

My name is Michelle.

I am an American. I live in what once a great state. It has been ruined by the tree hugging environmentalists. The money grabbing democrats. The notion that no one is to held accountable for their actions and that breaking the law is OK. Lawlessness and disregard for life. The lack of morals, God and country..

I do not support this bill!! Anyone coming into my country illegally should not be left to live off of the money stolen from me by this state. Even if you are here legally no one has the right to live off the hard work of someone else. I do know that my wants along with everyone Oregonian living outside of Portland and Eugene is not important to you liberals at all, as it does not help to further your socialistic agenda. I must however at least do what I can to stop the madness..
