Background

Hispanic population is largest minority population in Oregon

- 12% of the state's population
- 21% growth in U.S. born population

Little information about the mental health needs of this population or how mental health services are utilized

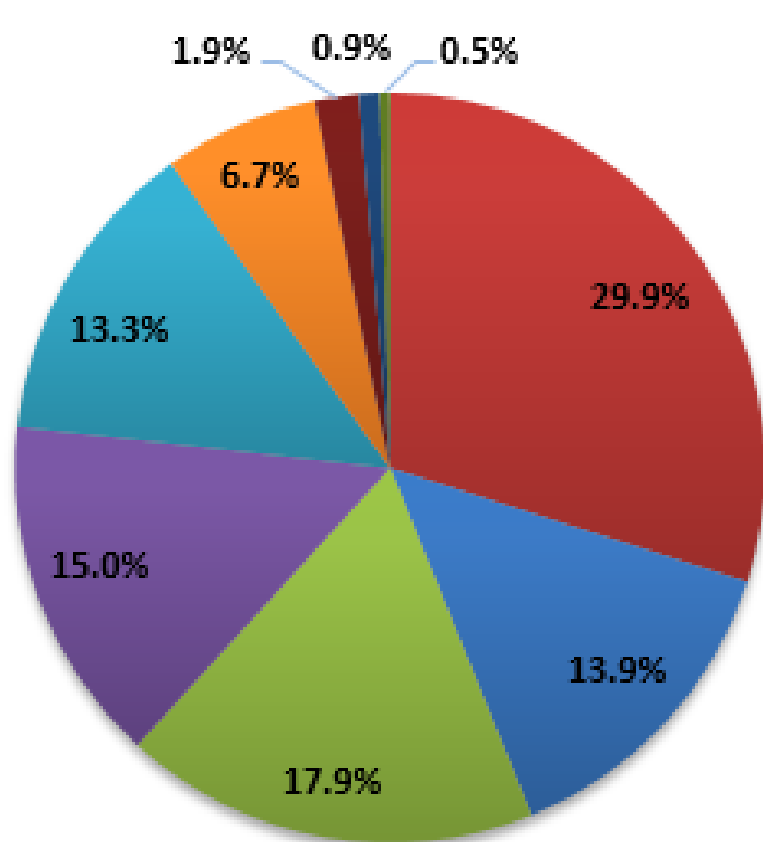

The Project

This project examines the use of mental health services in the state of Oregon

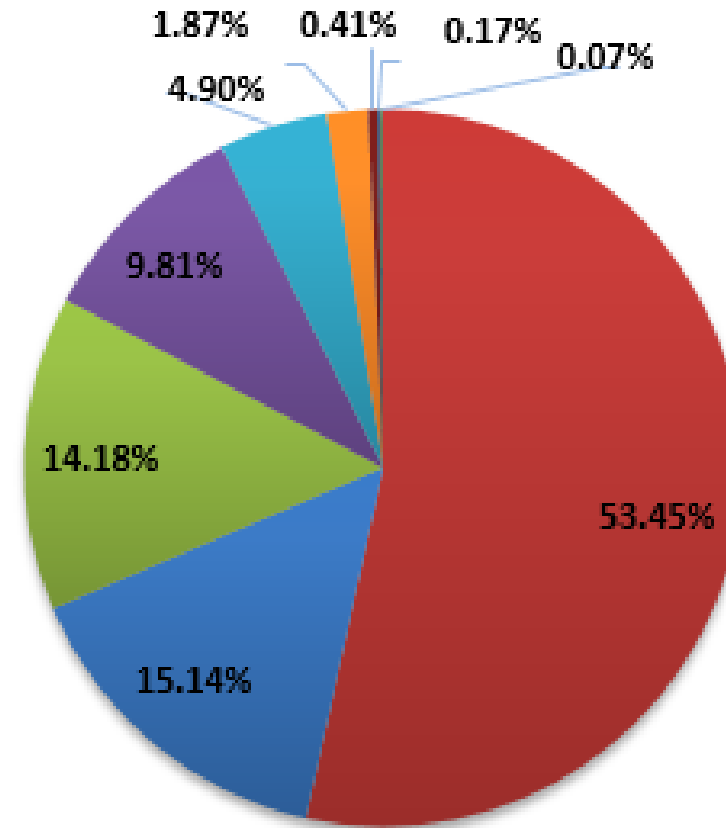

Data was reviewed for Oregonians who had initiated mental health care via the state of Oregon between 1983 and 2013 and who had terminated their service between 2010 and 2014

This was prepared in Spring 2017 for the Oregon Advocacy Commission Office- Commission on Hispanic Affairs, in partnership with Oregon Enterprise Data Analytics
