To: Chair Lininger and members of the House Committee on Economic Development & Trade  
From: Karen Black, Norton Creek Farm  
Subject: HB3116 with -2 amendments  
Date: March 26, 2017

Dear members,

I am a small farmer who has been producing and selling eggs since 1996, with an egg-handler's license. Most of my eggs are sold as graded eggs to stores, restaurants and individual customers, but I have a certain number of eggs each week that do not fit the grade standards. These I sell direct to customers as "Ungraded."

Having learned about the ambiguity about the legal status of this category of eggs, I am in favor of HB3116 with the -2 amendments, which will nail down what is needed for them to be sold by licensed and exempt direct marketers..

Thank you for your time,  
Karen Black
