

Dear Members of the Judiciary Committee,

Re: SB 941

SB941 criminalizes legal behavior and puts thousands of Oregonians at risk of becoming criminals without any malicious intent upon their part.

There is no way that this mandate can be enforced without a gun registration system. If two or more people choose to transfer firearms between them and they feel it is not the business of the state then there is nothing the state can do.....until you see the need to "close the registration loophole."

I believe it is the intent of some on the committee to pass this unconstitutional, vicious assault regardless of the fact that the people are fed up with out of control, criminal government. To comply with this dictate would be to participate in the destruction of freedom.

## Vote NO! on SB941

Respectfully:

Arthur Pascuzzi (Oregon resident since birth 1932)
