

Dear Chair Prozanski, and Members of the Committee,

With respect, may I suggest an amendment to SB-941? I generally oppose the bill, but I understand that my opinions may not be shared by the members of the committee. I imagine others will share opposition reasons similar to mine, so I'll dispense with sharing those myself.

Would you consider amending the bill to make an exception for individuals who have a Conceal Handgun License? Those of us who have a carry permit undergo a weighty national background check, and we must renew our license every four years.

Surely, this would be a reasonable amendment?

Thank you for your consideration.
