Subject: Support for SB 477-3

Beth,

Over the past six months, I have been a volunteer public lobbyist with the Sierra Club for SB 477 (From Coal to Clean Energy). In that effort, I have traveled several times to Salem to attend hearings and talk with State Senators.

Please let the members of the Energy & Natural Resources Committee of the Oregon State Senate know that I strongly support the latest iteration of that bill -- SB 477-3.

Much obliged!
