

Dear Representative Nearman,

I am your constituent. You will be hearing bills HB 2937 and 2938 the morning of March 14th. I am hoping you will vote "no" on each of these bills.

These bills should have been heard in a land use committee. These bills pretend to try to resolve urban homeless issues by allowing a second dwelling on farmland. Ridiculous.

I have horses on my rural property. We need to keep farmland for farm- related uses.

Allowing second dwellings leads to numerous and obvious problems.

I urge you to vote "no".

Thank you for your consideration.

Aileen Kaye
