June 23, 2015

Dear CEO,

Congratulations. Western Oregon Advanced Health has met the benchmark or improvement target on 12.8 of the 17 CCO Incentive Measures for calendar year 2014!

Based on the final 2014 quality pool amounts and final performance on the metrics, WOA has:

- Met 12.8 of the measures, earning 100% of the quality pool dollars for which WOA was eligible, equaling \$3,342,804 (this includes the advance distribution payment of \$276,659 which WOA received this Spring);
- Met 3 of the challenge pool measures, resulting in an additional \$106,682;
- For a total of \$3,449,486 earned in 2014.

The final report summarizing your 2014 performance on the Incentive Measures is attached. This report reflects all validation activity from May 2015.

Final 2014 performance is reported in the Health System Transformation 2014 Progress Report, which will be released tomorrow and posted online at www.oregon.gov/oha/metrics. As this is a public report, you may be contacted by the media for comment. This report will be presented to the Oregon Health Policy Board later this summer.

The 2014 final quality pool payment of \$3,172,827 (total earned minus advance distribution) will be deposited into the CCO's bank account via an electronic funds transfer no later than June 30th.

Please contact Lori Coyner at lori.a.coyner@state.or.us or 503.569.3160 with any questions.
