---

My husband and I are landlords in Marion County and strongly oppose HB2004. We take pride in our properties and work hard to enhance and maintain them to a high standard in order to provide safe, comfortable and affordable housing for qualified tenants. This legislation, if passed, will force us to liquidate our Oregon rental properties and look for a friendlier investment environment just as we were compelled to do with our California properties over twelve years ago.

Please consider the negative impact this will have on tenants and landlords alike. Vote NO on HB2004.
