

Dear Representative Clem and Honorable Committee Members,

Please do not pass this bill. Measure 100 was a bill that was carefully crafted to reduce trafficking in important endangered species. It was well thought out with the backing of several animal advocacy organizations and their experts on endangered species. There is no real reason to amend this bill and reduce its protections. I, and many other Oregonians, would be disappointed in an amendment to such an important Measure. Please do not pass this bill.

Thank you,

Jan Jaskoski

Salem, Oregon
