

Chair Williamson,

As a newly licensed driver, I am in full support of House Bill 2046. With more troopers on the road I would feel more secure and safe while driving. I have witnessed many occurrences in which an increase of troopers would be beneficial. I and many others would rest easier knowing our safety is a priority of many. I would be more comfortable driving on highways and long distances if there were more troopers present. The passing of this bill means a lot to my community and I.
