

Gun control advocates do not make a good case for crime prevention due to the rules they propose. They never talk about all the crimes that are prevented by gun owners. They never explain how criminals get all their guns in violation of gun laws. People who are determined to get guns will get them illegally. No rule on paper will stop them. Gun control advocates go hysterical on pushing for more and more ineffective laws.

SB941 is another of these. NO to SB941.
