Rules Committee,

For the sole purpose of unbridled profiteering at ANY cost, our democratic republic is in the process of being devolved to a plutocratic corporatocracy by 25-30 sociopathic billionaires who apparently believe \$1 = 1 vote.

These sociopaths are buying congressional members, state and federal, and Electoral College members, as demonstrated in 2016 by the abdication of the Electoral College's purpose and responsibility. Moreover, the basis for Electoral College voting weights has been obsolete for over 75 years, at least.

Long past time to get money out of politics and restore our democratic republic to a government of, by and for ALL the citizens of the United States.

People, Planet and Peace Over Profit!

Sincerely,
Steve Heitmann
