

HB 4147 TESTIMONY

Feb 3<sup>rd</sup> 2016

I find it VERY interesting that billionaire Michael Bloomberg, who has his own armed security guards around him 24/7, is funding anti-gun measures all across this country. He has given millions of dollars to groups like Mothers Demand Action.

**This mother is not fooled.** I am a Democrat, mother, and gun owner. I am highly suspicious of Bloomberg waging war against the Second Amendment. I am highly suspicious of our elected officials, whose job is to protect our civil liberties, being courted by his money to eviscerate our civil rights. You are not fooling me.

I am watching how you vote on gun issues with especially keen interest lately...and telling all of my friends to look into it as well.

I urge you to vote no on HB 4147.
