

## CLEAN ENERGY JOBS PETITION submitted to:

- Pendleton City Council
- Umatilla County Commissioners
- State Senator Bill Hansell
- Representative Greg Smith
- Governor Kate Brown

## **It's time for Oregon to transition from polluting energy to a clean energy economy.**

Oregon's economy runs on dirty energy that pumps pollution into our air and water. The pollution is making asthma worse for children and putting adults' lives at risk from lung disease. It's also changing our climate, threatening the place we love to live. We are already seeing bigger wildfires, more destructive storms and terrible drought. If we do nothing, climate change will continue to impact our health and economy.

### **I support...**

- **Oregon's transition from coal to clean energy sources**
- **Good paying jobs and healthy communities for all Oregon families**
- **Clean fuel choices and options for transit**
- **Holding big polluters accountable for the true cost of their actions**

### **Together we will:**

- Support a transition from dirty, polluting energy to a clean energy economy including solar and wind power and energy-efficient construction.
- Grow local companies and create good-paying jobs that can support a working family and can't be shipped overseas— everything from engineers to designers, electrical and construction workers, secretaries and custodians.
- Reduce the pollution causing lung disease and triggering asthma attacks in kids.
- Hold major emitters accountable for what they are dumping into our air and water.

- Support more fuel choices for all Oregonians and expanded options for transit.
  - Position Oregon as a leader in the 21st century economy and a center for innovation and growth.

## Oregon's Clean Energy Jobs Bill

A policy to put a limit and price on climate pollution from the largest polluters in the state. It will secure greenhouse gas reductions and reinvestment into communities across Oregon to create clean energy jobs and a thriving economy, especially in communities that need it most. By the end of the 2017 legislative session, the bill had 33 co-sponsors in the House and Senate -- a third of the legislature! [Governor Kate Brown](#), Speaker Tina Kotek and other important leaders have signaled *Clean Energy Jobs* is a priority for the 2018 session. After nearly a decade of shaping this policy in Oregon, it's ready to be pushed over the finish line!

**The undersigned support the Oregon's Clean Energy Jobs Bill and ask the City of Pendleton, Umatilla County, our State legislators, and the Governor to support this bill in the 2018 Oregon Legislative Session.**
