

Rules Committee,

Our President should be elected by National Popular vote. The Electoral College system in Presidential elections has outlived its usefulness and is now counterproductive. It undermines the concept of one person, one vote, and undermines the legitimacy of the presidency itself, producing a divided nation, if, as has happened twice in the last 20 years, most of the people did not vote for the person who holds the highest office in the land. Please vote for HB 2927.

Thank you.
