

Predictable and flex time scheduling....Hmmm....wonder how that would work for us?

October - time to plant crops....rained the whole month.... unable to get crop planted :(  
February - time to fertilize crops....rained the whole month, record 13+ inches....unable to get  
crops fertilized :(

Summer - have no idea what the weather will be, how to schedule harvest, when to put up  
hay????

We have NO WAY to be able to predict!!!!

PLEASE exempt agriculture from this bill.

Respectfully,  
Kristen Domes
