Appointment Summary And Reminders

Summary

Student had questions regarding study skills for her ENG 106 course. She noted the reading was very difficult for her to comprehend. She also mentioned struggling with focus and retaining the information she is reading. I suggested she break the content down by section, page, and even paragraph. Then, read one small bit at a time and explain the information out loud. I also suggested she use a highlighter and pencil to take notes and write down thoughts.
