

Please help protect Oregonians by passing this common sense gun control bill (SB797). We deserve to be protected from absurd loopholes that allow people to buy guns without background checks and we should absolutely keep guns out of the hands of people who are stalking others.

This is not about infringing on anyone's second amendment rights. This is about protecting the lives of the children, women, and men of our state.

Please, think about all the victims of gun violence and vote YES on SB797.
