Micheal Grant was my last landlord. His housing was substandard, It was a hole in the bathroom wall where my cat uses to get out. I took this place I needed this place. He evicted me because I didn't have my 17-year-old daughter on the lease. I was unable to fight him because he had a very aggressive lawyer and I was scared so I moved. He made me sign a paper saying I will be moving by the end of the month. This man owns housing like the one I lived in. There were 3 on the property I lived on. I took his property because my rental history was a little cloudy. These are the type of housing and the type of people you must deal with when you have things on your rental history.
