

Dear Chair Keny-Guyer and members of the committee,

My name is Eva Rippeteau, I am a political coordinator for Oregon AFSCME Council 75. Our members include child care and early learning providers, and case managers and public health workers that connect families to critical supports and benefits such as WIC. We know that making sure kids have access to nutrition is foundational to their growth, development and future success at school and beyond. For these reasons we support both HB 2626 and HB 2639.
