Subject: SB 1029

Please provide more funding for the Oregon Farm Direct Nutrition program in the 2017/19 budget. The Governor's proposed budget would decrease funds for this program by \$300,000 from what was available in the current amount..

Reducing funding for this program means fewer low-income seniors and young mothers and their children will be able to access Oregon grown produce. Additionally, Oregon's farmers would have loose these people as customers.
