

Family Networks are able to maximize collective impact within our communities through the partnerships between families, community partners and systems. Below you will find data that captures those partnerships.

More than 900 volunteer hours in the last year. Total partners engaged with the Networks: 237 current partnerships with organizations across the state (144 of which are not disability-related organizations)

Total in-kind and financial support of the Networks by partners: \$122,000 this past fiscal year

Examples of the types of support from partners:

- Private grants
- Donations of money
- Donations of skill (such as photography)
- Donations of food for events
- Volunteers to support events
- Volunteers to provide child care during events
- Free use of space for events
- Free use of office space
- Promotion of events/activities and the organization itself
- Opportunities for families to provide input on events and programs planned by partners to ensure accessibility
- Acceptance of technical assistance and training to become more accessible
