$253,172).

The Subcommittee also disappropriated \$500,000 General Fund in one-time services and supplies savings from the Core System Replacement project due to lower than expected Department of Administrative Services – State Data Center charges.

A reduction of \$352,716 in Other Funds personal services expenditure limitation was made to the Administration Division to adjust for an unneeded compensation plan increase. Two million dollars of Other Funds expenditure limitation in the Property Tax Division was reduced for

limitation that does not have a revenue source. The Property Tax Division has historically had Other Funds in its services and supplies expenditure limitation in excess of its actual need. Therefore, this is a permanent reduction.

The primary vendor contract for the Core Systems Replacement project was originally estimated to cost \$29 million; however, the agency was able to negotiate a \$27 million contract. The savings for the current biennium totals \$2.3 million Other Funds, with \$300,000 of the savings being needed in a future biennium.

HB 5008 (2013) requested that the Department of Administrative Services un-schedule \$12,994,327 of Other Funds expenditure limitation for the project that is related to the May 2014 Article XI-Q bond sale. The Subcommittee approved rescheduling \$10,694,327 due to the \$2.3 million in contract savings this biennium. The remaining \$2.3 million is to remain un-scheduled.

The Subcommittee provided the following instruction:

The Department of Administrative Services is requested to reschedule \$10,694,327 Other Funds expenditure limitation for the Core System Replacement project, pending the May 2014 Article XI-Q bond sale.

Additionally, the Department of Revenue is directed to report to the Joint Interim Committee on Ways and Means during Legislative Days in May and September 2014 on the status of the project.

The Subcommittee added one permanent full-time Principle Executive Manager E position (0.67 FTE) for the Core System Replacement project to function as a business team/business process subject matter expert lead for the project. The requested position would be funded with previously authorized Article XI-Q bond proceeds. The agency has sufficient Other Funds expenditure limitation for this position due to initial vacancy savings within the program.

The Subcommittee approved the agency's request to make the following technical adjustments to align the agency's budget with its current operations and the organizational structure. These changes balance overall and result in no increase or decrease to the agency's budget. They include: (a) \$1,892,699 and nine positions (9.00 FTE) to move the Research Section from the Business Division to the Agency Program Management Office Division; (b) \$322,254 and one position (1.00 FTE) to move a Principle Executive Manager G and associated services and supplies from the Administrative Services Division to the Agency Program Management Office Division; (c) \$1,109,718 and seven positions (7.00 FTE) to move the Special Services Section from the Administrative Services Division and the Property Tax Division to the Executive Division; (d) \$219,538 and one position (1.00 FTE) to move a Principle Executive Manager E position from the Administrative Services Division to the Personal Tax and Compliance Division; (e) \$112,092 to move one position (1.00 FTE), an Administrative Specialist position, from the Personal Tax and Compliance Division to the Business Division; (f) \$161,411 to move one Information System Specialist 5 position (1.00 FTE) from the Property Tax Division to the Administrative Services Division; (g) \$4,945,157 to move all operating program's Attorney General into the Administrative Services Division; and (h) \$880,556 to move all the operating program's Information Technology Expendable Property into the Administrative Services Division.

Secretary of State

The Subcommittee increased the General Fund appropriation by \$43,796 to restore 25% of the agency's 2% supplemental General Fund ending balance holdback. The entire amount of the restoration was directed to administrative services.

The Subcommittee also reduced the Federal Funds expenditure limitation by \$2,700,000, to more closely align the limitation with the Secretary's revised plan of expenditure of federal Help America Vote Act (HAVA) moneys. The Secretary reported that HAVA monies, initially budgeted for county election tabulation systems upgrades, are being redirected to finance upgrades to the Oregon Centralized Voter Registration system instead. This redirection reduces current biennium Federal Funds expenditures and will allow HAVA monies to fully support program costs, without need for additional General Fund support, through the remainder of the 2013-15 biennium and through the 2015-17 biennium as well.

Treasurer of State

The Subcommittee increased the Other Funds expenditure limitation for services and supplies for the agency by \$1,080,000 for the Public Infrastructure Commission and the West Coast Infrastructure Exchange. The revenue source is a transfer from the Governor's Office, which was appropriated General Fund for House Bill 4111 (2014), to satisfy the requirement under section 4(1) of the measure.

The Subcommittee adopted the following budget note:

Budget Note:

The State Treasurer is directed to spend a minimum of \$100,000 on section 2(2) of House Bill 4111 from funding the agency received in House Bill 5201 for the Public Infrastructure Commission and the West Coast Infrastructure Exchange.

CONSUMER AND BUSINESS SERVICES

Board of Accountancy

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

Board of Chiropractic Examiners

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

Construction Contractors Board

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating 0.50 FTE and moving a portion of the reduction from personal services to capital outlay.

Department of Consumer and Business Services

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating 9 positions and 8.00 FTE, and shifting \$15,493 from services and supplies to personal services.

A one-time increase of \$4,625,091 Federal Funds expenditure limitation was also approved for the Health Insurance Rate Review Grant Cycle II and III, to support state efforts to enhance the health insurance premium rate review process and increase the transparency of the review process.

Board of Dentistry

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

Oregon Health Licensing Agency

No changes were made from the original placeholder budget categories to implement Package 091 Statewide Administrative Savings. However, the agency's budget is moved to the Oregon Health Authority beginning July 1, 2014, as directed by House Bill 2074 (2013). The associated budget change is a reduction of \$3,760,280 Other Funds expenditure limitation and 17.50 FTE, which represents approximately one year of the biennial budget for the Oregon Health Licensing Agency. A corresponding increase is made in the Oregon Health Authority budget.

Health Related Licensing Boards

An updated Package 091 Statewide Administrative Savings was approved for each of the six licensing boards: Mortuary and Cemetery, Naturopathic Medicine, Occupational Therapy, Medical Imaging, Speech-Language Pathology and Audiology, and Veterinary Medical. The boards are shifting reductions from personal services to services and supplies to meet the savings targets.

Bureau of Labor and Industries

To restore a portion of the agency's 2% supplemental ending balance holdback, the Subcommittee added \$67,522 General Fund. This amount represents 29% of the total holdback; to cover the remaining gap BOLI will continue to hold the Apprenticeship Representative position in its Portland office vacant for the rest of the biennium.

An updated Package 091 Statewide Administrative Savings was approved, eliminating a total of 0.75 FTE across 2 positions in accounting and office administration. A portion of the agency's reduction was also moved from personal services to services and supplies.

The Subcommittee approved an increase of \$450,000 Other Funds expenditure limitation and the establishment of a limited duration full-time Office Specialist 2 position (0.63 FTE) to enhance the Support Services Program. The program is part of an interagency agreement with the Oregon Department of Transportation, which provides the funding, to help increase diversity in the highway construction workforce. The Bureau of Labor and Industries (BOLI) will utilize the additional funds to increase support to existing pre-apprenticeship preparation programs and establish new preparation programs in rural areas. The limited duration position will provide administrative support for the program, allowing the program coordinator to focus on development and implementation of the preparation programs.

To provide education and outreach on fair housing laws and to investigate fair housing cases, the Subcommittee approved a one-time increase of \$146,584 Federal Funds expenditure limitation. In partnership with the U.S. Department of Housing and Urban Development (HUD), BOLI will use the funds to complete dated fair housing cases that have been dual-filed with BOLI and HUD, and to work with the Fair Housing Council of Oregon to provide education and outreach. Additionally, BOLI's Technical Assistance Program will provide training sessions throughout the state on changes to fair housing laws.

The Subcommittee approved the following budget note related to workforce needs of employees of Qualified Rehabilitation Facilities:

Budget Note:

The Bureau of Labor and Industries, in consultation with the Department of Administrative Services, will convene a stakeholder workgroup to include not more than four Qualified Rehabilitation Facilities (QRFs) or a representative representing a majority of the QRFs in the state; labor unions representing QRFs; at least one organization representing the disability rights community; and any other interest with employee or business interests related to QRFs that voluntarily participate, during the 2014 interim. The workgroup will meet at least four times to develop concepts to address the workforce support needs of employees with disabilities employed by QRFs. These concepts may be presented to the 2015 Legislative Assembly for possible introduction as a bill.

Oregon Medical Board

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating one position and 0.46 FTE in administration and the remaining reductions taken in services and supplies.

Board of Nursing

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

Board of Pharmacy

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, reallocating among expenditure accounts to affect permanent administrative cost reductions. Other Funds personal services reductions of \$3,693 and services and supplies reductions of \$1,503 are reallocated entirely to agency services and supplies.

Public Utility Commission

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating a mailroom assistant position (1.00 FTE). A portion of the reduction originally applied to services and supplies was shifted to personal services.

Real Estate Agency

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating one position and 0.50 FTE.

Board of Licensed Social Workers

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

Board of Tax Practitioners

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

ECONOMIC AND COMMUNITY DEVELOPMENT

Oregon Business Development Department

The Subcommittee increased the General Fund appropriation by \$89,679 to fully restore the Arts Commission's 2% supplemental General Fund ending balance holdback. Lottery Funds expenditure limitations were increased by a total of \$250,000 to partially restore the 2% supplemental Lottery Funds ending balance holdbacks to the Shared Services and Business, Innovation, and Trade Divisions. No additional Lottery Funds are allocated from the Administrative Services Economic Development Fund for this partial restoration of the holdback amounts, or for Lottery Funds expenditure limitation increases provided for compensation cost increases; the agency will finance these expenditures out of sufficient cash balances of Lottery Funds in the division budgets.

The Subcommittee established a \$1,150,000 Lottery Funds expenditure limitation for the Business, Innovation and Trade Division for support of the Oregon Manufacturing Extension Partnership and for port property redevelopment. The expenditure limitation is established on a one-time basis and will be phased out in the development of the agency's 2015-17 biennium current service level. The expenditure limitation was established to provide a special payment of an additional \$750,000 to support the Oregon Manufacturing Extension Partnership, and a special payment of \$400,000 to the Port of Port Orford for redevelopment of the Cannery Building owned by the Port.

The Subcommittee increased the Regional Solutions Other Funds expenditure limitation in the Infrastructure Finance Authority program area by \$9,349,999, and increased the general Infrastructure Finance Authority Other Funds expenditure limitation by \$240,594, to authorize distribution of lottery revenue bond proceeds to support Regional Solutions projects, and to pay bond-related costs, respectively. These Other Funds expenditure limitation increases are approved on a one-time basis only, and will be phased out in the development of the agency's 2015-17 biennium current service level.

The 2013-15 biennium budget includes authorization of up to \$10 million of lottery revenue bond proceeds for Regional Solutions projects. In the 2013 session, the Legislature established a \$1 Other Funds limitation on Regional Solutions project expenditures, pending submission of specific projects for review. A total of \$9,350,000 of Regional Solutions project expenditures were approved. The approved project names and associated funding levels are listed below:

- North Central Region – North Central Oregon Attainable Housing Revolving Loan Fund (\$2 million)
- South Central Region – Removing Stringent Air Quality Permitting Requirements (\$1.5 million)
- South Central Region – Innovation and Learning Center (\$500,000)
- Mid-Valley Region – White's Rail Siding (\$300,000)
- Mid-Valley Region – Carlton Water Infrastructure (\$500,000)
- Mid-Valley Region – Job Growers Workforce Investment Board (\$550,000)
- North Coast Region – Rainier Rail Corridor (\$2 million)
- South Coast Region – Portable Dredge Purchase (\$2 million).

The Subcommittee also approved a change in the use of \$12 million of Other Funds lottery revenue bond proceeds previously authorized in the 2013 session for transfer to the Special Public Works Fund. Of this amount, \$3 million of proceeds are redirected to the Marine Navigation Improvement Fund for coastal port dredging; with the remaining \$9 million of proceeds to be transferred to the Special Public Works Fund.

Finally, the Subcommittee approved the implementation of the agency's Package 091 reductions. The implementation includes permanent fund shifts in the financing of two agency positions in the Shared Services/Central Pool program area. The two positions, formerly Lottery Fund-financed, will now have 22% of their personal services costs funded by Other Funds generated by agency programs. This action supports a \$100,000 fund shift from Lottery Funds to Other Funds approved with Package 091 in the agency budget.

Employment Department

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating two positions in the Unemployment Insurance division (a Public Affairs Specialist at .75 FTE and an Information Support Specialist at 1.00 FTE), eliminating three positions in the Business and Employment Services division (an Executive Support Specialist, a Safety Specialist and an Office Specialist, 3.00 FTE), and eliminating one position in the Research division (an Economist, 1.00 FTE). A portion of the reduction was shifted from personal services to services and supplies.

House Bill 5201 includes an increase of eight positions (5.35 FTE) and additional expenditure limitation in the amount of \$3,947,126 Other Funds and \$4,757,762 Federal Funds for grant awards, supplemental federal funding for unemployment insurance programs, Office of Administrative Hearings caseload, and information technology needs.

Housing and Community Services Department

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, reducing number of months on three positions (two Information Systems Specialists with a reduction of 0.50 FTE each, and a Procurement and Contract Specialist reduced by 0.62 FTE). Over all, personal services were reduced by \$227,189 Other Funds and \$99,918 Federal Funds; services and supplies were reduced by a total of \$113,376 Other Funds and \$14,195 Federal Funds; and capital outlay was reduced by \$1,825 Other Funds. All reductions are allocated to the Business Operations unit of the agency's Central Services program.

The Subcommittee approved a restoration of \$42,326 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback. The funding is restored to the agency's General Fund programs as follows:

- Foreclosure Counseling (SB 1552): \$10,231
- Emergency Housing Assistance: \$11,625
- State Homeless Assistance Program: \$6,604
- Low Income Rental Assistance: \$1,122
- Oregon Hunger Response Fund: \$6,628
- Court Appointed Special Advocates: \$5,755
- Housing Choice Landlord Guarantee Program: \$361

The Transportation and Economic Development Subcommittee recommended operational funding for the 2014 state fiscal year for the Housing and Community Services Department after receiving a report on the results of the agency's review of services and delivery options. The goals of the review included identifying and eliminating duplication and fragmentation in service delivery, as well as efficiencies that could help to address an anticipated operating deficit of \$8 million in 2015-17. Report recommendations include simplifying program rules and reporting requirements; implementing shared services arrangements for some administrative functions; redesigning policy and governance structure to provide clear guidance and priorities; moving local service delivery partners toward performance based contracting over time; and moving food and volunteer programs to other areas of state government. The Subcommittee discussed the importance and expectation of a more detailed implementation plan for the report recommendations. Subcommittee members also conveyed the expectation that legislative policy committees should be the venue in which changes to agency advisory bodies are discussed and determined, and that such policy discussions not be circumvented by the Executive or budget process.

Given that the majority of recommendations require additional work to develop specific implementation plans, the Subcommittee recommendation for 2014 funding is predicated on continuing programs for the remainder of the biennium within the existing agency structure. The agency will begin the process of administrative rule review immediately, to begin identifying changes that will simplify grant administration and remove unnecessary reporting and monitoring requirements. Recommendations with budget and staffing implications will be proposed for implementation in conjunction with the 2015-17 budget process, along with changes to Key Performance Measures.

House Bill 5201 repeals three special purpose appropriations related to HCSD, and instead appropriates a total of \$8,765,066 million in General Fund to the agency; \$8.5 million of this is for fiscal year 2014 operations and \$225,000 is for a one-time increase in support for the Oregon Hunger Response Fund. Fiscal year 2014 agency operations costs amount to \$60,528,131 Other Funds, \$39,500,000 Federal Funds, \$122,795,359 Other Funds Non-Limited, \$54,000,000 Federal Funds Non-Limited, and 74.36 FTE. The above amounts include employee compensation distribution amounts, and are consistent with the 2014 operating expenditure limitation recommended by the Subcommittee on Transportation and Economic Development.

Additional one-time General Fund in the amount of \$1.5 million for the Emergency Housing Account and \$500,000 for the State Homeless Assistance Program was also approved (along with a corresponding increase of \$1.5 million in Other Funds expenditure limitation for the Emergency Housing Account). As these programs are ongoing, the Housing and Community Services Department is not anticipated to incur or capture additional administrative expenses from this supplemental funding. Other Funds expenditure limitation of \$2,555,025 is added to provide additional one-time support for affordable housing preservation, funded by lottery bonds authorized in Senate Bill 5703; \$55,025 of this amount is attributable to bond-related costs.

Department of Veterans' Affairs

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, shifting the majority of personal services savings in the Loan Program to services and supplies, in consideration of previous position reductions taken in the legislatively adopted budget (elimination of 12.00 FTE in the Loan Program). As modified, Package 091 reductions eliminate one position (0.20 FTE) and total \$16,426 in personal services, and \$136,794 in services and supplies in the Loan Program, and \$153,224 in services and supplies reductions in the Veterans' Home program.

The Subcommittee approved a restoration of \$43,959 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback. The funding is restored to the agency's General Fund programs in the following amounts:

- Counseling and Claims: \$2,198
- County Veterans Service Officers special payments: \$21,971
- Aid programs administered by the Oregon Department of Veterans' Affairs: \$19,342
- Special Payments to National Service Organizations: \$448

House Bill 5201 includes additional Other Funds expenditure limitation in the amount of \$6,230,000 for two additional positions (1.13 FTE), and planning, marketing, start up and operating costs associated with the second Veterans' Home in Lebanon, Linn County. The home is scheduled to open in the fall of 2014.

Federal Funds expenditure limitation in the amount of \$300,000 was established to accommodate the possible receipt of a federal grant for transportation services to veterans in highly rural areas of the state. Expenditure limitation was approved, with the understanding that the Department of Administrative Services would unschedule the limitation until the Oregon Department of Veterans' Affairs was notified that its grant application was successful. No additional matching funds or position authority is required to administer the funds, which will be passed through to Baker, Gilliam, Grant, Morrow, Sherman and Wheeler Counties. The agency anticipates a notice of award in April, 2014.

Oregon State Lottery

The Subcommittee approved a budget note requiring the Oregon State Lottery to submit a report to the Emergency Board on the feasibility of establishing a veterans-themed lottery raffle game.

Budget Note:

The Oregon State Lottery shall report to the Emergency Board, no later than September 2014, on the feasibility of establishing a dedicated lottery raffle game that has a veteran-oriented theme or indicates that the proceeds benefit veteran's education and economic development related to veterans. The report shall identify the impacts of establishing the game on the operations of the State Lottery, and include a projection of the level of net revenues available from a dedicated game for veteran's education and economic development, and a projection of the impact of the game on the level of net revenues otherwise available for transfer to the Administrative Services Economic Development Fund.

EDUCATION

Department of Community Colleges and Workforce Development

Based on their budgeted amount for their agency Operations budget, the Department of Community Colleges and Workforce Development (CCWD) has funding for the equivalent of 8.65 FTE in the General Fund budget passed by the 2013 Legislature. Given the demand for the General Fund related workload, the General Fund staff compliment should be closer to 13.00 FTE. As a result, CCWD estimated their General

Fund budget is underfunded by \$884,136. The agency identified almost \$350,000 in savings by keeping three positions vacant and switching the funding on another position, reducing the remaining General Fund gap to \$535,087. To fill this remaining shortfall, the Subcommittee approved the following one-time actions; (1) assumed additional revenue from work done by CCWD staff for the Higher Education Coordinating Commission (HECC) of \$64,000 to offset General Fund need and increased the Other funds expenditure limitation by this amount, (2) assumed \$100,000 of debt service savings from the delay of building projects at community colleges that is freed up to offset the Operations budget gap, (3) appropriated \$250,000 General Fund, and (4) transferred \$121,087 from the Strategic Fund of the Community College Support Fund to the agency Operations budget.

The Subcommittee approved the establishment of an Other Funds expenditure limitation in the amount of \$46,469 for the payment of the issuance costs associated with the sale of Lottery bonds for the Central Oregon Community College's Student Success Center in the remodeled Cascades Hall.

The Subcommittee did not restore any of the \$287,715 General Fund reduced in the Department of Community College and Workforce's legislatively adopted budget for the 2% supplemental ending balance holdback.

As a result of Package 091 relating to Statewide Administrative Savings in 2013, CCWD's Operations budget was reduced by \$357,844 total funds (\$39,363 General Fund, \$55,892 Other Funds and \$262,589 Federal Funds). These reductions will be made by eliminating one Accounting Technician position (1.00 FTE), reducing funding for hiring temporary employees, reducing in-state travel, and reducing the amount of resources for contracting out for services. The impact of these reductions will limit the agency's flexibility in addressing and completing short term projects that are requested of the agency or unanticipated needs like information server failures that might occur. These actions will also limit the agency's ability to hire people with specialized expertise that agency staff does not have.

Department of Education

The Department of Education's (ODE) current budget includes \$9.4 million for the Career and Technical Education Revitalization Grant Program as authorized in ORS 344.075. This bill increases the amount available for the program by a one-time \$2 million General Fund appropriation. Grants awarded through this program must be used to enhance the collaboration between education providers and employers by: (1) developing or enhancing career and technical education programs of study; (2) expanding the professional growth of and career opportunities for students through career and technical education programs; (3) assessing the ability of each career and technical education program to meet workforce needs and give students the skills required for jobs in this state that provide high wages and are in high demand; and (4) supporting the achievement of the high school diploma requirements

The Legislature in 2013 provided an additional \$7.5 million General Fund for the Career and Technical Education (CTE) Revitalization Grant Program, and this bill adds a further \$2 million General Fund to the program without adding any resources for the administration, monitoring and technical assistance related for the program. The Subcommittee approved a transfer of \$230,537 General Fund from the Grant-in-Aid budget of the agency to the Operations budget, and the establishment of three positions (1.25 FTE) for these functions.

A special purpose appropriation to the Emergency Board of \$4.6 million General Fund was made in 2013 for student assessments. The Subcommittee approved the repeal of this special purpose appropriation, and instead approved a \$4.4 million General Fund direct appropriation

to ODE to augment the \$16 million total funds currently in the agency's budget for student assessments. This additional funding is to be used to purchase a summative assessment system tied to the Common Core standards as well as providing resources to school districts for formative and interim assessment tools. The Department of Administrative Services was instructed to unschedule this additional \$4.4 million until final negotiations with the assessment contractors are completed.

Budget Note:

The Department of Education is instructed to provide at least \$2 million of the total amount in the budget for student assessments as payments to school districts for formative and interim assessment tools.

ODE's Early Learning Division received an additional \$10.1 million Federal Funds in resources through the Race to the Top grant program of the U.S. Department of Education. The agency plans to spend \$5.5 million of these funds during the 2013-15 biennium. The funds will be used for a variety of purposes including increasing the use of the Tiered Quality Rating and Improvement System (TQRIS), professional development of early learning providers, and for a statewide referral system for information on early childhood services. The Subcommittee approved Federal Funds expenditure limitation increases split between the Early Learning Grant-in-Aid budget for grants to organizations (\$3,955,190 Federal Funds) and the agency's Operations budget (\$1,547,971 Federal Funds) for contracts, staffing and other agency costs. Seven limited duration new positions (4.11 FTE) were approved for establishment. Five current positions will also be funded with these new resources.

The Subcommittee approved an additional one-time \$1.0 million General Fund appropriation for the Long Term Care and Treatment programs which provide educational services to students in residential and day treatment centers as defined in ORS 343.961. In approving this additional funding, the Subcommittee expects all of the \$1.0 million will be provided to the entities who directly provide educational services to these students.

Budget Note:

Prior to May 1, 2014, the Department of Education is instructed to provide the School Funding Task Force established by House Bill 2506 (2013) with information to assist the Task Force in formulating recommendations relating to the level and allocation of funding for the Long Term Care and Treatment program. This information must include: (1) the actual costs of providing adequate and comparable educational services to students who receive services under the program; (2) various alternatives for allocating and distributing funding to these programs in an equitable manner to maximize the amount that is used for direct educational services to these students; (3) alternatives of metrics for measuring the effectiveness of the programs and providers of these educational services; and (4) other information the Task Force requests. The Task Force, with the assistance of the Department, shall work with various stakeholders including providers, school districts and others in formulating recommendations to the 2015 Legislature regarding the level and distribution of funding for the program.

The 2013 Legislature provided \$1,789,557 General Fund for a special purpose appropriation to the Emergency Board for program funding for the second year of the biennium for youth development grants, performance-based contracts, and services provided at the local level. The Subcommittee approved the repeal of this special purpose appropriation, and redirected those resources as a General Fund appropriation to the Department of Education. The agency's Youth Development Division submitted a plan for investing and distributing these funds to the Interim Joint Ways and Means Committee in January 2014 which approved the use of these funds for the Youth and Innovation Grant Fund. This Fund

provides resources for new innovative approaches to improve education and workforce success for those youth disconnected or at risk of disconnecting from the education system and labor market. Most of this funding (\$1.6 million General Fund) will be for grants to local entities, while the remaining \$189,557 General Fund will be used for the administration of the youth development programs.

The Subcommittee approved a total of \$5,948,790 General Fund in restorations to the ODE budget, representing just under 70% of the amount reduced in the legislatively adopted budget for the 2% supplemental ending balance holdback. All of the 2% reductions were restored for the following programs: (1) Oregon Pre-Kindergarten program (\$2,548,483); (2) other early learning programs (\$673,910) including Early Learning Hub funding, Health Families Oregon, Relief Nurseries, and Early Learning Kindergarten Readiness grants; (3) youth development grant programs (\$114,982); (4) staffing costs at the Oregon School for the Deaf (\$222,340); and (5) the newly authorized strategic education initiatives (\$436,976). Other restorations were \$1,080,405 for the Early Childhood Special Education programs, and \$562,775 for the Early Intervention program. Finally, a total of \$308,919 in the agency Operations budget was restored for nursing program support to school districts, youth development program administration, and licensing of Head Start programs.

As a result of Package 091 relating to Statewide Administrative Savings in 2013, ODE's Operations budget was reduced by \$814,374 total funds. The budget passed by the 2013 Legislature included over \$75 million total funds in new or expanded initiatives without a corresponding increase of resources in administrative activities. Based on this, the Package 091 related reductions for ODE did not include any staff reductions; but included service and supply cuts to the budget, personnel, accounting and payroll, and procurement functions totaling \$280,576 total funds. Another \$533,798 total funds was reduced from the information technology budget, most of it coming from resources for assessment related contracts. Overall, \$276,887 General Fund, \$123,622 Other Funds, and \$413,865 Federal Funds was reduced from the ODE Operations budget.

The Federal Funds expenditure limitation for early learning programs is increased by \$2.2 million to reflect a larger carry-forward of child care related funds from 2011-13 and larger current biennium revenues from the federal Child Care Development Fund. These additional revenues will be used to increase funding for the Employment Related Day Care program administered by the Department of Human Services.

State School Fund

The State provides payments funded by the State School Fund for Local Option Equalization Grants authorized in ORS 327.339. The Department of Education (ODE) makes those grant payments to school districts as Other Funds, but the current budget does not have sufficient Other Funds expenditure limitation for the current biennium. The Subcommittee approved a \$3,535,581 increase in Other Funds expenditure limitation which is the estimate at this time of the grants that must be paid during 2013-15.

Higher Education Coordinating Commission

In development of the 2013-15 budget for the Higher Education Coordinating Commission (HECC), there was an inadvertent double counting of funding of \$249,175 General Fund in the costs of the Commission's meeting and operating costs. The Subcommittee reduced this amount from the HECC budget.

The Subcommittee did not restore any of the \$45,957 General Fund reduced in the Higher Education Coordinating Commission's legislatively adopted budget for the 2% supplemental ending balance holdback.

Oregon Education Investment Board

The Subcommittee restored \$30,794 General Fund to the Oregon Education Investment Board (OEIB) which represents 25% of the amount reduced in the OEIB's legislatively adopted budget for the 2% supplemental ending balance holdback. This restoration will allow the OEIB to fund data analysis and policy research on best practices, investment strategies, and polices relating to early learning and primary literacy.

The OEIB and other education agencies presented an initial business case and related project management materials for the Statewide Longitudinal Data System to the Education Subcommittee of the Joint Committee on Ways and Means. The Education Subcommittee recommended the project staff continue to refine the business case, provide more detailed planning and project management materials, and contract with an independent Quality Assurance contractor to move on to the next steps in the implementation of this project. This work is to be completed with existing resources in the Oregon Department of Education's budget.

Budget Note:

The Oregon Education Investment Board (OEIB) is directed to work with the Oregon Department of Education (ODE), the Higher Education Coordinating Council (HECC), other education related agencies, and the Office of the State Chief Information Officer to refine the business case and develop a comprehensive set of foundational project management documents including a detailed project budget and schedule for the design, development and implementation of the State Longitudinal Data System for P-20W Education. The OEIB, ODE, HECC and other agencies must follow State Chief Information Officer standards in the development of these materials; and submit them to the State Chief Information Officer for review in compliance with Department of Administrative Services and State Chief Information Officer rules, policies and standards for project review, approval and oversight. An independent Quality Assurance contractor must be selected to complete quality control reviews of the refined business case and foundational project management documents. In addition, the independent Quality Assurance contractor must complete a project risk assessment. Prior to requesting additional funding for the Statewide Longitudinal Data System, OEIB and other agencies must submit the quality control reviewed business case and foundational project management documents and the project risk assessment, along with a recommendation on the project from the State Chief Information Officer to the Legislative Fiscal Office. The OEIB and other agencies are directed to report to the Emergency Board during each of the Emergency Board's meetings prior to January 1, 2015 on the status of the project and/or to request the authority to proceed with the project once the above requirements have been met.

Oregon Health and Science University

The Subcommittee approved a total of \$200,035,290 Other Funds expenditure limitation in the Department of Administrative Services for disbursement of bond proceeds to Oregon Health and Science University (OHSU) for the construction of research, clinical, other related facilities, and for bond related costs for the expansion of the OHSU Cancer Institute. Senate Bill 5703 contains authorization to issue up to \$161,490,000 in Article XI-G general obligation bonds (debt service to be paid with General Funds) and \$38,545,290 in lottery bonds (debt service to be repaid with Lottery Funds) for the Cancer Institute for disbursement to OHSU. Before these Article XI-G and Lottery bonds may be issued, OHSU must raise at least \$800 million in gifts, grants and other revenues through OHSU's Cancer Challenge campaign. The bond proceeds will be used: (1) to construct a research building on the Schnitzer Campus which will include wet laboratory facilities, bio-computing space and research support facilities; and (2) for additional floors in the Center for Health and Healing II (CHH II) building already planned for construction for clinical trial space. Debt service payments on these bonds to be paid beginning in the 2015-17 biennium are estimated at \$23,357,272 General

Fund and \$6,669,787 Lottery Funds. A budget note is included in the Oregon Health Authority section of this budget report instructing OHSU, other health care providers and Coordinated Care Organizations to develop recommendations relating to access to services for Medicaid clients.

Oregon Student Access Commission

Funding for the Oregon Opportunity Grants is increased by \$2.3 million in the Oregon Student Access Commission's (OSAC) budget by increasing the expenditure limitation for Lottery Funds funded by allocations from the Education Stability Fund. This amount is anticipated to provide an estimated 1,150 more grants to post-secondary students at an average of \$2,000 during the 2013-15 biennium. These additional resources are from carry-forward funds from the 2011-13 biennium that are available for this purpose.

The Subcommittee did not restore any of the \$2,332,612 General Fund reduced in the OSAC's legislatively adopted budget for the 2% supplemental ending balance holdback, almost all of which was reduced from the Oregon Opportunity Grant program. As noted above, \$2.3 million of Lottery Funds was added to this program for the remainder of the biennium.

As a result of Package 091 relating to Statewide Administrative Savings in 2013, OSAC's Operations budget was reduced by \$41,153 total funds (\$17,284 General Fund and \$23,869 Other Funds). The Commission plans to take \$19,030 total funds of this reduction in State Government Service Charges since Commission staff has assumed some of the administrative responsibilities (without new resources) that the Department of Administrative Services (DAS) provided in the past. The remaining reductions will be taken from other services and supplies (\$11,290 total funds), Office Expenses, and other services and supplies categories. Since the original 091 reduction was split between personal services and services and supplies, all of the original \$31,666 total funds in the personal services reduction will have to be transferred to services and supplies category.

Teacher Standards and Practices Commission

The Teacher Standards and Practices Commission's (TSPC) budget was reduced by \$13,537 Other Funds as a result of the passage of the Package 091 relating to Statewide Administrative Savings. The Commission will take these reductions by cutting \$8,135 from the budget for overtime and related personal services, and \$5,402 from other services and supplies.

Oregon University System

The Subcommittee approved a special one-time General Fund appropriation of \$2,000,000 for the four technical and regional universities and Portland State University to help fund new compensation agreements for classified staff. Of the \$2,000,000 appropriation, \$850,000 is for Portland State University, with the remainder to be shared by Eastern Oregon University, Southern Oregon University, Western Oregon University, and the Oregon Institute of Technology. The Subcommittee also approved a one-time \$500,000 General Fund appropriation to both Eastern Oregon University and Southern Oregon University as temporary bridge funding to assist the universities for the remainder of the biennium as they address budget shortfalls.

The Subcommittee also disappropriated \$4,500,000 General Fund from the appropriation supporting the Chancellor's Office with direction the Chancellor's Office utilize existing fund balances to continue operations for the remainder of the 2013-15 biennium. A total of \$3.5 million General Fund was appropriated to the Emergency Board as a special purpose appropriation to be allocated for future costs associated with higher

education governance changes, including costs incurred by the Higher Education Coordinating Commission as duties and responsibilities are transferred from the Chancellor's Office to the Commission and for impacts on the budgets of the four technical and regional universities.

The Subcommittee approved the following budget note related to the closure of Blue Mountain Recovery Center in Pendleton, and clarified that this work should be done within the existing Oregon Solutions General Fund budget of \$2.2 million for 2013-15. The parties involved are expected to include a number of local and regional entities, as well as the Department of Administrative Services, Oregon Business Development Department, Department of Corrections, Oregon Health Authority, Department of Veterans' Affairs, and the Regional Solutions program within the Governor's Office. Other parties may be identified as the work proceeds.

Budget Note:

The closure of the Blue Mountain Recovery Center will have a major economic impact on the city of Pendleton and the surrounding region. In order to address the challenges associated with the closure, a state and local conversation needs to occur, and a strategy needs to be developed, to mitigate the effects and chart a path forward for the community. The strategy should address how the state can invest resources in the community to ensure the economic effects on the community as a whole are addressed, to the extent possible. The strategy should also seek to leverage investments from the federal government in addressing the challenge and engage other private and civic organizations to the extent they can be of assistance. In carrying out the development of a strategy, the Oregon Solutions program at Portland State University shall provide staffing to bring the needed parties together to develop a mutually supported plan. The Oregon Solutions program shall report in September 2014 to the Emergency Board on the plan.

HUMAN SERVICES

Commission for the Blind

The Subcommittee approved an updated Package 091 Statewide Administrative Savings in which a small portion of the agency's reduction was moved from services and supplies to personal services. The Subcommittee also approved the restoration of \$31,287 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. This represents 100% of the initial holdback.

The agency's budget is reduced by \$1,043,821 Other Funds expenditure limitation and 0.75 FTE to reflect the elimination of the Oregon Industries for the Blind program effective December 2013. This was an alternative work and vocational program specializing in serving clients with multiple disabilities who are both developmentally disabled and blind. Historically the program had served about 40 clients, and all clients have now been placed in other programs.

Oregon Health Authority

The Oregon Health Authority (OHA) budget is organized into several program areas including Health Care Programs, Addictions and Mental Health, and Public Health, as well as Central and Shared Services. House Bill 5201 adjusts the OHA budget for updated pricing of program caseloads, costs, and revenues to help "rebalance" the budget. This information was presented at the January 2014 meeting of the Interim Joint

Committee on Ways and Means. Most notable are additional costs of \$26.9 million General Fund related to loss of federal match for Alcohol & Drug residential facilities that have more than 16 beds, claims costs for hospital patients thought to be eligible for Medicaid but not yet through the formal eligibility process, and additional costs to keep Blue Mountain Recovery Center open through March 2014. The rebalance also includes \$67.9 million General Fund savings, related to caseload changes, federal match rate changes, and one-time Other Funds revenues received above forecasted amounts.

The approved rebalance plan includes additional Federal Funds expenditure limitation of \$1.1 billion mostly related to faster enrollment of new clients under the Affordable Care Act (ACA) expansion than was originally forecast. The plan also includes some agency restructuring. A new budget structure called Health Policy Programs is created, with budget and staff being transferred from Central Services and Medical Assistance Programs. A second budget structure is created for the transfer of the Oregon Health Licensing Agency into OHA effective July 1, 2014 per House Bill 2074 (2013).

The agency continues to face a number of budget risks that were not explicitly included in the rebalance plan. These include changes to caseloads, federal sequestration reductions, the Oregon State Hospital budget, and state expenditures required to meet the federal Designated State Health Programs (DSHP) waiver conditions. House Bill 5201 establishes a new special purpose appropriation of \$24 million, to be allocated to OHA or the Department of Human Services for caseload costs or other budget challenges that the agencies are unable to mitigate.

In addition to the rebalance adjustments, the adjusted budget reflects a number of actions to be taken as a result of the \$38.8 million General Fund withheld in the legislatively adopted budget for the 2% supplemental ending balance. The Subcommittee approved a restoration of \$9.7 million as part of the statewide restoration. That represents 25% of the initial holdback. Other actions taken include program reductions of \$4 million General Fund and the use of \$25.1 million in one-time revenues.

With the addition of certain other actions beyond that already described, the approved adjustments result in an overall \$1.1 billion increase in the agency's total funds budget, but a \$27.2 million General Fund decrease. These actions also result in a \$36.4 million increase in Other Funds expenditure limitation, a \$1.1 billion increase in Federal Funds limitation, and an increase of 39 positions (20.74 FTE). These numbers do not include changes related to employee compensation cost changes.

A more detailed description of each program area follows.

Health Care Programs

The budget adjustments in House Bill 5201 reflect a net \$62.6 million decrease in General Fund in the Medical Assistance Programs (MAP) budgets, with a \$24.8 million increase in Other Funds limitation and a \$1.2 billion increase in Federal Funds limitation.

The rebalance plan for MAP approved by the Subcommittee includes overall savings of \$67.9 million General Fund, related to caseload changes, federal match rate changes, a reduction in the clawback payment to the federal government, and one-time Other Funds revenues received above forecasted amounts. Increased costs include a \$1.8 million shortfall in tobacco tax revenue as a result of the latest forecast. The loss of federal match for Alcohol and Drug residential facilities that have more than 16 beds results in a \$15.7 million General cost. The approved rebalance includes a cost of \$7.0 million General Fund to cover claims costs for hospital patients thought to be eligible for Medicaid but not yet through the

formal eligibility process. During the period before the patient completes the formal eligibility process, the federal match for services already received is at the state's regular match rate. The rebalance changes also include an additional \$1.2 billion in Federal Funds expenditure limitation, primarily because the state is enrolling new clients under the ACA expansion faster than originally forecast.

The MAP budget is also affected by two organizational changes included in the rebalance. A total of \$34 million General Fund that was previously in the MAP budget is transferred to a new budget structure called Health Policy Programs. In addition, a total of \$16.7 million General Fund and \$50.2 million total funds is transferred from Addictions and Mental Health to MAP. This completes another component of the transfer that eventually moves these programs receiving Medicaid match into the CCOs, and so into the MAP budget.

Health Policy Programs will also include the transfer of the Transformation Center from Central Services. The final resulting budget for Health Policy Programs will be \$44.1 million General Fund, \$129.4 million total funds, and 128 positions (122.37 FTE). All these adjustments net to zero agency-wide. As a part of the approved rebalance, a second new budget structure is created for the Oregon Health Licensing Agency, which will transfer to OHA on July 1, 2014 as a result of House Bill 2074 (2013). This program will then be called the Health Licensing Office. The second year budget amount of \$3.8 million Other Funds is added to OHA, as well as the 35 positions (17.50 FTE) in the current agency. There is a corresponding reduction to the budget of the Oregon Health Licensing Agency.

The Subcommittee approved a restoration of \$20.8 million of the 2% supplemental ending balance holdback that was included in the MAP original legislatively adopted budget for 2013-15. This is funded with one-time revenues available in the budget. The agency expects to address the remaining \$2.1 million shortfall by reducing the 2014-15 fee-for-service inflation adjustment for the Oregon Health Plan from 2.4% to 1.2%.

The final budget adjustments include additional General Fund savings of \$24.4 million as a result of the Children's Health Insurance Reauthorization Act (CHIPRA) bonus that was announced in December. A total of \$1.9 million General Fund and \$5.0 million total funds is added to the MAP budget to cover compensation changes for home health care workers who are not state employees. A total of \$12.9 million had been included in a special purpose appropriation for this purpose. That amount is fully distributed to OHA and the Department of Human Services to cover these costs.

The Subcommittee approved the following budget note relating to the health care system, and the role of Oregon Health and Science University within that system:

Budget Note:

The Oregon Health Authority will work with health systems, Coordinated Care Organizations, and health care providers to develop recommendations that ensure that Medicaid clients have access to medically appropriate and necessary inpatient or outpatient health services. Factors to be considered will include:

- (a) The acuity of the patient's condition and the urgency of the patient's need for treatment;
- (b) The role of Oregon Health and Science University as the state's only public academic health center;
- (c) The role of Oregon Health and Science University as a health care provider as well as its capacity relative to other hospitals, clinics or facilities in the community; and

(d) Advancing the goals of the triple aim, including factors such as:

- (A) delivery of quality care
- (B) cost
- (C) convenience to the patient
- (D) patient's access to care

OHA will report on the recommendations to the appropriate legislative policy committees before the 2015 session.

Addictions and Mental Health

The budget adjustments included in House Bill 5201 for Addiction and Mental Health (AMH) reflect a net decrease of \$3.2 million General Fund, an increase of \$9.2 million Other Funds limitation and a decrease of \$36.6 million Federal Funds limitation.

The rebalance plan approved by the Subcommittee includes a cost of \$2 million General Fund to keep Blue Mountain Recovery Center open until the end of March 2014. This is offset by savings of \$0.2 million General Fund as a result of the increase in the federal match rate. In addition, the budget is decreased by \$19.4 million General Fund as a result of transfers and technical adjustments. This is primarily the result of the transfer of another component of the remaining programs in AMH that will be moved to the CCOs during this biennium.

The Subcommittee approved a restoration of \$11.4 million of the 2% supplemental ending balance holdback that was included in the AMH original legislatively adopted budget for 2013-15. The agency expects to address the remaining \$1.9 million shortfall by eliminating the development of one 5-bed residential treatment home, and delaying the opening of two others by a few months.

If House Bill 4124 becomes law, the current youth suicide prevention coordinator in Public Health will move to AMH and take on a number of new responsibilities, including a new focus on intervention. AMH will coordinate with Public Health on funding to continue a position in Public Health that will continue to focus on prevention. Both these positions will have an important role to play as the new investments in children's mental health are implemented.

The Subcommittee approved a General Fund appropriation of \$50,000 for the Buckley sobering center of Willamette Family Treatment Services. This is one-time funding to establish a pilot at the center, in order to determine the efficacy of allowing the sobering center to sign clients up for the Oregon Health Plan, if appropriate, as well as the effectiveness of including peer support navigators on staff to facilitate on-going treatment. AMH and the center will report the results of the pilot during the 2015 legislative session.

House Bill 5201 includes an additional \$2.9 million General Fund to increase rates for Alcohol and Drug adult residential facilities. House Bill 5008 (2013) set aside a special purpose appropriation of \$3.3 million for this purpose, and the agency was directed to do a study on both the youth and adult systems. The agency presented that study to the 2014 Legislature. The \$2.9 million will allow the agency to increase the indigent (non-Medicaid) rate for adults from the current \$105.50 per bed per day up to \$120.00 (both rates include the current \$20 rate for room and board). This increase will be for both years of the biennium. This brings the indigent rate up to the same level as the Medicaid fee-for-service and CCO rate. In addition, the room and board rate will be increased from \$20.00 to \$24.00 for indigent, fee-for-service and CCOs,

effective January 1, 2014. It is not ideal to increase the room and board rate, because that portion of the total rate cannot be matched. However, an increase in the treatment portion of the rate would flow through the CCO budgets, and they are capped at this time.

The Subcommittee approved the agency plan to spend the remaining \$10 million Other Funds revenues from the increase in the cigarette tax that was dedicated to community mental health programs. AMH plans to invest \$5 million of the funding in rental assistance programs through the current structures within the agency. For the other \$5 million, AMH plans to partner with the National Alliance on Mental Illness (NAMI) and the Oregon Residential Provider Association (ORPA) for development of supported housing for individuals with mental illness, who will seek out grants, gifts and contributions to supplement the state money to support this development. The state funding will provide not more than 20% of the costs for the construction of the housing, and up to 50% of the start-up costs of the housing. The partners will convene a work group to advise in developing and prioritizing the list of projects. In order to ensure that the money available is invested this biennium, timelines will be established for funds to be committed. Funds that are not committed by those deadlines will be utilized for additional rental assistance funding. The partners have agreed on a Memorandum of Understanding that lays out these details. This \$5 million funding is to be considered one-time for purposes of 2015-17 budget development. The Subcommittee approved the following budget note:

Budget Note:

Addictions and Mental Health, the National Alliance on Mental Illness, and the Oregon Residential Provider Association shall report back to each of the interim Emergency Board meetings on the status of all projects being considered or funded. The report should include information on each project, including location, timelines, various funding sources, number of housing units total, and number of housing units specifically for persons with mental illness. At least 10 days before a contract is signed by the Oregon Health Authority for any specific project, the agency shall notify Legislative Leadership and the Legislative Fiscal Office of their intent to sign a contract and the details of the contract.

Public Health

The budget adjustments included in House Bill 5201 for Public Health reflect a net increase of \$1.2 million General Fund, and a decrease of \$0.1 million Other Funds limitation and \$0.5 million Federal Funds limitation.

The Subcommittee approved a restoration of \$0.7 million, or all of the 2 % supplemental ending balance holdback that was included in the Public Health legislatively adopted budget. The special purpose appropriation for dental pilot projects of \$100,000 was eliminated and placed in this budget. This will enable the agency to provide staff to implement the program originally envisioned in Senate Bill 738 (2011). The Subcommittee also approved additional funding of \$270,000 for breast and cervical cancer screening services. About \$100,000 of this was needed to backfill funding shortfalls recently communicated to the agency by the Komen Foundation.

Public Health programs had three fee schedules that were approved by the Department of Administrative Services and implemented administratively during the interim. These were ratified as a part of House Bill 5202, the statewide fee ratification bill. These include the fees related to the regulation of non-transplant anatomical research recovery organizations, registration of medical marijuana facilities, and the Oregon State Public Health Laboratory fees for communicable disease tests.

The Subcommittee approved the following budget note:

Budget Note:

The Oregon Health Authority will report to the Emergency Board in September 2014 on plans to appoint a state dental director as part of the agency's 2015-17 budget request. The report will include a position description outlining the duties of this position and the estimated costs to fill the position.

Central and Shared Services/Statewide Assessments and Enterprise-wide Costs

The budget adjustments included in House Bill 5201 reflect net decreases of \$7.3 million General Fund, \$3.6 million Other Funds limitation and \$81.9 million Federal Funds limitation.

The reductions in these budgets are primarily the result of transferring the budget and staff from the Office of Health Policy and Research and the new Transformation Center, both currently in Central Services, over to the new Health Policy Programs. These actions are included in the rebalance. The Subcommittee approved a restoration of \$1.8 million, or all of the 2% supplemental ending balance holdback that was included in the legislatively adopted budget.

An updated Package 091 Statewide Administrative Savings was approved in which a portion of the agency's reduction was moved from services and supplies to personal services. These reductions are all in Shared Services, which for OHA are the information technology services provided to both OHA and the Department of Human Services. One of the strategies for efficiencies is to do more projects with agency staff, rather than hiring contractors to perform the work at a higher price. The agency also expects to reduce expenditures related to mainframe printing by working with recipients to see which reports are still used. There are also opportunities to standardize software tools and reduce the amount of annual maintenance and support required.

Department of Human Services

The Department of Human Services (DHS) 2013-15 budget is organized through eight budget structures and five appropriations. The budget structures reflect five direct program areas (Self Sufficiency, Child Welfare, Vocational Rehabilitation, Aging and People with Disabilities, and Developmental Disabilities) and three program support functions (Central, Shared Services, and State Assessments and Enterprise-wide Costs). In addition, the agency's rebalance plan approved by the Subcommittee as part of House Bill 5201 adds a new program structure – Program Design Services – to consolidate and better capture cross-program work, such as licensing and regulatory oversight. The funding and position transfers from the programs to the new structure drive decreases in program budgets that net out across the agency; these should not be confused with program reductions.

Setting aside statewide budget issues, the agency's rebalance plan, which was presented at the January 2104 meeting of the Interim Joint Committee on Ways and Means, generates a net savings of \$0.5 million General Fund. This net positive position reflects both costs and savings tied to agency caseloads, costs per case, and a slightly higher federal percentage for FMAP eligible costs. It also accounts for new program funding gaps identified since the 2013 session, including \$2.2 million General Fund needed to avoid going to a wait list for Vocational Rehabilitation services and \$1.9 million General Fund to cover a 6% interim rate increase for employment services providers in the Developmental Disabilities program.

The rebalance plan also contains several technical adjustments/transfers within the agency and between DHS and the Oregon Health Authority. Internal DHS changes, mostly tied to allocating costs and budget with more precision than was used during budget development, net to zero. There is a net increase of \$1.8 million General Fund in the DHS budget due to the realignment of costs between DHS and OHA associated with mental health facility development and outreach services; changes between the two agencies net to zero.

In addition to rebalance adjustments, the Subcommittee approved a direct restoration of \$11.4 million General Fund withheld in the legislatively adopted budget for the 2% supplemental ending balance; this represents 25% of the holdback amount. Through the use of one-time revenues in both OHA and DHS, including \$3.3 million Federal Funds in bonus revenue received under the Supplemental Nutrition Assistance Program (SNAP) and \$15.0 million Federal Funds in Temporary Assistance for Needy Families (TANF) carryforward revenue, the remaining holdback of \$34.2 million General Fund was covered. The Subcommittee did not make any program reductions, but budget risks do remain. These include changes to caseloads, final sequestration actions, potential federal penalties, litigation and other legal costs, and federal rule changes affecting home care workers.

The Subcommittee approved several other changes (additions) beyond the rebalance and statewide actions. The most significant of these is a series of investments totaling \$8.3 million General Fund (\$9.4 million total funds), which is sourced by \$26 million General Fund set aside side for senior programs during the 2013 Special Session. Overall, House Bill 5201 increased the agency's budget by \$66.8 million General Fund, \$27.0 million Other Funds, and \$125.4 million total funds, or about 2.4% overall. The net change to positions is an increase of 1 position and a decrease of 3.49 FTE, which reflects a mix of phase-ins, position eliminations, and classification changes.

A more detailed description of each program area follows. For context regarding caseload changes, the 2013-15 legislatively adopted budget was based on the spring 2013 caseload forecast; the rebalance adjustments in House Bill 5201 factor in caseload and cost changes tied to the fall 2013 forecast, published in December 2013.

Self Sufficiency

The budget adjustments approved by the Subcommittee for the Self Sufficiency (SS) program reflect net decreases of \$19.8 million General Fund, \$13.1 million Other Funds limitation, \$7.4 million Federal Funds limitation, and 77 positions (77.00 FTE).

Rebalance adjustments account for projected growth of about 3% in the overall 2013-15 SNAP caseload from the previous forecast. Embedded in the net increase is a decrease in the number of SS households receiving SNAP, while the number of Aging and People with Disabilities households receiving SNAP continues to grow. Caseloads in the TANF cash assistance programs are down 1% from the spring numbers, at a biennial average of 33,591 families. Overall caseload savings of \$1.0 million General Fund are included in the agency's rebalance calculation. Budget and program risks for these economically-sensitive caseloads include final structure of the SNAP program upon federal reauthorization, growth in participating households associated with increased Medicaid enrollments under the Affordable Care Act, and possible extension of unemployment benefits.

To support implementation of a new program structure, Program and Design Services (PDS), \$9.4 million total funds and 75 positions (75.00 FTE) are transferred out of SS and into PDS. Technical adjustments and transfers account for a decrease of \$44.9 million total funds and 2

positions (2.00 FTE); the largest portion is \$33.4 million totals funds associated with moving the budget for the Modernization project from SS to the Office of IT Business Supports, which is part of the new PDS budget structure.

The Subcommittee approved use of \$18.3 million in one-time federal revenues (SNAP bonus and TANF carryforward) to help fully restore the 2% holdback. Another change outside the agency's rebalance plan is a one-time investment of \$200,000 General Fund to support nutritional programs. Half of the money will help increase the number of summer and after-school food sites by at least 50 over the next year through offering technical assistance and implementing practices to help sustain programs into the futures. The other half, which will be matched with \$100,000 in federal dollars, will be used to help seniors and other eligible groups or individuals with low participation rates access SNAP benefits, update online tools, and develop client education materials around protecting benefit cards.

An increase of \$2,200,000 Other Funds expenditure limitation was also approved by the Subcommittee and should allow the Employment Related Day Care (ERDC) program to achieve an average monthly caseload of 8,500 over the last 12 months of the biennium. One-time funding to support this increase is available due to a higher than anticipated amount of Child Care Development Fund (CCDF) carryforward revenue from the 2011-13 biennium. While the budget continues to be inadequate to meet program needs – there are currently over 800 families on the waiting list – the Legislature is committed to improving program effectiveness and flexibility within available resources. With this goal in mind, the Subcommittee adopted the following budget note:

Budget Note:

The Oregon Department of Education - Early Learning Division's Office of Child Care and the Department of Human Services will convene a workgroup of stakeholders to develop a set of policy recommendations on how best to modify the ERDC program to provide child care subsidies to working parents enrolled in post-secondary higher education. The agencies will report these recommendations back to the Emergency Board in May 2014; the expectation is that rulemaking to implement legislatively approved changes would follow soon after. Program elements to address within the recommendations should include eligibility criteria, work hour requirements, school attendance verification, academic standing expectations, limitations on assistance, TANF leavers, families having children with special needs, program exit income limits, child care quality, data reporting, caseload priorities, and program evaluation.

Child Welfare

The budget adjustments approved by the Subcommittee for the Child Welfare (CW) program reflect an increase of \$16.5 million General Fund, a decrease of \$1.6 million Other Funds limitation, an increase of \$5.2 million Federal Funds limitation, and a decrease of 18 positions (18.00 FTE).

While forecasts for individual CW caseloads have fluctuated between the spring and fall forecasts, these changes did not drive any budget adjustments. The rebalance does include savings from a change in the Federal Medical Assistance Percentage (FMAP), decreasing General Fund need by \$0.9 million. Based on the latest federal estimates, the 2013-15 biennial average FMAP rate will increase from 63.06% to 63.40%, which reduces the state contribution percentage. This change also affects other agency programs.

The approved budget adjustments include \$0.3 million General Fund to correct an error made in 2013-15 budget development. In the agency's 2011-13 budget, a one-time revenue source (federal grant) was used to sustain the post-adoptions program. However, the one-time action was not

reversed as planned. A portion of the FMAP General Fund savings is used to cover the oversight and maintain the program at the 2013-15 legislatively adopted level. Also included is spending authority and eight limited duration positions (8.00 FTE) to support work under a federal grant. DHS received legislative approval to apply for the grant, which supports recruiting resource families for foster children, in May 2013.

To support the new program structure, Program and Design Services (PDS), \$4.0 million total funds and 26 positions (16.00 FTE) are transferred out of CW and into PDS. Technical adjustments and transfers account for an increase of \$1.7 million total funds for this program.

The Subcommittee added \$800,000 General Fund to establish necessary legal, financial, and administrative foundations to launch a Pay for Prevention effort in Oregon. The money will go to the Center for Evidence-Based Policy at OHSU for conducting economic research, developing provider capacity, and building a performance measurement, accounting and reporting system. The ultimate goal of the initiative is to identify young children most at-risk, implement evidence-based supports designed to achieve specific outcomes, and invest in performance-based contracting that links payment to outcomes through social impact financing. The Subcommittee approved the following budget note related to the project:

Budget Note:

By January 1, 2015, the Office of the Governor and the Center for Evidence-Based Policy at OHSU will jointly report to the Human Services Subcommittee of the Emergency Board on how the Pay for Prevention money is being spent and project progress. In addition, OHSU shall solicit independent review from a panel of experts on key components of project as it is developed. The report will include a summary of the independent panel's assessment of the project, including project design, research validity, and project viability.

Vocational Rehabilitation

The Subcommittee approved budget adjustments for Vocational Rehabilitation (VR) equating to increases of \$3.6 million General Fund, \$6,703 Other Funds limitation, \$3.0 million Federal Funds limitation, and 10 positions (8.80 FTE).

The fall forecast projects caseload to be about 2% lower than the spring estimate. Any savings associated with fewer clients is masked by higher than expected costs per case, which have grown by about 5% from the spring 2013 forecast. Cost drivers include higher expenses for some services, such as technology devices for communication and mobility, and new referrals having needs more complex or costly to support than existing clients.

To maintain the program and cover these costs without moving to an Order of Selection (priority wait list), the budget approved by the Subcommittee includes an additional \$2.2 million General Fund. The extra state dollars will have implications for future Maintenance of Effort (MOE) requirements. No additional federal dollars are available at this time; there is a slight possibility re-allotment funds could be accessed later in the biennium to reduce General Fund and MOE impacts.

Technical adjustments and transfers account for an increase of \$2.7 million total funds and 10 positions (8.80 FTE); the bulk of the dollars and the positions are associated with moving work tied to the Governor's Executive Order 13-04 (employment services) from Developmental Disabilities to VR.

Aging and People with Disabilities

The budget adjustments approved by the Subcommittee in House Bill 5201 for the Aging and People with Disabilities (APD) program reflect an increase of \$12.2 million General Fund, a decrease of \$6.8 million Other Funds limitation, a decrease of \$4.0 million Federal Funds limitation, and a decrease of 78 positions (82.25 FTE).

Overall caseloads in long-term care facilities are down about 3% from the level funded in the legislatively adopted budget. In-home caseloads are just over 8% higher than budgeted, while both community-based facilities' and nursing facilities' caseloads are lower, by about 10% and 2%, respectively. After costs associated with higher acuity levels and lower than expected provider tax revenues, these changes drive a net savings of \$4.0 million General Fund. In addition to the caseload savings, APD also has \$6.6 million General Fund in savings due to the FMAP change noted previously.

While the caseload trends are consistent with APD policy goals, the Department is concerned that it may be too early in the biennium to safely capture and repurpose the associated savings. Risks include the implementation of the K Plan and the initiative to reduce nursing facility bed capacity.

To support creation of the new program structure, \$15.6 million total funds and 85 positions (85.00 FTE) are transferred out of APD and into PDS. Technical adjustments and transfers account for an increase of \$4.8 million total funds for this program and mostly consist of a net \$4.7 million total funds increase realigning budgets between APD and OHA (Addictions and Mental Health).

In addition to the rebalance changes and statewide adjustments, this program was significantly impacted by the Subcommittee's approval of funding for several senior programs or initiatives, including two pieces of legislation. While APD is not always the directed recipient or primarily participant in these projects, the bulk of the money does flow through DHS and the program has a key role in coordinating activities and reporting. The following section discusses the funding decisions and associated expectations.

Recommendations for 2013 Special Session \$26 million Special Purpose Appropriation for Seniors

During the 2013 Special Session in September 2013, as part of HB 5101 (2013), \$26.0 million General Fund was set aside in a Special Purpose Appropriation (SPA) to the Emergency Board for Board for future distribution to programs or activities supporting seniors. Over the four months between that action and the 2014 Legislative Session, the Department worked with a group of stakeholders to develop a list of proposals for funding allocation.

The Subcommittee approved most of the requested projects; the remaining unallocated General Fund will stay in the Senior SPA for future distribution by the Emergency Board. The legislative intent is that the proposals currently unfunded will have first priority (i.e., portions of the SPA are set aside for these) in the next round of SPA allocations, which is likely to occur as soon as May 2014. Projects are also funded with the caveat that, for ongoing initiatives, overall 2015-17 costs should not exceed the initial 2013 Special Session revenue allocation of \$41 million plus standard inflation. This funding level restriction should be considered as the both the executive and legislative branches develop budgets for the 2015-17 biennium. In addition, some projects were approved as one-time expenditures and are generally not expected to roll forward; these programs have been identified as such in the following narrative. However, these programs' status as one-time expenditures may be evaluated for

ongoing status based on program development and the level of resources available in 2015-17. If included as ongoing, the program costs should be clearly identifiable within the 2015-17 budget build.

Funding recipients are expected to work with the Department of Human Services to provide to the Joint Committee on Ways and Means Subcommittee on Human Services during the 2015 Legislative Session a coordinated update on what was accomplished with these investments.

Projects or proposals brought forward for consideration for Senior SPA funding, along with the Subcommittee's recommendation are summarized in the table below. Subsequent narrative sections describe expectations regarding each project or proposal and next steps, including future allocations for projects for which funds are not being authorized at this time. For reference, summary item numbers 1 through 21 correspond in order to the consensus list developed by the Campaign for Oregon's Seniors & People with Disabilities; three other proposals were added as issues surfaced during the legislative session.

2013 Special Session \$26M Appropriation Allocation Recommendations

Item #	Item	Who	Request	Approved	Recommendation
1	Geriatric/disability/mental health and addiction specialists for each county	OHA - AMH	2,800,000	-	Hold; present plan in May
2	Senior mental health training	OHA - AMH	700,000	-	Hold; present plan in May
3	Enhance funding for elder and disabled transit services	ODOT	4,000,000	4,000,000	Fund
4	Geriatric medication competency training pilot	DHS - APD	1,600,000	1,600,000	Fund but require May report on RFP
5	Training on Alzheimer's/dementias	DHS - APD	450,000	450,000	Fund but require May report on RFP
6	Training for caregivers on challenging behaviors	DHS - APD	400,000	400,000	Fund but require May report on RFP
7	First responder training on Alzheimer's/dementias	DHS - APD	500,000	500,000	Fund but require May report on RFP
8	Increase access to caregiver training statewide	DHS - APD	350,000	350,000	Fund but require May report on RFP
9	Restoration of Quality Care Fund sweep	DHS - APD	1,000,000	1,000,000	Restore fund but report on spending plan
10	SB 1553 - Public Guardianship Program	LTCO	949,183	949,183	Fund
11	Re-establish annual reporting for long term care	DHS - APD	750,000	100,000	Partially fund; report back in May
12	Develop community based care capacity index	DHS - APD	750,000	100,000	Partially fund; report back in May
13	General Assistance study	DHS - APD	112,000	112,000	Fund
14	Collect/analyze data on via annual BRFSS report	OHA - PH	30,000	30,000	Fund
15	Cash Oregon Grant for technology upgrade	DHS - APD	150,000	150,000	Fund
16	Personal Incidental Fund (PIF) from \$30 to \$100 per month	DHS - APD	1,300,000	539,728	Fund at \$60 and start indexing
17	Initiate SB 870 to expand coverage for younger persons with disabilities	DHS - APD	3,000,000	-	Hold; present pilot plan in May
18	HB 4151 - Elder Abuse Task Force Recommendation	DHS - APD	149,365	149,365	Fund
19	Adult Protection Services Technology Investment	DHS - APD	1,000,000	-	Hold; pending business case and plan
20	AAAs - Replace Older Americans Act lost due to sequestration cuts	DHS - APD	2,500,000	-	Hold; pending actual awards/need
21	AAAs - Evidence based health promotion/disease prevention	DHS - APD	1,250,000	1,250,000	Fund
22	Senior Property Tax Deferral Hardship Fund (\$313,800)	DHS - APD	313,800	313,800	Fund
23	SB 1542 - Expand Home Care Registry to Private Payers	DHS - APD	1,281,297	1,281,297	Fund
24	Medford Senior Center Nutrition Program	DAS	20,000	20,000	Fund
Total			25,355,645	13,295,373	

SPA Amount	26,000,000	26,000,000
SPA Remaining	644,355	12,704,627

Items #1 and #2 were not funded by the Subcommittee, pending a report to the May meeting of the Emergency Board. The current \$3.5 million General Fund (\$7.0 million total funds) proposal places geriatric and disability mental health and addiction specialists in all 36 county mental health programs, in order to improve services for older adults with mental illness. Behavioral health services for older adults rest in systems of care that are often times disconnected. These systems include Aging and People with Disabilities long term care, home health, Medicare (including Medicare Advantage plans) and community mental health programs. The geriatric specialist would focus on the coordination of these systems within their community to meet the behavioral health needs of older adults. In its report, the Oregon Health Authority will provide a more detailed plan for both the services and training components of the proposal. The report should include how to structure the program and how to best work with Coordinated Care Organizations, in both the short and long run, considering that these staff would service Medicare clients as well as those eligible for Medicaid. The report should also address the appropriate level of staffing in different areas of the state.

Item #3 was funded, adding \$4.0 million General Fund for senior and disabled transportation budgeted in the Department of Transportation (ODOT). The program distributes funds to counties, transit districts, and tribes that provide transportation services for older adults and persons with disabilities. This infusion brings total funding for the biennium to \$11.0 million, which is about 30% of the estimated need as evaluated in a 2010 study by Portland State University.

Items #4 through #8, at a total of \$3.3 million General Fund were approved on a *one-time* basis for the Department of Human Services to fund a broad scale Caregiver Training Initiative designed to provide consistent, standardized, and evidence-based training across all segments of the long term care services and supports (LTCSS) continuum. The growing population of seniors and people with disabilities requires a well-trained workforce and the development of additional community resources for both professional and family caregivers. Curriculum, trainings, and capacity development will be targeted in the following areas:

- Geriatric medication management and competency
- Alzheimer's disease and related dementias
- Challenging behaviors in non-dementia populations
- Specialized training for the public safety workforce on Alzheimer's and related dementias
- Enhanced training and access to caregiver trainings in underserved areas, populations and settings

DHS will issue a Request for Proposal (RFP) for organizations with the demonstrated experience, competency, expertise and ability to develop, coordinate and conduct trainings, curriculums and materials to reach all the intended audiences identified. Organizations will need to demonstrate the ability to work statewide with both private and public entities in the development, coordination and successful execution of this initiative. Programming should be aligned with current state policy initiatives.

The Subcommittee directed DHS to report back to the Emergency Board in May on the status of the RFP with the goal being for trainings to commence by July 2014.

For **Item #9**, the Subcommittee approved a *one-time* allocation of \$1.0 million General Fund, which allows Quality Care Fund resources to be directed back from general program expenditures to training, technical assistance, quality improvement initiatives and licensing activities. The fund's revenue comes from long-term care facility licensing fees and civil penalties. Prior to formally allocating Quality Care Fund dollars to projects or initiatives, the Department will report to the Emergency Board on the spending plan, the process used to decide on fund allocations,

and the overall plan for managing the fund going forward. This report will be provided in May 2014 in conjunction with the training RFP report discussed above.

Funding for **Item #10**, which was approved in the amount of \$949,183 General Fund, will support a new Public Guardian and Conservator program within the office of the Long Term Care Ombudsman (LTCC). The program is created with passage of SB 1553 (2014); more information on the program is included in the LTCO narrative.

Items #11 and #12 take care of two data and information reporting gaps in the Department of Human Services. The approved initial allocation of \$200,000 General Fund (\$100,000 per project) will allow DHS to develop a work plan and more precise costing for these projects before returning to request the remaining funding. The first project will restart annual Nursing Facility and Community Based Care utilization reports, which were discontinued in 2009 due to budget reductions. The second effort is around improving availability of quality information on community based care facilities, through development of a website that will contain information on facility location, type of care, vacancies and customer satisfaction.

An allocation of \$112,000 General Fund (**Item #13**) will allow the Department of Human Services, with stakeholder participation, to conduct a **one-time** study on and make recommendations for a program designed to provide temporary cash assistance to low-income, childless adults with disabilities (at a minimum). The Department will report the study results and program recommendations to the appropriate House and Senate policy committees and the Joint Committee on Ways and Means during the 2015 Legislative Session. The report should include, but not be limited to, data on special populations, such as homeless persons, veterans, and individuals nearing or on post-prison supervision, eligibility requirements, services offered, desired outcomes, cost avoidance, potential pilot projects, and a menu of program/funding options.

Item #14, funded at \$30,000 will go to the Oregon Health Authority (Public Health) to pay for collecting specialized data on cognitive data and caregiving under the Behavioral Risk Factor Surveillance System. These data are particularly important for the Oregon Chapter of the Alzheimer's Association and its efforts to advance research, to provide and enhance care and support, and to reduce the risk of dementia through the promotion of brain health.

The Subcommittee approved **Item #15**, at \$150,000 General Fund, which supports a grant to Cash Oregon to support the one-time purchase of new laptops for the AARP Tax Aide program. This is a volunteer program that helps low-income seniors prepare tax returns.

Each Medicaid nursing facility resident has a monthly allowance to cover personal incidental needs (**Item #16**); this amount has been set at \$30 per month for the last twenty years. The Subcommittee approved \$539,728 General Fund and \$952,472 Federal Funds for DHS to increase the amount to \$60 per month, effective July 2014. Beginning with the 2015-17 biennium, the Department is directed to begin indexing personal incidental fund increases in nursing facilities to annual increase percentages published by the social security administration. (The approved recommendation was modified from the original proposal, which requested an increase to \$100 without any indexing.)

For **Item #17**, the Subcommittee retained \$3.0 million General Fund within the SPA for distribution in May 2014, after DHS and stakeholders have brought forward a pilot project plan to make Oregon Project Independence services available to people with disabilities, as envisioned by SB 870 (2005). To provide more specific direction, the Subcommittee adopted the following budget note:

Budget Note:

The Department of Human Services shall develop a pilot project to expand Oregon Project Independence services to people with disabilities effective July 1, 2014. To meet this timeline, the Department will need to make emergency rules; that rulemaking will incorporate the feedback of appropriate stakeholders and advocates. Appropriate parties include, but are not limited to, the Oregon Association of Area Agencies on Aging and the Disability Services Advisory Councils. The pilot shall cover a regionally diverse area of Oregon, including both rural and metropolitan areas. The Department shall report on the pilot project plan, which should cover structure, outreach, evaluation, and budget components, and request release of SPA funds at the May 2014 meeting of the Emergency Board.

The Department of Human Services will study and report back to the appropriate 2015 legislative committees on the potential to transition Oregon Project Independence to a statewide, age neutral program that assesses and serves seniors and persons with physical disabilities based on need. This report will include cost projections for the expansion of services, projected caseloads and demographic distribution.

Funding for *Item #18*, which was approved in the amount of \$149,365 General Fund, \$118,680 Federal Funds, and two positions (1.34 FTE) supports work under HB 4151 (2014). This bill sets consistent timelines for investigations of elder abuse cases by DHS and directs the agency to adopt policies and guidelines for the development of an electronic database of abuse reports and to standardize investigation and reporting practices. A registry of persons working or seeking to work in elder care facilities will be implemented by January 1, 2015; the registry will augment the existing criminal background check system. One of the new positions will work with the standardized practices and protocols related to the abuse reporting and investigating components of the bill. The other one will be responsible for the registry work, including coordination with reporting facilities and development of registry rules.

Discussions regarding various systems and worker registries led the Subcommittee to adopt an associated budget note:

Budget Note:

The Department of Human Services will report to the Joint Committee on Ways and Means during the 2015 Legislative Session on the “ready to work” registry and associated rules required under HB 4151 (2014). The report should also include a section on the feasibility of developing a comprehensive (diverse care settings) and multipurpose (employment, referral, certification, background check, abuse) care worker registry, including potential efficiencies, benefits, costs, and barriers. Lastly, the report will provide an update on how administrative rule changes required by HB 3168 (2013) have reduced duplicative background check counts and decreased waiting times for applicants.

The Subcommittee did not fund *Item #19*, which is a DHS request for funding to begin developing a new system to manage adult protective services activities. At a minimum, the Department plans to finalize a system business case and explore opportunities for federal funding before returning the Emergency Board to report on the project’s progress and potentially request at least an initial allocation from the Senior SPA.

Item #20 is a request for \$2.5 million in state funding to backfill anticipated federal reductions in federal Older Americans Act dollars. Several programs administered by the local Area Agencies on Aging (AAA) are potentially affected by sequestration reductions. However, federal funding award letters have not yet been received and more recent information indicates that the shortfall may be much less than expected, if not completely mitigated. Accordingly, the Subcommittee did not allocate funds, but welcomes a SPA allocation request during the interim, depending on final federal awards and demonstrated need. Not taking action on potential sequester reductions at this time is also consistent with the approach taken in other areas of the DHS budget, where sequester impacts continue to remain an unfunded risk.

The Subcommittee approved **Item #21**, which provides \$1,250,000 General Fund to support statewide AAA efforts in the areas of Evidence Based Health Promotion and Disease Prevention. These programs serve individuals with long-term services and supports needs regardless of eligibility for entitlement programs. The money will be distributed through formula, with each region putting together a plan for that will include anticipated numbers of individuals served and outcomes.

To address back taxes for certain seniors who were allowed back into the senior property tax deferral program after being disqualified in 2011, the Subcommittee added \$313,800 General Fund (**Item #22**). The plan is for these *one-time* funds to flow through DHS to one or more Area Agencies on Aging to perform eligibility and authorize payments.

Funding for **Item #23**, which was approved in the amount of \$1,281,297 General Fund and five positions (1.41 FTE) supports work under SB 1542 (2014). This bill requires the Home Care Commission (budgeted within DHS) to administer a program enabling private payers to buy home care services from the Commission's home care registry. Currently, only individuals covered by Medicaid may hire caregivers through the registry. Under the program, the Commission will be responsible for a variety of tasks, including publicizing the registry, screening workers, setting standards, providing referrals, establishing rates, and paying wages. After General Fund pays for *one-time* start-up costs, the program will be self-supporting; the bill allows the Commission to set consumer rates at levels that support recovering up to 107% of program costs.

For **Item #24**, the Subcommittee approved \$20,000 General Fund in the DAS budget as a *one-time* pass-through to the Medford Senior Center to cover emergency need in its senior nutrition program. Last fiscal year, the program provided 17,159 meals for the elderly in Jackson County.

Developmental Disabilities

The budget changes approved by the Subcommittee in House Bill 5201 for the Developmental Disabilities (DD) program reflect net increases of \$21.9 million General Fund, \$1,291 Other Funds expenditure limitation, \$41.8 million Federal Funds expenditure limitation, and a decrease of 80 positions (78.80 FTE).

Both caseloads and cost per case in DD programs are expected to be higher than the previous forecast, driving an increase of \$10.8 General Fund (\$22.0 million Federal Funds). Caseload counts are growing and clients are moving between service categories, primarily because under the K Plan services must be provided to all eligible applicants. Costs per case are also going up due to increasing client acuity. While the legislatively adopted budget attempted to build in K Plan impacts, some elements, such as significantly more children entering the DD system or side effects of brokerages being pushed to capacity, were not anticipated in the previous forecast. These and other issues will continue to be risks moving forward.

The caseload associated costs are partially offset by FMAP rate savings of \$4.9 million General Fund and participation rate adjustments resulting in savings of \$1.3 million General Fund.

Other program costs covered in the rebalance include \$1.3 million General Fund (\$2.6 million total funds) to keep funding for the Community Developmental Disability Programs (CCDP) at 94% equity; a budget estimate error resulted in the equity level being underfunded. Another budget change provides \$1.9 million General Fund (\$5.2 million total funds) to cover a 6% interim rate increase for DD employment services providers; this item was included after discussion during November 2013 Legislative Days.

To support implementation of a new program structure, Program and Design Services (PDS), \$9.9 million total funds and 67 positions (67.00 FTE) are transferred out of APD and into PDS. Technical adjustments and transfers account for a decrease of \$4.4 million total funds and 13 positions (11.80 FTE) for this program.

Another technical change in this program area is a title clarification. To better characterize program clients, DHS is now referring to this program as Intellectual and Developmental Disabilities (I/DD).

The Subcommittee added \$490,000 General Fund (\$1,136,368 total funds) to cover a gap in some CDDP budgets due funding formula changes that left 11 of the programs with budgets below 2011-13 levels. This action corrects that disparity and supports program stability while the Department and the CDDPs are transitioning to a workload, instead of caseload, model for 2015-17 budget development.

Program Design Services

The Subcommittee approved the following budget for Program Design Services (PDS): \$20,225,454 General Fund, \$11,026,715 Other Funds, \$78,907,230 Federal Funds, and 253 positions (253.00 FTE). The idea behind establishing this new structure is to capture program design services and some direct services to DHS clients and programs that span across the Department's five major program areas. The budget is created primarily through budget transfers from other programs. The agency's plan is to increase both program utility and transparency by consolidating certain services, which include the following offices: Program Integrity, Licensing and Regulatory Oversight, IT Business Supports, Business Intelligence, and Continuous Improvement.

In addition to budget transfers, also included is an additional \$38 million Federal Funds expenditure limitation to leverage and spend additional federal match received for the Modernization technology project. The project is now housed in IT Business Supports; previously it was under the Self Sufficiency program.

Initially, the resources for each office were expected to continue to be part of each relevant program budget. However, due to budget and accounting system limitations, DHS was having difficulty providing managers and office customers with meaningful, timely, and accurate budget reports. For each program area receiving services, the Department will still be able to report on the nature and cost of services provided.

Central Services

The budget adjustments included in House Bill 5201 reflect the following net changes for Central Services: an increase of \$542,649 General Fund, a decrease of \$115,287 Other Funds expenditure limitation, and an increase of \$307,909 Federal Funds expenditure limitation. Embedded in these figures is a decrease of \$276,548 total funds associated with technical adjustments and transfers.

Shared Services

The Subcommittee approved a net increase of \$8.2 million Other Funds expenditure limitation and a net decrease of 9 positions (9.24 FTE). The changes are primarily due to technical adjustments and transfers, including five positions moving from APD and OHA-AMH to Shared Services. An increase of \$1.8 million Other Funds expenditure limitation would allow the budget to support activities in DHS and OHA program affected by 2013-15 policy option packages.

An updated Package 091 Statewide Administrative Savings was approved by the Subcommittee, and includes eliminating fourteen permanent full-time positions. The revised plan also attributes \$2 million in General Fund savings to lower leases, budgeted in Statewide Assessments and Enterprise-wide Costs, instead of Personal Services in Shared Services. The eliminated positions are as follows:

- Financial Services (3 positions, 3.00 FTE) – Principal Executive Manager D, Office Specialist 1, Administrative Specialist 2
- Shared Services Administration (1 position, 1.00 FTE) – Executive Support Specialist 2
- Performance Excellence (2 positions, 2.00 FTE) – Operations & Policy Analyst 3, Operations & Policy Analyst 4
- Human Resources (2 positions, 2.00 FTE) – Principal Executive Manager D, Human Resources Assistant
- Budget/Planning/Analysis (2 positions, 2.00 FTE) – Operations & Policy Analyst 3, Fiscal Analyst 2
- Communications (1 position, 1.00 FTE) – Operations & Policy Analyst 3
- Payment Accuracy & Recovery (3 positions, 3.00 FTE) – Revenue Agent 2, Administrative Specialist 2, Human Services Specialist 4

Statewide Assessments and Enterprise-wide Costs

The budget adjustments included in House Bill 5201 reflect the following net increases for this program unit: \$11.6 million General Fund, \$29.4 million Other Funds expenditure limitation, and \$7.6 million Federal Funds expenditure limitation. Within these numbers, technical adjustments and transfers account for an increase of \$6.0 million General Fund (\$11.2 million total funds), primarily to align the assessment budget with policy package changes in program budget structures.

In addition, the approved rebalance plan includes a request for \$30 million Other Funds expenditure limitation to support accessing a line of credit. For several biennia, the agency has used a line of credit and borrowed funds from the Treasury to finance prepayments and account for a lag in receipt of certain revenues, including provider taxes. As was done for the 2011-13 biennium, the Subcommittee requests that the Department of Administrative Services (DAS) unschedule the expenditure limitation to be accessed only as needed depending on cash flow issues. The DAS Chief Financial Office and the Legislative Fiscal Office will jointly approve any rescheduling.

An updated Package 091 Statewide Administrative Savings was approved by the Subcommittee, shifting \$2 million in General Fund savings to account for lower leases, instead of Personal Services savings. The agency identified a list of 99 leases that are set to expire over the course of the biennium and will track and document the savings expected to be achieved through improved contracting and negotiating tools. The

Department and the DAS Chief Financial Office has committed to holding budgets associated with these leases at assumed savings level for 2015-17 budget development, regardless of lease negotiation outcomes.

Long Term Care Ombudsman

The Subcommittee approved an increase of \$39,554 General Fund, which fully restores the agency's 2% supplemental ending balance holdback included in the legislatively adopted budget. The restoration will allow the agency to meet budget needs without jeopardizing implementation of Senate Bill 626 (2013), which expanded the duties of the Long Term Care Ombudsman to advocate for residents of care facilities who have mental illness or developmental disabilities.

No changes were needed to reconcile Package 091 Statewide Administrative Savings, leaving the placeholder budget category reductions intact.

To cover costs associated with Senate Bill 1553 (2104), which establishes the Public Guardian and Conservator within the office of the Long Term Care Ombudsman, the Subcommittee approved \$949,183 General Fund, 5 positions, and 2.25 FTE. This new program helps persons without relatives or friends willing or able to serve as guardians or conservators; services range from making care decisions to handling financial issues. Along with providing direct services, the program will set professional standards for and certify guardians and conservators, produce training materials, develop a volunteer program to assist the guardians and conservators, establish an eligibility process for program services, and work with local programs and organizations to provide services.

The fiscal impact includes Personal Services and related Services and Supplies for the following five positions: a Principal Exec/Manager D (Deputy Long Term Care Ombudsman), a Program Analyst 4 (Public Guardian), an Administrative Specialist 2, and two Program Analyst 2 positions (Deputy Public Guardian). Since the program starts mid-biennium, costs for 2015-17 are projected to more than double due to the additional year and anticipated growth. The budget estimate assumes a caseload of 165 clients/wards per year.

JUDICIAL BRANCH

Commission on Judicial Fitness and Disability

The Subcommittee increased General Fund appropriations by \$2,028 to restore 50% of the agency's 2% supplemental General Fund ending balance holdback.

Judicial Department

The Subcommittee increased General Fund appropriations by \$3,086,092 to restore approximately 49% of the agency's 2% supplemental General Fund ending balance holdback. The amounts of the holdback restored include a \$2 million restoration to Operations (approximately 37%). The Judicial Department's 2% ending balance holdbacks on pass-through appropriations received 25% restorations. General Fund increases to Mandated payments and to Third-party debt collection exceeded the 2% holdbacks to those programs. The Subcommittee appropriated \$762,585 General Fund to Mandated payments, to restore both the 2% supplemental General Fund ending balance holdback, and the 5% General Fund services and supplies reduction, included in the legislatively adopted budget. The Subcommittee appropriated \$250,000 General Fund to the Department, and an additional \$700,000 General Fund in a special purpose appropriation to the Emergency Board, for Third-party debt collection

costs. These costs vary with the amount of debt successfully collected. The special purpose appropriation serves as a set aside to provide additional funding if debt collection levels are high enough to make to the funds necessary. The Subcommittee also approved a \$1,300,000 General Fund special purpose appropriation to the Emergency Board for Operations support. The Department may request funds to finance one-time operations investments and service increases.

The Subcommittee reduced the General Fund appropriation for Judicial compensation by \$108,823, and the General Fund appropriation for Debt service by \$144,201. The Judicial Department carries forward any General Fund appropriations from the prior biennium that remain unspent. Carry-forwards in these two areas were larger than anticipated when the budget was approved in the 2013 session, resulting in funding levels that are higher than needed to fund program costs. The two General Fund appropriation reductions reduce support to the levels needed, and will not require any reduction in judicial compensation or debt service payments. The Subcommittee also approved a one-time \$50,000 General Fund appropriation for transfer to the Douglas County court facilities security account, to assist the county in providing needed security protection at the county courthouse. This appropriation will be phased out in the development of the Department's 2015-17 biennium current service level.

Finally, the Subcommittee approved a \$2,565,968 Other Funds expenditure limitation increase for grant-funded programs. The expenditure limitation increase will accommodate expenditure of both currently awarded grants, and of projected renewals of expiring grants at current levels, that support drug and specialty courts, pretrial release programs, and other initiatives. The grant funds are provided by the Criminal Justice Commission and non-state sources.

Public Defense Services Commission

The Subcommittee increased General Fund appropriations by \$4,868,381 to restore most of the agency's 2% supplemental General Fund ending balance holdback. The amounts of the holdback restored include a 75% restoration to the Appellate Division; 50% restoration to the Contract and Business Services Division; and a full restoration to Professional Services, the portion of the agency's General Fund that finances the Commission's purchases of trial-level public defense services provided by independent contractors and hourly-paid private sector attorneys.

The Subcommittee also increased the General Fund appropriation to the Contract and Business Services Division by \$48,631, to correct the support level for state government services charges in the agency budget. An error in the 2013-15 biennium Governor's recommended budget underfunded support for charges for payroll services.

LEGISLATIVE BRANCH

The Legislative Branch retains its General Fund reversions from the previous biennium. The legislatively adopted budget included anticipated reversions but adjustments are now needed after the actual amounts are known. The following adjustments are included in the bill:

- The Legislative Administration Committee is increased by \$251,000.
- The Legislative Assembly (Biennial Offices) is decreased by \$251,000.
- The Legislative Assembly (Members – Interim) is increased by \$275,000.
- The Legislative Assembly (Members – Session) is decreased by \$275,000.

- The Legislative Revenue Office is increased by \$13,000.
- The Legislative Fiscal Office is decreased by \$13,000.

The bill includes a restoration of 25% of the 2% supplemental ending balance holdback for all of the Legislative Branch agencies.

NATURAL RESOURCES

Department of Agriculture

The Subcommittee approved a one-time \$125,000 General Fund appropriation for use by Portland State University's Consensus Center to support a balanced task force to begin examining labeling requirements, liability, compensation, budgetary requirements and any other areas relating to genetically engineered agricultural products and recommend if new authorities or statutory changes are needed. The Subcommittee also approved a one-time \$65,000 General Fund appropriation to pay the costs necessary to establish administrative rules and put the program processes in place to be able to issue licenses and permits for industrial hemp production.

Other Funds expenditure limitation was increased by \$430,590 for the food safety program. These funds will be used to hire three new inspector positions (1.75 FTE), which will allow the Department to conduct food safety inspections of facilities on a shorter interval than is currently possible.

The Subcommittee approved the standard 25% restoration rate for the supplemental ending balance reductions, which resulted in the restoration of \$96,102 General Fund. The Subcommittee also approved an updated Package 091 Statewide Administrative Savings, which moved some of the Other Funds reductions from administrative support services to agency programs.

Columbia River Gorge Commission

The Subcommittee restored the full 2% supplemental ending balance holdback of \$17,820 General Fund for the Columbia River Gorge Commission. This action brings the Commission's 2013-15 budget back to parity with the budget adopted by the State of Washington for the agency.

Department of Energy

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating a part time Office Specialist 1 position (0.63 FTE) and reducing FTE on an Accounting Technician 3 position (-0.58 FTE).

House Bill 5201 includes a net of \$276,190 in additional Other Funds expenditure limitation, to facilitate the expenditure of lottery bond proceeds totaling \$10,152,380. Ten million dollars is intended to be deposited into the Jobs and Energy and Schools Fund and granted by the Oregon Department of Energy to Clean Energy Works Oregon, which will utilize the funding to facilitate the delivery of energy efficiency projects; \$152,380 is for bond-related costs.

Department of Environmental Quality

The Subcommittee approved a \$375,000 General Fund appropriation and three limited duration positions (1.04 FTE) to conduct air toxics monitoring in the Swan Island area. The funds will be used to operate a new air toxics monitor to better understand what air toxics people are exposed to in the vicinity of Swan Island. The monitoring work will continue into the first few months of the 2015-17 biennium, with a roll-up cost of \$120,389 General Fund and three limited duration positions (0.48 FTE).

The Subcommittee approved the standard 25% restoration rate for the supplemental ending balance reductions, which resulted in the restoration of \$130,726 General Fund. The Subcommittee also approved an updated Package 091 Statewide Administrative Savings, which moved some of the reductions from Agency Management to the Air, Water, and Land Quality programs and eliminated 2 positions and 2.50 FTE in Land Quality.

Department of Fish and Wildlife

The Subcommittee approved the transfer of \$613,000 Federal Funds from the Fish Division to Capital Improvement to comply with new federal rules that require states to hold title to any land acquired using federal funds from the Sportfish Restoration Fund. The Department has traditionally used a portion of these funds to partner with the Oregon State Marine Board to improve public boating access. In the past the funds were awarded and a local government held title to any land purchased as part of these projects. The Department will now have to hold title, but local governments will continue to manage and maintain these facilities. The Subcommittee also approved the transfer of \$183,000 Other Funds from the Fish Division to Capital Improvement to replace a condemned residence at the Cedar Creek Hatchery.

The Subcommittee approved the transfer of \$1,104,325 Federal Funds and \$359,548 Other Funds from the Wildlife Division to Capital Improvement to reflect plans to use these monies for land acquisition to increase hunter access, habitat improvement, and for capital improvements to existing facilities. The Federal Funds are from the Pittman Roberts Program (PR) which distributes revenue from a federal excise tax on sporting arms and ammunition. The Other Funds are necessary to meet PR match requirements.

The Subcommittee approved the standard 25% restoration rate for the supplemental ending balance reductions, which resulted in the restoration of \$73,671 General Fund. The Subcommittee also approved an updated Package 091 Statewide Administrative Savings, which eliminated 3 positions and 3.42 FTE in the Administrative Services Division.

State Forestry Department

The Subcommittee approved a restoration of \$457,618 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 50% of the initial holdback for Fire Protection and 25% of the initial holdback for Private Forests. No revisions were needed to implement Package 091 Administrative Savings, consistent with the original placeholder reduction.

The Subcommittee approved \$40 million General Fund to supplement the 2013-15 Department's Fire Protection Division appropriation. The funding covers the estimated state's share of \$75 million in net costs for the 2013 fire season. \$10 million is the deductible on the state's and landowners' insurance policy. The additional \$30 million covers costs that exceeded the state's \$10 million deductible, the landowners' \$10

million deductible, and the insurance policy \$25 million payout. The Department will reconcile the 2013 and 2014 fire seasons and report on total costs during the 2015 Legislative Session.

Department of Geology and Mineral Industries

The Subcommittee approved a restoration of \$12,880 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback.

The Subcommittee approved an updated Package 091 Administrative Savings, moving a portion, primarily in Other Funds expenditure limitation, from personal services to services and supplies.

Department of Land Conservation and Development

The Subcommittee approved a restoration of \$59,087 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback. Funds restored include \$24,653 in the grants program for grants, and \$34,434 in the operations and planning program for personal services.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating one position (0.75 FTE) and moving a portion of the reduction from personal services to services and supplies.

Land Use Board of Appeals

The Subcommittee approved a restoration of \$7,738 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback.

Department of State Lands

No revisions were needed to implement Package 091 Administrative Savings, consistent with the original placeholder reduction.

The Department is planning an agency-wide reorganization. The Subcommittee approved increasing the Department's Other Funds expenditure limitation by \$135,684. The purpose is securing professional services for business process mapping, review, and improvement recommendations, in support of the reorganization.

The South Slough National Estuarine Research Reserve has received a \$1 million grant award notice from the U.S. Fish and Wildlife Services. The grant will enable the Department to add 240 acres to Reserve property. The Subcommittee recommended increasing Federal Funds expenditure limitation by \$1 million and Other Funds expenditure limitation by \$58,700. The Other Funds provide part of the required match. The remaining match will be provided by in-kind work and contributions from supportive local entities.

State Marine Board

The Subcommittee approved an updated Package 091 Statewide Administrative Savings by taking all of the administrative savings in services and supplies. The Board did not have sufficient vacant positions to take additional cuts to personal services.

Parks and Recreation Department

The General Fund reduction taken for the 2% supplemental ending balance holdback was not restored.

No revisions were needed to implement Package 091 Administrative Savings, consistent with the original placeholder reduction.

Water Resources Department

House Bill 5201 includes a 25% restoration of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. The restoration will allow the Water Resources Department to fill a position in the Field Services Division that was held vacant in order to generate the required savings.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, reallocating among expenditure accounts to affect permanent administrative cost reductions. To accommodate the General Fund personal services reduction of \$58,076, a 0.50 FTE grant administration position was reduced to 0.25 FTE. Other Funds personal services reductions of \$28,742 and services and supplies reductions of \$39,053 are allocated entirely to services and supplies.

The Subcommittee included the following budget note:

Budget Note:

The Water Resources Department will dedicate up to \$2.25 million of the \$10 million net proceeds from the lottery bond sale as authorized by Senate Bill 5533 (2013) or utilize authority under Package 204 in Senate Bill 5547 (2013) for the purposes of matching federal funds for ongoing studies conducted by the United States Army Corps of Engineers to allocate stored water in the Willamette Basin Project Reservoirs and to conduct a comprehensive basin study by the United States Bureau of Reclamation in the Deschutes River Basin. Of the up to \$2.25 million, up to \$1.5 million shall be reserved for the Willamette Basin Project Reallocation and \$750,000 shall be reserved for the Deschutes Basin Comprehensive Basin Study. Any reserved funds remaining after the completion of these two studies shall be made available for other purposes of the Water Supply Development Account as authorized under Senate Bill 839 (2013).

Oregon Watershed Enhancement Board

The Subcommittee increased the Measure 76 Lottery Funds allocations from the Watershed Conservation Operating Fund to the Department of State Police by \$183,060 and the allocation to the Department of Agriculture by \$141,485 to fund state employee compensation changes. The Department of Fish and Wildlife and the Department of Environmental Quality will use existing Measure 76 fund balances to pay for state employee compensation changes and therefore did not need an increase in Lottery Funds allocation.

No revisions were needed to implement Package 091 Statewide Administrative Savings, consistent with the original placeholder reduction.

PUBLIC SAFETY

Department of Corrections

The Subcommittee restored \$26,043,835 General Fund, nearly the full 2% supplemental ending balance holdback. The funding allocation by division is unchanged from the legislatively adopted budget for 2013-15.

- \$17,849,890 in Operations and Health services
- \$4,342,090 in Community Corrections
- \$2,570,120 in Administration, general services, and human resources
- \$1,281,735 in Offender management and rehabilitation

The Capital Improvements 2% holdback was not restored.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating 2 positions and 2.00 FTE in information technology. A portion of the agency's reduction was also moved from personal services to services and supplies.

Criminal Justice Commission

The Subcommittee restored \$69,366 General Fund of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15; this amount represents 25% of the holdback. The Commission will utilize the restored funds for Attorney General costs related to rule-making implementation for the Justice Reinvestment Grant Program established in HB 3194 (2013).

An updated Package 091 Statewide Administrative Savings was approved, that included shifting the full amount of the reduction to services and supplies. This action was taken primarily because the agency's budget is 93% special payments and contains only 9 positions.

District Attorneys and Their Deputies

The Subcommittee restored the full 2% supplemental ending balance holdback of \$209,190 General Fund for the District Attorneys. This action was taken primarily because the agency's budget is 96% personal services and without the restoration the agency would need to reduce district attorney working days.

The Subcommittee added \$240,000 General Fund to the budget of the District Attorneys to provide a one-time \$5,000 compensation increase to the salary plan for each District Attorney effective July 1, 2014. It is the intent of the Subcommittee that this appropriation be used to increase the salary of each District Attorney by the \$5,000 amount regardless of what tier each District Attorney is currently in within the compensation plan.

Department of Justice

The Subcommittee restored the full 2% supplemental ending balance holdback of \$1,212,520 General Fund for the Department of Justice. The Subcommittee, however, repurposed the restoration by restoring the \$1.2 million in the following amounts for the following purposes:

- \$6,000 to the Office of the Attorney General and administration for Project Clean Slate

- \$87,865 to the Crime Victims' Services Division for Oregon Domestic and Sexual Violence Services
- \$25,043 to the Crime Victims' Services Division for Multidisciplinary Teams and Child Abuse Intervention
- \$1,992 to the Crime Victims' Services Division for the Address Confidentiality Program
- \$1,091,620 to the Criminal Justice Division for support of the Internet Crimes Against Children program, the Fusion Center, and district attorneys and law enforcement partners.

The addition of the General Fund to the Criminal Justice Division (\$793,340 personal services and \$298,271 services and supplies) will allow the Department to retain an existing forensic investigator position assigned to the Internet Crimes Against Children program, establish four limited duration positions (3.46 FTE; one PEM D and three Research Analysts) in support of Fusion Center operations once grant funding ends this biennium, and reestablish two permanent senior assistant attorney general positions (1.16 FTE) and establish one permanent criminal investigator position (0.50 FTE) to provide support to district attorneys and law enforcement partners.

In addition, the Subcommittee approved an increase of \$586,354 Other Funds (\$485,702 personal services and \$100,652 services and supplies) in the Criminal Justice Division for support of the Fusion Center. When the 2013-15 legislatively adopted budget was developed, the Department anticipated receiving grant funding through the Oregon Military Department, Office of Emergency Management, to partially support the Fusion Center. However, the grant award had not been made and the corresponding Other Funds expenditure limitation and position authority were not included in the budget. The Fusion Center continued to maintain operations and the agency now has received the first year grant award and is anticipating a second year award.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating a total of four positions and 3.54 FTE and making shifts between personal services and services and supplies. To better align the permanent administrative savings reductions, the Subcommittee made the following adjustments to the original placeholder reduction:

- Office of the Attorney General and administration – added a net \$87,993 Other Funds expenditure limitation increase (increased personal services by \$314,581 and decreased services and supplies by \$226,588) and eliminated 2 positions (2.00 FTE)
- General Counsel Division – reduced the Other Funds expenditure limitation by \$87,993 (personal services) and eliminated 1 position (0.54 FTE)
- Crime Victims' Services Division – no net dollar change, but increased personal services by \$3,400 Other Funds and decreased services and supplies by \$3,400 Other Funds, plus eliminated 1 position (1.00 FTE)

The Subcommittee also authorized \$135,000 General Fund to support the Oregon Crime Victims Law Center.

In addition, to gain a better understanding of work currently underway to identify and evaluate alternative funding models for the agency's programs providing legal support to state agencies, the Subcommittee approved the following budget note:

Budget Note:

Costs of legal representation in an increasingly complex modern legal system continue to drive agency budget and policy decisions. The Department of Justice has begun working with the Department of Administrative Services and agencies to

identify and evaluate alternative funding models to improve the stability, affordability, and effectiveness of legal costs for agencies and to encourage pro-active consultation with the Department by agencies.

As the Department of Justice continues with this effort, it shall prioritize developing options for legal services for the Child Welfare program and report on these efforts to the Joint Committee on Ways and Means during the 2015 legislative session. In addition, no later than September 1, 2014, the Department of Justice and the Department of Human Services will also provide a joint written status report to the Legislative Fiscal Office on the specific options under consideration and progress being made on the development of those options.

Oregon Military Department

The agency received a partial restoration of its 2% ending balance holdback that totaled \$151,000 General Fund. The funds are appropriated to the Operations program to support operations and maintenance costs at the Portland and Kingsley Field airbases. The restoration represents 59% of the initial holdback.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings. The agency was able to reduce its personal services by \$259,280 by eliminating one vacant permanent part-time Fiscal Analyst 3 position in the Administration program (0.50 FTE) and reducing overtime and temporaries. The remaining personal services reduction of \$164,517 was moved to services and supplies and capital outlay. The agency has a plan to find efficiencies in various services and supplies line-items, including in-state travel, office expense, employee training, publications, facilities maintenance, expendable property, as well as other line-items. The capital outlay reduction will be to the automotive and aircraft line-item where the agency has identified savings.

The Subcommittee established a \$385,000 Other Funds Capital Improvement expenditure limitation for the purchase of 1.46 acres of commercial property contiguous to the Department's Forest Grove Readiness Center compound. The property and building will be used as a field maintenance shop for Washington County's National Guard contingent. The source of the Other Funds is the agency's Capital Construction Account. This is a one-time expenditure limitation increase and will not continue into future biennia.

The Other Funds expenditure limitation for the Community Support program was increased by \$1,404,971 for the reimbursement of firefighting expenditures related to the 2013 fire season. This is a one-time expenditure limitation that is not to continue into future biennia.

As part of the agency's compensation plan funding, the Subcommittee approved \$734,800 in General Fund for the Operations program. This adjustment is to partially fund the difference between what the federal government will reimburse the state and recently concluded contract negotiations with the Portland and Kingsley Field airbase firefighter unions. This is a one-time appropriation and will not continue into future biennia.

Board of Parole and Post-Prison Supervision

The Subcommittee approved a restoration of \$19,825 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback.

The Subcommittee established a reservation within the general purpose Emergency Fund of \$350,000 for the Board of Parole and Post-Prison Supervision (BPPPS) for replacement of the Parole Board Management Information System (PBMIS). Allocation of the reservation is contingent upon the Board providing a project budget, project plan, and periodic status reports. BPPPS may request allocation of the reservation from the Emergency Board after the Legislative Fiscal Office approves the project budget and project plan.

Department of State Police

The Subcommittee restored \$2,351,854 General Fund of the 2% supplemental ending balance holdback for the Department of State Police. This represents 50% of the total 2% holdback. The agency will use the restored amount to fund the hire of 20 troopers and the purchase of 18 vehicles and associated equipment in September 2014.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating a total of one position and 1.50 FTE, permanently shifting funding for three administrative positions from General Fund to Other Funds, and reducing capital outlay for the Dispatch Centers and Information Technology Services.

Department of Public Safety Standards and Training

The Subcommittee approved an updated Package 091 Statewide Administrative Savings by taking all of the administrative savings in services and supplies.

Oregon Youth Authority

The Subcommittee approved a restoration of \$1,367,729 of the 2% supplemental ending balance holdback that was included in the agency's original legislatively adopted budget for 2013-15. That represents 25% of the initial holdback.

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, eliminating 5 positions and 2.79 FTE; these are administrative support type positions. A very small portion of the agency's reduction was also moved from personal services to services and supplies.

TRANSPORTATION

Department of Aviation

The Subcommittee approved an updated Package 091 Statewide Administrative Savings, moving a small amount from personal services to services and supplies.

Department of Transportation

The General Fund reduction taken for the 2% supplemental ending balance holdback was not restored. The Subcommittee approved an updated Package 091 Statewide Administrative Savings. A portion of the agency's reduction was moved from personal services to services and supplies.

The Seniors special purpose appropriation, described on page 47, provides \$4 million General Fund to the Department for additional Elderly and Disabled Transit support.

Summary of Emergency Board Action May 2014

The Legislative Emergency Board met on May 30, 2014 and considered an agenda of 52 items. The agenda included two requests for allocations from the general purpose appropriation made to the Emergency Board; one of which was approved. There were also six agency requests on the agenda for allocations from special purpose appropriations made to the Emergency Board, totaling \$13.7 million, \$10.6 million of which were allocated. Additional details on these allocations are described below. After the Emergency Board actions, the unallocated, unreserved balance of the general purpose Emergency Fund is \$26.1 million with a \$36.3 million balance in special purpose appropriations.

The agenda included 17 items that requested additional 2013-15 biennium authority to spend Lottery Funds, Other Funds, and Federal Funds (including two adjusting 2011-13 capital construction expenditure authority). The Emergency Board approved expenditure limitation increases of approximately \$44.4 million Other Funds (including \$38.1 million for the Department of Administrative Services to make payments to counties under the Strategic Investment Program) and \$7.7 million Federal Funds. The Emergency Board also authorized the establishment of three permanent positions (1.25 FTE), six limited duration positions (2.71 FTE), and an increase of 19.63 FTE to existing positions.

The agenda also included 14 agency reports which the Emergency Board acknowledged receiving (three of which were on consent – from the Departments of Human Services, Transportation, and Administrative Services). The Emergency Board heard 19 requests for the submission of federal grant applications (eleven of which were on consent – from the Oregon Health Authority, Criminal Justice Commission, and Departments of Justice, Parks and Recreation, Agriculture, and Transportation). Two of the grant application requests included approvals of associated expenditure limitation increases.

The following is a summary of significant Emergency Board actions taken at the May 2014 meeting:

Education

- Allocated \$700,000 to the Higher Education Coordinating Commission and \$2,299,999 to the Department of Administrative Services for the four Technical and Regional Universities from a special purpose appropriation made to the Emergency Board for costs associated with changes in the higher education system governance.
- Acknowledged receipt of a report by the Oregon Education Investment Board on the status of the P-20 Education State Longitudinal Data System project.
- Approved the submission of two five-year federal grant applications by the Department of

Education to the U.S. Department of Health and Human Services in the amount of \$9.75 million and to the U.S. Department of Education for up to \$3.75 million to address mental health issues in schools.

Human Services

- Allocated \$390,000 to the Oregon Health Authority from a special purpose appropriation made to the Emergency Board for senior services to cover senior mental health services and planning costs; the agency was also directed to return to the Emergency Board with a more detailed program plan.

- Allocated \$500,000 to the Department of Human Services from a special purpose appropriation made to the Emergency Board for senior services to cover adult abuse data system planning costs and directed the agency to report back to the Emergency Board on planning progress.
- Allocated \$3,000,000 to the Department of Human Services from a special purpose appropriation made to the Emergency Board for senior services to cover costs of a pilot project expanding Oregon Project Independence services to people with disabilities.
- Allocated \$2,016,628 to the Department of Human Services from a special purpose appropriation made to the Emergency Board for senior services to restore federal funding lost due to sequestration.
- Acknowledged receipt of a report from the Department of Human Services and the Department of Education on policy recommendations on how best to modify the Employment Related Day Care program to provide child care subsidies to working parents enrolled in post-secondary higher education.
- Approved, retroactively, the submission of a federal grant application by the Department of Human Services to the U.S. Department of Agriculture in the amount of up to \$750,308 to expand employment services to certain Supplemental Nutrition Assistance Program participants.
- Acknowledged receipt of a report by the Department of Human Services on caregiver training and the Quality Care Fund.
- Acknowledged receipt of a report by the Oregon Health Authority on mental health housing investments.

Public Safety and Judicial Branch

- Deferred a request for an allocation from the general purpose Emergency Fund by the Criminal Justice Commission of \$142,000 to fund a vacant position until later in the biennium, and approved increases in the Other Funds expenditure limitation of \$212,000 and the Federal Funds expenditure limitation of \$1,107,000 for Specialty Court grants.
- Acknowledged receipt of a report by the Judicial Department on compensation plan changes for the agency resulting from a classification study that reviewed 29 existing job classifications covering 151 positions.

- Acknowledged receipt of a report by the Military Department on Next Generation 9-1-1 and directed the agency to report back to the Emergency Board on the status of the project.

Natural Resources

- Increased the Other Funds expenditure limitation of the Department of State Lands by \$223,145 for fire suppression and recovery costs incurred in 2013.
- Increased the Other Funds expenditure limitation of the Department of State Lands by \$750,000 for remodeling the State Lands Building for consolidation of agency staff.
- Increased the Other Funds expenditure limitation of the Department of State Lands by \$235,000 for capital improvements to enhance Common School Fund lands revenue for two Harney County projects related to conversion of grazing land to agricultural land, with the understanding that \$195,000 of the limitation increase will be unscheduled until a water right is obtained.
- Approved the submission of a federal grant application by the Parks and Recreation Department to the U.S. Fish and Wildlife Service in the amount of \$970,000 to acquire 357 acres of coastal property in the Sand Lake area of Tillamook County.
- Approved, retroactively, the submission of three federal grant applications by the Oregon Watershed Enhancement Board to the U.S. Fish and Wildlife Service in the combined amount of \$3,000,000 for acquisition and restoration of coastal wetlands (China Camp Creek, Scholfield Creek, and Kilchis River).
- Approved, retroactively, the submission of a federal grant application by the Department of Fish and Wildlife to the U.S. Fish and Wildlife Service in the amount of \$1,000,000 for acquisition of 10,000 acres near the Lower Deschutes Wildlife Area to provide enhanced public access to hunting, fishing, and wildlife viewing.

Economic and Community Development

- Allocated \$98,700 from the general purpose Emergency Fund to the Department of Veterans' Affairs and authorized the establishment of one limited duration position to facilitate timely training and accreditation of County Veteran Service Officers.

- Approved, retroactively, the submission of a federal grant application by the Department of Housing and Community Services to the U.S. Department of Housing and Urban Development in the amount of \$2,335,000 for project-based rental assistance to make 80 units of affordable housing available to extremely low-income Oregonians with mental illness.
- Approved, retroactively, the submission of a federal grant application by the Oregon Business Development Department to the U.S. Small Business Administration in the amount of \$300,000 for funds available under the State Trade and Export Promotion program and increased the Federal Funds expenditure limitation by \$210,000, with the understanding the limitation increase will be unscheduled until the grant is received.

Transportation

- Established a \$278,841 Other Funds Capital Construction expenditure limitation and a \$1,590,307 Federal Funds Capital Construction expenditure limitation for the Department of Transportation to renovate the Salem baggage depot located adjacent to the Amtrak passenger rail station; the new limitations will expire at the end of the 2013-15 biennium.
- Increased the 2011-13 Other Funds Capital Construction expenditure limitation for the Department of Transportation by \$332,391 to complete the Bend Driver and Motor Vehicle Division field office project.
- Approved the submission of a federal grant application by the Department of Aviation to the Federal Aviation Administration in the amount of \$2,385,000, increased the Other Funds Capital Construction expenditure limitation by \$265,000, and increased the Federal Funds Capital Construction expenditure limitation by \$2,385,000 for improvements at the Cottage Grove State Airport.
- Increased the 2011-13 Other Funds Capital Construction expenditure limitation for the Department of Aviation by \$204,454 to cover unbudgeted administrative, legal, engineering, and well drilling expenses at the Aurora State Airport.

Consumer and Business Services

- Increased the Other Funds expenditure limitation for the Department of Consumer and Business

Services by \$402,411, authorized the reclassification of two existing permanent positions, and authorized the establishment of five limited duration positions (2.21 FTE) to support increases in workload driven by changes in the health insurance market and in construction inspection and permitting services.

- Acknowledged receipt of a report by the Construction Contractors Board on agency operations and directed the agency to report back to the Emergency Board in September.

Administration

- Acknowledged receipt of a report by the Secretary of State on costs associated with a data breach of the agency's web applications.
- Increased the Other Funds expenditure limitation of the Treasurer of State by \$580,732 and authorized the establishment of two permanent full-time positions (0.83 FTE) for the creation of an Information Security Management program within the agency.
- Increased the Other Funds expenditure limitation of the Treasurer of State by \$111,967 and authorized the establishment of one permanent full-time position (0.42 FTE) to support the Oregon 529 College Savings Network program.
- Increased the Other Funds expenditure limitation for the Department of Administrative Services by \$38,110,951 for distributions to counties of funds from the Shared Services Fund related to the Strategic Investment Program; \$37.8 million of the amount is to be provided to Washington County.
- Increased the Other Funds expenditure limitation for the Government Ethics Commission by \$133,560 for costs associated with development of an electronic reporting system for statements of economic interest.
- Acknowledged receipt of a report by the Governor's Office on positions loaned from other agencies, funded with resources from other agencies, or currently vacant.
- Allocated \$1,684,947 from a special purpose appropriation made to the Emergency Board for the Oregon State Library, increased the Other Funds expenditure limitation by \$264,471 for endowment and donation funds and by \$2,857,191 for state agency assessments, increased the Federal Funds expenditure limitation by \$2,409,329, and authorized an

increase of 19.63 FTE for existing positions for second fiscal year operational costs of the agency.

- Acknowledged receipt of a report from the Department of Revenue on the Core System Replacement project and directed the agency to report back to the Emergency Board in September

on its readiness to proceed with implementation of Phase I of the project.

- Acknowledged receipt of a report by the Department of Administrative Services on uniform rent rates and approved the rates for the 2015-17 biennium.

Emergency Fund Balance Summary		
	Agency Requests	Full Board Action
General Purpose Emergency Fund		
Appropriation (after 2014 Session adjustments)	30,000,000	30,000,000
Allocations to date	0	0

Certificate

May 30, 2014

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 291.326(1)(a), (b), (c), and (d); ORS 276.390; ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on May 30, 2014, took the following actions:

1. Secretary of State

Acknowledged receipt of a report from the Secretary of State on the costs associated with a data breach of the agency's web applications.

2. Treasurer of State

Increased the Other Funds expenditure limitation for the Treasurer of State established by section 1(1), chapter 558, Oregon Laws 2013, Administrative expenses of State Treasury operations, by \$580,732 and authorized the establishment of two permanent full-time positions (0.83 FTE) for an Information Security Management Program.

3. Treasurer of State

Increased the Other Funds expenditure limitation for the Treasurer of the State established by section 1(2), chapter 558, Oregon Laws 2013, Administrative expenses of the Oregon 529 College Savings Network, by \$111,967 and authorized the establishment of one permanent full-time position (0.42 FTE).

4. Office of the Governor

Acknowledged receipt of a report from the Office of the Governor on "loaned," "other funded," and vacant positions.

5. Judicial Department

Acknowledged receipt of a report from the Judicial Department on compensation plan changes, with the understanding that the fiscal impact of the compensation plan changes will be separately identified in the 2015-17 biennium Chief Justice's recommended budget.

6. Oregon Education Investment Board

Acknowledged receipt of a report from the Oregon Education Investment Board and the Department of Education on the status of the P-20 Education State Longitudinal Data System project.

7. Department of Education

Approved the submission of two federal grant applications by the Department of Education: to the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, in the amount of up to \$9,750,000 for a Project AWARE grant to address mental health issues; and to the U.S Department of Education,

Office of Elementary and Secondary Education, in the amount of up to \$3,750,000 for a School Climate Transformation grant.

8. Higher Education Coordinating Commission

Allocated \$700,000 from the special purpose appropriation made to the Emergency Board by section 37(1), chapter 118, Oregon Laws 2014, to supplement the appropriation made to the Higher Education Coordinating Commission by section 1, chapter 634, Oregon Laws 2013, for costs associated with the Commission's statutory responsibilities, with the understanding that \$92,000 of the amount would be unscheduled by the Department of Administrative Services; and allocated \$2,299,999 from the special purpose appropriation made to the Emergency Board by section 37(1), chapter 118, Oregon Laws 2014, to supplement the appropriation made to the Department of Administrative Services for use by the Oregon University System by section 1(1), chapter 564, Oregon Laws 2013, Public university support, for payments to the four Technical and Regional Universities for increased costs of Shared Services provided centrally and for cost of services previously provided by the Chancellor's Office.

9. Oregon Health Authority

Acknowledged receipt of a report from the Oregon Health Authority on the \$5 million investment in mental health housing.

10. Oregon Health Authority

Allocated \$390,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Oregon Health Authority by section 1(1), chapter 668, Oregon Laws 2013, Programs, for senior mental health services planning and training.

11. Oregon Health Authority

Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the U.S. Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, in the amount of up to \$3 million a year for three years to continue a referral and voucher system that allows individuals with substance use disorders to select preferred providers for recovery support services.

12. Oregon Health Authority

Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$575,000 a year for five years, to fund infrastructure and strategic partnerships to support school-, home-, and health systems-based efforts to ensure access to comprehensive asthma control services for Oregonians.

13. Oregon Health Authority

Approved the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention, National Center for Injury Prevention and Control, in the amount of up to \$400,000 a year for three years, to enhance the Prescription Drug Monitoring Program; and to evaluate state level laws, policies, and regulations to prevent prescription drug misuse, abuse, and overdose.

- 14. Oregon Health Authority**
Approved the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention, National Center for Injury Prevention and Control, in the amount of up to \$270,000 a year for five years, to work with the Department of State Police and the State Medical Examiner to collect and study data on violent deaths in order to better support violence prevention efforts.
- 15. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Department of Health and Human Services, Substance Abuse and Mental Health Services, in the amount of up to \$736,000 a year for five years, to continue statewide and tribal youth suicide prevention and early intervention strategies grounded in public-private collaboration.
- 16. Department of Human Services
Department of Education**
Acknowledged receipt of a report from the Department of Human Services and the Department of Education on policy recommendations for how best to modify the Employment Related Day Care program to provide child care subsidies to working parents enrolled in post-secondary higher education.
- 17. Department of Human Services**
Approved, retroactively, the submission of a federal grant application by the Department of Human Services to the U.S. Department of Agriculture in the amount of up to \$750,308 to expand employment services to certain Supplemental Nutrition Assistance Program participants.
- 18. Department of Human Services**
Acknowledged receipt of a report from the Department of Human Services on Nursing Facility and Community Based Care.
- 19. Department of Human Services**
Acknowledged receipt of a report from the Department of Human Services on caregiver training and the Quality Care Fund.
- 20. Department of Human Services**
Allocated \$500,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Department of Human Services by section 1(3), chapter 675, Oregon Laws 2013, Aging and people with disabilities and developmental disabilities programs, for adult abuse data system planning costs, with the understanding that \$300,000 of the amount will be uncommitted by the Department of Administrative Services, with instructions that the agency to report to the Emergency Board in September 2014 on planning progress.
- 21. Department of Human Services**
Allocated \$3,000,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the

appropriation made to the Department of Human Services by section 1(3), chapter 675, Oregon Laws 2013, Aging and people with disabilities and developmental disabilities programs, for a pilot project expanding Oregon Project Independence services to people with disabilities.

22. Department of Human Services

Allocated \$2,016,628 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Department of Human Services by section 1(3), chapter 675, Oregon Laws 2013, Aging and people with disabilities and developmental disabilities programs, to restore Older Americans Act federal funding lost due to sequestration.

23. Military Department

Acknowledged receipt of a report from the Military Department on the status of the Next Generation 9-1-1 Project, with instructions that the agency report to the Emergency Board in September 2014 on the status of the project.

24. Criminal Justice Commission

Approved, retroactively, the submission of a federal grant application by the Criminal Justice Commission to the U.S. Department of Justice, Office of Justice Programs, in the amount of up to \$1.75 million for justice reinvestment initiative programs.

25. Criminal Justice Commission

Increased the Other Funds expenditure limitation established for the Criminal Justice Commission by section 2, chapter 497, Oregon Laws 2013, by \$212,000 for specialty court grants, and increased the Federal Funds expenditure limitation established for the Criminal Justice Commission by section 3, chapter 497, Oregon Laws 2013, by \$1,107,000 for specialty court grants.

26. Department of Justice

Approved, retroactively, the submission of a federal grant application by the Department of Justice in an amount not to exceed \$250,000 to conduct a statewide survey of current recipients of Victims of Crime Act funding and to identify small scale technology projects to improve services for victims.

27. Housing and Community Services Department

Approved, retroactively, the submission of a federal grant application by the Housing and Community Services Department to the U.S. Housing and Urban Development Department in the amount of \$2,335,000 for Section 811 Project Rental Assistance for extremely low-income Oregonians with mental illness or disability.

28. Department of Veterans' Affairs

Allocated \$98,700 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to supplement the appropriation made to the Department of Veterans' Affairs by section 1(1), chapter 509, Oregon Laws 2013, services provided by the Department of Veterans' Affairs, and authorized the establishment of one limited duration position (0.50 FTE) for training and certification of county veteran service officers.

- 29. Oregon Business Development Department**
Approved, retroactively, the submission of a federal grant application by the Oregon Business Development Department to the U.S. Small Business Administration in the amount of \$300,000 for funds available under the State Trade and Export Promotion program, and increased the Federal Funds expenditure limitation established for the Oregon Business Development Department by section 4(1), chapter 622, Oregon Laws 2013, Business, innovation and trade, by \$210,000 with the understanding that the Department of Administrative Services will unschedule the expenditure limitation pending award of the grant.
- 30. Department of Consumer and Business Services**
Increased the Other Funds expenditure limitation established for the Department of Consumer and Business Services by section 1, chapter 452, Oregon Laws 2013, by \$402,411; and authorized the reclassification of two existing permanent positions and the establishment of five limited duration positions (2.21 FTE) to support the increase in workload driven by changes in the health insurance market and to manage the increase in construction inspection and permitting services; with instructions.
- 31. Parks and Recreation Department**
Approved, retroactively, the submission of a federal grant application by the Parks and Recreation Department to the U.S. Department of Transportation in the amount \$9.5 million to continue work on portions of the Historic Columbia River Highway State Trail.
- 32. Parks and Recreation Department**
Approved the submission of a federal grant application by the Parks and Recreation Department to the U.S. Fish and Wildlife Service, National Coastal Wetlands Conservation Grant Program in the amount of \$970,000 for coastal land acquisition.
- 33. Parks and Recreation Department**
Approved the submission of a federal grant application by the Parks and Recreation Department to the National Park Service Historic Preservation Fund in the amount of \$25,000 to document historical places associated with populations that have been underrepresented in traditional historical narratives.
- 34. Department of State Lands**
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(1), chapter 449, Oregon Laws 2013, Common School Fund programs, by \$223,145 for 2013 fire suppression costs.
- 35. Department of State Lands**
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(4), chapter 449, Oregon Laws 2013, Capital improvements, by \$750,000 for capital improvements to the State Lands Building.
- 36. Department of State Lands**
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(4), chapter 449, Oregon Laws 2013, Capital improvements, by \$235,000 for capital improvements on state rangeland, with the understanding that the

Department of Administrative Services will unschedule \$195,000 of the expenditure limitation pending notification of the agency receiving the required water right for the proposed project.

37. Department of Agriculture

Approved the submission of a federal grant application by the Department of Agriculture to the U.S. Fish and Wildlife Service in an amount not to exceed \$200,000 to assist livestock producers in undertaking proactive, nonlethal activities to reduce the risk of livestock losses and to compensate for livestock losses due to wolf predation.

38. Department of Fish and Wildlife

Approved, retroactively, the submission of a federal grant application by the Department of Fish and Wildlife to the U.S. Fish and Wildlife Service, Cooperative Endangered Species Conservation Fund, in the amount of \$1,000,000 for acquisition of 10,000 acres near the Lower Deschutes Wildlife Area.

39. Oregon Watershed Enhancement Board

Approved the submission of three federal grant applications by the Oregon Watershed Enhancement Board to the U.S. Fish and Wildlife Service, National Coastal Wetlands Conservation Grant Program, totaling \$3,000,000 for wetlands acquisition and restoration.

40. Department of Transportation

Approved the submission of a federal grant application by the Department of Transportation to the Federal Highway Administration in an amount not to exceed \$250,000 for a fuels tax evasion grant.

41. Department of Transportation

Established for the 2013-15 biennium a Federal Funds Capital Construction expenditure limitation for the Department of Transportation in the amount of \$1,590,307 and established for the 2013-15 biennium an Other Funds Capital Construction expenditure limitation for the Department of Transportation in the amount of \$278,841 for renovating the Salem Baggage Depot located adjacent to the Amtrak passenger rail station in Salem, Oregon.

42. Department of Transportation

Acknowledged receipt of a report from the Department of Transportation on the Oregon Innovative Partnerships Program.

43. Department of Transportation

Increased the Other Funds Capital Construction expenditure limitation established for the Department of Transportation by section 3, chapter 79, Oregon Laws 2012, by \$332,391 to complete the Bend Driver and Motor Vehicle Division field office project.

44. Department of Aviation

Approved the submission of a federal grant application by the Department of Aviation to the Federal Aviation Administration in the amount of \$2,385,000 for improvement to the Cottage Grove State Airport; and increased the Federal Funds Capital Construction

expenditure limitation established for the Department of Aviation by section 2(2), chapter 727, Oregon Laws 2013, Oregon Department of Aviation, Cottage Grove State Airport runway rehabilitation, by \$2,385,000 to expend grant funds on the project and increased the Other Funds Capital Construction expenditure limitation established for the Department of Aviation by section 1(9), chapter 727, Oregon Laws 2013, Oregon Department of Aviation, Cottage Grove State Airport runway rehabilitation, by \$265,000 to expend matching state funds on the project.

45. Department of Aviation

Increased the Other Funds Capital Construction expenditure limitation established for the Department of Aviation by section 2, chapter 5, Oregon Laws 2011, by \$204,454 for the Aurora Air Traffic Control Tower project.

46. Oregon State Library

Allocated \$1,684,947 from the special purpose appropriation made to the Emergency Board by section 4(1), chapter 723, Oregon Laws 2013, to supplement the appropriation made to the Oregon State Library by section 1, chapter 500, Oregon Laws 2013, for operations in the state fiscal year 2015; increased the Other Funds expenditure limitation established for the Oregon State Library by section 2, chapter 500, Oregon Laws 2013, by \$264,471 for operations in the state fiscal year 2015; increased the Other Funds expenditure limitation established for the Oregon State Library by section 3, chapter 500, Oregon Laws 2013, by \$2,857,191 for operations paid by revenues from assessments on other state agencies in the state fiscal year 2015; increased the Federal Funds expenditure limitation established for the Oregon State Library by section 4, chapter 500, Oregon Laws 2013, by \$2,409,329 for operations in the state fiscal year 2015; and authorized an increase in full-time positions (19.63FTE).

47. Department of Revenue

Acknowledged receipt of a report from the Department of Revenue on the Core System Replacement Project, with instructions that the agency report to the Emergency Board in September 2014 documenting its readiness to proceed with a successful implementation of Phase-I of the project.

48. Construction Contractors Board

Acknowledged receipt of a report from the Construction Contractors Board on agency operations, with instructions that the agency to report back to the Emergency Board in September 2014.

49. Department of Administrative Services

Acknowledged receipt of a report from the Department of Administrative Services on compensation plan changes.

50. Department of Administrative Services

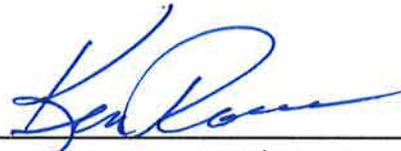

Approved the 2015-17 uniform rent rates as proposed by the Department of Administrative Services.

51. Department of Administrative Services

Increased the Other Funds expenditure limitation established for the Department of Administrative Services by section 2(10), chapter 627, Oregon Laws 2013, Shared Services Fund, by \$38,110,951 for payments to counties from the Strategic Investment Program Shared Services Fund.

52. Oregon Government Ethics Commission

Increased the Other Funds expenditure limitation established for the Oregon Government Ethics Commission by section 1(2), chapter 453, Oregon Laws 2013, Electronic reporting system, by \$133,560, with the understanding that the Department of Administrative Services will unschedule the expenditure limitation pending finalization of contracts for the project and with instructions that the Commission report to the Emergency Board in September 2014 on the status of the project.

Summary of Emergency Board Action September 2014

The Legislative Emergency Board met on September 17, 2014 and considered an agenda of 58 items. The agenda included four requests for allocations from the general purpose appropriation made to the Emergency Board, including one from a reservation; all of which were approved. There were also two agency requests on the agenda for allocations from special purpose appropriations made to the Emergency Board, totaling \$3.4 million, all of which was allocated. Additional details on these allocations are described below. After the Emergency Board actions, the unallocated balance of the general purpose Emergency Fund is \$28.3 million (including \$3.5 million in reservations) with a \$32.9 million balance in special purpose appropriations.

The agenda included 13 items that requested additional 2013-15 biennium authority to spend Other Funds and Federal Funds and one item requesting a transfer of expenditure limitation between programs within an agency. The Emergency Board approved expenditure limitation increases of approximately \$6.2 million Other Funds (including \$4.7 million for the Department of Justice) and \$0.8 million Federal Funds. The Emergency Board also authorized the establishment of one permanent position (0.38 FTE) and three limited duration positions (0.75 FTE).

The agenda also included 20 agency reports which the Emergency Board acknowledged receiving. The Emergency Board heard 20 requests for the submission of federal grant applications (thirteen of which were on consent – from the Oregon Health Authority [7], the Judicial Department, and the Departments of Justice, Parks and Recreation, Human Services [2], and Consumer and Business Services). One of the grant application requests included approvals of associated expenditure limitation increases.

The following is a summary of significant Emergency Board actions taken at the September 2014 meeting:

Education

- Acknowledged receipt of a report by the Oregon Education Investment Board on the status of the P-20 Education State Longitudinal Data System project.
- Approved, retroactively, the submission of a federal grant application by the Office of Student Access and Completion to the U.S. Department of Education in the amount of \$1.4 million for a College Access Challenge Grant.
- Approved, retroactively, the submission of a federal grant application by the Department of Community Colleges and Workforce Development to the U.S. Department of Labor in the amount of \$6 million for a five year Workforce Innovation Grant.

Human Services

- Allocated \$3,110,000 to the Oregon Health Authority from a special purpose appropriation made to the Emergency Board for senior services for older adult mental health and addictions coordinators, and authorized the establishment of one permanent, full-time position (0.38 FTE).
- Increased the Other Funds expenditure limitation for the Oregon Health Authority by \$496,541 and authorized the establishment of three, full-time limited duration positions (0.75 FTE) to support the current workload in the Oregon Medical Marijuana Dispensary Program.
- Acknowledged receipt of a report by the Oregon Health Authority on mental health housing investments.

- Allocated \$267,400 to the Department of Human Services from a special purpose appropriation made to the Emergency Board for senior services to produce Nursing Facility and Community Based Care utilization reports.
- Acknowledged receipt of reports by the Department of Human Services on U.S. Department of Labor rule changes affecting direct care workers who assist older adults and people with disabilities and on development of a new adult abuse data system.
- Acknowledged receipt of a report by the Department of Human Services on recommended Employment Related Day Care program changes, with direction to the agency to postpone any policy changes pending additional discussion during the 2015 legislative session.

Public Safety and Judicial Branch

- Increased the Other Funds expenditure limitation of the Department of Justice by \$4.7 million and approved the transfer of Other Funds and Federal Funds expenditure limitations between programs to rebalance the agency's 2013-15 legislatively approved budget, with the understanding that the Department of Administrative Services will unschedule \$1.5 million General Fund, \$12.2 million Other Funds, and \$21.6 million Federal Funds.
- Acknowledged receipt of a report by the Military Department on Next Generation 9-1-1 and directed the agency to report back to the Emergency Board on the status of the project.
- Acknowledged receipt of a report by the Oregon Youth Authority on a 10-year Plan for Close Custody Facilities, with the expectation that the agency will report on facilities planning and the Youth Reformation System during the 2015 legislative session.
- Allocated \$318,019 from a reservation established within the general purpose Emergency Fund to the Board of Parole and Post-Prison Supervision for the replacement of the Parole Board Management Information System.
- Increased the Federal Funds expenditure limitation of the Department of Public Safety Standards and Training by \$123,721 for the expenditure of a grant award from the federal Assistance to Firefighters grant program for the purchase of two Mobile Firefighter Ventilation Training props.

- Acknowledged receipt of a report by the Judicial Department on compensation plan changes for the agency resulting from the advanced date of a scheduled 2% cost of living adjustment by three months.
- Acknowledged receipt of a report by the Commission on Judicial Fitness and Disability on compensation plan changes that increased the Executive Director's salary.

Natural Resources

- Increased the Other Funds expenditure limitation of the Department of State Lands by \$190,000 to rehabilitate 2014 rangeland fire damage; by \$87,300 to continue a business process mapping, review, and improvement project; and by \$140,000 for a business model study for the Elliott State Forest.
- Transferred \$900,000 of Federal Funds expenditure limitation for the Department of Fish and Wildlife from the Fish Division to the Administration Division to increase hunter education classes and improve awareness of hunting opportunities.
- Approved, retroactively, the submission of two federal grant applications by the Department of Energy to the U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy totaling \$442,648 for the 2014 State Energy Program competitive awards.
- Acknowledged receipt of a preliminary report by the Department of Forestry on the 2014 fire season, with the expectation that the agency will report again in December 2014 on the fire season and potentially request allocation of resources to cover forest fire response costs.

Economic and Community Development

- Allocated \$659,300 from the general purpose Emergency Fund to the Housing and Community Services Department to meet demand for counseling services associated with the Oregon Foreclosure Avoidance Program; the allocation is expected to continue payments to counseling agencies at least through March 2015 when the program needs will be reevaluated.
- Increased the Federal Funds expenditure limitation of the Department of Veterans' Affairs by \$100,000 due to receipt of additional grant funds from the U.S. Department of Veterans' Affairs for transportation of veterans in highly rural areas.

- Approved the submission of a federal grant application by the Employment Department to U.S. Department of Labor in the amount of \$396,437 to improve the Short-Time Compensation Program.
- Acknowledged receipt of a report by the Oregon Business Development Department on proposed replacement Key Performance Measures to measure the effectiveness of the agency's small business assistance programs; and approved the new Key Performance Measures and targets.

Consumer and Business Services

- Increased the Other Funds expenditure limitation for the Board of Accountancy by \$200,000 to cover contract investigator and Attorney General costs.
- Increased the Other Funds expenditure limitation of the Board of Chiropractic Examiners by \$120,868 to cover costs associated with increased legal expenses, IT projects, and personal services.
- Increased the Federal Funds expenditure limitation for the Public Utility Commission by \$309,200 in order to spend the remainder of an American Recovery and Reinvestment Act grant.
- Approved, retroactively, the submission of a federal grant application by the Department of Consumer and Business Services for the Cycle IV Health Insurance Review Grant, and increased the Federal Funds expenditure limitation for the agency by \$300,000 for the grant award expected to be spent during the 2013-15 biennium.
- Acknowledged receipt of a report by the Construction Contractors Board on agency operations and directed the agency to report back to the Legislature during the 2015 session.

Administration

- Acknowledged receipt of a report by the Office of the Governor on a plan to mitigate the economic impact of the closure of the Blue Mountain Recovery Center in Pendleton.
- Approved, retroactively, the submission of a federal grant application by the Secretary of State to the National Historic Publications and Records Commission in the amount of \$43,696 for two years for funds available through the State and National Archival Partnership Program.
- Acknowledged receipt of a report by the Department of Administrative Services on the implementation of compensation plan changes, primarily due to the advance in date of a

scheduled cost of living adjustment by three months.

- Acknowledged receipt of reports by the Department of Administrative Services on the state's Certificates of Participation debt service savings and Lottery Bond debt service savings as a result of refinancing the debt.
- Acknowledged receipt of a report by the Department of Administrative Services on unanticipated expenditures the Department plans to include in a future Other Funds rebalance request for the Emergency Board in December or Legislature next session.
- Acknowledged receipt of a report by the Government Ethics Commission on its development of an electronic reporting system for statements of economic interest and directed the agency to report again in December 2014.
- Acknowledged receipt of a report by the Department of Revenue on the Core System Replacement project and the agency's readiness to proceed with the project's planned phase-1 implementation in November 2014.
- Acknowledged receipt of a report by the Oregon State Lottery on the feasibility of establishing a dedicated lottery raffle game to support veterans' programs.

Legislative Branch

- Established a General Fund appropriation for the Department of Administrative Services, based on a request by the Legislative Fiscal Office, and allocated \$511,996 from the general purpose Emergency Fund to the newly established appropriation for payment as a grant to TrackTown USA for costs associated with public safety at the International Association of Athletics Federations World Junior Championships held in Eugene during the summer of 2014.
- Increased the Other Funds expenditure limitation for the Military Department, Office of Emergency Management by \$212,500, based on a request by the Legislative Fiscal Office, to grant funds from the Oregon Local Disaster Assistance Loan and Grant Account to the Vernonia School District to assist with payments on debt obligations due to the construction of a replacement school facility.
- Increased the Other Funds expenditure limitation for the Military Department, Office of Emergency Management by \$62,500, based on a request by the Legislative Fiscal Office, to grant funds from the Oregon Local Disaster Assistance Loan and

Grant Account to the City of Westfir for deepening of a water intake pipe.

- Allocated \$100,000 from the general purpose Emergency Fund to the Department of Administrative Services for use by Oregon State University's Endophyte Services Laboratory,

based on a request by the Legislative Fiscal Office, for research involving the export of straw for forage to the Middle East, with a recommendation that any future state funding require a minimum dollar for dollar match with non-public funds.

Oregon Legislative Emergency Board
Certificate

September 17, 2014

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 286A.160(3); ORS 291.326(1)(a), (b), (c), and (d); ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on September 17, 2014, took the following actions:

- 1. Office of the Governor**
Acknowledged receipt of a report from the Office of the Governor on a plan to mitigate the economic impact of the closure of the Blue Mountain Recovery Center.
- 2. Secretary of State**
Approved, retroactively, the submission of a federal grant application by the Secretary of State to the National Historic Publications and Records Commission in the amount of \$43,696 for two years, for funds available under the State and National Archival Partnership program.
- 3. Judicial Department**
Approved, retroactively, the submission of a federal grant application by the Judicial Department to the U.S. Department of Justice, Office on Violence Against Women in the amount of up to \$400,000 for the Family Court of the Multnomah County Circuit Court.
- 4. Judicial Department**
Acknowledged receipt of a report from the Judicial Department on compensation plan changes.
- 5. Commission on Judicial Fitness and Disability**
Acknowledged receipt of a report from the Commission on Judicial Fitness and Disability on compensation plan changes.
- 6. Department of Community Colleges and Workforce Development**
Approved, retroactively, the submission of a federal grant application by the Department of Community Colleges and Workforce Development to the U.S. Department of Labor in the amount of \$6,000,000 for a five year Workforce Innovation Grant.
- 7. Oregon Education Investment Board**
Acknowledged receipt of a report from the Oregon Education Investment Board on the status of the P-20 Education State Longitudinal Data System project.

- 8. Office of Student Access and Completion**
Approved, retroactively, the submission of a federal grant application by the Office of Student Access and Completion to the U.S. Department of Education in the amount of \$1,400,000 for a College Access Challenge Grant.
- 9. Oregon Health Authority**
Acknowledged receipt of a report from the Oregon Health Authority on the \$5 million mental health housing investment.
- 10. Oregon Health Authority**
Allocated \$3,110,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Oregon Health Authority by section 1(1), chapter 668, Oregon Laws 2013, Programs, for older adult mental health and addictions coordinators, and authorized the establishment of one permanent full-time position (0.38 FTE) for Addictions and Mental Health.
- 11. Oregon Health Authority**
Increased the Other Funds expenditure limitation established for the Oregon Health Authority by section 2(1), chapter 668, Oregon Laws 2013, Programs, by \$496,541, and authorized the establishment of three full-time limited duration positions (0.75 FTE) for the Oregon Medical Marijuana Dispensary Program.
- 12. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$350,000 a year for five years to improve identification, screening, and treatment of individuals at high risk of developing hereditary cancers.
- 13. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$4 million a year for four years to support implementation of approaches to prevent obesity, diabetes, heart disease, and stroke and to reduce health disparities among adults.
- 14. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to U.S. Administration for Community Living, Administration on Aging, in the amount of up to \$250,000 a year for two years to increase the number of older adults who participate in evidence-based community programs to reduce falls.
- 15. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in an amount of up to \$350,000 a year for two years to improve and expand Oregon's vaccine management system's interface with the CDC.

- 16. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$412,000 a year for three years to reduce childhood lead poisoning.
- 17. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$1 million a year for two years to improve interoperability with Electronic Health Record systems.
- 18. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$397,764 a year for five years to monitor and guide efforts to prevent work-related injuries, illnesses, and fatalities.
- 19. Department of Human Services**
Acknowledged receipt of a report from the Department of Human Services on U.S. Department of Labor rule changes affecting direct care workers who assist older adults and people with disabilities.
- 20. Department of Human Services**
Allocated \$267,400 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Department of Human Services by section 1(3), chapter 675, Oregon Laws 2013, Aging and people with disabilities and developmental disabilities programs, for reporting and information projects.
- 21. Department of Human Services**
Acknowledged receipt of a report from the Department of Human Services on progress made in developing a new adult abuse data system, and directed the agency to report on planning progress to the Emergency Board in December 2014.
- 22. Department of Human Services**
Approved, retroactively, the submission of a federal grant application by the Department of Human Services to the U.S. Department of Agriculture in the amount of up to \$160,000 a year for two years to address trafficking of benefits received by individuals participating in the Supplemental Nutrition Assistance Program.
- 23. Department of Human Services**
Approved retroactively, the submission of a federal grant application by the Department of Human Services to the U.S. Department of Health and Human Services, Administration on Community Living, in the annual amount of \$229,655 to provide outreach to older Americans with limited income to help them access programs assisting with Medicare costs and benefits.

- 24. Department of Human Services
Department of Education**
Acknowledged receipt of a report from the Department of Human Services and the Department of Education on recommended Employment Related Day Care program changes, and directed the agencies to postpone implementation until changes can be further vetted during the 2015 legislative session.
- 25. Department of Justice**
Approved, retroactively, the submission of a federal grant application by the Department of Justice to the U.S. Department of Justice, Federal Office for the Victims of Crime, in the amount of \$500,000 to provide a regional victims' legal services network.
- 26. Department of Justice**
Increased the Other Funds expenditure limitation established for the Department of Justice by \$4,700,000, and transferred Other Funds and Federal Funds expenditure limitations between programs, with the understanding that the Department of Administrative Services will unschedule \$1,519,270 General Fund, \$12,147,981 Other Funds, and \$21,600,000 Federal Funds, to rebalance the Department of Justice legislatively approved budget; per the attached table.
- 27. Military Department**
Acknowledged receipt of a report from the Military Department on the Next Generation 9-1-1 project, and directed the agency to report on the project to the Emergency Board in December 2014.
- 28. Oregon Youth Authority**
Acknowledged receipt of a report from the Oregon Youth Authority on the 10-Year Plan for Close Custody Facilities, with the expectation that the agency will report on facilities planning and the Youth Reformation System during the 2015 legislative session.
- 29. Board of Parole and Post-Prison Supervision**
Allocated \$318,019 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to supplement the appropriation made to the Board of Parole and Post-Prison Supervision by section 1, chapter 502, Oregon Laws 2013, for the replacement of the Parole Board Management Information System.
- 30. Department of Public Safety Standards and Training**
Increased the Federal Funds expenditure limitation established for the Department of Public Safety Standards and Training by section 3, chapter 508, Oregon Laws 2013, by \$123,721 for expenditure of a grant award from the federal Assistance to Firefighters Grant Program.
- 31. Oregon Business Development Department**
Acknowledged receipt of a report from the Oregon Business Development Department on proposed replacement Key Performance Measures to measure the effectiveness of the agency's small business assistance programs, and approved the proposed Key Performance Measures and Key Performance Measure targets.

- 32. Employment Department**
Approved the submission of a federal grant application by the Employment Department to the U.S. Department of Labor in the amount of \$396,437 for improvements to the Short-Time Compensation program.
- 33. Housing and Community Services Department**
Allocated \$659,300 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to supplement the appropriation made to the Housing and Community Services Department by section 1, chapter 561, Oregon Laws 2013, for higher than anticipated housing counseling caseload associated with the Oregon Foreclosure Avoidance Program.
- 34. Department of Veterans' Affairs**
Increased the Federal Funds expenditure limitation established for the Department of Veterans' Affairs by section 17, chapter 118, Oregon Laws 2014, by \$100,000 to support county efforts to provide transportation services in connection with the provision of U.S. Department of Veterans' Affairs medical care to veterans in highly rural areas.
- 35. Department of Energy**
Approved, retroactively, the submission of two federal grant applications by the Department of Energy to the U.S. Department of Energy, Office of Energy Efficiency and Renewable Energy, in the amounts of \$207,445 and \$215,203 for the 2014 State Energy Program competitive awards.
- 36. Department of Fish and Wildlife**
Transferred \$900,000 of Federal Funds expenditure limitation from the Federal Funds expenditure limitation established for the Department of Fish and Wildlife by section 4(1), chapter 615, Oregon Laws 2013, Fish Division, to section 4(3), chapter 615, Oregon Laws 2013, Administrative Services Division, to increase hunter education offerings and improve awareness of hunting opportunities.
- 37. Department of Forestry**
Acknowledged receipt of a preliminary report from the Department of Forestry on the 2014 fire season.
- 38. Department of State Lands**
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(4), chapter 449, Oregon Laws 2013, Capital improvements, by \$190,000 to rehabilitate 2014 rangeland fire damage.
- 39. Department of State Lands**
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(1), chapter 449, Oregon Laws 2013, Common School Fund programs, by \$87,300 to continue a business process mapping, review, and improvement project.

- 40. Department of State Lands**
Increased the Other Funds expenditure limitation established for the Department of State Lands by section 1(1), chapter 449, Oregon Laws 2013, Common School Fund programs, by \$140,000 for a business model study for the Elliott State Forest.
- 41. Parks and Recreation Department**
Approved the submission of a federal grant application by the Parks and Recreation Department to the National Parks Service in the amount of \$35,000 for Port Orford Heads boat house historic preservation.
- 42. Board of Accountancy**
Increased the Other Funds expenditure limitation established for the Board of Accountancy by section 1, chapter 393, Oregon Laws 2013, by \$200,000 to allow the Board to cover contract investigations and Attorney General fees.
- 43. Board of Chiropractic Examiners**
Increased the Other Funds expenditure limitation established for the Board of Chiropractic Examiners by section 1, chapter 543, Oregon Laws 2013, by \$120,868 for expenses associated with legal costs, IT project implementation, and personal services.
- 44. Construction Contractors Board**
Acknowledged receipt of a report from the Construction Contractors Board on agency operations, with the expectation that the agency will report on additional progress during the 2015 legislative session.
- 45. Department of Consumer and Business Services**
Approved, retroactively, the submission of a federal grant application by the Department of Consumer and Business Services to the U.S. Department of Health and Human Services in the amount of \$1,179,000 for funds available under the Cycle IV Health Insurance Rate Review Grant Program, and increased the Federal Funds expenditure limitation established for the Department of Consumer and Business services by section 2, chapter 452, Oregon Laws 2013, by \$300,000.
- 46. Department of Consumer and Business Services**
Approved, retroactively, the submission of a federal grant application by the Department of Consumer and Business Services to the U.S. Department of Health and Human Services in the amount of \$117,502 for funds available under the State Health Insurance Assistance Program.
- 47. Public Utility Commission**
Increased the Federal Funds expenditure limitation established for the Public Utility Commission by section 2, chapter 291, Oregon Laws 2013, by \$309,200 for unspent American Recovery and Reinvestment Act grant funds so the agency may complete broadband mapping and planning projects pursuant to the federal Broadband Data Improvement Act.

- 48. Department of Administrative Services**
Acknowledged receipt of a report from the Department of Administrative Services on implementation of compensation plan changes and position allocations.
- 49. Department of Administrative Services**
Acknowledged receipt of a report from the Department of Administrative Services on the state's Certificate of Participation debt service savings as a result of refinancing.
- 50. Department of Administrative Services**
Acknowledged receipt of a report from the Department of Administrative Services on the state's Lottery Bond debt service savings as a result of refinancing.
- 51. Department of Administrative Services**
Acknowledged receipt of a report from the Department of Administrative Services on current unanticipated expenditures that will be addressed in an Other Funds rebalance request that the agency intends to make to the Emergency Board in December 2014.
- 52. Government Ethics Commission**
Acknowledged receipt of a report from the Government Ethics Commission on the Statement of Economic Interest project, and directed the agency to report on the project status to the Emergency Board in December 2014.
- 53. Department of Revenue**
Acknowledged receipt of a report from the Department of Revenue on the Core System Replacement Project.
- 55. Oregon State Lottery**
Acknowledged receipt of a report from the Oregon State Lottery on the feasibility of establishing a dedicated Lottery raffle game to support veterans' programs.
- 56. Legislative Fiscal Office for Department of Administrative Services**
Established a General Fund appropriation for the Department of Administrative Services and allocated \$511,996 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to the newly established appropriation for payment as a grant to TrackTown USA for costs associated with public safety at the International Association of Athletics Federations World Junior Championships, Oregon 2014.
- 57. Legislative Fiscal Office for Military Department**
Increased the Other Funds expenditure limitation established for the Military Department by section 2(3), chapter 555, Oregon Laws 2013, Emergency management, by \$212,500 to grant funds from the Oregon Local Disaster Assistance Loan and Grant Account to the Vernonia School District.
- 58. Legislative Fiscal Office for Military Department**
Increased the Other Funds expenditure limitation established for the Military Department by section 2(3), chapter 555, Oregon Laws 2013, Emergency management, by \$62,500 to grant funds from the Oregon Local Disaster Assistance Loan and Grant Account to the City of Westfir.

59. Legislative Fiscal Office for Department of Administrative Services

Allocated \$100,000 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to supplement the General Fund appropriation established for the Department of Administrative Services for use by the Oregon University System established by section 1(3), chapter 564, Oregon Laws 2013, Agricultural Experiment Station and the branch extension stations of Oregon State University, for research by the Endophyte Laboratory at Oregon State University into export of forage straw as feed to the Middle East, and that any future state dollars for research at the lab require a similar minimum dollar for dollar match of non-public funds.

Summary of Emergency Board Action December 2014

The Legislative Emergency Board met on December 10, 2014 and considered an agenda of 33 items. The agenda included three requests for allocations from the general purpose appropriation made to the Emergency Board, including one from a reservation. Two of these requests were approved. There were also three agency requests on the agenda for allocations from special purpose appropriations made to the Emergency Board, totaling \$20.8 million; a total of \$17.6 million was allocated. Additional details on these allocations are described below. After the Emergency Board actions, which included a Legislative Fiscal Office request to transfer the unused special purpose appropriation in the amount of \$15.4 million to the general purpose Emergency Fund citation, the balance in the Emergency Fund is \$28.7 million. This amount can either be used during the 2015 session or, if unused, will revert to the General Fund ending balance at the conclusion of the 2013-15 biennium.

The agenda included 12 items that requested additional 2013-15 biennium authority to spend Other Funds and Federal Funds and one item requesting a transfer of expenditure limitation between programs within an agency. The Emergency Board approved expenditure limitation increases of approximately \$479.9 million Other Funds (including \$370.4 million for the Oregon Health Authority rebalance) and \$913.9 million Federal Funds (including \$865 million for the Oregon Health Authority rebalance). The Emergency Board also authorized the establishment of five permanent positions (1.24 FTE) and eleven limited duration positions (3.83 FTE).

The agenda also included 13 agency reports which the Emergency Board acknowledged receiving. The Emergency Board heard six requests for the submission of federal grant applications (three of which were on consent – from the Oregon Health Authority [2] and the Department of Human Services [1]).

The following is a summary of significant Emergency Board actions taken at the December 2014 meeting:

Education

- Acknowledged receipt of a report by the Oregon Education Investment Board on the status of the P-20 Education State Longitudinal Data System project and authorized the project to hire or contract for a project director, but delayed the request for additional funds from an Emergency Fund reservation for related costs until the 2015 session.
- Approved, retroactively, the submission of a federal grant application by the Department of Education, Early Learning Division, for a Preschool Development Expansion grant; it was announced at the Emergency Board meeting that the agency did not get selected for a grant award.

Human Services

- Allocated \$11,737,047 to the Oregon Health Authority from a special purpose appropriation made to the Emergency Board for human services caseload, approved the transfer of other General Fund appropriations, increased the Other Funds expenditure limitation by \$370,364,749, increased the Federal Funds expenditure limitation by \$864,972,885, and authorized the establishment of 7 limited duration positions (2.31 FTE) to rebalance the agency's 2013-15 budget.
- Approved the transfer of General Fund appropriations within the Department of Human Services, increased the Other Funds expenditure

limitation by \$9,775,157, increased the Federal Funds expenditure limitation by \$45,759,930, and authorized the establishment of 4 limited duration positions (1.52 FTE) to rebalance the agency's 2013-15 budget, with the understanding that the Department of Administrative Services will reschedule \$30 million Other Funds expenditure limitation.

- Allocated \$3,420,599 from a special purpose appropriation made to the Emergency Board for senior services to the Department of Human Services (\$1,680,000 for Oregon Project Independence and \$40,000 to increase awareness of resources for people impacted by dementia), to the Oregon Health Authority (\$20,599 to collect and analyze data related to cognitive decline and caregiving), and to the Department of Transportation (\$1,680,000 for special needs transportation). This allocation fully used the \$26 million special purpose appropriation established during the September 2013 special session.
- Approved the submission of federal grant applications for the Oregon Health Authority (Coastal Communities Assessment of Natural Hazards and National State-Based Tobacco Control Programs) and for the Department of Human Services (Improving Employment and Training Program Outcomes).
- Approved the submission of a federal grant application by the Oregon Health Authority to the Substance Abuse and Mental Health Services Administration in the amount of \$10 million to enhance state and community efforts to prevent substance abuse.
- Acknowledged receipt of a report by the Office of the Governor on the Pay for Prevention initiative, which is focused on the foster care system and its associated risk factors, outcomes, and effective interventions.
- Acknowledged receipt of reports by the Oregon Health Authority on new investments in community mental health, on mental health housing investments, and on agency efforts to hire a dental director.
- Acknowledged receipt of reports by the Department of Human Services on nursing facility capacity and on planning for a new adult abuse data and report writing system.
- Increased the Federal Funds expenditure limitation for the Commission for the Blind by \$372,000 to increase the Vocational and Rehabilitation and Independent Living programs.

Public Safety and Judicial Branch

- Increased the Other Funds expenditure limitation of the Judicial Department by \$37,999,999 for the Oregon Courthouse Capital Construction and Improvement Fund to support the Multnomah County and Jefferson County courthouse capital construction projects, with the understanding that the action did not establish or imply any legislative commitment to provide any additional state support to either project.
- Acknowledged receipt of a report by the Judicial Department on capital improvement project changes at the Curry, Gilliam, Malheur, and Wallowa county courthouses.
- Acknowledged receipt of a report by the Public Defense Services Commission on compensation plan changes.
- Increased the Other Funds expenditure limitation of the Department of Corrections by \$3,018,692 for the Inmate Work Program.
- Established a Federal Funds Capital Construction expenditure limitation for the Military Department in the amount of \$2,722,900 for the Roseburg Armory Service Life Extension Project, with the understanding that this expenditure limitation expires on June 30, 2015.
- Increased the Other Funds expenditure limitation of the Military Department by \$337,000 and the Federal Funds expenditure limitation by \$106,000 for the Oregon Youth Challenge Program.
- Increased the Other Funds expenditure limitation of the Military Department by \$600,000 for reimbursement of firefighting expenditures related to the 2014 wildfire season.

Natural Resources

- Allocated \$2,400,000 from a special purpose appropriation made to the Emergency Board for fire severity resources and rate mitigation to the Department of Forestry, allocated \$14,002,407 from the Emergency Fund, and increased the Other Funds expenditure limitation by \$56,647,505 for 2014 fire season large-fire costs, 2013-15 biennium budget shortfalls due to large-fire activities, and for reimbursable activities related to the 2014 wildfire season.
- Approved, retroactively, the submission of a federal grant application by the Department of State Lands to the National Oceanic and Atmospheric Administration for a Bay Watershed Education and Training Program grant for the

South Slough National Estuarine Research Reserve in the amount of \$60,000.

Administration

- Increased the Other Funds expenditure limitation of the State Treasurer by \$70,424 and authorized the establishment of one permanent, full-time Senior Private Equity Investment Officer position (0.16 FTE) to help manage the growth in value and complexity of the state’s investment portfolio, with the expectation that the remainder of the Treasurer’s request will be dealt with during the 2015 session after review and approval of the investment project’s foundation project management documentation.
- Increased the Other Funds expenditure limitation of the State Treasurer by \$550,000 to contract for bond counsel and financial advisory services related to general obligation bond sales for state universities.
- Established a General Fund appropriation for the Department of Administrative Services and allocated \$1,035,000 from the Emergency Fund to the newly established appropriation to demolish the former Blue Mountain Recovery Center building and eleven buildings on the former Eastern Oregon Training Center campus, with direction to the Department to return during the 2015 session to seek permission to convey the land to the City of Pendleton and to report on actual costs of the demolition.

- Increased the Other Funds expenditure limitation of the Oregon Liquor Control Commission by \$583,000 and authorized the establishment of four positions (1.08 FTE) to provide for staffing, Department of Justice advice, professional services, and outreach efforts associated with planning for the implementation of Ballot Measure 91 that legalized recreational marijuana.
- Acknowledged receipt of a report by the Department of Revenue on the Core System Replacement Project.
- Approved the transfer of Other Funds expenditure limitations within the Department of Administrative Services totaling \$9,807,820 to rebalance the 2013-15 budget, with several instructions related to the approved information management technology expenditures.
- Acknowledged receipt of a report by the Government Ethics Commission on the development of an electronic reporting system for Statements of Economic Interest.

Legislative Branch

- Approved the transfer of specified unallocated balances from special purpose appropriations made to the Emergency Board to the general purpose Emergency Fund in the amount of \$15,380,199. This action results in a general purpose Emergency Fund ending balance of \$28,654,777.

Emergency Fund Balance Summary

This summary is available on the Legislative Fiscal Office website at www.oregonlegislature.gov/lfo

Oregon Legislative Emergency Board
Certificate

December 10, 2014

Pursuant to the provisions of ORS 291.328, and acting under the authority of ORS 8.105; ORS 291.326(1)(a), (b), (c), and (d); ORS 291.371; and ORS 291.375; this hereby certifies that the Emergency Board, meeting on December 10, 2014, took the following actions:

1. Office of the Governor

Acknowledged receipt of a report from the Office of the Governor on expenditures to date and project progress for the Pay for Prevention initiative.

2. State Treasurer

Increased the Other Funds expenditure limitation established for the State Treasurer by section 1(1), chapter 558, Oregon Laws 2013, Administrative expenses of State Treasurer operations, by \$70,424 and authorized the establishment of one permanent full-time position (0.16 FTE) for a Senior Private Equity Investment Officer in the Investment Division.

3. State Treasurer

Increased the Other Funds expenditure limitation established for the State Treasurer by section 1(1), chapter 558, Oregon Laws 2013, Administrative expenses of State Treasurer operations, by \$550,000 for bond counsel and financial advisory contracts in the Debt Management Division.

4. Judicial Department

Increased the Other Funds expenditure limitation established for the Judicial Department by section 84(3), chapter 723, Oregon Laws 2013, Oregon Courthouse Capital Construction and Improvement Fund, by \$37,999,999, for support of the Multnomah County and Jefferson County courthouse capital construction projects, with the understanding that this action does not establish or imply a legislative commitment to provide any additional state support to either project.

5. Judicial Department

Acknowledged receipt of a report from the Judicial Department on capital improvement project plan changes.

6. Public Defense Services Commission

Acknowledged receipt of a report from the Public Defense Services Commission on compensation plan changes.

- 7. Department of Education**
Approved, retroactively, the submission of a federal grant application by the Department of Education to the U.S. Department of Education and the U.S. Department of Health and Human Services in the amount of \$60 million over four years for a Preschool Development Expansion Grant.
- 8. Oregon Education Investment Board**
Acknowledged receipt of a report from the Oregon Education Investment Board on the status of the P-20 Education State Longitudinal Data System project, and provided authority for the project to hire or contract for a project director.
- 9. Oregon Health Authority**
Acknowledged receipt of a report from the Oregon Health Authority on new investments in community mental health.
- 10. Oregon Health Authority**
Acknowledged receipt of a report from the Oregon Health Authority on the \$5 million mental health housing investment.
- 11. Oregon Health Authority**
Acknowledged receipt of a report from the Oregon Health Authority on efforts to hire a dental director.
- 12. Oregon Health Authority**
Allocated \$11,737,047 from the special purpose appropriation made to the Emergency Board by section 30(1), chapter 118, Oregon Laws 2014, to supplement appropriations made to the Oregon Health Authority, approved the transfer of General Fund appropriations, increased Other Funds expenditure limitations, and increased and transferred Federal Funds expenditure limitations; per the attached table.
- 13. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the National Oceanic and Atmospheric Administration in the amount of up to \$300,000 for two years to help local coastal jurisdictions plan for responding to potential natural hazards.
- 14. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Centers for Disease Control and Prevention in the amount of up to \$1,969,543 per year for five years to help continue regular tobacco prevention efforts.
- 15. Oregon Health Authority**
Approved, retroactively, the submission of a federal grant application by the Oregon Health Authority to the Substance Abuse and Mental Health Services Administration in the amount of \$2,016,000 per year for five years to enhance state and community efforts to prevent substance abuse.

- 16. Department of Human Services**
Acknowledged receipt of a report from the Department of Human Services on nursing facility capacity reduction.
- 17. Department of Human Services**
Approved the transfer of General Fund appropriations, increased and transferred Other Funds expenditure limitations, increased Federal Funds expenditure limitations, transferred positions, and established limited duration positions; with the understanding that the Department of Administrative Services will reschedule Other Funds expenditure limitation; per the attached table.
- 18. Department of Human Services**
Oregon Health Authority
Department of Transportation
Allocated \$1,680,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Department of Human Services by section 1(3), chapter 675, Oregon Laws 2013, Aging and people with disabilities and developmental disabilities programs, for Oregon Project Independence;
allocated \$40,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Department of Human Services by section 1(3), chapter 675, Oregon Laws 2013, Aging and people with disabilities and developmental disabilities programs, to increase awareness of dementia resources;
allocated \$20,599 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Oregon Health Authority by section 1(1), chapter 668, Oregon Laws 2013, Programs, to collect and analyze data related to cognitive decline and caregiving; and
allocated \$1,680,000 from the special purpose appropriation made to the Emergency Board by section 6(1), chapter 1, Oregon Laws 2013 Special Session, to supplement the appropriation made to the Department of Transportation by section 2, chapter 556, Oregon Laws 2013, for elderly and people with disabilities transportation.
- 19. Department of Human Services**
Acknowledged receipt of a report from the Department of Human Services on planning development of a new adult abuse data system.
- 20. Department of Human Services**
Approved, retroactively, the submission of a federal grant application by the Department of Human Services to the Food and Nutrition Service, U.S. Department of Agriculture, in the amount of up to \$18,630,282 over three years to develop and test methods for improving employment and training program outcomes.

- 21. Commission for the Blind**
Increased the Federal Funds expenditure limitation established for the Commission for the Blind by section 3, chapter 495, Oregon Laws 2013, by \$372,000 for Vocational Rehabilitation and Independent Living programs and to offset projected shortfalls in Other Funds revenues.
- 22. Military Department**
Established for the 2013-15 biennium a Federal Funds Capital Construction expenditure limitation for the Military Department in the amount of \$2,722,900 for the Roseburg Armory Service Life Extension project, with the understanding that the limitation expires at the end of the biennium.
- 23. Military Department**
Increased the Other Funds expenditure limitation established for the Military Department by section 2(4), chapter 555, Oregon Laws 2013, Community support, by \$337,000, and increased the Federal Funds expenditure limitation established for the Military Department by section 3(3), chapter 555, Oregon Laws 2013, Community support, by \$106,000, for expenditures related to the Oregon Youth Challenge Program.
- 24. Military Department**
Increased the Other Funds expenditure limitation established for the Military Department by section 2(4), chapter 555, Oregon Laws 2013, Community support, by \$600,000 for wildfire response.
- 25. Department of Corrections**
Increased the Other Funds expenditure limitation established for the Department of Corrections by section 2(1), chapter 496, Oregon Laws 2013, Operations and health services, by \$3,018,692 for the Inmate Work Program.
- 26. Department of State Lands**
Approved, retroactively, the submission of a federal grant application by the Department of State Lands to the National Oceanic and Atmospheric Administration in the amount of up to \$60,000 for one year for a Bay Watershed Education and Training Program Grant for the South Slough National Estuarine Research Reserve.
- 27. Department of Forestry**
Allocated \$2,400,000 from the special purpose appropriation made to the Emergency Board by section 5(1), chapter 620, Oregon Laws 2013, to supplement the appropriation made to the Department of Forestry by section 1(2), chapter 620, Oregon Laws 2013, Fire protection; allocated \$14,002,407 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to supplement the appropriation made to the Department of Forestry by section 1(2), chapter 620, Oregon Laws 2013, Fire protection; and increased the Other Funds expenditure limitation established for the Department of Forestry by section 2(2), chapter 620, Oregon Laws 2013, Fire protection, by \$56,647,505; for emergency fire protection expenses.

- 28. Department of Revenue**
Acknowledged receipt of a report from the Department of Revenue on the Core Systems Replacement Project.
- 29. Department of Administrative Services**
Established a General Fund appropriation for the Department of Administrative Services and allocated \$1,035,000 from the Emergency Fund established by section 1, chapter 723, Oregon Laws 2013, to the newly established appropriation to demolish the former Blue Mountain Recovery Center building and eleven buildings on the former Eastern Oregon Training Center campus, with instructions.
- 30. Department of Administrative Services**
Transferred Other Funds expenditure limitations established for the Department of Administrative Services in section 2, chapter 627, Oregon Laws 2013, between programs per the attached table, with instructions.
- 31. Government Ethics Commission**
Acknowledged receipt of a report from the Government Ethics Commission on the Electronic Filing System.
- 32. Oregon Liquor Control Commission**
Increased the Other Funds expenditure limitation established for the Oregon Liquor Control Commission by section 1(1), chapter 667, Oregon Laws 2013, Administrative expenses, by \$583,000, and authorized the establishment of four positions (1.08 FTE) for staffing, legal expenses, professional services expertise, and outreach efforts associated with planning for recreational marijuana legalization per Ballot Measure 91.
- 33. Legislative Fiscal Office**
Transferred unallocated balances in the amount of \$15,380,199 from special purpose appropriations made to the Emergency Board to the general purpose appropriation legal citation, per the attached table.

Oregon

John A. Kitzhaber, M.D., Governor

Department of Human Services
500 Summer Street NE
Salem, OR 97301-1067

2015-17 DHS Director's Letter Department of Human Services

The mission of the Department of Human Services (DHS) is to help Oregonians in their own communities achieve safety, well-being and independence through services that protect, empower, respect choice and preserve dignity. DHS is responsible for the care of some of Oregon's most vulnerable citizens – children, families, people with intellectual and developmental disabilities, and seniors. DHS is also responsible for serving Oregonians at times when they are most in need – when they have experienced abuse, when they are hungry, when they are homeless.

After several biennia of program reductions and unprecedented increase in demand for services during the economic recession, Oregonians in need of human services during the 2013-15 biennium began to feel the impact of the state's economic recovery. Additional investments in the 2013-15 LAB were designed to advance transformation that promotes long-term financial sustainability for human services programs, including:

- Support for more in-home and community-based supports for seniors and people with disabilities; an expansion of supports for seniors and people with disabilities to make informed decisions about how to maintain their independence, health and safety; and investment in innovation and enhanced coordination between our long term care and health care systems.
- Investments that support more children and adults with intellectual and developmental disabilities (I/DD) to live at home and avoid the need for crisis interventions; investments in infrastructure that, over time, will enable a more seamless and coordinated system in service to consumers and their families, and expanded family-support services.
- Support to expand community-based services statewide that will strengthen, preserve and reunify families involved in the child welfare system and investments in child welfare staff to improve outcomes and to implement an alternative track of intervention once child abuse or neglect has occurred.
- Investments to help low-income unemployed individuals go to work and employed parents stay employed, as well investments to improve integrated employment opportunities for youth and working age adults with I/DD.
- Investments in care providers to improve quality and ensure access to services.
- Investments in DHS staff and business support that enables more engagement with customers, improved family and individual safety and independence and, ultimately, a reduced need for services.

The 2015-17 Governor's Opportunity and Investment Budget continues many of those efforts and helps DHS achieve the following outcomes:

- Safety for Children;
- Safety for Vulnerable Adults;
- Independence for Older Adults and People with Disabilities;
- Family Stability and Employment;
- Community Employment for People with Disabilities;
- School Readiness for Young Children;
- Job Retention for Low-Income Working Families; and
- Program Performance and Integrity.

The following is a summary of the program investments proposed by the Governor to balance the DHS budget in a long-term, sustainable manner that meets the needs of Oregon's most vulnerable citizens.

Aging and People with Disabilities: The Aging and People with Disabilities program area provides services and supports to Oregonians over the age of 65 and to adults with physical disabilities. Oregon's senior population is projected to grow from 502,000 to 950,000 by 2030. In order to avoid a significant increase in demand on publicly funded long-term care supports and services as the eligible population grows, it is critical to continue implementing strategies that support healthy aging, meet the needs of an increasingly culturally diverse population and prevent or delay entry (as appropriate) into costly long-term care services.

The Governor's budget includes the following:

- Funds forecasted caseloads levels and projected cost per case increases
- Continues reimbursement rates in effect for 2013-15 (eliminates inflation)
- Invests \$35 million combined into APD/DD/MH toward Department of Labor requirements for in-home services
- Funds nursing facilities at statutory rate
- Funds planning for non-MAGI eligibility automation project
- Invests \$3.4 million for new adult protective services data system
- Funds state staff at 90.2% of workload model
- AAAs continue at 95% equity

Aging and People with Disabilities Special Purpose Authorization Items

- Continues: Oregon Project Independence expansion for seniors at \$10.3 million; reporting for Community-Based Care and nursing facility utilization continues; Older Americans Act sequestration backfill continues; and Personal Incidental Fund increase for nursing facility residents continues.
- Does not continue one-time investments or funding for Evidence Based Health Promotion Programs.

Developmental Disability Programs: The Developmental Disabilities program area serves over 21,000 children and adults with intellectual and developmental disabilities (I/DD) throughout their life span, and the number of eligible individuals requesting services is increasing. The State, Counties, Brokerages, Providers, Families and Self-Advocates are all critical parts of Oregon's Developmental Disabilities service system that focuses on individuals with I/DD living in the community and having the best quality of life at any age.

The Governor's Budget includes the following:

- Funds forecasted caseloads levels and projected cost per case increases
- Funds capacity for improving employment outcomes for people with I/DD
- Invests \$35 million combined into APD/DD/MH toward Department of Labor requirements for in-home services
- Builds community provider capacity for I/DD clients with significant, long-term needs
- Provides 4% provider rate increase starting 1/1/16 for non-bargained provider types residential and non-residential agency providers, except transportation.
- Eliminates funding for Fairview trust
- Funds CDDP and Brokerage workload models at 95% equity

Child Welfare Programs: Child Welfare Programs serve children and families when children are subject to abuse and neglect in their home environment. Child protection workers respond to all reports of familial child abuse/neglect and, if a child cannot be safe at home, place children in foster care. In the last seven years, Oregon has reduced its foster care population, concentrating on safety and is implementing a system that prevents out-of-home placement (even of abused children) and increases timely and safe return to families. The cost of abuse and neglect – to children, to families, and to the state – is significant.

The Governor's Budget includes the following:

- Funds forecasted caseloads levels and projected cost per case increases
- Continues investment in Differential Response and Strengthening, Preserving and Reunifying Families programs
- Invests in Child Welfare infrastructure to ensure statewide Differential Response implementation by mid-2017
- BRS continues to be funded at settlement agreement level
- Adds one Child Welfare Quality Control reviewer position
- Invests in Pay for Prevention pilot project
- Funds workload model at 85.9%

Self Sufficiency Programs: Self Sufficiency programs are designed to help families achieve economic security with temporary supports for their most basic needs, such as food, health insurance coverage and child care, while working to meet their employment goals.

The Governor's Budget includes the following elements:

- Invests in TANF redesign, including positions (\$30 million)
- Invests in Employment Related Daycare program (\$49.5 million)
- Funds forecasted caseloads levels and projected cost per case increases
- Continues contracted providers at current rate levels (eliminates inflation)
- Transfers food assistance programs from Housing and Community Services to DHS and restores one-time funding for food programs (Oregon Food Bank)
- Invests in TANF fraud investigators to ensure program integrity
- Funds workload model at 75.8%

Vocational Rehabilitation: The Office of Vocational Rehabilitation Service (OVRs) assesses, develops service plans and provides vocational rehabilitation services to youth and adults whose disabilities present impediments to employment.

The Governor's Budget includes the following:

- Invests in increased VR capacity to improve employment outcomes for people with I/DD, including youth transition

Agency Administration: Central DHS and Shared Services for DHS/OHA provide oversight and direction for programs and services to ensure the agency's mission is achieved.

The Governor's Budget includes the following:

- Invests in REAL-D IT project to collect Race, Ethnicity, Language and Disability information across systems.
- Invests in Oregon Enterprise Data Analytics project to build statewide capacity for better analysis and forecasting.

- Assumes 3% vacancy factor for positions in all DHS programs, reducing overall workload capacity
- Eliminates inflation for all programs and services, except BRS

Conclusion

DHS will maintain its commitment to innovation and transparency, prioritizing improvements that will use scarce resources efficiently and effectively. Our success in that effort depends upon nearly 8,000 employees across the state, as well as upon thousands of community and service delivery partners, all of whom are dedicated to supporting and improving the lives of Oregonians. Every year, more than one-million people rely on DHS services, and important services provided by other agencies and organizations, to meet their most basic needs, to be safe, to live as independently as possible, and to support their efforts to achieve economic independence – and we support the Governor’s vision for Oregon’s future as set out in his budget.

If you have questions about the Governor’s Budget for DHS, please send them to communications.dhs@state.or.us. We will get you the information you need.

~Erinn Kelley-Siel, DHS Director

Oregon Department of Human Services Central and Shared Service Programs

Overview

DHS Central and Shared Services provide critical leadership and business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice, and preserve dignity.

DHS and OHA govern their shared services through a board composed of operational leaders of the two agencies. This approach ensures that shared services are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, implemented recent budget cuts selectively, moved staff in and out of shared services to rationalize service delivery, and started implementing more integrated systems to support the performance of all our employees.

Performance management system

The system is contained in the Director's Office and is managed by the entire executive team containing the following key elements:

- A clear statement of the outcomes DHS must achieve.
- Descriptions of the processes DHS uses to achieve its outcomes.
- Measures of success for each outcome and process.
- Owners for each measure.
- Written "breakthrough" strategies for each initiative that will significantly improve outcomes and processes.
- A quarterly all-day all-leadership review of progress on each measure and strategy.

Investment in centralized infrastructure

DHS restructured into five programs from its previous two structure system based on analysis from the performance management system. DHS then centralized many support services that previously had been performed separately by each program. This structure creates efficiencies, assigns clear accountability for the performance of support services, and allows targeted investments to improve performance. Better support services ultimately improve performance of all DHS employees and our providers.

One of the most important breakthroughs is modernizing DHS’s service delivery. This involves redesigning how DHS interacts with its clients and customers – defining where face-to-face contact better serves client needs and advances the agency mission and where on-line and automated processes can more efficiently meet the need or better support DHS staff in their direct service to clients.

DHS Central Services

DHS Central Services consist of the Office of the Director and Policy, the Office of Equity and Multicultural Services (OEMS), the Office of Human Resources, the DHS Office of the Chief Financial Officer and the Public Affairs Office. These offices provide essential business supports to programs in achieving the department and programs mission, vision and outcomes.

The DHS Governor’s budget request for Central Services is:

DHS Central Services	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 16,843,168	\$ 765,040	\$ 17,213,823	\$ 34,822,031	87	85.93
GB 15-17	\$ 16,066,283	\$ 1,716,661	\$ 16,359,181	\$ 34,142,125	90	89.26
Difference	\$ (776,885)	\$ 951,621	\$ (854,642)	\$ (679,906)	3	3.33
Percent change	-5%	55%	-5%	-2%	3%	4%

Office of the Director and Policy

The DHS Director’s Office is responsible for overall leadership, policy development and administrative oversight. These functions are coordinated with the Governor’s Office, the Legislature, other state and federal agencies, partners and stakeholders, local governments, advocacy and client groups, and the private sector.

The DHS Director’s Office provides leadership in achieving the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity. The office supports all DHS field office and central office programs by managing legislative and legal matters, client concerns, written rules, and contested hearings.

Office of Equity and Multicultural Services (OEMS)

OEMS provides leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both internal workforce developments as well as improve service delivery to all

Oregonians. The office also investigates all claims of discrimination and harassment. The goals of the office include reducing service disparities in all program areas; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

REaL-D Collection of Race, Ethnicity, Language and Disability Data

This investment supports the establishment of uniform standards and practices for the collection of data on race, ethnicity, preferred spoken or signed language, preferred written language, and disability status by the Oregon Health Authority (OHA) and Department of Human Services (DHS).

In the current OHA/DHS systems architecture, the agency would be required to modify all systems, duplicate information across multiple systems and will most likely ask the same demographic questions of clients multiple times across the various programs.

This investment supports designing, building and implementing a master client data service that supports the long-term strategy of a comprehensive view of the OHA/DHS client. Upon establishment of a re-useable master client service, the agency will have the capability to collect demographic information on the client that will serve multiple program and reporting needs. One key focus is aligning the data systems used for collection and reporting of race, ethnicity, language and disability data with the new standard to promote health and service equity for all programs and activities within the Department of Human Services (DHS and Oregon Health Authority (OHA)).

DHS and OHA have developed administrative rules and policies for collecting, analyzing, and reporting meaningful race, ethnicity, language and disability data (REaL+D) across DHS and OHA based on the foundation of the U.S. Office of Management and Budget's (OMB) Directive 15 (revised 1997), and adds key elements that will improve the quality of the data gathered. This POP addresses both the business and technical changes required to create a unified, sustainable model for collecting client data across both agencies.

This investment will help establish the base master client service. Programs and systems utilizing this service will need to be determined through the 2014-2015

business analysis and systems assessment for REAL+D. The master client service will be an ongoing resource that supports systems and business processes alignment with HB 2134.

For the remainder of the 13-15 biennium (July 1, 2014-June 30,2015); DHS and OHA have put in place a REaL-D Analysis and Assessment Project to inventory and analyze all business processes, systems and reports across DHS/OHA that capture, update or utilize REaL-D data. This project's focus is on a detailed assessment and impact analysis of the changes that will be required across DHS & OHA in support of the implementation of HB2134 and the related Oregon REaL-D data collection standards. The outcome of the in-depth analysis will include a detailed business case and recommended implementation strategies for REaL-D data standards compliance.

Office of Human Resources (HR)

HR serves as a strategic partner to its customers in DHS, providing proactive, comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future.

DHS Office of the Chief Financial Officer (OCFO)

OCFO provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in support of the mission of DHS. This is done by working closely with DHS programs and the OHA CFO and programs, to ensure accurate, timely and efficient recording and management of financial resources; culturally competent and equitable services; authorizing the redistribution of available resources to meet changing needs; and establishing administrative controls. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Budget Center, Office of Financial Services, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

Public Affairs Office

This office supports the mission by providing accurate information to a diversity of employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the DHS Director and Executive Team.

Legislative Unit

This unit handles all legislative matters for DHS. This team coordinates all DHS legislative matters with legislative offices, key stakeholders and the Governor's Office. This team supports both field and central office staff providing consultation and support in legislative matters, primarily working with central office staff on policy development for program services. During a legislative session, this unit tracks and assigns all bills related to DHS program and operations. Staff in this unit support the Director of DHS, the Directors of all program and operations in DHS and the District Managers in field offices regarding legislative matters.

Office of Legal and Client Relations

This unit supports all DHS field office and central office programs by managing legal matters, client concerns, administrative rules, and administrative hearings. The LCRO consists of the following operational areas:

Legal Unit

This Unit manages all lawsuits, tort claims and subpoenas related to DHS program and operations. Staff in this unit provide expert consultation to DHS staff (field and central office staff), Department of Justice (DOJ) and Department of Administrative Services (DAS) Risk Management in policy related to legal matters. This team ensures timely completion of the required judicial documents to move smoothly through a complicated legal matter.

Governor's Advocacy Office (GAO)

This office handles client complaints coming into Central Office related to DHS services. This office operates independently in the investigations performed and reports directly to the Governor quarterly on the calls received and handled. The team in this office works closely with field office staff, central office program staff,

the Governor’s Office, key stakeholders and the DHS Director’s Office to successfully, equitably and respectfully reach a conclusion. Efforts are underway to have the GAO handle all client-related complaints coming into Central Office and the Director’s Office.

Hearings and Rules Unit

This unit provides expert technical support to hearing representatives in DHS field services and liaison to the Office of Administrative Hearings and DOJ regarding DHS notices, hearing requests, and contested case hearings. This unit provides expert technical support to program staff writing rules and rule-related documents and handles rule filing and the public comment process for DHS programs.

Program Design Services

To become outcome-driven, an agency must:

- Determine the outcomes it wants to achieve
- Measure the outcomes
- Design programs to achieve the outcomes
- Implement the design through business and IT processes
- Systematically review whether the processes are being implemented as designed and how well the outcomes are being achieved.

Program Design Services (PDS) employ professionals who specialize in these tasks who help DHS and its programs perform these tasks.

The Governor’s budget for PDS is:

Program Design Services	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 20,592,854	\$ 14,616,714	\$ 78,907,230	\$ 114,116,798	253	253.00
GB 15-17	\$ 28,470,204	\$ 2,467,172	\$ 51,223,089	\$ 82,160,465	262	257.41
Difference	\$ 7,877,350	\$ (12,149,542)	\$ (27,684,141)	\$ (31,956,333)	9	4.41
Percent change	28%	-492%	-54%	-39%	3%	2%

Office of Program Integrity (OPI)

OPI conducts analysis and tests to determine whether DHS is implementing programs in the way they were designed and trains caseworkers based on their findings to improve program integrity. The Quality Control Unit conducts operational and case reviews, many mandated by state and federal law, to

determine how accurately each program is making eligibility and other determinations. The Quality Assurance Unit and CMS Waiver Group conducts field reviews to assess program quality.

OPI continues to work with Lean Daily Management System principles to produce efficiencies in the work of the office. Huddles, continuous improvement sheets, 7-step problem solving, skill versatility are all examples of tools being used by units to enhance the way business is conducted.

Child Welfare Quality Control Reviewer Position

The position requested in this investment will increase the QC review capacity in the statewide Child Welfare Quality Assurance system to conduct a statewide qualitative review of the states' child welfare practice in defined areas of child safety, permanency and wellbeing. The position will enable the team to complete stakeholder interviews, which are federally required as part of each state's Continuous Quality Improvement in Child Welfare program. Federal regulations at 45 CFR 1355 require states to maintain substantial conformity with title IV-B and IV-E requirements through CFSR reviews. Other federal requirements can be found in the federal Adoption and Safe Families Act of 1997 and the Administration for Children and Families Information Memorandum CB-IM 12-07 dated August 27, 2012.

There are currently 3 FTE in the Child Welfare review team. This additional position will enable the state to complete federally mandated Children and Family Services Review (CFSR) as required and mitigate the risk for federal penalties and imposed program improvement plans. This investment has the support of the Child Welfare program area leadership.

Office of Business Intelligence (OBI)

OBI compiles reports and conducts research to determine whether DHS programs are achieving their goals and desired outcomes. OBI specializes in managing data to ensure it is accurate, consistent, and useful to programs in assessing their success and making decisions to alter their program design. One important part of this role is managing the agency scorecard of outcome and process measures. OBI also conducts professional research requested by programs to give them a more rigorous foundation for their program design.

Information Technology Business Supports (ITBS)

ITBS serves to bridge the language gap which commonly exists between the IT technical teams and numerous program design and operational teams. The mission of ITBS is threefold: help DHS program policy-makers understand and maximize their use of technology; help the application development teams understand the business needs of the DHS program areas; and help DHS program policy-makers understand the impact of their technology decisions.

Fulfilling the mission of ITBS requires solid understanding of the operational aspects of the multiple IT systems supporting DHS program areas, and also a strong working knowledge of DHS program policies, rules and business processes. ITBS team members have developed the skill, knowledge and ability to concurrently translate the language of system and business process between Office of Information Services (OIS) technology development teams and DHS business program teams. In addition to technology and policy/process translation services, ITBS provides direct support to internal and external system users regarding issues specific to DHS program areas, and system access administration for several DHS program areas.

Office of Continuous Improvement (OCI)

OCI helps DHS units implement the Lean Daily Management System and conduct business process improvement events. OCI employs project managers and people skilled in Lean tools that assist units in making high-priority process improvements and building their own Lean capacity.

Office of Licensing and Regulatory Oversight (OLRO)

OLRO licenses many providers of residential care to children, the aging and physically disabled, and people with intellectual and developmental disabilities. These providers range across the continuum of care and serve clients of multiple DHS programs and other agencies as well as private persons. Through diligent oversight, investigation of complaints and reports of potential abuse, and corrective action, OLRO reduces future instances of unsafe conditions and improves the quality of care. These services are most effective when they are provided in a quality and prevention model aimed at preventing harm in the first place to protect the safety and health of vulnerable Oregonians. The providers licensed by OLRO include adult foster homes, assisted living facilities, residential care facilities,

nursing homes, supported living and employment programs for people with developmental disabilities, and private child care agencies.

DHS Shared Services and Statewide Assessments

DHS Shared Services supports both DHS and OHA by providing optimal business services to ensure accountability, data driven decisions, and stewardship of resources. The Governor’s budget also includes the DAS, SDC and Risk Management assessments, debt service, and the DHS facilities rent and computer replacement budgets.

The Governor’s budget for Shared Services is:

DHS Shared Services	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ -	\$ 112,945,673	\$ -	\$ 112,945,673	633	257.41
GB 15-17	\$ -	\$ 116,726,235	\$ -	\$ 116,726,235	674	644.66
Difference	\$ -	\$ 3,780,562	\$ -	\$ 3,780,562	41	387.25
Percent change	0%	3%	0%	3%	6%	60%

Overview of Shared Services

DHS Shared Services contains the following key offices and programs that serve both DHS and OHA. These services keep program support cost to a minimum for both agencies and are all “other” funded. Each agency has a “Shared Services Funding” budget to pay for services each program receives for both DHS and OHA (Office of Information Services) shared services. DHS shared services are listed below:

Shared Services Administration

This office provides leadership and direction for shared services offices which support both DHS and OHA.

Budget Center

This area provides program and administrative budget planning, financial analysis and technical budget support. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

Office of Forecasting and Research Analysis

This unit provides client caseload forecasting services.

Oregon Enterprise Data Analytics Research Analysis

Understanding data and information from across state agencies is a need that is being identified. Analysis of integrated client/customer service information across state services would be a powerful tool to assist in identifying costs, risks, outcomes, and future need level at the state, community, family and individual level. It would also provide an understanding of our state services from client/customer perspective. Several efforts to accomplish this are currently underway. Coordination and consolidation of these efforts, development of governance for data access and use, and resource for maintenance, expansion and analysis are needed for Oregon.

Office of Financial Services

This area provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds. This area provides accurate, accountable and responsive financial management and business services to clients, providers, vendors, stakeholders and employees to ensure compliance with state laws and federal policies, rules and regulations.

Office of Human Resources

This office provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training.

Office of Facilities Management

This office provides coordination of facility matters for branch offices and other facilities statewide.

Office of Imaging and Records Management (IRMS)

IRMS provides document and records management services, which include imaging, electronic workflow, data entry, archiving and retention services.

Office of Contracts and Procurement

This office provides purchasing services by conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

Office of Adult Abuse Prevention and Investigations (OAAPI)

OAAPI is responsible for conducting and coordinating abuse investigations and providing protective services statewide in response to reports of abuse and neglect to people they serve, including:

- Adults over the age of 65
- Adults with physical disabilities
- Adults with intellectual or developmental disabilities
- Adults with mental illness, and
- Children receiving residential treatment services

OAAPI exists to ensure a prompt, consistent and equitable response to all reports of abuse of vulnerable adults (and children in certain settings) across the state, to provide proactive prevention training and services to vulnerable populations and those who care for them and to help prevent abuse from happening in the first place. OAAPI works toward these goals by the provision of the following specialized, abuse-related services to its DHS and OHA program partners:

- Policy analysis and development;
- Data collection and analysis;
- Quality assurance and continuous improvement activities;
- Staff training and development;
- Research and prevention activities;
- Program coordination and technical assistance; and
- Specialized investigation services.

As a Shared Service with a broad view of adult abuse trends across varying populations and settings, OAAPI is uniquely positioned to provide trend data and outcomes to program and agency partners, who use that information to ensure and enhance the safety of their respective consumer populations.

Internal Audit and Consulting

This office provides independent and objective information about operations, programs and activities to help management make informed decisions and improve services.

Office of Payment, Accuracy and Recovery (OPAR)

OPAR provides recovery services by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided. OPAR continues to work with Lean Daily Management System principles to produce efficiencies in the work of the office. Huddles, continuous improvement sheets, 7-step problem solving, and skill versatility are all examples of tools being used by units to enhance the way business is conducted.

TANF Investigators (funding in shared services funding)

Currently, OPAR's client fraud investigators have caseloads in excess of 300 cases each. This is excessive and additional resources are needed to properly decrease the backlogged workload. Further, an investigator's work often happens in client homes and in adversarial situations where safety is a concern.

These new staff (7 FTE, Investigator 3 classification; 10 FTE, Investigator 2 classification; 2 FTE, Office Specialist 2; 2 FTE, Administrative Specialist 2; 1 FTE, Program Manager C) would provide the additional investigative horsepower needed to right-size the investigations unit, reduce existing safety concerns, as well as expand capacity for utilizing new data-mining and GIS fraud-identification techniques.

Performance Excellence Office (PEO)

PEO provides leadership in coordinating continuous improvement and training services. PEO uses a blend of project management principles, a strong governance structure, metrics developing and tracking, training and Lean techniques to drive a comprehensive approach to creating a culture of continuous improvement that is cutting red tape, delivering better and faster services to clients, generating cost savings and increasing transparency. The PEO uses a multi-level approach designed to create an organic self-sustaining culture of continuous improvement through all

levels of the organization. The PEO provides lean and continuous improvement training for all agency staff, coaching and mentoring for agency management and oversight of agency performance in continuous improvement and performance excellence.

Publications and Design (P&D)

P&D manages the writing, design, development, printing and distribution of DHS and OHA publications for internal and external audiences, which includes alternate formats and alternate languages. P&D provides consulting to plan professional quality publications that reflect DHS and OHA style guidelines; edit and proof materials created by staff experts and partners in their individual fields; provide graphic design, layout, original and digital illustration, forms creation, graphic artwork and Web and electronic materials.

Below is a table comparing the 2013-15 LAB to the 2015-17 GB for the Other funded DHS Shared Services.

	2013-15 LAB	2015-17 GB		2013-15 LAB	2015-17 GB	
Shared Services Office	OF	OF	Difference	POS	POS	Difference
Shared Services Administration	\$1,116,241	\$1,144,726	\$28,485	3	3	-
Budget Center	\$2,625,104	\$3,081,371	\$456,267	15	15	-

Office of Payment Accuracy & Recovery (OPAR)	\$26,051,222	\$28,773,897	\$2,722,675	168	185	17
Performance Excellence Office	\$1,635,408	\$1,645,578	\$10,170	6	6	-
Publication and Design Section	\$3,070,313	\$2,349,853	(\$720,460)	14	14	-
Total DHS Shared Services	\$112,945,673	\$116,726,235	\$3,780,562	655	674	19

DHS also has statewide assessments that include DAS charges such as the State Government Service Charge, Risk Assessment and State Data Center Charges. Rent for all of DHS is in the Facilities budget, IT Direct is for all computer replacement needs. The Shared Services funding is the revenue for the DHS portion of DHS and OHA shared services and Debt services is to pay off Certificates of Participation loans taken for major DHS projects. Each service, both shared and assessed, are important for DHS to attain its programmatic outcomes. It is critical to continue to look for efficiencies in our systems, processes or staffing.

The Governor's budget for statewide assessments is:

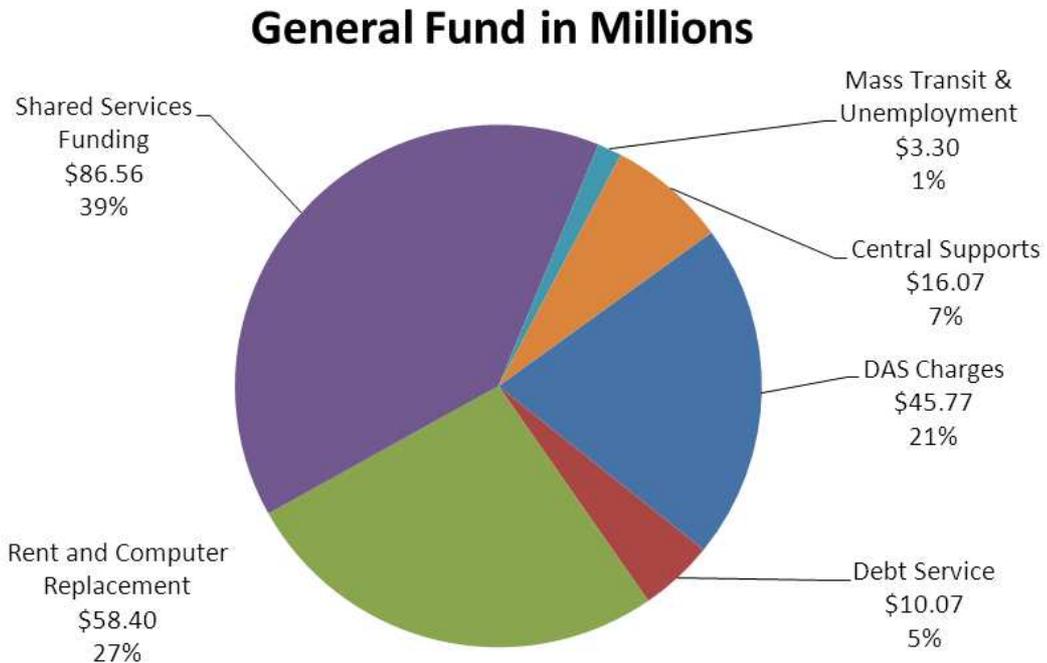

DHS SAEC	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 185,587,528	\$ 30,223,747	\$ 165,450,671	\$ 381,261,946	0	0.00

Below is a General Fund look at Central and Shared Services and Statewide Assessments for DHS.

Oregon Department of Human Services

Self-Sufficiency Programs

Overview

Oregonians access Self-Sufficiency Programs when they are in need and have no other alternatives. We serve more than one million Oregonians annually from all corners of the state through:

- The Temporary Assistance for Needy Families (TANF) Program which provides cash assistance for families with children living in extreme poverty as well as family stabilization and employment preparation services.
- The Employment Related Day Care (ERDC) program which helps low-income, working families pay for safe, stable child care so parents can retain employment.
- The Supplemental Nutrition Assistance Program (SNAP) which provides food benefits and nutrition education.
- Refugee Services to help refugees resettle safely in our state.

Self-Sufficiency Programs also offer services to help families escape domestic violence and to apply for other federal programs, such as Supplemental Security Income, when employment is not a viable option. Some programs require involvement in employment services or job training to help families move into self-reliance.

Challenges

Self-Sufficiency Programs are designed to help stabilize families, contribute to the healthy development of children, and assist adults in finding and retaining employment that gets them on a path to being self-supporting. Our programs prevent children from entering the foster care system and are designed to help families break the cycle of poverty.

Demand for Self-Sufficiency Programs hit an all-time high during the last recession and while demand is decreasing, it is nowhere near pre-recession levels. For example, the number of people receiving food benefits remains more than 60 percent higher than in July 2008, prior to the recession, while the number of people receiving cash assistance through TANF is more than 55 percent higher.*

**October 2014 Caseload Data*

At the same time our caseloads hit historic highs, Self-Sufficiency Program staffing levels were decreased. During the 2013-15 biennium, staffing levels remained challenging but began to improve. Through a cost-neutral shift of eligibility positions into case management positions, DHS raised its case management staffing levels from 35 percent to 59 percent of the need. Case management staffing is projected to be at 76.9 percent in the 2015-17 biennium, based on the 15-17 Governor’s Budget (GB) and the fall 2014 forecast. Eligibility staffing levels will reduce to 72.8 percent. Case management is critical to providing the customized, consistent attention program participants need to move from poverty onto a pathway toward self-reliance. Overall, the 15-17 GB supports a staffing level of 75.8 percent for Self-Sufficiency Programs next biennium.

Self-Sufficiency Programs are adjusting to changing circumstances and working to align with statewide redesigns in the education, health care, early learning and workforce systems. In addition, recent federal reauthorizations through the Workforce Investment and Opportunity Act (WIOA), and the Child Care and Development Block Grant (CCDBG) bring new requirements, challenges and opportunities.

15-17 Governor’s Budget for Self-Sufficiency Programs

While reductions from last biennium are not likely to be fully restored, the 15-17 Governor’s Budget reinvests projected TANF caseload savings into the program to help Oregonians meet their basic needs, have access to quality child care, and support them as they transition into employment.

The 15-17 Governor’s Budget for Self-Sufficiency Programs is projected to be \$433 million or 12.4% in general funds for the 15-17 biennium.

Self Sufficiency	GF	OF	FF	TF	Positions	FTE
LAB 13-15	349,209,639	136,863,602	2,976,651,469	3,462,724,710	2,001	1,981.99
GB 15-17	433,009,208	111,030,484	2,941,565,794	3,485,605,486	2,035	2,025.97
Difference	83,799,569	(25,833,118)	(35,085,675)	22,880,776	34	43.98
Percent of Change	24.0%	-18.9%	-1.2%	0.7%	1.7%	2.2%

Note: The large increase in GF from 13-15 LAB to 15-17 GB is primarily due to backfilling \$43.8 million in one-time TANF and SNAP bonus funding and \$11.1 million in CCDF one-time funding. These numbers include \$2.5 billion in Non-Limited Federal Funds in the SNAP program.

The 15-17 GB proposes:

- Restoring \$450,000 in one-time funding for the Oregon Food Bank;
- Investing \$1 million for 211 to expand statewide;
- Transferring \$3.6 million Total Funds in Food Assistance programs from Housing to DHS;
- Anticipates savings from declining TANF caseload (\$41.9 million) and proposes reinvesting \$30 million of the savings into program improvements, including staffing;
- Funding the projected TANF caseload and cost per case in TANF;
- Assuming \$24 million in TANF Contingency Federal Funds;
- Increasing access to quality child care with \$49.6 million in General Funds;
- Continuing previous TANF program reductions;
- Assuming a 3 percent vacancy factor on all positions reducing capacity to complete work;
- Eliminating inflation, keeping rates at 2013-15 levels;
- Funding the Self Sufficiency Programs (SSP) staffing workload model at 75.3 percent;
- Investing in TANF fraud investigators to ensure program integrity.

TANF and JOBS Reinvestment

The 15-17 GB proposes reinvesting some TANF caseload savings back into the program to make improvements in the 2015-17 biennium. The reinvestments will be combined with policy changes that provide a sharpened focus for employment activities, streamlining of processes and new flexibility for local investments. The proposal includes:

- Developing and expanding contracts with local providers with a focus on family stabilization, prevention and retention.
- Increasing flexibility in support services to stabilize families, prevent entry or re-entry into TANF, maintain engagement in activities and retain employment.
- Developing a TANF transition plan for clients that establishes family stability for working parents by reducing the “fiscal cliff” TANF parents currently face as they transition from the program to employment.
- Making policy changes that simplify and streamline eligibility processes and support family stability.
- Increasing the program’s capacity to provide results-oriented, customized client services, including: additional DHS case manager positions focused on clients scheduled to reach time limits; training for staff and partners to

enable implementation of a transformed TANF aligned partner model; implementation of performance-based contracting (including a targeted, coordinated effort with local workforce investments boards); and a formal evaluation of new program design elements.

- Invests in more flexible, accountable and partner-aligned JOBS program contracts at the local level, with a focus on job training and skills development opportunities that help move families into work that enables families to be self-sufficient.

Extension of other TANF reductions

The 15-17 GB also extends reductions implemented in the 2011-13 biennium, including the continued suspension of key provisions in the HB 2469 (2007) program design. These include:

- Elimination of the State Family Pre-SSI/SSDI enhanced grant;
- Extension of the 2011-13 TANF benefit levels, for approximately 30,042 families;
- Maintaining the 2011-13 income limit for relative caregivers who are caring for a child in the absence of a parent;
- Maintaining the 2011-13 ‘job quit penalty’ for 120 days for parents who quit a job or cause their own dismissal;
- Maintaining the reduction of the Pre-TANF program from up to 200 percent of a grant amount in payments to 100 percent of the grant amount;
- Maintaining the modification to the re-engagement and disqualification process;
- Continuing suspension of the Parents as Scholars program; and,
- Continuing suspension of the HB 2469 Post-TANF program for those who leave TANF due to employment.

Support for family stability and child well-being. More than 43.6 percent of children in foster care received TANF supports within two months of entering care in State Fiscal Year 2013. The 15-17 GB proposes maintaining current funding levels to support family stability and child well-being for families in extreme poverty receiving funds through TANF, thereby reducing the likelihood that those children are abused or neglected and enter foster care. Family Support and Connections is a TANF-supported program intended to reduce child abuse and neglect. This program provided 24,756 hours of direct service for 7,060 ongoing families in State Fiscal Year 2013-14.

Increase Access to Quality Child Care. The 15-17 GB invests \$49.6 million in Employment Related Day Care subsidies designed to increase quality and access to affordable child care for low-income working Oregonians, and prepare children for school.

DHS, in collaboration with the Oregon Department of Education's Office of Child Care (OCC) within the Early Learning Division, continues its innovative partnerships with child care and education programs by expanding the Head Start contracted child care to Oregon Program of Quality (OPQ) providers. The OPQ designation was established as a precursor to the state's QRIS star rating system. This expansion is considered a field test. The key goals of the field test are for children to have access to continuous, quality child care; for families to have continuity of child care to support their employment; and for providers to have stable funding. A statewide research team will evaluate the field test. The field test for expanding is related to priorities set by the Governor and the state's Early Learning Council.

Working closely with OCC, DHS will expand contracted child care opportunities in 2015 as Head Start grantees partner with child care programs in their communities on the federal Early Head Start Child Care Partnership program. These partnerships provide more of Oregon's children with the opportunity to have high-quality child care and give them the start they need to be successful in school and life.

Conclusion

Today the economy has recovered enough to get many Oregonians back to work, but many of the people served in Self-Sufficiency Programs continue struggling to make ends meet due to low wages, part-time employment, insufficient benefits and few prospects for career advancement. Some face steep barriers to employment because of low literacy, criminal history, mental health issues, or a lack of work experience or education.

Self-Sufficiency Programs are working to align with statewide initiatives that support its clients, to strengthen collaborations with local and state partners, and to increase person-centered case management to provide the customized support that clients need to move out of poverty and up the economic ladder. The 15-17 GB supports SSP efforts to act strategically to help the most vulnerable Oregonians improve their economic prospects.

The effectiveness of our human service delivery model also is dependent on the strategic investments outlined in other areas of the Governor’s budget. In the long-run, these investments will improve service quality and equity, ensure that DHS clients benefit from coordination with other systems (including health, education, and workforce systems), and allow the Department to maximize results by delivering accurate, culturally appropriate and essential services to Oregon’s most vulnerable adults and families.

Oregon Department of Human Services

Child Welfare Programs

Overview

We provide prevention, protection and regulatory programs for Oregon's most vulnerable citizens –children and adults – keeping them safe and improving their quality of life. Prolonged economic stress is increasingly putting Oregon children, seniors and adults with disabilities in situations that are unsafe. These issues are disproportionately affecting communities of color contributing to their over-representation in both the child welfare and corrections systems. We know that the demand for state-funded services in the future is directly related to our ability to prevent and mitigate these traumas today.

Engaging Families

Our strategies are foundational on creating an environment that is safe for citizens who are most vulnerable based on family, social and economic issues. We focused our initiatives toward minimizing risk by transforming our interventions to better meet the challenges families are facing. This will enhance our ability to engage individuals who are less able to care for themselves, their families and communities. This creates a stronger continuum of efforts to prevent abuse and neglect, and when necessary, supports efforts to hold perpetrators of that abuse and neglect accountable.

The Governor's Budget (GB) proposal seeks to ensure that Oregonians are safer in the future than they are today by focusing on strategies that have proven to result in the greatest reduction in overall risk. We aim to achieve the following outcomes:

- To continue to build and support an effective array of interventions with community-based supports and services for families before, during and after involvement with the Child Welfare System. This includes strategies to safely and equitably reduce the number of children who experience foster care and providing available services and supports so children are not at risk for re-entry into foster care and families can be stabilized.
- Continue to improve services for children and families of color, targeting strategies to address issues such as overrepresentation in foster care, and potential disparities in decision-making.
- Continue to maintain a clear focus on protective strategies for the most vulnerable citizens in care in Oregon, including children, older adults and those with physical and developmental disabilities to keep them safe and healthy.

Funding Request – Strategic Initiatives

The GB in Child Welfare is projected to be 50 percent general funds for the 15-17 biennium.

Child Welfare	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 439,292,050	\$ 23,048,472	\$ 462,502,356	\$ 924,842,878	2,481	2,402.82
GB 15-17	\$ 470,120,908	\$ 22,915,331	\$ 445,338,658	\$ 938,374,897	2,250	2,492.09
Difference	\$ 30,828,858	\$ (133,141)	\$ (17,163,698)	\$ 13,532,019	(231)	89.27
Percent change	7.0%	-0.6%	-3.7%	1.5%	-9.3%	3.7%

Children and Families

Child Welfare Services represent a continuum of supports with the ultimate goal of keeping children safe. Historically in Oregon, the safety practice has been removal and placement into foster care. Based on research and feedback from children, youth and families who experience our system, our strategic efforts are refocusing the service continuum to ensure in home safety whenever possible, while also focusing on child well-being and family stability. The goal is avoid removal and placement in foster care by supporting families safely parenting their children at home. Post adoption and guardianship support is another opportunity to help families bridge difficult times as children move through childhood, again preventing them from returning to foster care.

These strategies include:

1. Developing local programs and community capacity that are designed to strengthen, preserve and reunify families involved in the child welfare system;
2. Differential Response - Changing our upfront intervention to more fully engage families to build on their strengths, engage them in community programs and supports, and engage them in outcomes that remediate the issues that are challenging the family;
3. Focusing on addressing the disproportionality of children of color;
4. Assisting more families in extreme poverty at risk of involvement with Child Welfare; and
5. Continue developing a system of quality assurance and continuous improvement to inform improvements in the outcomes achieved by the system.

GB investments are intertwined in the Child Safety, Child Welfare Design and Delivery, Permanency Planning and Post-Adoption/Guardianship.

GB funding includes:

- Funds forecasted caseloads levels and projected cost per case increases
- Continues investment in Differential Response and Strengthening, Preserving and Reunifying Families programs
- Invests in Child Welfare infrastructure to ensure statewide Differential Response implementation by in 2017
- Behavior Rehabilitation Services (BRS) continues to be funded at settlement agreement level
- Adds one Child Welfare Quality Control reviewer position for a total of 4 positions
- Invests in Pay for Prevention pilot project
- Funds workload model at 85.9 percent

Strengthening, Preserving and Reunifying Families Programs

In 2011, the Oregon Legislature recognized and codified this performance-based approach to the delivery of community-based programs and services for children and families involved in the child welfare system. This effort compliments the work of the Coordinated Care Organizations and the future work of the Early Learning Council hubs, targeting children and families involved in the child welfare system. Local collaborations of interested stakeholders determine community strengths and service gaps and request services targeted to specific outcomes focusing on keeping children safe and families together. These programs are an essential compliment to the implementation of Differential Response and supporting children being safely parented at home. Implementation of this approach and investment in a more comprehensive service continuum has begun in seven counties. This budget would allow us to work with communities and other local agencies to establish these programs statewide. The 15-17 GB continues investment of over \$11.5 million GF and \$29.5 million TF additional support of these programs.

Differential Response

Traditional child welfare services assume a single approach to protecting a child through investigations: an allegation occurs, and we investigate and decide if maltreatment occurred. This approach is very effective with some families. However, for families that are experiencing neglect, the children enter care at a higher rate than other forms of abuse and stay longer, suggesting the need for a different approach with these families. Based on our data, over 60 percent of children are involved with child welfare as a result of neglect (as opposed to physical and sexual abuse). The GB proposes continuing implementation statewide

of the alternative approach to child protection, known as “Differential Response.” This approach allows state workers to conduct a family assessment, gauge the needs and strengths of the family, and engage them and community partners in outcomes that keep the family together, benefitting the family as a whole. This alternative approach does not replace investigations or assistance when there is imminent danger or significant safety threats. However, in other states this approach has safely reduced costly foster placements and the associated trauma on the child and families. To succeed and minimize risk of harm to children already identified as having experienced abuse/neglect, this service delivery innovation depends both on investment in culturally specific community-based services such as our Strengthening, Preserving and Reunifying Families Programs, as well the 13-15 investment in adequate child welfare staffing focused on serving more children safely in their own homes. This budget includes both additional staffing in the field and infrastructure positions to be able to meet the implementation goal in 2017.

Pay For Prevention

The GB invests \$5 million in General Fund to continue the work started in 2013-15 around pay for prevention programs. The next phase of work will test locally tailored evidence-based interventions in communities across the state, providing assistance to approximately 300 children and their families. At the same time, it would examine a unique-to-Oregon model of social impact financing that has the potential to improve a range of state-funded services and generate far-reaching budget savings and social benefits.

Conclusion

We want to break the cycle that causes harm to individuals and drives Oregonians into expensive state-sponsored programs. Our strategies focus on helping ensure that Oregonians are safer in the future than they are today by increasing resources proven to result in the greatest reduction in overall risk. Though those strategies require some upfront, taxpayer investment, we are committed to being accountable for needed service delivery innovations and performance metrics focused on improvements in the lives of those we serve and long-term reductions in the demand for state services. We know that abuse and neglect will never totally be eliminated, but we believe that Oregon should be a place where our children, seniors, and persons with disabilities are safe, and we believe our budget proposal will improve the state’s ability to work with individuals and communities to achieve that goal, while reducing the demand for costly state services in the future.

Oregon Department of Human Services

VR-Basic Rehabilitative Services Programs

Overview

VR-Basic Rehabilitative Services (VR) helps Oregonians with disabilities gain employment through specialized training and new skill development. This includes helping youth with disabilities transition to jobs as they become adults, helping employers overcome barriers to employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. A total of 383,381 working-age Oregonians experience a disability but only 36 percent are employed. Employment helps people with disabilities become more self-sufficient, involved in their communities, and live more engaged, satisfying lives. Investments in VR are a high return on investment that results in people becoming more productive members of society, in addition to a reduced reliance on state programs and services.

Current funding levels

The 15-17 Governor's budget to operate the VR-Basic Rehabilitative Services Programs \$20.6 million in general funds for the 2015-17 biennium. This is a 1 percent decrease from the Legislatively-approved budget for the 2013-15 biennium. This is due to the elimination of inflation and the assumption of a 3 percent vacancy factor across all positions.

Vocational Rehabilitation	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 20,866,337	\$ 2,324,758	\$ 74,438,950	\$ 97,630,045	234	229.08

Percent change	-0.8%	-0.2%	-0.4%	-0.5%	8.1%	8.8%

Strategic funding proposals

VR has prepared a strategic budget to improve the program's effectiveness and enhance the program's ability to provide further employment outcomes for Oregonians. Program improvements focus on return-on-investment through outcomes for our clients, including:

- Serve individuals with developmental disabilities
- Improve access for benefits planning
- Increase youth served transition services
- Expand capacity to serve employers

Employment outcomes for people with intellectual or developmental disabilities

Youth and adults with intellectual and developmental disabilities (I/DD) are significantly underrepresented in Oregon's workforce. With appropriate services and assistance, people with I/DD can work successfully in the community. The state is seeking to increase competitive employment of people with I/DD in integrated workplaces through increased efforts around Employment First.

The Governor's Executive Order 13-04 directs state agencies and programs, including DHS' Office of Developmental Disability Services (ODDS) and VR, to increase community-based employment services for people with I/DD and to reduce state support of sheltered work. In order to fulfill the Employment First policy and the Executive Order, this investment that is currently in the I/DD budget requests funding for:

- a. Six Vocational Rehabilitation Counselors, Two Human Services Specialists and 1 Operations and Policy Analyst to serve increasing numbers of youth with intellectual and developmental disabilities and increase engagement with school districts participating in the Youth Transition Program (YTP) and with state I/DD system.
- b. 10.5 contract Benefits Counselors to provide benefits counseling services to people with disabilities, including those with I/DD; and two Operations and Policy Analysts to train, oversee and support the counselors; and to plan future delivery of these services.
- c. An Employment First Transformation Fund and Operations and Policy Analyst to identify, research and promote utilization of best and evidence-based practices that facilitate competitive employment of people with I/DD and promote continued improvement of related services.

Improve access for benefits planning

Individuals with disabilities fear losing benefits and critical medical coverage if they become employed, due to federal rules and regulations. VR is working with the seven Centers for Independent Living and Disability Rights Oregon (a private nonprofit) to sustain the Work Incentive Network (WIN). WIN was developed as a pilot project through a Medicaid Infrastructure Grant and funding may end for these services. WIN is an evidence-based practice, providing benefits and work incentives planning to individuals with significant disabilities who want to obtain,

maintain, or increase their employment, but should not lose other benefits and medical coverage. This allows people on disability benefits to become employed, gain more levels of self-sufficiency, become engaged in their communities, and live a higher quality of life. They also begin paying taxes and reduce reliance on those publicly-funded services.

This initiative funds positions needed to operate a statewide Work Incentives Network (WIN) on a continuing basis. This includes coordinator positions, training, technical assistance and administrative positions.

This investment will increase employment for recipients of SSI/SSDI to 590 individuals per year and recover \$900,000 in cost reimbursement to the state for individuals who have ceased receiving benefits due to employment.

Expand youth served in Youth Transition Program

Youth Transition Program (YTP) operates as a partnership between Vocational Rehabilitation (VR), the Oregon Department of Education (ODE), the University of Oregon's College of Education, and local Oregon school districts. At least 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average.

This internationally and nationally recognized school-to-work transition approach is a best practice for young people with disabilities. More schools across Oregon would like to implement this program, which currently serves about 1,300 students. VR would like to increase capacity to serve an additional 1,850 transition-age youth.

Improving Relationships with Education

Workforce Innovation and Opportunity Act of 2014 (WIOA) and the Governor's Workforce directive instructs agencies to work in conjunction with one another to provide services leading to employment for individuals with disabilities, and increase pre-employment transition services for Youth in Transition. VR and ODE will expand this process in 2015-17 by blended funding for the contracted Transition Network Facilitators. The contracts cover the entire state by providing facilitation of services between Special Education students and Vocational Rehabilitation services. ODE has current funding for eight half-time facilitators and VR will use Basic Rehabilitation funding to increase these to full-time facilitators. These services will meet both the federal requirements as well as supporting the Governor's Executive Order 13-04 and Workforce directives.

Improving Workforce Partnerships

Historically, individuals with disabilities have struggled to access the workforce system. Due to workforce redesign efforts at the state level and the passing of the Workforce Opportunities and Innovation Act of 2014 (WIOA), Oregon's workforce partners are working together to enhance services for Oregonians.

VR has partnered with ODE, local workforce boards, the Oregon Employment Department, community colleges, and other economic developmental organizations, to bridge the gap for individuals with disabilities who benefit from accessing the entire workforce system.

By working with partners on the implementation of the Oregon Workforce Investment Board's 10-year-plan, VR continues to create opportunities for individuals with disabilities to access and benefit from various workforce strategies. Moving forward, VR will enhance employer outreach strategies to engage employers and conduct outreach and education to show that clients are reliable, dependable, and skilled workers who also happen to have disabilities. VR will also engage employers to provide work-based learning opportunities for all clients, including youth transitioning into post-secondary careers.

Continued partnership with Addictions and Mental Health

VR continues to partner with Addictions and Mental Health division (AMH) and service providers around the state utilizing the evidence-based Individual Placement and Supported (IPS) model to provide supported employment services to individuals with mental health barriers to employment. In partnership with Coordinated Care Organizations, VR is helping the IPS model spread throughout the state and into rural areas.

Additionally, VR partners with the Early Assessment and Support Alliance (EASA) to assist youth with psychiatric disabilities in pursuing their desired employment goals. Through EASA, clinical mental health teams seek to identify young people who are experiencing psychosis and provide them with the information, services and supports they need to continue on their life path. At present, 18 counties in Oregon have an EASA team. In partnership with Portland State University, VR helped create a Center for Excellence that provides technical assistance to EASA teams throughout the state.

Continued specialized service through the Latino Connection

VR continues to contract and collaborate with the Latino Connection program in reaching out to and providing specialized job placements services to native Spanish-speaking individuals with disabilities. The focus of these services has been in Portland, Clackamas, Salem and Woodburn, which have large Latino communities. This program had a 70.4 percent rehabilitation rate in federal fiscal year 2014.

Conclusion

In part due to new federal legislation such as WIOA, as well as state efforts around the Employment First initiative, demands for VR's services will increase in 2015-17. The program has a renewed challenge to increase service opportunities to youth in transition and individuals with intellectual and developmental disabilities while maintaining services to the broader population with disabilities. This challenge is an opportunity to expand VR's impact on the community and improve opportunities for individuals with disabilities to be a contributing part of their Oregon communities.

Oregon Department of Human Services

Aging and People with Disabilities Programs

Overview

The state of Oregon is a leader in long term care systems. We are ranked number three nationally by AARP. In 1981 Oregon received the first waiver nationwide for long term care services allowing Oregonians receiving Medicaid to choose services in their own home or their communities rather than an institutional facility such as a nursing home. This waiver provides significant benefits to the State in cost savings and allows Oregonians individual choices to best serve their needs. In Home services average approximately 22 percent of the cost of nursing facility services and community based services average approximately percent. Oregonians value receiving long term care services in a non-institutional setting with over 86 percent choosing alternatives that allow them to remain independent and safe.

Long Term Care Setting (as of August 2014)	# of Recipients	% of LTC Caseload
Nursing Facility	4,268	13.7%
In Home	15,313	49.2%
Community Based Setting	11,528	37.1%
Total	31,109	100%

Oregon's population is aging

Our 65+ population is projected to grow from 502,000 to 950,000 by 2030. While we prepare for this growth we know we must do more than create cost effectiveness in the choices of long term care. We must also look at preventative measures Oregonians can implement now so they never need publicly-funded long term care services.

The GB continues the 13-15 strategic budget to focus on modernization and improvements to help Oregonians sustain long term care services. This ambitious initiative, referred to as Long Term Care 3.0 is helping us achieve the following outcomes:

- Advance a statewide Aging and Disability Resource Connection infrastructure that will help Oregonians make better choices when long term care services are needed.
- Focus on preventative services that delay or eliminate costly long term care services.
- Integrate long term care coordination with Oregon Health Authority's coordinated care organizations.

- Remove barriers to serving more individuals in home and community based care settings.

Funding

The Governor’s Budget for Aging and People with Disabilities program is projected to be \$812.7M general funds, \$2.75B total funds for the 15-17 biennium. This represents an increase of approximately 13 percent over 13-15 levels.

APD	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 725,066,544	\$ 162,073,357	\$ 1,575,530,793	\$ 2,462,670,694	1,163	1,147.68
GB 15-17	\$ 812,787,834	\$ 182,514,309	\$ 1,759,294,954	\$ 2,754,597,097	1,192	1,182.28
Difference	\$ 87,721,290	\$ 20,440,952	\$ 183,764,161	\$ 291,926,403	29	34.60
Percent change	12.1%	12.6%	11.7%	11.9%	2.5%	3.0%

Note: a large part of the increase is due to caseload and cost per case trends especially in keeping nursing facility rates at the statutorily required level.

The Governor’s budget includes the following:

- Funds forecasted caseloads levels and projected cost per case increases
- Continues reimbursement rates in effect for 2013-15 (no cost of living adjustments)
- Invests \$35 million combined into APD/DD/MH toward Department of Labor requirements for in-home services (budgeted in I/DD as placeholder)
- Funds nursing facilities at statutory rate
- Funds planning for non-MAGI eligibility automation project
- Invests \$3.4 million for new adult protective services data system
- Funds state staff at 90.2 percent of workload model
- AAAs continue at 95 percent equity
- Continues new 13-15 investments.

Aging and People with Disabilities Special Purpose Authorization Items

- Continues: Oregon Project Independence expansion; reporting for Community-Based Care and nursing facility utilization; Older Americans Act sequestration backfill; and Personal Incidental Fund increase to \$60 for nursing facility residents.
- Does not continue one-time investments or funding for Evidence Based Health Promotion Programs.

Department of Labor Rules

Overview of Impact to Oregon

To assess the impact of the FLSA changes on Oregon, DHS asked DOL to determine if DHS and OHA would be considered a joint employer. DOL concluded that Oregon DHS and OHA are third-party joint employers under FLSA for all Homecare Workers (HCWs) and Personal Support Workers (PSW).

In Oregon, this means that the Department's in-home programs must be modified to come into compliance with the federal mandates. The FLSA changes mean that DHS and OHA must:

- Compile and combine hours worked across all consumers on a weekly basis.
- Pay overtime for hours in excess of 40 hours per week.
- Pay for travel time between consumers if the travel occurs on the same day.
- Change the Live-in and Spousal Pay programs to pay providers when they are required to stay in the home. DOL calls these hours "on duty" or being "engaged to wait."
- Pay at least minimum wage for all hours worked.

These rules are the subject of uncertainty at this time. A recent court decision significantly reduced the impact of these rules. It is unclear at this time if DOL will appeal this court decision.

If the new rules become binding, DHS and OHA estimate that these changes will have a direct impact on approximately 3,800 of the 21,000 individuals receiving in-home services provided by HCWs and PSWs. Approximately 4,773 HCWs/PSWs will be impacted. The impact is not as high as it could have been because most individuals receiving services and supports use less than 175 hours of services and supports per month. Based on February 2014 paid claims data, 81 percent of individuals receiving APD-funded services, 96 percent of individuals receiving DD-funded services and 100 percent of individuals receiving AMH-funded services receive less than 175 hours of paid services and supports per month. Some providers work for multiple consumers, which results in more workers impacted than consumers. This investment assumes some program changes can be made to reduce the overall impact to the DOL rule changes.

Non-MAGI Medicaid Automation

The Department of Human Services (DHS) GB funds \$7.5M TF (\$6.75M FF, \$0.75M GF) to implement a planning effort to prepare for the implementation of an eligibility system for its non-MAGI (Modified Adjusted Gross Income) Medicaid programs. DHS is committed to completing thorough planning to provide a framework for phased delivery of functionality that demonstrates meaningful progress in short increments of time.

The recent decision by the Center for Medicaid and Medicare Services (CMS) to extend 90/10 funding for Medicaid eligibility systems provides substantial resources to help the Department of Human Services proceed with this planning work. A recent CMS site visit provided Oregon with an understanding of CMS' expectation that it proceed with automation of the eligibility and case management for the non-MAGI Medicaid population as soon as possible after successful completion of the MAGI Medicaid Transition Project.

Adult Protective Services Adult Abuse Data and Reporting Writing System

The Office of Adult Abuse Prevention and Investigations (OAAPI) was created in 2012 to centralize the oversight of investigations of reported abuse of vulnerable adults in Oregon, including adults over the age of 65; individuals with physical disabilities, developmental disabilities, and mental illness; and children in certain licensed settings.

Around 85 percent of the nearly 15,000 investigations conducted under the oversight of OAAPI every year involve the reported abuse of an older adult (over 65) or a younger adult with a physical disability. For this reason, APD is identified as the primary program sponsor of this Policy Option Package.

Although the oversight and responsibility for these investigations has shifted from three distinct program areas to what is now OAAPI, the data systems that are used to track and document these investigations are not consolidated and remain fragmented. OAAPI and the abuse investigators under its oversight currently use nine (9) distinct systems to collect data and generate investigation reports and data reports related to protective services and abuse investigations. These systems run on different hardware and software, collect different data points, and are unable to share data.

The need for an integrated statewide adult abuse data system has been recognized for many years by external observers, including consultants, auditors and media,

and is widely accepted by involved agencies and stakeholders who work with the inadequate and disconnected patchwork of adult abuse data systems currently in use every day.

As an enterprise-wide office and Shared Service of DHS and OHA, OAAPI proposes (under this POP) to:

- 1) Fund a contract with a vendor to develop and implement a new, statewide, comprehensive Adult Abuse Data and Report-Writing System, and
- 2) Fund the ongoing support and maintenance costs of the new system

By improving access to abuse and neglect data, this new system will lead to better outcomes in Key Process Measures and Fundamental DHS Protection and Intervention metrics, as well as better outcomes for all the vulnerable Oregonians that OAAPI serves.

Continues investment in LTC 3.0 Strategic Funding Investments made in 2013-15

Mental health capacity

Continues funding to support the needs of older adults and people with disabilities who have mental illness. APD currently serves those with severe and persistent mental illness in specialized nursing facilities, residential care facilities and adult foster homes. Most are at capacity and have waiting lists.

Special population capacity

Support special population capacity development, allowing more individuals to be served outside of nursing facilities at lower costs. Some of the service gaps include settings serving individuals who are obese, or ventilator- dependent or have traumatic brain injuries.

Care Coordination

Support care coordination with Coordinated Care Organizations and Oregonians without Medicaid. This investment supports staff to direct the work of care coordination between offices and Coordinated Care Organizations (CCOs) and increase the number of options counselors to serve individuals with LTSS needs who are not Medicaid eligible.

Innovations

Test ideas to increase quality and lower costs through an “innovation fund”. These initiatives will be tracked and the outcomes measured allowing new evidence-based approaches to increase the efficiency and effectiveness of services.

Provider Rates

Continue 2013-15 rates for home and community based providers to help assure continued strong access to home and community based services as we compete in the private market.

Staffing

Add eligibility and adult protective services and other staff to meet the needs and expectations of Oregonians for the safety and protection of those we serve. We have transitioned staffing requests from a caseload ratio model (e.g. 1 case manager for every 60 cases) to a workload model that more accurately reflects the workload of local offices. This initiative seeks to fund the workload model at 90.2 percent for state staff and fund Area Agencies on Aging (AAA) at 95 percent equity levels.

Conclusion

These initiatives, and the continuation of implementation of LTC 3.0, will help Oregon ensure its long term care system is sustainable and ready to address the inevitable aging population. We believe these initiatives support preventative services to keep individuals from needing long term care in the first place and help all consumers receive high quality, unbiased information on long term care choices as it becomes necessary. Our path to transforming long term care honors choice, safety and independence and offers the most cost-effective solutions allowing our aging population to thrive and approach aging with confidence and dignity. We believe these initiatives will help the state best manage the resources available by providing the right services are delivered at the right time and place through efficient and effective staff to meet the changing population of Oregonians.

Oregon Department of Human Services

Intellectual & Developmental Disabilities Services

Overview

We provide services to cover a lifetime of support to Oregonians with Intellectual and Developmental Disabilities (I/DD). People with disabilities of all ages want the same opportunities every Oregonian wants: not just to survive, but to thrive. They want to live in their own homes and make decisions about their lives, so they can go to school, work, church, enjoy recreation and participate fully in their communities. We currently help approximately 24,220 children, adults and their families have the best quality of life possible at all stages of their lifespan. Due to their economic situation, most individuals with developmental disabilities are eligible for Medicaid home and community based services, which allows them to remain in their family home or community instead of an institution. Our mission is to help them be fully engaged in life and, at the same time, address their critical health and safety needs.

History and Future State

The state of Oregon is recognized nationally as an innovative leader in developing community-based services for individuals with developmental disabilities. Oregon is one of only three states that have no state or privately operated institutional services specifically for people with developmental disabilities. In fact, the majority of individuals with developmental disabilities in Oregon, approximately 59 percent, are served in their own home or their family's home.

That is the result of two decades of work to aggressively “re-balance” the developmental disabilities system -- moving from an institutional model with expensive “one size fits all” approach -- to a self-directed, family involved, individually focused and less expensive approach to service. Today, individuals and families report a high level of satisfaction through the increased control over services.

However, to maintain those high levels of satisfaction, to further advance the inclusion of people with developmental disabilities in their communities, and to serve the increasing number of people with developmental disabilities requesting services, the system has an urgent need to continue its evolution in a fiscally sustainable manner.

To that end, we have prepared a budget designed to further the experience of those we serve and advance efficiencies to maximize resources. Specifically, we seek to achieve the following outcomes and goals:

- Provide an array of options that are properly distributed to ensure access through equitable and culturally competent services.
- Be responsive to emerging consumer demands for individualized, self-directed services and provide sufficient service choices.
- Ensure the health and safety of individuals served.
- Promote maximum independence and engagement in homes and communities.
- Leverage use of available federal funding options.
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies.
- Maintain sustainability of the program.

Funding

The 15-17 Governor’s Budget for Intellectual & Developmental Disabilities is projected to be \$695.0 million or 33% general funds for the 15-17 biennium.

Intellectual and Developmental Disabilities	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 574,125,096	\$ 28,756,404	\$ 1,158,908,259	\$ 1,761,789,759	761	745.59
GB 15-17	\$ 695,039,219	\$ 29,599,974	\$ 1,367,432,297	\$ 2,092,071,490	774	769.89
Difference	\$ 120,914,123	\$ 843,570	\$ 208,524,038	\$ 330,281,731	13	24.30
Percent change	21.1%	2.9%	18.0%	18.7%	1.7%	3.3%

Note: The GF increase includes estimated costs of the Department of Labor rules in the amount of \$35 million that is for both I/DD and APD costs. In addition it includes large anticipated increases in caseloads and costs per case.

The 15-17 Governor’s Budget includes the following:

- Funds forecasted caseloads levels and projected cost per case increases.
- Funds capacity for improving employment outcomes for people with I/DD.
- Invests \$35GF million combined into APD/DD/MH toward Department of Labor requirements for in-home services.
- Builds community provider capacity for I/DD clients with significant, long-term needs.
- Provides 4% provider rate increase starting 1/1/16 for non-bargained provider types residential and non-residential agency providers, except transportation.

- Eliminates funding for Fairview trust.
- Funds County Developmental Disabilities Programs (CDDP) and Brokerage workload models at 95% equity.
- Continues investment in Quality Assurance/Control staff investment from 2013-15.

Department of Labor Rules

A recent court ruling in the D.C. District Federal Court vacated most of the Department of Labor's (DOL) new rules. These rules are the subject of uncertainty at this time. It is unclear at this time if DOL will appeal this court decision. Impacts to ODDS described below are based on the possibility that further court action may reinstate the full regulation.

Overview of Impact to Oregon

To assess the impact of the Fair Labor Standards Act (FLSA) changes on Oregon, DHS asked DOL to determine if DHS and OHA would be considered a joint employer. DOL concluded that Oregon DHS and OHA are third-party joint employers under FLSA for all Aging and People with Disabilities (APD)-funded Homecare Workers (HCWs) and Office of Developmental Disabilities Services (ODDS)-funded Personal Support Workers (PSW).

In Oregon, this means that the Department's in-home programs must be modified to come into compliance with the federal mandates. The FLSA changes mean that DHS and OHA must:

- Compile and combine hours worked across all consumers on a weekly basis;
- Pay overtime for hours in excess of 40 hours per week;
- Pay for travel time between consumers if the travel occurs on the same day;
- Change the Live-in and Spousal Pay programs to pay providers when they are required to stay in the home. DOL calls these hours "on duty" or being "engaged to wait." Oregon does not currently pay these hours;
- Pay at least minimum wage for all hours worked.

DHS and OHA estimate that these changes will have a direct impact on approximately 3,800 of the 21,000 individuals receiving in-home services provided by HCWs and PSWs. Approximately 4,773 HCWs/PSWs will be impacted. The impact is not as high as it could have been because most individuals receiving services and supports use less than 175 hours of services and supports per month. Based on February 2014 paid claims data, 81 percent of individuals receiving APD

–funded services, 96 percent of individuals receiving DD-funded services and 100 percent of individuals receiving AMH-funded services receive less than 175 hours of paid services and supports per month. Some providers work for multiple consumers, which results in more workers impacted than consumers. This investment assumes some program changes can be made to reduce the overall impact to the DOL rule changes.

Employment outcomes for people with Intellectual or Developmental Disabilities

Youth and adults with intellectual and developmental disabilities (I/DD) are significantly underrepresented in Oregon’s workforce. With appropriate planning, and supports, people with I/DD can work successfully in integrated employment settings. With the Employment First initiative, the state is seeking to increase competitive employment for people with I/DD in integrated workplaces throughout the state.

Employment First Policy and Governor Kitzhaber’s Executive Order 13-04. The order directs state agencies and programs, including DHS’ Office of Developmental Disability Services and Vocational Rehabilitation, to take various steps and to achieve specific goals. In order fulfill the policy and order, this Policy Option Package (POP) requests funding for:

- a) Six Vocational Rehabilitation Counselors, Two Human Services Specialists and 1 Operations and Policy Analyst to serve increasing numbers of youth with intellectual and developmental disabilities and increase engagement with school districts participating in Youth Transition Program (YTP) and with state I/DD system.
- b) 10.5 Full Time Equivalent (FTE) contract Benefits Counselors to provide benefits counseling services to persons with disabilities, including those with I/DD; and two Operations and Policy Analysts to train, oversee and support the counselors; and to plan future delivery of these services.
- c) An Employment First Transformation Fund and Operations and Policy Analyst to identify, research and promote utilization of best and evidence-based practices that facilitate competitive employment of I/DD persons and promote continues improvement of related services.

Builds community provider capacity for I/DD clients with significant, long-term needs

As the Stabilization and Crisis Unit (SACU) becomes a crisis resource for residential supports for the most vulnerable adults and children across the State of Oregon, a strong need has emerged to support the current SACU population with enhanced services in community placed settings. To that end, the need for a focused strategic plan to address the “stepping down” of people with severe challenges, although NOT in crisis is immediate, cost effective and necessary. This investment supports such a plan with start-up or “grant funds” to provider agencies throughout the state who will build residential homes targeted at a specific SACU population each agency agrees to serve if that agency is awarded a grant. People who transition from SACU along with their families or guardians, will have the final decision in which agency they select in the transition process.

Provides 4 percent provider rate increase starting January 1, 2016 for non-bargained provider types residential and non-residential agency providers, except transportation.

Agency providers of Attendant Care in-home supports, 24 hour Group Homes, Supported Living agencies and employment service providers have not had a Cost of Living Allowance (COLA) in 3 biennia. We are requesting a 4 percent rate increase to these providers (except Transportation) agencies effective 1/1/2016. 4 percent is less than the combined COLAs for the previous three biennia but will allow these agencies to increase direct staff wages and/or benefits for those that serve children and adults with I/DD.

Eliminates funding for Fairview trust

The Fairview trust has provided options to help families and individuals with I/DD remove housing barriers by funding things such as ramps, accessible bathing options, and other housing modifications. The GB proposes to at least temporarily eliminate the corpus of this trust. Home and other environmental modifications funded by the Trust are now able to be funded through the Medicaid program.

Funds CDDP and Brokerage workload models at 95 percent equity

In 2013-15, these providers were funded at 94 percent of the equity model, the GB proposes funding these providers at 95 percent equity under the new workload model. These providers have taken on a considerable increase in the number of children served (CDDPs) and significant changes in the way they approach their day-to-day work (CDDPs and Brokerages). With the ultimate goal of streamlining,

improving and assuring sustainability for the I/DD service system, we plan to direct funds to improve outcomes, expand on service innovations and strategically advance initiatives in the following areas:

- Employment outcomes
- Quality assurance
- Family-to-family support
- Access to services
- Continued Technical Improvements
- Improvement and implementation of new models of service

Strategic Initiatives continued at 2013-15 levels

Improve employment outcomes. Continuing to focus on paid competitively paid employment is the key to increased independence, choice and community engagement from an individual and family standpoint. From a program standpoint, the more individuals with developmental disabilities that have access to meaningful employment, the less dependent they are on public services and service planning flexibility is increased. Recent litigation and U.S. Department of Justice (DOJ) findings have highlighted the criticality of progress in this area, which will be accomplished by:

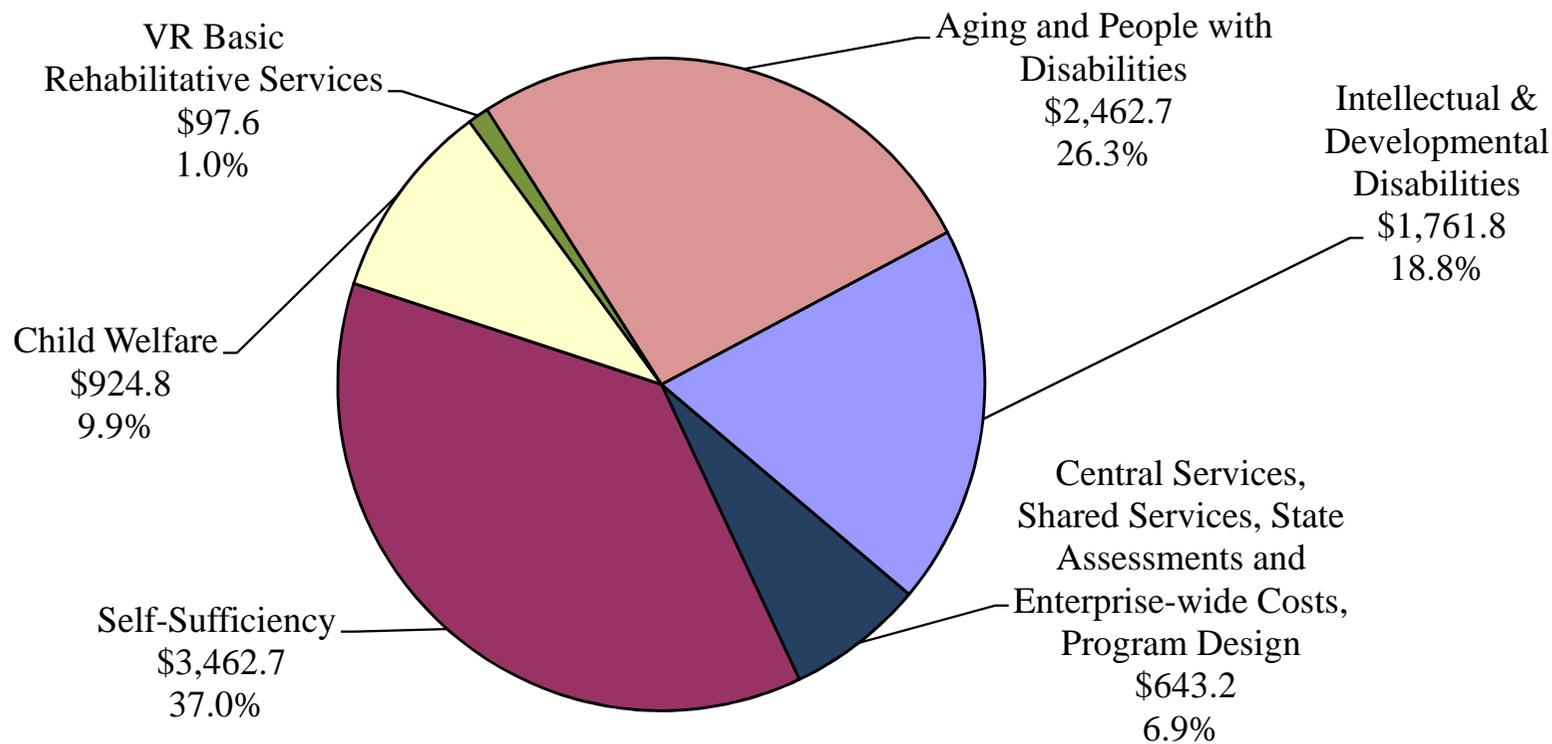

- Increased training and technical assistance activities for provider organizations across the state. Support is needed to transition business models away from group or sheltered employment practices to more individually supported employment models.
- Implementing a new provider rate structure to incentivize the acquisition and maintenance of supported employment services.
- Alignment of policies, services and resources between the DD Program, Vocational Rehabilitation Services and the Department of Education.
- Coordinated efforts with other state and local general workforce development and employer engagement initiatives.

Conclusion

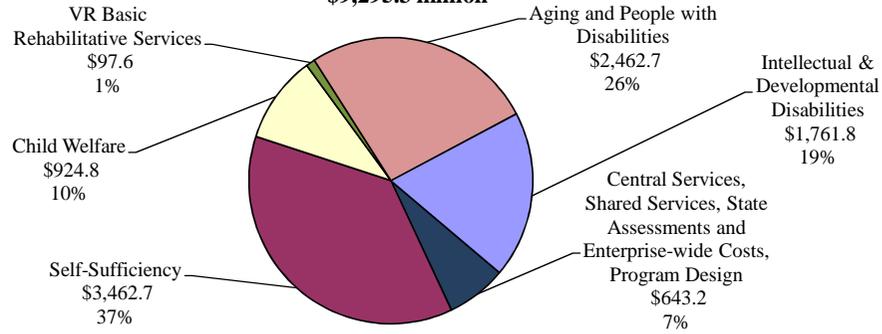

This proposal represents a substantive level of strategic planning that will allow the I/DD system to improve the quality of service it offers to Oregonians with intellectual and developmental disabilities and their families. The primary focus is on sustainable, quality service programming that accounts for the short- and long-term budget realities that shape our implementation planning. Out-of-home placements for people with disabilities can range from \$24,000 to \$321,500 per year. Focusing our efforts on helping people with disabilities remain in their

communities provides not only financial benefits, but better quality throughout their lifespan. We are confident that this plan will maximize resources and strengthen the service system, enhancing its ability to produce results for those we serve.

DHS PROGRAM PRIORITY REPORT

The following charts reflect an attempt by each Department of Human Services to prioritize its programs. The general criteria used to guide this prioritization process include:

- Federal program mandates;
- Levels of need;
- Numbers of clients served;
- Federal financial participation requirements and
- Minimizing risks to the agency.

In addition, each program considered its policy objectives and the department's mission and goals.

It must be noted, however, that prioritization is particularly difficult because most DHS programs form part of an interlinked continuum of care. Very few programs and services provide, in and of themselves, the single solution to the complex issues facing Oregon's most vulnerable populations. The wide array of programs DHS provides and the diverse populations served make application of any set of criteria difficult and of limited value, particularly at the departmental level.

"Assisting People to Become Independent, Healthy and Safe"

The State CFO-Required Department of Human Services 10% Reduction Options for the Governor's Budget

The reduction options presented in this document are not intended to reflect the policy or program recommendations of the agency. The Oregon Department of Human Services (DHS) is acutely aware that the reduction options on this list have significant consequences for Oregonians and the communities in which they live. The agency is -- and has been -- engaged in ongoing search for efficiencies that allow us to reduce costs and maximize resources with minimal impact to clients. We also work to ensure that as services to clients are reduced because of reductions, that we also reduce our infrastructure and administrative overhead concurrently.

Guiding Principles

In approaching these reductions, DHS was guided by a set of priorities in making proposed reductions. However, to reach the targeted reduction levels for the Department – which totals more than \$268 million in General Fund – it was not possible to reflect all of the following principles and priorities in the reduction list:

- For all programs, the agency looked closely at client safety and stability, preserving the infrastructure of programs and the provider-systems that serve clients, maintenance of effort (MOE) issues, legal risk, cross-program impact, cost shifting, and what the reduction would mean in terms of the loss of federal matching funds.
- DHS looked closely at whether repeated reductions to programs no longer made sense, and whether it was time to consider the elimination of some programs in order to preserve others.
- In Child Welfare programs, DHS prioritized prevention activities and services to keep children safe at home and out of foster care over those further into the child welfare system, such as adoption and guardianship.
- In Intellectual and Developmental Disabilities programs, DHS prioritized continuing programs and services for those clients in long-term care. DHS also made every effort to consider reductions that would not move people into higher cost settings but could keep them at home and in their communities.
- In Self Sufficiency, Intellectual and Developmental Disability and Vocational Rehabilitation programs, DHS prioritized services and programs that helped support and preserve family stability and to maintain employment outcomes for Oregonians.
- In Aging and People with Disabilities programs, DHS prioritized keeping as much of Oregon's high-quality system in place as possible – that is, prioritizing home and community-based services.

"Assisting People to Become Independent, Healthy and Safe"

1	APD	Eliminate Inflation	\$ (4,691,527)	\$ (344,904)	\$ (6,202,438)	\$ (11,238,869)			Effective 7/1/15 eliminate COLA inflation in APD Other Services areas, and Services & Supplies for APD Delivery and Design staff.	7/1/2015
2	CW Permanency	Design / Delivery Eliminate Inflation for CSL pkg 31	\$ (2,759,177)	\$ (19,815)	\$ (3,857,647)	\$ (6,636,639)			This eliminates the standard non personal services inflation taken on the base at CSL packages 31.	7/1/2015
3	CW	Child Safety: Eliminate Inflation from CSL Package 31 and 32	\$ (952,647)	\$ (28,673)	\$ (1,560,251)	\$ (2,541,571)			This eliminates the standard, professional services, and medical inflation taken on the base at CSL packages 31 and 32.	7/1/2015
4	CW	Permanency: Eliminate Inflation from CSL Package 31 and 32	\$ (2,155,228)	\$ (30,889)	\$ (2,243,635)	\$ (4,429,752)			This eliminates the standard, professional services, and medical inflation taken on the base at CSL packages 31 and 32.	7/1/2015
5	CW	Well Being: Eliminate Inflation from CSL Package 31	\$ (2,518,513)	\$ (384,162)	\$ (1,769,370)	\$ (4,672,045)			This eliminates the standard, professional services, and medical inflation taken on the base at CSL packages 31 and 32.	7/1/2015
6	I-DD	Eliminate Standard Inflation for all I-DD Programs	\$ (13,440,380)	\$	\$ (29,154,478)	\$ (42,594,858)			Effective 7/1/15 Eliminate COLA for all program areas in the developmental disability community based service system. Since 2001 there has only been one biennium where COLA was applied to services and program costs (07-09). The majority of costs in programs are staff related. There have been significant increases in insurance costs, and other general operating costs. Minimum wage has increased by statute and programs that used to pay well above minimum wage are now paying at or little above minimum wage. All of this results in unstable work force and general instability of provider organizations with the possible results in increase abuse and health/safety concerns.	7/1/2015
7	I-DD	Eliminate Medical Inflation for SACU	\$ (16,239)	\$ (7,187)	\$ (31,961)	\$ (55,387)	-	-	Effective 7/1/15 Eliminate Medical Inflation for SACU. The extra funding allows SACU to contract at reasonable rates for nursing care and behavioral health specialists.	7/1/2015
8	SS	SS - Reduce Inflation from Budget Build	\$ (6,451,723)	\$	\$	\$ (6,451,723)			This eliminates the standard professional services and the non personal services inflation taken on the base at CSL packages 31. Pgm \$6,114,527, Del & Des \$337,196	7/1/2015
9	APD	Eliminate Oregon Project Independence - minus MOE amount - by 50%	\$ (7,702,987)	\$ -	\$ (2,914,749)	\$ (10,617,736)	-	-	This is a DHSP related program. This will have an adverse affect on the Oregon Health Authority Budget. OPI is a state funded program offering in home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder. OPI represents a critical element in Oregon's strategy to prevent or delay individuals from unnecessarily leaving their own homes to receive services in more expensive facility based settings, or depleting their personal assets soon than necessary and accessing more expensive Medicaid health and long-term service benefits. Effective 7/1/2015.	7/1/2015

	10% GF Target	268,004,654	52,123,384	430,648,543	750,776,580		

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
10	SS	ERDC - Reduce caseload cap from 7,700 to an average of 7,200	\$ (8,040,000)	\$ -	\$ -	\$ (8,040,000)	-	-	Caseload cap is currently 7,700: this would reduce to an average of 7,200. Increase in TANF cases may make it very difficult to get at desired level. This reduction continues the elimination of child care supports for all parents with incomes under 185% of poverty, limiting those supports to only TANF families transitioning to employment; families reapplying for ERDC benefits after a break of less than two calendar months; families with a child in the filing group that is eligible for a current opening in a Head Start or Oregon Program of Quality contracted child care slot; or families currently working with Child Welfare (as part of an assessment, open case or transition) and there is an ongoing safety plan in place that states child care is required to keep the child in their home, place the child with a relative or other known adult or when transitioning the child back into the home or out of stranger foster care. This reduction will further impact the ability of parents to maintain employment, the ability of child care providers to provide care and be employed, and the quality of child care children receive. This reduction will impact family child care providers, child care centers, Early Head Start/Head Start and after-school programs and may increase the number of children left home without an appropriate provider. This would affect 1,590 providers. This reduction will reduce the amount of state expenditures that count toward its MOE obligations. ERDC is mainly funded by CCDF federal dollars through an Interagency Agreement with DHS and The Oregon Department of Education (ODE). ODE has a stake in this reduction and has expressed their concern to DHS.	10/1/2015
11	CW	Permanency: Eliminate Post Adoption Services program, impacting supports for over 400 adoptive and guardianship families each year. (IV-B portion of budget)	\$ (189,868)	(57)	\$ (1,033,825)	\$ (1,223,750)	-	-	DHS's post adoption services program provides services to adoptive and guardianship families who provide permanent homes for DHS children. These services enhance the stability and functioning of adoptive and guardianship families and their children through the provision of a support network that includes information and referral services, consultation services in response to imminent and current adoptive family crises, support groups, and training. In the federal fiscal year ending September, 2011, the post adoption services contractor (ORPARC) provided 1,619 initial and follow up contacts with families, 34 reported crisis or disruption related services, and training to 718 individuals. Families who adopt special needs children must receive adequate and competent support to help sustain their placements. Eliminating the post adoption services program is a potential disincentive for families to adopt special needs children and it will potentially increase the number of children returning to foster care or residential treatment because families in crisis will be unable to receive the support and advocacy they need within their homes. The 1,619 initial and follow up contacts with the post adoption services program will be deferred to branch offices who neither have the staff to respond, nor the expertise and competency to provide the needed services and advocacy for these families.	7/1/2015
12	I-DD	Eliminate Fairview Housing Trust Fund by 50%	\$ (3,000,000)	\$	\$	\$ (3,000,000)			Effective 7/1/15 Eliminates options to help families and individuals with I/DD remove housing barriers by funding things such as ramps, accessible bathing options, and other housing modifications. Requires a statute change.	7/1/2015
13	APD	Reduce nursing facility rate percentile to 60th, which is a .475% rate reduction	\$ (1,840,000)	\$ (360,000)	\$ (3,800,000)	\$ (6,000,000)			Nursing Facility rate setting methodology is set in statute. This would require a statute change reducing the rate setting percentile from 63rd to 60th percentile; or a 7/1/2015 Basic rate from \$309.79 to \$308.31 per resident day.	7/1/2015

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
14	CW	Well Being: Reduce Client Transportation Program by 15%.	\$ (682,662)	\$ (134,886)	\$ (104,308)	\$ (921,856)	-	-	This reduction will impact direct services for children, negatively impact their education, and well-being of child and family reunification. The current expenditures are approximately 60% being spent on transportation for visits between child and parents, another 21% for children to attend school, 10% medically related transportation, and the rest for activities such as court hearings, case planning activities.	7/1/2015
15	I-DD	Eliminate Fairview Housing Trust Fund by remaining 50%	\$(3,000,000)	\$	\$	\$(3,000,000)	---	---	Effective 7/1/15 Eliminates options to help families and individuals with I/DD remove housing barriers by funding things such as ramps, accessible bathing options, and other housing modifications. Requires a statute change.	7/1/2015
16	CW	Well Being: Reduce Court Ordered Other Medical Program by 15%.	\$ (726,917)	\$ (3,416)	\$ (144,390)	\$ (874,723)	-	-	The majority of these funds (66%) provide for psychological evaluations and testing of parents that then inform the case planning. Without these funds, testing and evaluations will not occur and this provides less information to the department and courts on how best to address the needs of parents. This funding also will assist in parent and child interactions, obtaining medical records, and other assessment oriented medical services. Reducing and or eliminating will impact outcomes for children and families, increase length of stay in foster care, increase caseloads, and will likely jeopardize the department's ability to access federal funding regarding providing services to children and families based on reasonable and/or active efforts.	7/1/2015
17	I-DD	Eliminate the Family to Family Program	\$ (1,200,000)	\$ -	\$ -	\$ (1,200,000)	-	-	Effective 7/1/15 Eliminate Family to Family Networks. This program began in 2012 after 2011 made significant reductions in the Family Support Program. The funding (\$1.2M) supports up to eight networks. The work already accomplished by these groups includes family training, identification of local resources, and general support from one family to another. The networks leverage parent time and local resources in an effort to provide support at no cost to DHS/DD.	7/1/2015
18	APD	Reduce community based care rates by 3% for ALFs, RCFs, AFHs, Home Delivered Meals, In-Home Agencies, Adult Day Services.	\$ (7,014,000)	\$ -	\$ (15,380,000)	\$ (22,394,000)	-	-	Under the 15-17 funding levels, community based care rates are scheduled to increase by 3% effective 10/1/2015. This reduction effective October 1 2015, would offset the 3% increase, leaving rates flat for the biennium. Without competitive rates, in some instances Medicaid access to facilities will be eliminated. Other facilities may withdraw gradually and some facilities would be able to manage the reduction with their existing payer mix. This reduction may result in residents seeking a more costly and more restrictive level of care.	10/1/2015
19	CW	Child Safety: Reduce System of Care (SOC) by 15% - flexible fund resource dollars to meet the individual needs of foster children and their families.	\$ (540,931)	\$ (47,742)	\$ (1,252,118)	\$ (1,840,791)	-	-	SOC provides for flexible, individualized application of services to meet the unique needs of children including special consideration for a family's cultural preferences. This level of reduction will reduce the availability of these resources to approximately 1,251 children in foster care. Many services provided through System of Care assist in resolving safety issues to prevent entry into foster care and support family reunification. Most of the services purchased through System of Care cannot be purchased with other child welfare fund sources. Therefore, reduction of this funding will mean more children coming into care, longer stays in foster care, decreased ability to return children home to their parents, and decreased ability to meet the individual needs of a child. It likely will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for the program.	7/1/2015

20	I-DD	Eliminate the Family Support Program (SE150)	\$ (2,282,280)	\$ -	\$ -	\$ (2,282,280)	-	-	Effective 7/1/15 This program provides small amount of support that goes a long way to helping family with care of child with developmental disability. Approximately 1,000 children and their families will lose service as a result of this program elimination.	7/1/2015
21	APD	Eliminate GF portion of Older Americans Act program	\$ (2,000,000)	\$ -	\$ -	\$ (2,000,000)	-	-	This reduction is effective 7/1/2015. This backfill has offset the effects of federal sequestration activities. Without this funding, services such as home delivered meals, congregate meals and family support would be reduced.	7/1/2015
22	CW	Child Safety: Family Support Teams/Addiction Recovery Teams reduce by 15%	\$ (301,521)	\$ (41,700)	\$ (531,637)	\$ (874,858)	-	-	Sixty to seventy percent of all child welfare cases involve parents with addiction issues. The ART program improves outcomes for children of addicted parents by giving parents and caseworkers access Alcohol & Drug trained staff to assist parents in eliminating barriers to treatment, tracking parents whose attendance at treatment falters, and helping parents with return home plans by supporting parents in early recovery with these transitions. Reducing these services will mean more and longer foster care placements, higher re-abuse rates, a decline in parents entering treatment quickly, and an increase in the number of parents who struggle with sustaining their recovery. It will also increase caseworker workload, including A&D referral, transport, tracking and case management, making it more difficult for caseworkers to meet other state and federal mandates. Longer stays in foster care will increase costs to the state and result in poorer outcomes for children.	7/1/2015
23	I-DD	Reduce all non-bargained Provider Rates by 3%	\$ (6,160,720)	\$ -	\$ (13,723,654)	\$ (19,884,374)	-	-	Effective 10/1/15 Reduce all non-bargained provider rates by 3%. This would be an across the board reduction of rates for all DD service providers in the comprehensive system, for children and adults, excludes Employment First services.	10/1/2015
24	APD	Eliminate Gatekeeper Funding	\$ (2,800,000)	\$ -	\$ -	\$ (2,800,000)	-	-	This reduction eliminates Gatekeeper programs that enlist the help of utility workers, law enforcement, postal workers, and other service providers to help identify people in need of support. This is one of the strategies utilized to increase preventative protective services for vulnerable populations.	7/1/2015
25	CW	Child Safety: Foster Care Prevention reduce by 15%	\$ (112,436)	\$ (12,623)	\$ (411,057)	\$ (536,116)	-	-	Reducing Foster Care Prevention funding reduces funding that is specifically designed to prevent children from entering foster care or allowing them to return home more quickly. This reduction would impact the ability of staff to keep children at home or to get them home more quickly. Reduction of FCP could cause an overutilization of other services or flexible funding sources like System of Care. This is likely to affect Oregon Tribes and members of minority groups who are already overrepresented as there will be fewer financial resources to assist children in remaining safely in their homes.	7/1/2015
26	I-DD	Reduce Brokerage and CDDP Equity by 2%	\$ (1,467,900)	\$ -	\$ (2,057,631)	\$ (3,525,531)	-	-	Effective 10/1/15 Reduces the operating funding to CDDPs and Brokerages by another 2%-- Overall reduction of 4%.	10/1/2015
27	APD	Eliminate Caregiver Training funding in Mental Health Expansion	\$ (175,000)	\$ -	\$ (175,000)	\$ (350,000)	-	-	This reduction would eliminate the funding of training for Local APD and AAA case managers who need training in the use of simple screening tools and coaching in the integration of mental health screening into their daily work to be successful. Direct care providers, health professionals and others also need training and support to ensure that older adults and people with disabilities receive the appropriate screenings and interventions.	7/1/2015

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
28	CW	Well Being: Further reduce Client Transportation Program by an additional 15%.	\$ (580,263)	\$ (114,653)	\$ (88,662)	\$ (783,578)	-	-	This second reduction will further impact direct services for children, negatively impact their education, and well-being of child and family reunification. The current expenditures are approximately 60% being spent on transportation for visits between child and parents, another 21% for children to attend school, 10% medically related transportation, and the rest for activities such as court hearings, case planning activities.	7/1/2015
29	APD	Reduce Home Care Worker rates by 3%	\$ (4,623,213)	\$ -	\$ (10,300,000)	\$ (14,923,213)	-	-	Under the 15-17 funding levels, In-Home services are funded without a scheduled increase during 15-17, without bargaining pot appropriation. This would result in a rate decrease to individuals making \$13.75 per hour and may result in some Home Care Workers ceasing to provide these services.	1/1/2016
30	I-DD	Reduce PSW Wages by 3% - Align with APD HCW	\$ (2,639,150)	\$ -	\$ (5,482,989)	\$ (8,122,139)	-	-	Effective 1/1/16 This reduction proposes to reduce bargained PSW wages by 3%.	1/1/2016
31	APD	Reinstitute \$30 personal incidental fund for nursing facility residents	\$ (539,728)	\$ -	\$ (952,472)	\$ (1,492,200)	-	-	This reduction would allow residents only \$30 per month to purchase personal items not included in the all-inclusive nursing facility rate. Nursing facility residents would see a 50% decrease in their personal incidental spending power.	7/1/2015
32	CW	Well Being: Further reduce Court Ordered Other Medical Program by an additional 15%.	\$ (617,879)	\$ (2,904)	\$ (122,731)	\$ (743,514)	-	-	These dollars pay for medical expenses for parents that are not otherwise covered by insurance or the Oregon Health Plan. Most often the funds pay for psychological evaluations that then inform the case planning. Without these funds, those evaluations will not occur and children will experience longer foster care stays. It will also be more difficult to provide services that are designed to address the issues that brought the children into care.	7/1/2015
33	I-DD	Reduce all non-bargained Provider Rates by additional 3%-Employment excluded (Overall 6% Reduction)	\$ (6,160,720)	\$ -	\$ (13,723,654)	\$ (19,884,374)	-	-	Effective 10/1/15 Reduce all non-bargained provider rates by an additional 3%. This would be an across the board reduction of rates for all DD service providers in the comprehensive system, for children and adults, excludes Employment First services. Overall reduction of 6%.	10/1/2015
34	APD	Eliminate Evidence Based Health Promotion Funding	\$ (1,250,000)	\$ -	\$ -	\$ (1,250,000)	-	-	This reduction eliminates evidence based health promotion and disease prevention program effective 7/1/2015. This funding was designed as a preventative strategy that would result in better health outcomes for senior Oregonians.	7/1/2015
35	VR	Reduce Client Service by 10%	\$ (2,133,286)	\$ (239,049)	\$ (8,765,388)	\$ (11,137,723)	-	-	The proposed reduction would result in an 10% decrease in case services forcing the creation of a waitlist. Nearly 4,173 additional individuals would not get services including youth served under third-party agreements with local school districts. This would jeopardize the match dollars that these agreements provide thus further reducing the program budget. Small specialized vendors who rely on the program for revenue would experience a sharp drop in income. Additionally this will impact the ability of the program to meet the required Maintenance of Effort resulting in a reduction in federal funds available, and resulting in the program reinstating the Order of Selection. OVRs with out an investment above the Current Service level is at risk of reinstating the Order of Selection, and is at risk for failure to meet the level of services set forth in Executive Order 13-04 regarding employment for persons with Intellectual and Developmental Disabilities.	7/1/2015

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
36	SS	TANF - Time Limit 48 Months	\$ (33,840,426)	\$ -	\$ -	\$ (33,840,426)	-	-	This action establishes a 48 month time limit for TANF receipt for the entire family unless a hardship exemption exists. The current Oregon time limit is 60 months and state statute allows for only the adults needs to be removed from TANF once the 60 month limitation has been reached and the family has no hardship exemption. Oregon's policy provides for the children in the home to continue to receive TANF. This action will require each family be reviewed at 48 months of TANF receipt to determine whether a hardship exemption exists. For families where no hardship exists the entire case would close. Some families may see an increase in SNAP benefits as cash benefits end. Ending TANF cash benefits for the entire family may result in family instability and homelessness. Families would have to rely on other community based safety net programs which have already experienced increased demand. During the biennium an average of 3,597 families per month are expected to be impacted. Based on their accrued time, the majority of these families (3,230 families) will reach their time limitation in April 2016. Families will also be impacted if they come from another state and the accrued time (alone or in combination with Oregon accrued time) equals to or exceeds 48 months. This action requires an amendment to ORS 412.079.	10/1/2015
		5% Sub- Total	\$ (134,607,321)	\$ (1,772,660)	\$ (125,784,045)	\$ (262,164,026)	-	-		
		5% Reduction Target	\$ (134,002,327)	\$ (26,061,692)	\$ (215,324,271)	\$ (375,388,290)	-	-		
		Difference	\$ (604,994)	\$ 24,289,032	\$ 89,540,227	\$ 113,224,264	-	-		
37	CW	Child Safety: Reduce System of Care (SOC) by another 15% - flexible fund resource dollars to meet the individual needs of foster children and their families (second reduction to this program budget).	\$ (459,791)	\$ (40,581)	\$ (1,064,300)	\$ (1,564,672)	-	-	SOC provides for flexible, individualized application of services to meet the unique needs of children including special consideration for a family's cultural preferences. This additional 15% reduction will further reduce the availability of these resources to an additional 1,063 children in foster care. Many services provided through System of Care assist in resolving safety issues to prevent entry into foster care and promote family reunification. Most of the services purchased through System of Care cannot be purchased with other child welfare fund sources. Therefore, reduction of this funding will mean more children coming into care, longer stays in foster care, decreased ability to return children home to their parents, and decreased ability to meet the individual needs of a child. It likely will also mean more "no reasonable efforts" or "failure to meet active efforts for ICWA children" findings by the courts, which would impact federal funding for the program.	7/1/2015
38	I-DD	Reduce Brokerage and CDDP Equity by additional 2% (91% equity)	\$ (1,467,900)	\$ -	\$ (2,057,631)	\$ (3,525,531)	-	-	Effective 10/1/15 Reduces the operating funding to CDDPs and Brokerages by another 2%-- Overall reduction of 4%.	10/1/2015
39	APD	Eliminate Oregon Project Independence - minus MOE amount - by remaining 50%	\$ (7,702,987)	\$ -	\$ (2,914,749)	\$ (10,617,736)	-	-	This is a DHSP related program. This will have an adverse affect on the Oregon Health Authority Budget. OPI is a state funded program offering in home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder. OPI represents a critical element in Oregon's strategy to prevent or delay individuals from unnecessarily leaving their own homes to receive services in more expensive facility based settings, or depleting their personal assets soon than necessary and accessing more expensive Medicaid health and long-term service benefits. Effective 7/1/2015.	7/1/2015

47	CW	Well Being: Eliminate remaining Client Transportation Program.	\$ (3,288,157)	\$ (649,702)	\$ (502,419)	\$ (4,440,278)	-	-	Elimination of this budget will significantly impact direct services for children, negatively impact their education, and well-being of child and family reunification. The actual elimination will likely push the department into Non-reasonable efforts findings by the judiciary and impact the ability to request federal funding for Title IV-E expenses in the substitute care area. The department will have a significant burden in meeting state and federal requirements regarding visitation of children and with families and for meeting a child's educational needs.	7/1/2015
48	SS	TANF - Time Limit 36 Months - Additional savings over 48 month limit reduction	\$ (20,569,548)	\$ -	\$ -	\$ (20,569,548)	-	-	This action establishes a 36 month time limit for TANF receipt for the entire family unless a hardship exemption exists. The current Oregon time limit is 60 months and state statute allows for only the adults needs to be removed from TANF once the 60 month limitation has been reached and the family has no hardship exemption. Oregon's policy provides for the children in the home to continue to receive TANF. This action will require each family be reviewed at 36 months of TANF receipt to determine whether a hardship exemption exists. For families where no hardship exists the entire case would close. Some families may see an increase in SNAP benefits as cash benefits end. Ending TANF cash benefits for the entire family may result in family instability and homelessness. Families would have to rely on other community based safety net programs which have already experienced increased demand. An average of 5.784 families will be impacted during the 15-17 biennium in addition to those already accounted for in the 48 month time limit reduction. This action requires an amendment to ORS 412.079.	10/1/2015
49	APD	Reduce community based care rates by a SECOND 3% for ALFs, RCFs, AFHs, Home Delivered Meals, In-Home Agencies, Adult Day Services.	\$ (6,800,000)	\$ -	\$ (14,900,000)	\$ (21,700,000)	-	-	Further reduction of CBC rates effective 10/1/2015, which would represent actual reduction from current funding levels.	10/1/2015
50	CW	Well Being: Eliminate remaining Court Ordered Other Medical Program.	\$ (3,501,316)	\$ (16,456)	\$ (695,477)	\$ (4,213,249)	-	-	These dollars pay for medical expenses for parents that are not otherwise covered by insurance or the Oregon Health Plan. Most often the funds pay for psychological evaluations that help identify which services will be effective to address the issues that are preventing the parents from making progress and having their children return from foster care. This reduction will result in children remaining in foster care for longer periods of time.	7/1/2015
51	I-DD	Reduce Brokerage and CDDP Equity by another additional 2% (89% equity)	\$ (1,467,900)	\$ -	\$ (2,057,631)	\$ (3,525,531)	-	-	Effective 10/1/15 Reduces the operating funding to CDDPs and Brokerages another 2%, overall reduction of 8%.	10/1/2015
52	CW	Child Safety: Eliminate remaining Foster Care Prevention Program.	\$ (541,565)	\$ (60,799)	\$ (1,979,924)	\$ (2,582,288)	-	-	Reducing Foster Care Prevention funding reduces funding that is specifically designed to prevent children from entering foster care or allowing them to return home more quickly. This reduction would impact the ability of staff to keep children at home or to get them home more quickly. Reduction of FCP could cause an overutilization of other services or flexible funding sources like System of Care. This is likely to affect Oregon Tribes and members of minority groups who are already overrepresented as there will be fewer financial resources to assist children in remaining safely in their homes.	7/1/2015
53	APD	Reduce Home Care Worker Rates by a THIRD 3%	\$ (4,623,213)	\$ -	\$ (10,300,000)	\$ (14,923,213)	-	-	Under the 15-17 funding levels, In-Home services are funded without a scheduled increase during 15-17, without bargaining pot appropriation. This would result in a rate decrease to individuals making \$13.75 per hour and may result in some Home Care Workers ceasing to provide these services.	1/1/2016

Department of Human Services CSL Reduction List

DEPARTMENT OF HUMAN SERVICES							
		2,680,046,541	521,233,837	4,306,485,425	7,507,765,803	Positions	FTE
	Current Service Level Budget	2,680,046,541	521,233,837	4,306,485,425	7,507,765,803	7,730	7,636.40
	10% GF Target	268,004,654	52,123,384	430,648,543	750,776,580		

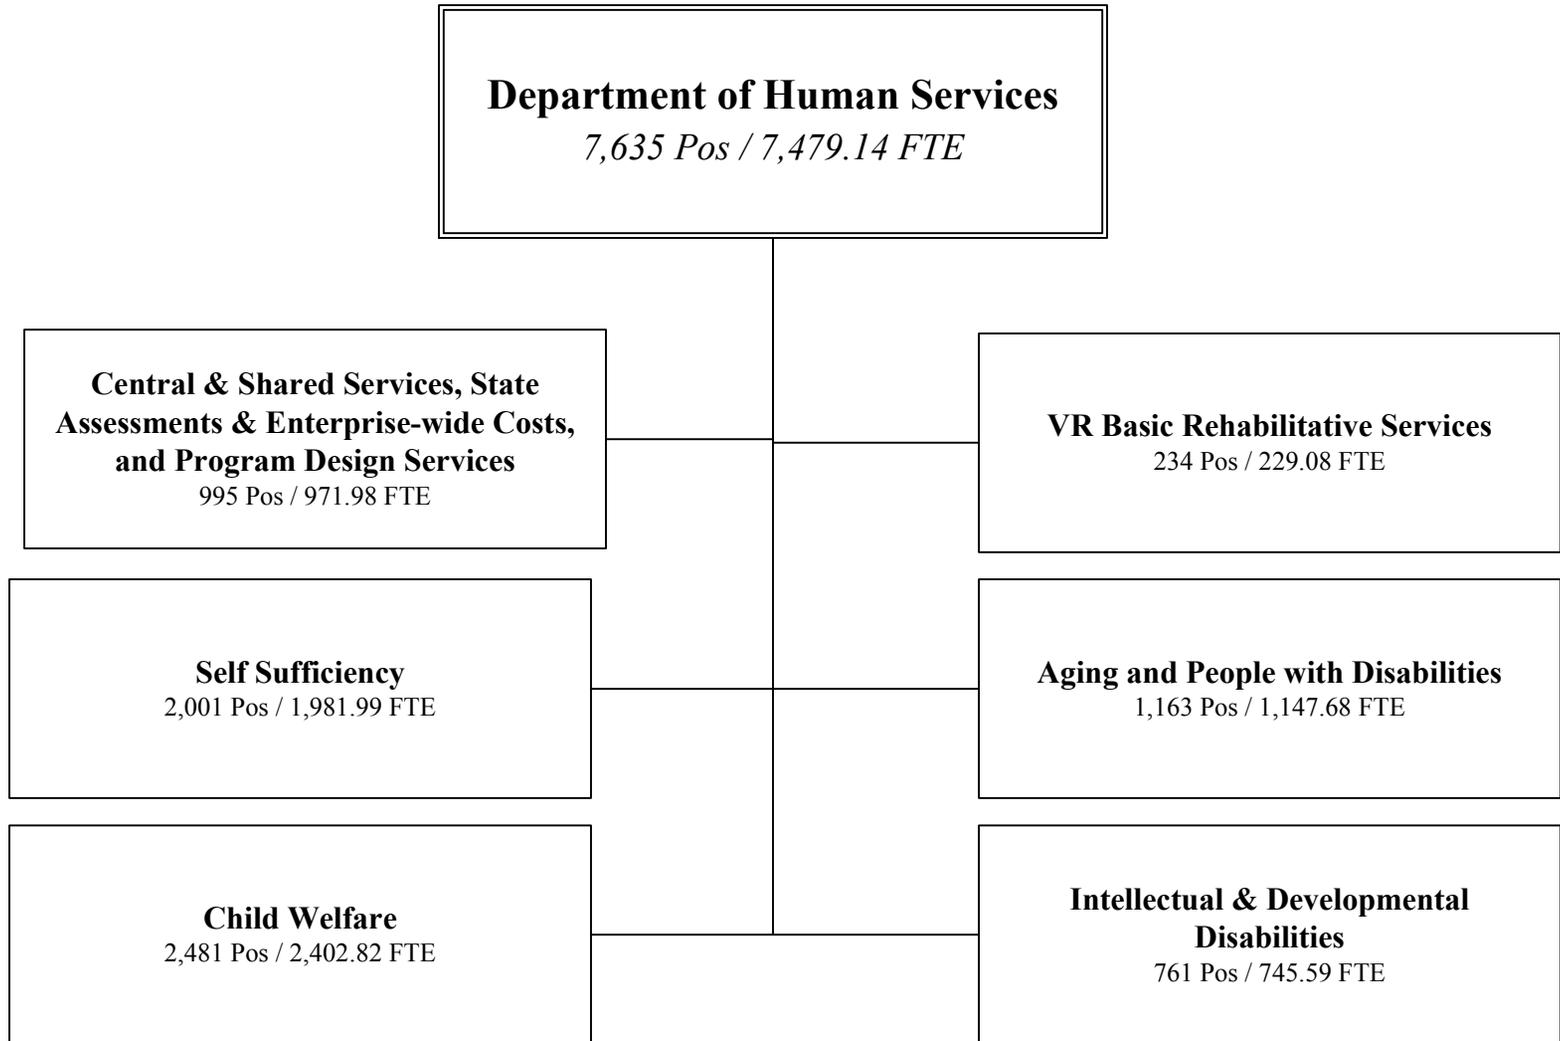

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
54	I-DD	Reduce PSW Wages by another additional 3% - Align with APD HCW - 9% overall	\$ (2,639,150)	\$ -	\$ (5,482,989)	\$ (8,122,139)	-	-	Effective 1/1/16 This reduction proposes to reduce bargained PSW wages another 3%, overall reduction of 9%.	1/1/2016
55	APD	Reduce nursing facility rate an additional amount to a total of 3%, which is the 52nd percentile	\$ (7,518,000)	\$ (1,482,000)	\$ (15,700,000)	\$ (24,700,000)	---	---	Nursing Facility rate setting methodology is set in statute. This would require a statute change reducing the rate setting percentile from 60th to 52nd percentile; or a 7/1/2015 Basic rate from \$308.31 to \$300.49 per resident day.	7/1/2015
56	CW	Child Safety: Eliminate Family Support Teams / Addiction Recovery Teams (ART) program, impacting services to approximately 13,400 families and 22,800 abused or neglected children.	\$ (1,452,328)	\$ (200,854)	\$ (2,560,718)	\$ (4,213,900)	-	-	Sixty to seventy percent of all child welfare cases involve parents with addiction issues. The ART program improves outcomes for children of addicted parents by giving parents and caseworkers access Alcohol & Drug trained staff to assist parents in eliminating barriers to treatment, tracking parents whose attendance at treatment falters, and helping parents with return home plans by supporting parents in early recovery with these transitions. This reduction would eliminate the entire ART program. Elimination of these services will mean more and longer foster care placements, higher re-abuse rates, a decline in parents entering treatment quickly, and an increase in the number of parents who struggle with sustaining their recovery. It will also increase caseworker workload, including A&D referral, transport, tracking and case management, making it more difficult for caseworkers to meet other state and federal mandates. Longer stays in foster care will increase costs to the state and result in poorer outcomes for children.	7/1/2015
57	I-DD	Reduce Brokerage and CDDP Equity by another additional 5% -total reduction of 11% (84% equity)	\$ (3,669,750)	\$ -	\$ (5,144,078)	\$ (8,813,828)	-	-	Effective 10/1/15 Reduces the operating funding to CDDPs and Brokerages another 5%, overall reduction of 11%. (84% equity)	10/1/2015
58	APD	Reduce community based care rates by a THIRD 3% for ALFs, RCFs, AFHs, Home Delivered Meals, In-Home Agencies, Adult Day Services.	\$ (6,600,000)	\$ -	\$ (14,470,000)	\$ (21,070,000)	-	-	Further reduction of CBC rates effective 10/1/2015, which would represent actual reduction from current funding levels.	10/1/2015
59	CW	Child Safety: Reduce Strengthening, Preserving, & Reunifying Families (SPRF) budget by 15%.	\$ (1,771,931)	\$ -	\$ (2,653,665)	\$ (4,425,596)	-	-	Strengthening, Preserving and Reunifying Families programs provide a broad array of services that are designed to allow children to remain safely with their parents while the issues that are challenging the family are addressed, to keep children and parents connected when children must enter foster care, and to facilitate a quicker return to parental custody. A reduction in these services will impact the Department's ability to implement these programs in additional counties and will result in more children coming into care and staying longer periods of time.	7/1/2015
60	I-DD	Reduce all non-bargained Provider Rates by additional 8%-Employment excluded (17% overall reduction)	\$ (16,428,584)	\$ -	\$ (36,596,409)	\$ (53,024,993)	-	-	Effective 10/1/15 Reduce all non-bargained provider rates by an additional 8%. This would be an across the board reduction of rates for all DD service providers in the comprehensive system, for children and adults, excludes Employment First services. Overall reduction of 17%.	10/1/2015
61	CW	Child Safety: Reduce ISRS budget by 15%, eliminating in-home supports for approximately 390 abused children each year.	\$ (1,107,718)	\$ (28,257)	\$ (2,258,869)	\$ (3,394,844)	-	-	This reduction to contracted ISRS will impact child welfare's ability to: 1) safely keep children at home; 2) return children home in a timely manner; and 3) provide the family supports and services to ensure children aren't re-abused and don't re-enter the foster care system. This reduction is estimated to impact approximately 390 children each year who will now need to enter foster care rather than safely stay at home, or return home, to their parents. This reduction will impact the department's ability to meet Indian Child Welfare Act and other court-ordered requirements. In addition to increased costs in foster care, there will be an increase in costs to courts, defense attorneys, Citizen Review Boards, and others involved in the dependency system. Finally, contractors who provide these services will be impacted and may lay off staff.	7/1/2015

Department of Human Services CSL Reduction List

DEPARTMENT OF HUMAN SERVICES							
		2,680,046,541	521,233,837	4,306,485,425	7,507,765,803	Positions	FTE
	Current Service Level Budget	2,680,046,541	521,233,837	4,306,485,425	7,507,765,803	7,730	7,636.40
	10% GF Target	268,004,654	52,123,384	430,648,543	750,776,580		

Priority	DIVISION	Reduction Description	GF	OF	FF	TF	BUDGET-POS	BUDGET FTE	Impact of Reduction on Services and Outcomes	Effective Date
62	APD	Reduce nursing facility rate an additional amount to a total of 6%, which is the 44th percentile	\$ (9,358,000)	\$ (1,842,000)	\$ (19,500,000)	\$ (30,700,000)			Nursing Facility rate setting methodology is set in statute. This would require a statute change reducing the rate setting percentile from 52nd to 44th percentile; or a 7/1/2015 Basic rate from \$300.49 to \$291.20 per resident day.	7/1/2015
63	CW	Child Safety: Eliminate System of Care (SOC). This eliminates the program fully and moves the SSBG federal revenues freed up due to the elimination of SOC to Personal Services in the Field to achieve GF savings.	\$ (2,605,483)	\$ (229,957)	\$ (6,031,034)	\$ (8,866,474)	-	-	Total elimination of the SOC budget would mean that Oregon's child welfare system has no resources available to individually tailor services to meet the needs of children in foster care. Failure to provide these services will result in: more children coming into foster care, more children staying longer in care, more instability for children in care, failure to meet state and federal program mandates, loss of federal IV-E resources, federal penalties, and possibly other litigation against the state. Longer stays in foster care will increase costs to the state and result in poorer outcomes for children.	7/1/2015
64	APD	Reduce community based care rates by a FOURTH 3% for ALFs, RCFs, AFHs, Home Delivered Meals, In-Home Agencies, Adult Day Services.	\$ (6,400,000)	\$ -	\$ (14,000,000)	\$ (20,400,000)	-	-	Further reduction of CBC rates effective 10/1/2015, which would represent actual reduction from current funding levels.	10/1/2015
65	VR	Reduce Client Service by 5%	\$ (1,066,643)	\$ (119,524)	\$ (4,382,692)	\$ (5,568,859)	-	-	The proposed reduction would result in an additional 5% decrease in case services forcing the creation of a waitlist. Nearly 2,086 additional individuals would not get services including youth served under third-party agreements with local school districts. This would jeopardize the match dollars that these agreements provide thus further reducing the program budget. Small specialized vendors who rely on the program for revenue would experience a sharp drop in income. Additionally this will impact the ability of the program to meet the required Maintenance of Effort resulting in a reduction in federal funds available, and resulting in the program reinstating the Order of Selection. OVRs with out an investment above the Current Service level is at risk of reinstating the Order of Selection, and is at risk for failure to meet the level of services set forth in Executive Order 13-04 regarding employment for persons with Intellectual and Developmental Disabilities.	7/1/2015
66	Agency Wide	Forego Other Funds used for local match and/or Reduce DHS programs		\$ (45,634,420)		\$ (45,634,420)	-	-	DHS is statutorily required to provide reduction options totaling 10% of CSL for each fund type. This reduction would be accomplished through a series of action including eliminating local match of federal funds and reductions to programs across DHS that are funded by Other Funds. This is not specific as it will depend on which Other Fund funding sources would be reduced as to the exact reduction. Loss of local match would reduce local provider programs who have expenditures that are legally matched with federal funds. This assumes there is no General Fund backfill available.	
67	Agency Wide	Forego Federal Funds and Reduce DHS programs			\$ (100,848,174)	\$ (100,848,174)	-	-	DHS is statutorily required to provide reduction options totaling 10% of CSL for each fund type. This reduction would be accomplished through a series of program reductions depending on which federal funding sources are being reduced. This is a real possibility based on the current federal sequestration rules. However, this action is not specific as it will depend on which Federal funding sources would be reduced as to the program needing reduction. This reduction assumes there is no general fund backfill for these reductions.

Department of Human Services

2015-17 Governor's Budget

Revenue Narrative

Forecast methods and assumptions

Revenues for the Oregon Department of Human Services comes from funding sources classified as the state General Fund, Other Funds and Federal Funds. Three major methodologies are used to project revenues for the department:

- The category of expenditures based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) is primarily used for federal entitlement grants.
- Grant cycles and where they fall within the biennium are considered for block grants. Assumptions based on the results of prior grant averaging and the anticipated effect of the federal budget process both are used to project the amount of funds that will be received.
- The historical receipt trends method is used for Other Funds sources such as collections of overpayments and fees unless the agency has additional information, such as anticipated special projects that would increase revenue or a temporary need for additional staff that will change the projections for a specific time period.

DHS projects revenue based on assumptions that take into account:

- Essential packages that adjust the existing base budget to the 2015-17 Governor's Budget (GB) modified current service level (MCSL) for all legislatively approved programs. Essential packages include phasing program changes in or out, one-time costs, Department of Administrative Services inflation factor, mandated caseload changes, and any needed fund shifts;
- Applicable federal funding limits and requirements, including the availability of state funds to meet matching or maintenance of effort (MOE) requirements;
- Changes in federal policies that affect federal revenue available to DHS programs;
- Expected non-mandated program caseload changes; and

- Recent changes in state or federal statutes and regulations that affect the availability or timing of revenue receipts.

Significant known federal revenue changes or risk factors

Sequestration

The possibility of sequestration being implemented at the federal level could cause a significant impact in federal funding for programs related to Child Welfare, Self Sufficiency and Vocational Rehabilitation. The impact could be up to \$8.9M dollars for the biennium. The grants that are impacted by sequestration are called out in the narrative that follows.

Designated State Health Programs (DSHP)

In July 2012, CMS approved a comprehensive amendment to Oregon Health Plan waiver to implement health system transformation. In support of health system transformation, the federal government agreed to additional Medicaid funding under the Designated State Health Programs (DSHP). The program authorizes the state to claim federal matching funds for certain state health-related expenditures and program costs that are not otherwise eligible for Medicaid matching funds. While this program is operated through the Oregon Health Authority, the Federal Funds are being applied throughout DHS based on availability of appropriate health-related expenditures and program costs.

Self Sufficiency Program

Temporary Assistance for Needy Families (TANF)

Changes to the calculation formula for the caseload reduction credit resulted in the Self Sufficiency Program (SS) not receiving as much credit as the program realized in the past. This reduction was due mainly to a shift in the baseline data being used, with the baseline moving forward to federal fiscal year 2005. Instead of comparing current caseload to older caseloads that were much higher, the comparison is to a caseload that reflects the agency's efforts to significantly reduce caseload.

Additionally, if the agency does not meet the federal requirements for monitoring clients' work, a penalty causes

the maintenance of effort requirement to increase an additional 5 percent of the base. This means that rather than the maintenance of effort being set at 75 percent of the base year, it is set at 80 percent of the base year.

Child Care and Development Fund (CCDF)

The Deficit Reduction Act (DRA) reauthorized CCDF for five years and increased appropriations requiring additional state matching funds. SS estimates overall demand for child care subsidies will increase due to the added TANF work requirements.

Targeted case management (TCM)

The DRA contains a more stringent definition for TCM services, while third-party liability language has been changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, including resources available through SS programs.

Child Welfare

Eligibility for Title IV-E adoption assistance

Beginning with FFY 2010, the eligibility criteria for certain children for IV-E adoption assistance has been modified and more children are eligible for assistance. These changes are being phased in to cover all children by FFY 2018.

Targeted case management (TCM)

Oregon's child welfare system effectively utilizes Medicaid through TCM. The DRA contains a more stringent definition of TCM services, while third-party liability language is changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another

program authority, including resources available through child welfare programs.

Title IV-B child welfare services

In FFY 2008, a new requirement was added to states' Title IV-B reporting. By FFY 2012 states must be achieving 90 percent performance in caseworkers visiting children in foster care on a monthly basis. States submitted targets for performance for each year up to FFY 2012 showing how they intended to improve performance from their base year up to the 90 percent mark. Failure to meet these targets results in a penalty in the form of an increase in state match requirement for their IV-B CWS grant. Oregon failed to meet its target for FFY 2009, which will cause a 1 percent increase (from 25 percent to 26 percent) in the state match required for the FFY 2010 grant. Oregon continued to fall below the required 90 percent mark in FFY2011 resulting in the state match rate for the FFY2012 grant going from 26 percent to 30 percent.

Ageing and People with Disabilities (APD) and Intellectual & Developmental Disabilities (I/DD)

Targeted case management (TCM)

The DRA provides a more stringent definition of TCM services. Any program that currently uses Medicaid and has another funding source may be at risk of Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, which could include intellectual and developmentally disabled programs (I/DD). Before DHS would be required to stop providing TCM services, viable third-party providers would need to be found to provide or pay for equivalent case management services.

Long-term care reform

The DRA increased the look-back period (the period during which the disposition of assets is reviewed to determine eligibility for services) from three to five years. This change in long-term care asset determinations is a greater administrative burden because staff are required to review more client documents; additionally the change increases technical assistance and training requirements.

K-Plan and Plan of Care

APD and I/DD implemented the K Plan and the Plan of Care in Biennium 13-15. The K Plan is a Medicaid state plan option that allows Oregon to provide home and community-based services and supports while receiving a six percent increase in federal medical assistance funds for those services. Plan of Care in the I/DD program will replace the need for General Fund allotments to County Developmental Disability Programs and Brokerages allowing all providers to bill on a fee for service basis.

Major funding sources

The following section identifies the major funding sources for DHS. All references to a grant “Title” are references to the originating statute in the federal Social Security Act.

Federal Funds

Chafee Foster Care Independence grants (Title IV-E)

The Chafee Foster Care Independent Living program was established to assist youth likely to remain in foster care until 18 years of age and children who “age out” of foster care but have not yet turned 21. The program is designed to help eligible youth make the transition from foster care to independent living. This program also includes the Education and Training Vouchers program.

The Chafee Foster Care Independent Living program is funded with a formula grant based on the number of children in the state in foster care.

This program is funded by two grants. The Chafee Education and Training Vouchers Grant is one that may be impacted by sequestration resulting in a possible \$0.3M decrease in Federal Funds for 2015-17.

This grant currently funds DHS Well Being programs. The projection of revenue is based on grant cycle. These grants require a 20 percent state match.

- Revenue budgeted in 2013-15 LAB is \$8.1million
- Revenue budgeted in 2015-17 GB is \$8.1 million

Child Abuse Prevention and Treatment Act grant

The Child Abuse Prevention and Treatment Act grant (CAPTA) provides funding to help states improve their child protective service system. The funding is administered by the US Department of Health and Human Services, Administration for Children, Youth and Families. Federal legislation authorizes an annual award of funds to states that submit plans designed to improve their child welfare service system every five years and meet certain other eligibility requirements. The amount of CAPTA funding varies from year to year and has no matching requirement. Funding is provided to the state for use on a statewide basis. A portion of the budget is set aside to support three federally mandated CAPTA panels meant to provide citizen review of and recommendations for improvements to the state's child welfare system.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on grant cycle. This grant will potentially be impacted by sequestration resulting in a possible \$.08M decrease in funding for 2015-17 GB.

- Revenue budgeted in 2013-15 LAB is \$0.6 million
- Revenue budgeted in 2015-17 GB is \$0.6 million

Child welfare services (CWS) block grants (Title IV-B)

Title IV-B consists of two formula grants. The first is the basic child welfare services grant. It may be used for many services including homemaker, protective and reunification services, and on a limited basis for foster care, adoptions and day care. The amount of federal funding allotted to the state for this grant is based on the state's population of children and state per capita income. IV-B subpart one requires a 26 percent state match.

The second part of Title IV-B is the Promoting Safe and Stable Families grant. The focus of the grant is on family preservation, family support services, reunification, and adoption promotion and support. The amount of federal funding allotted to the state is based on the number of children in the state receiving Supplemental Nutrition Assistance Program (SNAP, formerly food stamps). Match for IV-B sub-part two is a 25 percent state match.

These grants currently fund DHS Child Welfare programs. The projection of revenue is based on the Federal Fiscal Year (FFY) grant cycle, and show a decrease from the previous biennium as a result of decreased carry forward from the prior phase. These two grants are subject to sequestration which could result in a federal funding decrease of possibly \$1.2 M for 2015-17.

- Revenue budgeted in 2013-15 LAB is \$13.2 million
- Revenue budgeted in 2015-17 GB is \$17.0 million

Developmentally Disabled Service Act (DDSA)

Congress sets a national allocation determining the amount of annual funding for this grant, which is administered by the Developmental Disabilities (DD) Council in partnership with DHS. Program expenditures are limited to programs for clients with developmental disabilities and are guided by a state plan submitted to the federal government. There is a 5 percent limit on administrative expenditures except for expenditures by the DD Council.

This grant currently funds DHS Intellectual & Developmental Disabilities programs. The projection of revenue is expenditures-based using estimated Average Daily Populations (ADP) and Cost per Case (CPC). Federal law requires a state or local match, most of which can be in-kind.

- Revenue budgeted in 2013-15 LAB is \$4.1 million
- Revenue budgeted in 2015-17 GB is \$4.1 million

Oregon Disability Determination Services (DDS)

Oregon Disability Determination Services (DDS) provides timely and accurate eligibility determinations for Oregon citizens applying for Social Security disability benefits. Although the disability program, as part of the Social Security Administration (SSA), is administered by the federal government, state agencies make the initial medical determination of disability. The Oregon DDS currently has more than 200 staff and is 100 percent federally funded.

- Revenue budgeted in 2013-15 LAB is \$56.0 million
- Revenue budgeted in 2015-17 GB is \$56.0 million

Family Violence Prevention grant

The Family Violence grant is a discretionary grant that supports states in the establishment, maintenance and expansion of programs and projects to prevent incidents of family violence as well as programs that provide immediate shelter and related assistance for victims of family violence and their dependents. This grant is used in support of the Domestic Violence program.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on grant cycle. The grant is 100 percent federal funds and could be impacted by sequestration resulting in a decrease in federal funding of possibly \$0.4M for 2015-17 GB.

- Revenue budgeted in 2013-15 LAB is \$3.0 million
- Revenue budgeted in 2015-17 GB is \$2.5 million

Supplemental Nutrition Assistance Program (SNAP)

The SNAP program provides children and low-income people access to food, a healthy diet and nutrition education. The program is 100 percent federally funded by the Department of Agriculture Food and Nutrition Service (FNS). SNAP benefits are distributed by DHS in the form of an Electronic Benefits Transfer (EBT) card, known as the Oregon Trail Card. The cashout program provides SNAP benefits to selected elderly clients in four counties using a direct cash payment. These benefits are also 100 percent federally funded.

The SNAP employment and training program provides some reimbursement to families and individuals participating in educational activities and finding employment. The program is 100 percent federally funded up to the state's specified cap. Expenditures above the cap are funded with 50 percent state funds and 50 percent federal funds.

FNS funds 50 percent of the state's administrative costs for operating the SNAP EBT program, the cashout program and the employment and training program. States may receive enhanced funding for up to 60 percent of their administrative costs if their SNAP error rate is below the national average.

This grant currently funds programs in DHS Self Sufficiency and Aging and People with Disabilities. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC).

- Revenue budgeted in 2013-15 LAB is \$2.5 billion
- Revenue budgeted in 2015-17 GB is \$2.3 billion

Foster care and adoption services (Title IV-E)

The foster care and adoption assistance program is an entitlement program funded under the Social Security Act, Title IV-E. Children taken into custody due to imminent risk of harm because of abuse and neglect are provided foster care placement and medical care through grant funding. Title IV-E eligibility is based on a number of factors including the income of the child and the family. Title IV-E-eligible children are also categorically eligible for Medicaid.

Federal financial participation is available at the Medicaid FMAP rate for program costs (average biennium FMAP for 2015-17 GB is 63.90 percent), and at the rate of 50 percent for administrative expenditures necessary for the proper and efficient administration of the Title IV-E state plan. The state's cost allocation plan identifies which administrative costs are allocated and claimed under this program. Federal financial participation also is available at the rate of 75 percent for the costs of:

- Training personnel employed or preparing for employment by the state or local agency administering the plan; and;
- Providing short-term training to current or prospective foster or adoptive parents and the members of the state licensed or approved child care institutions providing care to foster and adopted children receiving Title IV-E assistance.

All training activities and costs funded under Title IV-E must be included in the state agency's training plan that is part of the Child Welfare services plan.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). The increase in expected revenue is based on the caseload forecast showing an increase in cases.

- Revenue budgeted in 2013-15 LAB is \$238.2 million
- Revenue budgeted in 2015-17 GB is \$253.7 million

Medicaid (Title XIX)

Medicaid provides reimbursement to states for medical care and related services to low income and other medically needy individuals. This includes financing for:

- Health care services provided under the Oregon Health Plan;
- Private insurance premium;
- Long-term care in institutional and community-based care settings;
- Some client care provided in state hospitals;
- Residential treatment services to adults and youth;
- Central administration of alcohol and drug programs;
- Medical and non-medical transportation for Medicaid eligible individuals;
- Family planning services for individuals not enrolled in the Oregon Health Plan; and
- Uncompensated care provided by hospitals serving a high proportion of Medicaid and uninsured individuals.

State General Funds or Other Funds must be used to match federal Medicaid dollars for administration and direct service payments. The administration match rate is primarily 50 percent. A 75 percent federal fund match is available for skilled professional medical personnel, certification of nursing facilities, and related information systems activities, including the Medicaid Management Information System (MMIS) computer system support and

Preadmission Screening and Resident Review (PASRR) activities. The current average federal Title XIX match rate for service payments to providers for the 2013-15 biennium is 63.40 percent and 63.90 percent for 2015-17. The cost of services and supplies for Family Planning is matched at 90 percent. The Breast and Cervical Cancer (Treatment) program which is an optional Medicaid program receives the CHIP Title XXI match rate of 74.38 percent the 2013-15 biennium and is receiving an enhanced match rate of 94.86 percent in the 2015-17 biennium.

Most services in Oregon are provided through seven Medicaid programs that require waivers of federal requirements. The Oregon Health Plan is the largest of these waiver programs. DHS must obtain approval from the federal Centers for Medicare and Medicaid Services (CMS) to make changes to its Medicaid program whether the changes are Medicaid state plan services or waiver services. This approval process can be lengthy, sometimes affecting the timing of program changes and the receipt of associated federal revenues.

Medicaid currently funds services in all DHS programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) for Administrative charges, use of time and effort and other measures.

- Revenue budgeted in 2013-15 LAB is \$2.65 billion
- Revenue budgeted in 2015-17 GB is \$2.65 billion

Medicaid XIX Local Match

The Intellectual & Developmental Disabilities (I/DD) program matches Medicaid Title XIX funds with funds or services from transit districts, community developmental disability programs and others for providing enhanced non-medical transportation and administrative costs.

- Revenue budgeted in 2013-15 LAB is \$12.2 million
- Revenue budgeted in 2015-17 GB is \$12.7 million

Older Americans Act

Funds are allocated to Oregon annually through the Older Americans Act. The Aging and People with Disabilities (APD) program allocates program funds by a federally approved population formula to the 17 area agencies on aging. Emphasis is placed on serving the most economically and socially needy persons 60 years of age and older. There is a 15 percent match requirement of which 10% is met by area agencies on aging and 5% from state sources through local funds, in-kind and Oregon Project Independence (OPI) allocations.

- State administration funds provide for state plan administration. There is a 25 percent match requirement met with OPI funds.
- Title III funds provide for support services such as transportation, legal assistance, in-home care, and congregate and home-delivered meals programs. The act allows for provision of in-home services for frail individuals to prevent premature institutionalization and preventive health services for elderly clients in rural areas. Title III also provides funding for family caregiver support and training and services to prevent abuse of the elderly. The match requirement ranges from 15 to 25 percent depending on whether the funds are paying for administration or program expenditures.
- Title V programs subsidize part-time paid community service work for low-income persons, aged 55 and over and job training skill. There is a 10 percent match requirement, which is met by the program operators.
- Title VII funding provides support for the long-term care ombudsman and prevention of elder abuse, neglect and exploitation. No match is required for Title VII.
- The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs. The projection of revenue is based on actual and projected federal awards. These grants are subject to sequestration resulting in a potential reduction of \$0.74M for 2015-17.

- Revenue budgeted in 2013-15 LAB is \$31.3 million
- Revenue budgeted in 2015-17 GB is \$31.3 million

Nutrition Services Incentive Program (NSIP)

The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C and local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs through Area Agencies on Aging. Projection is based on history of fund awards from the U.S. Administration on Aging.

- Revenue budgeted in 2013-15 LAB is \$3.5 million
- Revenue budgeted in 2015-17 GB is \$3.5 million

Oregon Project Independence

Oregon Project Independence (OPI) is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or to people who have been diagnosed with Alzheimer's or a related dementia disorder.

OPI is administered locally by area agencies on aging throughout the state. Client eligibility is determined based upon an assessment of functional ability and natural supports related to activities of daily living. The OPI program has no financial asset limitations. A sliding fee scale is applied to clients with net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small minority with income above 200 percent of the FPL pay the full rate for services provided. They generally do so because they need the case management, ongoing support and monitoring that are provided in addition to the actual purchased services.

The OPI program historically has been funded by General Fund and for a short time by excess revenue in the Senior and Disabled Property Tax Deferral Revolving Account. However, due to sharply declining revenue, funds are no longer available from the Department of Revenue property tax deferral account for transfer to the OPI fund. Aging and People with Disabilities received legislatively appropriated General Funds for the purpose of continuing OPI.

- Revenue budgeted in 2013-15 LAB is \$9.6 million
- Revenue budgeted in 2015-17 GB is \$9.6 million

Quality of Care Fund

During the 2009 Legislative Session, HB 2442 required the establishment of the Quality of Care Fund and increases in fee schedules for adult foster homes, residential care and assisted living facilities, as well as increases in state civil penalties. Revenue collected from APD and IDD licensing fees and civil penalties are dedicated to promoting quality of care and life in long-term care settings, including enhancement and maintenance of long-term care facility licensing and regulatory activities and additional training and technical assistance for facilities.

Refugee resettlement

The refugee resettlement program provides time-limited cash and medical assistance as well as social services to refugees entering the country. The refugee resettlement program and administration expenditures are 100 percent federal funds, as defined by the Immigration and Nationality Act of 1980.

These grants will potentially be reduced as a result of sequestration resulting in a possible reduction of \$0.4M in 2015-17 GB.

- Revenue budgeted in 2013-15 LAB is \$8.5 million
- Revenue budgeted in 2015-17 GB is \$8.5 million

Rehabilitation Act grants (US Department of Education)

The Rehabilitation Act grants are the major funding source for programs provided through Vocational Rehabilitation Services. Rehabilitation Act grants currently fund DHS VR – Basic Rehabilitative Services programs. The projection of revenue is based on grant cycle.

Section 110 (Basic 110 Grant)

Basic 110 Grant, which is available to assist people with disabilities in becoming employed, is a formula grant based on the state's population and per capita income. The funds available to Oregon are divided between Vocational Rehabilitation (87.5 percent) and the Commission for the Blind (12.5 percent). These federal funds must be matched with state funds. This grant is subject to sequestration resulting in a possible revenue reduction of \$3.8M for 2015-17. Under the new Workforce Investments and Opportunities Act, 15% of this grant must be set aside to be spent on pre-employment transitions services for youth.

- Revenue budgeted in 2013-15 LAB is \$69.1 million
- Revenue budgeted in 2015-17 GB is \$72.2 million

Section 633 (Title VI-C grant for supported employment)

This grant assists the state in developing programs with public and private agencies for training and services leading to supported employment for individuals with severe disabilities. This grant under the new Workforce Investments and Opportunities Act must set aside 50% for services to the most severely disabled youth. The 50% set aside must be matched with 10% non-federal fund expenditures. The remaining 50% of the grant is 100 percent federal funds and does not require state match.

- Revenue budgeted in 2013-15 LAB is \$0.5 million
- Revenue budgeted in 2015-17 GB is \$0.5 million

Section 711 (independent living rehabilitation, Part B)

Independent living rehabilitation funds support the state Independent Living Council and Independent Living Centers. This grant has a required 10% match. This grant is subject to sequestration resulting in a possible revenue reduction of \$0.08M.

- Revenue budgeted in 2013-15 LAB is \$0.6 million
- Revenue budgeted in 2015-17 GB is \$0.5 million

Assistive technology

The Assistive Technology Act of 1998 supports state efforts to improve the provision of assistive technology (AT). Grant funds allow implementation of programs designed to meet the AT needs of individuals with disabilities, including plans that improve access to and acquisition of AT devices and services for individuals with disabilities.

This grant is a revenue source of the Oregon Disabilities Council, which was transferred to Vocational Rehabilitation (VR) within the VR – Basic Rehabilitative Services program in the 2007-09 biennium. This grant is subject to sequestration resulting in a possible revenue reduction of \$0.1M.

- Revenue budgeted in 2013-15 LAB is \$0.8 million
- Revenue budgeted in 2015-17 GB is \$0.8 million

Social Services Block Grant (SSBG, Title XX)

The Social Services Block Grant (SSBG) is one of the most flexible grants provided by the U.S. Department of Health and Human Services. The objective of SSBG is to provide the social services that best meet the needs of individuals residing in the state. Oregon uses SSBG to fund varied programs, including employment-related day care, crisis nurseries, supportive remedial day care and the social service components of residential treatment programs. SSBG has no matching or maintenance of effort requirements. This grant is potentially impacted by sequestration which could possibly result in a \$1.8M reduction to the funding level for 2015-17.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on the grant cycle.

- Revenue budgeted in 2013-15 LAB is \$42.4 million
- Revenue budgeted in 2015-17 GB is \$34.7 million

Children's Health Insurance Program (Title XXI)

The Children's Health Insurance Program (CHIP) provides federal matching funds for medical care of children through age 18 who do not have insurance but whose parents earn too much for traditional Medicaid. These services are covered through the OHP.

This grant currently funds DHS Child Welfare programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC).

- Revenue budgeted in 2013-15 LAB is \$10.4 million
- Revenue budgeted in 2015-17 GB is \$7.8 million

Temporary Assistance for Needy Families (TANF, Title IV-A)

Under the Personal Responsibility and Work Act of 1996 (PRWOA), Oregon is eligible to receive an annual Temporary Assistance for Needy Families (TANF) federal block grant. In order to qualify for this grant, the state must expend a minimum of state and local revenues on TANF-related services to meet federal maintenance of effort requirements (MOE).

Some of these state and federal revenues fund Temporary Assistance to Needy Families (TANF)-eligible services. In Oregon, these services are cash assistance for single and two-parent families, domestic violence emergency assistance, and employment and training (JOBS) services. DHS and other agencies also use TANF revenue to fund related programs such as foster care, prevention services, alcohol and drug treatment services, transportation, and housing assistance for homeless persons. Administrative and direct service costs can also be reimbursed using TANF revenues. Administrative costs are limited to no more than 15 percent of total TANF expenditures with certain limited exceptions.

The block grant concept, under which TANF operates, places restraints on service delivery. Federal funds are capped, which means no federal revenue is available for increasing program costs. This limitation on revenue requires Oregon to essentially self-fund any program increases.

This grant currently funds programs in DHS Self Sufficiency. The projection of revenue is based on the grant cycle.

- Revenue budgeted in 2013-15 LAB is \$381.9 million
- Revenue budgeted in 2015-17 GB is \$333.6 million

Money Follows the Person grant

First authorized under the Deficit Reduction Act of 2005, the federal Money Follows the Person (MFP) rebalancing demonstration program provides assistance to states to balance their long-term care systems and help Medicaid enrollees' transition from institutions to the community. The MFP demonstration program is designed to help states shift Medicaid's long-term care spending from institutional care to home- and community-based services (HCBS). Congress initially authorized up to \$1.75 billion in federal funds through fiscal year 2011. States were intended to use the funds to increase the use of HCBS and reduce institutionally based services; eliminate barriers and mechanisms in state law, state Medicaid plans, or state budgets that prevent or restrict the flexible use of Medicaid funds; strengthen the ability of Medicaid programs to assure continued provision of HCBS to individuals who transition from institutions; and ensure that procedures are in place to provide quality assurance and continuous quality improvement of HCBS. The Affordable Care Act extended the MFP Program through the 2016 FFY and appropriated an additional \$2.25 billion in federal funds to the program.

Other Funds

Care of state wards

Trust recoveries are Other Funds collected from Social Security Administration (SSA), Social Security Insurance (SSI) and child support payments and used to reimburse the state for the maintenance cost of children in care. Trust recoveries come from collection of SSI disability payments (24 percent), child support payments (53 percent) and SSA death and survivor benefits (23 percent). Trust recoveries are used in place of General Funds to match Title XIX federal funds for the long-term care program.

Trust recoveries currently fund Child Welfare (CW) and Intellectual & Developmental Disabilities (I/DD) programs. The projection of revenue is based on caseload trends and historical receipt trends. Revenues are projected to decline due to reduced receipts.

- Revenue budgeted in 2013-15 LAB is \$12.8 million
- Revenue budgeted in 2015-17 GB is \$12.8 million

Collection of overpayment

Overpayment recoveries are recovered program dollars incorrectly paid to or for clients through client error or fraud. Recovery may be made in any of several program areas including food stamps, child care, public assistance cash and public assistance grant reductions. The projection for these revenues are developed using past performance, inflation and changes in caseloads and regulations as indicators of future trends. Public assistance recoveries are applied against program expenditures during the month of the recovery. Food stamp and child care overpayment recoveries are budgeted as Other Funds.

Currently these funds support programs in the CW and APD programs. The projection of revenue is based on historic receipt trends.

- Revenue budgeted in 2013-15 LAB is \$18.1 million
- Revenue budgeted in 2015-17 GB is \$18.1 million

Client account collections estate recoveries

Other Funds are collected from the estates of clients to reimburse previous cost of care. Collections are used to reimburse cost and offset both the Title XIX program cost and General Fund costs.

Currently funds APD programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). Revenues are projected to increase as a result of increased receipts.

- Revenue budgeted in 2013-15 LAB is \$21.1 million
- Revenue budgeted in 2015-17 GB is \$21.1 million

Domestic violence receipts

Enacted in 1981, marriage license fees are dedicated to fund the domestic violence program. The marriage license fee is currently \$25. Legislation directed that the unitary tax and the criminal fines and assessments account provide additional funding for this program. Expenditures are limited to the amount of revenue actually received.

Domestic violence receipts currently fund programs in the Self Sufficiency (SS) programs. The projection of revenue is based on historical receipt trends for marriage license fees and Department of Revenue projections for criminal fines and assessments accounts.

- Revenue budgeted in 2013-15 LAB is \$1.2 million
- Revenue budgeted in 2015-17 GB is \$1.2 million

Fees and premiums

The CW programs collect fees for adoption home study and registry, sexual abuse therapy fees, and fees for fingerprinting under ORS 409.015. Specific fee amounts are:

- Independent Adoption Placement Reports cost \$675; \$550 passes through to private agencies.
- The fee for registration with the mutual consent registry is \$25. This registry allows individuals who have been a party to adoption access to other party information where both parties have registered and consented to disclosure.
- The non-identifying registry allows registrants to provide genetic, social and health history only for use in the adoption registry. The cost for this registry is \$45.
- The cost of an adoption assisted search is \$400 for the first search request and \$200 for subsequent search requests. This allows individuals to request the agency's assistance in locating biological family members.

Local school funding for rehabilitation services

Other Funds from local schools are used as the 21.3 percent state match needed for the Basic 110 Grant for rehabilitation services which is funded with 78.7 percent federal funds. The Youth Transition Project (YTP) is a collaborative program with school districts that assists youth with disabilities in their transition from school to the community work force.

The projection of revenue is capped based on agreements with schools.

- Revenue budgeted in 2013-15 LAB is \$1.9 million
- Revenue budgeted in 2015-17 GB is \$1.9 million

Provider tax

During the 2003 Oregon legislative session, HB 2747 was passed imposing taxes on four types of businesses that provide health services to many of Oregon's Medicaid clients including long-term care facilities (nursing homes) and Programs of All-Inclusive Care for the Elderly (PACE). DHS was given oversight of the taxes. The long-term care facilities tax increases nursing facility rates and improves the financial stability of the nursing home industry. Effective Sept. 30, 2009, the hospital tax and the Medicaid MCO tax ended. In HB 2116, the Oregon Legislature re-established the hospital tax and instituted a new health insurer's tax to support the OHP. The insurer's tax is 1 percent of health premiums. HB 2116 specifies that certain Medicaid MCO types are subject to the insurer's tax.

Long-term care facilities tax

The current tax rate is set to collect up to 6 percent of resident service revenues of non-exempt long-term care facilities. Revenue projections are based on previous years' cost reports, current year tax reports, and a growth factor. At present, the agency collects approximately \$15million per quarter in Other Funds through this tax. The federal match is approximately \$26 million per quarter. Provider tax dollars are used to offset general fund expenditures for nursing facility services. The provider tax will sunset in June 2021.

- Revenue budgeted in 2013-15 LAB is \$109.2 million
- Revenue budgeted in 2015-17 GB is \$109.2 million

Oregon Department of Human Services

Director's Office, Operations and Shared Service Programs

Vision

Safety, health and independence for all Oregonians.

Mission

To help Oregonians in their own communities achieve wellbeing and independence through opportunities that protect, empower, respect choice and preserve dignity.

Goals

- People are safe and living as independently as possible.
- People are able to support themselves and their families through stable living wage employment.
- Children and youth are safe, well and connected to their families, communities and cultural identities.
- Choices made by seniors and people with disabilities about their own lives are honored.
- Partners, clients and stakeholders are actively engaged in a variety of collaborative and meaningful ways.
- Culturally specific and responsive services are provided by highly qualified and diverse staff.
- The department is committed to equal access, service excellence and equity for all Oregonians

Director's Office

The DHS Director's Office is responsible for overall leadership, policy development and administrative oversight for all programs, staff and offices in DHS. These functions are coordinated with the Governor's Office, the Legislature, other state and federal agencies, partners and stakeholders, communities of color, local governments, advocacy and client groups, Oregon Tribes and the private sector. Included in the DHS Director's Office is the Office of Equity and Multicultural Services, the Tribal Affairs Unit, and the Public Affairs Office.

Office of Equity and Multicultural Services (OEMS)

OEMS provides leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both

internal workforce developments as well as improve service delivery to all Oregonians. The office also investigates all claims of discrimination and harassment. The goals of the office include reducing service disparities in all program areas; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

Office of Human Resources (HR)

HR serves as a strategic partner to its customers in DHS, providing proactive, comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future.

DHS Office of the Chief Financial Officer (OCFO)

OCFO provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in support of the mission of DHS. This is done by working closely with DHS programs and the OHA CFO and programs, to ensure accurate, timely and efficient recording and management of financial resources; culturally competent and equitable services; authorizing the redistribution of available resources to meet changing needs; and establishing administrative controls. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Budget Center, Office of Financial Services, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

Public Affairs Office

This office supports the mission by providing accurate information to a diversity of employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the DHS Director and Executive Team.

Legislative Unit

This unit handles all legislative matters for DHS. This team coordinates all DHS legislative matters with legislative offices, key stakeholders and the Governor's Office. This team supports both field and central office staff providing consultation and support in legislative matters, primarily working with central office staff on policy development for program services. During a legislative session, this unit tracks and assigns all bills related to DHS program and operations. Staff in this unit support the Director of DHS, the Directors of all program and operations in DHS and the District Managers in field offices regarding legislative matters.

Office of Legal and Client Relations

This unit supports all DHS field office and central office programs by managing legal matters, client concerns, administrative rules, and administrative hearings. The LCRO consists of the following operational areas:

Legal Unit

This Unit manages all lawsuits, tort claims and subpoenas related to DHS program and operations. Staff in this unit provide expert consultation to DHS staff (field and central office staff), Department of Justice (DOJ) and Department of Administrative Services (DAS) Risk Management in policy related to legal matters. This team ensures timely completion of the required judicial documents to move smoothly through a complicated legal matter.

Governor's Advocacy Office (GAO)

This office handles client complaints coming into Central Office related to DHS services. This office operates independently in the investigations performed and reports directly to the Governor quarterly on the calls received and handled. The team in this office works closely with field office staff, central office program staff, the Governor's Office, key stakeholders and the DHS Director's Office to successfully, equitably and respectfully reach a conclusion. Efforts are underway to have the GAO handle all client-related complaints coming into Central Office and the Director's Office.

Hearings and Rules Unit

This unit provides expert technical support to hearing representatives in DHS field services and liaison to the Office of Administrative Hearings and DOJ regarding DHS notices, hearing requests, and contested case hearings. This unit provides

expert technical support to program staff writing rules and rule-related documents and handles rule filing and the public comment process for DHS programs.

Tribal Affairs

We are committed to a positive working relationship with the nine tribes in Oregon. Staff regularly holds meetings with tribal governments through tribal liaisons and continually strives to ensure these communities receive sufficient and appropriate human services.

Rules Coordinator

The Rules Coordinator advises, consults, leads, coordinates and trains staff in drafting, interpreting, defining and developing the intent and scope of administrative rules. In addition, the rules coordinator monitors and reviews contested case orders, trains hearing representatives, assists with legal issues and acts as liaison with the Office of Administrative Hearings to discuss performance measures.

Operations

Operations

The Chief Operations Officer is responsible for Shared Services, Internal Audits, Business Intelligence, Licensing and Regulatory Oversight, Continuous Improvement, Information Technology (IT) Business Supports, Adult Abuse Prevention and Investigations, Performance Excellence and Program Integrity, which includes the Office of Payment Accuracy and Recovery.

Shared Services

These are customer-driven shared services. When the agency split, DHS and Oregon Health Authority (OHA) received legislative approval to maintain many administrative functions as shared services to prevent cost increases, maintain centers of excellence and preserve standards that help the agencies work together. This helps keep control over major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS and OHA govern their shared services through a board composed of operational leaders of the two agencies. This approach ensures that shared services are prioritized and managed to support program needs.

DHS Shared Services provides business services to ensure accountability, data driven decisions, and stewardship of resources in support of the missions of DHS and OHA. DHS Shared Services contains the following key offices and programs:

Shared Services Administration

This office provides leadership and direction for shared services offices which support both DHS and OHA.

Budget Center

This area provides program and administrative budget planning, financial analysis and technical budget support. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

Office of Forecasting and Research Analysis

This unit provides client caseload forecasting services.

Office of Financial Services

This area provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds. This area provides accurate, accountable and responsive financial management and business services to clients, providers, vendors, stakeholders and employees to ensure compliance with state laws and federal policies, rules and regulations.

Office of Human Resources

This office provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training.

Office of Facilities Management

This office provides coordination of facility matters for branch offices and other facilities statewide.

Office of Imaging and Records Management (IRMS)

IRMS provides document and records management services, which include imaging, electronic workflow, data entry, archiving and retention services.

Office of Contracts and Procurement

This office provides purchasing services by conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

Internal Audit and Consulting

This office provides independent and objective information about operations, programs and activities to help management make informed decisions and improve services.

Office of Payment, Accuracy and Recovery (OPAR)

OPAR provides recovery services by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided. OPAR continues to work with Lean Daily Management System principles to produce efficiencies in the work of the office. Huddles, continuous improvement sheets, 7-step problem solving, and skill versatility are all examples of tools being used by units to enhance the way business is conducted.

Performance Excellence Office (PEO)

PEO provides leadership in coordinating continuous improvement and training services. PEO uses a blend of project management principles, a strong governance structure, metrics developing and tracking, training and Lean techniques to drive a comprehensive approach to creating a culture of continuous improvement that is cutting red tape, delivering better and faster services to clients, generating cost savings and increasing transparency. The PEO uses a multi-level approach designed to create an organic self-sustaining culture of continuous improvement through all levels of the organization. The PEO provides lean and continuous improvement training for all agency staff, coaching and mentoring for agency management and oversight of agency performance in continuous improvement and performance excellence.

Publications and Design (P&D)

P&D manages the writing, design, development, printing and distribution of DHS and OHA publications for internal and external audiences, which includes alternate formats and alternate languages. P&D provides consulting to plan professional

quality publications that reflect DHS and OHA style guidelines; edit and proof materials created by staff experts and partners in their individual fields; provide graphic design, layout, original and digital illustration, forms creation, graphic artwork and Web and electronic materials.

Office of Adult Abuse Prevention and Investigations (OAAPI)

OAAPI is responsible for conducting and coordinating abuse investigations and providing protective services statewide in response to reports of abuse and neglect to people they serve, including:

- Adults over the age of 65
- Adults with physical disabilities
- Adults with intellectual or developmental disabilities
- Adults with mental illness, and
- Children receiving residential treatment services

OAAPI exists to ensure a prompt, consistent and equitable response to all reports of abuse of vulnerable adults (and children in certain settings) across the state, to provide proactive prevention training and services to vulnerable populations and those who care for them and to help prevent abuse from happening in the first place. OAAPI works toward these goals by the provision of the following specialized, abuse-related services to its DHS and OHA program partners:

- Policy analysis and development;
- Data collection and analysis;
- Quality assurance and continuous improvement activities;
- Staff training and development;
- Research and prevention activities;
- Program coordination and technical assistance; and
- Specialized investigation services.

As a Shared Service with a broad view of adult abuse trends across varying populations and settings, OAAPI is uniquely positioned to provide trend data and outcomes to program and agency partners, who use that information to ensure and enhance the safety of their respective consumer populations.

Program Design Services

Office of Program Integrity (OPI)

OPI conducts analysis and tests to determine whether DHS is implementing programs in the way they were designed and trains caseworkers based on their findings to improve program integrity. The Quality Control Unit conducts operational and case reviews, many mandated by state and federal law, to determine how accurately each program is making eligibility and other determinations. The Quality Assurance Unit and CMS Waiver Group conducts field reviews to assess program quality.

OPI continues to work with Lean Daily Management System principles to produce efficiencies in the work of the office. Huddles, continuous improvement sheets, 7-step problem solving, skill versatility are all examples of tools being used by units to enhance the way business is conducted.

Office of Licensing & Regulatory Oversight (OLRO)

OLRO Provides for the safety of children, aging and physically disabled, and people with intellectual and developmental disabilities through licensing, regulatory and corrective action functions within programs provided by the Department of Human Services. This includes Intellectual and Developmentally Disabled (I/DD) programs, Aging and People with Disabilities (APD) programs, Child Welfare (CW) providers, adult foster homes, assisted living facilities, residential care facilities, nursing homes, supportive living and employment programs for people with intellectual and developmental disabilities, and private child care agencies. OLRO strives to ensure that service equity and delivery of culturally and linguistically appropriate services are provided to Oregonians.

Office of Business Intelligence (OBI)

OBI provides data-driven information about what we're doing, how it's working, and what we need to be doing next to provide programs with the information they need to make good decisions.

Information Technology Business Supports (ITBS)

ITBS serves to bridge the language gap which commonly exists between the IT technical teams and numerous program design and operational teams. The mission of ITBS is threefold: help DHS program policy-makers understand and maximize their use of technology; help the application development teams understand the

business needs of the DHS program areas; and help DHS program policy-makers understand the impact of their technology decisions.

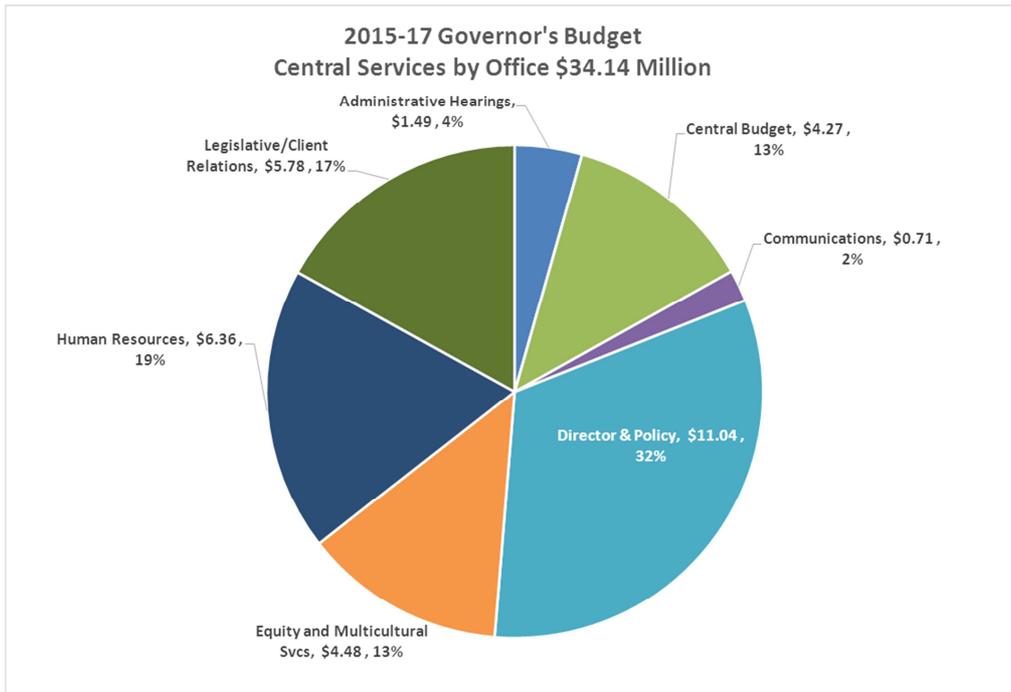

Fulfilling the mission of ITBS requires solid understanding of the operational aspects of the multiple IT systems supporting DHS program areas, and also a strong working knowledge of DHS program policies, rules and business processes. ITBS team members have developed the skill, knowledge and ability to concurrently translate the language of system and business process between Office of Information Services (OIS) technology development teams and DHS business program teams. In addition to technology and policy/process translation services, ITBS provides direct support to internal and external system users regarding issues specific to DHS program areas, and system access administration for several DHS program areas.

Continuous Improvement

This office leads an on-going effort to improve services and processes, and involves all employees helping build standard processes in all DHS programs.

Department of Human Services: Central Services

Primary Outcome Area: Improving Government
Secondary Outcome Area: N/A
Program Contact: Eric Luther Moore, 503-884-4701

Executive Summary

DHS Central Services consist of the Office of the Director and Policy, the Office of Human Resources, the Central Budget Office, the Office of Communications, the Office of Legislative and Client Resources (LCRO) within the Public Affairs Office and the Office of Equity and Multicultural Services (OEMS). These offices provide essential business supports to programs in achieving the department and programs mission, vision and outcomes.

Significant Proposed Program Changes from 2013-15

Central Services Total						
GB Investments	GF	OF	FF	TF	POS	FTE
201 - REaL-D	\$743,644	\$1,000,000	\$0	\$1,743,644	3	2.84

REaL-D

This investment supports the establishment of uniform standards and practices for the collection of data on race, ethnicity, preferred spoken or signed language, preferred written language, and disability status by the Oregon Health Authority (OHA) and Department of Human Services (DHS). This investment supports designing, building and implementing a master client data service that supports the long-term strategy of a comprehensive view of the OHA/DHS client.

Upon establishment of a re-useable master client service, the agency will have the capability to collect demographic information on the client that will serve multiple program and reporting needs. DHS and OHA have developed administrative rules and policies for collecting, analyzing, and reporting meaningful race, ethnicity, language and disability data (REaL+D) across DHS and OHA based on the foundation of the U.S. Office of Management and Budget’s (OMB) Directive 15 (revised 1997), and adds key elements that will improve the quality of the data gathered.

This POP addresses both the business and technical changes required to create a unified, sustainable model for collecting client data across both agencies. Planning for the project is occurring during the remainder of the 13-15 biennium; DHS and OHA have put in place a REaL-D Analysis and Assessment Project to inventory and analyze all business processes, systems and reports across DHS/OHA that capture, update or utilize REaL-D data. This project’s focus is on a detailed assessment and impact analysis of the changes that will be required across DHS & OHA in support of the implementation of HB 2134 and the related Oregon REaL-

D data collection standards. The outcome of the in-depth analysis will include a detailed business case and recommended implementation strategies for REaL-D data standards compliance. This budget assumes \$1 million in Q-Bond Revenues.

Program Description

Office of the Director and Policy

The DHS Director's Office is responsible for overall leadership, policy development and administrative oversight. These functions are coordinated with the Governor's Office, the Legislature, other state and federal agencies, partners and stakeholders, local governments, advocacy and client groups, and the private sector.

The DHS Director's Office provides leadership in achieving the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity. The office supports all DHS field office and central office programs by managing legislative and legal matters, client concerns, written rules, and contested hearings.

DHS Office of the Chief Financial Officer (OCFO)

OCFO provides optimal business services to ensure accountability, data driven decisions, and stewardship of resources in support of the mission of DHS. This is done by working closely with DHS programs and the OHA CFO and programs, to ensure accurate, timely and efficient recording and management of financial resources; culturally competent and equitable services; authorizing the redistribution of available resources to meet changing needs; and establishing administrative controls. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Budget Center, Office of Financial Services, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

Central Budget Office

This office functions as the central budget for DHS based programs working under the guidance of the OCFO. The OCFO is responsible to provide leadership and direction to the DHS Budget Office and the fiscal offices located in DHS that serve both DHS and OHA, including the Office of Financial Services, the Central Budget Unit, and Office of Forecasting. These offices ensure that accounting, budget, and forecasting practices comply with all applicable laws, rules, and

professional standards and ensure transparency and accountability in the financial practices of DHS and OHA.

Office of Human Resources (HR)

HR serves as a strategic partner to its customers in DHS, providing proactive, comprehensive human resources services, in alignment with agency and program mission and goals. HR works closely with internal customers on Workforce Strategies that support agency and program needs and strategies, and building a healthy workplace culture of ongoing development and feedback to ensure the agency has a diverse workforce with the right people with the right skills, training, and support to do their work, now and in the future.

Public Affairs Office

This office supports the mission by providing accurate information to a diversity of employees, clients, legislators, stakeholders and interest groups, providers and partners, local governments, other state and federal agencies, policymakers, the news media, targeted audiences and the general public. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the DHS Director and Executive Team.

Office of Equity and Multicultural Services (OEMS)

OEMS provides leadership and direction in supporting equity, diversity and inclusion initiatives throughout the agency. OEMS guides systemic changes to both internal workforce developments as well as improve service delivery to all Oregonians. The office also investigates all claims of discrimination and harassment. The goals of the office include reducing service disparities in all program areas; ensuring a diverse and culturally competent workforce; removing barriers to a welcoming work environment; and improving life outcomes for all DHS clients.

Program Justification and Link to 10-Year Outcome

DHS Central Services provide critical leadership and business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

DHS Central Services include the cost of DHS central budgets, including the Director, Governor's Ombudsmen, Legislative and communication support, budget, diversity, and human resources.

The DHS Central Services budgets are structured and administered according to the following principles:

Control over major costs

DHS centrally manages many major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

Performance management system

DHS has implemented a performance management system containing the following key elements:

- A clear statement of the outcomes DHS must achieve.
- Descriptions of the processes DHS uses to achieve its outcomes.
- Measures of success for each outcome and process.
- Owners for each measure.
- Written "breakthrough" strategies for each initiative that will significantly improve outcomes and processes.
- A quarterly all-day all-leadership review of progress on each measure and strategy.

DHS is now implementing the same system within each program and support service category. The system is contained in the Director's Office and is managed by the entire executive team.

Best practices in installing performance management require specific skills - especially in project management, Lean tools, data analysis, and professional development of managers. DHS has reallocated resources and used savings to make some of these investments, but it must increase these skills much more needs to be done.

Enabling Legislation/Program Authorization

ORS 409.010

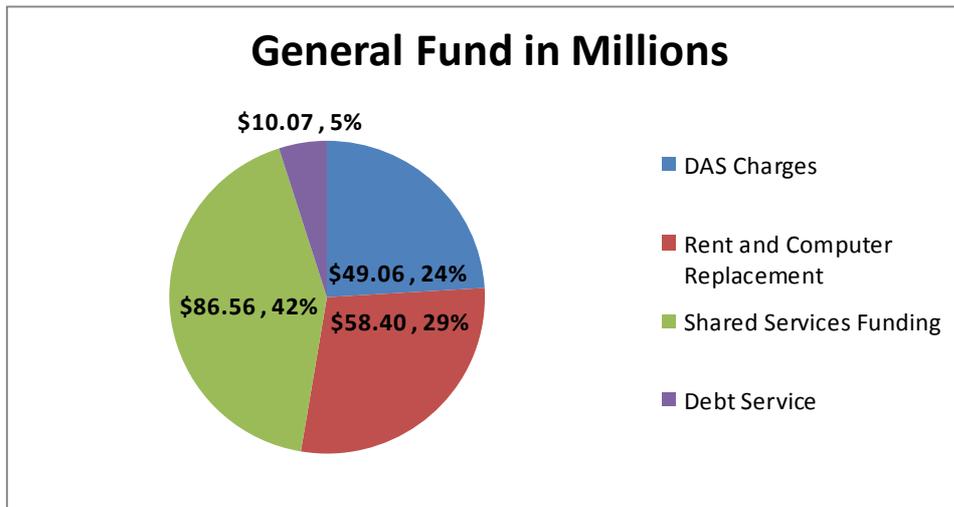

Funding Streams

- Allocated Costs – Costs benefiting more than one Federal or State program are charged to a cost allocation pool. The allocating grant numbers accumulate costs until the monthly cost allocation process is run.
- Direct Charge – Costs benefiting a single Federal or State program are charged directly to the grant number representing the program. There is no additional allocation for these costs.
- Monthly Process –. The process runs each month based on actual accumulated costs. On a monthly basis, statistics are generated to complete the allocation process. The cost allocation pools are cleared each month by the operation of the cost allocation process to transfer the costs to the final grant and cost objective.
- Federal Financial Participation (FFP) Calculation – After costs are allocated to final cost objectives, DHS calculates and records the level of Federal financial participation for the specific grant.

Department of Human Services: Shared Services

Primary Outcome Area: Improving Government
 Secondary Outcome Area: Improving Government
 Program Contact: Eric Luther Moore, 503-884-4701

Shared Service Programs – Improving Government

Executive Summary

DHS Shared Services supports both DHS and OHA by providing optimal business services to ensure accountability, data driven decisions, and stewardship of resources. This budget also includes the Department of Administrative Services (DAS), State Data Center (SDC) and Risk Management assessments, debt service, and the DHS rent and computer replacement budgets.

Program Funding Request

Significant Proposed Program Changes from 2013-15

Shared and SAEC Total						
GB Investments	GF	OF	FF	TF	Pos	FTE
123 - TANF Investigator POP	\$ 884,248	\$ 1,314,776	\$ 763,687	\$ 2,962,711	22	9.24

TANF/SNAP Investigators

Currently, Overpayment and Recovery's (OPAR) client fraud investigators have caseloads in excess of 300 cases each. This is excessive and additional resources are needed to properly decrease the backlogged workload. Further, an investigator’s work often happens in client homes and in adversarial situations where safety is a concern.

These new staff (7 FTE, Investigator 3 classification; 10 FTE, Investigator 2 classification; 2 FTE, Office Specialist 2; 2 FTE, Administrative Specialist 2; 1 FTE, Program Manager C) would provide the additional investigative staffing needed to right-size the investigations unit, reduce existing safety concerns, as well as expand capacity for utilizing new data-mining and GIS fraud-identification techniques. The expected recovery estimate in program budgets can provide some programmatic offset to this investment cost. In addition overall Return on Investment (ROI) including federal funds provides a minimum ROI of \$1:1 in total fund to total fund recovery for taxpayers overall.

Program Description

DHS Shared Services contains the following key offices and programs:

Shared Services Administration

This office provides leadership and direction for shared services offices as well as managing the business continuity planning efforts for both DHS and OHA.

Budget Center

This office provides program and administrative budget planning, financial analysis and technical budget support for DHS and OHA. These services are provided for department leadership, program, policy and field managers, staff and external policymakers.

Office of Forecasting, Research and Analysis

This office provides client caseload forecasting services for DHS and OHA.

Office of Financial Services

This office provides accounting services, administers employee benefits and payroll, prepares financial reports, and collects funds owed to DHS and OHA. This office provides accurate, accountable and responsive financial management and business services to DHS and OHA clients, providers, vendors, stakeholders and employees in support of both agencies' missions and in compliance with state laws and federal policies, rules and regulations.

Office of Human Resources

This office provides essential HR administrative functions and services for DHS and OHA, and supports organizational development and an improved common culture of leadership and engagement across both agencies, through background checks and fitness determinations; personnel records management; leave administration; centralized position administration; safety and risk response and management; staff and management training; facilitation services and LDMS coaching; HR data analysis and reporting; HR policy administration; and internal communication strategies and resources for managers and staff.

Office of Facilities Management

This office provides coordination of DHS and OHA offices and other facilities statewide.

Office of Imaging and Records Management

This office provides document and records management services for DHS and OHA through imaging, electronic workflow, data entry, archiving and retention services.

Office of Contracts and Procurement

This office provides contract and procurement services for DHS and OHA by making purchases, conducting solicitations, and preparing and processing contracts with other government agencies, businesses and service providers.

Office of Adult Abuse Prevention and Investigations

This office conducts investigations and provides protective services in response to reported abuse and neglect of seniors and people with physical disabilities; adults with developmental disabilities or mental illness; and children receiving residential

treatment services. The types of abuse we investigate may include physical, sexual, verbal and financial abuse; neglect, involuntary seclusion, and wrongful restraint. (See also individual Bid Form for more details)

Internal Audits and Consulting

This unit provides independent and objective information about DHS and OHA operations, programs and activities to help management make informed decisions and improve services.

Office of Payment, Accuracy and Recovery

This office provides recovery services for DHS and OHA by identifying and recovering moneys paid in error to clients or providers; investigates allegations of fraudulent activities; investigates and recovers state funds expended for services when a third party should have covered the service and the recovery of claims made by a client; and recovers funds from the estates of Medicaid recipients for the cost of cash and medical benefits provided.

Performance Excellence Office (PEO)

The PEO provides leadership in coordinating continuous improvement and training services for DHS and OHA. PEO uses a blend of project management principles, a strong governance structure, metrics developing and tracking, training and Lean techniques to drive a comprehensive approach to creating a culture of continuous improvement that is cutting red tape, delivering better and faster services to clients, generating cost savings and increasing transparency. The PEO uses a multi-level approach designed to create an organic self-sustaining culture of continuous improvement through all levels of the organization. The PEO provides lean and continuous improvement training for all agency staff, coaching and mentoring for agency management and oversight of agency performance in continuous improvement and performance excellence.

Publication and Design Section (P&D)

This section manages the writing, design, development, printing and distribution of DHS and OHA publications for internal and external audiences, which includes alternate formats and alternate languages. P&D provides consulting to plan professional quality publications that reflect DHS and OHA style guidelines; edit and proof materials created by staff experts and partners in their individual fields; provide graphic design, layout, original and digital illustration, forms creation, graphic artwork and Web and electronic materials.

Program Justification and Link to 10-Year Outcome

DHS Shared Services provide critical business supports necessary to achieve the mission of the agency: helping Oregonians achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

DHS Shared Services include:

- Payments to DAS and third parties for goods and services that serve the whole agency, such as facility rents, state data center charges, the DAS risk assessment, DAS government service charges, computer replacement, and debt service.
- Payments for DHS's share of the cost of services shared with OHA. When the agency split, DHS and OHA agreed to share information technology, financial, investigations, and other services to avoid cost increases and permit a greater focus on improving performance and efficiency.
- The cost of the DHS/OHA shared services provided by DHS. These costs are entirely Other-funded, paid for by the payments described in the 2nd bullet above and there are similar payments in the OHA budget. From a total fund perspective, these costs are double-counted in the DHS and OHA budgets, but are needed in order for the offices to perform their daily operations.

The DHS Shared Services budget is structured and administered according to the following principles:

Control over major costs

DHS centrally manages many major costs. Some of these costs, like many DAS charges, are essentially fixed to the agency. Others, like facility rents, are managed centrally to control the costs. DHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

Customer-driven shared services

When the agency split, DHS and OHA agreed to maintain many administrative functions as shared services to prevent cost increases, maintain centers of excellence, and preserve standards that help the agencies work together.

Shared Governance

DHS and OHA govern their shared services through a board composed of operational leaders of the two agencies. This approach ensures that shared services

are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, implemented recent budget cuts selectively, moved staff in and out of shared services to rationalize service delivery, and started implementing more integrated systems to support the performance of all our employees.

Best practices in installing performance management require specific skills - especially in project management, Lean tools, data analysis, and professional development of managers. DHS has reallocated resources and used savings to make some of these investments, but in order to increase these skills much more needs to be done.

Enabling Legislation/Program Authorization

ORS 409.010

Funding Streams

Funding streams are billed to through an approved cost allocation plan. The model contains a billing allocation module and a grant allocation module.

The billing allocation module allocates Shared Service costs to the two agencies.

The billing module allocates costs to customers within each agency. It does not allocate costs directly to Federal grants.

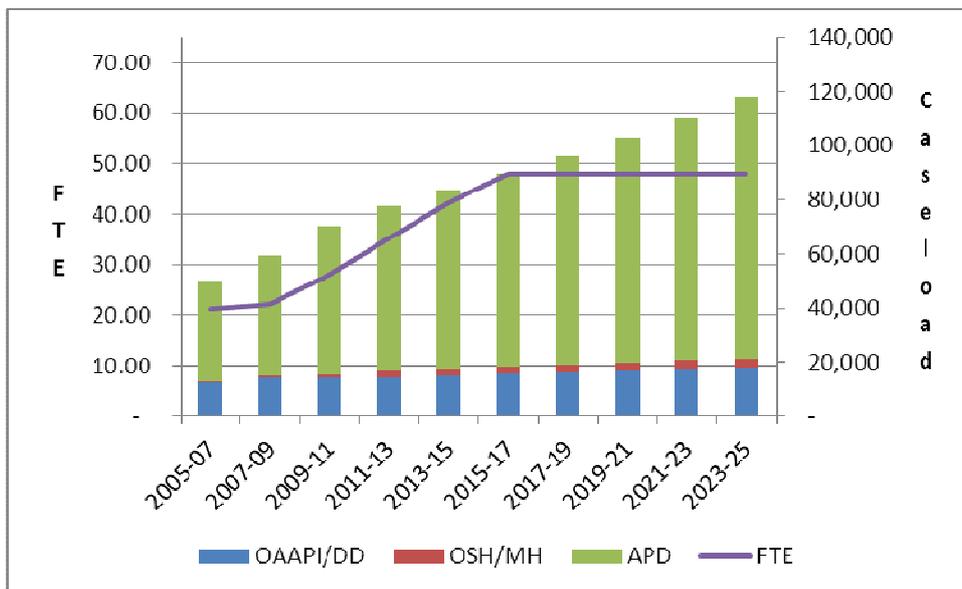

The grant allocation module allocates costs within DHS to State and Federal grants. These costs include those directly incurred by DHS, Shared Service costs allocated to DHS by the billing allocation module, and external costs allocated to DHS by other State agencies.

Both modules allocate aggregated costs on a monthly basis and use similar allocation methods.

Department of Human Services: Office of Adult Abuse Prevention and Investigations

Primary Outcome Area: Safety
 Secondary Outcome Area: Healthy People
 Program Contact: Marie Cervantes, 503-945-9491

Caseloads by Area of Investigation and Staffing Levels

Note: This chart shows caseloads by area of investigation compared to staffing levels, with a 60% increase in caseload growth from 2005 to 2014.

Executive Summary

The Office of Adult Abuse Prevention & Investigations (OAAPI) is a DHS/OHA Shared Service that provides abuse-related services to the Aging & People with Physical Disabilities (APD), Intellectual/Developmental Disabilities Services (I/DD) and Child Welfare (CW) programs at DHS, and the Addictions & Mental Health (AMH) program at OHA.

Together with its program partners, OAAPI serves some of Oregon’s most vulnerable residents, in their own homes or in licensed care facilities. The approximate numbers served include:

- 500,000 older adults and people with physical disabilities;

- 16,000 adults enrolled in Intellectual and Developmental Disabilities (I/DD) programs;
- 55,000 adults receiving Community Mental Health Services or residing in the Oregon State Hospital (OSH); and
- 3,600 children residing in licensed facilities that provide therapeutic treatment, or children enrolled in I/DD services.

OAAPI has a core staff of 48 employees providing specialized abuse-related services statewide. OAAPI’s staff monitors and supports the work of over 250 abuse screeners, investigators, protective service workers and managers around the state who work for many different entities, including state offices, Area Agencies on Aging, and county mental health and developmental disability programs.

In 2013, over 35,000 reports of possible abuse or neglect of vulnerable Oregonians were received and screened statewide by OAAPI and its program partners. Of those, 16,500 allegations were assigned for investigation by OAAPI or program staff, to determine if abuse had occurred and to provide protective services to the alleged victim. About 23% of all allegations investigated (3,819) were substantiated in 2013.

When people live free from abuse, their medical, physical and psychological treatment needs are reduced and they are able to live independent, productive lives in their communities. There is a direct link between robust abuse prevention and intervention efforts and the potential for reductions in need for health care services, Medicaid resources and nursing home placements.

Significant Proposed Program Changes from 2013-15

An APD-sponsored Policy Option Package is included in the Governor's Proposed 15-17 Budget to fund the development of a new statewide adult abuse database and report-writing system. When implemented, this new system will greatly enhance OAAPI's ability to monitor abuse screenings and investigations occurring around the state in real time; provide critical and accurate abuse data and performance metrics to internal and external partners; 'connect the dots' statewide to protect vulnerable Oregonians and prevent abusers from moving from one system or region to another undetected; and protect DHS and OHA programs from the risk of abuse referrals or investigations "falling through the cracks" or going unaddressed without detection.

Program Description

OAAPI exists to ensure a prompt, consistent and equitable response to all reports of abuse of vulnerable adults (and children in certain settings) across the state, to provide proactive prevention training and services to vulnerable populations and those who care for them and to help prevent abuse from happening in the first place.

OAAPI works toward these goals by the provision of the following specialized, abuse-related services to its DHS and OHA program partners:

- Policy analysis and development;
- Data collection and analysis;
- Quality assurance and continuous improvement activities;
- Staff training and development;
- Research and prevention activities;
- Program coordination and technical assistance; and
- Specialized investigation services.

As a Shared Service with a broad view of adult abuse trends across varying populations and settings, OAAPI is uniquely positioned to provide trend data and outcomes to program and agency partners, who use that information to ensure and enhance the safety of their respective client populations.

For example, OAAPI published its second financial exploitation study in 2014, providing updated and comprehensive statewide data about financial exploitation – currently the most frequently investigated form of abuse in Oregon. The study

allowed OAAPI and its partners to better define and explain the cost of abuse, identify regional trends and enhance community engagement efforts, and has been recognized nationally as a pioneering study. Also in 2014, OAAPI published its second Annual Report (Calendar Year 2013) which provided abuse data for all the populations served by OAAPI and its partners, as well as a unified view of the serious risks faced by all vulnerable Oregonians.

Reports such as these provide the important link between research and practice, allowing OAAPI and our partners to use actual data to focus our efforts and drive decision-making and program development. For example, based upon abuse data collected, OAAPI recently created positions for investigative specialists to provide support to the field in the areas of financial exploitation and intimate partner violence, family violence and sexual assault, two areas presenting increasing challenges to program staff.

In addition to supporting program staff in the field, OAAPI screens and responds to reports of abuse in state-operated facilities directly. These settings include Children's 24-Hour Residential Developmental Disability (DD) programs, Children's Residential Care Programs, the Oregon State Hospital, I/DD Stabilization and Crisis Units (SACU) and Secure Residential Treatment Facilities either operated or contracted by the state. In 2013, approximately 1,000 reports of possible abuse were reported in these settings and over 500 were assigned for investigation by OAAPI staff investigators.

To fulfill its mission, OAAPI works closely with other state agencies and offices, such as the Long Term Care Ombudsman and the Background Check Unit, to respond to allegations of abuse as well as to share abuse-related information, as allowed, to further protect vulnerable Oregonians. When residents of licensed facilities are reported to have been abused, OAAPI works closely with the DHS Office of Licensing and Regulatory Oversight (ORLO), the office responsible for licensing and taking corrective action in long-term care facilities, to ensure that appropriate steps are taken to protect the alleged victim and to hold perpetrators accountable.

In regard to Community Engagement, OAAPI collaborates actively with community partners, non-profit agencies, stakeholders, advocacy groups, labor groups, providers' organizations and consumers to ensure that the abuse investigation practices and protective service interventions in use around the state are understood and supported by all involved.

OAAPI's program costs are driven by many factors, including the aging of Oregon's population, the increasing demand for services in both community and facility settings, and an increase in the legal, medical and social complexity of abuse cases. Unfortunately, national research shows that elder abuse is vastly under-reported, with only an estimated one in 23.5 cases reported. Financial abuse is one in 44, and neglect one in 57 (Cornell University, 2011¹). A 2009 study by MetLife reported a "\$2.9 billion dollar annual loss" as a result of elder financial abuse, which is a 12 percent increase from 2008. This is supported by OAAPI's research, which indicates that in 2013 financial exploitation comprised 45 percent of all substantiated abuse in Oregon and resulted in significant financial loss to Oregon citizens.

Ultimately, all of these factors drive up requests for service and lead to increased costs for OAAPI and the programs that OAAPI supports.

Program Justification and Link to 10-Year Outcome

OAAPI is inextricably linked to the Outcome goal of **Safety** for all Oregonians, particularly for vulnerable adults and children. Individuals we serve are at the highest risk of abuse or neglect. National research shows that more than half of people with mental illness or developmental disabilities will experience repeated physical or sexual abuse in their lifetime. Older adults who are victims of abuse have been shown to be three times more likely to die in a given time period than their non-abused peers². The goal of Safety is also supported by the use of OAAPI's abuse history information in employment screening, limiting the ability of substantiated perpetrators to actively seek employment with vulnerable populations.

Secondary outcomes of this program are linked to the **Healthy People 10-Year Outcome**. Research shows that:

- Elder abuse victims are four times more likely to go to a nursing home³.
- Victims of abuse use healthcare services at higher rates⁴.
- 90 percent of abusers are family members or trusted others⁵.

¹ Testimony by Mark Lachs, Senate Special Committee on Aging, March 2, 2011 Washington, D.C.

² Journal of American Medical Association, Vol. 280, No. 5, 428-432.

³ Testimony by Mark Lachs, Senate Special Committee on Aging, March 2, 2011 Washington, D.C.

⁴ Archives of Family Medicine, 1992 (1), 53-59,

⁵ National Center on Elder Abuse, 1994.

- Almost one in 10 financial abuse victims will turn to Medicaid as a direct result of their own monies being stolen from them⁶.

Considering the direct link between robust abuse prevention efforts and potential reductions in health care services, Medicaid costs and nursing home placements, a quick and effective response to reports of abuse is not only critical to the wellbeing of vulnerable Oregonians but a wise investment as well.

Program Performance

OAAPI participates actively in the DHS Fundamentals Quarterly Business Review, whereby process and outcome measures are identified, tracked and reported enterprise-wide on a quarterly basis.

Current process measures include the timeliness of the initial response to abuse reports, timely completion of investigations and the rate of inconclusive findings. Outcome measures include the overall abuse rate by population and the rate of re-abuse within one year. These metrics provide transparency and drive continuous improvement efforts across programs. As an additional measure of accountability, OAAPI also conducts quality assurance and continuous improvement activities to ensure accuracy of statute/rule compliance, provide mandated oversight to local office investigators, identify abuse and performance trends and to target training and community education needs.

Enabling Legislation/Program Authorization

The Federal Americans with Disabilities Act, Elder Justice Act of 2009, the Older Americans Act, and the Adoption and Safe Families Act all authorize states to protect vulnerable adults and children from abuse and neglect. Oregon statutes further authorize DHS and OHA to provide protection from abuse to certain populations and training for the individuals who conduct abuse investigations. Statutory authorization for investigating abuse of seniors and people with

⁶ The Utah Cost of Financial Exploitation, March 2011, Utah Division of Aging and Adult Services.

disabilities is found at ORS 124.005 *et seq.* For people with developmental disabilities or mental illness, authorization is at ORS 430.735 *et seq.* and for children; authorization is at ORS 419b.005 *et seq.*

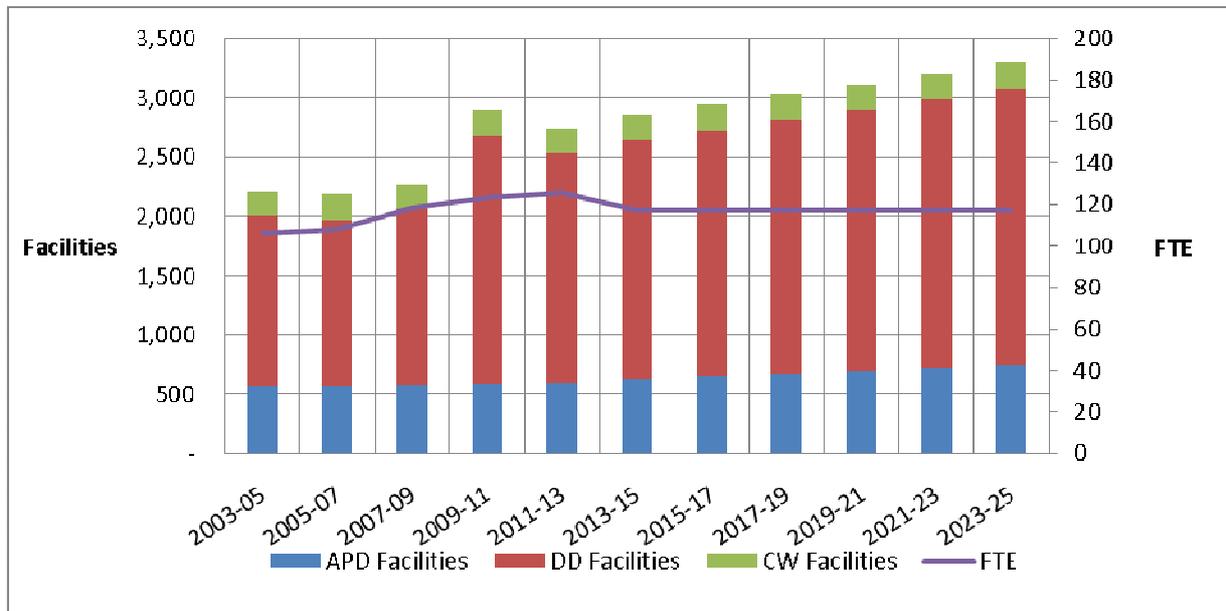

Funding Streams

As a Shared Service, the services provided by OAAPI staff are paid for by each program under a Service Level Agreement (SLA), which specifies the services to be provided and the method of cost allocation to be used. The services provided by program staff conducting investigations around the state are paid for by their respective programs. OAAPI regularly seeks revenue-supplementing opportunities including grants, and is consulting with our federal partners regarding federal funds that may become available for adult protective services in coming years.

Department of Human Services: Office of Licensing and Regulatory Oversight

Primary Outcome Area: Improving Government
 Secondary Outcome Area: N/A
 Program Contact: Donna Keddy, 503-373-7194

Licensing Oversight: Number of Facilities and Staff that Regulate Them

Executive Summary

The mission of the Office of Licensing and Regulatory Oversight (OLRO) is to provide for the safety, health and well-being of children, the aging and physically disabled, and people with intellectual/developmental disabilities served by the Department of Human Services and others through the consistent, efficient and effective oversight of those who provide services to clients across the continuum of care. Through diligent oversight, investigation of complaints, reports of rule violations and potential abuse and requiring corrective actions on the part of providers, future instances of unsafe conditions are reduced and quality of care to residents is improved. These services are most effective when they are provided in a quality and prevention model aimed at preventing harm before it occurs and to ensure the ongoing safety and health of vulnerable Oregonians.

Significant Proposed Program Changes from 2013-15

The DHS Office of Licensing and Regulatory Oversight will be focused on the effective recruitment, training and retention of current staff, utilizing existing Full-Time Employees (FTE) to the maximum efficiency and quality of services provided. OLRO will focus on further definition of the scope and roles of staff and the resulting impact of these efforts on the timeliness and effectiveness of the licensing, inspection, complaint resolution and corrective action processes. Upon further evaluation and utilization of metrics, OLRO will establish the need for additional resources based on the need indicated.

Program Description

ORLO is responsible for the licensing, certification, regulatory and corrective action functions for facilities and programs that serve Individuals with intellectual/developmental disabilities (I/DD), Aging and People with Disabilities (APD) and Child Welfare (CW) providers. This includes adult foster homes for individuals with intellectual/developmental disabilities, child foster homes, 24-hour residential programs for children and adults, assisted living facilities, residential care facilities, nursing homes, supported living programs, brokerages, provider organizations, employment programs, and residential care facilities for children with behavioral, emotional and mental health conditions. This Office does not license or certify APD Adult Foster Homes (APD/AFH), but does carry out regulatory and corrective action functions for that APD program, and provides policy direction to the APD licensing and certification regulation. The populations served in care settings regulated by OLRO represent a broad diversity of linguistic and cultural backgrounds of individuals.

 Performed

OLRO’s licensing and oversight responsibilities vary by program area. Below is a description of OLRO’s role:

- 137 Licensed Nursing Facilities** – Licensure is achieved and maintained, in part, through annual on-site review by teams of trained Client Care Monitoring Surveyors using a rigorous oversight, monitoring and corrective action process that is prescribed by the Centers for Medicare and Medicaid Services and Oregon statute and rule. On-site visits are conducted to ensure the safety and well-being of approximately 5,000 of the most medically compromised and vulnerable elderly residents served in these facilities. Currently 41 FTE (the majority of which are federally funded) are employed to survey all Nursing Facilities based on the federally mandated survey process. Surveyors are also charged with the investigation of allegations of rule violations, including abuse and neglect that meet any of the six established criteria. There are nine FTE responsible for providing technical assistance to providers, consumers and local office staff. They

also implement civil penalties, sanctions and interventions to facilities that fail to provide adequate care and supervision.

- **495 Assisted Living Facilities and Residential Care Facilities** – Licensure is achieved through on-site surveys conducted every two years. These facilities provide 24-hour care and services to elderly and disabled residents. This is the fastest growing level of care within the continuum for seniors and is anticipated to continue to expand within the service delivery system for years to come. There is currently a capacity for over 24,000 Oregonians who may reside at this level of care, representing the largest population of Oregon’s elderly citizens. The purpose of on-site surveys is to determine the facility’s compliance with Federal and State requirements and corrective action as needed to ensure the safety and well-being of the vulnerable population served in these facilities. There are 15 surveyors that conduct on-site surveys in an industry that continues to increase in capacity each year while the number of FTE dedicated to surveying remains static. There are seven FTE responsible for providing technical assistance to providers, consumers and local office staff. They also apply civil penalties, sanctions and interventions to facilities that fail to provide adequate care and supervision. Industry growth exceeds OLRO’s ability to provide adequate staff resource to do risk mitigation for the residents in these care settings.
- **213 Private Child Caring Agency facilities and programs** with a capacity to serve approximately 3,000 children. Licensure is achieved through regulatory reviews every two years. This includes on-site surveying, monitoring and corrective actions. DHS is mandated to oversee a variety of facility and program types, some of which are funded through Federal and State funding streams and others which are private. This includes but isn’t limited to facilities and programs funded and utilized by DHS Child Welfare, the Oregon Youth Authority, the Oregon Health Authority and county juvenile departments. There are four FTE in Children’s Care Licensing Unit who are designated to conduct on-site reviews, provide technical assistance, investigate complaints, and corrective actions issued to address violations revealed in the course of investigations of reports of abuse and neglect of children served in licensed facilities.
- **2,182 Care Homes and Facilities** serving approximately 8,937 children and adults with intellectual/developmental disabilities – Licensure is achieved through reviews. This includes on-site licensing/certification visits, monitoring and corrective action. The Intellectual/Developmental Disabilities Licensing Unit is

responsible for the oversight of a variety of facility and program types. The regulatory activity occurs every year for Adult Foster Homes; every two years for 24-Hour Residential Programs and Child Foster Homes; and every five years for Supported Living Programs, Employment programs, Supported Living Program, Brokerages, and Provider Organizations. Adult foster homes and residential facilities for children with Intellectual/Developmental Disabilities are licensed and certified by twelve client care surveyors within this office.

- **1,754 Homes for Aging and Physically Disabled** – These are licensed through the APD Program in DHS with technical assistance, corrective action and licensure rule and policy development occurring in the Office of Licensing and Regulatory Oversight.

OLRO is closely connected to the Office of Adult Abuse Prevention and Investigation (OAAPI). OAAPI conducts investigations and provides protective services in response to reported abuse and neglect of aging adults and people with disabilities, and children receiving residential treatment services. When OAAPI conducts an investigation and finds health or safety issues – whether the OAAPI investigation into wrong-doing is substantiated or not – OLRO is brought in to determine whether the activity constitutes abuse and/or neglect and whether a licensing violation has occurred.

Program Justification and Link to 10-Year Outcome

OLRO's performance is directly related to the safety of vulnerable Oregonians who find themselves in need of care in a supervised 24-hour living environment. These Oregonians are often unable to protect themselves. They deserve to be free from abuse and neglect by service providers and free from facilities that engage in practices that are detrimental to their safety and health. Through the timely, thorough and effective oversight of care facilities, homes for children, the elderly and the disabled, OLRO provides some assurance that conditions exist within these facilities and homes that provide the highest likelihood of safety and quality care. The licensing and certification regulations that are in place are intended to educate providers of required safe practices, prevent unsafe conditions and mitigate risk to vulnerable children and adults in care through regular oversight to insure that the regulations are being upheld.

Program Performance

DHS currently measures the timeliness of facility surveys conducted by each individual licensing program within the Office. OLRO also utilizes several methods of oversight including:

- Initial Licenses
- Renewal/Site Visits
- Corrective Actions
- Civil Penalties
- Suspension/Sanction/Revocation
- Investigate Complaints

Enabling Legislation/Program Authorization

Licensure of Nursing Facilities in Oregon is codified in ORS 441.015 (et seq) “Licensing and Supervision of Facilities and Organizations” and Medicaid Certification via Social Security Act, Title XIX, Sec 1819(g) - “Survey and Certification Process,” “State and Federal Responsibility”. Medicare Certification via Social Security Act, Title XIX, Sec 1919(g).

Licensure of Assisted Living Facilities and Residential Facilities is codified in ORS 443.410 “Residential Facilities and Homes”. Memory Care Endorsement within these facilities is codified at ORS 443.886 “Alzheimer’s Disease” “Special endorsement required; standards; fees; rules.”

Licensure of Children’s Care Agency facilities is codified at ORS 418.205 through 418.327 and ORS 418.990 through 418.998. Licensure and Certification of Facilities and Homes for children and adults with developmental disabilities is mandated via ORS 443.830 and 443.835. Licensure of Adult Foster Homes for Persons with Intellectual/Developmental Disabilities is mandated via 443.705-443.710. and 430.610-430.670. Licensure of 24-hour Residential Services for Children and Adults with Intellectual/Developmental Disabilities is codified at ORS 443.400-443.455.

Licensure of Employment for Individuals with Intellectual/Developmental Disabilities is codified at ORS 430.610, 430.630-430.670.

Licensure of Supported Living Services for Individuals with Intellectual/Developmental Disabilities is codified at ORS 430.610, 430.630 and 430.670. Licensure of Support Services for Adults with Intellectual/Developmental Disabilities is mandated via ORS 417.340-417.355, 427.005, 427.007 and 430.610-430.695.

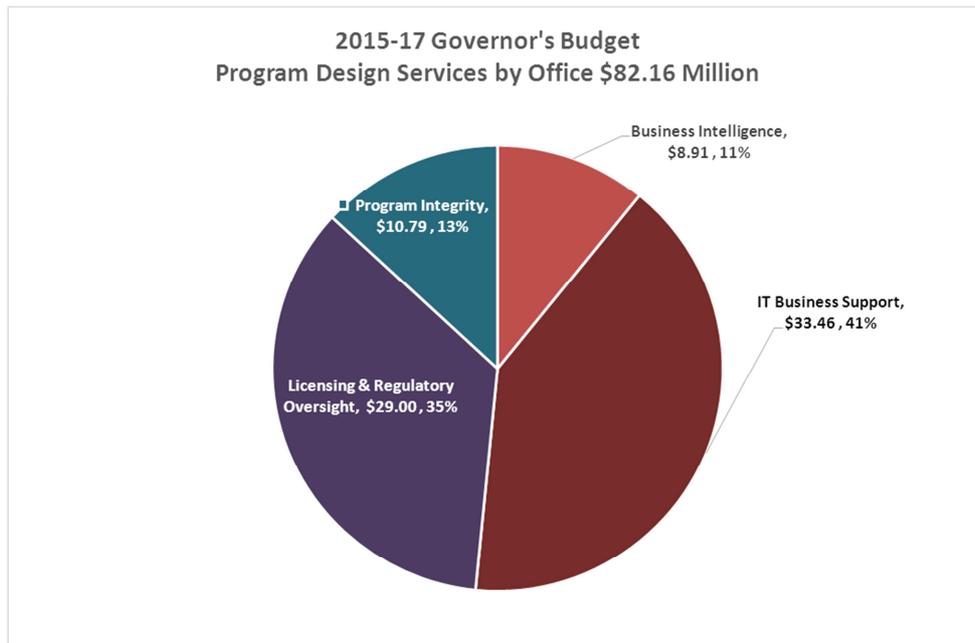

Licensure of Intellectual/Developmental Disabilities Agency Service Rule is codified at ORS443.400-443.455.

Funding Streams

This program and its accompanying positions are funded with a mix of State General Funds and Federal Funding from the following Federal Grants: Title XIX Medicaid at the Program Rate, Title XIX Medicaid at the Administrative Rate, and Title IV-E.

Department of Human Services: Program Design Services

Primary Outcome Area: Improving Government
Secondary Outcome Area: N/A
Program Contact: Eric Luther Moore, 503-884-4701

Executive Summary

DHS Program Design Services support program design offices by centralizing services that require specialized skills. This allows each office to set uniformly high standards for each of these services and to develop its staff to those standards. It facilitates cross-training of staff in multiple programs, flexibility in supporting program offices when needs change or staff turnover occurs, and research into the combined impact of our services on clients served by more than one program.

Investment in centralized infrastructure

Based on the process maps developed in the performance management system, DHS restructured into five programs. DHS Program Design Services include the Office of Business Intelligence, the Office of Information Technology (IT) Business Support, the Office of Licensing and Regulatory Oversight, the Office of Program Integrity, and the Office of Continuous Improvement.

The five programs were given the essential functions to design and implement their programs within the performance management system. DHS then centralized many

support services that previously had been performed separately by each program. This creates efficiencies, assigns clear accountability for the performance of support services, and allows targeted investments to improve performance. Better support services ultimately improve performance of all DHS employees and our providers.

Non-MAGI Eligibility

Implement a planning effort to prepare for the implementation of an eligibility system for its non-MAGI (Modified Adjusted Gross Income) Medicaid programs. The recent decision by the Center for Medicaid and Medicare Services (CMS) to extend 90/10 funding for Medicaid eligibility systems provides substantial resources to help DHS proceed with the planning work. A recent CMS site visit provided Oregon with an understanding of CMS’ expectation that it proceed with automation of the eligibility and case management for the non-MAGI Medicaid population as soon as possible after successful completion of the MAGI Medicaid Transition Project.

Child Welfare Quality Control(QC) Review Staff

The position requested in this POP will increase the QC review capacity in the statewide Child Welfare Quality Assurance system to include stakeholder interviews, which are federally required as part of each state’s Continuous Quality Improvement in Child Welfare program. This requirement can be found in the

federal Adoption and Safe Families Act of 1997 and the Administration for Children and Families Information Memorandum CB-IM 12-07 dated August 27, 2012. There are currently 3 FTE in the Child Welfare review team. This additional position will enable the state to complete federally mandated Children and Family Services Review (CFSR) as required and mitigate the risk for federal penalties and imposed program improvement plans.

Oregon Enterprise Data Analytics

State agencies increasingly need to analyze data across all agencies serving the same clients/customers to improve their ability to design effective programs, achieve outcomes, minimize risks and find efficiencies. This helps to bring the right resources and services to the right families at the right time by identifying risk levels and strategically targeting services to produce outcomes. Some agencies have already built combined data sets for analysis purposes. This POP extends this work to more agencies and builds the resources to make use of this data. All positions are in shared services Office of Forecasting Research and Analysis (OFRA) as they would answer to multiple agencies.

Program Description

Office of Business Intelligence (OBI)

OBI compiles reports and conducts research to determine whether DHS programs are achieving their goals and desired outcomes. OBI specializes in managing data to ensure it is accurate, consistent, and useful to programs in assessing their success and making decisions to alter their program design. One important part of this role is managing the agency scorecard of outcome and process measures. OBI also conducts professional research requested by programs to give them a more rigorous foundation for their program design.

Information Technology Business Supports (ITBS)

ITBS is a bridge between IT technical staff and program staff. Its mission is to assist IT technical staff in understanding program needs so they can construct applications that better support the program; to improve program business processes; to maximize the benefits of technology; and to integrate system implications into consideration of program policy changes. This mission requires staff who understand IT systems and language as well as program business processes. ITBS also directly supports users of DHS systems (many of whom are county and other non-DHS staff) with issues particular to DHS' programs. One of the most important breakthroughs is modernization of DHS's service delivery. This involves redesigning how DHS interacts with its clients and customers – defining where face-

to-face contact better serves client needs and advances the agency mission and where on-line and automated processes can more efficiently meet the need or better support DHS staff in their direct service to clients.

ITBS' major project is DHS Modernization – an agency breakthrough strategy to improve program processes and IT systems to give the agency the ability to: (1) engage with clients in the way that maximizes our ability to help them achieve safety, health and self-sufficiency; (2) support caseworkers with information and tools that allow them determine how to best assist the client and that minimizes their need to perform administrative tasks; and (3) improve the efficiency of DHS operations.

Office of Licensing and Regulatory Oversight (OLRO)

OLRO licenses many providers of residential care to children, the aging and physically disabled, and people with intellectual and developmental disabilities. These providers range across the continuum of care and serve clients of multiple DHS programs and other agencies as well as private persons. Through diligent oversight, investigation of complaints and reports of potential abuse, and corrective action, OLRO reduces future instances of unsafe conditions and improves the quality of care. These services are most effective when they are provided in a quality and prevention model aimed at preventing harm in the first place to protect the safety and health of vulnerable Oregonians. The providers licensed by OLRO include adult foster homes, assisted living facilities, residential care facilities, nursing homes, supported living and employment programs for people with developmental disabilities, and private child care agencies.

Office of Program Integrity (OPI)

OPI conducts analysis and tests to determine whether DHS is implementing programs in the way they were designed and trains caseworkers based on their findings to improve program integrity. The Quality Control Unit conducts operational and case reviews, many mandated by state and federal law, to determine how accurately each program is making eligibility and other determinations. The Quality Assurance Unit and CMS Waiver Group conducts field reviews to assess program quality.

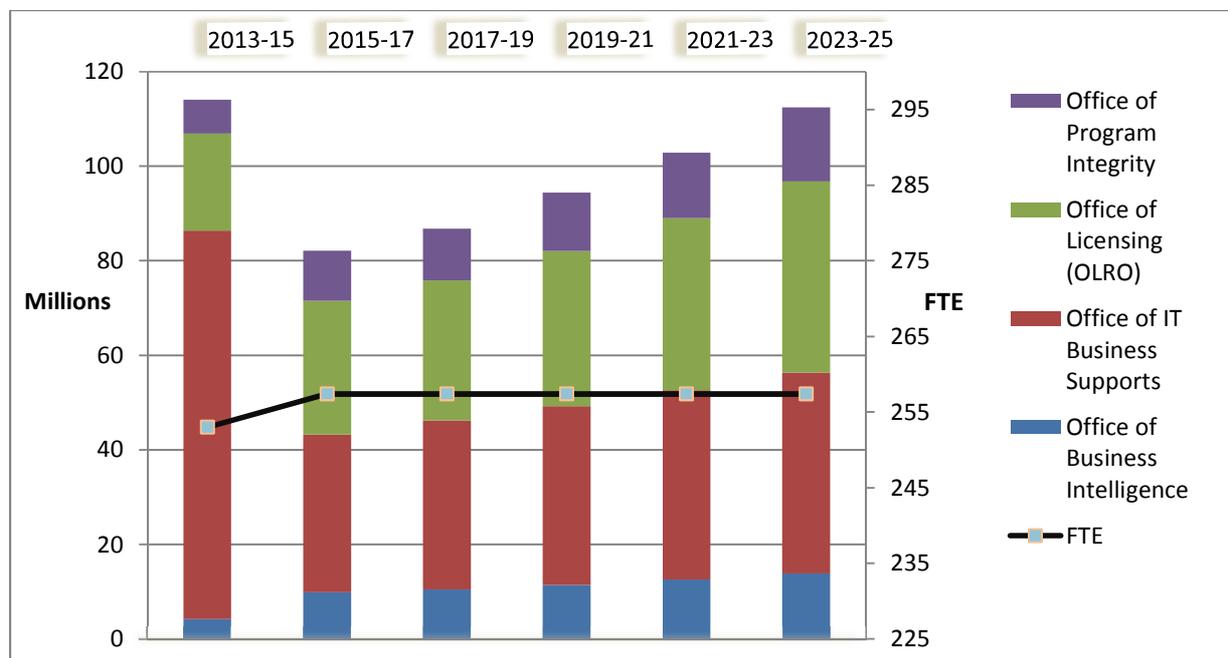

Office of Continuous Improvement (OCI)

OCI helps DHS units implement the Lean Daily Management System and conduct business process improvement events. OCI employs project managers and people

skilled in Lean tools that assist units in making high-priority process improvements and building their own Lean capacity.

Best practices in installing performance management require specific skills - especially in project management, LEAN tools, data analysis, and professional development of managers. DHS has reallocated resources and used savings to make some of these investments, but it must increase these skills much more needs to be done.

Program Justification and Link to 10-Year Outcome

To become outcome-driven, an agency must:

- Determine the outcomes it wants to achieve
- Measure the outcomes
- Design programs to achieve the outcomes
- Implement the design through business and IT processes
- Systematically review whether the processes are being implemented as designed and how well the outcomes are being achieved.

Program Design Services employ professionals who specialize in these tasks who help DHS and its programs perform these tasks. OBI specializes in program data used to measure outcomes, including maintaining the agency scorecard, and conducts professional research on the impact of various program designs on

achievement of outcomes. OPI determines whether operating units are implementing the program design accurately and conducts training to close any gaps. Using Lean tools, OCI works with operating units to design and implement more efficient and effective operating processes. ITBS acts as a translator between program staff and IT technical staff to ensure that IT projects more accurately meet business needs. OLRO uses many of these tools to license residential providers who serve clients of DHS and other agency programs as well as private clients.

Program Performance

Program Design Services are concentrating on improving operations of foundational services and covering gaps in services that existed when the services were split. OBI set targets to put all program data into data warehouses, to organize all warehouse data in a format giving program users more access to get data on their own, to automate reports, and to respond more quickly to individual requests. As of December 2013, depending on the program, 25 to 84% of data was contained in a data warehouse, 0 to 60% of data was in a format facilitating user access, and 55% of reports were automated. These metrics are generally improving.

OPI and the agency adopted agency-wide metrics to improve accuracy or quality in 12 different program areas. OPI set targets to complete all accuracy and client service reviews on time, to conduct useful and accurate reviews, and to conduct an aggressive number of trainings per year to correct findings from the accuracy reviews. In general, these metrics have been improving to achieving or nearly achieving the targets, although there was some slippage in the last quarter of 2013.

OCI has worked largely with program field staff to help local offices improve business processes through approved Lean projects. It currently has 13 projects in execution and 12 in planning or initiation phases. OCI's latest metrics show that 88% of projects achieve the expected outcomes outlined in the charter, which is in the "yellow" range. The rollout of the Lean Daily Management System has been completed in most programs and is currently being completed in the last areas. OCI has developed a tool to assess the performance of the Lean Daily Management System to assist districts in Phase 2 of the rollout - increasing maturity in using LDMS. District 6 successfully piloted use of the tool. Extension to other areas will be based on priorities and the availability of resources.

OLRO set targets to complete all licensing reviews within federal timelines. Nursing facility reviews, in particular, have been problematic due to the difficulty

of recruiting staff, the extensive training and certification required, and the increasing depth of the reviews. OLRO isolated the various factors influencing the ability to complete the reviews, found some techniques to streamline the process and developed a plan to get in compliance.

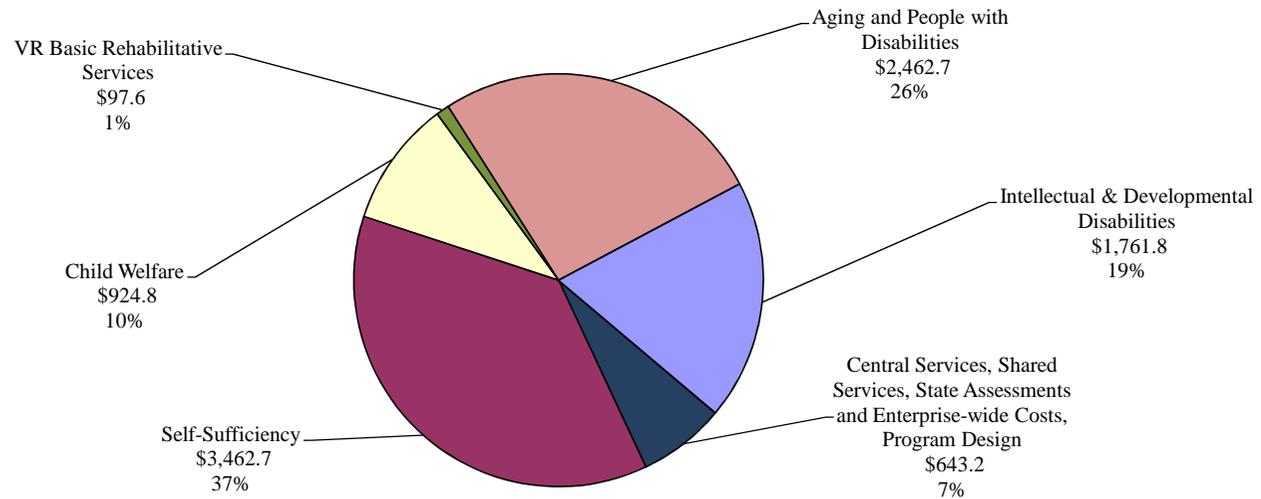

Enabling Legislation/Program Authorization

ORS 409.010

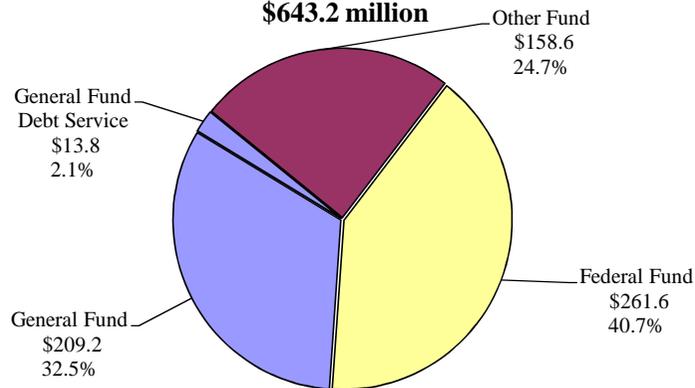

Funding Streams

- Allocated Costs – Costs benefiting more than one Federal or State program are charged to a cost allocation pool. The allocating grant numbers accumulate costs until the monthly cost allocation process is run.
- Direct Charge – Costs benefiting a single Federal or State program are charged directly to the grant number representing the program. There is no additional allocation for these costs.
- Monthly Process – The process runs each month based on actual accumulated costs. On a monthly basis, statistics are generated to complete the allocation process. The cost allocation pools are cleared each month by the operation of the cost allocation process to transfer the costs to the final grant and cost objective.
- Federal Financial Participation (FFP) Calculation – After costs are allocated to final cost objectives, DHS calculates and records the level of Federal financial participation for the specific grant.

Department of Human Services Self Sufficiency Program

Mission

The Department of Human Services Self Sufficiency program (SSP) provides assistance for low-income families to promote family stability and help them become self-supporting.

The major program areas within Self Sufficiency are:

- Supplemental Nutritional Assistance Program (SNAP)
- Temporary Assistance for Needy Families (TANF) and TANF-related programs such as Pre-TANF, Family Support and Connections (FS&C), and Post TANF
- Employment Related Day Care (ERDC)
- Job Opportunity and Basic Skills (JOBS)
- Temporary Assistance for Domestic Violence Survivors (TA-DVS)
- Refugee Program
- Youth Services Program
- Program Delivery and Design

Self Sufficiency employees provide direct services through a network of local offices in every county across Oregon. For a list, see <http://oregon.gov/dhs/Pages/localoffices/index.aspx>

The program

Oregonians access self-sufficiency services when they are in need and have no other alternatives. We served over one million Oregonians last year through our Self-Sufficiency programs. The recessionary conditions have presented an unusually challenging economic climate for all Oregonians. The poverty rate in Oregon has exceeded the national rate since 2010. There is an uneven distribution of poverty based on factors such as geography, race/ethnicity, and age. In Oregon, poverty rates in rural counties tend to be disproportionately higher than urban areas. Nearly 30% of African Americans, Latinos, and American Indians live in poverty (most of whom are children); and one in four children live in poverty. Most Oregonians need help meeting needs such as nutritious food – about 800,000; basic supplies, through cash assistance for families with children living in extreme poverty, such as toothpaste, bedding, other basic hygiene needs and housing; or assistance with quality child care so parents can remain employed and maintains a

path of financial stability. Self-sufficiency programs also help low-income families impacted by domestic violence or refugees seeking a safe area to live. Some programs require involvement in employment services or job training to help individuals move as quickly as possible to supporting themselves and their families. Self-Sufficiency programs are essential in serving the many unique needs of Oregonians.

Seeking Self-Sufficiency

These programs are designed to help break the cycle of poverty, help Oregonians transition to jobs, support the healthy development of young children and help keep families stable, preventing children from being abused or neglected and from requiring out-of-home placement in more expensive foster care. The economic recession triggered a rapid increase in demand from Oregonians. For example, the number of Oregon families in extreme poverty seeking cash assistance nearly doubled compared to the number at the start of the recession.

We seek to achieve the following outcomes and goals:

- Provide an array of options to assure access through equitable and culturally competent services.
- Be responsive to emerging consumer demands for individualized, self-directed services and sufficient service choices.
- Ensure the health and safety of individuals served.
- Promote maximum consumer independence and engagement in homes and communities.
- Leverage use of available federal funding options.
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies.

Services

Supplemental Nutrition Assistance Program (SNAP)

SNAP is a federally funded benefit program to help low-income families, single adults, and childless couples buy food to meet their nutritional needs. Benefits to clients are 100 percent federally funded; however, the administration of the program requires a 50 percent state match. Approximately one in five Oregonians or 21 percent of the population receive SNAP benefits.

Self-Sufficiency offices across the state serve approximately 83 percent of the SNAP population. The balance of the population includes elderly persons (60 and older) plus persons with disabilities who require services. They are assisted by Aging and Persons with Disabilities (APD) local offices and their contracted agencies (Area Agencies on Aging, Disability Services Offices and Councils of Government).

Money from the program spreads quickly through the State economy. The United States Department of Agriculture (USDA) calculates that for every \$5 of SNAP benefits, there is \$9.20 of total economic activity. SNAP is an important and constantly growing anti-poverty program. Recent research has shown that SNAP benefits reduce the depth and severity of poverty, and have a particularly strong effect on reducing child poverty.

Food and Nutrition Service (FNS) within the USDA regulates SNAP. Although Federal regulations do allow a few state options, any significant variation from the regulations must be approved by FNS through a formal process.

Temporary Assistance for Needy Families (TANF)

TANF is a critical safety net program for families with children living in extreme poverty. TANF helps families, including over 61,000 children, from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services. Safety net programs are usually the last step for families with few or no resources left, and any assistance can have an immediate impact on their health, safety and well-being. These families typically use TANF funds to prevent homelessness and to help with other factors contributing to family instability. The goal of the program is to help families address barriers, gain skills, and access employment opportunities to become self-sufficient.

TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children.

Job Opportunity and Basic Skills (JOBS) Program

Most parents and caretaker relatives must meet additional requirements to receive TANF services. The JOBS program provides employment and skill building services to parents receiving TANF assistance. Individuals must participate in JOBS to gain skills necessary to join the workforce and retain a job or face

possible sanctions, including losing benefits. A TANF family may participate in the JOBS program and access a variety of other programs and services as part of the plan to move a client towards self- sufficiency.

State Family Pre-SSI/SSDI (SFPSS) Program

SFPSS is designed to assist TANF-eligible individuals with disabilities obtain Social Security disability benefits through the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. The program serves individuals who are not required to participate in the JOBS program due to their health condition.

Post-TANF

Post-TANF provides an incentive to employment. This program continues to be suspended for the 2013-15 biennium because of budgetary constraints. Post-TANF provided a small transitional payment of \$50 a month (Reduced from \$150 a month) for up to a year for those who leave TANF due to employment. The goal of this incentive was to help families transition to financial independence to reduce their chances of returning to the program.

Family Support and Connections

Family Support and Connections provides supports to prevent children in the TANF program from entering the child welfare system. Home visiting and community based services are used to guide interventions that build on family strengths and address family functioning issues.

Temporary Assistance to Domestic Violence Survivors (TA-DVS)

TA-DVS provides temporary financial assistance and support services to families with children affected by domestic violence during crisis or emergent situations when other resources are not available. TA-DVS is used to help the domestic violence survivor and the children address their safety concerns and stabilize their living situation, thus reducing the likelihood of the survivor returning to the abuser. These services maintain the safety of these vulnerable children and their parents, and can prevent sometimes life-threatening situations. These services also help prevent child abuse and the need for child welfare intervention.

Refugee Program

The Refugee Program serves individuals and families who fled persecution in their country of origin and were legally admitted for resettlement by the United States government. The program helps refugees and asylum residents successfully resettle

in this country by providing financial, employment-related services and acculturation services. The program guides refugees into self sufficiency through employment as early as possible. The program serves only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR).

Youth Services Program

The Youth Services Program includes age-appropriate, medically accurate sexual health education program. This service supports community prevention efforts to help families break the generational connection to public assistance. The Youth Services Program expands on the historical teen pregnancy prevention program to provide education and tools for youth to resist multiple risk taking behaviors. DHS partners with the Oregon Department of Education and the My Future - My Choice Advisory Committee to develop and implement this sexual health education program. During the 2010-2011 school year, this curriculum was implemented in 17 counties and 26 school districts.

Employment Related Day Care program (ERDC)

ERDC helps low-income working families from a variety of cultural and linguistic backgrounds arrange and pay for quality child care. ERDC provides low-income families with the same opportunity to quality child care as other families with higher incomes. Quality child care nurtures a child's learning and development so the child is better prepared to succeed in school. ERDC helps parents stay employed and gain self-sufficiency by assisting with the consistent, stable child care parents need to remain on the job. ERDC also supports care for children with special needs, as well as offering resources to encourage providers who come from diverse cultural backgrounds. Providers are required to meet a set of health and safety standards and pass required background checks before they can be paid by the State. In addition, license exempt and registered family providers are required to take a two hour pre-service online health and safety training, unless they meet an exemption.

Program Delivery and Design

The Program Delivery and Design areas provide program design, personnel and service delivery in addition to oversight, planning, reporting, implementation, training, eligibility and benefit issuance for programs that support a diverse, low-income population in need of economic supports and self-sufficiency services to meet their basic needs.

When adequately resourced, staff delivering these programs help break the cycle of poverty and help Oregonians transition to jobs. This keeps families safe and stable, supporting the healthy development of young children. With the recent economic recession that triggered a dramatic increase in demand from Oregonians in need, these programs have been significantly challenged to achieve results managing caseloads. Staff and the State and local levels continues to collaborate and build upon existing partnerships in order to help families find the resources and services they need.

Staff at the state and local levels coordinate with Child Welfare to work with families to increase their stability and prevent Child Welfare involvement. This collaboration helps to support safety by ensuring children are cared for regardless of the system of service.

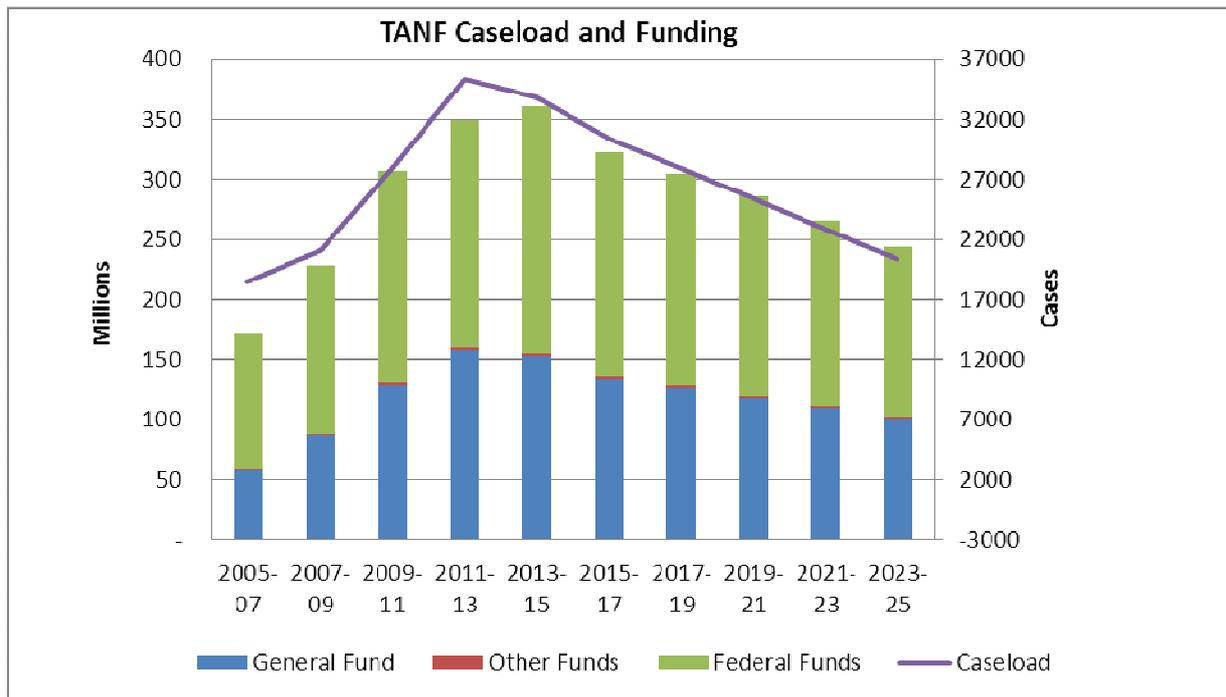

The Self-Sufficiency employment programs are included in the work that was chartered by the Oregon Workforce Investment Board to align and improve the state's workforce system. This effort, supported by the Governor, is to ensure that service delivery and outcomes are improved for both employer and job seeker. Other collaborations have been built around domestic violence; housing; alcohol, drug and mental health treatment; Vocational Rehabilitation; health care, and education.

With the support of the Oregon Legislature this biennium, the Self-Sufficiency programs are also testing local strategies for effectiveness in meeting outcomes for families in the areas of family stability and employment. This work builds on collaborations with Child Welfare, local workforce entities and community partners.

As the economy and employment outlook slowly improve, the Self-Sufficiency employment programs continue to structure contracted services to help participants enter jobs in the employment sectors that are expected to grow.

Department of Human Services: Temporary Assistance for Needy Families – Cash Assistance

Primary Outcome Area: Economy and Jobs
 Secondary Outcome Area: Safety
 Program Contact: Tammy Brooks, 503-945-7016

Executive Summary

Temporary Assistance for Needy Families (TANF) is a critical safety net program for families with children living in extreme poverty. TANF helps families, including over 52,000 children, from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services.

Safety net programs are usually the last step for families with few or no resources left, and any assistance can have an immediate impact on their health, safety and well-being. These families typically use TANF funds to prevent homelessness and

to help with other factors contributing to family instability. The goal of the program is to help families address barriers, and gain skills and access to employment opportunities to become self-sufficient.

Significant Proposed Program Changes from 2013-15

This budget proposes to continue the five policy reductions set to expire at the end of the 2013-15 Biennium. The 15-17 Governor’s Budget redirects a portion of the forecasted TANF caseload savings into a re-design effort. By investing in the JOBS program and in case management staff (in the Healthy People Budget) the length of stay of clients will be reduced, leading to lower TANF caseloads and higher work participation. This is necessary both to reduce costs but also to avoid federal penalties of up to \$60 million.

Program Description

TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children. Our overall TANF program provides immediate cash assistance at a point when families have exhausted all other resources. We also provide employment and training services, linkages to services in the community and short-term interventions such as support to strengthen parenting skills or the healthy development of children.

Most parents and caretaker relatives must meet additional requirements to receive TANF services, such as participating in the Job Opportunity and Basic Skills (JOBS) program. These individuals must participate in JOBS to gain the skills necessary to join the workforce and retain a job or face possible sanctions, including losing benefits. A TANF family may participate in the JOBS program and access a variety of other programs and services as part of the plan to move towards self- sufficiency.

To qualify for TANF, a family of three must be below 37 percent of the Federal Poverty Limit. This means the family's income cannot be more than \$616 per month. Currently the maximum monthly benefit for a family of three is \$506 (approximately 31 percent of FPL). There is a 60-month time limit for adults to receive TANF.

The TANF program serves a population with a wide range of abilities and challenges. Ninety-five percent of TANF recipients have no current earnings and about 50 percent of TANF households have a person with a disability. Eighty-five percent of families are paying for housing without any assistance from a Federal housing program or other subsidy.

Young children make up a large number of those served within TANF. Half of all children in TANF are 0-6 years old. In about 22 percent of TANF households, the adults receive assistance for the children but not for themselves. In these households, many have an adult who is disabled and receiving Social Security benefits or a caretaker relative, such as an aunt, uncle or grandparent, is caring for the children. Many of these families have unique needs in both providing basic support for children and in navigating resources that can help them provide a stable, safe home environment.

The State Family Pre-SSI/SSDI (SFPSS) Program is designed to assist TANF-eligible individuals with disabilities obtain Social Security disability benefits through the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. The program serves individuals who are not required to participate in the JOBS program. The program provides families with a cash grant, professional assistance with Social Security Administration (SSA) applications, and appeals and case management services. Once a client is awarded SSI benefits, the department recovers a portion of the payments it made to the family during the application process from the client's initial SSI lump-sum payment.

When funded, Post-TANF is a program that provides an incentive to employment. This program has been suspended due to budgetary constraints. Post-TANF provided a small transitional payment, originally \$150 a month for up to a year, for those who leave TANF due to employment. The goal of this incentive was to help families transition to financial independence to reduce their chances of returning to the program.

Other programs such as Employment Related Day Care, the Supplemental Nutrition Assistance Program (SNAP), Family Support and Connections, Temporary Assistance for Domestic Violence Survivors, and medical assistance all play a critical role in helping those on cash assistance transition to employment and financial independence.

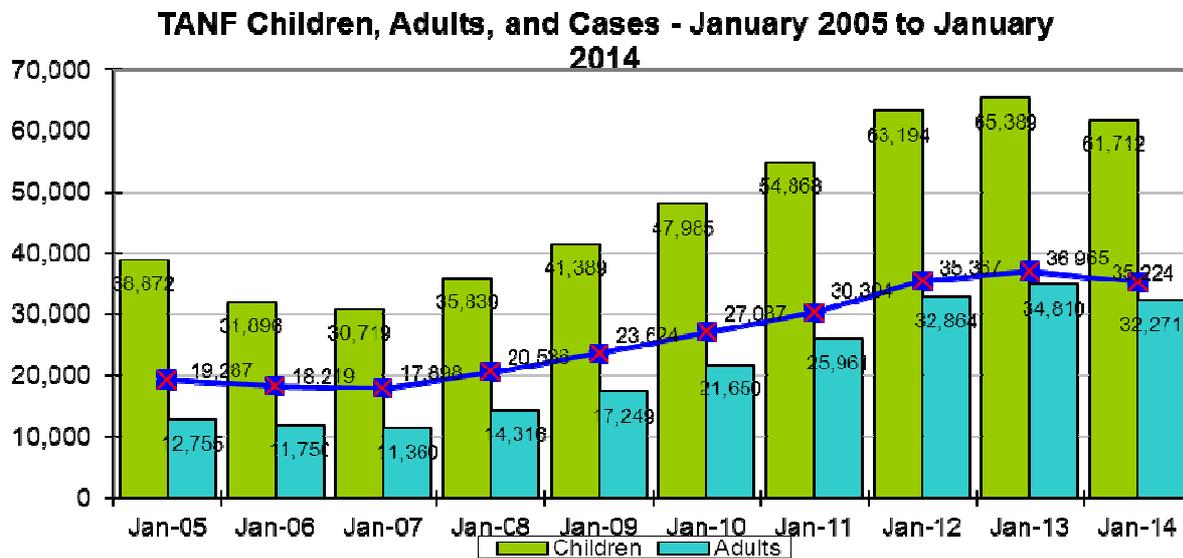

The major cost driver for the TANF cash assistance programs is the economy. As the state of the economy worsened, families (including parents with disabilities who may have been able to work previously with accommodations) found it more difficult to obtain employment. The resulting financial strain leads them to seek our services. Families remained on TANF longer due to the length of the recession and the difficulties in obtaining employment. As the economy improves, the number of families who transition out of TANF and into employment also increases. Families are ready to gain skills and access employment opportunities.

Program Justification and Link to 10-Year Outcome

There is a direct link between the TANF cash assistance programs and the Making Work Pay Outcome area. TANF strives to reduce unemployment - including unemployment of underrepresented individuals - and create job-ready communities. The TANF program is represented in the Oregon Workforce Investment Board which is aligning strategies across Oregon's workforce programs.

The TANF and Pre-SSI/SSDI programs also contribute to family stability and safety. TANF cash assistance provides for the basic financial needs of very low-income families with children. Ninety-five percent of families with an adult recipient receiving TANF in Oregon have zero income. Some of these families are homeless, which makes finding and maintaining employment extremely difficult. Being in a constant state of crisis can also negatively impact children, including their ability to attend school and make progress in their learning. Without this cash assistance, most of these families would not have the financial means to survive. Extreme poverty is one of the leading family stressors that can put children at risk of abuse.

Program Performance

In November 2014, the TANF and Pre-SSI/SSDI programs served 30,521 families. These households include 53,024 children and 26,487 adults from a diverse range of abilities, cultures and communities.

TANF cash assistance expenditures increased since the onset of the economic recession but are slowly decreasing as the caseload drops. The program was strained during the recession and the immediate aftermath due to a high caseload and insufficient resources, including case management staff. With the support of the Governor and the Oregon Legislature, the Department repurposed a portion of Human Service Specialist 3 positions into case management positions. By July 2014, the level of case management staffing shifted from 35 percent of need to 59 percent of need. Case manager staffing is projected to be at 73.8 percent of need by the end of the 2015-17 biennium based on the Fall 2014 Forecast. The case management resources are critical for improving outcomes for engaging clients self-sufficiency plans, improving family stability, improving federal participation rates, and increasing employment placements.

Enabling Legislation/Program Authorization

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005. A significant portion of the TANF eligibility criteria is codified in State statute chapters 411 and 412.

Funding Streams

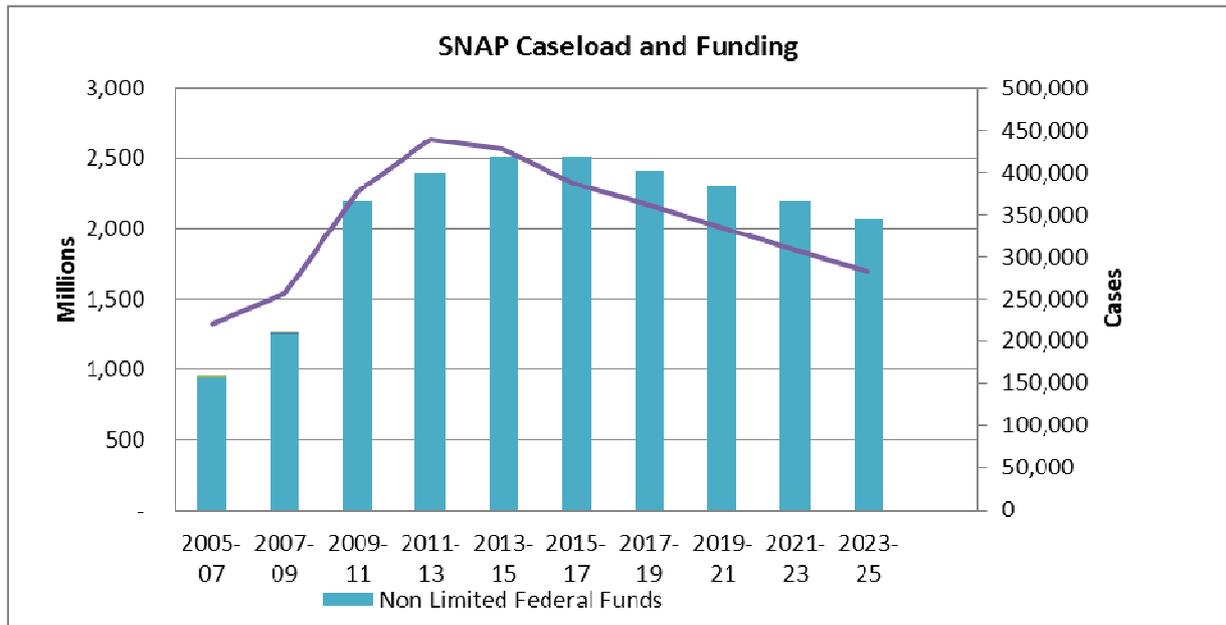

TANF is funded primarily through General Fund dollars and the TANF Federal block grant that requires a minimum state expenditure level, known as Maintenance of Effort (MOE). Oregon's TANF block grant is \$166.8 million per year. Oregon's MOE requirement is equal to 80 percent of the state's historic expenditures or approximately \$98 million per year. Expenditures counted towards MOE must not be from a federal source and must not be matched to other federal funds. Oregon generally meets MOE through a combination of eligible DHS and other agency expenditures.

Both the TANF federal block grant and MOE expenditures must be spent in a manner reasonably calculated to meet one of the four federally-mandated TANF purposes which are: 1) provide assistance to needy families; 2) end dependence of needy parents by promoting job preparation, work and marriage; 3) prevent and reduce out-of-wedlock pregnancies, and 4) encourage and maintain family formations.

The State Family Pre-SSI/SSDI program is a General Fund program. The Department recovers a portion of funds expended through client reimbursements.

Department of Human Services: Supplemental Nutrition Assistance Program (SNAP)

Primary Outcome Area: Healthy People
 Secondary Outcome Area: Economy and Jobs
 Program Contact: Belit Burke, 503-947-5389

Executive Summary

The Supplemental Nutrition Assistance Program (SNAP) is a federally funded food benefit program. SNAP provides supplemental food benefit dollars to low-income families, seniors, single adults, persons with disabilities, and children to help purchase food to meet their nutritional needs. Currently, one in five Oregonians receive these benefits. Benefits to clients are 100 percent federally funded; the administration of the program requires a 50 percent state match.

Money from the program spreads quickly through the state economy. The United States Department of Agriculture (USDA) calculates that for every \$5 of SNAP benefits, there is \$9 of total economic activity. SNAP also has been an important and constantly growing anti-poverty program. Recent research has shown that SNAP benefits reduce the depth and severity of poverty, and have a particularly strong effect on reducing the depth and severity of child poverty.

Significant Proposed Program Changes from 2013-15

This program is federally funded, and no General Fund dollars are being requested.

Program Description

SNAP serves as a crucial safety net and food benefits are intended to be a supplement to what families already provide. However, for households with little or no income, it is the primary means for Oregonians to feed their families. Food and Nutrition Service (FNS) within the USDA regulates SNAP. Although Federal regulations do allow a few state options, any significant variation from the regulations must be approved by FNS through a formal process.

For the last three years, even during times of high caseload growth, Oregon has been ranked as one of the top three states nationally for program participation. The participation rate is the percentage of potentially SNAP-eligible persons in the state receiving SNAP benefits. Outreach efforts along with policy and procedural changes have helped significantly increase participation in SNAP in recent years. Non-profit partners such as the Hunger Relief Task Force, the Oregon Food Bank and 211 Info have been invaluable in helping increase Oregon's SNAP participation rates.

The major drivers for program growth have been a successful program outreach coupled with the economic downturn. This has resulted in a high demand for our services. Simplifying policies and making it easier for clients to apply and meet eligibility requirements has allowed for timely benefit delivery. Approximately one in five Oregonians or 21 percent of the population receive SNAP benefits. In May of 2014, a total of 792,075 Oregonians received SNAP benefits, which includes 441,272 cases (households). This is a 1.8 percent decrease from the same time last year. In May of 2014, a total of \$97,316,895 SNAP benefit dollars were paid to Oregonians which are spent in clients' local communities. According to the

USDA's Economic Research Service, 8,900 to 17,900 full-time jobs are created per \$1 billion in SNAP benefits.

Program Justification and Link to 10-Year Outcome

SNAP directly addresses the 10-Year Outcome for Healthy People by providing an important economic boost to struggling households and access to nutritious foods. According to the USDA Economic Research Service, receipt of SNAP benefits reduced the national poverty rate by almost eight percent during the recent recession. The SNAP program can also provide limited assistance with job search and links to employment resources through the Oregon Food Stamp Employment and Training (OFSET) program.

Program Performance

The goals of the SNAP program are to ensure that benefits are delivered accurately and in a timely manner to those who are eligible for the program. It also aims to ensure those who are eligible for the program have access to program benefits. Oregon's program has enabled the state to maintain a high participation rate along with a high Federal Quality Control (QC) rate. Oregon's SNAP program has continually performed above the national average and not paid a performance penalty in eight years.

Oregon has received multiple Federal bonuses because of the state's high SNAP participation rate and has also been the recipient of multiple competitive national grants. Oregon was one of six states recognized for the timeliness of SNAP application processing and received two awards with performance bonuses totaling \$5 million. Oregon has consistently been among the best in the nation. The bonus award funding has been used over the years to support partner agencies, help meet the program's goals and, frequently, to shore up needs in other programs through the State General Fund.

Oregon is considered a model state by FNS in terms of timeliness and commitment to customer service. One example of this is Oregon's Lean process, which has streamlined and standardized the eligibility process statewide to ensure that most applicants receive benefits within 48 hours of applying. The process continues to receive federal and national recognition resulting in visits from federal partners and other states to observe best practices.

The 2010 census data showed that 15.8 percent of Oregonians lived in poverty, which was slightly higher than the national average of 15.3 percent. SNAP participation in Oregon peaked in August 2012 at 445,374 cases serving 813,556 people. Through our forecasting we expect SNAP begin a slow decline in program participation through the 2015-2017 biennium. It is estimated that by June 2017 the number of households receiving SNAP will reduce to 414,334 serving 745,098 people. From 2007 when Oregon issued \$487,482,626 in benefits, to 2013 when that amount had more than doubled to \$1,236,125,996, SNAP has been an important and constantly growing anti-poverty program. Money from the program spreads quickly through the economy. The USDA calculates that for every \$5 of SNAP benefits, there is \$9 of total economic activity.

Calendar Year	SNAP Benefits Issued in Oregon
2007	\$487,482,626
2008	\$579,344,356
2009	\$910,919,825
2010	\$1,098,444,539
2011	\$1,211,274,990
2012	\$1,262,115,384
2013	\$1,236,125,966
2014	\$1,165,393,102

Although the American Recovery Reinvestment Act of 2009 (ARRA) stimulus package increased SNAP benefits by 14 percent nationwide, this funding stimulus sunset on September 30, 2013. The stimulus ensured a minimum benefit increase of \$16 a month for one- or -two person groups. The result of this funding sunset meant a recalibration of the Thrifty Food Plan Benefit level (an effort to recalculate benefits across the board) which reset SNAP benefit levels and resulted in a net reduction in benefits and the minimum benefit level for households.

Enabling Legislation/Program Authorization

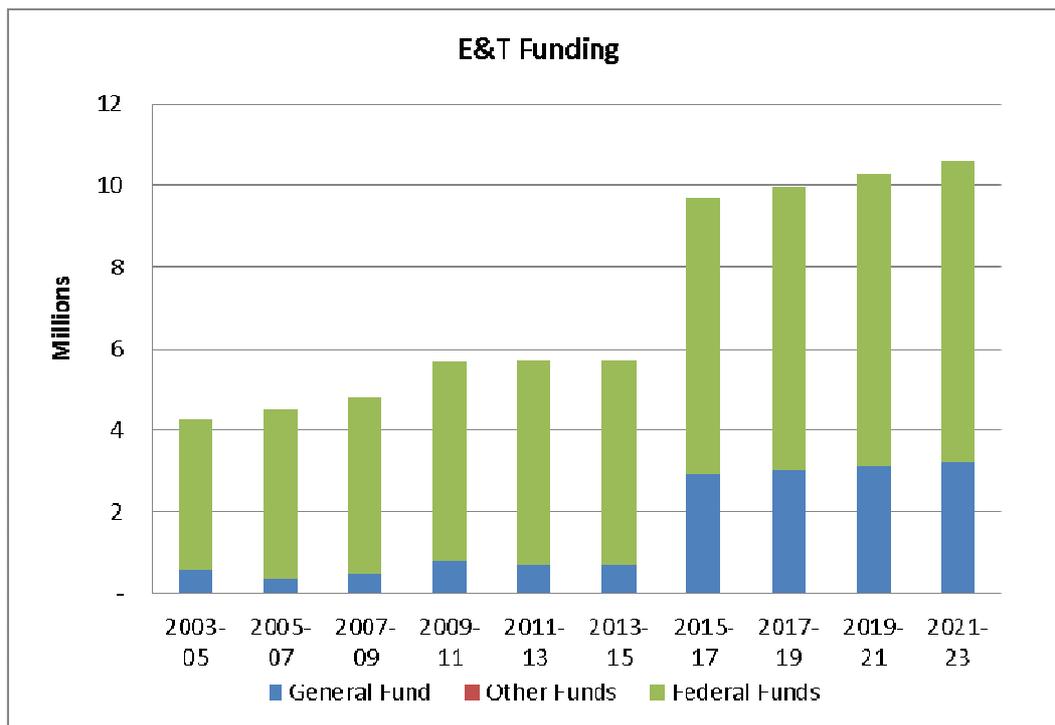

SNAP is guided by Federal legislation found in the "Farm Bill" authorized by The Agricultural Act of 2014 (P.L. 113-79, Feb 7, 2014). Program policy is reauthorized every five years though the Farm Bill. The Farm Bill is due for reauthorization in 2018.

Funding Streams

SNAP benefits are 100 percent federally funded. Oregon is responsible for 50 percent of the administrative costs. Oregon's portion of the administrative costs for SNAP comes from the State General Fund. In Federal Fiscal Year (FFY) 2014, the SNAP program received a bonus award totaling \$3,256,420. This award was based on Oregon's participation rates and application timeliness.

Department of Human Services: Supplemental Nutrition Assistance Program – Employment and Training

Primary Outcome Area: Economy and Jobs
 Secondary Outcome Area: N/A
 Program Contact: Belit Burke, 503-947-5389

Executive Summary

The Supplemental Nutrition Assistance Program (SNAP) has an Employment and Training (E&T) component. In Oregon, there are currently three different types of SNAP Employment and Training programs:

- The **Oregon Food Stamp Employment and Training (OFSET) Program** provides employment-related services to federally defined mandatory adult SNAP participants. The services for this program are 100 percent federally funded. There is a support services component required by the state to be provided to participants participating in mandatory services. Support services can only be funded through a 50/50 match, per the United States

Department of Agriculture’s (USDA) Food and Nutrition Services (FNS). Participants come from a variety of linguistic and cultural backgrounds from across the State. This program assists participants to gain valuable skills, training or experience that will improve employment prospects leading to self-sufficiency and a reduced reliance on SNAP benefits. The program is mandated by the federal government and adheres to strict requirements.

- The **50/50 Employment and Training Program** provides employment-related services to SNAP participants who are exempt from mandatory E&T participation but (voluntarily) choose to pursue training and employment resources. There are currently 5 sites in Oregon who draw down federal funds with their own non-federal match to provide services in their organizations to the populations they serve.
- The **2014 Supplemental Nutrition Assistance Program (SNAP) Process and Technology Improvements Grant**. Oregon was awarded \$646,000 to serve Veterans and people who have served in the military in Lane, Jackson, Josephine, Klamath and Lake Counties, and Native Americans living with the Klamath Tribe.

Significant Proposed Program Changes from 2013-15

There are proposed changes for 2015-17; funding is proposed to move from Housing and Community Services to DHS. Also, funding is allocated for the Oregon Food Bank for the Oregon Hunger Response Fund (OHRF) and The Emergency Food Assistance Program (TEFAP).

OFSET Program Description

Oregon has 19 contracts with employment-related partners in all Oregon counties to deliver E&T components. Contractors specialize in workforce development and job placement. Components are designed to assist SNAP participants to move into employment. Typically participants have an assessment followed by job search

training and supported independent job search. Participation is limited to a maximum of eight weeks per year. The two primary program components are:

Job search training: Trains participants on specific skills and strategies for finding and keeping a job. Information is geared towards the local labor market. Topics include resume building, interview skills, and other soft skills for finding or retaining employment.

Job Search: Includes job search techniques, referrals to the local Oregon Employment Department for I-Match registration, and the assignment and monitoring of required monthly employer contacts. Participants are required to complete 12 employer contacts per month over the course of eight weeks.

Contractors may ask participants to participate in a combination of components as needed. Other allowable activities include Adult Basic Education (GED), English as a Second Language (ESL), job retention activities, and short-term vocational training. At this time, contractors are not providing services in these areas due to funding limitations.

The USDA FNS determines the annual allotment of E&T administrative funding. FNS has a set amount of funding for all states. Each state's share is based on a formula using, in part, the state's SNAP mandatory client figure. Mandatory participants are defined as those aged 18 to 59 (or age 16 and 17 if the client is the primary person/head of household) and who do not meet a federal exemption. Federal exemptions include the following:

- Caretaker of a dependent child under age 6;
- Caretaker of an incapacitated individual;
- Physical or mental barriers to employment;
- TANF participant;
- Receipt of unemployment benefits;
- Participation in alcohol or drug rehabilitation;
- Eligible students enrolled at least half time; and/or
- Employed 30 hours a week at federal minimum wage.

The FNS annual allotment is the major cost driver for the E&T program. As this number is adjusted annually, services provided by contractors are scaled back to stay within budget.

A limited amount of support service funding is available to participants. Support services are provided to pay a participants' up-front transportation expense related to independent job search efforts, such as transportation to job interviews, submitting job applications and informal, in-person job search. The majority of reimbursements are vendor payments in the form of gas vouchers and bus tickets. Contractors use the lowest cost alternative available to maximize the number of participants who may receive a support service payment.

The support service budget is funded by 50 percent General Fund and 50 percent Federal fund per FNS regulations. Since 2009, the annual Oregon support service budget has been \$1.2 million. This figure is based on 20,000 anticipated participants using \$60 in support services per participant. Contractors historically serve more than 20,000 participants annually, which bring the average support service cost per person significantly down. For Federal Fiscal Year (FFY) 2014, the average support service payment per participant is \$24.

SNAP E&T contractors work to leverage resources with other workforce programs. While E&T dollars cannot be utilized for participants where there is a prior resource available (for example, job preparation activities for TANF participants would be funded with JOBS dollars and not E&T dollars). The program does work with programs funded through TANF and the Workforce Investment Act (WIA) to coordinate services and refer participants into services that may not be funded by E&T but could benefit the job seeker. An example of this would be a referral of a SNAP E&T participant to a WIA-funded training program or the leveraging of job openings and referrals with co-located job placement programs.

Program Justification and Link to 10-Year Outcome

The SNAP E&T program's goal is to assist participants to gain skills that will improve their employment prospects and reduce reliance on SNAP benefits. Participants improve job skills, which add to the diversity and strength of Oregon's workforce. Using local contractors to deliver the E&T program results in a higher quality workforce because services can be tailored to the area and local economies benefit from these expenses. The program supports Oregon's 10-year focus on long-term economic prosperity and resiliency through people-based strategies.

Program Performance

Current funding supports 20,388 individuals, or 1,699 people monthly. Each month, approximately 266 participants are placed into employment, about 11 percent of those served. For FFY 2015, DHS projects a total of 70,751 participants are eligible for this program. However, the program is only able to serve about 31 percent of these individuals per year because of the amount of funding received.

While not all participants find employment after the eight-week E&T program, participants do become connected to employment specialists in their local area. Some participants choose to continue accessing other services available from local employment specialists once their mandatory participation in E&T ends. This link assists participants in continuing and enhancing job search efforts.

Enabling Legislation/Program Authorization

This program is mandated by Federal legislation found in the Food and Nutrition Act of 2008, authorized by the 2008 Farm Bill. In February 2014, President Obama signed the 2014 Farm Bill (aka. the Agricultural Act of 2014). Program policy is reauthorized every five years through the Farm Bill and the next reauthorization will happen in 2019.

Funding Streams

This program is funded primarily through Federal funds, with a small amount of General Fund dollars. E&T administrative costs are 100 percent Federal funds based on a fixed formula. For 2015, administrative costs are estimated at \$2,235,518. E&T participant support service costs are funded through 50 percent General Fund dollars and 50 percent Federal funds. For 2015, support service costs are \$600,000 General Fund. The total E&T program budget is \$3,435,518.

50 Percent Reimbursement Programs (50/50)

SNAP's E&T 50 Percent Reimbursement Program works in partnership with community organizations that offer employment and training opportunities to participants. Each community organization provides wraparound services to complement E&T services that increase protective factors and success rates. The E&T program is a package of services, which includes assessment, component activities, participant reimbursements and case management. The allowable E&T components activities provided by these organizations include the following:

Job Search: Independent job search activities.

Job Search Training: Includes activities such as job skills assessment, job clubs, resume workshops, learning job seeking techniques, etc.

Worker Experience (Supported Work): Improves the employability of participants through actual (unpaid) work experience or training.

Education (short-term), including Vocational Training: Must be short-term, improve basic skills or employability, and have a direct link to employment. This includes ESL classes, basic education, GED preparation and short-term training.

Job Retention: To provide support services that are reasonable and necessary, up to 90 days, to SNAP E&T participants who secured employment. Job retention reimbursements can include clothing required for the job, equipment or tools for a job, transportation, etc.

Oregon currently has the following 50/50 partnerships:

- Multnomah County, Outside In
- Multnomah County, New Avenues for Youth
- Multnomah County, Central City Concern
- Lane County, St Vincent DePaul
- Lane County, Goodwill Industries

Funding Stream(s)

Partner agencies use their own funds to pull down the funding for the match. In other words, partner agencies use their own non-federal funds for the allowable costs of E&T components and receive 50% Federal reimbursement money. This allows Oregon to conserve limited resources while expanding the services available to SNAP E&T participants.

2014 Supplemental Nutrition Assistance Program (SNAP) Process and Technology Improvement Grant

Oregon was awarded a grant for the expansion of Oregon's E&T program with four new community partners to provide services to targeted populations. This grant will allow the expansion of Oregon's 50/50 E&T program to provide job-related services to more SNAP participants. The target populations for this grant are Veterans, people who served in the military and people living in the Klamath

Tribe ineligible for tribal services. This grant will be used exclusively for the expansion of the new E&T projects. At the end of the grant period the partner organizations will sustain the services by transitioning into 50/50 funded projects. In addition to employment services, these new partners currently provide wrap-around support services that link participants from their existing programs to other resources to ensure participant success which will continue with SNAP E&T participants.

The new partnerships are as follows:

- Lane County, St. Vincent de Paul, Employment Solutions
- Lane County, Lane and South Coast Counties Goodwill Industries, Job Connections Program
- Jackson, Josephine, Klamath and Lake Counties, Southern Oregon Goodwill Industries
- Klamath County, Klamath Tribes, Education and Employment Department

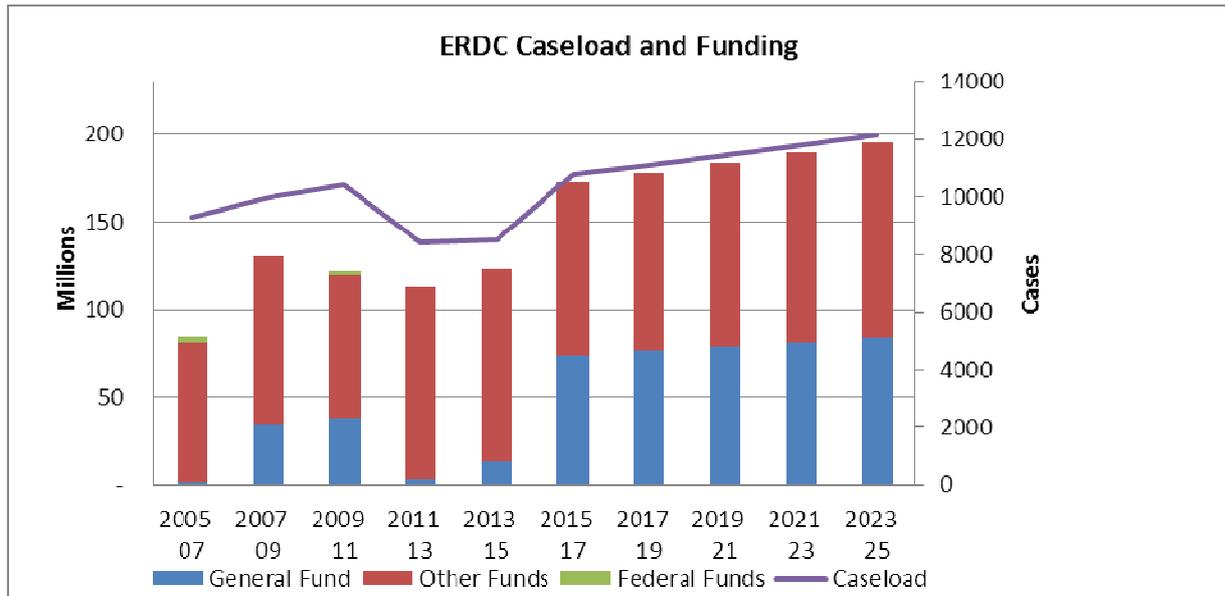

The services that would be provided include assessment, case management, job search, job search training, work experience, and vocational training.

Funding Stream(s)

During the grant period partner agencies will receive 100% Federal Fund reimbursement. Once the grant period ends, partner agencies will use their own funds to pull down the funding for the 50/50 match.

Department of Human Services: Employment Related Day Care

Primary Outcome Area: Education
 Secondary Outcome Area: Economy and Jobs
 Program Contact: Rhonda Prodzinski, 503-945-6108

Note: Out years assume static costs per case with funding inflated each year and invested in additional cases. Added funding could also be used for other quality activities in lieu of increasing the caseload cap.

Executive Summary

The Employment Related Day Care program (ERDC) helps low-income working families from a variety of cultural and linguistic backgrounds in urban and rural communities arrange and pay for quality child care. ERDC provides low-income families with the same opportunity to have quality child care as other families with higher incomes. This helps reduce the achievement gap and end the poverty cycle. Quality child care nurtures a child's learning and development so the child is better prepared to succeed in school and later in the workforce helping them form more stable families of their own. ERDC helps parents stay employed and gain self-sufficiency by assisting with the consistent, stable child care parents need to remain on the job. ERDC also supports care for children with special needs, as well as offering resources to encourage providers who come from diverse cultural backgrounds. Providers are required to meet a set of health and safety standards,

pass required background checks, attend pre-service health and safety training and have access to additional education. Providers employed by ERDC clients are contributing members to local economies throughout the state.

Significant Proposed Program Changes from 2013-15

The 15-17 Governor’s Budget includes an investment of \$49.6 million for child care and backfill of \$11 million in one-time federal funds.

Program Description

To be eligible for the program, a family’s income must be less than 185 percent of the 2014 Federal Poverty Level. For a family of three, this amounts to a \$3,051 gross income per month. ERDC and families share the cost of child care. Families choose their child care provider and ERDC pays the provider directly for the State portion of the payment. The amount ERDC pays is based on the type of care and hours needed. Families pay a portion, called a copayment, of the child care bill. The copayment is based on a sliding scale depending on family income and size. Families often pay additional costs, depending on the provider rates and the amount they are eligible for through the program. As the family's income increases, the parent’s share of the child care cost increases while still remaining affordable. Copayments and additional costs paid by the family are also paid directly to the provider by the parents. Parents must pay their copayment to remain eligible in the program.

ERDC helps families find child care and connects child care providers to those needing care. This service is provided through the DHS offices in every county. Most child care providers are self-employed. They have passed a background check including a criminal history and child protective services check. Most are required to register with the Department of Education, Early Learning Division, Office of Child Care and the DHS Direct Pay Unit. Licensed family child care providers are represented by the American Federation of State, County and

Municipal Employees Council 75 (AFSCME). The Service Employees International Union Local 503 (SEIU) represents family child care providers who are exempt from licensing. These providers are referred to as license-exempt home and relative care providers.

DHS collaborates and works with multiple partners in support of child care system activities. We contract with local Child Care Resource and Referral (CCRR) agencies to provide consumer education to assist parents, employers, care givers, and others interested in the ERDC program, and on the importance of maintaining and providing quality child care. These referral agencies educate parents on the importance of choosing the right caregiver. Many parents are not familiar with indicators of high-quality care, as well as licensing standards for child care. DHS partners with eight Head Start programs and fourteen Oregon Programs of Quality (OPQ) to offer full-day, full-year contracts for ERDC families. We also work closely with the Oregon Department of Education (ODE), Early Learning Division, Office of Child Care.

The major cost drivers are the number of families receiving ERDC, cost per case and contracted services (such as Head Start, OPQ and Child Care Resource and Referral). The cost per case includes payments to providers which are collectively bargained. Potential changes in Federal requirements and collective bargaining agreements are also factors that drive costs in the program. Currently, the ERDC program serves 20 percent of eligible Oregon families with a priority given to families transitioning from TANF. The number of intakes of TANF transition cases to ERDC substantially rose in 2014 by over 150 per month. The average over the past 10 years has been 245 per month and since the beginning of 2014, the average has increased to 400. We maintain a reservation list for families that are eligible but not served by the program. As budgets allow, we extend an application to those on the reservation list to apply.

DHS coordinates services across its program areas in order to be as efficient as possible in our service delivery. Families receiving services generally are clients of other programs. Maintaining employment for these families is important as they work towards long-term self-sufficiency. In April 2014, there were 7,454 ERDC cases and 7,253 (97.3%) were receiving food benefits through the Supplemental Nutrition Assistance Program (SNAP).

Program Justification and Link to 10-Year Outcome

Child care that supports children’s development, especially in the early years, helps children succeed in school and better prepares them for their future. Early learning opportunities for children are generally provided for by the parents. Access to quality child care for low-income families is important so that their children also have the same opportunities to develop cognitive, social, emotional and behavioral skills to be ready for school. Research shows children who have attended preschool go on to show positive effects on important adolescent and young adult outcomes, such as high school graduation, reduced teen pregnancy, years of education completed, earnings, and reduced crime¹. Low-income families are faced with difficult choices when it comes to child care expenses. They may rely on an older sibling, or a variety of family or friends. This may lead to inconsistent or unstable care that interferes with the employment of the parent. Research shows that ERDC is critical in helping low-income families maintain employment.

The Governor’s Early Learning Council (ELC) and the opportunity through the Race to the Top federal grant embraces the importance of investing in measureable, quality child care. DHS supports improving safety, quality and enrichment of child care programs that support parent engagement and family stability as well as ensuring low-income families have easy access to a variety of child care settings. High-quality early childhood education programs are among the most cost-effective educational investments and are likely to be profitable investments for society as a whole. DHS is partnering with the Office of Child Care and other stakeholders to plan improvements to DHS programs to strengthen outcomes for our children and their parents.

DHS offers contracted child care slots for ERDC families with OPQ facilities and some full-day, full-year Head Start programs. OPQ programs have completed a rigorous process of documenting a high level of quality. The goals of the OPQ/Head Start contracted slots are to provide continuity of care for infant, toddler and preschool children in quality programs, access to continuous care for low-income working families and stable funding for quality early learning programs serving low-income children. The OPQ designation was established as a precursor to the state’s QRIS star rating system. In collaboration with the Office of Child Care (OCC), DHS will expand contracted child care opportunities as Head Start Grantees partner with Child Care programs in their communities on the Early

¹ Hirokazu Yoshikawa, Christina Weiland, etc., *From Investing in Our Future: The Evidence Base on Preschool Education*, Society for Research in Child Development, Foundation for Child Development, October 2013.

Head Start Child Care Partnership (EHS CC) federal opportunity. These partnerships provide more of Oregon's children with the opportunity to have high quality child care and give them the start they need to be successful in school and life.

Program Performance

In December 2014 there were 7,830 ERDC cases that served 14,094 children. As of October 2014 the average cost per case was \$670. This rate fluctuates greatly depending on the specific family needs. As of January 2015 there were 1,672 licensed child care providers actively providing child care for DHS families across the state.

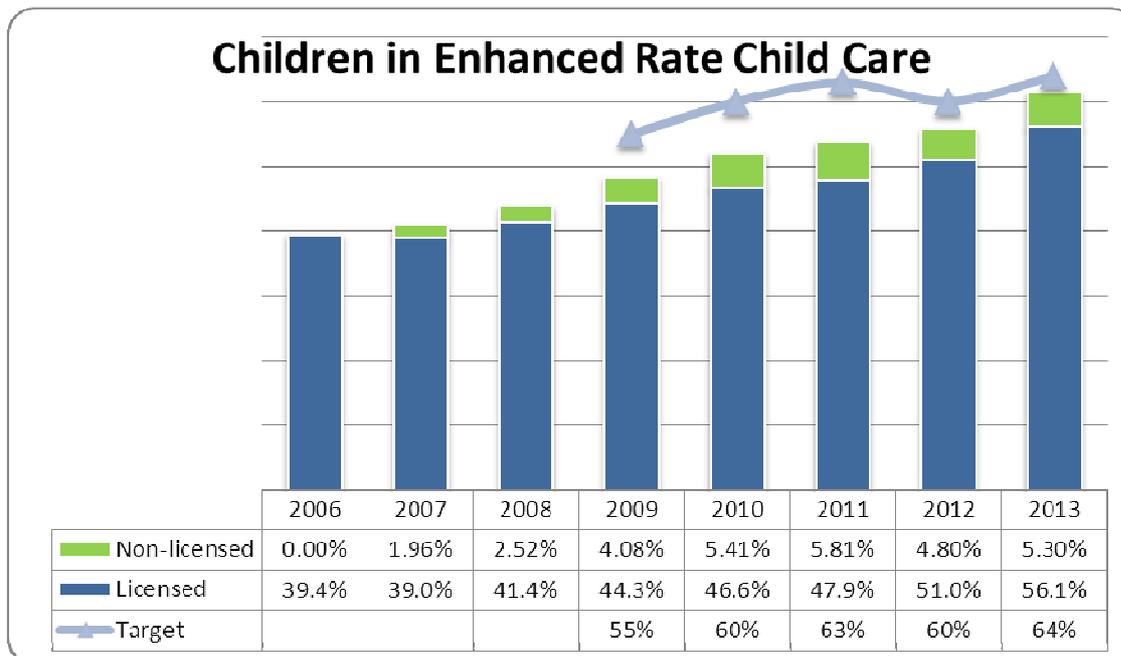

Researchers have identified education and training as an indicator of quality that has been proven to be associated with positive short-term and long-term child outcomes. Parent education on selecting quality care is provided through DHS contracts with Child Care Resource and Referral agencies. CCRR's referred 8,702 parents to child care providers during the 2013 calendar year. To improve the quality of care available to subsidized families, DHS provides a higher maximum rate (approximately 7 percent above the standard rate) for license-exempt providers who meet the same basic training requirements that are required of licensed family providers. There has been a steady increase in the percentage of children receiving care either from a license-exempt provider receiving the enhanced rate or from a licensed provider. The rate has increased from 46.7 percent in July 2009 to 59.6 percent in July 2013.

In June 2014, there were approximately 13,113 children receiving subsidy payments through ERDC. Of those children, 57.6 percent were enrolled in licensed care. An additional 6.5 percent of children were in care with providers who are exempt from OCC licensing but have completed required training through the Oregon Registry. The percent of children in licensed care has been steadily increasing. July 2013 to June 2014 showed an increase in the percent of children in licensed care for school aged from 45.5 to 50.5 percent, preschool from 60.4 to 64.1, and infants and toddlers from 57.2 to 61.7 percent. Infant and toddler ages have been combined to show all children ages 0 to 3 due to differences in the definitions for licensed and license-exempt care.

The earliest years, from birth to age three, are critical for young children's healthy development. Experiences during the infant and toddler years shape the architecture of the brain – including cognitive, linguistic, social and emotional

capacities – at a phenomenal rate and lay the foundation for future growth and learning.² Subsidy policy improvements need to be made in order to provide parents of infants and toddlers more accessibility to high quality licensed programs.

The number of children and families we serve in this program is based on available funding. The program is currently capped at 8,500 through legislative action.

Enabling Legislation/Program Authorization:

ORS 409.010(2) (c), 411.141 and 418.485 provide statutory authority to DHS for administration of the ERDC program.

Child Care and Development Fund (CCDF) grants are administered by the Department of Health and Human Services, Administration for Children and Families Office of Child Care. They are authorized by the Child Care and Development Block Grant (CCDBG); 45 CFR Part 98 and 99. On November 19, 2014, the president signed into law the CCDBG Act of 2014 (P.L. 113-186), which reauthorizes the program for the first time since 1996. The law adds new

² Shonkoff and Phillips, etc., *From Neurons to Neighborhoods: The Science of Early Childhood Development*, National Research Council and Institute of Medicine, 2000.

state requirements and makes significant advancements by defining health and safety requirements for child care providers, outlining family-friendly eligibility policies, ensuring parents and the general public have transparent information about the child care choices available to them, and activities to improve the quality of child care. In collaboration with the Office of Child Care (OCC), DHS is planning implementation of the federal child care policy reform.

The Department of Education, Early Learning Division, Office of Child Care³ is designated as the lead agency in Oregon to administer these funds. CCDF funding is transferred from ODE to DHS.

Funding Streams

\$98,908,130 Other Funds – Federal grants provided to ODE

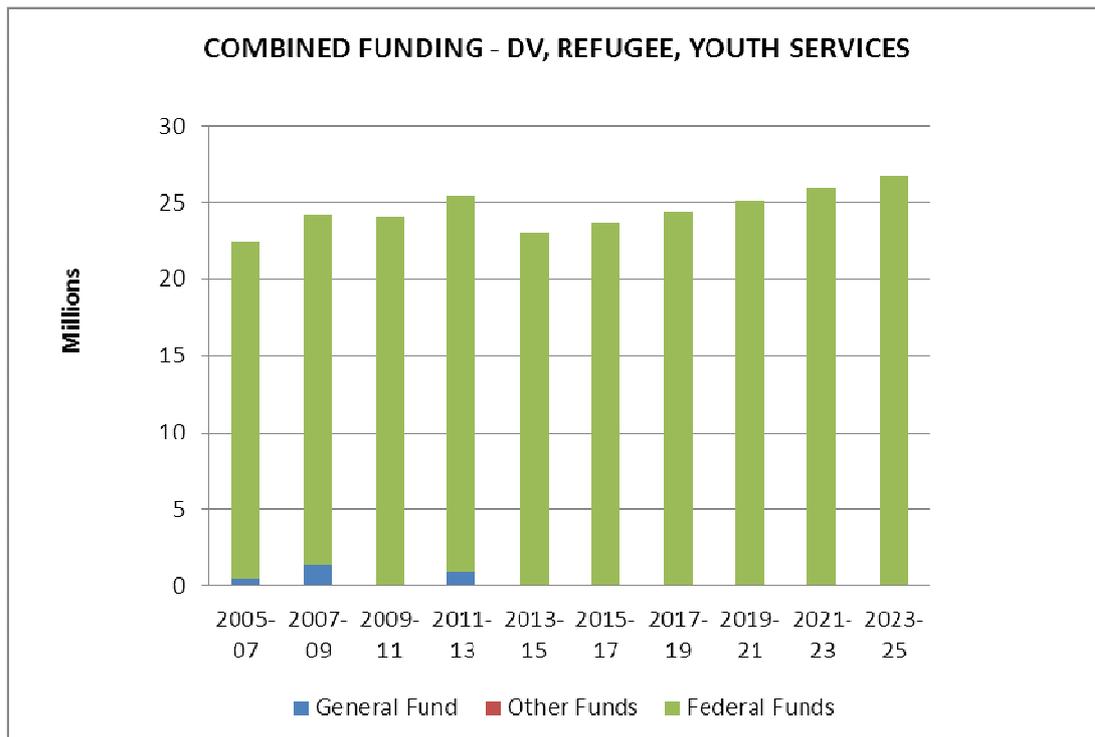

\$74,247,860 General Funds – Required in order to receive the Federal funds

The Other Funds are the CCDF Federal Funds that are transferred from ODE. The General Funds are state revenue that is used for our Maintenance of Effort (MOE) as part of the Federal fund requirement. We also spend General Funds on our administrative expenses and use that money for MOE. DHS spends \$12 million in General Funds per biennium in order to meet our CCDF MOE requirements.

³ The DHS ERDC proposal needs to be reviewed with OCC's proposal.

Overviews by Program Area

Domestic Violence

Executive Summary – Domestic Violence

Temporary Assistance for Domestic Violence Survivors (TA-DVS) provides resources to low-income families impacted by domestic violence. These are individuals or a family whose safety is at risk and need help to escape or remain free from domestic violence. Many domestic violence survivors need assistance to create safety and stability in order to be successful in finding and maintaining a job, all keys to becoming self-supporting without public assistance. A guide on domestic violence created by the Oregon Firearms and Domestic Violence Task Force in 2011 estimated that the costs of domestic and sexual violence injuries in Oregon exceed \$50 million a year. Nearly \$35 million of those costs are for direct medical and mental health care services. Approximately \$9.3 million are from victims' lost productivity from paid work and \$10.7 million are lifetime earnings lost by victims who are killed.

Program Description

TA-DVS provides up to \$1,200, over a three-month period. Payments include rent deposits, initial month's rent, moving costs, and items to help address safety. The program serves families with minor children or individuals who are pregnant, who are low-income, and meet eligibility requirements of the Temporary Assistance for Needy Families (TANF) program. Case managers, through DHS field offices, meet with the clients to review their situation and develop a safety plan. Depending on the service needs, payments are made directly to vendors including landlords, truck rental companies, or other retailers. DHS also works in partnership with local non-profit domestic violence and sexual assault service providers who assist families with safety planning and emergency shelter.

Program Justification and Link to 10-Year Outcomes

The TA-DVS program has a secondary link to the Safety Outcome area. Futures Without Violence (formerly the Family Violence Prevention Fund) indicates that about 30 percent of women receiving public assistance have experienced domestic violence. Research has shown that individuals impacted by domestic violence have more chronic health issuesⁱ including depression and post-traumatic stress, more difficulty obtaining and maintaining employmentⁱⁱ, and that these impacts can be mitigated by addressing safety.ⁱⁱⁱ This program provides economic support to very low income families who are seeking services to meet basic needs while they are working towards self-sufficiency. Ensuring safety and stability helps the domestic violence survivor be more successful when they engage in job training or job search.

Program Performance

For the fiscal year ending in June 2014, the TA-DVS program served on average 434 families per month. The average payment per family was \$795.77.

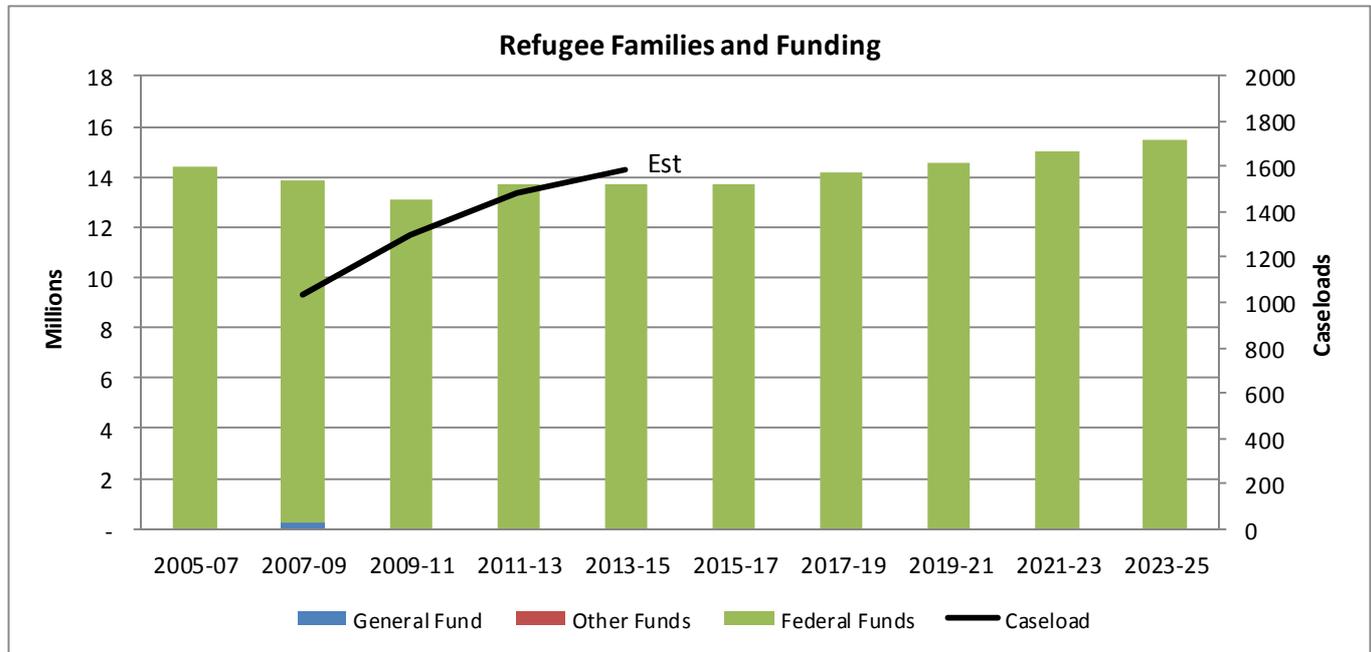

Enabling Legislation/Program Authorization

Domestic violence emergency assistance also known as TA-DVS is mandated under ORS 411.117 (1)(e). Federal authorization through the TANF block grant includes use of the TANF funds to meet non-recurrent, short-term benefits to deal with specific crisis situations including domestic violence. (See 45CFR 260.31 (b))

Funding Streams

TA-DVS is funded with the Federal TANF block grant. (See 45CFRPart260)

Refugee Services

Executive Summary – Refugee Services

The Refugee Program serves individuals and families who fled persecution in their country of origin and were legally admitted for resettlement by the United States government. The program helps refugees and asylum residents successfully resettle in this country by providing financial, employment-related services and acculturation services. The program guides refugees into self-sufficiency through employment as early as possible, so they become contributing members of Oregon's economy.

Program Description

The Refugee Services Program can serve only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR): Refugees, Asylees, Cuban/Haitian Entrants and Parolees, Amerasians, Victims of Human Trafficking (international) and certain family members, and Iraqi/Afghan Special Immigrant visa holders.

Resettlement services are comprehensive. Initial resettlement and case coordination services are delivered by non-profit resettlement agencies located in the Portland tri-county (Multnomah, Clackamas and Washington counties) area where the majority of refugees seek services. This may include essential tasks such as picking up refugees at the airport, finding them a place to live and helping to furnish their home with basic necessities.

During Federal Fiscal Year (FFY) 2013, the average monthly caseload for all resettlement agencies was 340 refugee cases. Employment-related services are delivered by the Immigrant and Refugee Community Organization (IRCO) in Portland. IRCO services may include: Assistance with job search, employment acculturation, English language classes, citizenship, and naturalization help. These services assisted an average of 833 refugees per month. Those refugees who resettle outside the tri-county area are served through a local DHS field office.

Program Justification and Link to 10-Year Outcomes

Refugees receive help to become safe, healthy and independent by learning how to understand and navigate the prevalent culture, become self-sufficient through employment as early as possible and become contributing members of Oregon's economy. These services enhance the ability of arriving refugees to succeed in the U.S., most services are provided for up to eight months after arrival. Employment services can extend to a maximum of 60 months after arrival.

Program Performance

ORR requires states to establish goals related to self-sufficiency of refugees. Two of the more significant measures are the percentage of clients who become employed and the percentage who remain employed 90 days after placement. During Federal Fiscal Year (FFY) 2013, the Refugee Program was able to help gain employment for about 66 percent of the on-going caseload, with the goal being 57 percent. However, the retention goal of 76 percent was not met with only 71 percent for those still employed after 90 days.

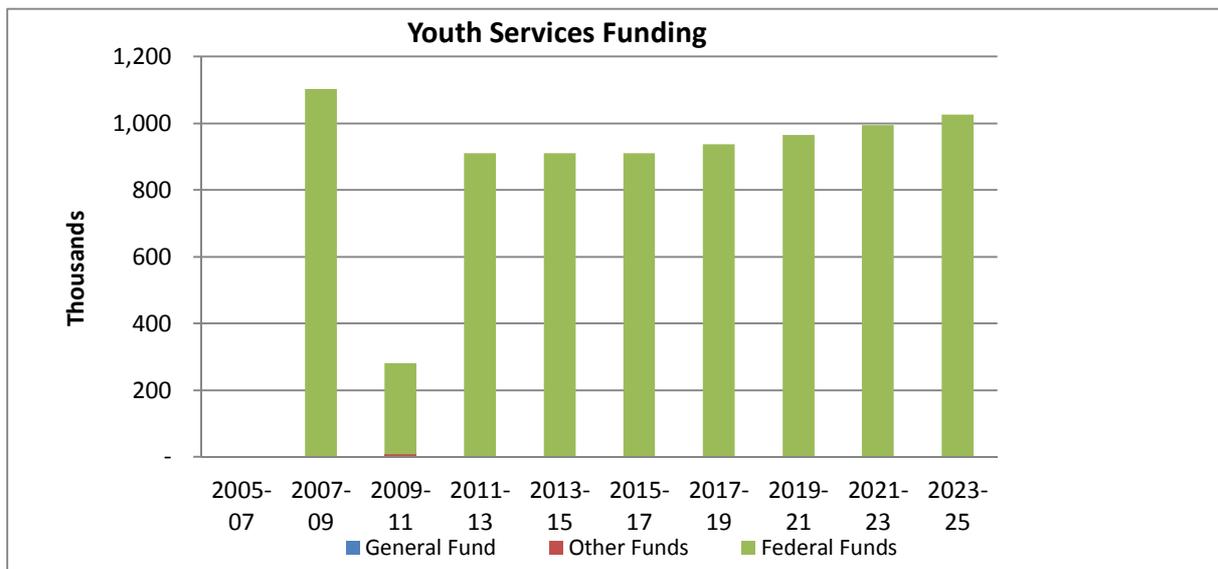

Enabling Legislation/Program Authorization

The Refugee Program is authorized and operates under the Federal Immigration and Nationality Act and the Refugee Act (8 U.S.C. 1522). The Refugee Program operates as a public assistance program under ORS 411.060, 409.010(2)(c), and 409.010(2)(h).

Funding Streams

During the initial resettlement period, the Refugee Program serves two different populations of refugees: those refugees who are eligible for Temporary Assistance for Needy Families (TANF) and those refugees who are eligible for ORR-funded services. The TANF eligible refugees receive cash assistance and services paid with TANF funding, and all other refugees are served with ORR funds, which are federal funds.

Youth Services

Executive Summary - Youth Services

Youth Services include sexual health education, leadership and mentor programs. These services support community prevention efforts to enable Temporary Assistance for Needy (TANF) families to break the generational dependence on public assistance.

Program Description

The “My Future-My Choice” program includes age-appropriate, medically accurate sexual health education curriculum and services for sixth and seventh grade, and a high school leadership and mentor component. These services support community prevention efforts to enable TANF families in breaking the generational dependence on public assistance. The My Future-My Choice program expands on the historical teen pregnancy prevention program to provide education and tools for youth to resist multiple risk taking behaviors. DHS partners with the Oregon Department of Education and the My Future-My Choice Advisory

Committee to develop and implement the program. During the 2013-2014 school year, this curriculum was implemented in 17 counties and 29 school districts. School districts implement this program at many different times of the year; the 2014-2015 school year data will be available July 1, 2015.

Program Justification and Link to 10-Year Outcomes

An analysis from the National Campaign to Prevent Teen Pregnancy shows that teen childbearing (ages 19 and younger) in Oregon cost taxpayers (Federal, State and local) at least \$88 million in 2010. Of the total 2010 teen childbearing costs in Oregon, 32 percent were Federal costs and 68 percent were State and local costs. Investing in preventing teen pregnancy reduces the risk to teen pregnancy, which can lead to a lifetime of poverty for both the teen parent and the child. The teen birth rate in Oregon declined 49% between 1991 and 2010. The progress Oregon has made in reducing teen childbearing saved taxpayers an estimated \$116 million in 2010 alone compared to the costs they would have incurred had the rates not fallen.

Program Performance

Oregon teen pregnancy rates have consistently stayed below the national average. The teen birth rate in Oregon declined 8 percent between 2011 and 2012. According to national data from the U.S. Department of Health and Human Services, the 2012 national rate for births to teens between the ages of 15 and 19 is 29 per 1,000 teen girls. The Oregon rate is 23.8 births per 1,000 females. Teen Pregnancy rates among Oregon females aged 15-17 years have declined almost by half over the past five years, from 25.8 per 1,000 in 2008 to 13.9 in 2013.

Enabling Legislation/Program Authorization

The Oregon Legislature passed HB 2509 in 2009 which requires that all schools provide comprehensive sexual health education. The My Future–My Choice curriculum complies with all requirements of this legislation for sixth and seventh grades. In 2010, the Oregon Department of Education, the Oregon Health Authority and DHS signed a Memorandum of Agreement to share responsibility for collaborative efforts to increase youth sexual health education and services.

Funding Streams

A Title V Federal grant provides annual funding of approximately \$550,000 to the My Future–My Choice Program through 2016. DHS submits a request for funding each year and continued funding is contingent on Federal budget approval. DHS has already received notification of funding for FFY 2015.

Department of Human Services: Family Support and Connections Program

Primary Outcome Area: Safety
 Secondary Outcome Area: Economy and Jobs
 Program Contact: Rhonda Prodzinski, 503-945-6108

Executive Summary

Family Support and Connections (FS&C) is a child abuse and neglect prevention program that provides a wide array of services including home visits, resource brokering and parenting classes. These families are eligible for the Temporary Assistance for Needy Families (TANF) program, which is a safety net program that provides cash assistance to parents. FS&C services are generally provided to families with barriers or issues putting them at a higher risk of involvement with the Child Welfare system. Services are provided through contracts with local community organizations. The services focus on strengthening parenting skills and family stability, and decreasing the risk factors for child abuse and neglect to prevent children on TANF from entering the foster care system. Through home

visits, families develop relationships with a community organization that can effectively assess the family’s environment to best understand its needs and connect the family with the appropriate resources in their community. The parenting classes offer a learning community increasing the positive supports provided by a peer network.

Significant Proposed Program Changes from 2013-15

This proposal funds the Family Support and Connections (FS&C) program at the current service level. FS&C supports families in extreme poverty decrease the likelihood of Child Welfare involvement by helping increase the parenting skills of the parents and by reducing barriers to family stability. These families have identified risk factors shown to lead to child abuse and neglect. This program proposal will allow maintaining current service levels with timely service delivery to address child wellness and family stability issues before necessitating further, more expensive, state services.

Program Description

FS&C is a component of the continuum of community supports to prevent child abuse and neglect. This program focuses on TANF families who may be at risk for involvement with the Child Welfare and foster care systems. DHS collaborates with numerous local and State, informal and formal prevention services, and activities to meet families’ needs. Program staff work within the existing community structure to coordinate referrals and deliver direct services where gaps or needs exist for a family. For example, the FS&C home visitor may facilitate a parenting support group, and also help with referrals to community services for assistance with rent and other needs.

Services are designed to increase parental protective factors and decrease the risk factors of child abuse and neglect. Services are delivered in part through use of home visit models proven effective with this population. For the fiscal year ending

June 2014, the program served 3,544 new families. This program provides home visiting services in all 36 counties and works collaboratively with Self Sufficiency and Child Welfare program staff, contracted staff and other community partners.

FS&C also provides services and supports for families helping them move towards greater independence while promoting the health and well-being of all family members. The service array focuses on immediate, crisis needs of families but also provides prevention and early intervention services to help families avoid reaching a crisis.

Because a diverse population is served through the program, FS&C providers are asked to design their program in a culturally appropriate way to best meet the needs of the families served. This is achieved, in part, by hiring staff who reflect the demographics of the local community. Local FS&C Steering Committees gives guidance and direction on how services are provided to ensure that community linkages are established. The local steering committees are also required to have membership representative of the cultural diversity in the district they serve. The steering committees also include representatives from local agencies working with minority and special needs populations, and faith-based organizations.

Occasionally referrals are made to Child Welfare but in the cases where risk does exist, the early intervention and assistance from FS&C can help the family stabilize sooner and help keep children safe.

The program provides short-term interventions including home visits, family assessments, advocacy for services in the community, supports to strengthen parenting, coping and other skills to support the healthy development of children, individualized interventions and joint outcome-based case planning. The services are community-based and tailored to meet a family's needs. FS&C advocates support the family by working with them to identify risks and strengths. Together they tackle issues before there is irreversible damage, reducing the incidence of child abuse and neglect.

FS&C aims to build genuine partnerships with families that recognize their strengths in the context of the family's culture. This program combines the best practices of a family strengthening model with a unique partnership providing joint case planning with FS&C, Self Sufficiency, Differential Response and Child Welfare programs. FS&C also uses a combination of principles with an

empowerment approach and building a helping alliance with the family. Families may volunteer for the program.

The major cost drivers are the number of families in need of child abuse and neglect prevention services as well as the number of contracted staff needed to provide the preventative interventions. The program has a small budget which does not accommodate the actual need.

Program Justification and Link to 10-Year Outcome

This program contributes to the Safety Outcome Area through its goal of increasing family stability and child safety. A goal of this program is to reduce or prevent children receiving TANF from entering the Child Welfare and foster care system. Children who enter foster care are more likely to fail in school, experience homelessness and unemployment, and may become part of the juvenile and adult corrections system. Most TANF families served through FS&C have significant needs that include help with parenting, housing or other stabilization services. The connection to TANF is an important part of the service array. TANF provides cash assistance, case management, and employment and training services to families with children living in extreme poverty. Families must be eligible for TANF to participate. For a family of three, their income would be below \$616 per month to participate.

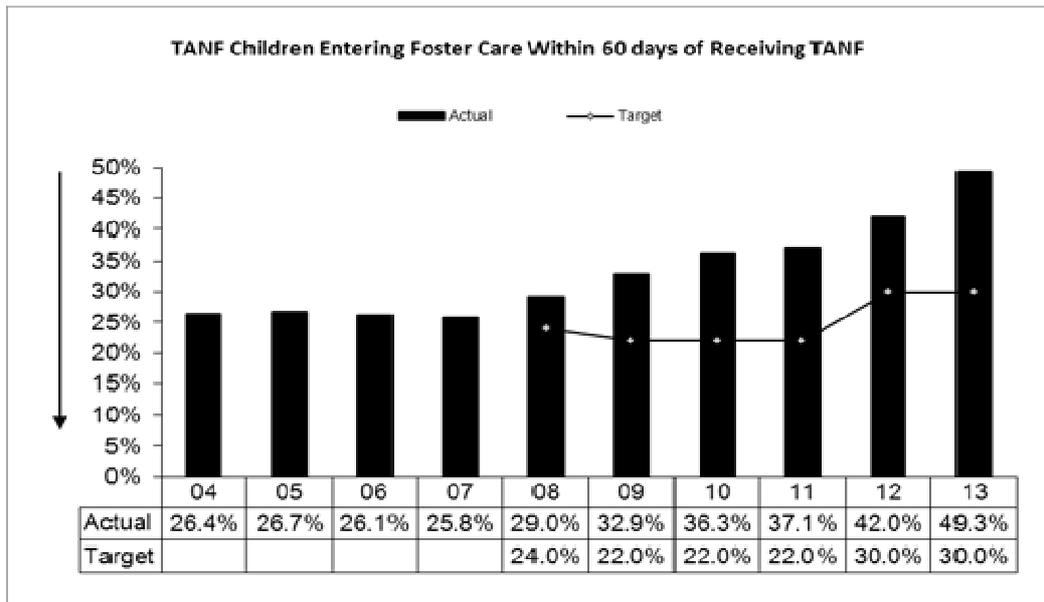

The FS&C program is also linked to the Economy and Jobs Outcome Area by helping families stabilize. Stabilization helps prepare clients to participate in employment and training activities, and connect the family to resources to address crises.

Program Performance

The primary performance measure is the percentage of children entering foster care who received TANF 60 days prior to foster care entry. Since the recession and the slow economic recovery, more Oregonians have been accessing programs for low-income Oregonians such as TANF. The display below shows the percentage of children entering foster care who had received TANF has also been increasing.

There continues to be a high percentage and disproportionate number of African-American children who received TANF prior to entering foster care. The TANF program and FS&C is aligning with the Differential Response, a program in Child Welfare, and other family stability efforts such as the Strengthening, Preserving and Reunifying Families (SPRF) initiative to better serve all at-risk families and

improve equity in outcomes for populations which are overrepresented in both TANF and Child Welfare. The SPRF funding has increased local service provision availability in communities specific to this population. Applicants had to demonstrate in their request that the community demographics were included and plans to implement programs equitably.

Enabling Legislation/Program Authorization

Title II of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L. 111-320, authorizes grant funds to be released to the states and names the program Community-Based Grants for the Prevention of Child Abuse and Neglect (CBCAP). The grant requires a 20 percent match of State General Funds.

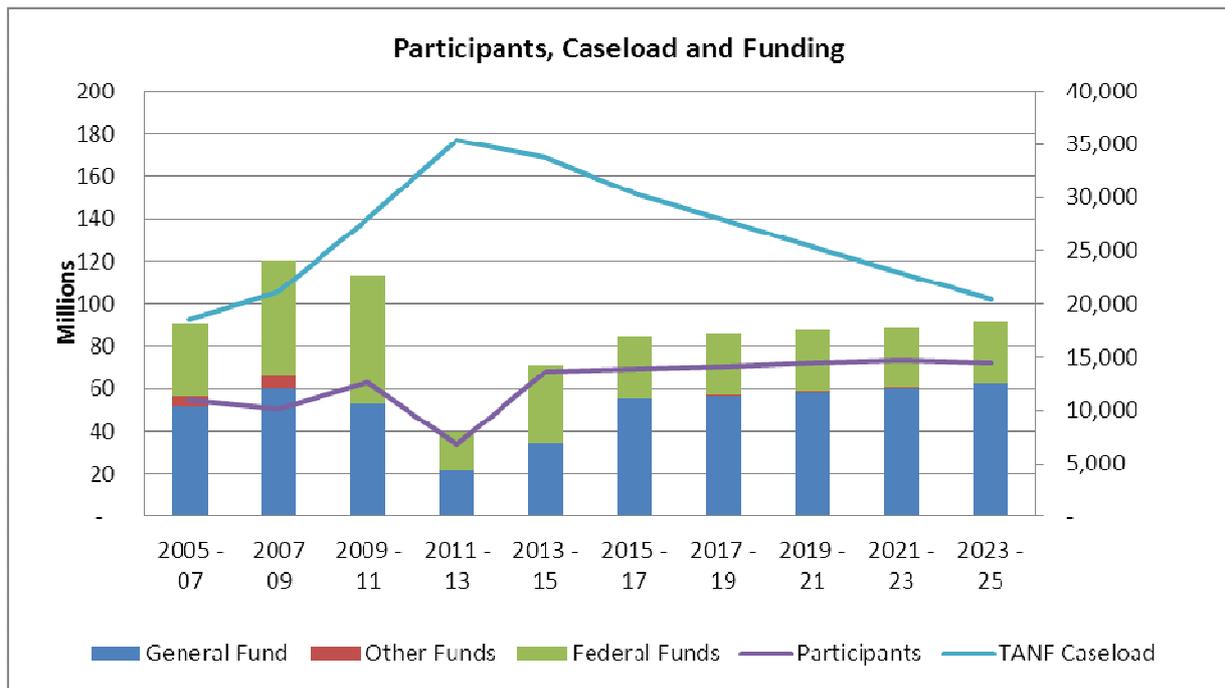

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005.

Funding Streams

The FS&C program is funded with a blend of TANF Federal funds, CBCAP grant funds and State General Fund dollars. The CBCAP grant awards additional leveraged funds each year based on a formula giving credit for the previous year’s contribution of state General Fund dollars. In addition, individual contracted programs in the DHS districts add leveraged funds on the local level from agency donations, grants and fundraising.

Department of Human Services: Job Opportunity and Basic Skills – Temporary Assistance for Needy Families

Primary Outcome Area: Economy and Jobs
 Secondary Outcome Area: N/A
 Program Contact: Xochitl Esparza, (503) 945-6122

Executive Summary

The Job Opportunity and Basic Skills (JOBS) program is an employment and training program for those receiving Temporary Assistance for Needy Families (TANF) benefits. The goal is to help adults in TANF families gain the skills needed to become self-sufficient through employment. Historically the JOBS program has also included services so that families can address barriers to employment.

Those who access TANF are extremely poor families with children who represent an increasingly diverse population. Most parents or caretakers in these families are required to participate in the JOBS program to maintain their eligibility for cash assistance. They can face sanctions that include losing benefits if they do not

participate. Job preparation services are provided through the DHS field offices and a network of contracted JOBS program providers in every county.

Significant Proposed Program Changes from 2013-15

DHS is proposing a TANF redesign package of cost-neutral, targeted investments that will build the capacity of families to increase earnings and transition from TANF through an accountable, flexible and family-centered approach. The investments emphasize alignment with systems that touch or should touch TANF participants, the scaling up of best practice case management, and raising the income limits for TANF exit to create a transitional path off of TANF to decrease the number of families who return to the program repeatedly. DHS proposes using projected caseload savings to fund the investments. This proposal maintains the current JOBS program budget. However, additional cost neutral investments that pertain to JOBS program contracts and services will be made as part of the TANF redesign effort.

Program Description

The JOBS program provides limited education, training and job placement services to eligible families. A component of the program, JOBS Plus, provides subsidized jobs for parents or caretaker relatives by reimbursing employers for part of the wages paid to the parent or caretaker relative. In November 2014, the JOBS program provided employment and training services to 9,247 individuals from families in the TANF program.

DHS administers the JOBS program through an extensive, statewide network of community partners that help deliver services. DHS case managers work with families to develop individualized case plans. These plans guide what job preparation activities the client will participate in and outline any needs for support services, such as transportation and child care. The department coordinates with several organizations to deliver services including Workforce Investment Act

(WIA) agencies, community colleges, the Oregon Employment Department, WorkSource Oregon One-Stop offices, and many local and county-based organizations, including those that can provide services for a culturally diverse clientele. Coordination and systems alignment with workforce system partners have strengthened as part of the workforce system redesign work that was charted by the Governor and the Oregon Workforce Investment Board.

Oregon's slow economic recovery means that demand for TANF and JOBS services remains high. At the beginning of the 2013-15 biennium, case management resources were at 35 percent of the need. Case managers are responsible for working with the family to develop a plan to achieve self-sufficiency, to provide support and monitor progress. A high percentage of a case manager's time is focused on determining eligibility for program benefits so the staffing situation meant that case managers spent less time working with families on self-sufficiency plans. With the support of the Governor and the Oregon Legislature, the Department repurposed a portion of Human Service Specialist 3 positions into case management positions. By the last half of the 2013-15 biennium, case management positions had shifted from 35 percent of need to 59 percent of need. The JOBS program need remains higher than budgeted as well as the related need for support services such as child care assistance and transportation to get to and from self-sufficiency and employment activities.

The economy also has impacted the JOBS program service offerings and the number of clients that can be served at any one time. In 2007 the Oregon Legislature allowed a comprehensive redesign of the TANF and JOBS programs with a focus on enabling families living in extreme poverty to remain or become stable. Significant improvements were made in the first year of implementation. In Federal Fiscal Year (FFY) 2008, Oregon reported a 24.1 percent all-family participation rate. Reductions made during subsequent Legislative sessions have made it difficult to maintain elements of the redesign and funding cuts greatly reduced the program's ability to help parents or caretaker relatives participate in skill-building activities and find work. In July 2011, the JOBS program was cut by over 50 percent, which caused cuts in the program's service offerings and its capacity to serve eligible clients.

The July 2011 cuts to the JOBS program also negatively impacted the department's ability to meet federal participation requirements for TANF. Due to the cuts, approximately 75 percent of contractor staffing was eliminated, greatly impacting the program's capacity to serve those needing to participate in an

activity. States must ensure that 50 percent of work-eligible adults receiving TANF are participating in work preparation activities to meet the federal requirement. Oregon did not meet work participation requirements in Federal Fiscal Years 2007 to FY 2011 and potential penalties total up to \$60 million. Oregon was not compliant in 2007 because the State Legislature was not in session when the federal government established the work participation requirement; preventing Oregon from making a statute change needed to re-design the TANF program in time to meet the requirement. In the subsequent years the program has not met participation targets due to the economic conditions and reduced program resources.

The state had until September 30, 2014 to correct its participation rate violations in order to avoid up to \$19.2 million in penalties for FY 2008 and FY 2009. The department submitted a Corrective Compliance Plan that outlined the steps to be taken to meet participation goals. These penalties, had they been assessed, would have meant fewer resources to fund employment and training programs that help TANF families' transition out of extreme poverty through employment. By following the Corrective Compliance Plan, working with partner agencies to employ participation strategies, and fully utilizing the case management resources to engage more families in the program, the state is projected to meet federal participation requirements and avoid penalties for FY 2008 and FY 2009.

Program Justification and Link to 10-Year Outcome

There is a direct link between the JOBS program and the Making Work Pay Outcomes area. The JOBS program aims to reduce unemployment (including underrepresented individuals) and create job-ready communities. Many of the parents or caretakers of the children in this program have limited or no work experience. The JOBS employment and training program provides activities and services focused on preparing participants to enter the workforce, help them find employment and support them as they transition off public assistance. The TANF and JOBS programs are represented in the Oregon Workforce Investment Board which is aligning strategies and outcome measurements across Oregon's workforce programs. While the WIA programs serve all Oregonians, the JOBS program provides employment and training services to TANF recipients to address their specific needs around basic skills building, job development and placement, and support family stability efforts. The federal reauthorization of workforce programs through the Workforce Innovation and Opportunity Act (WIOA) presents an opportunity to fortify relationships and maximize service coordination with

employment and training workforce partners at the state and local levels in order to improve outcomes for all job seekers.

Program Performance

DHS tracks performance and outcome measures to gauge its ability to help people become employed or improve their employment situation through participation in the JOBS program.

JOBS program outcomes were severely impacted by the 50 percent funding reduction during the 2011-2012 program year and by the low staffing levels for case managers. Many services were eliminated because of these cuts. Eliminated services include vocational training, Adult Basic Education, and life skills classes. Other services were eliminated that helped participants remove other barriers to employment such as home visitor specialists, vocational nurse consultants and specialists who helped parents or caretaker relatives with criminal history or fines work with the courts on expungement. They also provided guidance to clients for talking with prospective employers during job searches about these issues.

In the 2013-15 biennium, the budget provided for added flexibility in contracts and support services so that families in the TANF program can have support in vocational education, GED completion and life skills classes. Among the services that remain, (and continue to be partially funded), include job search, work experience, supported work, and JOBS Plus. Child care, transportation assistance and other supports continue to be available in a reduced manner.

With the support of the Legislature, the added case management resource is helping test strategies to engage families in ways that improve outcomes in the areas of engagement in a self-sufficiency plan, improving family stability, improving federal participation rates, and increasing employment placements.

We measure total employment placements reported by parents or caretaker relatives served by the JOBS program each month. While there is considerable seasonal variation in placements, the number of placements remained relatively constant until 2007. Due to the economic downturn, placements began dropping in FY 2008. The average monthly placements for FY 2010 were 30 percent lower than in FY 2008. Placements gradually increased through the early part of 2011; however, they dropped again after program reductions, including a loss of 75 percent of contracted staff. Effective July 2013, JOBS program restrictions were loosened to allow districts more flexibility to address the needs of local

populations. With these modifications as well as slight improvements in the overall economy, the average monthly placements have increased 36 percent since FY 2012. From July 1, 2013 to November 2014, placements have exceeded 1,000 ten times. The last time that occurred was in FY 2008 (December 2007).

We also measure average hourly beginning wages for those entering full-time employment. Since 2003, there have been fluctuations, but also gradual improvement, with an increase of \$2.30 per hour for the average starting hourly wages. Recent data shows that while the state minimum wage increased by only 85 cents (from \$8.40 in 2010 to \$9.25 in 2015), the average beginning wage for TANF families entering full-time employment increased by \$1.34 between July 2010 (\$9.72) and November 2014 (\$11.06).

Another measure is the percentage of parents or caretaker relatives who exit TANF due to employment and do not return within 18 months. Currently 70 percent of parents or caretaker relatives do not return within 18 months. The average rate for 2013 was 64 percent, indicating a positive increase of 6 percent parents or caretakers who did not return to TANF 18 months after the case closed due to employment.

Enabling Legislation/Program Authorization

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005. A significant portion of the JOBS program is codified in State statute chapters 411 and 412.

Funding Streams

The JOBS program is currently funded primarily through the Federal TANF block grant and General Fund dollars that count towards the state Maintenance of Effort (MOE) requirement. Oregon's TANF block grant is \$166.8 million per year. Oregon's MOE requirement is equal to 80 percent of the state's historic expenditures or approximately \$98 million per year.

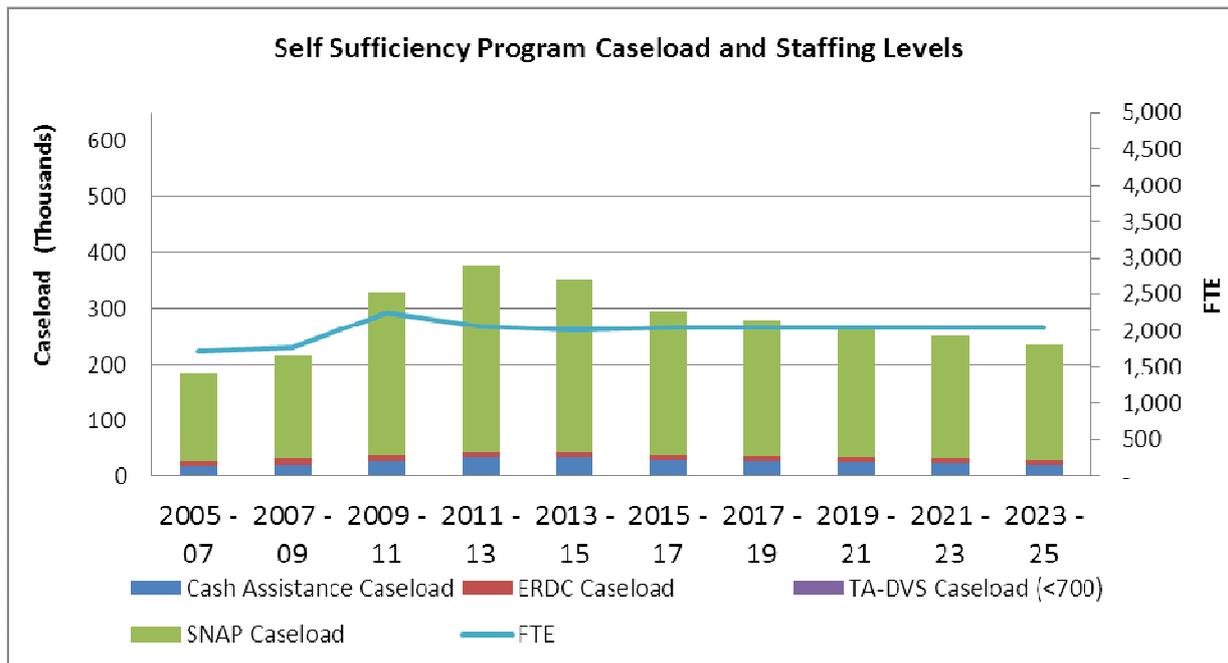

Expenditures counted towards MOE must not be from a Federal source and must not be matched to other Federal funds. Oregon generally meets MOE through a combination eligible DHS and other agency expenditures. Both the TANF federal block grant and MOE expenditures must be spent in a manner reasonably calculated to meet one of four TANF purposes, which are: 1) provide assistance to needy families; 2) end dependence of needy parents by promoting job preparation,

work and marriage; 3) prevent and reduce out-of-wedlock pregnancies, and 4) encourage and maintain family formations.

Federal Child Care Development Funds from the Employment Department's Child Care Division provide Other Funds used for related child care costs.

Department of Human Services: Delivery and Design

Primary Outcome Area: Healthy People
 Secondary Outcome Area: Economy and Jobs
 Tertiary Outcome Area: Safety
 Program Contact: Jerry Waybrant, 503-945-5952
 Sandy Dugan, 503-947-5374

Executive Summary

This program provides design, personnel and service delivery in addition to oversight, planning, reporting, implementation, training, eligibility and benefit issuance for programs that support a diverse, low-income population in need of economic supports and self-sufficiency services to meet their basic needs. The last economic recession triggered a dramatic increase in demand for these services which include food and cash assistance, and other programs that enhance employability and support job retention among clients.

Self Sufficiency reallocated staff resources to meet client demand and increase positive outcomes for TANF clients. This was accomplished by staff reallocation approved in the 2013-15 biennium. These positions provide families, who are

living at less than 43 percent of the Federal Poverty Level, with services to stabilize their living situations and increase their earning potential to move them off of state-provided services. This investment increases case managers from 35 percent of workload to 59 percent of workload by the end of the 2013-15 biennium. It's projected that our case managers will be staffed at 75.8 percent of the demand by the end of the 2015-17 biennium.

This investment was also supported by an increase in JOBS funding in the Economy and Jobs budget. Together, these investments significantly increased the level of case management and employment barrier removal services available to TANF clients which included over 11,000 employment placements during the first year of the 2013-15 biennium.

\$ in millions

DHS proposes to continue efforts to transform the process for enrolling people and delivering services in eligibility programs including SNAP, TANF and ERDC. It also expands and focuses efforts for 2015-17 in the areas of service delivery transformation and system alignment. This comprehensive request supports technology needs and business transformation, supporting business architecture scalable for future needs. The result will accomplish consistency in service delivery and maximize economies of scale as we work with clients across the state. Working with seamless data access and data sharing will lead to positive outcomes, greater efficiency for caseworkers.

DHS proposes to extend the sunset for HB 2469 (2007) as we refocus the TANF program to fit today's realities. Self Sufficiency is proposing a package of cost-neutral, targeted investments that build the capacity of families to increase earnings and transition from TANF through an accountable, flexible and family-centered approach. The investments emphasize alignment with systems that touch or should touch TANF participants, the scaling up of best practice case management, and creating a glide path off of TANF to decrease the number of families who return to the program repeatedly.

Self Sufficiency is also proposing several policy packages to remove empty other fund limitation and stabilize the field delivery position and FTE funding. The collection of packages is necessary to ensure adequate staffing resources to continue the supports for the most vulnerable Oregonians.

Program Description

This program encompasses and supports the personnel necessary to provide eligibility and case management services to vulnerable Oregonians who request assistance to meet basic needs such as food and shelter, and need access to employment programs. Self Sufficiency family stability and work support programs include the following:

- Temporary Assistance to Needy Families (TANF) provides cash assistance, job preparation services and community connections to low-income families with children while they strive for self-sufficiency.
- TANF Jobs Opportunity and Basic Skills (JOBS) program is an employment and training program.
- Supplemental Nutrition Assistance Program (SNAP), formerly known as Food Stamps, helps low-income families buy healthy foods to meet their nutritional needs.
- Employment Related Day Care (ERDC) helps low-income, working families with quality child care.
- Family Support and Connections (FS&C) provides local advocates who work with families to help them overcome parenting challenges to create family stability and prevent Child Welfare involvement.
- Temporary Assistance for Domestic Violence Survivors (TA-DVS) provides up to \$1,200 to help pregnant women and families flee or stay free from domestic violence.
- Refugee Services support the successful resettlement of families in the U.S. who are fleeing persecution in their countries of origin.

- Oregon Health Plan and Medicaid eligibility referral to connect Oregonians who qualify for subsidized medical coverage with the appropriate program.

Since the start of the last recession, demand for these services grew dramatically. The department continues to handle high caseloads in its primary self-sufficiency programs. Currently approximately 775,000 people – or one in five Oregonians – get help purchasing food for their families through programs like SNAP. Of those Oregonians receiving SNAP, approximately 91,600 individuals are also receiving cash assistance through TANF to cover their family’s basic living expenses such as rent, utility payments and medical needs. Other programs, such as the child care subsidy, help parents provide the safe, reliable child care that keeps parents employed.

Major cost drivers for the personnel need for Self-Sufficiency Program Delivery and Design are: Federal or State program mandates; economic conditions which affect caseload size such as the number of Oregonians needing assistance; personnel turnover and the related training and travel costs; the work effort required to provide services, and personnel packages such as position costs, infrastructure improvements, etc.

Program Justification and Link to 10-Year Outcomes

This program primarily supports the 10-Year Outcome for Healthy People by helping Oregonians meet their basic needs such as food, housing and medical care referrals in order for people to be healthy and have the best possible quality of life at all ages. It also links to the Economy and Jobs, and Safety Outcome areas.

Staff supports basic need programs such as financial assistance, food assistance, medical insurance (referral only), child care, domestic violence services, employment and training, refugee and youth services. Also, staff is responsible for disaster program delivery when needed and as identified by the Federal program.

Staff at the State and local levels coordinates with Child Welfare to work with families to increase their stability and prevent Child Welfare involvement. This collaboration helps to support the State’s 10-Year Outcome for safety by ensuring children are cared for regardless of the system of service. Other collaborations have been built around domestic violence; housing; alcohol, drug and mental health treatment; workforce development; Vocational Rehabilitation; health care, and education.

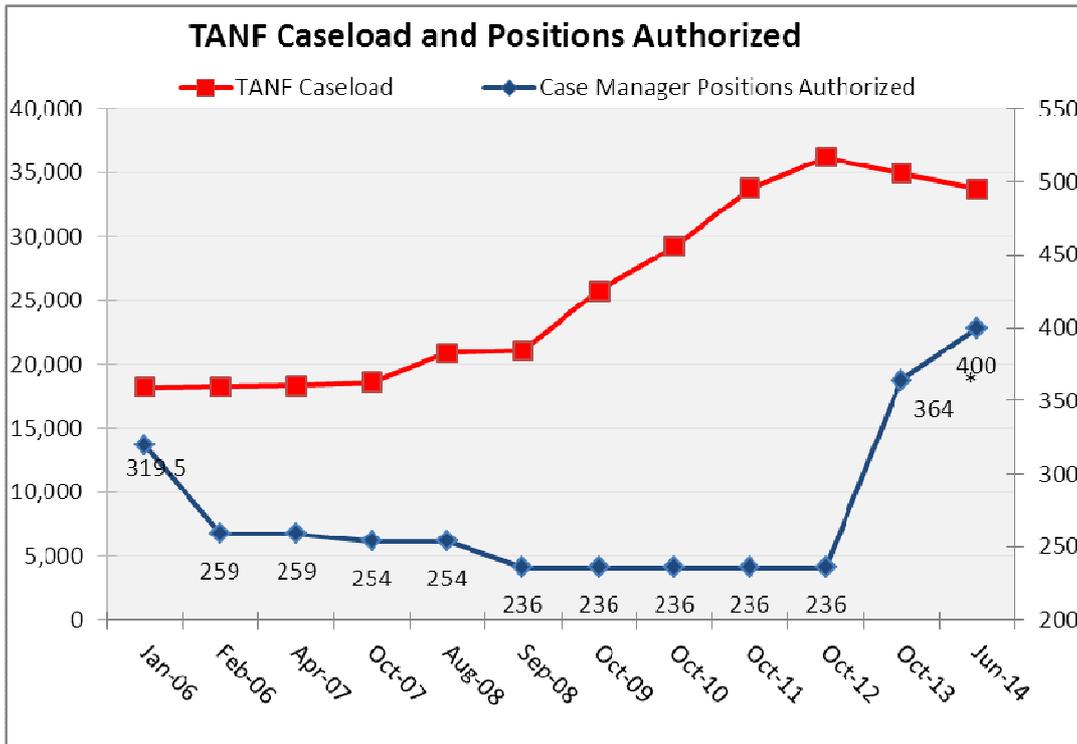

Program Performance

Personnel resources provide performance in the delivery of programs within Self Sufficiency. A workload model is used to provide a basis for determining personnel needs to adequately support those seeking services. The Fall 2014 Forecast on the following page provides a comparison of the delivery positions authorized by the 2013-2015 Legislature, showing the investment of reallocating positions, and the need based on work effort to meet the service delivery need:

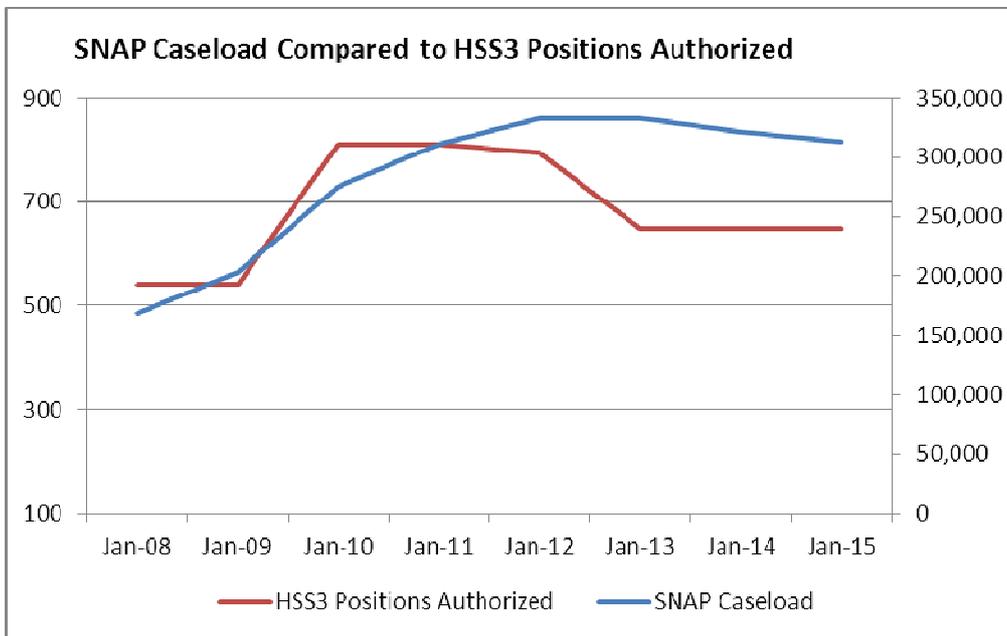

POSITION TYPE:	2013-2015 (post-LAB)				2015-2017 GB			
	Current Position Authority	Positions Earned Forecast	Percent of Earned	Difference Current to Workload Forecast	Current Position Authority	Positions Earned Forecast	Percent of Earned	Difference Current to Workload Forecast
Eligibility Workers	648.0	956.9	67.7%	(308.9)	648.0	890.6	72.8%	(242.6)
Case Managers	400.0	677.5	59.0%	(277.5)	417.0	542.2	76.9%	(125.2)
Leads	58.0	59.8	97.0%	(1.8)	58.0	55.7	104.2%	2.3

Office Managers	24.0	62.9	38.2%	(38.9)	24.0	59.7	40.2%	(35.7)
Supervisors	119.5	118.6	100.8%	0.9	119.5	129.7	92.1%	(10.2)
Totals	1,849.0	2,777.5	66.6%	(928.5)	1,866.0	2,462.1	75.8%	(596.1)

The work of staff in administration and central support is not included in the workload model; however, the work of central support staff is vital to the delivery of services in field offices. Central support provides the oversight of policy development, program design, changes required through legislation, as well as Federal reporting compliance, and has not been adequately staffed for several years.

The charts below provide a comparison of the caseload growth to the personnel growth providing a stark display of how our current resources are struggling to keep pace with the need of vulnerable Oregonians.

*400: This figure represents the total position authority for the 2013-15 biennium. DHS is in the process of hiring to fill all authorized positions.

The above chart does not show the total SNAP Caseload nor the staff associated with APD this represent SSP only.

We are committed to continually evaluating how to work in a more lean and efficient way to help streamline our efforts and improve outcomes for our clients and our budgets. As an example, improvements continue in how we interview and determine eligibility for SNAP and TANF. This greatly improved the capacity of staff to see clients and issue benefits quickly, and helps us gain monetary performance awards to further benefit the State. The United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) recognized Oregon as a national model for effective administration of the SNAP program. FNS awarded Oregon performance bonuses totaling \$3.2 million for its timeliness in issuing benefits and for program accessibility.

This active process of identifying ways to improve efficiencies allowed the Self-Sufficiency Program to reinvest staff resources to close the gap between positions needed and those authorized in the 2013-2015 biennium. The Self-Sufficiency Program continues to identify opportunities for other efficiencies as the delivery programs are at 66 percent of needed positions based on client demand. We are developing new models of delivery that will include on-line applications, electronic workflow and distribution which, over time, will allow staff to spend less time on paperwork and more time working directly with clients providing services such as referrals to community resources, employment and training assistance, and case management.

Additionally, program areas are developing strategic plans for program delivery, including high-priority areas where breakthroughs are desired in either outcomes or the way work is done. One high priority area we share with the Vocational Rehabilitation and the Aging and People with Disabilities programs is on increasing employment outcomes for clients. We can best meet the needs of our clients by collaborating across programs to help them progress quickly along the road to self-sufficiency.

Enabling Legislation/Program Authorization

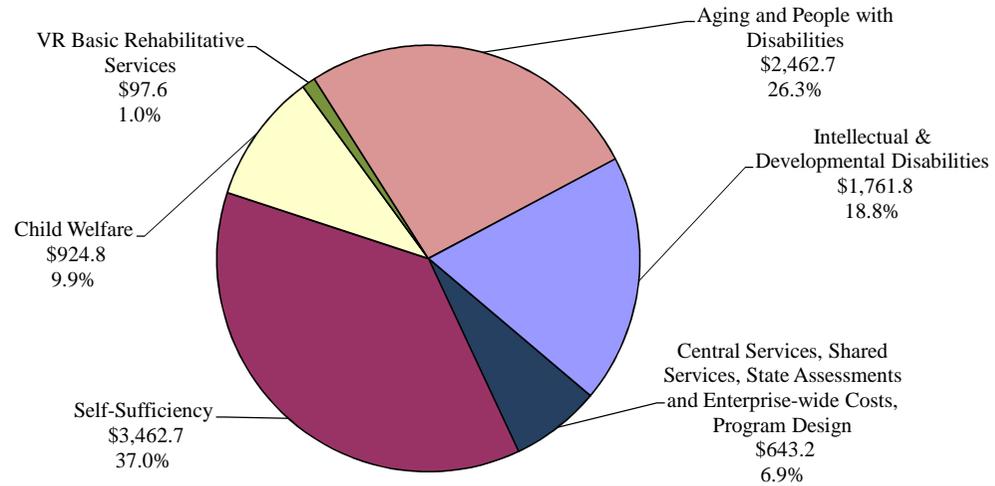

Self-Sufficiency Programs have varying levels of mandates from Federal law and the Oregon Constitution. SNAP and Medicaid are federally mandated programs. TANF is a federal block grant program. It is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005. A significant portion of the TANF eligibility criteria is codified in State statute chapters 411 and 412. DHS has statutory authority to administer the ERDC program through ORS 409.010(2) (c), 411.141 and 418.485. Family

Support and Connections services are authorized through the Title II of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L. 111-320.

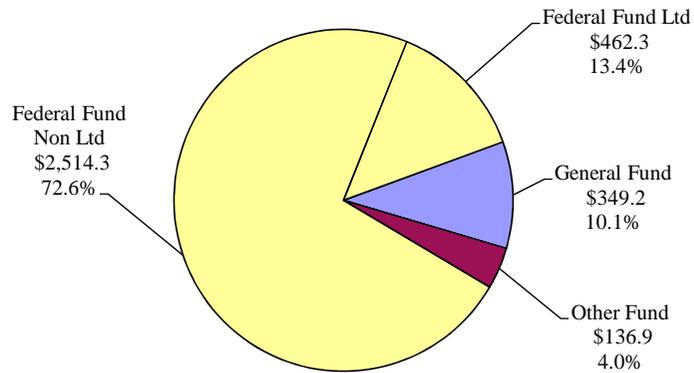

Funding Streams

Funding for personnel for Program Delivery and Design is determined through Random Moment Sampling Surveys to identify which programs are being worked on in the moment and the funding split for administration of the program. With RMSS, field delivery staff are required at random intervals to indicate the time spent on various activities to determine the level of federal funding which directly supports our ability to provide Self-Sufficiency Program services. The funding is a mixture of Federal and General Funds that cover the work done by the employees to support the programs that they work in. The main grant used is SNAP Administration funded 50 percent Federal and 50 percent General Funds. TANF and CCDF funds also are used and both are 100 percent General Fund for administration.

Department of Human Services

Child Welfare Program

Mission

The Department of Human Services Child Welfare (CW) program is responsible for accepting and caring for Oregon's increasingly diverse children in need of protection (ORS 418.015). These children are dependent, neglected, abused, mentally or physically disabled, and placed in legal custody by a court in the State of Oregon (ORS 419B).

Individuals We Serve

Child Welfare employees provide direct services through a network of local offices in every county across Oregon. For a list, see:

<http://oregon.gov/dhs/Pages/localoffices/index.aspx>

During 2013 we served approximately:

- 27,644 reports were assigned for a protective services assessment.
- 10,054 children through protective services investigations to keep them safe.
- 667 children found permanent, safe homes through our adoption services.
- Helped 4,998 domestic violence victims address safety concerns through shelter care assistance.
- 4,673 Oregon families stepped forward to be foster parents.
- 8,778 children on average in substitute care every day.
- 64,305 reports of child abuse.

Child Welfare Today

We provide prevention, protection and regulatory programs for Oregon's most vulnerable citizens who meet our statutory mandate to serve, keeping them safe and improving their quality of life. Prolonged economic stress is increasingly putting Oregon children in situations that are unsafe. We know that the demand for state-funded services in the future is directly related to our ability to prevent and mitigate these traumas today.

The CW program focuses efforts that minimize risk to best meet challenges families are facing. The way we intervene enhances our ability to engage individuals who are less able to care for themselves, their families and communities. Today we are focused on a better array of interventions with community-based supports for families before, during and after involvement with

the CW system, including strategies to safely and equitably reduce the number of children who experience foster care. This includes better outcomes, available services and supports so children are not at risk for re-entry into foster care and family stabilization. CW is working to improve services for children and families of color, especially Native American and African American children, targeting strategies to address issues such as overrepresentation in foster care, underrepresentation in family support and family preservation services, and potential disparities in decision-making. Through these efforts we are helping communities build capacity to serve families in their own communities.

CW services represent a continuum of supports with the ultimate goal of keeping children safe. Historically in Oregon that has resulted in high rates of removal and placement into foster care. Based on research and feedback from children, youth and families who experience our system, our strategic efforts are refocusing the service continuum to ensure safety while also focusing on child well-being, family stability and, when possible, avoid removal and placement in foster care by supporting families to safely parent their children at home. Post adoption and guardianship support helps families bridge those difficult times as children move through childhood, again preventing them from returning to foster care.

Services

This program is designed under seven key areas representing a continuum of supports: child safety, well being (including substitute care and provider supports) permanency planning and post adoption and guardianship supports, program design and delivery, and federal compliance.

Child Safety

Guided by the Child Abuse Reporting Law, ORS 419B.005 – 419B.050, which was enacted in 1971 and updated several times, this law was designed to provide early identification and protection of children who have been abused and neglected. DHS is required by statute to assess reports of alleged child abuse or neglect, complete comprehensive safety assessments of children, assess parent or caregiver capacity to protect, and determine whether child abuse or neglect has occurred. In addition, CW is governed by federal laws and performance indicators.

Child Safety Services

Services are provided to children reported to be abused or neglected and families who are impacted by abuse dynamics; typically substance abuse and domestic

violence. With very few exceptions, a child abuse report begins with a call to a child abuse hotline. Trained Social Service Specialists screen over 64,000 child abuse reports each year and collect key information in order to determine next steps and how the call should be handled. If the report meets the criteria to be assigned for an in-person investigation, the family's information is given to a Child Protective Services (CPS) trained worker who will conduct a comprehensive safety assessment of the family.

Close to half of all reports (27,644 per year) meet criteria to receive an in-person investigation. This includes gathering information related to extent of the maltreatment, circumstances surrounding the abuse, adult functioning, child functioning, parenting practices, disciplinary practices, and cultural and communication issues. This combined information is used to determine overall child safety. Approximately 25 percent of those investigations result in necessary interventions to keep children safe.

Child Protective Services administrative rules incorporate a systematic approach to child safety decisions. A procedure manual has been developed to support and clarify this safety intervention approach. The chapters dealing with screening reports of child abuse and assessment are complete and available online.

Differential Response

Traditional child welfare services assume a single approach to protecting a child through investigations: an allegation occurs, and we investigate and decide if maltreatment occurred. This approach is very effective with some families. However, for families experiencing neglect, the children enter care at a higher rate than other forms of abuse and stay longer, suggesting the need for a different approach with these families. DHS data shows over 54 percent of children are involved with child welfare as a result of neglect or threat of harm of neglect (as opposed to other forms of abuse such as physical or sexual abuse). Differential response allows the caseworker more than one approach to engage the family. In the alternate track, caseworkers conduct a safety assessment, the family participates in a needs and strengths assessment, and services with a community partner may be offered. This model invests everyone in outcomes that keep the family together and children safe, benefitting the family as a whole. This alternative approach does not replace Child Safety Services described above or further assistance when there is imminent danger or significant safety risk. Rather

this approach allows additional means for child welfare to address the diverse needs of the many different types of families we encounter.

Strengthening, Preserving and Reunifying Families Programs (SPRF)

The Oregon Legislature recognized and codified this performance-based approach to the delivery of community based programs and services for children and families involved in the child welfare system. This effort complements the work of the Coordinated Care Organizations and the emerging work of the Early Learning Hubs, targeting children and families involved in the child welfare system. Local collaborations of interested stakeholders determine community strengths and service gaps and request funding for programs targeted to specific outcomes focusing on keeping children safe and families together. These programs are an essential complement to the implementation of Differential Response and supporting children being safely parented at home. Staged implementation of Differential Response began in 2014 and statewide implementation is projected to be completed in 2017. The more comprehensive service continuum has been implemented in every county. The Department is now working with providers to more closely tie the delivery of services to agreed upon outcomes for families to ensure the maximal effectiveness of the service delivery and family success.

Family Support Teams

Also known as Addiction Recovery Teams (ARTs). These teams provide coordinated, culturally appropriate multi-disciplinary services to substance abusing families referred to Child Protective Services.

Domestic Violence/Sexual Assault Funding

DHS makes grants available to domestic violence and sexual assault service providers throughout Oregon. These providers offer crisis lines, crisis response, emergency shelter and other related services to survivors of sexual assault and survivors of domestic violence and their children in a culturally and linguistically appropriate manner.

In-Home Safety and Reunification Services (ISRS)

This program provides culturally appropriate intensive, short term service options to families with children who can remain safely in their homes, or in their communities, in addition to children and families who can be safely reunited. The goals of ISRS are to provide a combination of concrete safety and strengths-based change services that will lead to lasting safety changes within the family's home.

Services are designed to protect children, stabilize the family, and assist parents in establishing linkages to formal, informal, and natural supports and resources so that a child can remain safely with their family without further intervention of the Oregon child welfare system. ISRS supports crucial child welfare initiatives to increase the percentage of children remaining safely at home after a child safety threat is identified, and decrease length of time children spend in foster care. In addition, ISRS allow for culturally and linguistically appropriate approaches to reduce the disproportionate placement of children of color in foster care. Flexible and targeted services are uniquely adapted for populations overrepresented in the child welfare system. These services are time limited in duration and are complimented by SPRF services for families in need of a longer term or more intensive service.

System of Care (SOC) Flexible Funds

These funds continue to be a valuable resource for Oregon's most vulnerable children by offering resources that meet the family's identified needs in relationship to the safety, permanency and well-being of the child. Child Welfare staff use SOC funds to provide culturally specific, individually tailored services not otherwise available. Services are planned through family involvement in case planning, community collaboration, including diverse communities, and a shared funding of custom-designed services in collaboration with community partners.

Substitute Care

Also known as the Foster Care Program, this is a safety net for children with immediate safety needs. DHS is responsible for accepting and caring for children who cannot remain safely with their parents or families. Services are designed to meet the federal requirement of placing a child in the least restrictive, most appropriate setting that meets the child's individual needs when a child cannot safely be cared for by his or her parent(s). This program operates 24 hours a day, seven days a week to accept and care for children. These children are dependent, neglected, mentally or physically disabled and placed in the legal custody of DHS by a court. Under limited circumstances and for a short time, a family may place a child in State custody on a voluntary basis; however, most of the children served in shelter care are there involuntarily as a result of abuse or neglect they experienced in their family home.

Types of substitute care include: Relative Care, Family Foster Care or Family Shelter Care and Residential Care. DHS is responsible for background and

reference checks, assessment of the family and certification, training and support of all substitute care resources. We also work with Therapeutic and Enhanced Therapeutic Foster Care organizations, Residential Shelter Care and Residential Treatment facilities. DHS partners with community members and organizations representing diverse linguistic and cultural perspectives to deliver shelter services across the state. DHS is mandated to provide reasonable efforts to return children to their parents. Today, approximately 59 percent of children return home to a parent. Substitute care also responds to the overall well-being of the child in care addressing behavioral, emotional and social functioning; meeting core educational needs, physical, mental health and needs for family and community connections. DHS works in collaboration with multiple State and local government agencies such as the Oregon Health Authority, Oregon Department of Education, and local law enforcement, community programs, schools, the faith community and volunteer programs.

In addition to meeting the needs of children, this program is also responsible for the certification and support of families that care for children in the State's custody. This includes recruitment, retention, training, and support for foster families. Families are trained by agency staff and through contracted providers. They participate in a Structured Analysis Family Evaluation (SAFE) home study, designed to evaluate a family's suitability and readiness to meet the needs of children that enter the system. Through deliberate attention to these structures and supports, abuse in foster care is less than one percent. We take abuse in foster care seriously and expect zero tolerance for abuse of children in our care.

Children receiving family foster care services are provided with the basic necessities for the child by the foster parent or relative caregiver. DHS reimburses the foster parent for a portion of the cost of the child's care. Education services are provided most often through Oregon's public education system. A number of children and youth in substitute care also receive special education services when there is an identified need. Family foster homes are essentially volunteers who are reimbursed for a portion of the cost of caring for Oregon's abused and neglected children.

Some children who enter the foster care system are in need of a level of care that combines intensive mental health services and highly skilled foster providers or facility based care. These children receive services from Behavioral Rehabilitation Services. These are services that are designed to meet children's and youths'

mental and behavioral health needs in a time limited environment with a goal of moving into a less service intensive foster setting.

The complexity of the needs of children coming into substitute care demands comprehensive services to address these needs. Complex mental health needs require oversight of treatment and medication options; complex medical needs require oversight of both treatment and provider capacity; and complex daily care needs demand services and supports for foster parents that include regular training opportunities, regular respite from daily caregiving responsibilities and day care services for working foster and relative caregivers.

The reliance on the substitute care system over the years has reached a capacity that is no longer sustainable in Oregon. This includes: financial support for the system, limited availability of foster parents, and ongoing research that indicates if substantive preventive services can be immediately put into place that then diverts the removal of children from their families and into the substitute care system. Redirecting resources away from the removal of children from families and increasing the capacity of families who currently have children in the substitute care system by reinvesting in upfront and in-home services within communities will pay far greater dividends to Oregon in the future. This reinvestment will support a Substitute Care Program that will only be necessary if in home safety and support services are not successful for some families and children.

Permanency Planning & Post Adoption

DHS establishes permanency through reunification, adoption and guardianship for children in foster care. The Federal Adoption and Safe Families Act (ASFA) of 1997 mandated that public child welfare agencies provide permanency for children within shorter timeframes; this was added to Oregon statute in 1999.

DHS's first goal is to reunify a foster child with his or her parent(s). If a child is unable to safely reunify with his or parents, DHS helps find a permanent family through adoption or guardianship. Once children are placed in a permanent adoptive or guardian family, the program continues providing support to the families to meet the special needs and lifelong challenges of children who have been abused and neglected.

DHS provides a comprehensive array of services and operations that include consultation and direction for plans of reunification for the process of legally-

freeing children for adoption, recruitment of potential adoptive and guardianship families, and selection of adoptive family resources to support services that help ensure the post-legal success and longevity of adoption and guardianship placements. The program provides final consent to all DHS adoptions. Adoption Assistance, Guardianship Assistance and post adoption services are also available to children through the program. This supplemental support enhances the capacity of parents to meet the special needs of their children and strengthens placement stability. Benefits may include medical and mental health coverage, financial assistance and post adoption or guardianship advocacy, consultation, training, and referral services.

DHS develops administrative rules for private and independent adoption vendors in Oregon and monitors for compliance to include approval of allowable waivers. DHS is also responsible for the Coordination of the Voluntary Adoption Search and Registry Program for Oregon's public and private adoptions. Additionally, adoptions may be entered into for children with relatives living in other countries pursuant to The Hague Convention and the Intercountry Adoption Act.

Interstate Compact

The Interstate Compact on the Placement of Children (ICPC) was adopted into law by the 1975 Oregon Legislature. At this time, all states are members of the Compact, as are the District of Columbia and the U.S. Virgin Islands. The Compact requires entities seeking to place children with out-of-state families, or into certain types of out-of-state treatment facilities, to obtain approval from the Child Welfare authorities in the other state before making the placement. If the planned placement is for purposes of foster care, adoption or reunification of a child with a parent, the compact provides for a home study to be completed in which the prospective placement is evaluated to determine if it is safe and suitable before the child is placed. When DHS seeks to place a child with a parent, relative or other identified placement resource in another state; this is done using the Compact.

Youth Transition Services

The foster care Independent Living Program (ILP) serves current and former foster youth to age 21. Services include help with life skills, money management and budgeting, communication and social skills, community connections and supportive relationships, informed decision-making, parenting, health, education support, housing, job readiness, and individual emancipation plans including

resolving legal issues in the case of foreign nationals unable to return to their country of origin. A continued focus is to develop transitional plans to ensure youth complete high school and successfully make the transition from school to post-secondary education or employment at a level that allows them to be self-sufficient. Housing support options are available to eligible youth through the federal Chafee housing and independent living subsidy programs. Enhanced attention to comprehensive, culturally appropriate transition planning for youth as they transition to living independently will increase successful transition of youth who have long-lasting resources, support, connections and stability in adulthood after leaving foster care.

Program Delivery

This is the field structure that supports the safety of children across Oregon who are abused or neglected. As of January 1, 2015, there will be approximately 1,333 child welfare caseworkers across Oregon responding to over 64,000 reports of abuse and neglect, and serving approximately 12,100 abused children annually that experience foster care. This structure is administered in our central office in Salem to support field staff through technical support, policy and standards, evaluation, analysis, and parameters of program areas in Child Welfare.

Our service delivery innovation depends on adequate child welfare staffing focused on serving more children safely in their own homes. As of January 1, 2015, staffing will be at about 86 percent of what our workload model indicates is needed to adequately do the job. Staff is critical to the integrity of the Oregon Safety Model, our intervention model for safety assessments and safety management.

Field managers and supervisors provide clinical supervision of direct service staff. This is critical to building worker competencies including reinforcing positive social work ethics and values, encouraging self-reflection and critical thinking skills, building upon training to enhance performance, and supporting the work through case work decision-making and crises. This is partially achieved through lower staff-to-supervisor ratios as recommended by the Child Welfare League of America (CWLA).

The Oregon Safety Model is an overarching safety system. It is focused on the completion of a safety assessment and safety management at all stages of case management, from screening through case closure.

Child Welfare workers coordinate with Self Sufficiency workers to support family stability and prevent entrance into the foster care system for their common clients. In addition, Child Welfare coordinates with other child and family serving systems including Housing, Oregon Health Plan, Addictions and Mental Health, Oregon Department of Education, county-based health and support services, and others. Child Welfare continues to work to eliminate disparities and ensure equitable outcomes for families and children. Contributing cost factors of this program include program mandates (either Federal or State); the number of report/abuse notifications; family stress factors which affect abuse risk (substance abuse, unemployment, mental or physical health issues, criminal history, etc.); personnel turnover (training/travel costs); work effort required to provide services and personnel packages (i.e., furlough mandates, position cost, etc.). Additional drivers of cost include representation from the Department of Justice connected to dependency matters, court-ordered services and workload associated with Federal mandates such Indian Child Welfare Act (ICWA).

DHS has implemented Lean Daily Management Systems in all districts across the State and at Central Office. This active process of identifying ways to improve, streamline, and realize efficiencies will allow DHS to reinvest staff resources to close the gap between the workload and authorized positions.

Currently this effort is directed at delivering more efficient processes surrounding the implementation of our newest technology, OR-Kids (Our child welfare reporting system as required by federal regulations.). We are focusing on improving our business systems with a goal of increasing the time staff has to work with families and children, and decreasing the time spent on the processes used to deliver the work. Child Welfare has undertaken a strategic plan to safely and equitably reduce the number of children in the foster care system.

A critical element of successfully practicing the Oregon Safety Model for child welfare system is staffing at a level adequate to do the work. At the enhanced staffing levels, it will be possible to implement significant change and it will support the program's ability to reduce the number of children in the foster care system. It is essential that staffing remain at a level that allows consistent application of the critical elements of the Oregon Safety Model which may result in fewer children experiencing foster care.

DHS is responsible for caseworker visits with parents and children as well as arranging family and sibling visitations. Research has shown that frequent visitation is one of the single most predictive factors in reunification of children with their biological families. Contact with the caseworker and visitation also are measures in the federal Child and Family Services Review (CFSR).

Karly's Law

Since the law went into effect in 2007, more children have been seen by identified medical professionals, resulting in a more accurate and earlier identification of child abuse victims. Karly's Law has resulted in the development of a review process that has added a greater degree of oversight, transparency and accountability to the Department. This statute was further refined and strengthened in 2009. Since that time the Department has also developed a discretionary review process for cases where systemic issues are or maybe present or where a child has suffered severe harm and a review is likely to impact system change in a manner that increases child safety.

Indian Child Welfare Act (ICWA)

Native American children are currently over-represented in Oregon's child welfare system. Compliance with the Indian Child Welfare Act is a Federal mandate. The Act is complex and requires a higher level of expertise and effort than cases involving non-Tribal children. DHS has Tribal Liaisons in the child welfare field offices to enhance relationships with Tribal governments and to work with Tribal children and families to reduce disparities and improve compliance with the Act. Nine new positions were added in January 2014 with a specific focus on ensuring ICWA cases receive "Active" efforts to prevent placement or to achieve permanency.

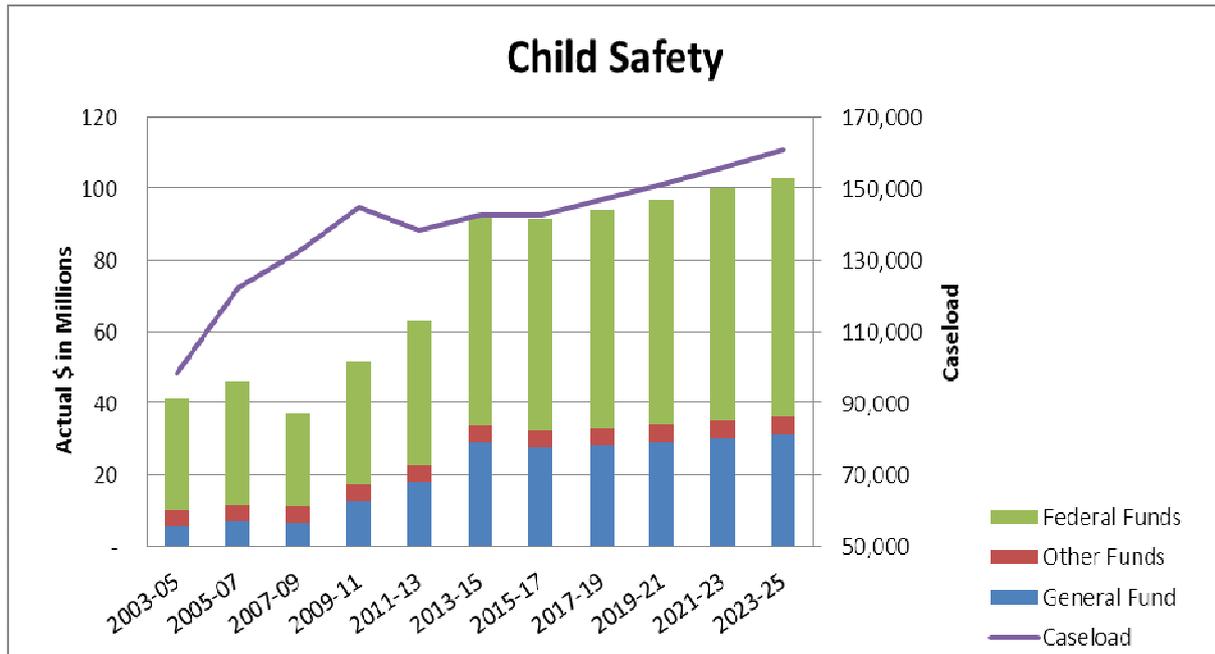

Federal Compliance

This program is responsible for ensuring CW is in compliance with the federal programs that provide federal funds for the CW programs and services described above, which includes submitting and monitoring federal reports. The goal of Federal Compliance is to maximize the use of federal funds while ensuring the funds are only used for allowable services and administrative costs and activities.

- Title IV-D – Child Support
- Title IV-E Foster Care, Adoption Assistance and Guardianship Assistance
- Title XIX Medicaid
- Title XX – Social Services Block Grant
- TANF – Emergency Assistance

Department of Human Services: Child Safety

Primary Outcome Area: Safety
 Secondary Outcome Area: Healthy People
 Program Contact: Stacey Ayers, 503-945-6696

Note: Neglect and Threat of Harm of Neglect are the primary abuse categories driving the increase in Child Welfare caseloads, currently representing over 60 percent of all founded abuse.

Executive Summary

This program provides protective and social services to children and families when allegations of child abuse or neglect are reported. Specially trained workers conduct comprehensive safety assessments and make determinations about the following: child safety, the presence of abuse, if services would benefit a family or whether safety intervention is required due to the presence of safety threats. Services are delivered through DHS staff or contracts that require linguistically and culturally appropriate service provision. They are delivered in a manner that is designed to keep children safely with their parents, whenever possible, and to quickly reunite children with their parents when they have been removed.

Significant Proposed Program Changes from 2013-15

No significant changes are directly proposed for this program in 2015-17. Caseloads should be positively impacted with investments in Child Welfare staffing and the implementation of Differential Response model.

Program Description

The Child Safety Program is a combination of two units, Child Protective Services (CPS) and Differential Response (DR). Recently developed, the DR unit has primary responsibility for designing, developing and implementing Oregon's DR system. As of May 1, 2014, the Department officially began implementation in three Oregon counties: Lane, Klamath and Lake. During this biennium the Department will continue to implement DR in additional counties throughout the state. Currently, CPS staff in field offices respond to and assess allegations of child abuse and neglect and are usually the first contact for families with the child welfare system. With the implementation of DR, there will be more than one way for CPS workers to respond to allegations of child abuse and neglect. One way will be the traditional response and the other will be the alternative response. By design, the alternative response has the potential for providing a better connection for families with preventive, community based services that may prevent further contact with the child welfare system.

The alternative response allows CPS caseworkers to seek safety through more intentional family engagement and collaborative partnerships with community organizations. This approach also focuses less on investigative fact finding and more on assessing and ensuring child safety, and helping families identify their needs to keep their children safe. Whether a family receives a traditional response or an alternative response is a decision that will be made by a specially trained child welfare screener. That response decision will depend primarily on the severity of the reported abuse and neglect. More severe allegations like sex abuse, and allegations of severe physical abuse will receive a traditional response, while

allegations of neglect with no severe harm to a child will be assigned an alternative response. Comprehensive safety assessments will occur in both the traditional response and the alternative response. DR is one of the Department's strategies for safely and equitably reducing foster care.

Generally, the Child Safety Program is the program area where children enter the State foster care system. Foster care is a temporary service, designed to keep children safe while we work to manage safety threats and enhance the parents' protective capacities. We work with families to make sure that children are only removed when they cannot safely remain at home. When children are placed in care, which can only be done with court approval, we place urgency on ensuring that children get home quickly and connect to family or other relatives whenever possible. Child abuse investigations are inherently intrusive and can be traumatic to families. The DR system is being implemented with an emphasis on reducing the intrusive nature of child abuse investigations and focusing on family engagement. The Child Safety Program can best be described in three sections: Screening, Assessment and In-Home services.

Screening

Screening is the front door of the service delivery system that with few exceptions, begins with a child abuse report at a child abuse hotline. Trained social workers screen approximately 64,305 child abuse reports from all across the State each year and collect key information from the reporter of the abuse in order to determine how the report of child abuse and neglect should be handled. If the report meets the criteria to be assigned for an in-person investigation, the family's information is given to a DHS Child Protective Services (CPS) trained worker who will conduct a comprehensive safety assessment of the family in a respectful and sensitive manner. As DR continues to be implemented in Oregon, screeners will have increased responsibilities once a determination has been made that a report meets criteria to be assigned. In counties where DR has been implemented, screeners will also be required to determine the type of response a family will receive.

Assessment

Of all reports of child abuse or neglect, approximately 27,500 cases per year receive an in-person investigation. As part of the comprehensive safety assessment the DHS CPS worker gathers information in the following categories: Extent of the maltreatment, circumstances surrounding the abuse, adult functioning, child functioning, parenting practices and disciplinary practices. With DR, this type of

comprehensive safety assessment will continue to be required with a traditional or alternative response assessment. Cultural and linguistic considerations are also factored into the process. This important information is used to determine overall child safety. In counties where DR has been implemented, in addition to the comprehensive safety assessment, families with safe children may receive additional voluntary services based on their level of need. This approach is based on two key principles: 1) Identifying family issues and intervening early leads to better results than waiting until a family is in greater crisis. 2) Families can more successfully resolve issues when they voluntarily engage in solutions and drive service selection and supports.

In-Home Safety and Reunification Services (ISRS)

The ability to keep children safely at home is in large part dependent on the services that can be wrapped around the family to support them while safety concerns are addressed. Services are available to families during the course of child abuse assessments when child safety issues are present or are likely to occur without the Department's intervention. Services are designed to ensure a safe environment for children without removing them from their parent or caregiver. If circumstances require a child be removed from their parent or caregiver, these services provide necessary support to the family so the child can be safely reunited with their family. The goal of these services is to provide a combination of concrete safety and strengths-based change services that will lead to lasting safety changes within the family's home. These services support crucial child welfare initiatives to increase the number of children who can remain safely at home after a safety threat is identified, and decrease the length of time a child spends in foster care if removal is required. By contracting with a wide variety of providers, ISRS also allows for a culturally and linguistically specific approach in an effort to reduce the disproportionate placement of children of color in foster care.

Legislation in 2011 created Strengthening, Preserving, and Reunifying Families programs and identified them as the primary programs to serve families involved in the child welfare system. The goal of these programs is to foster collaborations between state and community programs and resources, as well as help children remain safely with their families. This must occur through partnerships and collaborations with State and community programs and resources that will stabilize the family in their time of need, work with the family to develop goals for family preservation services, and empower the family to make changes which may alleviate the need for an out-of-home placement. These programs are potentially an extension and enhancement to ISRS services, and are delivered through contracts

with community providers. Parents and families benefit from DHS and communities working together to provide stronger up front services and use voluntary engagement in solutions, services, and supports to achieve more successful resolution of issues. An additional anticipated outcome will be the safe and equitable reduction of children in the foster care system by increasing the number of African-American and Native American children remaining home with their families.

A key necessary partner for program success is the Attorney General's Office who provides legal representation to DHS for all children under its jurisdiction. DOJ also files and litigates termination of parental rights cases. In most cases, the District Attorney office provides legal services representing the State, from the petition until jurisdiction.

Program Justification and Link to 10-Year Outcome

There is a direct link between the Child Safety Program and the Safety Outcome that Oregonians will be safe where they live, work and play. Each year, thousands of Oregon families come through the child welfare system due to allegations of child abuse or neglect.

The services are designed to strengthen families and to prevent further child abuse and neglect. We provide support to prevent the unnecessary removal of children from families, and promote the reunification of families where appropriate. Drug and alcohol abuse, together with domestic violence, are the two major family stressors contributing to children entering foster care in Oregon. By supporting families early with services designed to keep children safely with their parents, costly foster care placements are avoided. The average monthly cost per child in foster care is approximately \$2,200.

Without the services and interventions that are provided to parents and their children there are costs that will be felt at a later date in the Safety and other Outcomes areas. For example, often it is the risk of having their children placed in foster care that motivates parents who are deep into drug or alcohol addiction to seek treatment and maintain sobriety. Not only does seeking treatment and maintaining sobriety help keep their children in their home, but it also allows parents to take the steps needed to be self-sufficient, reducing costs in the Economy and Jobs Outcomes area. It decreases the likelihood that these parents will engage in illegal activities and any resulting criminal proceedings or incarceration, reducing future costs to the Safety Outcomes area. Similarly,

helping a family deal with their domestic violence issues so that the children and non-offending parent can live without fear and further violence reduces long-term costs that are associated with the child's education performance (Education Outcomes Area) and the child's and non-offending parent's health and well-being (Healthy People outcomes area). Being able to provide In-Home and Reunification Services reduces the costs of foster care (Safety Outcomes area).

Program Performance

The Child Safety Program measures its performance in three primary categories:

- **First contact:** As a way to measure how well DHS assures initial child safety, the timeliness of first contact is measured for those reports of child abuse and neglect that are assigned for in-person investigation. Since 2008, timeliness of first contact has remained about 86 percent. With the increases in staffing levels the Department expects that there will be an improvement in this critical measurement.
- **Assessment:** DHS measures the comprehensiveness of the CPS assessment, the level of services that were provided and the appropriateness of safety planning for the child by monitoring whether the child experienced repeat maltreatment within six months of a prior abuse. From 2007 through 2010 re-abuse rates improved incrementally. Since 2012 the re-abuse rate has remained between 2.6 percent and 4.2 percent. With recent increases in staffing levels, and enhancements to our practice model, this measurement is expected to remain below 5 percent.
- **Equity:** DHS measures disparities in terms of success outcomes for various populations of clients in order to ensure equity in service delivery.

Enabling Legislation/Program Authorization

ORS 419B.020 is the statute that mandates the Department and Law Enforcement to conduct investigations upon receipt of reports of child abuse or neglect.

The Child Abuse Prevention and Treatment Act (CAPTA) is one of the key pieces of legislation that guides child protection. CAPTA, in its original inception, was signed into law in 1974 (P.L. 93-247). It has been reauthorized in on multiple occasions since then with multiple amendments that have strengthened and refined the scope of the law.

ORS 418.575 through 418.598, Strengthening, Preserving and Reunifying Families legislation, was passed during the 2011 legislative session. The Indian Child Welfare Act (ICWA) also applies.

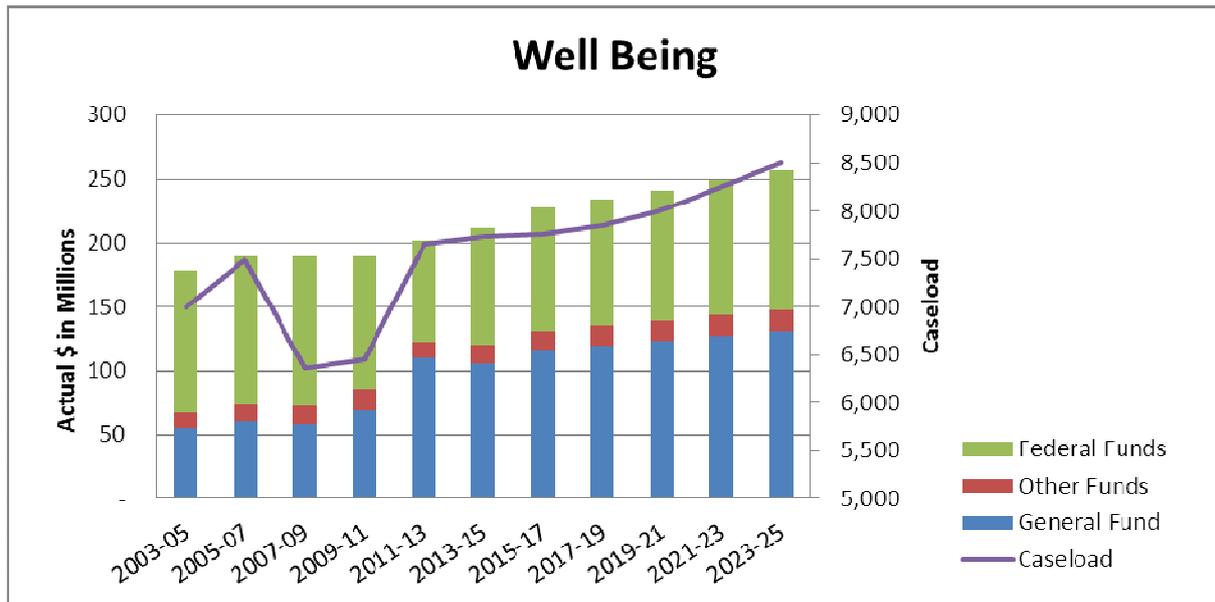

Funding Streams

Funding for this program area comes from a combination of sources that are dedicated and do not require a match, as well as leveraged funds which are matched. The following list is inclusive of each of the funding sources:

- Social Security Block Grant (SSBG) accounts for 26 percent of the child safety budget
- Title IV-B part 1 makes up 15 percent
- Title IV-B part 2 makes up 12 percent
- State only General Fund makes up nine percent
- Family Violence makes up 11 percent
- Title IV-E Independent Living makes up three percent

Department of Human Services: Well Being

Primary Outcome Area: Safety
 Secondary Outcome Area: N/A
 Program Contact: Kevin George, 503-945-5987
 AJ Goins, 503-945-6897

Note: On average, there are 8,524 children in substitute care on any given day in Oregon.

Executive Summary

The Substitute Care Program, also known as the Foster Care Program, is designed as a critical safety net for children with immediate safety needs. DHS is responsible for accepting and caring for children who cannot remain safely with their parents. These children are dependent, neglected, mentally or physically disabled, and placed in the legal custody of DHS by a court. Under limited circumstances and for a short time, a family may place a child in State custody on a voluntary basis. However, most of the children served in foster care are there involuntarily as a result of abuse or neglect they experienced in their family home.

Significant Proposed Program Changes from 2011-13

No significant changes are directly proposed for this program in 2015-17.

Program Description

This program operates 24 hours a day, seven days a week to accept and care for children and youth who cannot remain safely in their family homes. The program served 12,113 children in 2013 who are abused or neglected. DHS partners with community members and organizations representing diverse linguistic and cultural perspectives to deliver foster care services to children and youth across the State. The agency has a federal and state mandate to provide reasonable efforts to return children to their parents. Currently, approximately 58.7 percent of children entering care return home to a parent. There are approximately 4,229 (on 9/30/2013) Oregon families who have stepped forward to be a foster parent. Approximately 40 percent of these certified families are relatives or friends of families with children in foster care. There are approximately 45 licensed private child placing agencies in Oregon who are caring for children and youth, most often because the child or youth has a significant behavior or mental health need. An average of 8,447 children are in substitute care programs on any given day with 6,035 of those in Family Foster Care, and 43.1 percent of those with relatives. The remaining children are either in treatment services (approximately 520 children) with private agencies or are in Trial Reunification with their parent. Substitute care also responds to the overall well-being of the child or youth in care. Well-being is identified as caring and attending to child's behavioral, emotional and social functioning. This is best identified through meeting the core educational needs, physical and mental health needs, and needs for family and community connections.

To be successful in meeting the needs of the children and youth for their safety and well-being, we support current programs while expanding the available service array. DHS works in collaboration with multiple State and local governmental

agencies such as the Oregon Health Authority, Oregon Department of Education, and local law enforcement in addition to a significant number of community programs, schools, business or faith communities and volunteer programs. The Child Welfare Program has a strategic plan to safely and equitably reduce the number of children that enter the foster care system, and provide for the care and well-being of children who enter the system. Those children who must enter the foster care system generally have greater needs than those who can remain at home or with relatives. The ability of staff to meet the needs of these children and adequately support the foster families caring for them is directly related to staffing levels in the program.

There are multiple cost drivers to this program area including the number of children entering the substitute care system due to abuse or neglect, and the number of children who remain in the substitute care system due to the inability to be reunified or transitioned to an adoptive family. Another cost driver is the growing cost of living within the community and daily expenses for providing food, clothing, shelter, education or other support services for children and youths. As an example, the foster parents caring for the children are currently compensated \$21.53 a day to care for a 10-year-old child. This is meant to cover the costs of providing food, clothing, shelter, etc. Often the additional costs for the child are paid for by the foster parent or a private agency which remains a barrier for many families and private agencies across the state.

Some of the efficiencies to improve performance range from planning and implementation of Differential Response, described in the Safety Programs, and a reinvestment of local community services to strengthen families which are intended to reduce the need for foster care. In addition, for children who are in care, an increase in their educational support and school placement continuity, and increased access and continuity of comprehensive health care (physical, mental and dental), increased financial and structural support for the foster families, and private agencies who care for the children and youth.

This program is also responsible for the certification and support of families that care for children in the Department's custody. This includes the recruitment, assessment, retention, training and support. Training of these families is conducted both by agency staff and through contracted providers. Families participate in a Structured Analysis Family Evaluation (SAFE) home study assessment, designed to evaluate a family's readiness to meet the needs of children that enter the system. Through deliberate attention to these structures and supports, our abuse in foster

care is less than one percent. We take abuse in foster care seriously and expect zero tolerance for abuse of children in our care.

Program Justification and Link to 10-Year Outcome

The Child Welfare Substitute Care Program is embedded within the 10-Year Plan for Oregon as a state policy vision for the Safety Outcome area. Substitute Care programs are necessary to ensure safety for children if and when they are unable to remain safely with their families. The reliance on the substitute care system over the years has reached a capacity that is no longer sustainable in Oregon. Capacity of this system has been reached in financial support for the system, limited availability of foster parents, and ongoing research that indicates if substantive preventive services can be immediately put into place that then diverts the removal of children from families and into the substitute care system. Re-directing resources away from the removal of children from families and increasing the capacity of families who currently have children in the substitute care system by reinvesting in upfront and in-home services within communities will pay far greater dividends to Oregon in meeting the outcomes identified in the 10-Year Plan. This reinvestment will support a Substitute Care Program that will only be necessary if preventive services are not successful for some families and children.

Of utmost importance is the safety of children who must be placed in substitute care. DHS continues to track the rate of abuse in foster care with a goal of no abuse of a child in foster care. One major program improvement has been the implementation of the SAFE home study model. This method of comprehensive psychosocial evaluation identifies a prospective foster family, relative caregiver or adoptive family's strengths and identifies and addresses issues of concern to promote the best fit between the needs of a child and the family.

This program directly connects with the 10-Year Plan in the following ways:

Strategy:

- Increase family stability and child safety.
- Implement social reinvestment in the foster care system.

Outcomes:

- Reduce incidents of child abuse and neglect throughout Oregon on a per capita basis.
- Reduce the number of children entering the foster care system while maintaining and reducing Oregon's low re-abuse rate.

- Ensuring equitable outcomes to reduce the over-representation of Native and African American children in Oregon’s foster care system.
- Better education outcomes for children and improved employment and prosperity outcomes for their parents.
- Improved school readiness and academic performance.

Program Performance

Program performance is measured in the following ways:

- The number of children who enter care has seen decline each of the last 4 years. The number of children entering care in 2013 was 3,730 a reduction from 4,140 who entered in 2012. The cost per foster care case is increasing each year, going from \$29,924 in 2006 to \$31,367 in 2011.
- The duration of a foster care stay is 17.3 months for FFY2013. The department anticipates this rate staying the same or slightly increasing while the impact of Differential Response diverts children from foster care. The children who do enter are likely to have more challenging family system issues and require more time to mitigate the needs for care.
- The rate of abuse in foster care is less than one percent.
- The ORKids information technology system allows for tracking on educational outcomes, school readiness and educational achievement.

Enabling Legislation/Program Authorization

There are a number of Federal acts that are centered on the care for children through substitute care programs. Some of the more prominent Federal acts and Federal regulations are noted below.

- *Adoption Assistance and Child Welfare Act P.L. 96-272.* To establish a program of adoption assistance, strengthen the program of foster care assistance for needy and dependent children, and improve the child welfare, social services, and aid to families with dependent children programs. Requires states to ensure and the Courts to determine that reasonable efforts continue to be made on each individual child to mitigate the need for continued foster care.
- *Indian Child Welfare Act (ICWA) PL 95-60.* To establish standards for the placement of Indian children in foster and adoptive homes and to prevent the breakup of Indian families.
- *Adoption and Safe Family Act PL 105-89.* To promote the adoption of children in foster care by placing limitations and timelines.

- *Fostering Connection to Success and Increasing Adoption Act PL 110-35.* To support and connect relative caregivers, improve outcomes for children in foster care.

Title IV-E, The Federal Foster Care Program, helps to provide safe and stable out-of-home care for children until the children are safely returned home, placed permanently with adoptive families or placed in other planned arrangements for permanency. Title IV-B provides grants to States and Indian tribes for programs directed toward the goal of keeping families together. They include preventive intervention so that, if possible, children will not have to be removed from their homes. Finally, the Social Security Act contains the primary sources of Federal funds available to States for child welfare, foster care and adoption activities.

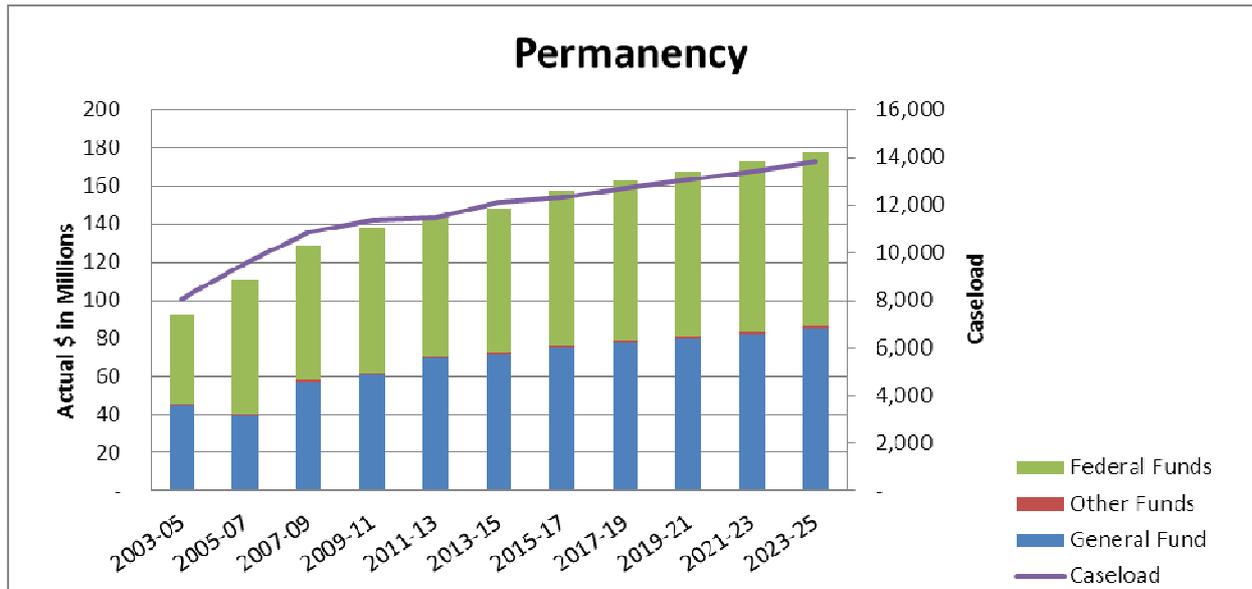

Oregon Revised Statutes that specify which children are involved in the Substitute Care Program can be found under ORS 418.015 Custody and Care of Needy Children by Department and ORS 418.312 When Transfer of Custody Not Required; Voluntary Placement Agreement; Review of Children Placed in Certain Institutions.

Funding Streams

There is a combination of funding sources in the Substitute Care Programs. Leveraged funds include: Title IV-E, 28 percent; Medicaid, 25 percent; Title IV-E Waiver 3 percent; Independent Living, 3 percent; Other Federal Funds, three percent; TANF twelve percent; Chafee one percent; Social Service Block Grant Federal Funds, one percent; Title IV-B, one percent The remaining funding is General Fund State Only, approximately 20 percent.

Department of Human Services: Permanency

Primary Outcome Area: Safety
 Secondary Outcome Area: N/A
 Program Contact: Kathy Prouty, 503-947-5358

Note: Over 58 percent of children served in the foster care system return to their parents. Adoption and guardianship are the next most permanent placements for children. A total of 667 adoptions and 273 guardianships occurred during the last federal fiscal year.

Executive Summary

Children in foster care receive assistance through the Child Permanency and Post-Adoption/Guardianship Support Programs. DHS helps foster children achieve legal permanency through reunification, adoption or guardianship. If children achieve legal permanency through adoption or guardianship, this program continues providing support to the families to meet the special needs and lifelong challenges of children who have been abused and neglected.

Significant Proposed Program Changes from 2013-15

No significant changes are directly proposed for this program in 2015-17.

Program Description

The first and primary permanent plan for all children who enter the foster care system is reunification with a parent. Reunification services are delivered through the efforts of field staff with consultation, support, training, and technical assistance from central office consultation staff. Only after it is determined that a foster child is unable to be safely reunited with a parent, will the alternate plans of adoption or guardianship be implemented.

Adoption and guardianship services are delivered through the joint efforts of field and central office staff. When children are unable to return to their parents' custody, the department's efforts are directed to finding a permanent family so the children can leave the foster care system. Research shows that children who turn 18 and age out of the foster care system have poorer outcomes than children who are raised in a permanent home. The process of preparing children for adoption or guardianship, searching for an appropriate family, transitioning the children and monitoring the placement until the adoption or guardianship is finalized is work that is carried out by field staff. The process of ensuring the completeness of the file for adoption or guardianship, supporting the field in determining which children are not able to return to their parents, finalizing the adoption and supporting families after the adoption or guardianship is carried out by central office staff.

During the last biennium, DHS completed 1416 adoptions and 568 guardianships. Most children adopted through Oregon's foster care system are eligible for ongoing adoption financial support and medical coverage. Overall, approximately 12,000 families receive ongoing adoption and guardianship financial support to meet children's special needs. We also provide administrative oversight in all

private and independent adoptions, and operate a Search and Registry Program, which is mandated by law. This adds program responsibility for an additional 700-900 children who are adopted privately or independently each year in Oregon.

DHS works closely with the Department of Justice (DOJ) who provides legal representation for all children committed to the Department. DOJ also handles termination of parental rights cases. Other key partners include county District Attorneys, private mediators and attorneys, private adoption and recruitment agencies, the Child Protective Services and Foster Care programs of DHS, and the Division of Medical Assistance Programs at the Oregon Health Authority.

Primary cost drivers for the Permanency and Adoption/Guardianship Assistance Programs include the legal costs of freeing and placing children for adoption, and the number of eligible children for adoption and guardianship subsidies. Based on their history of abuse and trauma, almost 100 percent of the children adopted annually from the child welfare system are considered special needs children and eligible for an adoption subsidy. Families for approximately 95 percent of the eligible children choose to receive some monetary adoption assistance to assist in meeting these children's special needs.

Program Justification and Link to 10-Year Outcome

The Child Permanency and Adoption/Guardianship Support Programs are designed to impact the safe and equitable reduction of children in foster care. Children in the foster care system need targeted, family focused and timely services in order to achieve reunification. Those who cannot safely be reunified with their biological parents need safe and appropriate alternate forms of permanency. Evidence shows that children who do not have permanency experience issues in the future such as lack of education, unemployment, homelessness, and incarceration at much higher rates than the general population. Specifically, former foster children have high rates of mental illness with over half having clinically diagnosed mental health problems, including depression and Post-Traumatic Stress Disorder. These grown former foster children have a greater chance of using the services provided by the Oregon Health Authority and the Addictions and Mental Health sub-program (Healthy People Outcomes area). The safety and stability that come with a permanent home help mitigate the risk of poor future outcomes for those who were abused and placed into foster care as children.

The Education and Economy and Jobs Outcomes areas may also be impacted if children cannot find permanency through adoption and guardianship. These grown

former foster children tend to complete high school at a rate comparable to the general population. However, most of the high school completion is done via a GED versus a high school diploma, known to lead to lower wage jobs. Further, completion of post-secondary education is low for this group, affecting the lifelong earnings and living standards of these former foster children. The low educational achievement and mental health issues result in many of the grown former foster children living at or below the poverty level and requiring more public assistance. From a 2005 study, one-third of the grown former foster children lived in poverty and one-third had no health insurance. The rate at which these grown foster children used Temporary Assistance to Needy Families (TANF) was five times higher than the general population.

Post-adoption and guardianship services are important in assisting families in providing care for children who often enter adoption and guardianship with significant special needs. Children who have experienced significant abuse and neglect will be challenged to address their history as they move through different developmental stages. Ongoing support of the families who are parenting these children is essential to preserve the placements. Post-adoption and guardianship services include information and referral, consultation in response to imminent and current family crises, support groups, training, and a lending library. Each year, approximately 1,400 to 1,600 contacts are made to the post-adoption services program for help. Some of these contacts are for reported crises or disruption-related issues. Children who disrupt from adoption or guardianship re-enter the foster care or residential treatment system.

Program Performance

Program performance is measured in a number of ways and data is consistently used to evaluate effectiveness. Currently the Child Permanency program is focusing on some specific performance measures and designing its program activities to impact these areas. They include the median months for children to exit the foster care system, reduction of the number of children who do not have a legal permanency plan and are likely to age out of the foster care system, median months for children achieving adoption, and legally free children who are adopted in less than 12 months.

All these measures are important because they show how successful we are in getting children out of the foster care system, in achieving stability with one primary caretaker, in keeping their lifelong family connections, and in matching

children to the family who can best meet their long-term needs for safety, well-being, and permanency.

Enabling Legislation/Program Authorization

The following Federal and State laws mandate the operation of permanency planning for children in the foster care system:

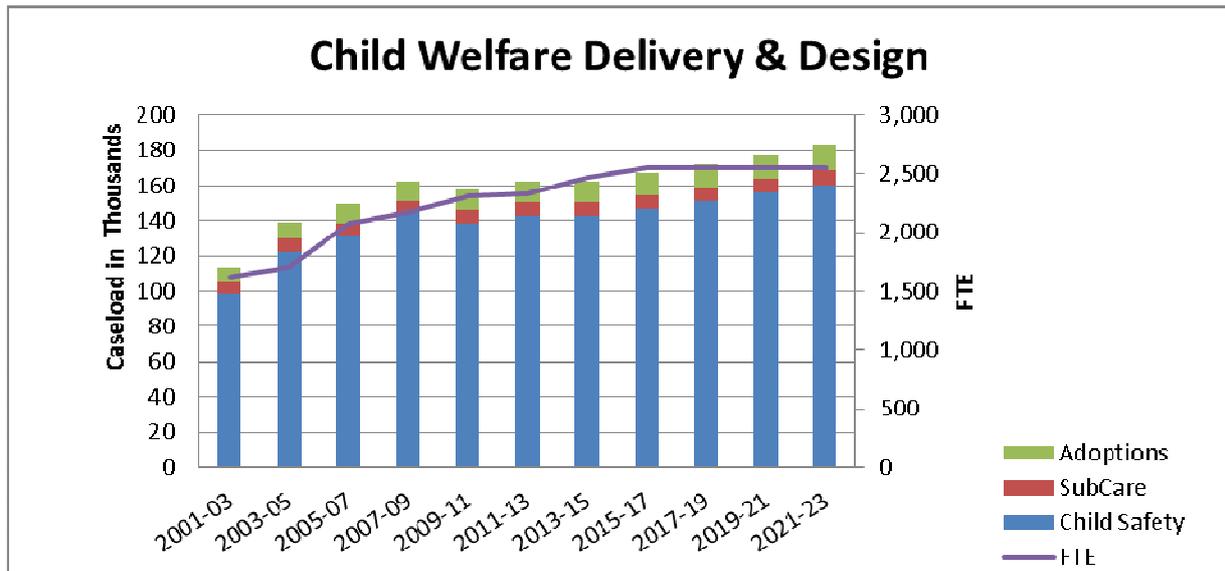

- Public Law 96-272 Adoption Assistance and Child Welfare Act of 1980 which established the program of adoption assistance and introduced the requirement to make reasonable efforts to keep children out of foster care
- Public Law 105-89 The Adoption and Safe Families Act which set federal time lines for moving children out of foster care
- Social Security Act Title IV-E which mandates the payment of adoption assistance for eligible children
- The Indian Child Welfare Act (ICWA)
- ORS 419A and 419B which provide a series of requirements for services to children in the foster care system
- ORS 109.309 which mandates the Department of Human Services to provide administrative services for independent adoptions and to operate a state Search and Registry program

Funding Streams

A combination of General and Federal Title IV-E funds the adoption and guardianship subsidy programs. Title XIX Medicaid funds the provision of medical coverage for children in adoptions and guardianship subsidies. A combination of General Fund and Title IV-B funds support programs such as recruitment and retention of foster and adoptive homes, post-adoption support and services and training.

Department of Human Services: Delivery and Design

Primary Outcome Area: Safety
 Secondary Outcome Area: Healthy People
 Program Contact: Lois Day, 503-945-6627
 Ryan Vogt, 503-945-6120

Note: The Child Welfare Program responds to approximately 70,000 reports of abuse or neglect each year and serves approximately 10,000 abused children through foster care.

Executive Summary

This program represents the field structure that supports the safety of children across Oregon who are abused or neglected. As of January 1, 2015, there will be approximately 1,333 child welfare caseworkers across Oregon responding to over 64,000 reports of abuse and neglect, and serving approximately 12,100 abused children annually that experience foster care. The program also finalizes approximately 700 adoptions a year, creating a permanent home for children in foster care that cannot return to their parents' custody. This structure is administered in our central office in Salem to support field staff through technical support, policy and standards, evaluation, analysis, and parameters of program areas in Child Welfare.

The staffing investment in 2013-2015 brought the Child Welfare caseworkers to nearly 86 percent of the workload model by the end of the biennium, assuming all positions are filled. These staff are critical to the integrity of the Oregon Safety model, our intervention model for safety assessments and safety management.

	(\$ millions)					

The combination of increased staffing, In Home Safety and Reunification Services (ISRS), Strengthening, Preserving and Reunifying Family Program (SPRF) funding, and implementation of a Differential Response model, continue to help the department make significant progress in preventing and/or delaying children from entering care, reducing the length of stay for those in care and providing culturally appropriate, family based services in community settings.

DHS proposes an increase in the staffing level of Central Office positions that support field workers to maintain fidelity to the Oregon Safety Model, support the field staff in the continued implementation of Differential Response, increase capacity in the Quality Assurance Unit, and support provider payments through the ORKids system.

In addition DHS proposes a planning team for the development of a centralized abuse hotline process supporting citizens of Oregon. This planning team will explore the facility needs, staffing levels, technology needs, and change management needs to implement a single call center for calls of abuse/neglect. This effort is aimed at streamlining processes, ensuring consistent decision making, and creating efficiencies across multiple programs. They will prepare a cost analysis for the 2017-19 session to implement the center.

Program Description

This program provides the personnel necessary for delivery and design of programs and services which include evaluation of calls of abuse and neglect, assessment and determination of which children need safety services, case management for children who enter foster care, assessment of families that will care for these children until they can return home, and visitation with parents and family while experiencing out-of-home care. The program also provides clinical supervision of direct service staff which is critical to building worker competencies including reinforcing positive social work ethics and values, encouraging self-reflection and critical thinking skills, building upon training to enhance performance, and supporting the worker through case work decision-making and crises. This is partially achieved through lower staff-to-supervisor ratios as recommended by the Child Welfare League of America (CWLA). Safety services are delivered through the Oregon Safety Model which is an overarching process that requires safety assessment and safety management at all stages of case management, from screening through case closure.

Child Welfare design and delivery coordinates with Self Sufficiency design and delivery to support family stability and prevent entrance into the foster care system for their common clients. In addition, Child Welfare coordinates with other child and family serving systems including Housing, Oregon Health Plan, Addictions and Mental Health, county-based health and support services, etc. Child Welfare continues to work to eliminate disparities and ensure equitable outcomes for families and children.

Major cost drivers for the personnel need are: Program mandates (Federal and State); the number of reports received alleging abuse; family stress factors which affect abuse risk and case complexity (substance abuse, unemployment, mental or physical health issues, criminal history, domestic violence, etc.); personnel turnover (training/travel costs); work effort required to provide services, and personnel packages (i.e., position cost, etc.). Additional drivers of cost include representation from the Department of Justice connected to dependency matters, court-ordered services and workload associated with Federal mandates such ICWA.

DHS has implemented Lean Daily Management Systems in all districts across the State and central office. This active process of identifying ways to improve efficiencies will allow DHS to reinvest staff resources to close the gap between positions earned and authorized positions as they are identified. Currently this

effort is directed at delivering more efficient processes surrounding new technology, with a goal of increasing the time staff has to work with families and children, and decreasing the time spent on the processes used to deliver the work. There has also been a significant investment in making sure each office has streamlined business systems. These help to make sure work is being shifted to the right resource, and that data entry in ORKids is timely and accurate.

Child Welfare continues with a primary focus of safely and equitably reducing the number of children who experience the foster care system. A critical element of that strategic effort is the implementation of Differential Response. Differential response allows Child Welfare to tailor its response to the needs of families. This includes using a higher level of engagement with families during the assessment phase, and strengthening the community's ability to support families. In states where the response options have been increased beyond the traditional model, more children are able to remain safely with their parents while their families receive services that will increase their capacity to keep their children safe. Studies demonstrate that children who are not subjected to the trauma of a foster placement fare substantially better on long-term outcomes than children who experience foster care. Children who age out of foster care have higher rates of homelessness and involvement with the criminal justice system than the general population. Differential Response is a critical part of the DHS strategy to eliminate areas of disparities and ensure equitable outcomes. Implementation of Differential Response began in the initial three counties in May 2014. An additional four counties are scheduled for implementation in April 2015. Staged implementation will continue through 2017. A critical element of successfully implementing this transformation of the child welfare system is staffing at a level adequate to do the work. Sustaining the current staffing levels is critical to support this transformation and continue the foster care reduction.

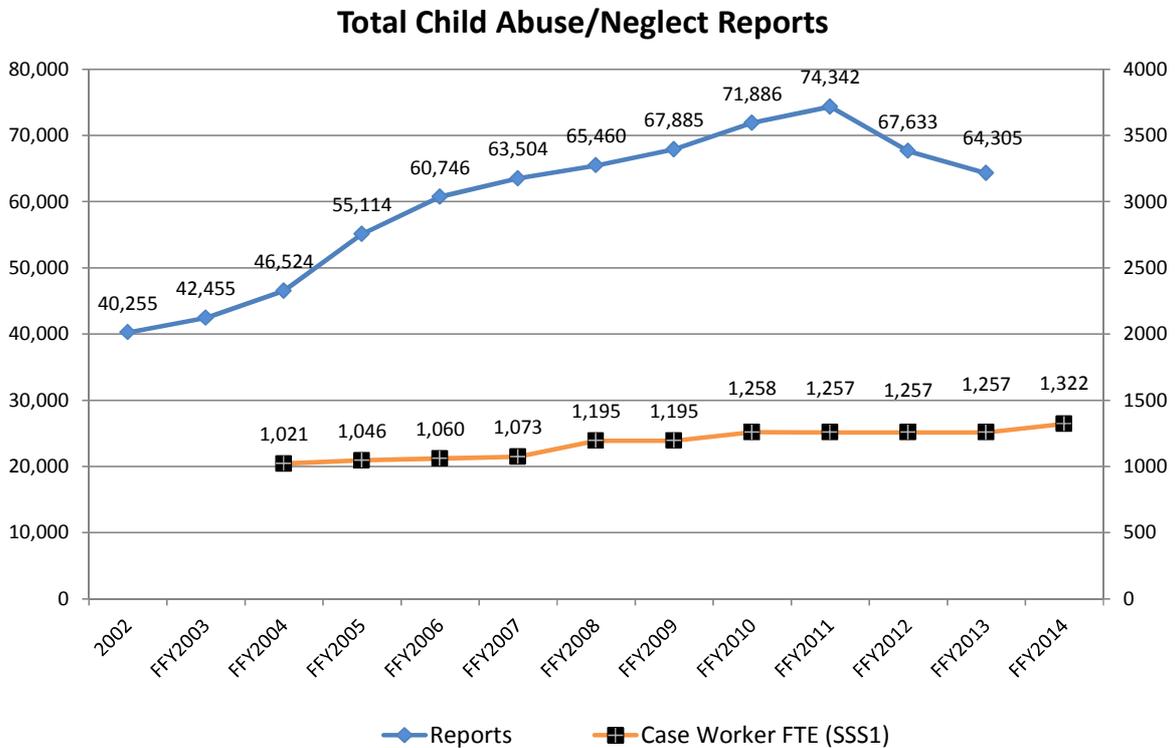

Program Justification and Link to 10-Year Outcome

There is a direct link between the program design and delivery for Child Welfare and the Safety Outcome area to support increased family stability and child safety; prevent vulnerable youth from entering the public safety system; and implementing social justice reinvestment practices. Through Child Welfare interventions, safety for abused and neglected children is established. The program's work with families enhances their ability to safely parent their children and prevent foster placements.

Child Welfare Program delivery and design provides the personnel to administer, design and deliver child safety supports through abuse investigation, service identification and procurement, family development and reunification where possible, or alternative child safety planning when necessary which have a direct impact on the 10-Year Outcomes areas.

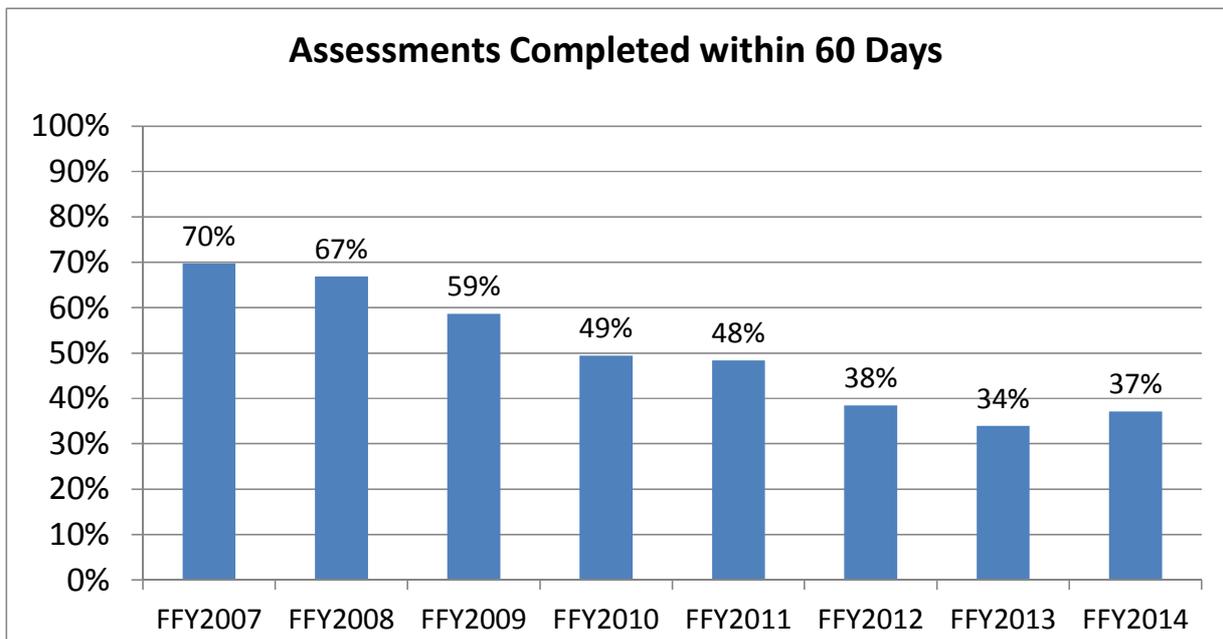

Program Performance

Personnel resources are necessary to provide performance in the delivery of programs within Child Welfare. The chart below provides a comparison of the caseload growth to the personnel growth over time which provides a display of how our resources directly impact the department’s ability to keep pace with the need of vulnerable Oregonians.

Safety for children is measured through the performance measures of timeliness of responding to reports of abuse and neglect, our ability to have regular and frequent face-to-face contact with children and families, and the timeliness of achieving a permanent plan for a child to minimize the duration of a stay in foster care. All of these performance measures are impacted by the staffing levels for the Child Welfare Program. Child safety is jeopardized when there is not adequate staff to

respond, visit children and families, or move children to a permanent home. Although additional staff was added in the 2009-2011 legislative session, the hiring freezes of 2010 and 2011 eroded the gains made on completing assessments within 60 days. Adding additional staff in 2013-2015 was critical to reestablishing a positive trend in foster care reduction. We are also starting to see the ability to complete assessments within 60 days increase, as the new staff get trained. Normally, it takes up to two years for new staff to become fully able to carry the workload effectively.

With the assistance of McKinsey & Company, a workload model was developed to record the work effort to provide program delivery. The workload model provides a basis for determining personnel needs to adequately support the work of Child Welfare. The Fall Forecast matrix below provides a comparison of the delivery positions authorized by the 2013-2015 Legislature and the need based on work effort to meet the need. The Child Welfare central support was not included in the workload modeling by McKinsey. However, the work of Child Welfare central support is vital to the delivery of services in field offices. Central support provides the oversight of policy development, program design and changes required through legislation, Federal reporting compliance, and direct practice support to the field. In summer 2014 the workload for delivery positions was assessed to determine the

needed staffing levels and to provide a baseline for a determination of the workload impact of implementing Differential Response.

Enabling Legislation/Program Authorization

Child Welfare services are mandated by multiple Federal and State laws including PL96-272, Adoption Assistance and Child Welfare Act; PL95-608, Indian Child Welfare Act PL 105-89, Adoption and Safe Families Act; PL 110-351, Foster Connections to Success and Increasing Adoption Act; Social Security Act Title IV-E and Title IV-B; ORS Chapter 418, and ORS Chapter 419B.

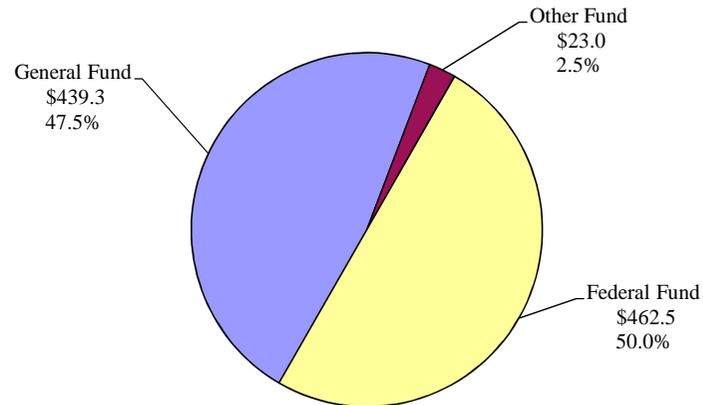

Funding Streams

Personnel for program design and delivery is determined through Random Moment Sampling Surveys (RMSS) where field delivery staff are required at random intervals to indicate the time spent on various activities to determine the level of Federal funding which directly supports our ability to provide critical child welfare services. Block grant funds include Social Services Block Grant (SSBG) and Temporary Assistance for Needy Families (TANF) funds. Leveraged funds include Medicaid, Title IV-E and IV-B funds, primarily at a 50 percent Federal Fund and 50 percent General Fund match rate. State-only General Funds also comprise a portion of the budget.

Department of Human Services

Vocational Rehabilitation Programs

Mission

Vocational Rehabilitation (VR) helps Oregonians with disabilities gain employment through specialized training and new skill development. VR assesses plans, develops and provides vocational rehabilitation services to Oregonians so they can become independent through positive employment outcomes.

The Program

This is a state and federal program authorized by state law and the federal Rehabilitation Act of 1973, amended in 1998 and in 2014.

VR helps Oregonians with disabilities gain employment through specialized training and new skill development. This includes helping youth with disabilities transition to jobs as they become adults, helping employers overcome barriers to employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. A total of 383,381 working-age Oregonians experience a disability, but only 36 percent are employed. Employment helps people with disabilities become more self-sufficient, involved in their communities, and live more engaged, satisfying lives.

All working-age Oregonians who experience a disability and are legally entitled to work are potentially eligible for VR services. Individuals who experience a medical, cognitive or psychiatric diagnosis that results in an impediment to employment typically are eligible for services. Recipients of Social Security disability benefits are presumed eligible for services.

Approximately 95 percent of all eligible clients currently served by VR are people with significant disabilities. These individuals typically experience multiple functional limitations requiring several services provided over an extended period.

VR has counselors with expertise in the areas of intellectual and developmental disabilities (I/DD), deafness and hearing impairments, mental health, motivational intervention, spinal injury, and traumatic brain injury.

Individuals we serve

Vocational Rehabilitation employees provide direct services through a network of local offices across Oregon. For a list, see:

<http://www.oregon.gov/dhs/vr/Pages/officelocation.aspx>

Services are provided by rehabilitation counselors and support staff who deliver direct client services through 34 field offices and multiple single employee outstations in one-stop career centers and other human services agencies across the state. The demographics in Oregon are changing and VR is adapting accordingly in order to provide culturally-specific services to consumers and to help diversify the workforce.

VR Data

- Helped 15,599 individuals and obtained 2,376 employment outcomes in federal fiscal year 2014.
- Contract with 39 school districts and consortia on behalf of 115 schools to provide serves for approximately 1,300 students each year.
- Assisted 340 individuals with intellectual and developmental disabilities (I/DD) and 70 individuals with psychiatric disabilities obtain jobs in federal fiscal year 2014. Of those 340 individuals with I/DD who obtained jobs, 146 are maintaining their job through supported employment services.

Services Provided

VR is designed under four primary areas: basic services, youth programs, supported employment, and independent living. In addition, VR is also engaged in Oregon's Employment First policy and is committed to improving workforce partnerships.

Basic Services

These are basic services provided to individuals whose disabilities present a potential barrier to employment. A rehabilitation counselor conducts a comprehensive assessment to evaluate vocational potential, including diagnostic and related services necessary for the determination of eligibility for services as well as the nature and scope of services to be provided. Vocational counseling and guidance builds on this assessment and helps the client identify a vocational goal. The counselor, in partnership with the client, develops an individualized plan for employment and authorizes services and training in support of the plan while maintaining a counseling relationship with the client.

Youth Transition Program (YTP)

YTP operates as a partnership between VR, the Oregon Department of Education (ODE), the University of Oregon's College of Education, and local Oregon school districts. At least 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average. This internationally and nationally-recognized school-to-work transition approach is a best practice for young people with disabilities. YTP bridges the gap between school and work by providing coordinated vocational rehabilitation services while the student is in school and ensuring a smooth transition to adult services and employment after completion of school. YTP currently serves about 1,300 students in 39 school districts.

Supported Employment Services

These services target individuals with the most significant disabilities who, with intensive training, job coaching and the provision of ongoing supports, can obtain and maintain competitive employment in the community. Basic vocational rehabilitation services are provided on a time-limited basis for each client.

Addictions and Mental Health division (AMH), the Office of Developmental Disability Services (ODDS), other community programs, families and private employers are responsible for the follow-along services once VR has completed placement and training services. Supported Employment Services combine traditional VR services and support services provided by job coaches, typically at job sites.

Independent Living

Services are available through seven Centers for Independent Living (CILs). The CILs are nonprofit organizations that provide information and referral, independent living skills training, peer counseling, and both systems and individual advocacy. CILs also provide a range of services based on local needs, many of which compliment services provided through other state and federally funded programs. Services are provided through a peer-mentoring model, with an emphasis on self-help, self-advocacy, and consumer responsibility.

CILs are a federal program established in the Rehabilitation Act of 1973. Oregon's State Independent Living Council was established by Governor's Executive Order 94-12 in 1994. VR has the responsibility to:

- Receive, account for, and disburse funds received by the state;
- Provide administrative support services to the CILs;

- Keep records and provide access to such records as the Rehabilitation Services Administration Commissioner finds necessary; and
- Fund and support the State Independent Living Council's resource plan.

In addition, VR is working with the CILs and Disability Rights Oregon (a private nonprofit) to sustain the Work Incentive Network (WIN). WIN was developed as a pilot project through a Medicaid Infrastructure Grant and funding may end for these services. WIN is an evidence-based practice, providing benefits and work incentives planning to individuals with significant disabilities who want to obtain, maintain, or increase their employment, but should not lose other benefits and medical coverage. This allows people on disability benefits to become employed, gain more levels of self-sufficiency, become engaged in their communities, and live a higher quality of life. They also begin paying taxes and reduce reliance on those publicly-funded services.

Employment First

Youth and adults with intellectual and developmental disabilities (I/DD) are significantly underrepresented in Oregon's workforce. With appropriate services and assistance, people with I/DD can work successfully in the community. The state is seeking to increase employment of people with I/DD in integrated workplaces through increased efforts around the Employment First policy.

The Governor's Executive Order 13-04 directs state agencies and programs, including VR, DHS' Office of Developmental Disability Services (ODDS) and the Oregon Department of Education (ODE), to increase community-based employment services for people with I/DD and to reduce state support of sheltered work. VR has specialized counselors around the state committed to working with people with I/DD to find employment in the community.

Workforce Partnerships

Due to workforce redesign efforts at the state level and the passing of the Workforce Opportunities and Innovation Act of 2014 (WIOA), Oregon's workforce partners are working together to enhance services for Oregonians.

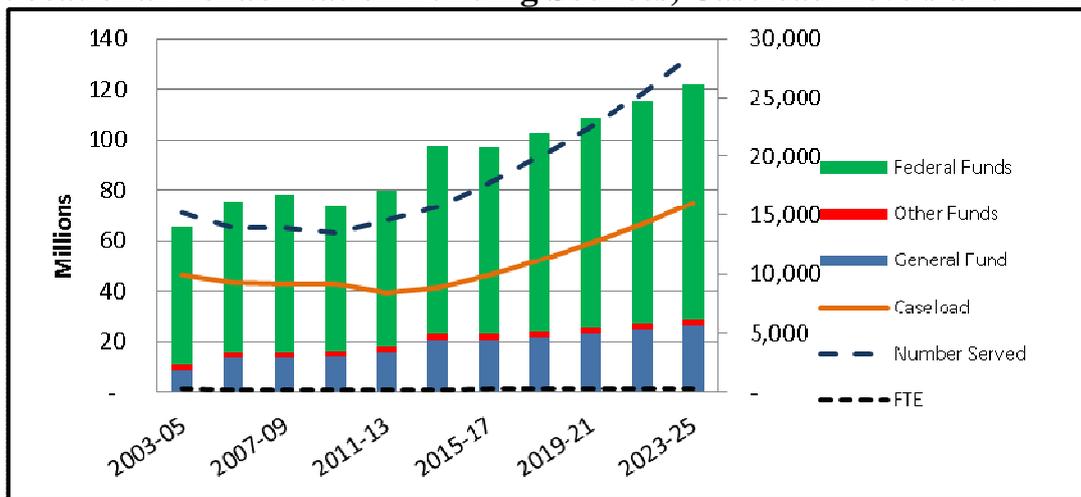

VR has partnered with ODE, local workforce boards, the Oregon Employment Department, community colleges, and other economic developmental organizations, to bridge the gap for individuals with disabilities who benefit from accessing the entire workforce system.

By working with partners on the implementation of the Oregon Workforce Investment Board's 10-year-plan, VR continues to create opportunities for individuals with disabilities to access and benefit from various workforce strategies. Moving forward, VR will enhance employer outreach strategies to engage employers and conduct outreach and education to show that clients are reliable, dependable, and skilled workers who also happen to have disabilities. VR will also engage employers to provide work-based learning opportunities for all clients, including youth transitioning into post-secondary careers.

Department of Human Services: Vocational Rehabilitation

Primary Outcome Area: Economy and Jobs
 Secondary Outcome Area: Education
 Program Contact: Trina Lee, 503-945-6201

Vocational Rehabilitation Funding Sources, Caseload Levels and FTEs

Note: Cost per case increase is the result of a growing number of people with cognitive disorders requiring services that come with higher costs.

Executive Summary

Vocational Rehabilitation (VR) helps Oregonians with disabilities gain employment through specialized training and new skill development. This includes helping youth with disabilities transition to jobs as they become adults, helping employers overcome barriers to employing people with disabilities, and partnering with other state and local organizations that coordinate employment and workforce programs. A total of 383,381 working-age Oregonians experience a disability, but only 36 percent are employed. Employment helps people with disabilities become more self-sufficient, involved in their communities, and live more engaged, satisfying lives.

All working-age Oregonians who experience a disability and are legally entitled to work are potentially eligible for VR services. Individuals who experience a medical, cognitive or psychiatric diagnosis that results in an impediment to

employment typically are eligible for services. Recipients of Social Security disability benefits are presumed eligible for services.

Approximately 95 percent of all eligible clients currently served by VR are people with significant disabilities. These individuals typically experience multiple functional limitations requiring several services provided over an extended period.

VR has counselors with expertise in the areas of intellectual and developmental disabilities (I/DD), deafness and hearing impairments, mental health, motivational intervention, spinal injury, and traumatic brain injury.

Services are provided by rehabilitation counselors and support staff who deliver direct client services through 34 field offices and multiple single employee outstations in one-stop career centers and other human services agencies across the state.

Specialized services that help clients be as self-sufficient as possible are provided through seven Centers for Independent Living (CILs) located throughout the state.

VR staff also work in partnership with community organizations and businesses to develop employment opportunities for people with disabilities. These activities range from live resume events and job fairs to presenting disability awareness workshops in local businesses. VR also offers business services that include consultations with employers about diversifying their workforces by hiring people with disabilities and pre-screening services to match employers with clients who are qualified, reliable job candidates.

Program Funding

The Governor’s Budget to operate the Vocational Rehabilitation program is \$20.6 million in general funds for the 2015-17 biennium. This is a 1 percent decrease from the Legislatively-approved budget for the 2013-15 biennium. This is due to the elimination of inflation and the assumption of a 3 percent vacancy factor across all positions.

	Vocational Rehabilitation					
	GF	OF	FF	TF	POS	FTE
LAB 13-15	\$ 20,866,337	\$ 2,324,757	\$ 74,438,950	\$ 97,630,044	234	230.28
GB 15-17	\$ 20,694,165	\$ 2,320,512	\$ 74,158,866	\$ 97,173,543	253	249.28
Difference	\$ (172,172)	\$ (4,245)	\$ (280,084)	\$ (456,501)	19	19.00
Percent change	-0.8%	-0.2%	-0.4%	-0.5%	8.1%	8.3%

VR has prepared a strategic budget to improve the program's effectiveness and enhance the program's ability to provide further employment outcomes for Oregonians. Program improvements focus on return-on-investment through outcomes for our clients, including:

- Serve increased numbers of individuals with intellectual and developmental disabilities
- Improve access for benefits planning
- Increase youth served transition services
- Expand capacity to serve employers

Program Description

VR is designed under four primary areas: basic services, youth programs, supported employment, and independent living. In addition, VR is also engaged in Oregon's Employment First initiative and is committed to improving workforce partnerships.

Basic Services

These are basic services provided to individuals whose disabilities present a potential barrier to employment. A rehabilitation counselor conducts a comprehensive assessment to evaluate vocational potential, including diagnostic and related services necessary for the determination of eligibility for services as well as the nature and scope of services to be provided. Vocational counseling and guidance builds on this assessment and helps the client identify a vocational goal. The counselor, in partnership with the client, develops an individualized plan for employment and authorizes services and training in support of the plan while maintaining a counseling relationship with the client.

Youth Transition Program (YTP)

YTP operates as a partnership between VR, the Oregon Department of Education (ODE), the University of Oregon's College of Education, and local Oregon school districts. At least 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average. This internationally and nationally-recognized school-to-work transition approach is a best practice for young people with disabilities. YTP bridges the gap between school and work by providing coordinated vocational rehabilitation services while the student is in school and ensuring a smooth transition to adult services and employment after completion of school. YTP currently serves about 1,300 students in 39 school districts.

Supported Employment Services

These services target individuals with the most significant disabilities who, with intensive training, job coaching and the provision of ongoing supports, can obtain and maintain competitive employment in the community. Basic vocational rehabilitation services are provided on a time-limited basis for each client.

Addictions and Mental Health division (AMH), the Office of Developmental Disability Services (ODDS), other community programs, families and private employers are responsible for the follow-along services once VR has completed placement and training services. Supported Employment Services combine traditional VR services and support services provided by job coaches, typically at job sites.

Independent Living

Services are available through seven Centers for Independent Living (CILs). The CILs are nonprofit organizations that provide information and referral, independent living skills training, peer counseling, and both systems and individual advocacy. CILs also provide a range of services based on local needs, many of which compliment services provided through other state and federally funded programs. Services are provided through a peer-mentoring model, with an emphasis on self-help, self-advocacy, and consumer responsibility. CILs, along with Oregon's Area Agencies on Aging (AAAs), provide leadership statewide and nationally in the formation of the "No Wrong Door" experience for seniors and people with disabilities accessing Long Term Care Supports & Services via the Aging & Disabilities Resource Connection (ADRC) network.

Program Justification and Link to 10-Year Program

VR assists individuals with disabilities to establish a foundation by identifying a personal vision, goals and steps necessary to achieve success in education and employment, and become independent, productive citizens. Its services and programs link to three focus areas in the 10-Year Plan for Oregon: Employment and Jobs, Education, and Safety.

Employment and Jobs

- Every year VR develops a state plan which includes goals to increase self-employment and employment outcomes for clients and to increase the number of individuals who obtain postsecondary degrees and certificates.
- The state is seeking to increase employment of people with intellectual and developmental disabilities (I/DD) in integrated workplaces through

increased efforts around the Employment First initiative. The Governor's Executive Order 13-04 directs state agencies and programs, including VR, DHS' Office of Developmental Disability Services (ODDS) and the Oregon Department of Education (ODE), to increase community-based employment services for people with I/DD and to reduce state support of sheltered work. VR has specialized counselors around the state committed to working with people with I/DD to find employment in the community.

- VR assisted 340 people with I/DD and 70 individuals with psychiatric disabilities obtain jobs in federal fiscal year 2014.
- In federal fiscal year 2014, 2,376 individuals obtained and maintained work through the basic rehabilitation program. VR Employer Services provides training and technical assistance to employers for new hires and incumbent workers, and identifies and refers qualified candidates. A Portland State University study found that VR returned \$4.03 in tax revenues to the state of Oregon for every \$1 spent in the program.
- VR continues to contract and collaborate with the Latino Connection program in reaching out to and providing specialized job placements services to native Spanish-speaking individuals with disabilities. The focus of these services has been in Portland, Clackamas, Salem and Woodburn, which have large Latino communities. This program had a 70.4 percent rehabilitation rate in federal fiscal year 2014.

Education

- The nationally-recognized Youth Transition Program supports the 10-Year Plan goal of two years of postsecondary education or equivalent technical training. More than 70 percent of students with disabilities in YTP complete high school and transition to a job or postsecondary education, a rate that exceeds the national average. YTP bridges the gap between school and work by providing coordinated vocational rehabilitation services while the student is in school and ensuring a smooth transition to adult services and employment after completion of school. YTP currently serves about 1,300 students in 39 school districts.
- VR utilizes Supported Employment, an evidence-based model, which allows individuals with developmental and intellectual disabilities to work in competitive employment in the community with needed supports.
- The Independent Living program partners with schools and families to support the transition of students with disabilities to secondary education and/or work.

- Memorandums of Agreement with the Office of Developmental Disabilities Services and the Oregon Department of Education are designed to more effectively align transition services, identify opportunities to braid and leverage funding in order to increase the number of students with disabilities.

Safety

- CILs train seniors and people with disabilities to develop personal preparedness plans and on empowerment and safety as a preventative for crime and abuse often faced by these populations.
- CILs also provide training and mentoring to parents with disabilities, which enhances skills for management of their homes and families.

Program Performance

VR measures its performance primarily by employment outcomes. Employment outcomes are the number of individuals who obtained and successfully maintained employment for a minimum of 90 days. The chart below shows employment outcomes for VR since 2008.

Vocational Rehabilitation						
Year		FFY14	FFY13	FFY12	FFY11	FFY10
# Served	Youth	3,449	2,051	1,886	1,720	1,305

	Youth	552	548	439	404	237
	SSI/SSDI	646	539	558	428	283
Rehab Rate		62%	59%	58%	57%	47%
Wage		\$12.07	\$11.76	\$11.63	\$11.68	\$11.38
Hours		27	27	27	27	27
Cost per Client		\$6,473.59	\$3,132	2,848	\$3,065	\$2,488

Oregon’s seven Centers for Independent Living (CILs) continue to be innovative catalysts to independence for people with disabilities in Oregon. Leveraging community partnership funds and empowering people with disabilities with peer supports, CILs provide a Return on Investment (ROI) for Oregonians estimated at about a \$6 return for every \$1 invested. The ROI, conducted by the Association of

Oregon Centers for Independent Living, is based on statistical studies of consumers served and cost savings achieved in 2008 with an updated 2014 analysis pending for winter 2015 publication. The chart below shows Independent Living Program outcomes since 2009.

Independent Living Program

YEAR	FY2014	FY2013	FY2012	FY2011	FY2010	FY2009
# Served	18,940	16,497	14,791	11,863	7,358	5,688
Consumer Goals	3,015	2,913	3,853	4,225	3,533	4,317
% Goals Achieved	56%	55%	61%	60%	60%	62%
Consumer Satisfaction	81%	74%	73%	87%	89%	92%

Enabling Legislation/Program Authorization

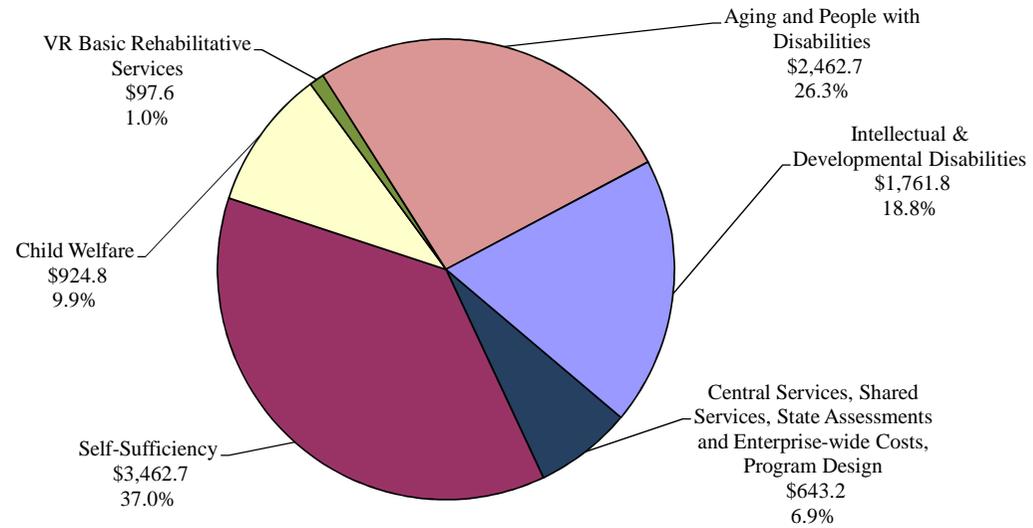

VR is a state and federal program authorized by Oregon state law (ORS 344.511 et seq.) and the Workforce Innovation and Opportunity Act of 2014.

The Independent Living Program is a federal program established in Title VII of the Rehabilitation Act of 1973, as amended, and regulated by the Code of Federal Regulations, Title 34, and Parts 364-367. In conjunction, Oregon’s State Independent Living Council was established in 1994 by Governor’s Executive Order 94-12. VR is listed as the designated state unit for this program in the State Plan for Independent Living, per Section 704 of Title VII.

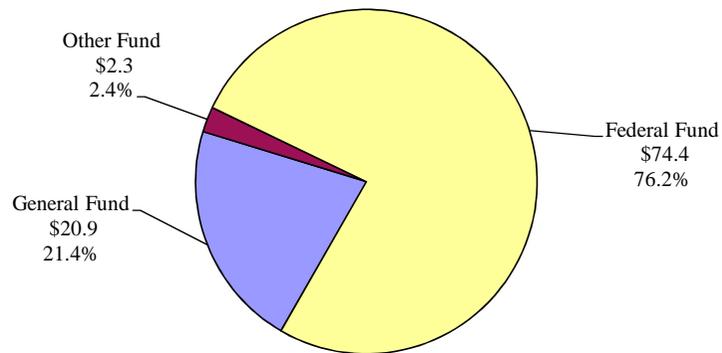

Funding Streams

VR is funded through the federal Department of Education. It receives a formula-based grant with Match and Maintenance of Effort requirements. The match rate for Vocational Rehabilitation is 21.3 General Fund; 78.7 Federal Fund. For Independent Living the match rate is 1 General Fund; 9 Federal Fund. Grant dollars cannot be utilized by other programs. Program income, which is reinvested back into VR, includes Social Security reimbursement and Youth Transition Program grants.

Department of Human Services

Aging and People with Disabilities Program

Mission

The Department of Human Services Aging and People with Disabilities (APD) program assists a diverse population of seniors and people with disabilities of all ages to achieve well-being through opportunities for community living, employment, family support and services that promote independence, choice and dignity.

Goals

APD's goals are to help older adults and people with disabilities by:

- Facilitating broad awareness of, and easy access to services.
- Investing in preventive services to keep people independent, safe and healthy for longer periods of time.
- Implementing person-centered case management to serve people in the most independent and culturally sensitive manner.
- Promoting high quality services by APD, its local partners, and providers.
- Advocating for improved outcomes for APD consumers.
- Administering programs with the utmost integrity.

Individuals we serve

During the 2015-2017 biennium, we expect to serve:

- Over 2,500 people age 60 and older through Oregon Project Independence.
- Over 31,000 older adults and people with physical disabilities with long-term care services paid through Medicaid.
- Over 400,000 older individuals with Older Americans Act services.
- Over 150,000 Oregonians with direct financial support services.

APD and Area Agencies on Aging (AAA) employees throughout Oregon are responsible for providing direct client services through a network of local offices. Employees also determine eligibility of aging and people with disabilities for medical programs provided through the Oregon Health Authority (OHA). The aging demographic is growing rapidly, increasing the diversity of the populations we serve. APD has formed a Service Equity subcommittee as part of the work we are performing under SB21. The objective is to identify disparities in

outcomes and identify strategies to serve individuals in a culturally and linguistically appropriate manner.

Medicaid Services

Approximately 30,000 aged and physically disabled Oregonians currently use Medicaid long-term services each month. By federal law, each state must develop criteria for access to nursing facility care paid by Medicaid. Criteria must include financial and asset tests as well as service eligibility criteria. The federal government, through CMS, must approve any criteria established by the states.

DHS created service priority levels (SPLs) to establish eligibility for Medicaid long-term services. SPLs prioritize services for aging and people with physical disabilities whose well-being and survival would be in jeopardy without services. Level 1 reflects the most impaired while Level 17 reflects the least impaired; levels are based on the ability of the person to perform activities of daily living (ADLs). Because of budget constraints, only levels 1-13 are funded. ADLs are personal activities required for continued well-being. These include eating, personal hygiene, cognition, toileting and mobility. For many individuals with disabilities, they need assistance from other people to perform daily activities, APD assists thousands of Oregonians who require ADL services in selecting competent providers and establishing effective working relationships with those service providers. Due to the increasingly diverse population served, it requires supports that are equally diverse, linguistically and culturally appropriate.

Programs

APD's budget is sectioned into three key areas; program services, program design, and program delivery.

Program Services

Services focus on supporting fundamental activities of daily living (ADL), such as bathing, dressing, mobility, cognition, eating and personal hygiene. Long-term services ensure that the person is living in a safe and healthy environment. All services promote choice, independence and dignity. Ensuring linguistic access and culturally competent care are pillars of non-discrimination and equal opportunity in state and federally funded services. Services can be provided in nursing facilities, or community settings such as residential care facilities, foster homes, or in the person's own home. Services are provided through five programs:

- Older Americans Act
- Direct financial support
- In-home services
- Community-based care facilities
- Nursing facilities

Older Americans Act

This is a federal program and is administered through APD. It provides federal funding for locally developed support programs for individuals ages 60 and older. APD distributes funds to local Area Agencies on Aging (AAA's) for service delivery through subcontractors. Nearly 400,000 Oregonians accessed these services in 2013. AAA's develop services that meet the needs and preferences unique to individuals in their local area. Program mandates require services target those with the most significant economic and social need, to minorities and those residing in rural areas. There are no income or asset requirements to receive services except those related to the Older Worker Employment Program.

APD distributes federal funds to the AAA's using a federally approved intra-state funding formula based on the demographics and square mileage of each area. APD encourages and incentivizes culturally-specific and linguistically competent supports within all programs. Programs might include; family caregiver supports, medication management, nutrition via congregate and home-delivered meal programs, senior employment, legal services or elder abuse prevention services. They may also provide assistance to senior centers and sponsor and promote evidence-based wellness and chronic health condition management activities.

Direct financial support

Programs are designed to meet a variety of special circumstances for certain low-income populations.

Cash payments – special needs

APD is required to meet maintenance of effort (MOE) payment for low-income aged and disabled Oregonians who receive federal Supplemental Security Income (SSI) benefits. These benefits are focused on payments that allow clients to retain independence and mobility in a safe environment. Examples of Special Needs Payments include; help for non-medical transportation, repairs of broken appliances such as a furnace, or for such things as adapting a home's stairs into a ramp.

Employed Persons with Disabilities Program (EPD)

This program allows people with a disability to work to their full extent and not lose Medicaid coverage. To be eligible, a person must be deemed disabled by Social Security Administration (SSA) criteria, be employed and have adjusted income of less than 250 percent Federal Poverty Level (FPL). Eligible individuals pay a monthly participation fee and are eligible for the full range of Medicaid benefits and services.

Other benefits

The Centers for Medicare and Medicaid Services (CMS) requires DHS to coordinate with Medicare in many areas and clients need help accessing other programs for which they are eligible. The federal Medicare program is the most common program clients need assistance with. APD determines client eligibility and submits client data to CMS for two Medicare-related programs: Medicare buy-in and Medicare Part D low-income subsidy. APD served nearly 120,000 clients in these two programs over one year. These programs help low-income beneficiaries with their cost sharing requirements. Securing this coverage also ensures Medicare remains in a “first payor” status, ultimately saving the State’s Medicaid program significant money.

In-home services

In-home services are the cornerstone of Oregon's community-based care system. For aging or people with physical disabilities, the ability to live in their own homes is compromised by the need for support in regular daily living activities. For more than 25 years, Oregon has created options to meet people’s needs in their own homes. All options are funded with support of the Medicaid program through home and community-based waivers. Oregon has been able to create cost-effective programs that meet people’s needs in their homes and other community settings using these waivers and spared Oregonians from the unnecessary use of much higher cost services, primarily offered in nursing facilities.

Services to aging and people with physical disabilities are designed to support assistance with fundamental activities of daily living (ADLs), such as mobility, cognition, eating, personal hygiene, dressing, toileting and bathing. In order to receive in-home services, an individual must be financially eligible for Medicaid. A case manager works with the client and together they identify needs and develop a plan for the in-home services.

Medicaid client-employed Home Care Workers

Home Care Workers (HCW) are hired directly by the client and provide many of the services Medicaid clients need to remain in their own homes. The client, or his or her selected representative, is responsible for performing the duties of an employer. These duties include selecting, hiring and providing on-site direction in the performance of the care provider duties authorized by a case manager to meet the client's individual needs and circumstances. The HCW must pass a criminal record check. In conjunction with the client, APD develops and authorizes a service plan, makes payment to the HCW on behalf of the client and provides ongoing contact with the client to ensure his or her service needs are met. Over 11,000 clients are expected to receive services supplied by HCWs each month in 2013-15.

The Oregon Home Care Commission (HCC) was established in 2000 by an amendment to the Oregon Constitution. It is a public commission dedicated to ensuring high-quality home care services to APD clients using client-employed providers. Service Employees International Union Local 503, Oregon Public Employees Union represents approximately 15,000 HCW's. For purposes of collective bargaining, HCC serves as the home care worker employer of record. The Commission maintains a statewide, computerized registry of workers and provides an extensive training curriculum. The HCC also makes training available to clients to better understand their employer responsibilities and increase their skill in managing the use of HCWs.

In-home agency services

Many clients prefer to receive their in-home services through a home care agency. These agencies employ, assign and schedule caregivers to perform the tasks authorized by the client's case manager. APD contracts with licensed in-home care agencies throughout the state. Agencies work closely with DHS case managers and clients to ensure services are provided as authorized and to ensure the quality of the work performed.

Medicaid Independent Choices

This program offers a choice to clients in the way they receive in-home services and increases clients' self-direction and independence. Clients receive a cash benefit based on their assessed need. They purchase and directly pay for services. Clients are responsible for locating providers, paying their employees, and withholding and paying necessary taxes. Depending upon how they are able to

manage their service benefit, many are able to purchase a few additional services or items otherwise not covered by Medicaid to increase their independence or well-being.

Medicaid adult day services

These services provide supervision and care for clients with functional or cognitive impairments. Service may be provided for half or full days in stand-alone centers, hospitals, senior centers and licensed care facilities.

Medicaid home-delivered meals

Home-delivered meals are provided for to those who are homebound and unable to go to sites, such as senior centers, for meals. These programs generally provide a hot midday meal and, often, frozen meals for days of the week beyond the provider's delivery schedule.

Medicaid personal care services

Services are limited to no more than 20 hours a month. Personal care can be used only for tasks related to the performance of activities of daily living, such as mobility, bathing, grooming, eating and personal health assistance.

Medicaid specialized living services

Services are provided to a special-need client base, such as those with traumatic brain injuries or other specific disabilities that require a live-in attendant or other 24-hour care. The services are provided through a contract with APD and targeted to a specific group of clients living in their own apartments, and assisted by a specialized program offering direct service and structured supports.

Oregon Project Independence (OPI)

This is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder. Approximately 3,000 Oregonians are served in this program. It represents a critical element in Oregon's strategy to prevent or delay individuals from leaving their own homes to receive services in more expensive facility-based settings, or depleting their personal assets sooner than necessary and accessing more expensive Medicaid health and long-term service benefits. The program was expanded by the 2005 Oregon Legislature to include younger adults with disabilities but no additional funding has been allocated.

OPI is administered statewide by local Area Agencies on Aging (AAAs). Many areas have waiting lists due to high demand and limited program funding. Client eligibility is determined by an assessment of functional ability and natural supports related to activities of daily living. Typical services include assistance with housekeeping, bathing, grooming, health care tasks, meal preparation, caregiver respite, chore services, adult day services and transportation.

The OPI program has no financial asset limitations for clients. A sliding fee scale is applied to clients with net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small group with income above 200 percent of FPL pays the full rate for services provided. Generally this is because they benefit from the case management; ongoing support and monitoring, in addition to the actual purchased services.

Community-based care

Community-based facilities

These include a variety of 24-hour care settings and services to provide an alternative to nursing facilities. Services include assistance with activities of daily living, medication oversight and social activities. Services can include nursing and behavioral supports to meet complex needs. State and federal guidelines related to health and safety of these facilities have to be met.

Adult foster homes

Services are provided in home-like settings licensed for five or fewer individuals who are not related to the foster home provider. Homes may specialize in certain services, such as serving ventilator-dependent residents.

Residential care facilities

Licensed 24-hour service settings serve six or more residents and facilities range in size from six to more than 100 beds. Different types of residential care include 24-hour residential care for adults and specialty memory care facilities. Registered nurse consultation services are required by regulation.

Enhanced care services

Specialized 24-hour programs in licensed care settings that provide intensive behavioral supports for seniors and people with physical disabilities who have needs that cannot be met in any other setting. These programs support clients with

combined funding from APD and the Addictions and Mental Health division of the Oregon Health Authority (AMH).

Assisted living facilities

These facilities are licensed 24-hour settings for six or more residents including private apartments. Services are comparable to residential care facilities. Registered nurse consultation services are required by regulation.

Providence Elder Place

This is a capped Medicare/Medicaid Program of All-inclusive Care for the Elderly (PACE) providing an integrated program for medical and long-term services. 950 Oregonians age 55 and older are served in this program generally allowing them to attend adult day services and live in a variety of settings. The Elder Place program is responsible for providing and coordinating their clients' full health and long-term service needs in all of these settings.

Nursing facilities

Institutional services for aging and people with physical disabilities are provided in nursing facilities licensed and regulated by DHS. Nursing facilities provide individuals with skilled nursing services, housing, related services and ongoing assistance with activities of daily living.

Oregon has led the nation since 1981 in the development of lower-cost alternatives to institutional (nursing facility) care. Home and community-based alternatives to nursing facility services emphasize independence, dignity and choice and offer needed services and supports at lower costs than medical models.

Program Design

Staff and services support the administration of APD programs, including:

- Central leadership and administration
- Medicaid eligibility and federal waiver administration
- Development and maintenance of administrative rules
- Administration of Medicare Modernization Act and Buy-in programs
- Provider payments and relations
- Support and leadership for various advisory councils.
- Administration of the Older Americans Act
- Home Care Commission

Program Delivery

Staff and services provide direct services to Oregonians, including:

- Direct service staff located in local offices throughout the state
- Presumptive Medicaid Disability Determination Team
- State Family/ Pre-SSI
- Disability Determination Services

Eligibility and case management services are delivered throughout the state by DHS and AAA employees. ORS Chapter 410 allows AAAs to determine which populations they wish to serve and which programs they wish to administer. Type B Transfer AAAs choose to provide Medicaid services in addition to Older Americans Act and OPI services. In areas where the AAAs do not provide Medicaid services, DHS has offices to serve seniors and people with physical disabilities.

History

Over the past 30 years there has been a profound shift in society's understanding of the importance of independence for aging and people with physical disabilities. Traditionally, states had provided services to these individuals in institutional settings such as nursing facilities. Oregon's first nursing facility opened in the 1940s. With the passage of the federal statute creating Medicaid, the state began to pay for nursing facility services for eligible individuals in the 1960s.

Professional standards and public thinking about how to best serve people with disabilities began to change and life in their communities became more accessible. Civil rights were strengthened and expanded by the Americans with Disabilities Act, which recently celebrated its 20th anniversary in the areas of employment, public accommodations, transportation and housing. Society became available to individuals with disabilities as accessibility increased and society began to accept people with disabilities as part of the community. Families had the ability to remain intact and to keep their loved ones — child, adult or senior — at home.

Federal dollars to fund Medicaid waivers first became available in 1981 for "Home and Community-Based Services." That same year, the Oregon Legislature updated its policies around disabilities and found that significant numbers of people with disabilities lived in institutions because adequate community services did not exist. The Legislature mandated that the state work to empower people with disabilities,

keep them as independent as possible, and develop service settings that were alternatives to institutionalization. The 1981 Oregon Legislature also created the Senior Services Division and a strong statutory mandate to support seniors in their own homes and community settings outside of institutions. This action forged the way for Oregon to lead the nation in the development of lower-cost alternatives to institutional care.

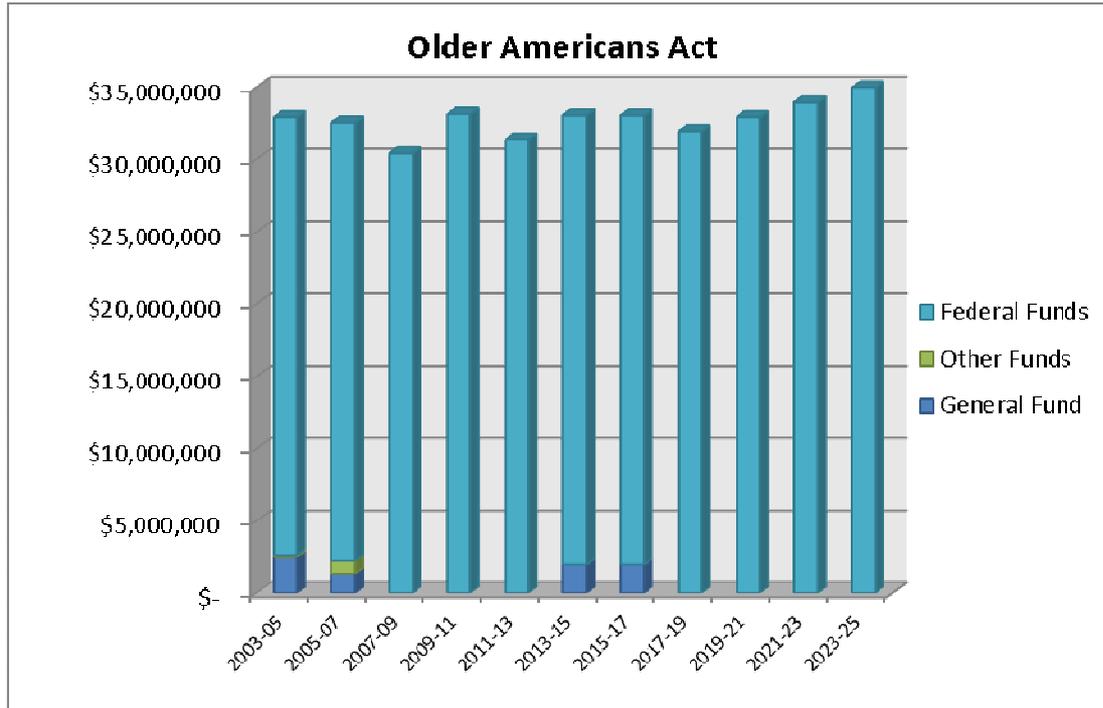

In response to that mandate, Oregon applied for, and received, the first home and community-based waiver that allowed Medicaid funds to provide long-term services outside an institution. Throughout the 1980s and 1990s, Oregon received waivers that allowed services for unique groups of people. For Medicaid-eligible aging and people with disabilities in Oregon, this has meant that the provision of long-term care has, in large measure, shifted away from nursing facilities to in-home services, assisted living facilities, residential care facilities and adult foster homes.

Future populations

The aging population is growing rapidly. The number of people in the United States over age 65 is projected to nearly double from 40.2 million in 2010 to more than 71.4 million people by 2030. In 2010, approximately 13 percent of Oregon's population was 65 years or older. By 2030, the percentage is expected to increase to nearly 20 percent. In Oregon, people 85 years or older make up a small but rapidly growing group within the total population. By the end of 2010, approximately 76,000 Oregonians will have reached age 85. By 2030, the number is expected to reach nearly 120,000, an increase of almost 57 percent. . Cultural diversity, including individuals of different races, ethnicities and sexual orientation will require new approaches to service delivery that ensure all individuals achieve desired outcomes.

Department of Human Services: Older Americans Act

Primary Outcome Area: Healthy People
Secondary Outcome Area: N/A
Program Contact: Mike McCormick, 503-945-6229

Older Americans Act funding comes primarily from the federal government. In 2011, OAA funding helped serve nearly 380,000 Oregonians.

Executive Summary

Services and supports provided to individuals under the Older Americans Act (OAA) provide vital assistance designed to prevent or delay entry into Medicaid-funded long-term care such as In-Home or 24-hour residential services. The OAA is a Federal law that set out a national aging network structure consisting of the U.S. Administration on Aging (AoA) now part of the Administration for Community Living, State Units on Aging (DHS/Aging and People with Disabilities program) and Area Agencies on Aging (AAAs). The OAA authorizes funding and services through this network to serve older individuals in their homes and communities, through local entities. All individuals, aged 60 or older, regardless of income are eligible to receive services but the programs are targeted towards those in greatest social or economic need. A specific focus on how to

better serve diverse populations of older adults is essential with the continually changing demographics of Oregon.

Program Description

Older Americans Act services are administered entirely by local Area Agencies on Aging. To qualify for OAA supported services an individual must meet the following criteria:

- Be 60 years of age or older;
- Be a caregiver of someone 60 years of age or older (or younger if the person is diagnosed with Alzheimer’s Disease or related dementia) or an older individual caring for a child 18 years of age or younger;
- Be 55 or older and have an adjusted income at or below 125 percent of Federal Poverty Level for the Senior Community Service Employment Program (Title V).

Please Note: There are no income or asset/resource criteria for eligibility, except for the Senior Community Service Employment Program (Title V).

The Older Americans Act authorizes services and funding by title:

Title III

Supportive Services

Provides assistance to maintain independence through assisted transportation, information and referral/assistance, in-home care, adult day care, chore services, home modification and other housing help, legal assistance, mental health outreach, and assistive devices. Title III also funds Oregon’s Aging and Disability Resource Connection (ADRC), which provides unbiased information, referral and options counseling for individuals (consumers, family members, caregivers) needing long-term services and supports.

Nutrition Services

In order to reduce hunger and food insecurity and promote socialization, health and well-being the Act authorizes both home-delivered (commonly known as Meals on Wheels) and congregate (community setting, senior center, community center, etc.) meals programs. The Act also provides nutrition education and counseling.

Services Incentive Program (NSIP)

Supplements funding authorized under Title III for food used in meals served under the Older Americans Act. States receive an allocation based on the number of meals served under the OAA in the state in proportion to the total number of meals served by all states.

Preventive Health Services

Authorizes evidence-based programs that promote healthy lifestyles through physical activity, appropriate diet and nutrition, self-management of chronic health conditions and regular health screenings.

National Family Caregiver Support Program

Provides individual and group options counseling, training and respite care for family members and friends who are primary caregivers to seniors. This program also provides support to grandparents raising grandchildren.

Title V

Senior Community Service Employment Program (SCSEP)

Authorizes a community service and work-based training program for older workers that provides subsidized, service-based training for low-income persons 55 or older who are unemployed and have poor employment prospects.

Participants are paid minimum wage for approximately 20 hours per week while they develop valuable skills and connections to help them find and keep jobs in their communities. Title V funding is awarded to DHS/APD from the U.S.

Department of Labor and is competitively sub-granted to a qualified job training organization.

Title VII

Elder Rights Services

Provides a focus on the physical, mental, emotional and financial well-being of older Americans. Services include pension counseling, legal assistance and elder abuse prevention education.

Ombudsman Program

Establishes an Office of the State Long-Term Care Ombudsman a program to identify, investigate, and resolve complaints made by or on behalf of residents of licensed care facilities (nursing homes, assisted living, and adult foster homes) and promote system changes that will improve the quality of life and care for residents. The allocation for this program is 100 percent passed through to the Office of the Long-Term Care Ombudsman, a separate state agency from APD.

OAA Funding

OAA funding is granted to each State Unit on Aging (DHS/APD) based on a population formula. The State Unit on Aging sub-grants Title III funds to Oregon's 17 designated Area Agencies on Aging (AAA) based on a state population formula. The AAAs work with their local communities to assess and develop a menu of services that meet the needs of older adults in their planning and service area. Subsequently, the AAA submits an Area Plan to the State describing the delivery of OAA services in their communities; this is basis for the funding agreement between the AAA and DHS/APD.

Program Justification and Link to 10-Year Outcome

OAA program services contribute to the Healthy People, desired 10-year outcome to focus on prevention and management of chronic disease and reduced healthcare costs. The OAA provides vital support for older adults who are at significant risk of losing their independence by providing food, job training/opportunities, social support, transportation, chronic disease self-management and fall prevention - in partnership with providers and clients.

Annual State Program reports are submitted to AoA, consisting of service unit data and client demographics. Evidence-based programs supported by the preventive health services funding under Title III have provided an opportunity to demonstrate health care cost-saving based on the research supporting the programs. The Senior Community Service Employment Program tracks six performance measures each year including employment and retention. Performance standards and measures have recently been established for the Aging and Disability Resource Connections Program and will be tracked appropriately.

Program Performance

- **Number of people served/items produced**

OAA data reporting requires AAAs to capture identifiable unduplicated clients who receive “registered services” and an estimated number of clients receiving “non-registered services”. Registered services include personal care, home care, chore, meals, day care, case management, assisted transportation, caregiver and nutrition counseling. Non-registered services include but are not limited to information and assistance, health promotion programs, group education, etc. The estimated number of non-registered service clients is 5-6 times that of the registered services clients (e.g. in 2011 OAA served 50,649 registered clients and an estimated 338,234 non-registered participants)

- **Quality of the services provided**

Program standards have been established for the major services and annual program monitoring is conducted.

- **Timeliness of services provided**

The Family Caregiver Support Program of the OAA is the only service area that consistently encounters wait lists.

- **Cost per service unit**

Varies depending on the level of community support, the OAA funding on average supports about one-third of the cost of service. Further funding comes from local governments, donations and fundraising.

The following are selected examples of program performance for the OAA:

Older Americans Act Nutrition Program

	FY 07	FY 08	FY 09	FY 10	FY 11	FY 12	FY 13	FY14*

Enabling Legislation/Program Authorization

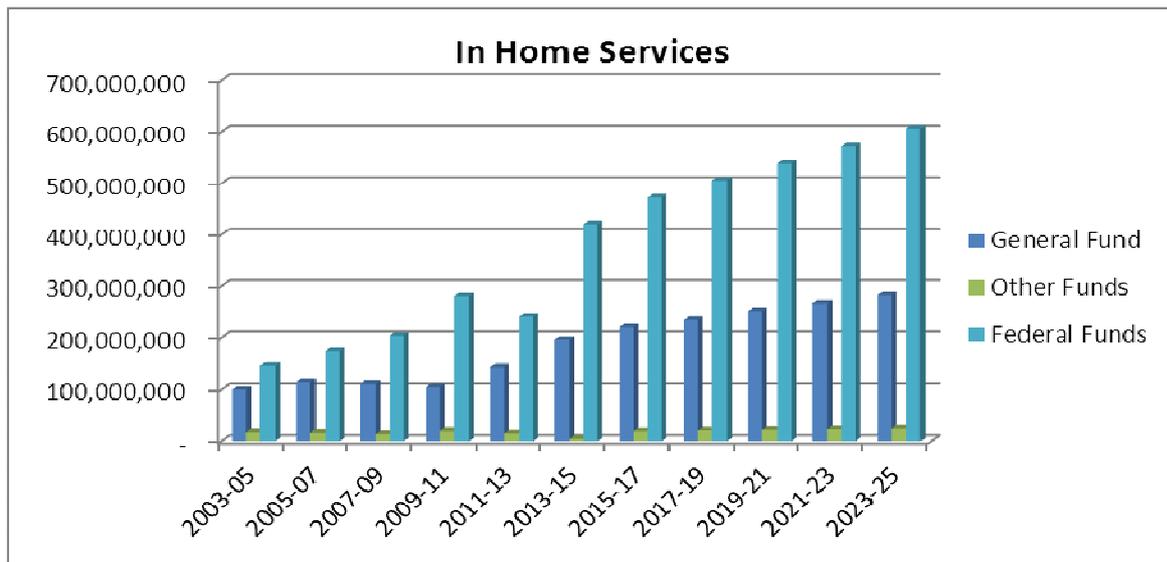

Federal Law: 45 CFR, Part 1321.

Funding Streams

OAA funds are 100 percent federal. The law has a required Maintenance of Effort and state match of \$5 million per biennium, which is met with state funding authorized for the Oregon Project Independence Program (ORS 410.410 to 410.480). OAA funding was never intended nor does it fully fund services. Each dollar of OAA funding is leveraged with \$2 of state and local funds, participant donations and community fundraising. Additionally, the services are enhanced with the in-kind support of volunteers, donated community space and equipment, etc.

Department of Human Services: Medicaid Long-Term Care In-Home Services

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Mike McCormick, 503-945-6229

In-Home caseloads decreased with the elimination of certain eligibility groups in 2003. In the 13-15 biennium, in-home agency and personal care budgets were moved from ‘other services’ to in-home care for reporting purposes.

Executive Summary

In-Home services are the least restrictive service offered in Oregon’s long-term care continuum. This program funds Medicaid long-term care services to seniors and people with disabilities in their own homes for individuals who are eligible to receive the same services in a nursing facility. In 2013, Oregon added a new Medicaid, 1915(k) State Plan Option, or “K plan,” that provides additional flexibility and funds. Approximately 47 percent of individuals served in Oregon’s long term care system are served in their own homes. Oregon spends 78.3 percent of its long-term care expenditures on home and community based services, while the national median is 49.5 percent. In-Home services offer an opportunity to provide differentiated care in a respectful, sensitive, and inclusive manner to Oregonians from a variety of diverse backgrounds.

Program Funding Request

Percent change	16.3%	113.0%	16.7%	17.9%

Program Description

This cost-effective program enables eligible low-income seniors and people with disabilities to remain in their own homes and established communities. Individuals from culturally diverse backgrounds benefit from this program that provides enhanced independence, health, safety, and quality of life. Oregon’s model of long-term care is referred to as a social model, distinctly different from a medical model of care. Social models of care focus on client autonomy, respect, choice and individualized care planning. Individuals are viewed holistically, with provided supports that enhance independence, dignity and respect.

Eligibility for services is based upon a combination of financial criteria and service needs. An individual’s service needs are calculated as a “service priority level”, which ranges from 1 (highest need) to 18 (lowest need). In the 2003 budget crisis, funding to serve individuals with service priority levels 14 through 18 was eliminated. These levels remain unfunded through Medicaid. However, some (not all) of the needs can be met for these individuals through Older Americans Act and Oregon Project Independence programs.

In-Home supports include necessary assistance with Activities of Daily Living (walking, transferring, eating, dressing, grooming, bathing, hygiene, toileting, and cognition) and Instrumental Activities of Daily Living (meal preparation, housekeeping, laundry, shopping, medication and oxygen management). Assistance ranges from several hours per week to twenty-four hours per day. Without these supports, over 13,000 individuals would likely receive services in a more costly nursing facility. The following graph provides a hypothetical picture of the average costs that would be incurred if In-Home services were not offered:

Oregon provides a variety of In-Home service options available to individuals based on preference, choice, and cost-effectiveness:

Consumer-Employed Provider Program

Individuals participating in this program receive services from hourly or live-in homecare workers. The In-Home recipient is considered the employer and is empowered and responsible to hire, train, supervise, track hours worked, address performance deficiencies, and discharge providers. Homecare workers are paid a set rate established through collective bargaining, which the State pays on the individual’s behalf. The Oregon Home Care Commission establishes homecare worker enrollment standards and training for homecare workers, both of which contribute to the quality of In-Home services. APD is forecasted to serve more than 13,000 individuals in this program in the 2013-2015 biennium.

Independent Choices Program

This program is a 1915(j) State Plan Option and allows individuals to exercise more decision-making authority in identifying, accessing, managing, and purchasing goods and services that enhance independence, dignity, choice, and well-being. This option is popular among individuals who wish to take complete control over the planning and provision of services. In the Independent Choices Program, the cost of the established service plan is “cashed-out” and deposited into the eligible individual’s dedicated Independent Choices Program checking account. The individual then pays providers directly based on a negotiated rate. Participants have the flexibility to use a portion of the funds to purchase goods, not available

through the medical plan, that enhance their independence, such as a wheelchair lift for a vehicle or a wheelchair ramp for their home. The state performs periodic monitoring with an emphasis on safety and program integrity. APD is forecasted to serve 294 individuals in this program in the 2013-2015 biennium.

Specialized Living Services

These are services designed to serve a specific special-needs consumer base, such as those with traumatic brain injuries or other specific disabilities who would otherwise require a live-in attendant or other 24-hour care. The services are provided through contracts with qualified vendors who provide specialized, shared-attendant services to individuals living in their own homes or apartments. APD is forecasted to serve more than 180 individuals in this program in the 2013-2015 biennium.

Cost Drivers

The major cost drivers of the In-Home services program are the current number of eligible individuals, their level of needed assistance, the length of time receiving services, and the growing population of those requiring services. The population served is much different than it was 30 years ago when Oregon first received a waiver. With the advancement of medical technology and treatment options, individuals are living longer with chronic disease and significant disabilities. Another major cost driver is the provision of wages and benefits for homecare workers tied to collective bargaining. This includes set wages, paid time off, workers' compensations premiums, unemployment insurance and other benefits.

As illustrated earlier, In-Home service plans have proven to be a cost-effective alternative to nursing facility care. Individuals with hourly plans cost approximately \$1,314 per month. Individuals with live-in plans cost approximately \$2,219. The cost of similar services provided in a nursing facility exceeds \$7,650 per month.

Program Justification and Link to 10-Year Outcome

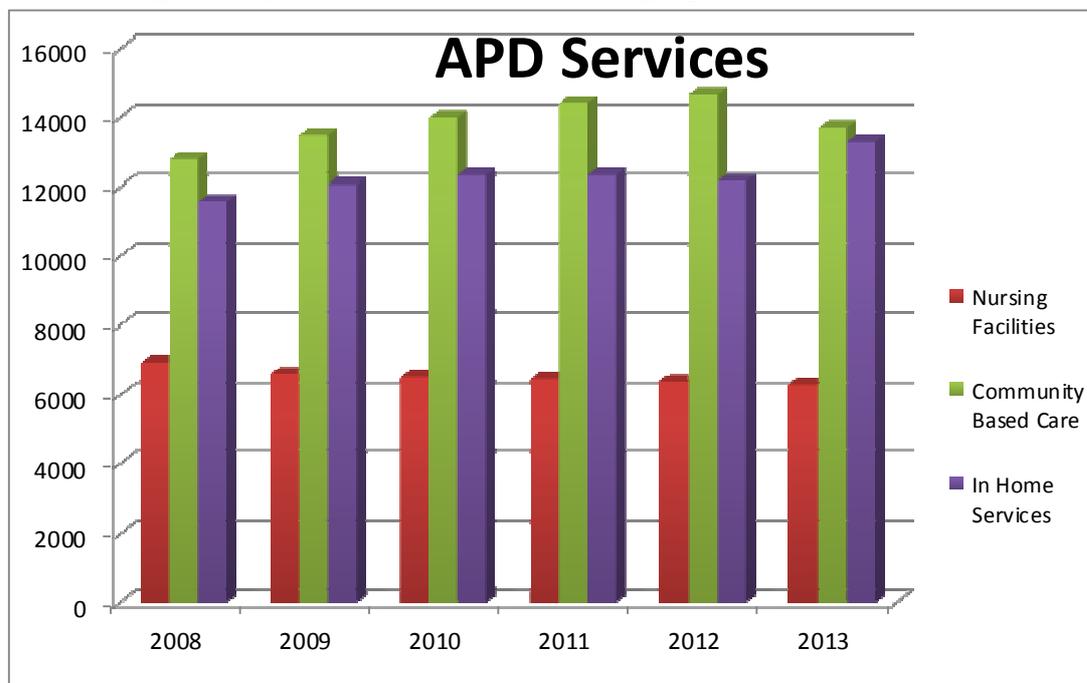

In the early 1980s, Oregon was the first state awarded a Medicaid 1915(c) Home and Community-Based Services waiver from the Centers for Medicare and Medicaid Services, allowing Oregon to serve individuals in their homes and communities. In 2013, Oregon added a new, 1915(k) State Plan Option, or "K plan," that provides additional flexibility and funds. In an independent study conducted by AARP, Oregon received an overall ranking of 3rd out of 50 states in terms of choice of settings and providers, quality of life and quality of care, and

effective transitions from nursing facilities back into the community. Oregon consistently ranks in the top percentage in the number of individuals served in their own home.

There is a direct link between the In-Home services program and the Healthy People outcome that “Oregonians are healthy and have the best quality of life.” The program empowers individuals to direct their own services and make choices that enhance their quality of life, live with dignity, and remain as independent as possible. Health is maintained through the provision of necessary assistance with Activities of Daily Living and Instrumental Activities of Daily Living. Consistent provision of services, including medication management and the preparation of nutritious meals, delays or diverts an individual’s entry into more costly care settings.

Program Performance

A key goal of the Department of Human Services (DHS) is that people are safe and living as independently as possible. DHS currently measures this goal based on the percentage of individuals living in their own homes in lieu of a licensed care facility, as well as the percentage of individuals who move to a less restrictive service setting. Currently, there are more individuals participating in the Medicaid program who reside at home and receive services than there are receiving services in a nursing facility, as demonstrated in the graph below:

Aging and People with Disabilities is currently in the planning process to reform and modernize Oregon's publicly funded long-term care system. This effort involves identifying innovative strategies to increase the percentage of individuals receiving In-Home and community based services.

Enabling Legislation/Program Authorization

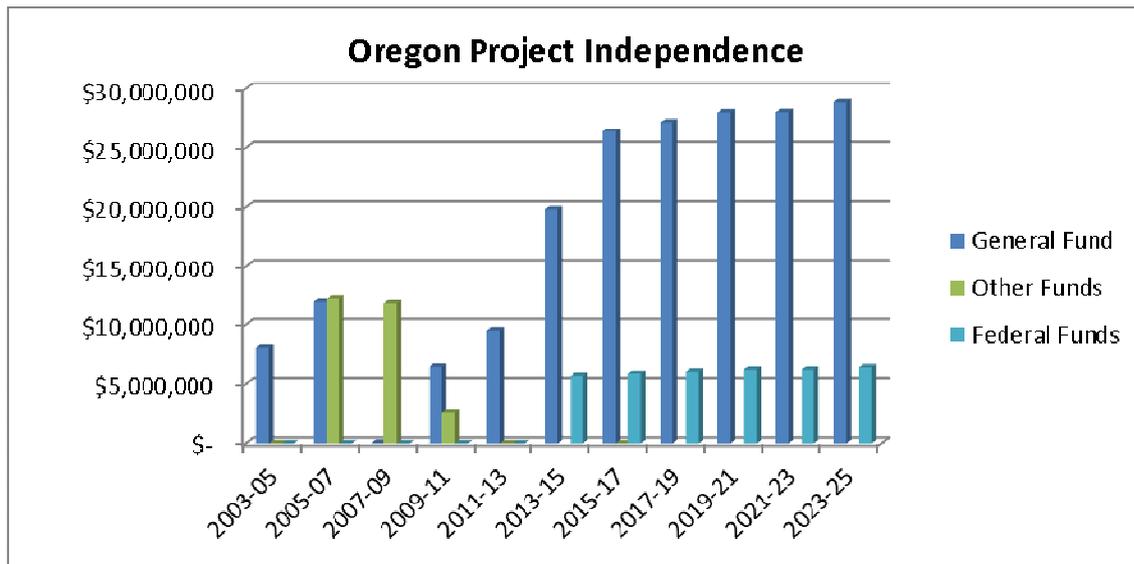

Medicaid is an entitlement program that was enacted in 1965 under Title XIX of the Social Security Act. Eligible individuals have the right to receive long term care services in a nursing facility. While states are not required to participate in Medicaid, in order to receive federal matching funds, states must follow the Medicaid rules. Oregon's Long Term Care system operates under a variety of Medicaid options which allows long term care services to be provided in home and community based settings.

Funding Streams

In-Home services are funded through the Medicaid program. Therefore, the federal government pays approximately 69 percent and the state pays 31 percent. There is a small amount of funding from the estates of former recipients. When a Medicaid recipient dies, we are required by federal law to recover money spent for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

Department of Human Services: Oregon Project Independence

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Mike McCormick, 503-945-6229

Since Oregon Project Independence is a state general-funded program, funding has been volatile and tied to the overall health of the economy.

Executive Summary

Oregon Project Independence (OPI) provides preventive and In-Home services and supports to a diverse population of eligible individuals to reduce the risk of out-of-home placement and promote self-determination. This program optimizes eligible individuals’ personal and community support resources to prevent or delay spend down to Medicaid-funded long-term care, which could consist of In-Home or other 24-hr residential services.

Program Funding Request

	Oregon Project Independence			
	GF	OF	FF	TF
2013-15 LAB	24,491,625	-	5,659,706	30,151,331
GB	19,811,625	-	5,659,706	25,471,331
Difference	(4,680,000)	-	-	(4,680,000)
Percent Change	-19.1%	0.0%	0.0%	-15.5%

Program Description

Oregon Project Independence (OPI) is a state-funded program offering In-Home services and related supports to a diverse population of Oregonians. DHS/APD strives to deliver In-Home services in a culturally and linguistically appropriate manner. OPI provides essential services such as personal care, homecare and chore assistance, adult day care, service coordination, registered nursing (teaching/delegation of nursing tasks to caregivers) and home-delivered meals. This program complements services provided under the Older Americans Act.

Traditionally, OPI served individuals who are 60 years of age or older, are assessed at needing assistance with Activities of Daily Living (eating, dressing/grooming, bathing/personal hygiene, mobility, elimination and cognition) and/or Instrumental Activities of Daily Living (housekeeping, shopping, transportation, medication management and meal preparation) and are not receiving Medicaid. Also, individuals under age 60 who have been diagnosed with Alzheimer's disease or a related disorder are also eligible. The program was expanded by the 2005 Oregon Legislature to include younger adults with disabilities and recently \$3 million in funding for a pilot program has been made available to support this expansion.

There are neither income nor resource requirements for eligibility. However, these factors are taken into consideration when assessing the individual's risk of needing Medicaid long-term care. OPI clients do not pay a charge for the service coordination services they receive. Services other than service coordination are provided at no cost to families with net incomes at or below 150 percent of the Federal Poverty Level (FPL). Families with net incomes from 150 percent to 400 percent FPL pay a fee toward services using a sliding scale based on income. Families with net incomes at or above 400 percent FPL pay the full cost of the services provided, other than service coordination.

In a 2012 study of selected comparable clients, OPI clients on average utilized 24 percent of the hours that Medicaid clients used. The hourly rates are the same for homecare worker services in the two programs, OPI clients utilized 24 percent of the billed hours compared to Medicaid. The stark utilization difference is because the OPI program has capped the number of hours available to each client due to budget restrictions. In addition to personal and home care hours, Medicaid eligibility also provides individuals with benefits for comprehensive healthcare under the Oregon Health Plan (OHP) and pays for these costs. OPI clients do not access OHP so the healthcare expenditures are \$0.

Oregon Project Independence services are delivered statewide through the network of 17 designated Area Agencies on Aging (AAAs). Administrative cost efficiencies have been realized in one area of the state where neighboring AAAs collaborated to jointly secure contracted services of a single In-Home care agency. Similar partnerships should be encouraged statewide.

Program Justification and Link to 10-Year Outcome

OPI contributes to the desired 10-year outcome to “decrease the number of older Oregonians that access Medicaid-funded long-term care.” Data reported by the Area Agencies on Aging in 2009 revealed that 63.6 percent of OPI clients had income below the FPL, 33.1 percent between 100 percent and 200 percent of FPL and 3.3 percent over 200 percent of FPL. This data also revealed that fewer than 10 percent of OPI clients transitioned to Medicaid-funded services, despite the high rate of OPI clients whose income was at or below the FPL. AAAs are currently maintaining waiting lists of individuals who are eligible to be served by OPI. Annually, the “unable to serve” lists of individuals will be evaluated to determine how many of these individuals accessed Medicaid-funded services while waiting to be served by OPI.

Additionally, there is a direct link between the OPI program and the Healthy People outcome “Oregonians are healthy and have the best quality of life.” The program empowers individuals to direct their own services and make choices that enhance their quality of life, live with dignity, and remain as independent as possible. Health is maintained through the provision of necessary assistance with Activities of Daily Living and Instrumental Activities of Daily Living.

Program Performance

- **Number of people served/items produced (From State Program Report)**

	FY 07	FY 08	FY 09	FY 10	FY 11*	FY 12	FY 13**	FY 14**♦
Clients Served	2,559	3,198	2,245	2,166	1,583	1,466	2,048	2,574
Hours of Care	247,322	240,426	239,895	212,381	191,574	157,275	210,874	259,016
Hours of Case Mgmt.	119,181	99,296	72,567	70,787	100,277	66,496	46,100	49,567

**OPI services are managed to a “budget box”. It is not an entitlement program. During the '09-'11 and the first year of the '11-'13 biennium uncertainty in OPI funding caused a closure of OPI services to clients and a reduction of the number of clients through attrition and reduction for the last year of the biennium, as well as increased case management time to support clients.*

***Increased clients served as well as hours of In-Home services are a result of solvency of appropriated funding.*

♦ Preliminary State Program Report data

- **Quality of the services provided**

Personal and home care services are delivered via licensed In-Home care agencies or registered home care workers. Quality of care standards for In-Home care agencies are set forth in licensing rules found in OAR Chapter 333, Division 536; compliance with licensing standards is monitored by the Health Care Licensing and Certification unit of the Public Health Division. Home Care Workers who provide services to OPI clients are required to be registered with the Home Care Commission and receive background checks and ongoing training.

- **Cost per service unit**

The average monthly cost of services to an OPI client is \$332. This average is calculated using a combination of direct, administrative and other costs.

Enabling Legislation/Program Authorization

OPI is authorized under Oregon law at ORS 410.410 to 410.480.

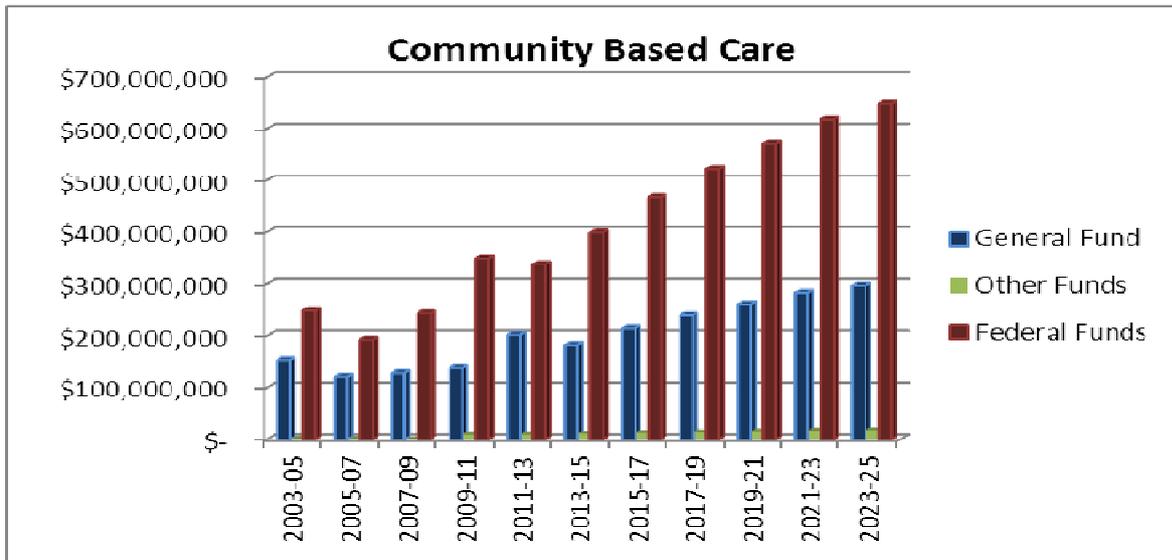

Funding Streams

OPI is comprised of majority State General Funds with a small amount of Federal match funding. Services are expanded through the utilization of program income generated from client cost sharing based on a sliding fee schedule.

OPI serves as the required Maintenance of Effort (45 CFR Sec. 1321.49) and state match (45 CFR Sec. 1321.47) to receive federal funding under the Older Americans Act. At least \$5 million per biennium in state funds is needed to maintain the Maintenance of Effort and match requirements of the OAA.

Department of Human Services: Medicaid Long-Term Care Community-Based Care

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Mike McCormick, 503-945-6229

Caseloads dropped after the elimination of certain eligibility groups in 2003. Access to care was challenging when a robust private pay market existed in the mid-2000s. An investment by the Legislative Assembly in 2008 strengthened access considerably.

Executive Summary

Community-Based Care is considered the middle layer of Oregon’s long-term care continuum and includes a variety of 24-hour care settings and services for low-income seniors and people with physical disabilities who cannot meet their own activities of daily living. These services are part of Oregon’s nationally recognized home and community-based care system, which provides a critical, cost-effective alternative to nursing facilities.

Program Funding Request

	Community Facilities			
	GF	OF	FF	TF
2013-15 LAB	183,122,978	10,945,294	396,008,204	590,076,476
GB	204,043,548	12,427,733	456,710,289	673,181,570
Difference	20,920,570	1,482,439	60,702,085	83,105,094
Percent Change	11.4%	13.5%	15.3%	14.1%

Program Description

The State of Oregon strives to meet the needs and expectations of increasingly diverse populations, and community- based care provides a critical alternative to nursing facilities for seniors and people with disabilities who cannot meet their own daily needs.

Eligibility for long-term care services and supports is based upon a combination of financial criteria and service needs. Recipients contribute their own funds towards room and board directly to community- based care facilities, while the state pays for services, consisting mostly of assistance with Activities of Daily Living (walking, transferring, eating, dressing, grooming, bathing, hygiene, toileting, and cognition) and Instrumental Activities of Daily Living (meal preparation, housekeeping, laundry, shopping, medication and oxygen management). Nursing facility care is a guaranteed Medicaid benefit to eligible individuals. If the state did not use alternatives to nursing facility level of care, more than 13,000 individuals would likely be receiving services in nursing facilities at more than 300 percent of the cost of community- based care services.

The following table illustrates hypothetical costs that would be incurred if community- based care services were not available:

Community-Based Care includes:

- Adult Foster Homes, which serve five or fewer individuals in a home-like setting;
- Residential Care Facilities (RCF), which serve six or more individuals in a facility with private or shared rooms and common areas;
- Assisted Living facilities (ALF), which serve individuals in their own apartments;
- Enhanced Care services, which serve individuals with significant limitations complicated by mental health needs. This program is jointly funded between DHS and the Oregon Health Authority – Addictions and Mental Health Division); and
- Program of All-Inclusive Care for the Elderly (PACE), which serve over 1,000 individuals via a fully capitated premium. The program is jointly funded with Medicare and Medicaid dollars and provides an integrated program for medical and long-term services. Individuals are aged 55 and older, generally attend adult day services, and live in a variety of settings representative of Oregon’s long term care continuum. Oregon’s only PACE provider, Providence Elderplace, is responsible for providing and coordinating their clients’ full health and long-term service needs in all of these settings.

APD competes with the private-pay market for access to most Community-Based Care. Most facilities have a mix of private pay and Medicaid residents. When economic conditions strengthen, and as our society ages, APD may lose access as competition for open beds increases.

Adult foster homes are represented by SEIU and have collective bargaining rights. Factors such as safety and quality cannot be negotiated; however, issues such as training and service rates are mandatory subjects of bargaining.

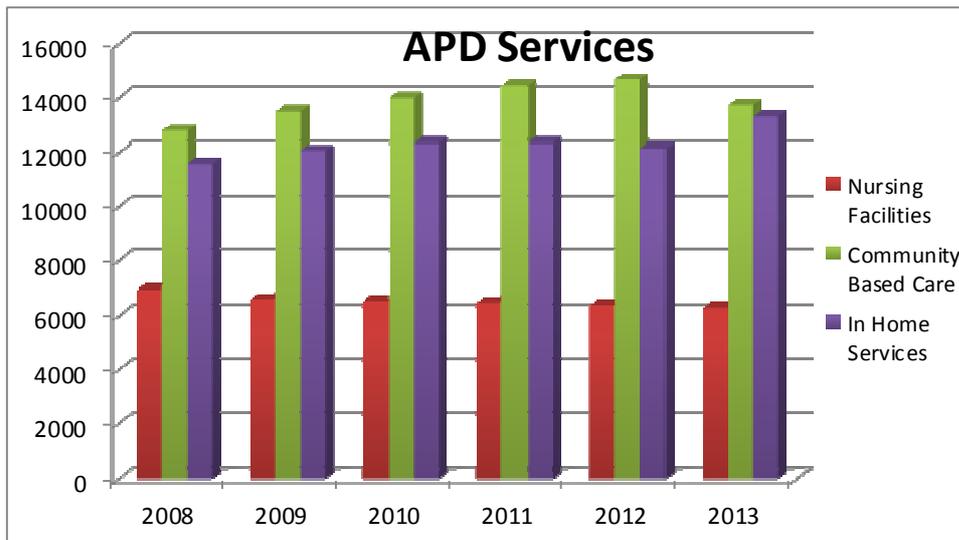

Each Community-Based Care setting must meet federal and state laws and regulations related to health, safety and service delivery. Mandatory services include assistance with activities of daily living, medication oversight and social activities. Some settings, which serve individuals with more complex needs, may include additional services, such as nursing and behavioral supports.

Program Justification and Link to 10-Year Outcome

Community-Based Care is a direct link to the Healthy People program area outcome that “Oregonians are healthy and have the best possible quality of life at all ages.” The program maximizes federal resources while reducing unnecessary costs in higher levels of care. With one of the lowest levels of nursing facility utilization in the country, Oregon is at the forefront of using community- based care as a core alternative to nursing facilities. With ongoing support, Oregon can meet the target of serving 90 percent of the publicly funded long term care caseload in home and community- based care in the next ten years (up from 86 percent).

Program Performance

A key goal of the Department of Human Services (DHS) is that people are safe and living as independently as possible. DHS currently measures this goal based on the percentage of individuals living in their own homes in lieu of a licensed care facility, as well as the percentage of individuals who move to a less restrictive service settings such as community- based care. Currently, there are more individuals participating in the Medicaid program who reside in Community-Based Care settings than there are receiving services in a nursing facility, as demonstrated in the following graph:

Aging and People with Disabilities is currently in the planning process to reform and modernize Oregon’s publicly funded long-term care system. This involves identifying innovative strategies to increase the percentage of individuals receiving in-home and community-based services.

Community -Based Care service plans have been proven to be a cost-effective alternative to nursing facility care. Costs range by facility type and assessed need of the individual. The monthly average cost by setting is:

- AFHs \$2,105;
- RCFs \$1,569; and
- ALFs \$2,211.

The cost of similar services provided in a nursing facility exceeds \$7,500 per month.

Enabling Legislation/Program Authorization

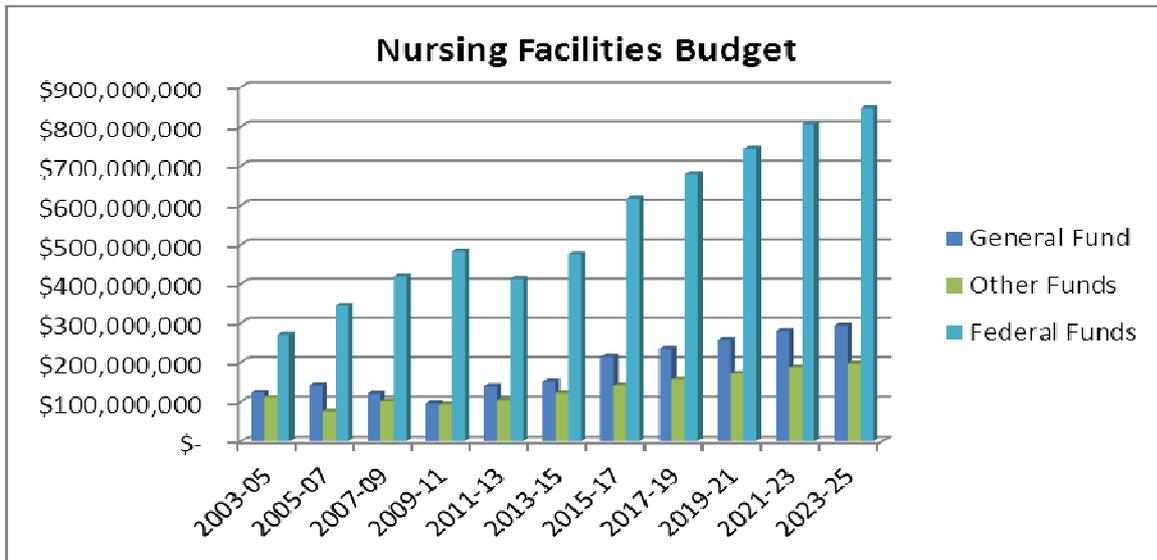

Community-Based Care is operated under a variety of Medicaid home and community-based services. The newest mechanism is our 1915(k) State Plan Option or, “K plan.” The state provides services that substitute for nursing facility services, the mandated benefit for Medicaid eligible individuals under Title XIX of the Social Security Act. Additionally ORS 410 and ORS 443 provide statutory policy and structure to the services offered.

Funding Streams

Community- based care services are funded through the Medicaid program. Therefore, the federal government pays approximately 69 percent and the state pays 31 percent. There is a small amount of funding from the estates of former recipients. When a Medicaid recipient dies, we are required by federal law to recover money spent for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

Department of Human Services: Medicaid Long-Term Care Nursing Facilities

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Mike McCormick, 503-945-6229

State general fund investments decreased with the passage of the provider tax. Caseload remains on an overall downward trend as more and more individuals choose to receive long-term care services in a home or community-based setting.

Executive Summary

Nursing facility services are the institutional option available in Oregon’s long-term care continuum, which also consists of in-home and community based care. Nursing facilities are generally considered the most restrictive setting of the three options offered. However, this program is important for individuals with the highest levels of acuity and is a mandated federal benefit under the Medicaid program. Nursing facility level of care is the guaranteed benefit (entitlement) by federal law.

Program Funding Request

	Nursing Facilities			
	GF	OF	FF	TF
LAB 13-15	\$ 148,868,298	\$ 127,942,257	\$ 477,484,726	\$ 754,295,281
GB 15-17	\$ 166,000,032	\$ 134,272,295	\$ 528,483,292	\$ 828,755,619
Difference	\$ 17,131,734	\$ 6,330,038	\$ 50,998,566	\$ 74,460,338
Percent change	11.5%	4.9%	10.7%	9.9%

Program Description

Nursing facilities are most appropriate for people with high acuity needs requiring 24-hour medical oversight and a protective/structured setting. They offer short-term care for individuals who need rehabilitation or 24-hour nursing. They may be appropriate for a limited number of individuals who need long-term care due to permanent health problems too complex or serious for in home or community based care settings.

Nursing facility rates cover basic, complex, pediatric, enhanced care, and post hospital extended care. Services will vary in nursing care facilities, but generally consist of the following:

- Medical treatment prescribed by a doctor;
- Physical, speech, and occupational therapy;
- Assistance with personal care activities such as eating, walking, bathing, and using the toilet (custodial care); and
- Social services.

Oregon currently has 137 licensed nursing facilities with 12,087 licensed beds, a decrease in both since the 2013 Legislative Session. These facilities have approximately 2.6 million annual resident days, of which approximately 63 percent are Medicaid clients. The annual resident days decreased by more than 40,000 in 2013. The majority of residents were admitted directly from acute care hospitals with a very small percentage from home. In 2013, the average length of stay for Medicaid residents is 124 days. Approximately 75.8 percent of all nursing facility residents stayed less than 3 months. Nearly 82.3 percent of nursing facility residents are aged 65 and older.

Payer	Long-Term Care – Nursing Facility
Medicare	16.89%
Medicaid	62.54%
Private Pay	20.57%

The main cost drivers are low census in nursing facilities, the length of stay in a nursing facility and the steady increase in the daily reimbursement rate. The nursing facility reimbursement rate is tied to the provider assessment statute. The current nursing facility reimbursement rate is \$257.56 per resident per day and the provider assessment rate is \$19.37. In the 2015-2017 biennium, the provider assessment is expected to account for approximately \$112 million of \$828 million in expenditures.

Program Justification and Link to 10-Year Outcome

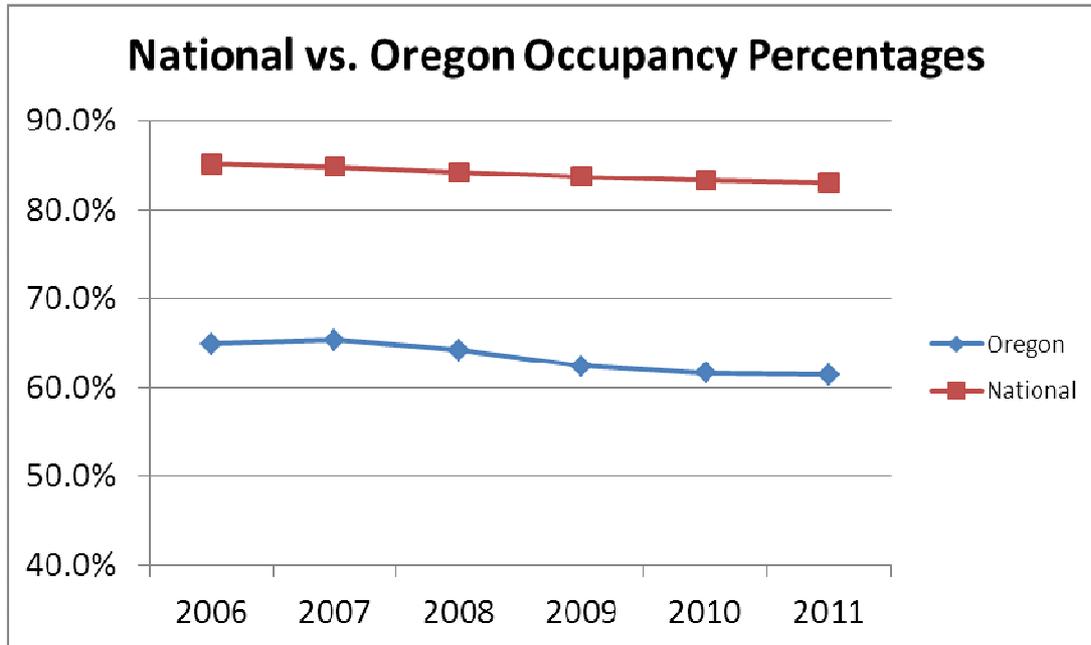

Though nursing facility level of care is a guaranteed benefit, Oregon has been the national leader in creating cost-effective alternatives that meet people’s needs in their homes and other community settings, such as assisted living facilities, in-home care, retirement communities, residential care and adult foster homes. Oregon continues to work closely with individuals and their families to offer the full array of community based services. The new State Plan Authority approved by the Centers for Medicare and Medicaid Services in July 2013 provides Medicaid-funded resources to assist individuals in transitioning from nursing facilities. Oregon strives to provide quality services in a linguistically and culturally competent manner.

Nursing facilities are an important service in our continuum, meeting the needs of some individuals with higher acuity levels; however, DHS still believes there are opportunities to decrease its usage. Oregon continues to highlight, strengthen, and encourage the use of community-based care facilities instead of nursing facilities. DHS has established a goal of decreasing the percentage of long-term care recipients utilizing nursing facility services to 10 percent by 2020.

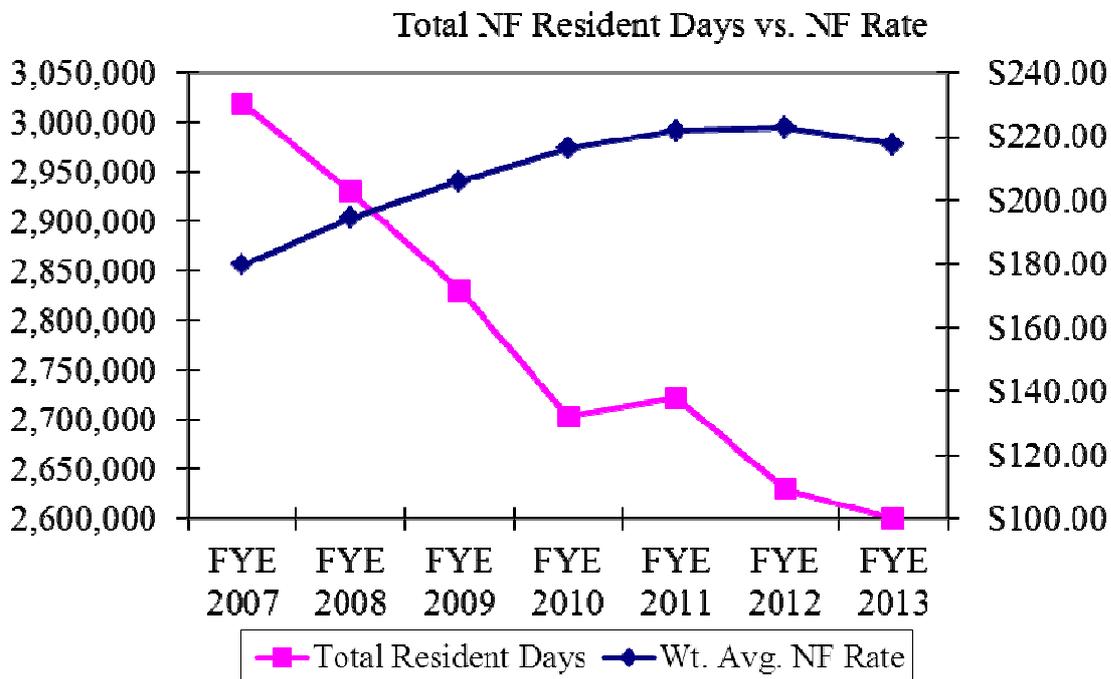

Program Performance

Nursing facilities are heavily regulated by the federal government and are licensed and routinely monitored by the State. The State establishes requirements for nursing facilities that promote quality of care and maximization of personal choice and independence for residents.

DHS remains diligent in diverting and relocating people who receive Medicaid-funded long-term care services from nursing facilities into home or community settings. One way performance is measured in this program is by the occupancy percentage of nursing facilities. Oregon has the lowest occupancy in the nation.

Low occupancy rates result in higher costs per resident day since fixed costs are allocated over fewer resident days. The following graph illustrates the inverse relationship between occupancy levels and the rate DHS pays nursing facilities. The 2013 Legislative Assembly approved legislation (HB 2216) that is intended to reduce this unnecessary nursing facility capacity and thereby reduce increasing cost per resident day. HB 2216 established a statewide bed reduction target to reduce licensed beds by 1,500 by December 31, 2015. The legislation provided incentives for providers to buy and close nursing facilities through an augmented rate of \$9.75 per Medicaid resident day that lasts for four years. If the bed reduction target is not met, the statutorily set rate methodology will be reduced.

Enabling Legislation/Program Authorization

Medicaid is an entitlement program that was enacted in 1965 under Title XIX of the Social Security Act. While states are not required to participate in Medicaid, in order to receive federal matching funds states must follow the Medicaid rules. Oregon’s Long-Term Care system operates under Medicaid state plan authority. All clients qualify for nursing facility care have the choice of receiving care in other settings such as in-home or in community based care settings.

Oregon’s nursing facility reimbursement rate and accompanying provider assessment authorization in promulgated in ORS 409.736. The 2013 Legislative Assembly reauthorized the provider assessment through 2020.

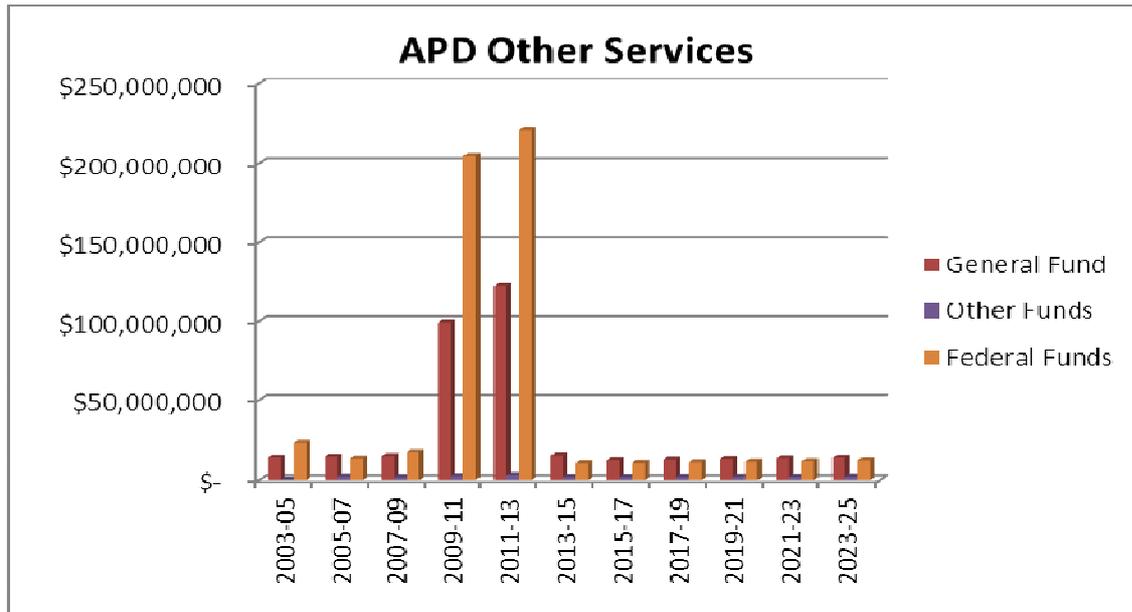

Funding Streams

Nursing facility services are funded through the Medicaid program. Therefore, the federal government pays approximately 64 percent with the remaining 36 percent being split between state general funds and provider taxes. In the 2013-2015 biennium, provider taxes from nursing facilities are expected to total \$104M. There is \$24.3 million in funding from the estates of former recipients. When a

Medicaid recipient dies we are required by federal law to recover expenditures for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

Department of Human Services: Other Services

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Mike McCormick, 503-945-6229

Costs for 2009-2011 and 2011-2013 are higher due to the transfer of the funding for Medicare Part A and Medicare Part B buy-in programs from the Oregon Health Authority (OHA) to Aging and People with Disabilities (APD). These funding sources were transferred back to OHA in 2013-2015 but APD continues to administer the programs.

Executive Summary

Other Services were previously dominated by federally mandated programs, such as the Medicare Buy-in and the Medicare Part D low income subsidy programs, which help low-income Medicare beneficiaries meet their cost sharing requirements. This cost-effective investment ensures that Medicare remains in a first-payer position, thereby reducing or eliminating costs to the State’s Medicaid health programs (Oregon Health Plan). Other Services also includes programs that support individuals living as independently as possible in the community. For example, home-delivered meals provide a critical support to many individuals who otherwise may not be able to remain independent in their own home.

Program Funding Request

	Other Services			
	GF	OF	FF	TF
LAB 13-15	\$ 6,012,837	\$ 1,614,024	\$ 9,513,327	\$ 17,140,188
GB 15-17	\$ 5,794,476	\$ 1,862,724	\$ 10,533,681	\$ 18,190,881
Difference	\$ (218,361)	\$ 248,700	\$ 1,020,354	\$ 1,050,693
Percent change	-3.6%	15.4%	10.7%	6.1%

Program Description

As stated above, the majority of funding in Other Services was previously dedicated to the Medicare Buy-in programs that support low-income individuals in accessing their federal Medicare benefits. Federal law requires states to provide payments for Medicare beneficiaries who meet specific income guidelines. APD helps consumers access this benefit. Medicare beneficiaries include individuals aged 65 or older and people with disabilities who have been receiving Social Security Disability payments for at least two years. The passage of the Medicare Improvements for Patients and Providers Act (MIPPA) of 2008 expanded the asset allowance and eliminated the estate recovery component of Medicare Savings Programs. These changes eliminated many of the barriers to the Medicare buy-in programs for a significant number of Oregonians.

Oregon is expected to serve over 120,000 seniors and people with disabilities in the following programs:

- **State Medicare buy-in:** By purchasing Medicare Part B (which has a federally required premium) for individuals eligible for both Medicare and Medicaid (dual-eligibles), the Medicaid program pays for medical services, such as physician, radiology and laboratory services, only after Medicare has paid as primary payer.
- **Medicare savings programs:** Clients in these programs receive federal mandated assistance with their Medicare Part B premiums. Specified low-income Medicare beneficiaries and qualified individuals are those individuals who have income between 100 and 135 percent of the federal poverty level.

- **Qualified Medicare Beneficiaries:** Beneficiaries receive state assistance for the costs associated with the Medicare hospital benefit, Part A, and physician services, Part B, that would otherwise be required of them, including premiums, deductibles and co-payments. These clients have income equal to or less than 100 percent of the federal poverty level.
- **Medicare Part D:** Medicare Part D is the Medicare pharmacy benefit. All clients in the Medicare buy-in programs receive assistance from CMS with their Medicare Part D premiums and co-insurance amounts. Oregon pays a per-person monthly premium to Medicare for eligible clients.

APD works to provide services that support individuals in their own home. These supports reduce reliance on nursing facilities and licensed community based care while simultaneously improving quality of life and saving taxpayers' money. These programs provide supplemental services as needed to In-Home clients and are not tracked as a separate caseload. These programs include:

- **Medicaid Adult Day Services:** Adult day services provide supervision for adults with functional or cognitive impairments who cannot be left alone for significant periods of times. Services may be provided for half or full days in stand-alone centers, hospitals, senior centers and licensed care facilities.
- **Medicaid Home-Delivered Meals:** Home-delivered meals are provided for Medicaid eligible clients receiving In-Home services who are homebound and unable to go to the congregate meal sites, such as senior centers, for meals. These programs generally provide a daily hot mid-day meal and often frozen meals for days of the week beyond the provider's delivery schedule.
- **Cash payments:** APD makes special-needs payments to reduce the need for more expensive long-term care payments and to allow a client to retain independence and mobility in a safe environment. Special needs payments may be used for such things as adapting a home's stairs into a ramp or repairing a broken furnace. Clients can also receive cash payments to help pay Medicare Part D prescription drug copays, payments for non-medical transportation, and a one-time emergency payment for an unexpected loss (such as stolen cash, a car repair or a broken appliance). The budget supporting these payments meets the federal requirement for APD's maintenance of effort (MOE).

Program Justification and Link to 10-Year Outcome

Other Services are targeted supports that help Oregonians remain in the least restrictive setting possible. The department strives to provide services in a

respectful, culturally and linguistically appropriate manner. These services are directly tied to the Healthy People Strategy and help ensure that “Oregonians are healthy and have the best possible quality of life at all ages.” They also tie to Strategy 1 on changing how health care is delivered in Oregon by supporting efforts to increase home and community-based care to 90 percent of the total Medicaid long-term care caseload. The 10-year outcome also envisions an integrated system that these community supports will help realize.

These services allow individuals to receive services at the right time and in the right place. They maximize expenditures by using the federal portion of Medicaid funding to provide person-centered services when the person needs them. It ties directly to the desired outcome of Ensuring Financial Stability for the Long-Term Care Service Systems and Supports.

Other Services complement and enhance In-Home service plans, contributing to overall cost-effectiveness and the sustainability of the plan. Other services not only have a positive impact on consumers, but also their natural support system (relatives/friends/neighbors), preventing burnout and the need for higher cost services.

Program Performance

In an independent study conducted by AARP, Oregon received an overall ranking of 3rd out of 50 states in terms of choice of settings and providers, quality of life and quality of care, and effective transitions from nursing facilities back into the community. With approximately 49 percent of the Medicaid caseload served in their own homes, Oregon continues to rank in the highest percentile.

Enabling Legislation/Program Authorization

Services in this category are operated under both the Medicaid state plan options, including the “K plan” and Oregon’s Home and Community Based Care 1915(c) waiver. The state provides services that “waive” against nursing facility services, the mandated entitlement for Medicaid eligible individuals under Title XIX of the Social Security Act. Additionally, ORS 410 and ORS 443 provide statutory policy and structure to the services offered.

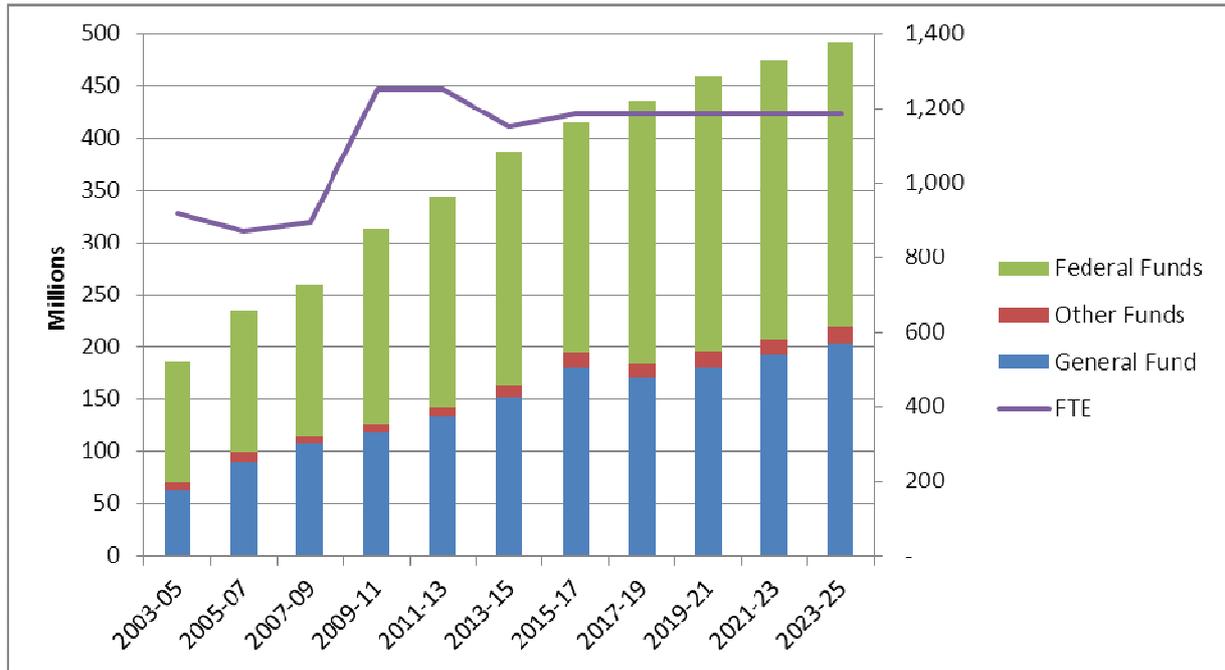

Funding Streams

Other Services are mostly funded through the Medicaid program. Therefore, the federal government pays approximately 69 percent and the state pays 31 percent. There is a small amount of funding that is state general fund only, which serves to

meet the state's maintenance of effort requirements. Finally, there is a small amount of funding from the estates of former recipients. When a Medicaid recipient dies, the state is required by federal law to recover money spent for the individual's care from the recipient's estate. These funds are reinvested in services for other individuals, offsetting the need for general funds.

Department of Human Services: Delivery and Design

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Mike McCormick, 503-945-6229

APD is seeing tremendous growth in the individuals it serves with relatively flat staffing levels.

Executive Summary

The Aging and People with Disabilities (APD) program delivery system provides services and supports to Oregonians over the age of 65 and to adults with physical disabilities. Our population is a diverse cross-section of Oregonians that goes beyond just race and ethnicity. Increasingly, it includes lesbian, gay, bisexual, and transgender (LGBT) older adults; homeless seniors; older adult immigrants; and many other populations that qualify for services. Design and Delivery includes staff who design and provide technical assistance for Oregon’s long term care system as well as the staff and partners who directly provide services in nearly 50 offices located throughout the state.

Program Description

The APD program delivery system provides respectful and inclusive services and eligibility determinations to over 145,000 Oregonians. Some of the services accessed by individuals include:

- Medical assistance (Oregon Health Plan and Medicare premium assistance);
- Disability determinations; and
- Supplemental nutrition assistance.

This caseload is growing rapidly and is served by eligibility staff only; case management services are not provided to individuals accessing only the services above. Approximately 30,000 of the 145,000 individuals APD serves access long term care services and supports. For these individuals, case management services are provided, which generally consists of assessment, choices counseling, service plan development and monitoring. Additionally, local offices have executed memorandums of understanding (MOUs) with local Coordinated Care Organizations. These MOUs focus on joint accountability for coordinating care for individuals accessing long term care services. State and Area Agency on Aging (AAA) case managers will be the front line in ensuring effective care coordination occurs for individuals served by APD’s long term care system.

Local staff also license adult foster homes, including those that do not participate in Medicaid. Finally, local staff provides adult protective services, consisting of investigations of abuse and neglect against seniors and people with disabilities.

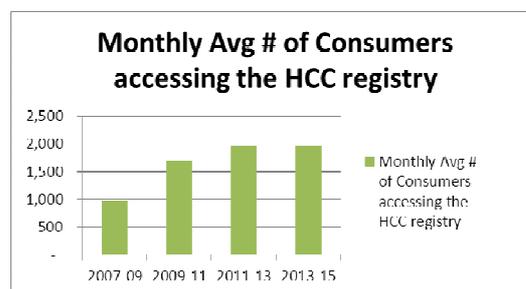

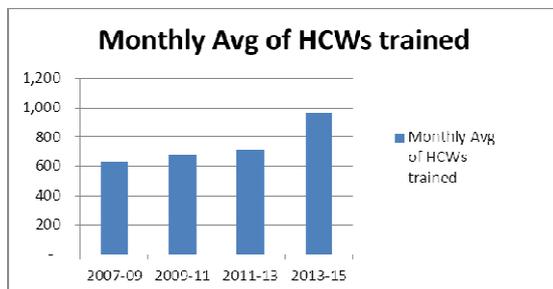

APD has historically earned local service delivery staff through a caseload ratio model (e.g. one eligibility worker for every 500 cases). For the 13-15 biennium, the Legislature authorized the transition to the workload model. This model differs

from the caseload ratio model in that it accurately measures time required to perform tasks and captures work performed for individuals who are never found eligible.

The delivery system is comprised of both state staff and AAA staff located in communities throughout Oregon. Under ORS 410.270, AAAs have the right to elect to deliver Medicaid services locally. Currently, four AAAs have elected this option. These four AAAs (Multnomah County, Northwest Senior and Disability Services, Oregon Cascades West Council of Government and Lane Council of Government) serve the most populous areas of Oregon. With the exception of Washington and Clackamas counties, state staff serves areas with lower population densities.

The Oregon Home Care Commission (HCC) is also included in the Design and Delivery Program Area. Under Oregon’s constitution, the HCC is responsible for ensuring the quality of home care services for seniors and people with disabilities. The Commission maintains a web-site of home care workers that can be accessed by all Oregonians, including those not served by Medicaid. Training is provided to both consumers and home care workers in a variety of areas addressing safety and quality. The efforts of the HCC are critical to the successful delivery of long term care services to Oregonians.

HCC & Workers	2007-09	2009-11	2011-13	2013-15
Monthly Avg of HCWs trained	629	680	714	962
Monthly Avg # of Consumers accessing the HCC registry	983	1,692	1,975	1,973

APD's Design and Delivery area also includes the staff that design and administer services centrally. Some of the major services provided include:

- Negotiating system design with federal partners
- Developing program policy and maintaining administrative rules
- Paying providers
- Executing contracts
- Negotiating and implementing collective bargaining agreements
- Maintaining provider rates

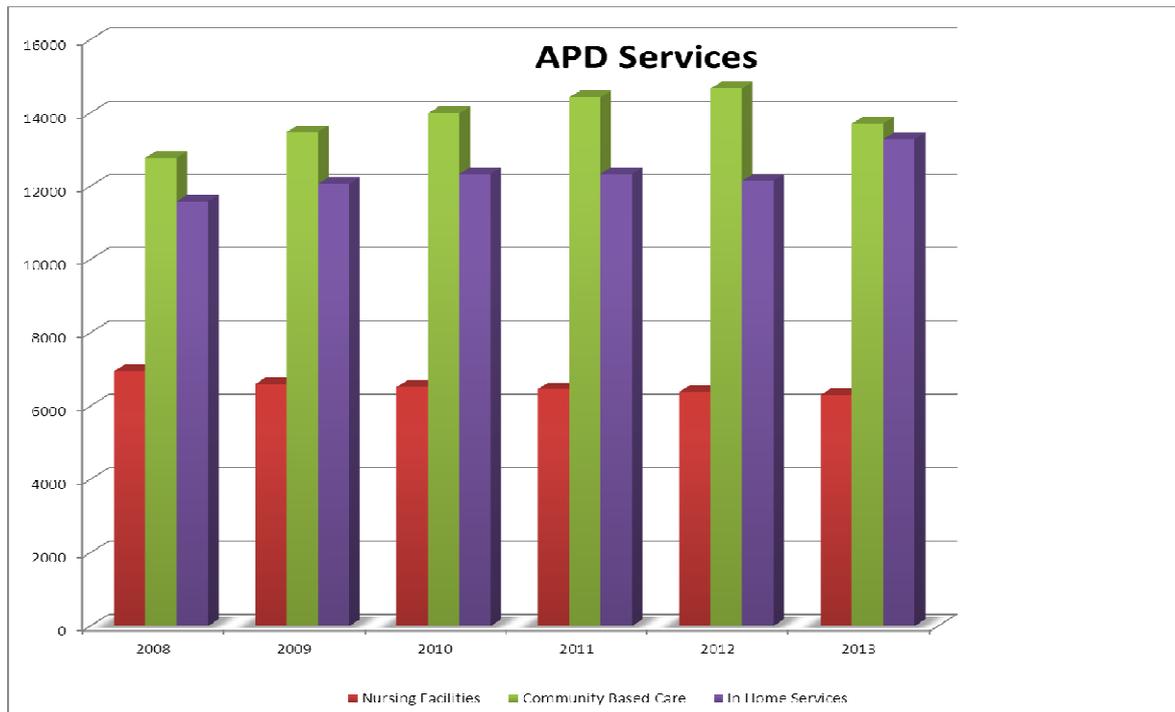

As Oregon's aging and disability population grows, the expectations of state government service delivery methods are changing. Efforts are currently under way to explore how technology can assist in the provision of services and determination of eligibility. In addition, work processes are continually examined for opportunities to streamline and improve. This initiative is known as the Lean Daily Management System (LDMS) and it has been deployed to all local offices.

Program Justification and Link to 10-Year Outcome

There is a direct link between this program and the Healthy People outcome "Oregonians are healthy and have the best possible quality of life at all ages." The APD Delivery system supports individuals living in their communities in settings of their choice, whether in their own home, a community based care facility or a nursing facility. Partnerships between local law enforcement, local court systems and local advocates are critical to ensuring the senior and disability populations are protected from neglect and abuse.

Program Performance

A primary goal of the APD program is to ensure that older adults and people with disabilities are receiving appropriate services at a level that allows them to live independently and safely within their home and community. Local case managers work with individuals and community partners to ensure appropriate supports are in place. The following chart reflects the work of our nursing facility diversion and transition effort over the past five years. Not only are nursing facility placements the most expensive setting, they are generally viewed as the least desirable by consumers. Our local staff is critical in accomplishing this win-win outcome.

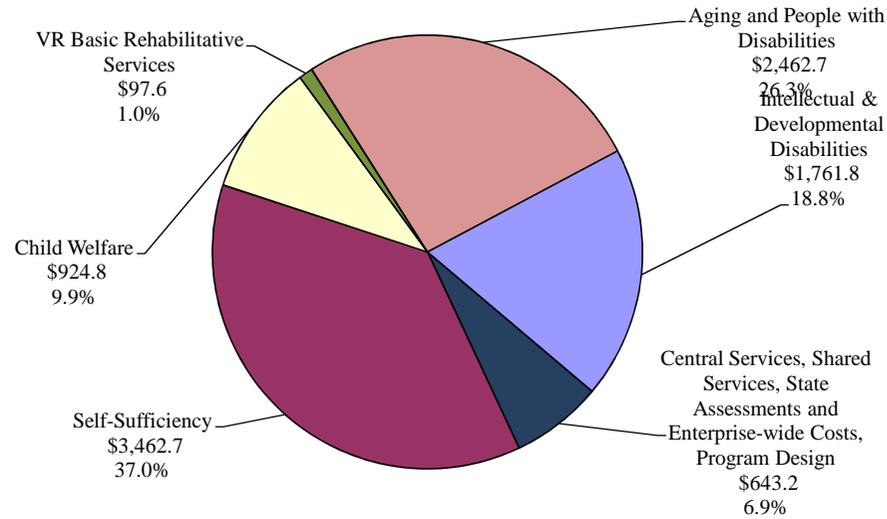

Enabling Legislation/Program Authorization

Oregon Revised Statutes 410.070 charges the agency with primary responsibility for the planning, coordination, development and evaluation of policy, programs and services for older adults persons and persons with disabilities in Oregon. Area Agencies on Aging have universal responsibilities as articulated in ORS 410.210. Additionally, ORS 410.270 authorizes Area Agencies on Aging, who so elect, to perform services locally that would otherwise be administered by State staff.

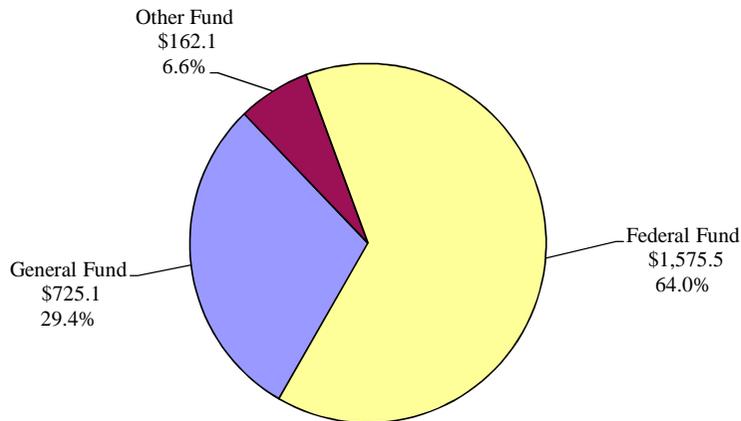

Funding Streams

A mix of state general and federal dollars fund the majority of the services provided in APD Design and Delivery. Local partners also provide local matching funds to the Department, which the Department uses to leverage federal Medicaid dollars. This allows local entities to enhance services such as additional staffing and transportation.

Department of Human Services

Intellectual and Developmental Disabilities Services Program

Mission

The Department of Human Services' Intellectual and Developmental Disabilities Services (I/DD) provides support across the lifespan to Oregonians. Our mission is to help individuals be fully engaged in life and, at the same time, address critical health and safety needs.

Vision

Oregon's system of supports is simple to use and responsive to the strengths, needs and direction of the people and families who live as valued members of their community.

The I/DD Program

The I/DD program strives to support individuals with Intellectual and Developmental Disabilities and their families within communities by promoting and providing services that are person-centered, self-directed, flexible, community inclusive, culturally appropriate, and supportive of the discovery and development of each individual's unique gifts, talents and abilities.

We are committed to work toward service options to ensure that people with intellectual and developmental disabilities have the opportunity to have fulfilling and meaningful lives allowing them to contribute to and enjoy their communities.

We currently help more than 24,220 children, adults and their families. As a result of the state's adoption of the Community First Choice Option (or K plan), an increased number of children and adults with I/DD are able to access Medicaid funded, community-based services to meet their needs, instead of having to meet crisis eligibility in order to access the appropriate level of support.

We seek to achieve the following outcomes and goals:

- Provide an array of options that are properly distributed to ensure access through equitable and culturally competent services
- Be responsive to emerging consumer demands for individualized, self-directed services and provide sufficient service choices
- Ensure the health and safety of individuals served
- Promote maximum independence and engagement in homes and communities

- Leverage use of available federal funding options
- Address improvements in business practices such as payment and information systems to achieve overall operational efficiencies
- Maintain sustainability of the program

Individuals We Serve

More than 15,300 Oregonians with I/DD access services each month. Individuals eligible for services must have an intellectual or developmental disability that significantly impedes their ability to function independently. Intellectual and developmental disabilities include intellectual disability, cerebral palsy, down syndrome, autism and other neurological conditions originating in the brain that occur during childhood. These disabilities must be expected to be lifelong in their effect and have a significant impact on the person's ability to function independently. Some people with I/DD may also have significant medical or mental health needs. Most individuals with I/DD meet Medicaid financial eligibility requirements. The majority of DD program services are now administered under the Medicaid State Plan Community First Choice Option (CFCO). Case Management and Employment services are available through traditional, home and community based service waivers.

Community First Choice Option Services

Historically, the I/DD service system was comprised of three basic components. There were two separate program service areas - Support Services and Comprehensive Services. The third major component was program design and delivery. While program design and delivery remains the same, Support and Comprehensive Services are now primarily offered through the Community First Choice Option (CFCO).

With CFCO, eligible individuals receive a functional needs assessment that informs the amount and/or rate for services that are available to the individual. The assessment also informs the Individual Support Plan (ISP) which documents the person's needs and their goals for the next year. It also documents the services the person will access in order to meet those goals. The amount of service a person receives is based on the functional assessment, not whether they are in the Support Services or Comprehensive Services programs.

Program Services

DD offers a broad array of services in order to optimize consumer choice and offer an array of cost effective services based on functional need. Importantly,

implementation of CFCO has expanded access to children with I/DD and has eliminated the hard cap that had been in place with the Support Services program. Since implementation of CFCO, Oregon has increased the number of children with I/DD that receive services by 1080 percent and adults no longer have to be in crisis to receive comprehensive supports.

The shift to CFCO required that most I/DD services be categorized as Attendant Care. This has been challenging for the system because people with I/DD, their families, providers and advocates are more familiar with Oregon's important history of self-directed and strengths-based support system. It was critical that we refocus on the new vision for the I/DD system and affirm our commitment to person-driven supports. This process resulted in a firm understanding that the person, their family and the goals they want to achieve remain at the core of our system and the move to CFCO can be achieved in a manner consistent with Oregon's strong history of person-centeredness and self-direction.

Attendant Care

Attendant Care provides support for people to perform Activities of Daily Living and Instrumental Activities of Daily Living (ADL/IADL). With CFCO, this is the primary service available to people with I/DD. Most Support and Comprehensive Services are considered Attendant Care services and are generally categorized based on the setting in which the person lives. Services that now fall under Attendant Care include:

- In-home Supports for Children and Adults
- Children's Intensive In-Home Services
- 24-hour Services
 - Group Home for Children and Adults
 - Adult and Child Foster Care
 - Supported Living (adults only)
- Day Supports
- Stabilization and Crisis Unit (SACU)

In-home supports for children and adults

These services are designed to provide ADL/IADL supports in the home or in the community. Children that receive these supports live with family, and adults live either with family or in their own home. In total, 2,040 children (under 18) now receive in-home supports and 8,420 adults (18 and over) receive in-home supports. In-home services are provided to a majority of individuals served by the DD

program. As a result of the expanded accessibility to these services, I/DD anticipates an increase in the utilization of this service over the 2015-17 biennium.

When families are supported to provide the core care, even individuals with the most significant needs have active and engaged lives in their community. One purpose of in-home supports is to defer the need for full, 24-hour services which represent the higher cost models of the service system. Without in-home services, many individuals will enter into a crisis status and require much more expensive out-of-home services such as group or foster homes.

Children's Intensive In-Home Services (CIIS)

These services are three model waiver programs which provide intensive supports in the family home. A total of 417 children receive CIIS services. One of these programs is for children with intensive behavioral issues who, without supports, would require specialized out-of-home services. The second program is for children with medical conditions who, without supports, would require nursing home services. The third program is for children with intense medical needs. These are children that are dependent on life support technology such as ventilators that, without these in-home services, would require services in a hospital setting. With the implementation of the CFCO, children who do not have the intensive needs described above may now be able to access In-Home support services through their local CDDP upon completion of a needs assessment and an Individualized Support Plan (ISP).

For both children and adults, in-home services are provided by Personal Support Workers (PSWs), certified provider agency Direct Support Professionals (DSPs) or Independent Contractors. Personal Support Workers and Independent Contractors are represented by the State Employees International Union (SEIU). Direct Support Professionals are employees of private organizations that contract with the state to provide services.

24-Hour Services

These services are for children and adults with a high level of need and those who can no longer remain at home. Under CFCO, these services are also categorized as Attendant Care. These services are primarily 24-hour supports, usually provided in settings outside the family home through group home, supported living or foster care providers.

There are 160 children and 2,784 adults living in 24-hour group homes; 2,635 living in Adult Foster Care services; 598 children with I/DD living in Child Foster Care settings; and 705 adults (only) in Supported Living settings.

These important services provide an alternative to institutional care. Community-based, as opposed to institutional care, remains a more cost effective program as well as being the most desirable by individuals receiving services and supports from the Department. Group home and supported living services are provided by private organizations that contract with the state. Adult foster care providers are represented by the State Employees International Union (SEIU). Child Foster Care providers are private providers licensed through either Child Welfare or the local Developmental Disability office.

Individuals usually receive 24-hour services when they are unable to stay at home on their own or with their family. This may be due to individuals' needs or the caregiver's ability to continue providing services. Interim or short term services may be provided to determine if the individuals' needs can be met in their own home. Interim services may include increased attendant care, behavior consultation or technical assistance to determine if an intervention will assist in maintaining the current placement. Depending on the change in support needs, environmental modifications may also increase the individual's chances of remaining at home.

For children with disabilities, they enter 24-hour comprehensive services as a voluntary placement because the intensive needs of the child cannot be met in the family home, or may be involuntary through child welfare action. Over fifty percent of the children in 24-hour care come in through the child welfare system. Child Welfare programs maintain responsibility for the court relationship but I/DD provides the specific disability related care.

Within comprehensive service, there are also services ancillary to the residential programs. Most adults receive day services at 20 - 25 hours a week for out of home activities, including work related services. Day support activities that fall under the category of Attendant Care are provided through CFCO. A variety of employment services are also available (see *Additional Services*). Services include both residential and day programs if the person is over 21 and out of school. Non-Medical Transportation is also provided to help individuals with I/DD when public transportation is not available, or not feasible, to help individuals participate in employment or other services.

There are 82 agencies that provide 24-hour residential services at 795 homes. There are 56 agencies that provide supported living services at 102 locations. There are approximately 1,030 licensed foster providers.

Stabilization and Crisis Unit (SACU)

SACU (formerly State Operated Community Program (SOCP)) is a 24-hour service now provided under the CFCO. SACU provides a safety net for Oregon's most vulnerable, intensive, medically and behaviorally challenged individuals with intellectual and/or developmental disabilities. SACU provides services when no other community-based option is available for an individual. This includes people with I/DD coming out of the Oregon State Hospital, corrections systems, and from crisis situations where counties and private providers cannot meet the needs of the individual to ensure their health and safety. SACU focuses on supporting people in community-based settings and enabling them to return to less intensive service levels as quickly as possible.

SACU provides 24-hour residential and day supports to individuals with I/DD from all across the state who have significant medical or behavioral needs. The services are provided in small group homes located across seven counties. The SACU cannot refuse to serve anyone because their needs are too high.

SACU started in 1987 when Oregon moved all individuals living at the state institution (Fairview Training Center and Eastern Oregon Training Center) for people with developmental disabilities to private providers. There were a small number of individuals with complex medical or behavioral needs who could not yet be supported by private providers.

From the first homes that were opened by SACU to today, the profile of the individuals served has changed. As private agencies increase their skills to meet challenging needs and agree to provide services, the person who needs a safety net has changed. In 2000, SACU had six homes serving 30 people that were considered "medical," which means they serve people with high medical needs. In the past, the numbers of people with intensive behaviors often had a diagnosis of autism. Today, intensive behaviors are more related to co-occurring mental health diagnosis and/or criminal convictions.

Today SACU serves 108 people in 23 homes across the state. Of those, 15 have medical needs. Others either have significant behavioral challenges or they have lived at SACU since transitioning from Fairview Training Center or Eastern

Oregon Training Center. Fairview Training Center closed in 2001 and Eastern Oregon Training Center closed in 2010.

Ancillary Services

In addition, people with I/DD served through I/DD are able to access vital ancillary services. Examples of these services include:

- Behavioral Consultation
- Assistive Devices
- Assistive Technology
- Long Term Care Community Nursing
- Home Delivered Meals
- Environmental Modifications
- Non-medical Transportation

Case Management - Service Coordination (SC) and Personal Agent (PA) Services

These services are provided through certified entities called Support Service Brokerages or through Community Developmental Disability Programs (CDDPs) across the state. CDDPs support children and adults, Brokerages support adults. The individual receives case management services from the Brokerage or CDDP. The CDDPs are responsible for eligibility determination and redeterminations, crisis response and protective service investigations. After eligibility is established through the CDDP, adults can choose to be served by the CDDP or a Brokerage.

A functional needs assessment is administered to determine the person's level of need and the amount or rate of services that will be available. The SC or PA then works with the individual, family and others important in the person's life to complete an Individual Support Plan (ISP) and Career Development Plan (CDP). They then work with the individual to identify necessary supports required to meet the needs identified through the assessment and the goals identified in the ISP/CDP.

Employment Services

These services have been strengthened and improved as part of the important Employment First initiative. Over the past year, I/DD has restructured day and employment services to encourage integrated, competitively paid employment for people with I/DD. Day services are no longer bundled, they have been broken out into discrete services to support individuals as they learn about, find and maintain employment. Employment services are not offered through the CFCO, they remain

available through the Medicaid waiver. There are 93 agencies endorsed to provide employment at 152 locations. Employment services include:

- Job Discovery
- Career Development
- Job Coaching

Employment First Policy

This policy states that employment in fully integrated work settings will be the first and priority option explored in service planning for all working age and transition age individuals with I/DD. This policy is based on the general philosophy that individuals with developmental disabilities have the ability, with the right supports, to be productive and contributing members of their communities through work. This philosophy also recognizes intrinsic and financial benefits of paid work to the individuals with disabilities and their families. Employment services are also provided consistent with the provisions and expectations of Executive Order 13-04, “Providing Employment Services to Individuals with Intellectual and Developmental Disabilities”, issued April 10, 2013.

Family Support Services

These services are available to any families with a child under the age of 18 who are not eligible for Medicaid. The program offers minimal support services with the most common request being for relief care services. The average amount spent per family accessing these services is \$750 per year. Feedback that we have received tells us this support is of great value to families.

All children in this program have case managers through their county CDDP and state funded services are allocated based on need. Most children are also in school programs and the case manager coordinates between school and home. Family support services can be more cost effective by allowing the family to support the child with a small amount of funding, without accessing Medicaid.

Family-to-Family Networks

These family-driven networks provide training, information, referral, and general support with families providing support among one another. Just having another family to connect with or problem solve with is often what it takes to be supported in the family home. The legislature funded an expansion of the Family to Family networks from 4 to 8 networks state-wide in 2013-15. The Governor’s Budget for 2015-17 continues that funding.

Program Design and Delivery

Staff and services support the administration of I/DD programs through a central office providing strategic planning, program funding, policy development, general oversight, and technical support to community services and support and leadership for various advisory councils.

The structure for service delivery and design includes a central program administration office within DHS and contracted services with Community Developmental Disabilities Programs (CDDP) and Support Service Brokerages (Brokerages). Contracted CDDPs, usually operated by County government, are responsible for service eligibility determination, program enrollment, case management, abuse investigation, provider development, quality assurance, and crisis response. CDDPs are also responsible for local planning and resource development, and documentation of service delivery to comply with state and federal requirements. I/DD provides funding for nearly 730 FTE of CDDP staff. Brokerages provide case management services, including assessment and service planning for adults. I/DD provides funding for nearly 300 FTE of Brokerage staff. *Brokerages and Community Developmental Disability Programs (CDDP) field reviews.* I/DD Quality Assurance unit conducts field reviews on a two year cycle in each CDDP and Brokerage. The reviews are focused on assuring Center for Medicare and Medicaid Services (CMS) Assurances are met through performance measures approved by CMS. Areas of review include accuracy and reporting of level of cares, case management functions performed and reported timely and accurately; individuals are made aware of their rights including, abuse reporting, fair hearing and complaints; providers are qualified; individuals health and safety needs are met; service plans are developed in accordance with needs identified through assessments and are person centered focused. The reviews assist I/DD in identifying program specific strengths and areas requiring improvement allowing for focused training and technical assistance. The reviews assist with identifying individual issues needing to be corrected as well as allow for analyzing common trends across the state that may suggest a need for system changes, improvements, best practices and training.

History – Future Trends

The state of Oregon is recognized nationally as an innovative leader in developing community-based services for individuals with developmental disabilities. Oregon is one of only three states that have no state or privately operated institutional level services specifically for people with developmental disabilities. In fact, the

majority of individuals with developmental disabilities in Oregon, approximately 59 percent, are served in their own home or their family's home.

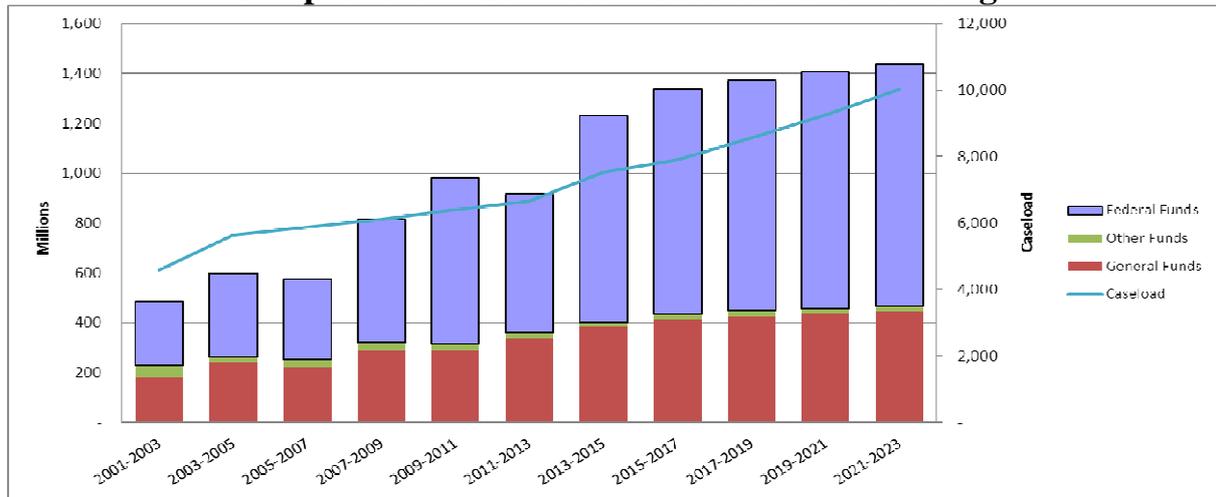

That is the result of two decades of work to aggressively “re-balance” the developmental disabilities system -- moving from an institutional model with expensive “one size fits all” approach -- to a self-directed, family involved, individually focused, culturally appropriate, and less expensive approach to service. Individuals and families report a high level of satisfaction through increased control over services, the ability to more fully integrate in their home communities and the benefits of home community life.

Nationally and in Oregon, the number of people with developmental disability-related needs is growing. There also is an increase in the number of people who need services that have co-occurring mental health needs or are coming to us from the corrections system. However, to maintain high levels of satisfaction, to further advance the inclusion of people with intellectual and other developmental disabilities in their communities of choice, and to serve the increasing number of people with I/DD accessing services, the system has an urgent need to continue its evolution in a fiscally sustainable manner.

Comprehensive Services – Caseload and Funding

Executive Summary

Comprehensive services available through the Office of Developmental Disabilities Services (ODDS) are intended for individuals with the highest level of care needs and those who can no longer remain at home. Comprehensive Services are 24-hour supports, mostly provided in settings outside the family home such as group homes, supported apartments or foster care. Under the Community First Choice Option (CFCO or k plan) individual can chose to live in whatever setting they chose. Of the 24,223 individuals enrolled in services, 6,020 live in 24-hour group homes or foster care.

Increase Provider Rates: This request would increase provider rates for non-bargained services by 4% effective January 1, 2016. This includes 24-hour Group Homes and Supported Living agencies. The request also includes a 4% increase for providers of employment services that serve individuals with I/DD.

Program Description

Comprehensive services are funded under the Community First Choice Option in the Medicaid State Plan. These services provide a statutory alternative to institutional care. Community-based, as opposed to institutional care, remains a more cost effective program as well as being the most desirable by clients and the State. The current average monthly cost for someone in comprehensive, community-based services is \$6,800. Individuals generally enter Comprehensive Services when they are unable to stay at home on their own or with their family. This is usually due to a change in the person’s needs or a change in the caregiver’s ability to continue providing services.

Children with disabilities enter comprehensive services as a voluntary placement because the intensive needs of the child can’t be met in the family home or as an involuntary placement through child welfare action. Approximately 69 percent of the children in comprehensive care come in through the child welfare system. Child Welfare programs maintain responsibility for the court relationship but the I/DD program provides the specific disability related care.

Within comprehensive services, most adults get employment or other day services for up to 25 hours a week. Those in individual integrated employment can get services up to 40 hours per week. All such services are expected to promote our Employment First program and support Executive Order 13-04 issued in April 2013. I/DD program leadership and our stakeholder community have identified that individuals who are engaged in employment have better health and social outcomes. The goal of the Executive Order is to further improve Oregon's system of designing and delivering employment services to those with intellectual and developmental disabilities. This includes a significant reduction over time of state support of sheltered work and an increase in investment in community employment services.

Comprehensive services are structured to meet the person's needs on a 24-hour basis. Individuals are assessed using the Supports Intensity Scale, the Support Needs Assessment Profile, or the ANA to determine the extent of support needed and resulting provider payment. Services include both residential and day programs if the person is over 21 and out of school.

There are 82 agencies that provide 24-hour residential services at 795 homes. There are 56 agencies that provide supported living services at 102 locations. There are approximately 1,030 licensed foster providers. Case management is provided through the County Community Developmental Disabilities Program (CDDP). Case managers determine program eligibility, develop and monitor plans of care, and provide crisis and protective service work. Since services through this program can last through a person's lifetime, much work has been done to defer and delay out-of-home services. Because of Oregon's recent efforts and success in supporting people with developmental disabilities to stay in their own homes, individuals who are now entering the comprehensive system typically have higher and more intense care needs than those placed in group and foster homes in past years.

The Comprehensive Services costs per case have increased due to both the intensity of need, often behavioral, around a person coming into the system in their twenties, and the changing care needs, often medical, for people who have aged in the system. We work to defer or delay access to Comprehensive Services by strengthening family support services, promoting increased employment outcomes and utilizing technology to create individual independence.

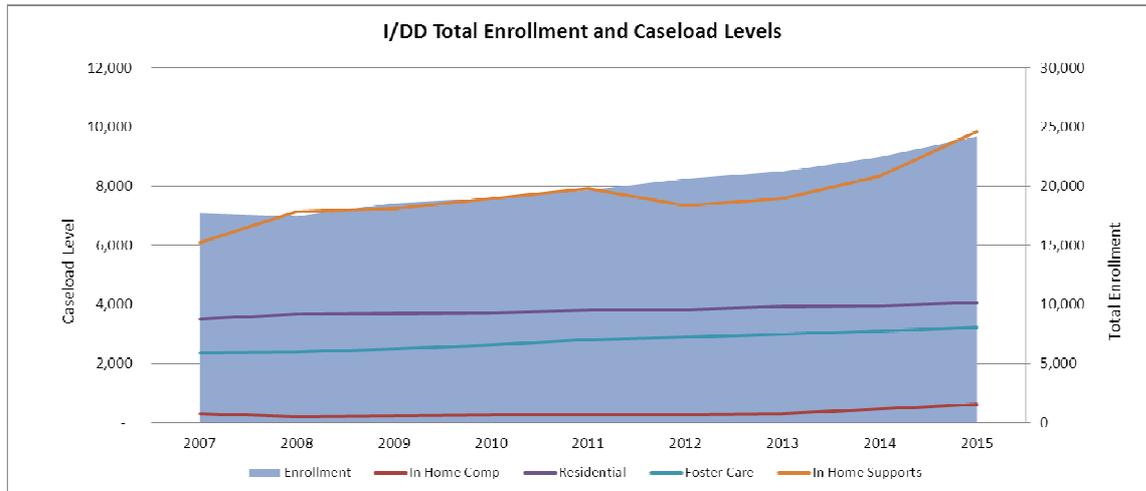

Program Justification and Link to 10-Year Outcome

Comprehensive Services are linked to the Healthy People Outcome area through its focus on providing supports to individuals with intellectual and developmental disabilities to assure they are living in their communities, with families and friends, and are working or attending school to achieve their greatest potential. The programs funded through Comprehensive Services assure that health and safety needs are met. The assurance of health and safety such as freedom from abuse or neglect, or proper medical supports, is also one of the primary assurances CMS requires. These assurances are met by procedures that require the reporting, review and response to abuse allegations and other critical incidents. Provider reviews are also conducted to assure the development and proper implementation of procedures such as individual medical and safety protocols.

Since all Comprehensive Services are community based, affordable housing is critical. The Office of Developmental Disabilities Services partnered with Housing and Community Supports when the State was closing Fairview Training Center to build or remodel over 200 homes using Housing Bonds. The program continues to assure the homes are maintained. Rent costs to people living in group and foster homes are controlled to allow for affordability based on the general low income levels of the individuals. These controls are based on Federal Supplemental Security Income payment amounts.

Program Performance

The numbers of people with developmental disabilities continues to increase. Oregon has seen additional growth beyond the typical trend due in part to diagnosis such as autism and Fetal Alcohol Syndrome. The program performance is directed at supporting people at home and delaying or deferring entry into Comprehensive Services. The graph below shows overall population growth and caseload growth in the number of people served. Comprehensive services are growing at a slow rate due to Oregon's work to defer and delay out-of-home services. However, individuals who are entering the comprehensive system typically have higher and more intense care needs than in the past.

2015 estimates are based off Fall 2014 Forecast.

Enabling Legislation/Program Authorization

The services are designed and approved using the Community First Choice Option (CFCO or K plan) in the Medicaid State Plan. CFCO allow individuals to be served in a community-based alternative to Institutional Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) (to which they are otherwise entitled under Federal Law). Individuals can also be court committed to State care and custody under ORS 427.

The provision of Comprehensive Services for individuals with developmental disabilities is in ORS 430.610 - .670, ORS 443.400 - .455, and ORS 443.705 - .835. The enabling statutes are in ORS 409.050 and ORS 410.070. At the Federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these Federal laws is subject to the U.S. Supreme Court's Olmstead Decision of 1999 and the U.S. Department of Justice's interpretation of that decision as it relates to the ADA and Rehabilitation Act. This means that services are available statewide to all who meet the level of need and are delivered in the most integrated setting.

Funding Streams

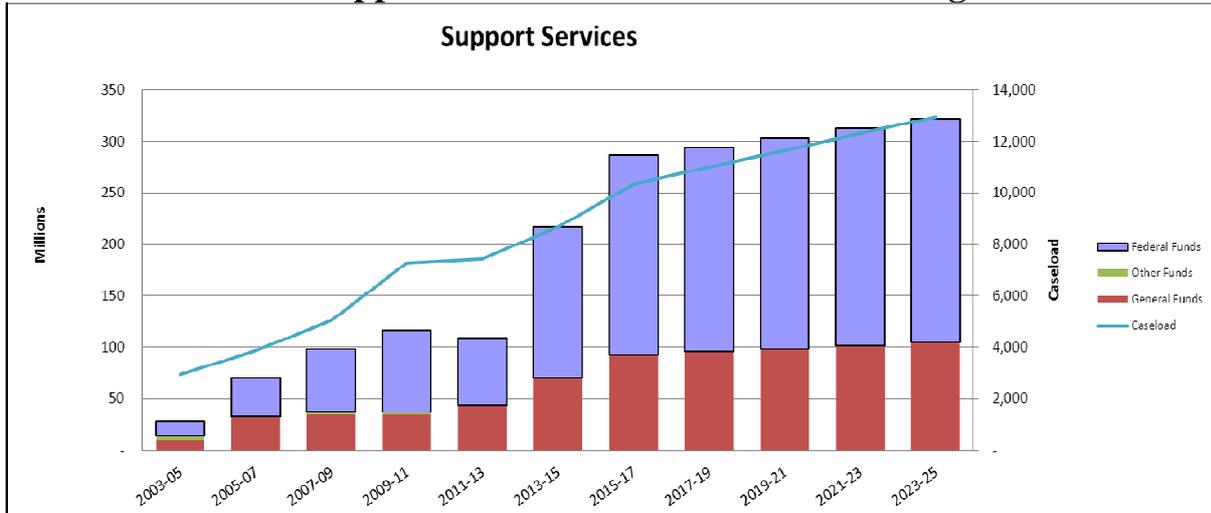

The services are designed and approved using the CFCO in the Medicaid State Plan which provides a Federal match to the program's General funds. CFCO Medicaid State Plan funds services at 6 percent high federal match than the 1915c

services. The current match rate for CFCO services is 69 percent federal funds and 31 percent state general fund.

Department of Human Services: Support Services

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Lilia Teninty, 503-945-6918

Support Services – Caseload and Funding

Note: Effective 2013-2015, K Plan increased enrollment as well as lifted spending caps.

Executive Summary

Support Services within the Office of Developmental Disabilities Programs (ODDS) are designed to provide in-home and community supports for children and adults with intellectual and developmental disabilities (I/DD). Supports are Services such as Activities of Daily Living and Instrumental Activities of Daily Living (ADL/IADL), respite care, daily staff support, and assistive technology. When families are supported to provide the core care, even individuals with the most significant needs have active and engaged lives in their community. These services are intended to delay or defer the need for full, 24-hour programs or comprehensive care, which represent a higher cost model of service.

Program Funding Request

Percent Change	78%	0%	79%	79%

*35M GF/ 61FF represents DOL Placeholder. Approximately 80% of this funding will transfer to APD's budget at April 15 Reshoot.

Program Description

Support Services are provided to approximately 2,040 children and 8,840 adults with developmental disabilities who are living at home. This number represents over 43 percent of the 22,223 individuals receiving intellectual/developmental disability services. The individual or their family directly hire or contract for providers. Without these services many individuals will enter into a crisis status and require much more expensive out-of-home services such as group or foster homes. In-home support services average approximately \$1,290 per month per individual while out-of-home services average approximately \$6,870 per month.

Community First Choice Option (CFCO) funded in-home services that fall under the umbrella of support services, are provided to over 2000 children and adults with I/DD. The adult Support Services program supports children and adults with I/DD who are living at home with families or in their own home and are Medicaid eligible. These services are provided through Brokerages and Community Developmental Disability Programs (CDDPs) across the state. The program operates primarily under the CFCO Medicaid State Plan.

Support Services for children may be offered through the Family Support Program and are available to any family of a child under age 18. The program offers minimal support services with the most common request being for respite services. The average amount spent per family is \$730 per year. Surveys tell us this support is of great value to families. All children in these programs have case managers through their county Community Developmental Disabilities Program (CDDP).

Most children are also in school programs and the case manager coordinates between school and home. This biennium, Support Services started four additional family-to-family networks. These family-driven networks provide training,

information, referral, and general support from one family to another. Just having another family to connect with or problem solve is often what it takes to be supported. This network also helps them if a child cannot continue to live with the family because of their care needs or the family circumstance changes. Often, once a child moves out of the family home into a foster care or group home care, they stay in 24-hour care for the remainder of their lifespan. Funding for eight family-to-family networks continues in the Governor's Budget for this biennium.

For both children and adults, the direct care services are provided through Personal Support Workers (PSWs), contracted provider agencies, community businesses, behavior consultants, and respite providers. Personal Support Workers were provided collective bargaining rights in 2010 through HB 3618.

Program Justification and Link to 10-Year Outcome

Support Services links to the Healthy People Outcome area through its focus on individuals with intellectual/developmental disabilities to assure they are healthy and have the best possible quality of life in their communities among families and friends, and are working or attending school in order to achieve their greatest potential.

When compared to the entire Medicaid population, adults in the Medicaid funded home and community based services with intellectual/developmental disabilities (I/DD) are uniquely more reliant on the service system to make lifestyle changes and to adequately access health care. Funding the I/DD programs sufficiently to support the necessary lifestyle choices and to reliably and consistently follow through with medical recommendations will result in significant cost savings to the State's medical programs. Families and case managers are critical to help with health care coordination in the communication and implementation of treatment.

Support services are critical to the financial stability of a family and to the person with intellectual/developmental disabilities. With supports, families don't have to decide between working and supporting their family member. It is also important that working age adults with developmental disabilities are supported to work. Oregon has implemented an Employment First policy. This prioritizes individuals in actively engaging in developing work skills and defining work interests, pursuing job development, or being employed in the community, receiving support to maintain the job.

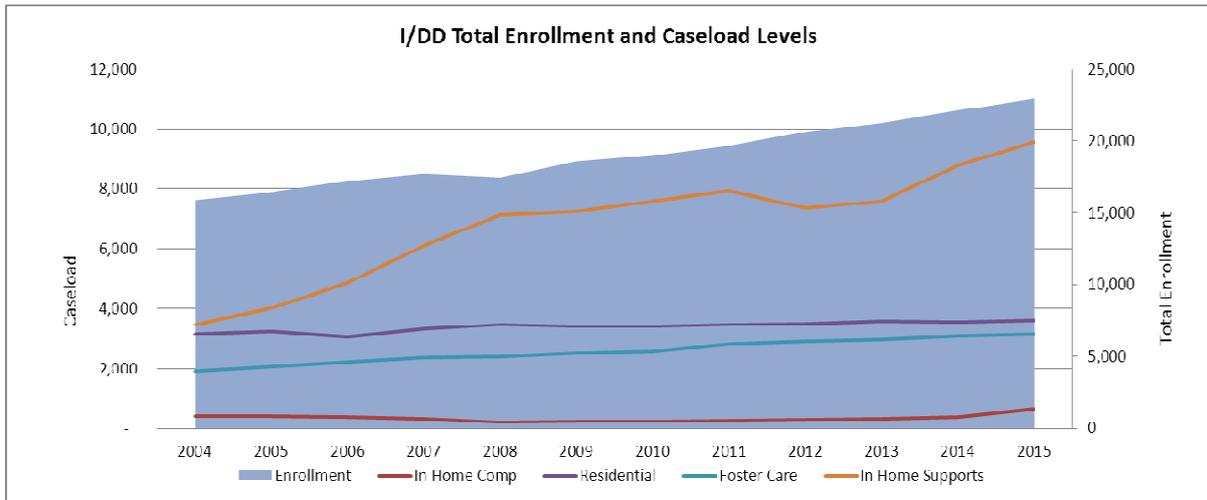

In April 2013, Governor Kitzhaber issued Executive Order 13-04 “Providing Employment Services to Individuals with Intellectual and Developmental Disabilities”. The goal of this Order is to further improve Oregon’s system of designing and delivering employment services to those with intellectual and developmental disabilities in achieving integrated employment, including a significant reduction over time of state support of sheltered work and an increase in investment in employment services. This Order covers the time period of July 1, 2014 through July 1, 2022 and specifies certain benchmarks and metrics to be achieved each year.

The increased outcomes of people with intellectual/developmental disabilities working can provide additional resources for their family unit. People who work also broaden their network of people available to provide supports which continue to delay or defer the need for 24-hour supports or will result in lower costs for both day and residential supports. People who work have also been found to be healthier and happier.

The success of having people live with families for as long as they can is dependent on the families themselves being supported. In the 2011-13 and 2013-15 budgets, funding was provided to the Office Developmental Disabilities Services for a total of eight Family-to-Family Networks. These are family-directed organizations that provide education, resource connections and personal outreach and support to families experiencing similar needs. This funding is continued in the 2015-17 budget.

Program Performance

Supporting individuals to live at home or live on their own is the most desirable outcome for people with developmental disabilities and is most cost effective for the State. The number of people supported at home has been the largest area of growth in the I/DD system.

Enabling Legislation/Program Authorization

Oregon Revised Statutes 427.005, 427.007, and 430.610 through 430.695 enable the provision of family support for children with developmental disabilities. Oregon Revised Statutes 427.410 enables the provision of Support Services for adults through Support Services Brokerages.

At the Federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these Federal laws is subject to the U.S. Supreme Court’s Olmstead Decision of 1999 and the U.S. Department of Justice’s interpretation of that decision as it relates to the ADA and Rehabilitation Act. The Olmstead ruling applies.

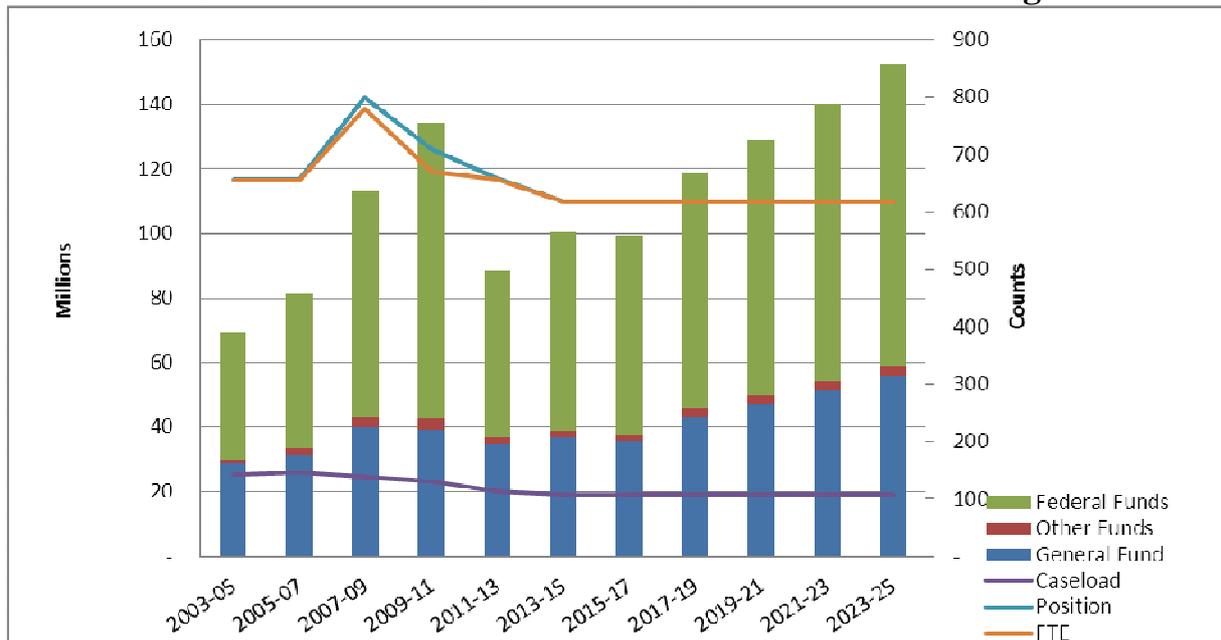

Funding Streams

The services are designed and approved using a Medicaid 1915c Home and Community-Based Waiver and primarily, the Community First Choice Option in the Medicaid State Plan. The program funding match rate is 63 percent Federal funds and 37 percent State General Funds for waiver services and 69 percent Federal funds and 31 percent State General Funds for State Plan services.

Department of Human Services: Stabilization and Crisis Unit (SACU)

Primary Outcome Area: Healthy People
 Secondary Outcome Area: Safety
 Program Contact: Jana McLellan, 503-378-5952 x241

Stabilization and Crisis Unit – Caseloads and Funding

*A 7 percent overall budget reduction occurred in 2011.

Executive Summary

The Stabilization and Crisis Unit (SACU) (formerly State Operated Community Programs (SOCP) provides a safety net for Oregon’s most vulnerable, intensive, behaviorally and medically challenged individuals with developmental disabilities. This includes people with developmental disabilities coming out of crisis situations, including mental hospitals, correctional systems and private providers who cannot meet the needs of the individual to ensure their health and safety. Almost all clients present with dual diagnosis of mental health and I/DD issues. This program is an integral part of the overall intellectual/developmental disabilities continuum of services. SACU focuses on supporting people in

community-based settings and preparing them to return to less intensive service levels once stabilized.

Significant Proposed Program Changes from 2013-20105

Costs do not increase under this proposal. The SACU model continues to be redefined to ensure adequate staffing based on the increased acuity of individuals needing this level of service. SACU homes operate 24/7 and are utilized when all other community resources have been exhausted. DHS continually redefines the SACU programs and will move clients to the lowest cost and appropriate placement whenever possible.

Program Description

SACU provides 24-hour residential services to individuals with intellectual/developmental disabilities who have significant medical or behavioral care needs. The services are provided in 5-bed group homes located across seven counties from the Portland metropolitan area south to Eugene.

As individuals enter into SACU, staff work with each person to modify behaviors and increase individual skills. Many of the people have frequent and intense behaviors and staff must provide physical interventions (personal holds). All clients have individual behavioral protocols that require frequent staff training and a high level of data collection and review.

There is an active referral list of adults and children waiting to enter SACU. Before entry into SACU, individuals are first referred to private community based providers across the state but when they are denied or terminated from a current provider program they move to a SACU placement. Over 99 percent of individuals served have co-morbid (co-occurring) disorders of intellectual/developmental disability and mental illness. Over 25 percent of these individuals have criminal histories and current or pending legal sanctions. The acuity level of challenging behavior requires intensive 24-hour supervision and behavioral support services to

ensure the safety to themselves and the community. Challenging behaviors range from aggression toward people or property inclusive of self-injurious behaviors. SACU also supports 15 individuals with medically fragile conditions that require 24-hour nursing care and support services.

Many of these clients have histories of multiple arrests and convictions. The convictions range from such crimes as assault, criminal mischief, theft, harassment, public indecency, rape, sex abuse, and homicide. A number have legal sanctions as a result such as parole, probation, Psychiatric Security Review Board (PRSB), civil commitment or are registered sex offenders. The majority of clients referred to SACU have an identified need for a secured facility due to their risk of flight and/or offensive behavior. In addition, a large percentage of clients require “hardened” facilities where walls, windows, and fixtures are non-breakable to avoid injury to self and others.

SACU serves 83 adults who are in need of acute stabilization and crisis services. These individuals have been identified due to extreme behavioral and psychiatric needs that have not been successfully provided in the community.

SACU has 10 beds for children (up to 18 years old) who are in acute crisis and require stabilization. These children come from a variety of settings including the family home, foster care, 24-hour group home care, and institutional care.

SACU serves up to 15 individuals in specialized medical facilities due to their fragile medical conditions.

In all of the homes, SACU staff provides services that ensure health and safety needs are met and that the client has the ability to participate in the community. As the goal of the program is to have the client live in the most independent, least restrictive community setting, it is important to make sure the client can be supported in the same type of setting.

All of the individuals in SACU qualify for Medicaid, currently use the Oregon Health Plan and are served by Coordinated Care Organizations, to meet their medical needs. Since there is high medical, behavioral and mental health needs, the program treatment plans are critical for client stabilization and coordination of health services.

From the initial homes in 1987 to today, the profile of the individuals served by SACU has dramatically changed. As private agencies increase their skills to meet challenging needs and are able to provide services, the person who needs safety net services has changed. In 2000, SACU had six homes serving 30 people with high medical needs. Today these medical homes serve only 15 clients. These clients now receive care in community and nursing facilities.

In the past, the numbers of people with intensive behaviors were people who had a diagnosis of autism. Today, intensive behaviors are related to co-occurring mental health diagnosis and/or criminal convictions.

To respond to an individual in crisis, the program has always developed exit plans with providers and counties for people ready to leave at the same time new clients are admitted. However, in 2011, the Legislature reduced the SACU budget. This prompted a comprehensive review of individuals in State care to determine if any could be moved out of SACU to reduce the overall number of clients. Several individuals were identified and recommended for private care. They are still individuals who are assessed at the highest levels of acuity but have behavioral or medical needs that are predictable and can be supported by a private agency.

The 2011-13 budget reduction resulted in six homes being closed over the course of that biennium. This reduced overall client capacity by 22 percent. Those individuals that remain in SACU or will be entering as a new client continue requiring the highest level of staffing and support. DHS has completed a workforce allocation that identifies the type of home (medical or behavioral), and the direct care and administrative staffing required to operate each home. We continue to improve on our efficiencies and staffing needs to produce the most programmatically sound and cost-effective staffing configurations for each house, each shift and each day in every setting.

Program Justification and Link to 10-Year Outcome

SACU helps individuals with intellectual/developmental disabilities be healthy and have the best possible quality of life by helping them live in their communities and to work or attend school to achieve their potential. Stabilization and training are provided for adults and children who have entered the program in crisis. SACU helps individuals transition back into community settings with support from their families, caregivers or private providers.

Individuals enrolled generally have no other alternatives for a residential placement. They are in crisis due to a family breakdown; discharge from a hospital, psychiatric or correctional setting, or discharge from a private provider who can no longer support them due to the intensity of their behavioral or medical needs. SACU provides a critical alternative to assist the person to return to a healthy and productive life through a high quality residential program, including community-based housing, appropriate nutritional and medical care, and interventions.

In addition, the safety net provided by SACU allows for targeted, community-based support to individuals in crisis or with otherwise unmet intensive needs, individuals receive the services they need for the time they need them, and are then assisted to transition back to families or private providers.

Program Performance

Staff ratios are quite high; at minimum all require a 1:1 staffing level. Many require a greater staffing level while in the community. The goal is to stabilize behaviors or health issues in a residential setting so that transition to a private provider is successful. Average length of stay for SACU individuals is between seven and eight years.

SACU is focusing on placement of these long-term individuals in private care. These types of individuals, who can now be served by private providers due to improvements in community service skills and capacity, are no longer prioritized for this program.

All homes maintain a long-term record of licensing success supporting the quality of care provided. Our client, guardian and family data shows a high level of satisfaction with services. SACU tracks clinical data on client restraints, incidents, medication errors, safety records, and a number of other elements.

Enabling Legislation/Program Authorization

Virtually all individuals served by SACU are funded through Medicaid Home and Community-Based Waivers and the 1915K Medicaid State Plan. The individuals served by SACU would be entitled to nursing home or Intermediate Care Facilities for persons with Mental Retardation (ICF/MR) institutional services. Oregon no longer uses institutional care but the service would be required if we could not meet the need in the community.

Other federal laws or rulings that impact services delivered through SACU are the Americans with Disabilities Act and the Supreme Court Ruling on Olmstead, which generally require individuals to be served in least restrictive, non-institutional settings. Oregon commitment statutes in ORS 427 also require the State to provide care and custody to a person who presents harm to themselves or others, and SACU's status as the safety net is integral to accomplishing this.

Additional statutes that guide the delivery and program are found in ORS 412, 430, 409 and 410. The Oregon Administrative Rules (OARs) that govern the operations of SACU require that individuals be supported in the community and in pursuit of educational and vocational activities.

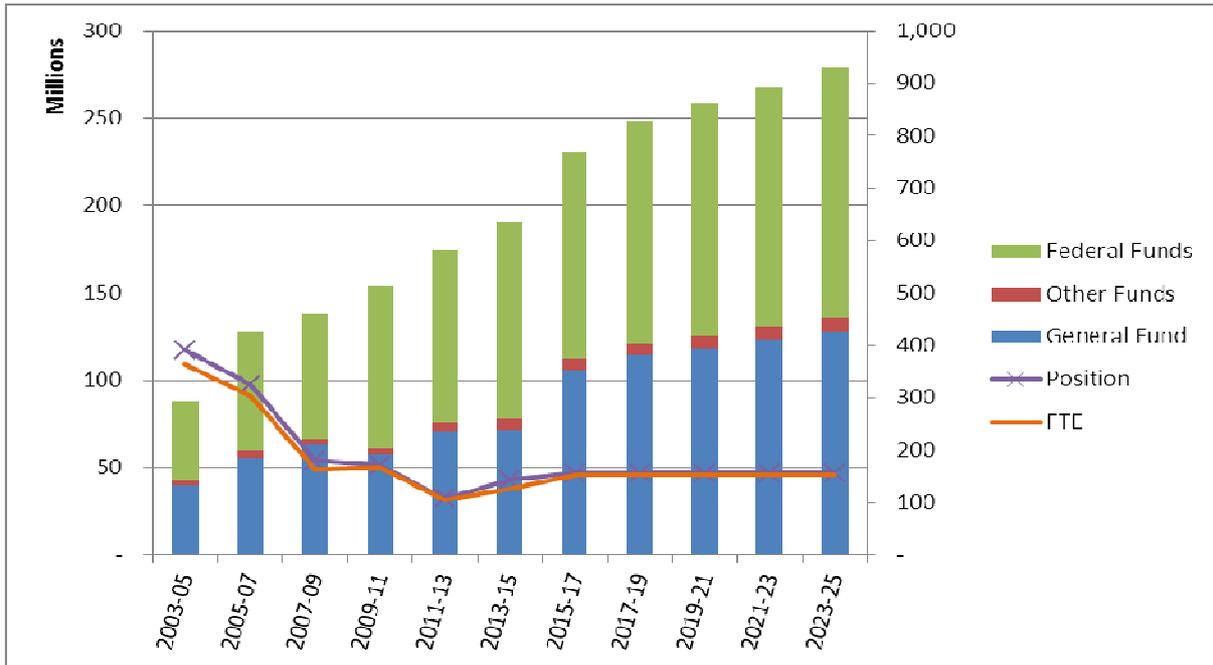

At the Federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these Federal laws is subject to the U.S. Supreme Court's Olmstead Decision of 1999 and the U.S. Department of Justice's interpretation of that decision as it relates to the ADA and Rehabilitation Act. The Olmstead ruling is relevant to the SACU in that it requires all services allowed in the Waiver, including SACU, are ones that create inclusion in the community equitably across the state.

Funding Streams

The services are designed and approved using a Medicaid 1915c Home and Community-Based Waiver and a 1915k Medicaid State Plan which provides a Federal match to the program's General Funds. The program funding match rate is 63 percent Federal funds and 37 percent State General Funds for waiver services and 69 percent Federal funds and 31 percent State General Funds for 1915k State Plan services. Based on their income level, some individuals also pay an Other Funds contribution toward their room and board costs.

Department of Human Services: Delivery and Design

Primary Outcome Area: Healthy People
 Secondary Outcome Area: N/A
 Program Contact: Lilia Teninty, 503-945-6918

Executive Summary

The Office of Developmental Disabilities Office (ODDS) manages a lifespan program that provides support and funding to children and adults with intellectual and developmental disabilities (I/DD) to live fully engaged lives in their communities. Oregon has stopped using institutional models to care for people with intellectual and developmental disabilities and has focused all efforts on people living in their community. Programs are provided in the community in the family home or in a foster care, group home or supported apartment.

Build Capacity for Clients	0.65	-	0.15	0.80	2	1.76

The Department of Human Services (DHS) proposes to increase the funding available to support individuals with I/DD in moving towards integrated employment in the community. This funding will support the further implementation of Executive Order 13-04.

DHS also requests funding for building provider capacity for serving individuals with I/DD in the community. The implementation of the Community First Choice Option (CFCO) has created an unprecedented demand for providers. Building provider capacity is especially important now. This request will also support the creation of capacity for providers to serve individuals stepping down from our state run Stabilization and Crisis Unit into community placement.

Program Description

There are over 23,000 Oregonians with intellectual or developmental disabilities receiving case management and other supports. The numbers of people with intellectual or developmental disabilities requesting services has steadily increased. Since January 2014, we have seen over 100 new people per month. Caseload typically grows in accordance with the general population at a rate of approximately 0.5 percent per year but additional factors that influence the increase include increased lifespan of those with I/DD, autism diagnosis and drug and alcohol affected births.

The structure for service delivery and design includes a central program administration office and contracted services with Community Developmental Disabilities Programs (CDDP) and Support Service Brokerages (Brokerages). The

ODDS central office provides strategic planning, program funding, policy development, general oversight, and technical support to community services. Contracted county Community Developmental Disability Programs (CDDPs) are responsible for eligibility determination, program enrollment, case management, abuse investigation, provider development, quality assurance, and crisis response. Adults can also choose to get case management through contracted Brokerages.

Services are offered on a continuum of care model and are provided as the first option of supports for a person with developmental disabilities. With CFCO people can chose the setting in which they live, this increases the importance of supporting and strengthening the ability of families and communities to include and provide natural supports to those with I/DD. The table demonstrates the continuum of services.

FIRST	IF	THEN
<i>Support Services</i>	<i>Crisis</i>	<i>Comprehensive Services</i>
<p>Person lives at home with family or in their own apartment.</p> <p>Family or others provide support and care in the home as part of natural (unpaid) supports.</p> <p>DHS funds portion of care that cannot be met by family or natural support network.</p>	<p>Person’s family or network cannot continue to provide the care. This may be due to increased need by the individual or a decreased capacity by the care giver. It is determined to be more than a short-term issue and will require long-term services</p>	<p>Person is in services that are provided on a 24-hour basis. Includes both residential care such as foster care or group home as well as employment or day services for an adult or school (not funded by DHS) for children.</p>

ODDS delegates responsibility for administration to local county government, Community Developmental Disabilities Programs (CDDPs) in accordance with state statutes (ORS 407) giving the counties. DHS has Intergovernmental Agreements with all but seven counties. In those counties, the state contracts with a private agency. Local oversight responsibilities include determining eligibility for developmental disabilities, planning and resource development, developing and monitoring Individual Support Plans, documentation of service delivery to comply with state and federal requirements. Counties also are responsible for case management services, evaluation and coordination of services, abuse investigations

of adults and quality assurance services. ODDS provides funding for the equivalent of nearly 730 full time employees of CDDPs through contracts. CDDPs provide case management for all individuals except adults choosing to be served by a Support Service Brokerage. The case management for those individuals is then provided through a Support Service Brokerage. ODDS provides funding for nearly 300 full time employees to the Brokerages.

In 2001 the Intellectual and Developmental Disability office started the Support Services Program. In order to not duplicate services, once a person is in a Brokerage, they do not also get case management from the CDDP. There are 13 Support Service Brokerages statewide. Brokerages vary in size and support from 300 to 750 people. Adults have a choice of case management providers, between the local CDDP and a Brokerage. Children are all served by the CDDPs.

People with I/DD are enrolled in Brokerages from the county when they select Brokerage case management services. Once in a Brokerage, the Brokerage Personal Agent (PA) completes a needs assessment, develops the Individual Support Plan, assists the person in determining services needed, amount of service and possible workers or agencies. PA's help the individual to design plans that meet their needs as determined by the needs assessment.

The majority of individuals receiving services are eligible for Medicaid. Oregon no longer uses institutional models of care for people with I/DD. Instead, the State uses Medicaid Home and Community-Based Services (HCBS) that allow for shared funding from the Federal government. Through the CFCO State Plan Option, the Federal match for most services is 69 percent to 31 percent State General Funds.

ODDS staff provide policy and program design, technical support, quality assurance, provider development and review, and field support of CDDPs, Brokerages and direct service providers. There are over 120 private service providers, approximately 1,030 foster care providers and over 7,000 Personal Support Workers. Regulatory oversight for licensed settings is provided by the DHS Office of Licensing and Regulatory Oversight. The DHS Office of Information Technology Business Supports provides technical support on payment systems and is working on the development of streamlined payment systems with the goal to limit the numbers of systems.

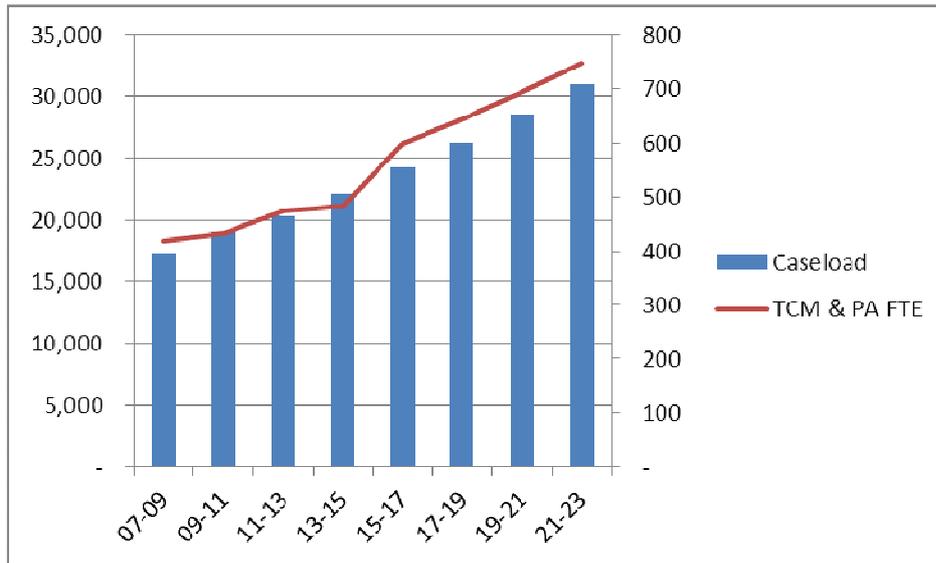

Central office staff provides programmatic and budget analysis support to Department of Administrative Services Labor Management, collective bargaining, for the Adult Foster Homes, Home Care Worker, and Personal Support Worker. The central office also works with the Children's Intensive In-Home services and the Children's Residential Services. This includes assessing level of care and authorizing services, developing and monitoring plan outcomes, and developing provider resources. Due to understaffing, ODDS has prioritized central office staff responsibilities to three critical areas: development and implementation of policies, liaison and support of the Brokerage and CDDP services, and liaison and support to service providers.

Program Justification and Link to 10-Year Outcome

The program delivery system, designed and monitored by central staff and implemented through either the CDDP or Brokerage, is designed to assure supports are provided so the individual is healthy and safe, and fully engaged in their community. The goal is to help them have the best possible quality of life at any age. Person-centered strategies are used to maximize the person's natural supports. The CDDP and Brokerage reports on critical incidents and the data are used to track trends and determine strategies to improve healthy living outcomes.

Program Performance

Personnel resources are necessary to provide performance in the delivery of programs within Developmental Disabilities in a linguistically and culturally competent manner. The chart below provides a comparison of the caseload growth to the equivalent contracted CDDP and Brokerage personnel-Case Managers and the Brokerage Personal Agents. The growth over time provides a stark display of how our current resources are struggling to keep pace with the need of vulnerable Oregonians with intellectual or developmental disabilities. (See chart)

Enabling Legislation/Program Authorization

The services are designed and approved using a Medicaid 1915c Home and Community-Based Waiver and the CFCO Medicaid State Plan. Without the Waiver and state plan, individuals would be entitled to Institutional Care for Individuals with Intellectual and Developmental Disabilities (ICF/IID). Individuals can also be court committed to the State care and custody under ORS 427. Targeted Case Management is authorized under the Medicaid State Plan. Federal authorization for all services is at 42 C.F.R. 441 and Section 1915(c) of the Social Security Act. Authorization to provide the services in Oregon is in ORS (410.070, 409.050).

At the Federal level, in addition to all applicable Medicaid statutes and regulations, services must comply with the Title II of the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973. Compliance with these Federal laws is subject to the U.S. Supreme Court’s Olmstead Decision of 1999 and the U.S. Department of Justice’s interpretation of that decision as it relates to the ADA and Rehabilitation Act. The Olmstead Decision requires states to provide services and supports in non-segregated settings.

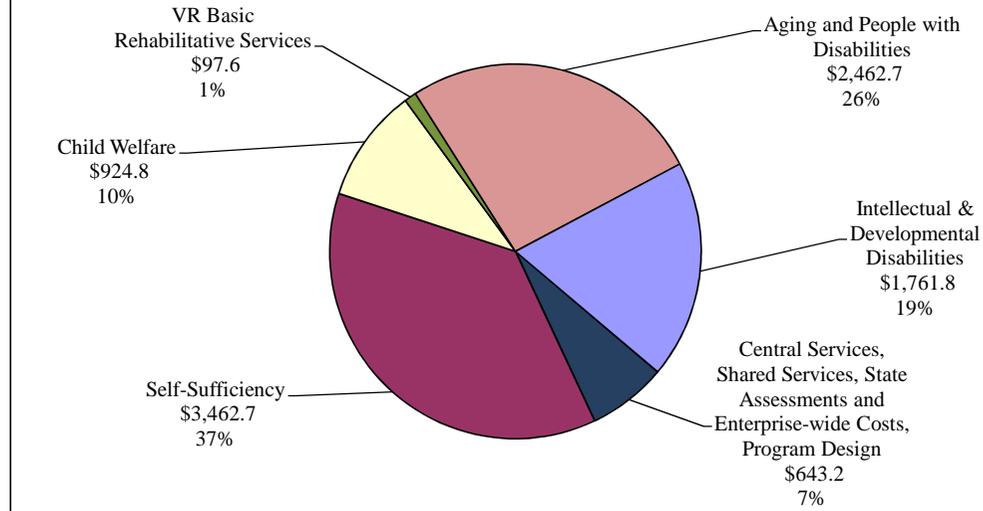

Funding Streams

The services are designed and approved using the Community First Choice Option in the Medicaid State Plan and Home and Community-Based Waivers, which provides a Federal match to the program’s General Funds. The program funding match rate for waived services is 63 percent Federal funds and 37 percent State

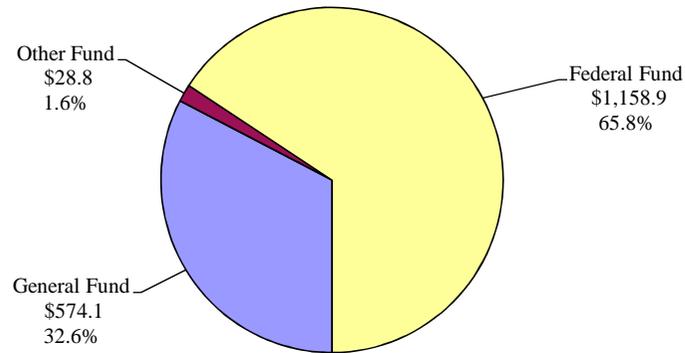

General Funds and for CFCO services is 70 percent Federal funds and 30 percent State General fund.

The administration of CDDP, Brokerage, and central office staff are funded at the Medicaid administrative match of 50/50. Authorization to provide the services in Oregon is in ORS (410.070, 409.050).

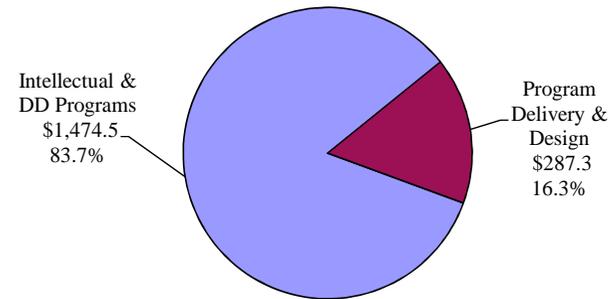

**Department of Human Services
2015-17 Policy Option Package Tracker**

Program	Policy Option Package Title	Summary Statement	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE	POP #
SS	TANF Flexibility in Design	Economic recovery has been uneven in Oregon and has not yet reached most families who participate in TANF. Caseloads remain very high. TANF participants often cannot find jobs that fit their current skills, offer a living wage or offer enough hours for them to exit the TANF program due to employment. At the same time, there are several redesigns of state systems that involve TANF families. DHS proposes a refocusing of the TANF program that fits today's realities. DHS is proposing a package of cost-neutral, targeted investments that will build the capacity of families to increase earnings and transition from TANF through an accountable, flexible and family-centered approach. The investments emphasize alignment with systems that touch or should touch TANF participants, the scaling up of best practice case management, and raising the income limits for TANF exit to create a glide path off of TANF to decrease the number of families who return to the program repeatedly. DHS proposes using savings from projected caseload savings to fund the investments.	\$ 20,000,000	\$ -	\$ (7,983,033)	\$ 12,016,967			101
OEMS	REaL-D	This Policy Option Package supports the establishment of uniform standards and practices for the collection of data on race, ethnicity, preferred spoken or signed language, preferred written language, and disability status by the Oregon Health Authority (OHA) and Department of Human Services (DHS). This POP supports designing, building and implementing a master client data service that supports the long-term strategy of a comprehensive view of the OHA/DHS client. Upon establishment of a re-useable master client service, the agency will have the capability to collect demographic information on the client that will serve multiple program and reporting needs. DHS and OHA have developed administrative rules and policies for collecting, analyzing, and reporting meaningful race, ethnicity, language and disability data (REaL+D) across DHS and OHA based on the foundation of the U.S. Office of Management and Budget's (OMB) Directive 15 (revised 1997), and adds key elements that will improve the quality of the data gathered. This POP addresses both the business and technical changes required to create a unified, sustainable model for collecting client data across both agencies. Planning for the project is occurring during the remainder of the 13-15 biennium; DHS and OHA have put in place a REaL-D Analysis and Assessment Project to inventory and analyze all business processes, systems and reports across DHS/OHA that capture, update or utilize REaL-D data. This project's focus is on a detailed assessment and impact analysis of the changes that will be required across DHS & OHA in support of the implementation of HB 2134 and the related Oregon REaL-D data collection standards. The outcome of the in-depth analysis will include a detailed business case and recommended implementation strategies for REaL-D data standards compliance.	\$ 743,644	\$ 1,000,000	\$ -	\$ 1,743,644	3	2.84	201
APD	DHS Non-MAGI Eligibility Project	At Agency Request Budget, this was a placeholder POP. At the Governor's Budget, the POP was redirected to work on Non-MAGI Eligibility Automation. Department of Human Services (DHS) seeks \$7.5 M TF (\$6.75M FF, \$0.75M GF) to implement a planning effort to prepare for the implementation of an eligibility system for its non-MAGI (Modified Adjusted Gross Income) Medicaid programs. DHS is committed to completing thorough planning to provide a framework for phased delivery of functionality that demonstrates meaningful progress in short increments of time.	\$ 750,000	\$ -	\$ 6,750,000	\$ 7,500,000			103

**Department of Human Services
2015-17 Policy Option Package Tracker**

Program	Policy Option Package Title	Summary Statement	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE	POP #
I/DD	Employment Outcomes for People with I/DD	Youth and adults with intellectual and developmental disabilities (I/DD) are significantly underrepresented in Oregon's workforce. With appropriate services and assistance, persons with I/DD are capable of employment. The state is seeking to increase competitive employment of I/DD persons in integrated workplaces through the Department of Human Services' (DHS) Employment First Policy and Governor Kitzhaber's Executive Order 13-04. The order directs state agencies and programs, including DHS' Office of Developmental Disability Services and Vocational Rehabilitation, to take various steps and to achieve specific goals. In order fulfill the policy and order, this POP requests funding for: a. Six Vocational Rehabilitation Counselors, Two Human Services Specialists and 1 Operations and Policy Analyst to serve increasing numbers of youth with intellectual and developmental disabilities and increase engagement with school districts participating in Youth Transition Program (YTP) and with state I/DD system. b. 10.5 contract Benefits Counselors to provide benefits counseling services to persons with disabilities, including those with I/DD; and two Operations and Policy Analysts to train, oversee and support the counselors; and to plan future delivery of these services. c. An Employment First Transformation Fund and Operations and Policy Analyst to identify, research and promote utilization of best and evidence-based practices that facilitate competitive employment of I/DD persons and promote continues improvement of related services.	\$ 4,358,223	\$ -	\$ 841,898	\$ 5,200,121	12	10.80	104
APD	Adult Protective Services I.T. System	This is a POP to develop a streamlined and Integrated Statewide Adult Abuse and Report Writing System. Phase I planning was approved by the Emergency Board in March 2014. This POP assumes the planning is completed and the Phase II development is ready to proceed based on the Phase 1 business case and solicitation documents. It is also planned to keep close connection between program, OIS, DAS and LFO on the gate review processes and progress of this project. The need for a stable, integrated Abuse Data and Report-writing System is critical as Oregon faces an aging population, an annual increase of 5-8% in abuse referrals, and an increased need for services across all demographics. Currently all funding is assumed as GF but DHS is pursuing other avenues of Federal Funds that may or may not become available. Assumes \$2 million of Q-bond available.	\$ 1,437,494	\$ 2,000,000	\$ -	\$ 3,437,494	-	-	107
OPI	Child Welfare Quality Control Reviewer Staff	The position requested in this POP will increase the QC review capacity in the statewide Child Welfare Quality Assurance system to include stakeholder interviews, which are federally required as part of each state's Continuous Quality Improvement in Child Welfare program. This requirement can be found in the federal Adoption and Safe Families Act of 1997 and the Administration for Children and Families Information Memorandum CB-IM 12-07 dated August 27, 2012. There are currently 3 FTE in the Child Welfare review team. This additional position will enable the state to complete federally mandated Children and Family Services Review (CFSR) as required and mitigate the risk for federal penalties and imposed program improvement plans.	\$ 79,725	\$ -	\$ 79,725	\$ 159,450	1	1.00	108

Program	Policy Option Package Title	Summary Statement	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE	POP #
CW	Program Infrastructure	With additional workload associated with CW system transformation, additional infrastructure is needed to assure that the program can meet its aggressive foster care reduction and family stability/child safety targets. This request also creates support for cross-system alignment with the education and health/behavioral health systems to ensure that children experiencing foster care fully benefit from the systems transformation underway in those areas. This POP requests 15 OPA3s, 2 PA2s, 2 PEM Es, one PEM D and 3 AS2s to staff adequately the strategies currently underway. These include additional support for the expansion of Differential Response, implementation of the Title IV-E waiver that will support the service array for DR, Educational Advocacy for children in care, adequate monitoring of psychotropic medication, support for ILP and Youth support services, increased support to address programmatic needs for Commercially Sexually Exploited Children, additional support for Behavioral Rehabilitation Services delivery, contracting, training, and the centralized hotline. Also adds four ORKIDS accountants 1s for payment processing and research and two positions to support Child Welfare work by the Legislative Legal Unit.	\$ 2,183,289	\$ -	\$ 2,176,226	\$ 4,359,515	29	21.75	109
I/DD	Build Capacity for SACU clients in Prov Comm	As Stabilization and Crisis Unit (SACU formerly SOCP) moves toward a crisis resource for residential resources for the most vulnerable adults and children across the State of Oregon, a strong need has emerged to support the current SACU population with enhanced services in community placed settings. To that end, the need for a focused strategic plan to address the "stepping down" of severely disabled, although NOT in crisis, individuals currently served through SACU resources is immediate, cost effective and necessary. Additionally, the expanded supports and services provided to individuals through the "K" Plan are requiring increased provider capacity in all aspects of our service delivery - both agency providers and Personal Support Workers. This POP supports a plan to expand provider capacity with start-up or "grant funds" to provider agencies and others throughout the state who will build residential homes targeted at a specific SACU population each agency agrees to serve if that agency is awarded a grant. It would also provide grant funds for entities interested in developing capacity for serving non-SACU individuals in their own homes or in other community living settings.	\$ 653,730	\$ -	\$ 153,258	\$ 806,988	2	1.76	110
I/DD	Provider Rate Increases	DHS is requesting a 4% increase, effective 1/1/2016, in all non-bargained provider types, residential and non-residential, agency providers. 4% is less than the combined COLAs for the previous three biennia but will allow these agencies to increase direct staff wages and/or benefits for those that serve our I/DD individuals. The Direct Support Professionals that provide services through provider agencies are currently allocated \$10.80 per hour in our budget models. This package will allow an increase of 4% to that model, bringing the base rate to \$11.23.	\$ 8,537,069	\$ -	\$ 18,163,987	\$ 26,701,056	-	-	111
SS	SS - backfill empty OF & restoration of pos.	This combination of policy option packages eliminates all the empty other fund limitation in virtually all Self Sufficiency positions and replacing it with a combination of General and Federal Funds. The empty other fund limitation issue is primarily the result of actions taken prior to the 2003-05 session to hit a GF target at the time, where all positions were provided some other fund limitation. In addition the loss of provider and hospital tax funding for Self Sufficiency positions, to free up GF in 2011-13 and 2013-15, was not permanently backfilled. DHS has been managing to the budget for several biennia through vacancy savings. The Federal Fund backfill is from the TANF flexibility in design POP 101. The remaining backfill is General Funds. This combination of actions will keep the Self Sufficiency workload model at 76.7%.	\$ 10,000,000	\$ (15,049,969)	\$ 7,983,033	\$ 2,933,064	17	17.00	070/ 113
VR	No Cost Position Authority Request	The policy option package is requesting position authority to clear all of the double filled positions within the Vocational Rehabilitation program. These positions currently have the necessary funding to support them. These positions were hired to serve the ever expanding need for rehabilitation services by Oregon residents, as well as meeting required over site of program based on federal reviews and reporting requirements. Vocational Rehabilitation has been able to fund these by reducing contract costs and managing spending related to client services.	\$ -	\$ -	\$ -	\$ -	19	19.00	119

**Department of Human Services
2015-17 Policy Option Package Tracker**

Program	Policy Option Package Title	Summary Statement	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE	POP #
OFRA	Oregon Enterprise Data Analytics	State agencies increasingly need to analyze data across all agencies serving the same clients/customers to improve their ability to design effective programs, achieve outcomes, minimize risks and find efficiencies. This helps to bring the right resources and services to the right families at the right time by identifying risk levels and strategically targeting services to produce outcomes. Some agencies have already built combined data sets for analysis purposes. This POP extends this work to more agencies and builds the resources to make use of this data. All positions are in shared services Office of Forecasting Research and Analysis (OFRA) as they would answer to multiple agencies.	\$ 946,393	\$ 1,889,626	\$ 943,233	\$ 3,779,252	13	8.45	121
SS	TANF Investigator POP	Currently, Overpayment and Recovery's (OPAR) client fraud investigators have caseloads in excess of 300 cases each. This is excessive and additional resources are needed to properly decrease the backlogged workload. Further, an investigator's work often happens in client homes and in adversarial situations where safety is a concern. These new staff (7 FTE, Investigator 3 classification; 10 FTE, Investigator 2 classification; 2 FTE, Office Specialist 2; 2 FTE, Administrative Specialist 2; 1 FTE, Program Manager C) would provide the additional investigative staffing needed to right-size the investigations unit, reduce existing safety concerns, as well as expand capacity for utilizing new data-mining and GIS fraud-identification techniques. The expected recovery estimate in program budgets can provide some programmatic offset to this POP cost. In addition overall Return on Investment (ROI) including federal funds provides a minimum ROI of \$1:1 in total fund to total fund recovery for taxpayers overall.	\$ 884,248	\$ 1,314,776	\$ 763,687	\$ 2,962,711	22	9.24	123
SS	Early Learning ERDC Investment	Enhanced funding for food programs, which have been transferred from the Oregon Department of Housing and Community Services.	\$ 49,570,687	\$ -	\$ -	\$ 49,570,687	-	-	129
SS	Transfer Food Assistance	Additional investment in Employment Related Day Care in support of the Governor's Early Learning initiative, providing greater access to quality childcare for Oregon's working families.	\$ 1,772,578		\$ 1,786,327	\$ 3,558,905	-	-	301

2015-17 Policy Option Package

<u>Agency Name:</u>	Department of Human Services (DHS)
<u>Program Area Name:</u>	Office of Self-Sufficiency
<u>Program Name:</u>	Temporary Assistance for Needy Families (TANF) Re-design
<u>Policy Option Package Initiative:</u>	N/A
<u>Policy Option Package Title:</u>	TANF Flexibility in Design
<u>Policy Option Package Number:</u>	101
<u>Related Legislation:</u>	N/A
<u>Program Funding Team:</u>	Economy and Jobs

Summary Statement:

The economic recession and slow economic recovery resulted in one of the highest jobless rates in the nation. Demand for public benefits skyrocketed at the same time that social services, education and workforce programs at all levels took deep cuts. As the economy continues to recover, the Department is working with Legislators, partners, advocates and others on a package to re-design the state’s Temporary Assistance for Needy Families (TANF) and the Job Opportunity and Basic Skills (JOBS) program. This Policy Option Package represents targeted investments that will build the capacity of families to increase earnings and transition from TANF through an accountable, flexible, and person-centered approach. This policy option calls for reinvesting savings from a projected decline in the TANF caseload into nine strategies to improve participant outcomes. The strategies are organized into the following five categories: (1) reducing the number of participants affected by the “fiscal cliff” when they become employed; (2) simplifying eligibility requirements to strengthen family connections and stability for children; (3) expanding family stability services; (4) increasing flexibility in support services to prevent families from entering TANF; and (5) improving program capacity to provide strength-based, customized and outcome-focused case management.

	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option</u> <u>Package Pricing:</u>	\$20,000,000	\$0	(\$7,983,033)	\$12,016,967

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

The Great Recession left a lingering toll on Oregon. The number of jobless Oregonians and applicants for public assistance skyrocketed to some of the highest in the nation. At the same time, social services, education and workforce systems at all levels took deep budget cuts. Organizations lacked the capacity and resources to help all who were in need, especially those with the most barriers to employment. Recovery has not been consistent across the state. Some areas still face double-digit unemployment rates. Many parents work but can't make ends meet due to low wages, insufficient benefits and few prospects for career advancement. Others face steep barriers to employment because of low literacy, health problems, or lack of work experience or education. For DHS, public assistance caseloads remain high compared to pre-recession caseloads, and although staffing levels have improved, the agency knows from best practice research that it must balance family entered case management, support services and flexible, targeted resources to put families on a path to permanent self-reliance.

Oregon recognizes that no single organization or system has the resources or responsibility to reduce poverty. Promising policy initiatives have been launched to move people out of poverty and up the economic ladder through employment. These and other policy decisions, along with economic factors and funding trends in Oregon, point to the need for social services and public agency partners to reduce duplication, increase effectiveness and collaboratively address the intensive need for services with available resources. The TANF Reinvestment Proposal aligns with the statewide initiatives, and strengthens collaborations and family-centered case management to bring better results for the most challenged in Oregon.

As the economy continues to recover, the Department is working with Legislators, partners, advocates and others on a package to reinvest in the state's Temporary Assistance for Needy Families (TANF) and the Job Opportunity and Basic Skills (JOBS) program. This Policy Option Package represents targeted investments that will build the capacity of families to increase earnings and transition from TANF through an accountable, flexible, and person-centered approach.

The strategies included in this policy option are organized into the following five categories: (1) reducing the number of participants affected by the "fiscal cliff" when they become employed; (2) simplifying eligibility requirements to strengthen family connections and stability for children; (3) expanding family stability services; (4) increasing flexibility in support services to prevent families from entering TANF; and (5) improving program capacity to provide strength-based, customized and outcome-focused case management.

Implementation

Implementation of this policy option will require amendments to Oregon Revised Statutes, Oregon Administrative Rules, Family Services Manual, and TANF core training. This policy option will also require new or expanded performance based interagency and contract agreements.

2. WHY DOES DHS PROPOSE THIS POP?

Currently, with the economy improving and the current forecast showing reduced caseloads in the 2015-17 biennium, the Department feels this is the right time for reinvesting in the TANF program. This package targets investments that will build the capacity of families to increase earnings and transition from TANF through an accountable, flexible and person-centered approach.

Families may need support as they transition off of TANF and into employment. Currently approximately 27% of families who leave the TANF program return within a year. Adding supports to the TANF program at critical parts of the continuum will help families improve their employment outcomes and self-reliance.

Additionally, the Department recognizes that families accessing the program may need additional supports through expanded family stability services before leaving the program.

This package also relies on Policy Option #113 to provide expanded intensive case management capacity in order to provide strength-based, customized and outcome-focused services.

3. HOW DOES THIS FURTHER THE AGENCY'S MISSION OR GOALS? HOW DOES THIS FURTHER THE PROGRAM FUNDING TEAM OUTCOMES OR STRATEGIES?

This policy option package supports the Department's mission and goals of assisting people to be safe, become independent and support themselves and their families through stable living wage employment.

4. IS THIS POP TIED TO A DHS PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS MEASURE THE SUCCESS OF THIS POP?

This policy option package ties to DHS Key Performance Measures of: (1) TANF Family Stability and (2) TANF Re-entry.

In addition, this package will drive toward the following outcomes:

- Increase the number of people going to work
- Decrease the number of people who return to TANF
- Improve customer engagement and mutual accountability through effective application of the family-centered service model
- Support the safety, health and school readiness of children
- Increase the number of customers who meet work participation requirements
- Leverage community partnerships for improved client outcomes
- Streamline and simplify policy, rules and practice to increase accuracy, staff capacity and efficiency.

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

Yes. Simplifying eligibility such as eliminating deprivation as an eligibility requirement would necessitate amending ORS 412.001 and 412.114. Also, this policy option package may eventually be linked with LC# 466 in a bill. LC# 466 amends time limit law at ORS 412.079 and also amends Section 8, chapter 604, Oregon Laws 2011, associated to suspensions to the TANF program design reflected in HB 2469 from the 2007 Legislative Session.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

The Department first identified the total need that would align resources and program structure to enable the TANF and JOBS programs to operate as fully intended by the 2007 Legislative Assembly. However, a more realistic scenario is to target investments in the program that have the highest likelihood to produce the best results for families based on known best practices.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

The current TANF and JOBS program structure is inadequate for supporting families in meeting their goals. If this option is not funded, families leaving the TANF program will continue to experience a cliff effect as they become employed.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Members of Oregon Tribes who avail themselves of TANF services will also benefit from the investments in this policy option package.

Changes in TANF caseloads have a direct impact on the Division of Child Support Cases.

Expanding family stabilization services requires continued partnerships and coordination with community-based organizations and other helping agencies.

9. WHAT OTHER AGENCIES, PROGRAMS or STAKEHOLDERS ARE COLLABORATING ON THIS POP?

The TANF Alliance has been collaborating with DHS on this policy option package. The Division of Child Support has been informed of DHS placeholder Legislative Concepts and associated policy option packages.

10. WHAT IS YOUR EQUITY ANALYSIS?

The provisions included in this policy option package are intended to benefit all TANF beneficiaries. Any contracted services procured through this package will be required to provide culturally, linguistically and gender appropriate service delivery.

11. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

The current forecast indicates the TANF caseload will be lower in the 2015-17 biennium compared to the 2013-15 biennium. This policy option package assumes \$20 million of the caseload savings projected in the forecast over the current biennium will be reinvested into the TANF program.

Implementation Date(s): October 2015

End Date (if applicable): N/A

a. Will there be new responsibilities for DHS? Specify which Program Area(s) and describe their new responsibilities.

DHS Office of Self-Sufficiency

DHS Budget and Accounting

Office of Contracts and Procurement

Office of Information Technology

Office of Information Security and Privacy

b. Will there be new Shared Services impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected.

No.

c. Will there be changes to client caseloads or services provided to population groups? Specify how many in each relevant program.

Yes. Certain policy changes such as eligibility simplification and reducing the number of participants affected by the fiscal cliff will likely cause an increase in the caseload after implementation. It is anticipated that expanding contracts to focus on family stabilization, increasing amounts and flexibility in the use of support services and the case management system capacity investment in POP #113 will also mean that connections to the right menu of services through DHS and other community partners will be made more effectively and will help families connect to employment or other alternatives faster.

- d. Will it take new staff or will existing positions be modified? For each classification, list the number of positions and the number of months the positions will work in each biennium. Specify if the positions are permanent, limited duration or temporary.**

No.

- e. What are the start-up costs, such as new or significant modifications to computer systems, new materials, outreach and training?**

This package will result in administrative costs associated with amendments to Oregon Statutes, Administrative rules, manuals and training. There are anticipated costs of mailings to customers associated with the changes to the program. There are costs anticipated to modify IT systems in order to implement certain policy changes.

- f. What are the ongoing costs?**

A total of \$20 million in investments funded through General Funds.

- g. What are the potential savings?**

It is anticipated that the investments included in this policy option package will result in savings to other systems such as child welfare but the amount of savings cannot be estimated at this time.

- h. Based on these answers, is there a fiscal impact?**

Yes. This policy Option package has a \$20 million General Fund fiscal impact, however, if it is assumed that this reinvestment will be covered through projected savings in the next biennium based on the current forecast.

2015-17 Policy Option Package

Agency Name: DHS/OHA
Program Area Name: DHS Central Services
Program Name: Office of Equity and Multicultural Services (OEMS) and Office of Equity and Inclusion (OEI)
Policy Option Package Initiative: N/A
Policy Option Package Title: REaL-D
Policy Option Package Number: 201
Related Legislation: N/A
Program Funding Team: Improving Government

Summary Statement:

This Policy Option Package supports the establishment of uniform standards and practices for the collection of data on race, ethnicity, preferred spoken or signed language, preferred written language, and disability status by the Oregon Health Authority (OHA) and Department of Human Services (DHS).

In the current OHA/DHS systems architecture, the agency would be required to modify all systems, duplicate information across multiple systems and will most likely ask the same demographic questions of clients multiple times across the various programs.

This POP supports designing, building and implementing a master client data service that supports the long-term strategy of a comprehensive view of the OHA/DHS client. Upon establishment of a re-useable master client service, the agency will have the capability to collect demographic information on the client that will serve multiple program and reporting needs. One key focus is aligning the data systems used for collection and reporting of race, ethnicity, language and disability data with the new standard to promote health and service equity for all programs and activities within the Department of Human Services (DHS and

Oregon Health Authority (OHA).

DHS and OHA have developed administrative rules and policies for collecting, analyzing, and reporting meaningful race, ethnicity, language and disability data (REAL+D) across DHS and OHA based on the foundation of the U.S. Office of Management and Budget's (OMB) Directive 15 (revised 1997), and adds key elements that will improve the quality of the data gathered. This POP addresses both the business and technical changes required to create a unified, sustainable model for collecting client data across both agencies.

This POP will help establish the base master client service. Programs and systems utilizing this service will need to be determined through the 2014-2015 business analysis and systems assessment for REAL+D. The master client service will be an ongoing resource that supports systems and business processes alignment with HB 2134.

For the remainder of the 13-15 biennium (July 1, 2014-June 30,2015); DHS and OHA have put in place a REAL-D Analysis and Assessment Project to inventory and analyze all business processes, systems and reports across DHS/OHA that capture, update or utilize REAL-D data. This project's focus is on a detailed assessment and impact analysis of the changes that will be required across DHS & OHA in support of the implementation of HB 2134 and the related Oregon REAL-D data collection standards. The outcome of the in-depth analysis will include a detailed business case and recommended implementation strategies for REAL-D data standards compliance.

DHS	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$743,644	\$1,000,000	\$0	\$1,743,644

OHA	General Fund	Other Funds	Federal Funds	Total Funds
<u>Policy Option Package Pricing:</u>	\$1,771,152	\$0	\$0	\$1,771,152

1. WHAT WOULD THIS POLICY OPTION PACKAGE (POP) DO AND HOW WOULD IT BE IMPLEMENTED?

This policy option package would leverage recent technology investments that support master data management to support the establishment of a master client service. Funds would be used to architect, design and implement re-useable approaches for systems to utilize a master client service including application interfaces for current systems to leverage the master data repository.

For the remainder of the 13-15 biennium (July 1, 2014-June 30, 2015), DHS and OHA will implement a REAL+D Analysis and Assessment Project to inventory and analyze all business processes, systems and reports across DHS/OHA that capture, update or utilize REAL+D data. This project will focus on a detailed assessment and impact analysis of the changes that will be required across DHS & OHA to support implementation of HB 2134 and the related Oregon REAL+D data collection standards. The outcome of the in-depth analysis will include a detailed business case and recommended implementation strategies for REAL+D data standards compliance.

Funding of this POP would support implementation of a common approach for allowing workers and clients to view, update and maintain their own profile based upon the data collection requirements, including REAL+D. This approach would provide appropriate access to DHS and OHA analytics groups to collect,

analyze and report on services related to various demographics to help reduce health and human services disparities. Better data would support better business functions and policies by increasing understanding of the causes of disparities, supporting the design effective responses, and supporting the evaluation of improvements over time.

2. WHY DO DHS and OHA PROPOSE THIS POP?

The Department of Human Services and the Oregon Health Authority both established equity (service equity and health equity) as part of their core values. However, problems with data prevent both agencies from knowing the full extent of inequity and from measuring the impact of efforts to assure equity. Tremendous inconsistencies exist in the data that different government, health, and human service agencies, and programs within agencies collect. Even definition of the terms “race,” “ethnicity,” or “disability” vary across key government, health, and human service institutions (i.e. Census, Office of Management and Budget, Institute of Medicine, Oregon Health Care Quality Corporation, etc.). Agency and contractor staff often lack training in best practice methods for collecting race, ethnicity, language and disability demographic information in a respectful and non-intrusive manner.

The data collection standards used by state agencies are inconsistent and insufficient to adequately assess the status and needs of Oregon’s communities of color, and immigrant and refugee communities. The inadequate data collection standards make it difficult to analyze how race, ethnicity and language impact individual and community health, making services more expensive and less effective in addressing community needs. Improving data systems is a key component of continuous quality improvement efforts that lead to health and service equity.

DHS and OHA need to implement a more sustainable model to support the current and future needs. The agency needs to implement data standards, data architecture and data governance to address the current requirements and implement business practices to provide flexibility and ensure data quality.

3. HOW DOES THIS FURTHER THE AGENCY’S MISSION OR GOALS? HOW DOES THIS FURTHER THE PROGRAM FUNDING TEAM OUTCOMES OR STRATEGIES?

Both DHS and OHA are focused on equity and inclusion in the service of the citizens of Oregon. Without a unified method of collecting this information, it is not possible for the agencies to effectively review the results of their services and identify ways to improve services to certain populations. The standardized methodology will allow DHS and OHA to demonstrate progress towards reductions in racial and ethnic disparities by increasing transparency in reporting indicators by race and ethnicity. In addition, it will allow DHS and OHA to be consistent with federal reporting expectations and facilitate comparison of Oregon’s progress to address racial and ethnic disparities with national trends.

4. IS THIS POP TIED TO A DHS and OHA PERFORMANCE MEASURE? IF YES, IDENTIFY THE PERFORMANCE MEASURE. IF NO, HOW WILL DHS and OHA MEASURE THE SUCCESS OF THIS POP?

Having client data routinely and accurately collected by race, ethnicity, language and disability will assist DHS and OHA in better understanding disparities in need, access, quality, and outcomes of services. The data will assist both agencies in supporting and developing community partnerships to close gaps, implementing quality improvement and customer satisfaction improvement initiatives, as well as to know how to set diversity goals to achieve parity with the agencies’ client populations.

This POP is directly tied to several outcome measures for the Department of Human Services: 05: Service Equity; 06: Employee Engagement; 04: Customer Satisfaction and 07: Workforce Diversity. It is also directly tied to one of DHS’ Breakthroughs: Improving Service Equity; as well as process measure OP2.3: Ensuring equitable access and inclusivity.

Efforts to improve data collection across OHA directly address the key goals, core and sub-processes defined by the OHA Strategic Plan and operational fundamentals, including the following:

- Ensuring data integrity
- Ensuring equity in policy and program design
- Ensuring equity in program delivery
- Providing or ensuring culturally responsive interventions
- Establishing and implementing quality control mechanisms
- Ensuring health, safety and client rights in publicly-funded programs
- Ensuring civil rights for customers, members, clients and participants
- Assessing quality and return on investment
- Ensuring accountability for results

5. DOES THIS POP REQUIRE A CHANGE(S) TO AN EXISTING STATUTE OR REQUIRE A NEW STATUTE? IF YES, IDENTIFY THE STATUTE AND THE LEGISLATIVE CONCEPT.

No.

6. WHAT ALTERNATIVES WERE CONSIDERED AND WHAT WERE THE REASONS FOR REJECTING THEM?

After the REAL+D Policy came into effect, the Office of Information Services (OIS) within DHS and OHA estimated the cost impacts of modifying 17 of the 40 legacy systems which contain person information to address the data collection requirements. Those estimates did not include organizational change management, training, survey modification, forms modification or analysis of sensitive data systems miscellaneous operational and contractual constraints. The total cost of implementation across all systems, forms and surveys on an ongoing basis will continue to grow especially if there are changes in other client demographic reporting requirements and would still not help either organization in getting a comprehensive view of our clients. Neither agency has been able to prioritize this technical work as compared to the other

operational and high priority projects such as Modernization, Health Insurance Exchange, and Health System Transformation. Even with the technical modifications, there would still be an impact to workers in both agencies as each of their separate systems is modified.

7. WHAT WOULD BE THE ADVERSE EFFECTS OF NOT FUNDING THIS POP?

Without funding for this project DHS and OHA would not have the ability to effectively collect timely and reliable data to assist in identifying racial, ethnic, language and disability disparities. The agency performed preliminary analysis for estimated staff time impacts to modifying over 40 different DHS and OHA legacy systems which are a blend of highly diverse technologies, extremely fragile DHS mainframe systems, on highly complex infrastructure, and involving many transactional interfaces. Even if the agency had the ability to do this work, the agency would still be faced with field operations impacted and the expectation that there would be a similar investment in the future when additional data collection is required.

8. WHAT OTHER AGENCIES (STATE, TRIBAL AND/OR LOCAL GOVERNMENT) WOULD BE AFFECTED BY THIS POP? HOW WOULD THEY BE AFFECTED?

Improvements in data collection will support the dissemination of accurate data to other state, tribal and local governments, as well as Coordinated Care Organizations and community based organizations. The implementation of this POP would make data reporting and analysis more consistent between DHS and OHA and its governmental partners. It would also provide better data to governmental partners who are also assuring equitable access to and outcomes of services.

9. WHAT OTHER AGENCIES, PROGRAMS or STAKEHOLDERS ARE COLLABORATING ON THIS POP?

This POP has been a collaboration between DHS/OHA. As a shared service OIS has also been collaborating with DHS/OHA providing guidance as OIS will be delivering the IT solution. The steering committee that

will implement this POP will include representatives of stakeholders and programs who will be impacted by the system changes.

10. WHAT IS YOUR EQUITY ANALYSIS?

DHA and OHA both established equity (service equity and health equity) as part of their core values. As the Office of Equity and Multicultural Services and the Office of Equity and Inclusion both focus on equity, the equity analysis of this situation is detailed throughout the POP. In short, problems with collecting and analyzing data by race, ethnicity, language and disability prevent both agencies from knowing the full extent of inequity and from measuring the impact of efforts to assure equity. The inadequate data collection standards make it difficult to analyze how race, ethnicity and language and disability impact individual and community health, making services more expensive and less effective in addressing community needs. Agency and contractor staff often lack training in best practice methods for collecting race, ethnicity, language and disability demographic information in a respectful and non-intrusive manner. Improving data systems is a key component of continuous quality improvement efforts that lead to health and service equity. The ability to present disaggregated data adds immeasurable value to quality assurance and quality improvement efforts, promotes stewardship of limited public funding, and promotes responsiveness and transparency in governmental processes.

11. WHAT ASSUMPTIONS AFFECT THE PRICING OF THIS POP?

A core REAL+D analysis team will be performing in depth analysis to facilitate the development of a strategy and implementation plan for compliance and adherence to REAL+D standards. Preliminary estimates predict that there are over 40 systems that use client demographic data that could be impacted by REAL+D. In-depth analysis is required to confirm all systems, business processes, programs and stakeholders that would be impacted by REAL+D standards.

Additional assumptions include the need for redesigned forms on which demographic data are collected, staff training REAL+D data collection and communications to support client awareness of new policy and requests for demographic data.

Both agencies are currently assuming that existing technology investments made supporting master data management capabilities would still be available to be leveraged to support the creation of a master client service.

Current agency work effort surrounding the creation on enterprise definitions of “client” would support the development of a master client service.

Implementation Date(s): July 1, 2015

End Date (if applicable): ongoing – until current systems are modified as much as possible and until new systems build in the standard upon development

a. Will there be new responsibilities for DHS and OHA? Specify which Program Area(s) and describe their new responsibilities.

All DHS program staff that collect person-level information. DHS data analytics staff

all OHA program staff who collect person-level information OHA data analytics staff

- b. **Will there be new Shared Services impacts sufficient to require additional funding? Specify which office(s) (i.e., facilities, computer services, etc.) and describe how it will be affected. See Addendum A - Shared Services LC/POP Impact Questionnaire (at the end of this document).**
