Case Management

Jail Diversion and Mental Health Collaboration Efforts

CORT Success Story... "Michael"

- 2010: 31 mental health related calls for service
- In January 2011, engaged by the CORT team.
 - 2011: 6 calls
 - 2012: 5 calls
 - 2013: 3 calls
 - 2014: 3 calls
- Engaged with case management, obtained housing assistance and worked out transportation issue.

Working on his volunteer application

MCRT Success Story... "Frank"

- ⦿ Veteran with PTSD substance abuse issues
- ⦿ The call for service:
 - vehicle crashed into ditch
 - hiding in the bushes
 - flashbacks to 2005 Iraq
 - trying to find his battle buddy

Resolved without use of force.

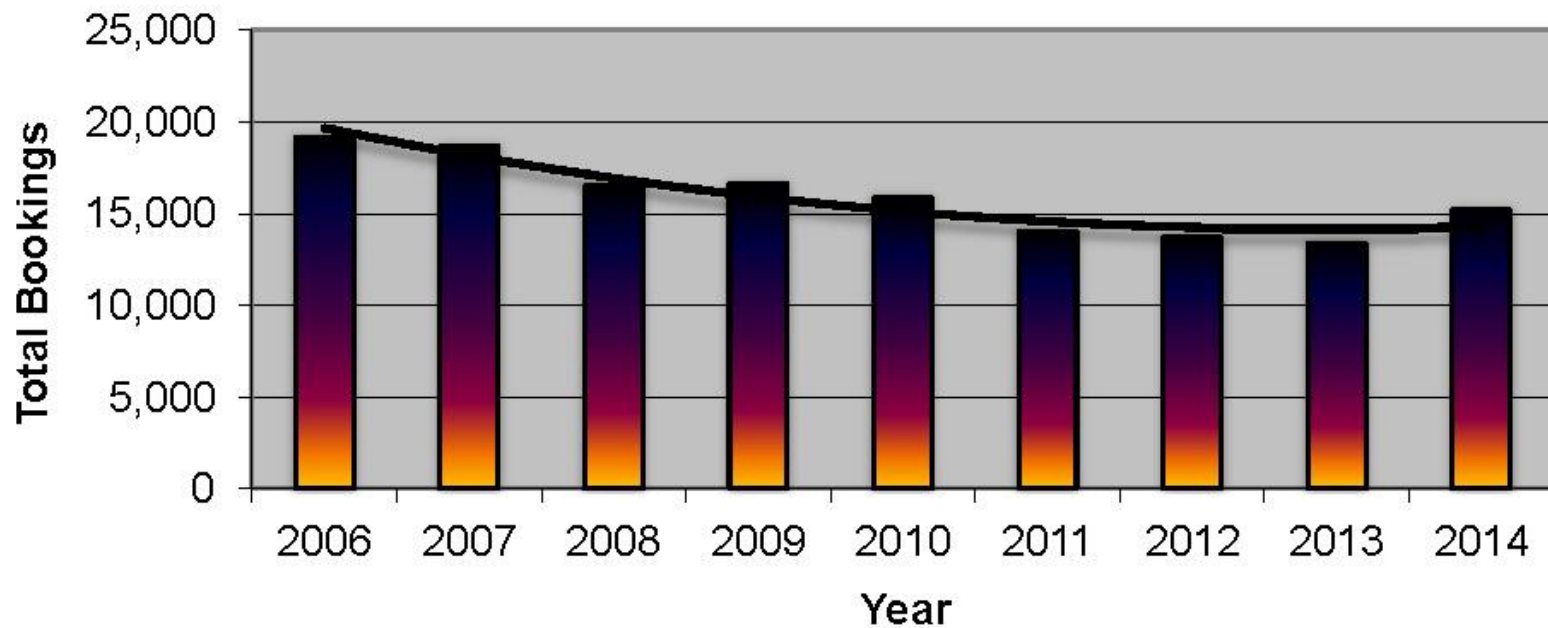

370 Success Story... "Bill"

- More than 10 trips to OSH for 370 evaluations.
- Since June 2014, had four encounters with police, but has not returned to OSH. All ended in Police Officer Custody to Salem ED (two with acute care admissions).
- Recovered quickly and though committed the second time to treatment, was able to have the commitment dropped due to recovery.

Went back into the community with no trips to OSH.

Data & Results

Marion County Jail Bookings

* Jail Mental Health Team contacts reduced from 1,225 in 2011 to 704 in 2014.

Data & Results

CORT

- 2,348 Police Reports Reviewed
- 933 Individual Follow Ups

MCRT

- 455 encounters, only 22 went to jail.
- More than half of those were due to outstanding warrants.

Data & Results

Psychiatric Crisis Center

- Crisis evaluations have increased at double the normal rate.
- Increases of 200-300 per year are normal, PCC has seen between 400-500 more the last two years.

Hospital Emergency Department

- Police Officer Custodies ("POC") are not tracked, but Salem Hospital staff reported a perceived decrease in POCs.

Data & Results

Oregon State Hospital

- Marion County has historically had the second largest population at OSH.
- Over the past year, we've reduced the number of admissions (with misdemeanor as highest charge) by 44%.

Feb 2014: 19 admits, 42% felony,
58% misdemeanor

Feb 2015: 14 admits, 75% felony,
25% misdemeanor

Transitional Case Management

- Steady increase over the past four years by about 50 per year.
- Last year, we saw a spike of 200 more individuals.
