AGENCY SUMMARY NARRATIVE

Mission Statement and Statutory Authority

The mission of the Oregon Board of Chiropractic Examiners is to serve the public, regulate the practice of chiropractic, promote quality, and ensure competent ethical health care. (2007)

The Oregon Board of Chiropractic Examiners is a State of Oregon agency that operates under the authority of ORS Chapter 684 and OAR Chapter 811.

BUDGET NARRATIVE

ABOUT THE BOARD

Background Information

The Oregon Board of Chiropractic Examiners (OBCE or Board) is an entirely Other-Funded agency established in 1915 to ensure that only qualified individuals are licensed to practice chiropractic in Oregon. It is responsible for licensure and regulation of Doctors of Chiropractic (DC) and Chiropractic Assistants (CA).

The Board's 5.1 FTE (6 positions) perform background checks on applicants for licensure, issue and renew licenses, investigate complaints, monitor disciplined licensees, and work to rehabilitate them, where feasible to ensure that they are able to practice safely. In 2015-17, a .5 FTE doctor of chiropractic staff position was approved as a permanent Health Care Investigator at .6 FTE. In April 2016, the previous full-time Compliance Specialist 2 position was reclassified to an Investigator 2 position and is currently filled by a legally trained investigator at .75 FTE. In July 2017, the 1.0 FTE Executive Director position was evaluated for possible reclassification and updated compensation through the Department of Administrative Services Central Evaluation Team process, resulting in an increase in class from Principal Executive Manager (PEM) C to PEM D and an aligned increase in salary, effective August 1, 2017. The reclassification and increased compensation is further detailed within the proposed Policy Option Package 100, herein. This position had not been evaluated for a reclassification since 1990 when it was designated as a PEM C.

As of March 2018, the OBCE moved its office location at the termination of its 5 year lease with Morrow Crane. The agency had been co-located with the Oregon Board of Psychological Examiners (OBPE, now a part of the Mental Health Regulatory Board) within the Morrow Crane building, Salem. The co-location was problematic as OBCE's space was sandwiched between the OBPE and the office buildings' stairway and server room, with no separate doors for either agency nor securable area for the OBCE. This created situations in which vendors, contractors, office maintenance workers, and other unknown people had access to our office space while we were in office and while we were not. Additionally, we also had members of the public through our space, looking for other boards or other entities' staff. While we took appropriate safety precautions (physical safety as well as information security, security of work product, and security of confidential case files), it was not an ideal situation. The move to the Equitable Center building, Salem, has allowed the agency to have its own securable and confidential office space with added security and oversight by property management, as well as allowing the two agencies that make up the Mental Health Regulatory Board to move into a singularly shared office space that filled our vacancy within the Morrow Crane building. The Oregon Board of Real Estate and the Oregon Youth Authority are also housed within the Equitable Center as well as some federal offices. The OBCE had been at its previous location since 1994.

The Role of Board and Committee Members

Board members study developing trends and issues in chiropractic practice, set requirements for licensure, and establish Board policies and positions on chiropractic practice and disciplinary issues. Guiding the agency's work is:

BUDGET NARRATIVE

- The 7 members of the Board (5 chiropractic physicians and 2 public members), appointed by the Governor and confirmed by the Senate, have ultimate responsibility for decisions concerning licensee discipline, adoption of administrative rules, practice policies, positions, and statements on numerous chiropractic issues. The Board members appoint and review the work of the Executive Director.
- The 9 chiropractic physician members and alternates of the statutorily mandated Peer Review Committee assist the Board with investigations by utilizing personal interviews of complainants, patient witnesses, and respondent doctors.
- Other ad hoc committees are formed on an as-needed basis, such as the Rules Advisory Committees, the ETSDP (Examination, Test, Substance, Device or Procedure) Committee, and the Minor Surgery Committee.

Customers

The Board provides information and services to the following customers:

- Applicants, licensees, and certificate holders
- The general public
- Provider organizations and credentialing services
- Insurance companies
- Chiropractic professional organizations
- Local and national media
- Other Oregon health-related licensing boards
- Law enforcement agencies
- Chiropractic colleges and universities
- Licensing boards of other states

Agency Two-Year Plans for 2019-21

1) Protecting the Public. Effective investigation of complaints and case resolutions are our top priority. To provide the highest level of public protection, the OBCE investigates and addresses complaints as quickly as possible after a complaint has been filed. The challenge is to address the serious and more complex complaints, which often require significant investigative resources, while at the same time keeping the other complaints on track for resolution.

Having a retired DC on staff as our Healthcare Investigator has greatly increased the effectiveness of our investigations in that many more case files are investigated from a clinical practitioner's perspective prior to being reviewed by the Board. Before 2013, the clinical review did not always occur until the Board members themselves reviewed the complaint file and often contracted out to independent chiropractors to do such review or more fully utilized the Board's Peer Review Committee. The Health Care Investigator's reports provide the Board with a more complete investigation to review. This is critically important as Board members are addressing increasingly complex and document heavy cases. This position is also important in answering chiropractic practice related questions from our licensees – helping further educate them and to resolve issues prior to issues becoming complaints. As such, our overall complaint numbers have a decreasing or flattening trend.

BUDGET NARRATIVE

2) Public & Professional Information. A) POP 101, Implement Database Upgrades. Our proposed Policy Option Package 101 requests an additional \$40,000 expenditure to allow for updating or replacing the Microsoft Access licensing database that has been in use since its original installation in 1993. Since original install, there have been innumerable and almost constant customizations that are becoming too burdensome for the database to accurately handle. Additionally, we hope to incorporate a more user-friendly interface and bring together and track all of our electronic files (licensing, cases, compliance, finance) rather than the current multi-file system currently employed. Such integration will streamline our administrative processes, bring filing and other efficiencies, as well as allow staff to more effectively respond to public inquiries. **B) Website Overhaul.** Department of Administrative Services (DAS) has created a Small Board Website Redesign Assistance project to assist smaller boards and commissions that may not have internal IT teams to redesign and update their websites. There has been one work group that has successfully gone through the redesign process and OBCE is in the third group, to begin the weekly meetings and hands-on redesign February – June 2019. The redesign and updating will make it easier for members of the public, licensees, and other stakeholders to quickly access license and complaint information, policies and practices, compliance information, and our performance measures. **C) Licensee Lookup.** Since our request budget was submitted, we completed work on our website’s Licensee Lookup. The Lookup was only able to report out on doctors of chiropractic records rather than both DCs and chiropractic assistants (CAs). We were able to include coding for CAs so that the public or clinic offices can now more easily access that license/certificate information.

3) Streamlining & Cost Savings: A) Online license renewal system. Our online license renewal system for DCs and CAs is fully implemented with both licensee types annually renewing based on their birth month rather than at one designated time per year for everyone, thus eliminating a rush on e-systems and staff time overload. We have contracts in place with DAS-Egov, Treasury, and NIC-USA. **B) Payment Portal.** We are contracting with NIC-USA for the creation of a web-based payment portal to allow for online acceptance of fee payments. Currently, we only accept checks and credit card payments by phone or in-person, creating unnecessary holdups in processing time. **C) Application/Examination Program.** As of June 1, 2016, the Board delegated the creation, proctoring, and grading of the OB/Gyn Exam and the Minor Surgery & Proctology Exam to the National Board of Chiropractic Examiners (NBCE). In January 2017, the Board delegated its Ethics and Jurisprudence Exam to the NBCE, which is currently being finalized. This delegation to NBCE allows better access to the exams by applicants, faster grading, and decreased staff time spent on proctoring and grading.

Program Descriptions and Long Term Plans

The primary program areas of the Board are:

- 1. Public Protection.** The OBCE is responsible for explaining and enforcing the laws and rules governing the practice of chiropractic in Oregon. The Board’s investigator conducts investigations and works in conjunction with the Health Care Investigator in interviewing licensees and reporting to the Board. They provide the initial contact and investigative follow-up to complaints, assist the Board’s Assistant Attorney General with legal documents and contested cases, including identifying and facilitating witness and expert testimony, and provide complainants, the public, and licensees

BUDGET NARRATIVE

information regarding laws and rules. The Executive Director provides overall management of all cases, the Board's executive agenda, and cases that proceed to the contested case hearing process.

Over half of the time spent at the Board's regular meetings is spent reviewing complaints and disciplinary matters in executive session. The Board's Peer Review Committee reviews complaints that may require a personal interview with doctors and complainants. Doctors on probation are monitored to ensure that disciplinary terms are carried out. Administrative Law Judges for contested case proceedings are provided by the Office of Administrative Hearings. Competency evaluations are utilized when needed, including the NBCE's Special Purposes Examinations for Competency (SPEC) and the Ethics and Boundaries Exam (EBAS). Also, psychological, psycho-sexual, and substance abuse evaluations are also ordered as needed.

2. **Doctors of Chiropractic (DCs).** An applicant for a chiropractic (DC) license must provide the OBCE with chiropractic college transcripts, a diploma, a letter of recommendation, have completed two years of college level liberal arts and sciences, and evidence of passage of NBCE's tests Parts I - IV and Physiotherapy. Applicants must also meet minimum educational requirements in minor surgery and physiotherapy. In addition, all candidates are required to take written state specific examinations in Ethics & Jurisprudence, Minor Surgery/Proctology, and OB-GYN/Women's Health Issues. The license history of reciprocity applicants from other states is reviewed. FBI criminal background checks are performed on all DC applicants when they apply and every six years for renewal. Board members participate in NBCE's ongoing national test development and the administration of the Part IV practical examination.

Chiropractic physicians renew their license annually during their birth month and submit an affidavit of proof of 20 hours continuing education (CE) that may include additional CE mandated by the Board. A monthly random CE audit is performed on 10-15% of licensees who have renewed in the last 6 months to ensure compliance.

3. **Certified Chiropractic Assistants (CAs).** Certified Chiropractic Assistants (CAs) must take a 12 hour training course and pass an examination prior to obtaining their certificate. FBI criminal background checks are performed on all CAs when they apply and every six years for renewal. CAs renew their certification annually during their birth month, submitting an affidavit of proof of 6 hours of (CE) taken that year. A monthly random CE audit is performed on 10-15% of CAs who have renewed in the last 6 months to ensure compliance.
4. **Public and Professional Information.** License verifications using our web-based Licensee Lookup offer information about license status and disciplinary actions for DCs and CAs. Board members meet with all newly licensed chiropractic physicians twice a year, in our Introduction to the Board class, to review the role of the OBCE and offer suggestions for maintaining a professional practice. We try to hold at least two of our Board meetings per year outside of the Salem/Portland area (weather permitting), holding meet and greets for local licensees and members of the

BUDGET NARRATIVE

public who are unable to travel to Salem or Portland. Since 2014, the Board has travelled to Florence, Corvallis, Sunriver/Central Oregon, North Bend/Coos Bay, Baker City, and Ashland, among others.

5. **Policy and Practice Questions.** The Board's answers to policy or practice questions are codified in the OBCE Guide to Policy and Practice Questions, updated on a regular basis, and are also addressed informally by the Health Care Investigator. Updates are posted on the website and in the electronic newsletter.
6. **Device & Procedure Review.** Upon referral from the Board, the ETSDP committee, consisting of chiropractic physicians, reviews applications regarding specific examination, treatments, substances, devices or procedures to determine if they are standard, investigational, or may not be used in Oregon.
7. **Administrative Rules.** Administrative rules are continuously evaluated for needed changes or clarification. The Board is assisted by ad hoc Rules Advisory Committees consisting of volunteer doctors and other stakeholders, whenever the need arises.

Oregon Benchmarks

The OBCE's high level outcome is the mission statement, "*to serve the public, regulate the practice of chiropractic, promote quality, and ensure competent ethical health care.*" (2007)

Plans, Goals, and Performance Measures

The OBCE's long and short-range planning is directed by both its mission and strategic plan goals and outcomes. The Board strives to ensure that its strategic plan is integrated with agency performance measures to support and improve the Board's mission, goals, business environment, applications of technology, and service. The Board participates in strategic planning meetings at least every two years and will be reviewing and possibly updating its mission and vision statement at its next strategic planning meeting in January 2019.

Long Term Plan

Goal 1: Assure Public Protection.

- The public will benefit from quality chiropractic care and will be protected from all undue harm by chiropractic physicians. Chiropractic physicians will assure appropriate care for chiropractic patients and will be responsible and accountable for their staff.
- Transparency and public access to information concerning licensees will be improved without being overly punitive.
- Chiropractic physicians subject to the OBCE's complaint and disciplinary process will be treated equitably and fairly.

BUDGET NARRATIVE

- Should a violation be determined, sanctions will be consistent with other violations of a similar nature and proportional to the potential for harm to the public.
- All affected parties will have the right of access to the process. Information will be made available to the extent allowed by law. Confidentiality will be protected to the furthest extent possible.
- Sexual misconduct by licensed Oregon chiropractic physicians will be decreased and eliminated.

Performance Measures:

KPM #1: Average number of days to resolve a complaint.

KPM #2: Percent of sexual misconduct/boundary cases resolved within 180 days.

KPM #3: The percentage of new complaints that are investigated and presented to the board for an initial decision within 120 days.

KPM #4: Percentage of chiropractic physicians meeting the annual continuing education requirements.

KPM #8: The number of days from when the complaint is received to when the investigation is prepared for Board review/initial action.

KPM #9: The number of days from when the investigation is prepared for board review/initial action to when it is presented to the Board.

KPM #10: The number of days from Board initial action to case closure.

Partnerships

- The Board relies upon the Oregon DOJ and the Assistant Attorney General for legal advice and representation in contested case proceedings.
- Chiropractic physicians who are required to report violations and patients/public who file complaints or provide information to the OBCE.
- The Federation of Chiropractic Licensing Boards (FCLB) helps the Board stay abreast of national developments affecting chiropractic licensure and regulation. The FCLB maintains a national database of state disciplinary actions, Chiropractic Information Network-Board Actions Database (CIN-BAD). This is used extensively to check the backgrounds of applicants and assist with investigations. Through filing with CIN-BAD, the FCLB coordinates the filing of disciplinary actions with the National Practitioner Data Bank.
- Sister regulatory agencies, or law enforcement, who we may share information with as needed.
- Oregon State Police department that processes the fingerprint cards now required to screen for criminal history upon application and at renewal every 6 years.

Goal 2: Enhance Professional Competency. The Oregon public will be assured of access to high quality chiropractic health care.

- The Oregon public will be assured of access to high-quality chiropractic health care.
- Candidates for licensure will receive timely examination for professional competency in all areas of chiropractic.

BUDGET NARRATIVE

- Board will continue to provide its Introduction to the Board classes twice per year to new licensees and provide guidance to those with practice questions or concerns.
- The public will have confidence that licensed chiropractic physicians in Oregon will have maintained competencies and skills necessary to practice safe and effective chiropractic.

Performance Measures:

KPM #4: Percentage of chiropractic physicians meeting the annual continuing education requirements.

KPM #7: Board Best Practices – Percent of total best practices met by the Board.

Partnerships

- Chiropractic colleges and universities that educate applicants and provide college transcripts for the application process, and also provide chiropractic continuing education courses.
- NBCE that provides national and state tests for chiropractic licensure.
- State chiropractic associations, individuals, or others who are providers of chiropractic continuing education.
- Oregon chiropractic physicians who serve as mentors to other doctors.

Goal 3: Professional Standards & Administrative Rules. Licensees will be educated about the Board's expectations for delivery of chiropractic care consistent with contemporary standards.

- There will be clarity and consistency in administrative rules and standards.
- The Board will continue to engage in reviewing its OCPUG, P&P, and its administrative rules and statutes to ensure contemporary standards are upheld.
- The Oregon public will be better protected and chiropractic physicians will be better informed about standards of practice based on strong (or high levels of) evidence.

Partnerships

- Oregon chiropractic physicians, certified chiropractic assistants, and subject matter experts.

Goal 4: Liaison/Communication. OBCE will continue to foster its strong and effective partnerships with chiropractic associations, colleges, and other stakeholders.

BUDGET NARRATIVE

- The chiropractic profession will understand the mission of the OBCE, and where that intersects with its role in public relations.
- The chiropractic profession will understand the role of the professional associations.
- The public and patients will receive information about the role of the OBCE and the chiropractic profession. The public will have access to current available information on Oregon licensees.
- Patients, public, chiropractic physicians, and other government agencies will have access to policy decisions concerning chiropractic health care and regulation.

Performance Measures:

KPM #5. The percentage of licenses issued within five working days once all application components (that are the responsibility of the applicant) have been received.

KPM #6: Customer Service - Percent of customers rating satisfaction with the agency's customer service as "good" or "excellent": overall customer service, timeliness, accuracy, helpfulness, expertise, and availability of information.

Partnerships

- The Oregon Chiropractic Association.
- University of Western States and other chiropractic colleges/universities.

Environmental Factors

Some of the major factors influencing the environment in which the Board operates are:

1. Public Demand

The regulation of the practice of chiropractic is affected by public demand for quality health care. Nationally, there are over 65,000 licensed chiropractic physicians making it the largest group of alternative or complementary health care providers. Patients are increasingly choosing alternative care and chiropractic is near the top of the list.

Total number of chiropractic physicians has gradually increased while the total number for chiropractic assistants has remained rather constant year to year, with its regular seasonal fluctuations. There is a steady demand for licensing and examination by graduates from University of Western States and twenty other chiropractic colleges.

BUDGET NARRATIVE

	Sept. 1, 2016	Jan. 1, 2017	Sept. 1, 2017	Jan. 1, 2018	Sept. 1, 2018
Chiropractic physicians - Active	1,622	1,645	1,672	1,687	1,701
Chiropractic physicians - Inactive	295	290	284	290	264
Chiropractic Assistants	1,136	1,312	1,508	1,265	<u>1,299</u>
					Total: 3,264

2. Societal Factors

The regulation of chiropractic practice occurs in the context of broader societal factors, often with ethical implications. Some major societal factors currently impacting agency operations are:

- Heightened awareness of the patient-doctor relationship and more awareness of, and willingness to come forward to report, inappropriate behavior.
- Definition of the scope of chiropractic practice.
- Confidentiality and federal HIPAA requirements.
- A public more informed about health care matters.
- An increased awareness of and demand for alternative or complementary health care services.
- Pain management issues.
- Diversity issues.

3. Agency Issues

As a state agency, the OBCE must be responsive to multiple private and governmental entities, which have diverse needs and expectations, while keeping focused on its mission of public protection and quality improvement. Environmental factors arising from and affecting the Board's position as a state agency include:

- A responsibility to operate in a manner fair to all stakeholders, and as openly as is consistent with Oregon and federal confidentiality laws and the demands of public protection.
- Frequent misunderstanding of the OBCE's mission of public protection and its role as a state agency. Some licensees believe the OBCE should do more to advocate for the profession, the role of their professional association.
- As a state agency:
 - a. The Board is tied to the State in matters such as budgeting and human resources, creating both opportunities and constraints.
 - b. Political and legal decisions affect the Board's ability to raise fees, license, investigate, and discipline.
 - c. The Board must meet increasing demands for services while operating within legislatively determined budgetary constraints.

BUDGET NARRATIVE

Initiatives and Accomplishments

Public Protection. We pursued more challenging targets for existing KPMs and proposed three new KPMs, during the 2017-19 session, to analyze the efficiency and efficacy of our investigation team and staff. The challenge is to address the serious and more complex complaints, which often require significant investigative resources, while at the same time keeping the other complaints on track for resolution. Monitoring licensees on probation and with license restrictions for compliance has become a larger part of our program as the number of doctors on probation has increased.

Application/Examination Program. The Board has begun doing FBI background checks on all applicants – DC and CAs alike – in order to address possible character and fitness issues before licensure, thus limiting the likelihood of potential harm to the public and streamlining the process for administrative efficiencies. The Board has also implemented background checks at renewal for DC license types, to occur every 6 years. Background checks at renewal for CAs is being implemented as of January 2019.

Public Information. Public records requests can now be done through our website and more transparency has been obtained with an electronic records request log that is updated quarterly.

Diversity & Affirmative Action. The Board’s goal is to demonstrate progress towards promoting diversity within the chiropractic profession, within the Board itself, on the Board’s committees, and within staff members and has made significant headway in appointing diverse members to its Peer Review Committee and its hiring of staff. In an office with six staff members, we have reached gender equality, employ members of the LGBTQ community as well as African American and Latinx communities. The Board is also one of the sponsors for the State’s Diversity Conference held in September every year, with the purpose of promoting, recruiting, and retaining a more diverse workforce.

Agency and Regulatory Streamlining. For 2018, the OBCE was the recipient of the Federation of Chiropractic Licensing Board’s Pennebaker/Wiley Outstanding Chiropractic Licensing Board based on the following: increased efficiencies and licensing response times by implementing online and birth month renewal for all licensees; improved public safety by instituting fingerprint background checks for all new licensee applicants and at 6 year intervals for renewing licensees; increased/improved relationships with the chiropractic university and professional association by creating standing agenda items for the Board to receive updates at each meeting; implemented a regular schedule for e-blast newsletter distribution to focus on education and preemptive solutions rather than just complaints and discipline; and promulgated policies to allow DCs to provide Federal Aviation Administration Basic Medical Examination for private pilots.

BUDGET NARRATIVE

Criteria for 2019-2021 Budget Development

- I. Does the budget item address the Mission and specific outcomes to be achieved of the Strategic Plan?
 - Assure Public Protection and increase the Board's capacity to investigate and resolve complaints
 - Enhance Professional Competency
 - Establish and Implement High Professional Standards
 - Streamline agency operations and bring up to date

- II. Does the budget item solve or reduce a current problem, or will it prevent or reduce future problems?
 - Approving the classification for the Executive Director position at a higher level will get the OBCE closer to being able to more appropriately recruit and hire within both the private and public sectors when the position needs filling.
 - Implementing the database upgrades will bring greater efficiency and ease of use for staff and greater transparency for our public.

- III. Will the budget item result in improved Board services?
 - Implementing the database upgrades will eliminate the need for duplicate files to be kept, duplicate data entry, and will streamline case management and communications.

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION (FROM CSL)	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2017-19 AND 2019-21)	(GF, LF, OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
1. All Staff Furlough (10%)	This assumes a 10% reduction would be temporary; if it were permanent a different response might be appropriate. With growing licensee numbers, we need to maintain our current FTE for the long term to meet the demands of our licensing and public protection program. A 10% reduction in staff hours worked (in addition to state furlough days) would cause a slower response in licensing and especially the response to policy and practice questions and administrative rulemaking. We would attempt to maintain our response to higher level complaints and investigations, but responding to lower level complaints could take longer. Proactive efforts like the new licensee program would have to be suspended for this time period.	(\$116,849) OF	THESE ARE RANKED ACCORDINGLY: Since personnel costs account for 51% of the OBCE's budget, some reduction would have to occur on the personnel side. Assuming this is a temporary reduction; this approach follows previous furlough programs and keeps the current 5.1 FTE intact to meet the growing workload in licensing and complaints/investigations. If an administrative position were to become vacant during the period this was in effect, those savings could be taken in lieu of furloughs for remaining staff.
2. Out-of-State Travel	This 100% reduction would mean the OBCE would go unrepresented at several meetings of the Federation of Chiropractic Licensing Boards (FCLB), the Federation of Administrative Regulatory Boards (FARB), and the National Board of Chiropractic Examiners (NBCE).	(\$8,835) OF	The OBCE benefits from information and national contacts to stay current with changes, trends, and legislation affecting chiropractic practice and regulation at the national level. The OBCE's position of leadership in both the FCLB and NBCE would suffer greatly.

ACTIVITY OR PROGRAM	DESCRIBE REDUCTION	AMOUNT AND FUND TYPE	RANK AND JUSTIFICATION
(WHICH PROGRAM OR ACTIVITY WILL NOT BE UNDERTAKEN)	(DESCRIBE THE EFFECTS OF THIS REDUCTION. INCLUDE POSITIONS AND FTE IN 2017-19 AND 2019-21)	(GF, LF, OF, FF)	(RANK THE ACTIVITIES OR PROGRAMS NOT UNDERTAKEN IN ORDER OF LOWEST COST FOR BENEFIT OBTAINED)
3. Instate Travel & Meetings, volunteer costs.	This 20% reduction would reduce support for the OBCE's Peer Review Committee, Board members, and other meeting costs. The underserved communities and doctors located outside the Willamette Valley would not have the same access to the OBCE as they currently have.	(\$4,771) OF	This 20% reduction would affect the Board's ability to support committee meetings that support the Board's process; and would discourage the Board from meeting in other locations.
4. Attorney General legal fees	This would be a 10% reduction in AG budget in line with the other 10% staff reduction. This is by far the largest part of our Supplies and Services budget, so would have to be affected as well.	(\$47,803) OF	This means less funding for legal advice, drafting disciplinary orders, and representation at contested case hearings. It would have a dampening effect on the agency's ability to proceed to contested case hearing. This would be a setback to our public protection efforts.
5. Professional Services	This 20% reduction would affect funds available for contested case costs, i.e., Administrative Law Judges, other hearing costs, expert witnesses, chiropractic consultants, and contract investigators.	(\$26,526) OF	This 20% reduction would create less flexibility to address key investigations and cases, which would greatly hamper the agency's ability to protect the public.
6. IT Professional Services	This 20% reduction would affect our ability to pay for high priority computer consulting needs or problems should they occur.	(\$11,912) OF	E-Government initiatives are valuable but can be delayed until funding is available. Remaining funds would be prioritized to support existing systems.

7. Employee Training	This 50% reduction would reduce staff training resources.	(\$2,639) OF	This reduction could mean less training.
8. Office Expenses	This 10% reduction would mean little to no funds for unforeseen expenses.	(\$3,505) OF	This line item pays for essential office costs.
9. IT Equipment costs	This 50% reduction would mean only essential equipment would be replaced.	(\$2,622) OF	The OBCE's computers systems are nearing the end of their project life cycle. This would mean any upgrades or replacements would occur only if absolutely necessary. No other major equipment could be purchased.
10. Facilities Rental	This 10% eliminates funds for meeting room rentals.	(\$10,604) OF	This would reduce the OBCE's ability to have meetings in other locations and be available to members of the public and other stakeholders located outside the Willamette Valley.
Total Reduction		\$236,066

BUDGET NARRATIVE

Revenue Projections for 2019-21

Revenue Sources

The OBCE is an entirely Other-Funded agency, generating all of its own revenues. 84.2% of its revenues come from licensure, application, and examinations charged to chiropractic physicians and chiropractic assistants. Civil penalties/cost recovery and late renewal fees accounted for 7.8% of revenues. Background check fees, mentor plans, and miscellaneous charges for copies, labels and lists accounts for the remaining 8%.

General Limitations on Use

BUDGET NARRATIVE

All funds received by the Board under ORS Chapter 684 are placed to the credit of the State Board of Chiropractic Examiners account and shall be used only for the administration and enforcement of this chapter.

Basis for 2019-21 Estimates

In 2013, the Legislature passed Senate Bill 106 which allowed the Board to set license fees by administrative rule without the previous limitations on those fees. The 2013 Legislature also based the approved budget on license fee increases that took effect on November 1, 2013. DC license renewal fees were \$350 a year, \$265.50 for Senior Active DCs, and \$175 for Inactive DCs. Applications for initial fee for a chiropractic physician license was \$100. There was a \$42.75 fee which was paid to the State Police for criminal background checks; as of October 1, 2016, this fee was reduced by the Oregon State Police to \$40.00 with no rule change necessary. CA fees were increased for the first time since the program's inception in the early 1990s. The revenues for the CA late fees were not included in the 2013-15 Legislatively Adopted Budget but the error was corrected in the 2013-15 CSL, 2015-17 Agency Requested Budget, and the 2015-17 Governor's Budget.

Another fee increase was needed to balance the agency's proposed 2015-17 budget and maintain the necessary ending balance. The proposed fee increases were projected to add \$323,164 to agency revenues for the biennium. The Governor's Budget included the increase of fees as proposed but the Board modified the proposed increase slightly at its May 2015 meeting. The following increases have been in effect since July 1, 2015:

	Fees (2013)	Fees (7/1/15)	Fees (7/1/16)
Doctor of Chiropractic			
DC Regular Active	350	425	425
DC Senior License	262.50	315	315
DC Initial License	100	150	150
Inactive DCs	175	225	225
DC Application	150	250	100
Late Renewal Penalty	100	125	125

BUDGET NARRATIVE

As of July 1, 2016, the DC application fee changed from \$250 to \$100 to accommodate less staff time required in proctoring and grading the examinations delegated to NBCE. The Board also absorbs the \$2 cost per licensee of the mandated OHA Workforce Survey. At its meeting in January, 2018, the Board determined to continue to absorb that cost for the licensees for the immediate future.

Policy Packages

Policy Option Package 100 – Reclass Director to Approved HR Class. In July 2017, the 1.0 FTE Executive Director position was evaluated, by Board request, for possible reclassification and updated compensation through the Department of Administrative Services' Central Evaluation Team process, resulting in an approved increase in class from Principal Executive Manager (PEM) C to PEM D and an aligned increase in salary, effective August 1, 2017. This position had not been evaluated for a reclassification since 1990 when it was designated as a PEM C. This reclassification will assist the OBCE in its recruitment and retention efforts, within both the public and private sectors, when it becomes necessary. As a result of this reclassification and compensation review, the OBCE requests \$36,680 in additional expenditure for the 2019-2021 biennium.

Policy Option Package 101 – Implement Database Upgrades. We are requesting an additional \$40,000 in expenditure to allow for updating or replacing the Microsoft Access licensing database that has been in use since its original installation in 1993. Since original install, there have been innumerable and almost constant customizations that are becoming too burdensome for the database to accurately handle. Additionally, we hope to incorporate a more user-friendly interface and bring together and track all of our electronic files (licensing, cases, compliance, finance) rather than the current multi-file system currently employed. Such integration will streamline our administrative processes, bring filing and other efficiencies, as well as allow staff to more effectively respond to public inquiries.

Policy Option Package 102 – Office Assistant 2. We are not moving forward with this POP request as adding a new staff member would currently deplete our estimated ending cash balance for 2021 to below appropriate operating levels.

BUDGET NARRATIVE

Affirmative Action Report

The Board collects baseline data for racial, cultural identity, and language skills of licensees and applicants. The Board has diversity as a consideration for recruitment for board members, committees, and staff.

The Board has 5.1 FTE and six positions during the 2019-21 biennium. Current staff positions are allocated as follows:

Executive Director	1.0	white/LGBTQ/female	Administrative Specialist 2	.75	white/female
Investigator	1.0	African American/male	Office Specialist 1	.75	Latina/female
Health Care Investigator	.6	white/male			
Administrative Specialist 2	1.0	white/female			

The Board is a volunteer-dependent organization and is committed to diversity on all of its volunteer committees. This is especially important since the chiropractic profession is underrepresented for women and minorities, although this is changing. Currently, the Board has three female and four male members, representing geographical diversity throughout the state: Ontario, North Bend/Coos Bay, Corvallis, Forest Grove, and Portland. The Board promotes diversity in recruitment for the Board and committees.

The OBCE affirms and supports the Governor's Affirmative Action Plan and is dedicated to working to create a work environment that will attract and retain employees who represent the broadest possible spectrum of society including women, minorities and the disabled. The Board will not tolerate discrimination or harassment on the basis of race, color, sex, sexual orientation, marital status, religion, national origin, age, mental or physical disability, or any reason related to state or federal statute. The Board's commitment is evident in its longstanding adopted policy which all employees are required to sign.
