# BPA Overview

BPA is a federal power marketing administration headquartered in Portland.

BPA is part of the U.S. Department of Energy, but it is self-funded.

Congress created BPA in 1937 to market the power produced by Bonneville Dam.

BPA markets the largest supply of low cost, clean, carbon free energy in the nation.

# BPA Customers

Consumer-Owned Utilities  
electric cooperatives,  
municipalities, people's  
utility districts

Direct Service Industries

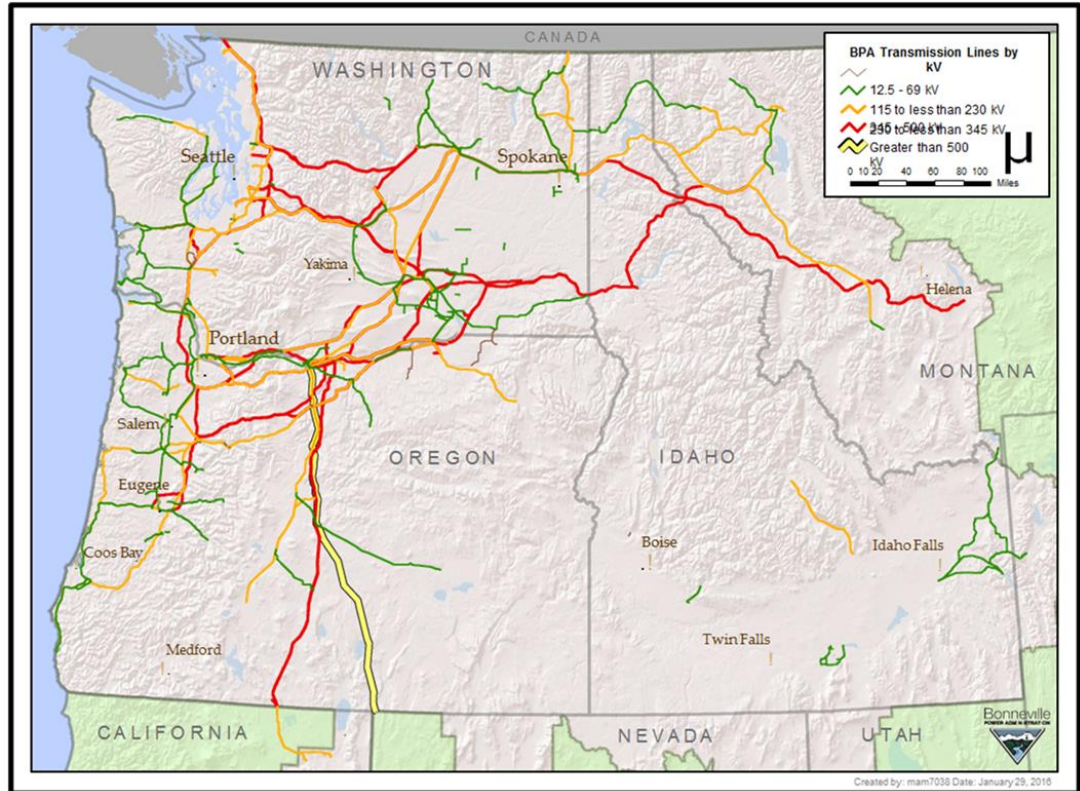

Tribal Governments

Federal Agencies
