Sarah

Pilfering is the leading source of youth opioid abuse  
960,000 children 12-17 get into drug abuse  
Yet just 12% of parents safely store their opioids

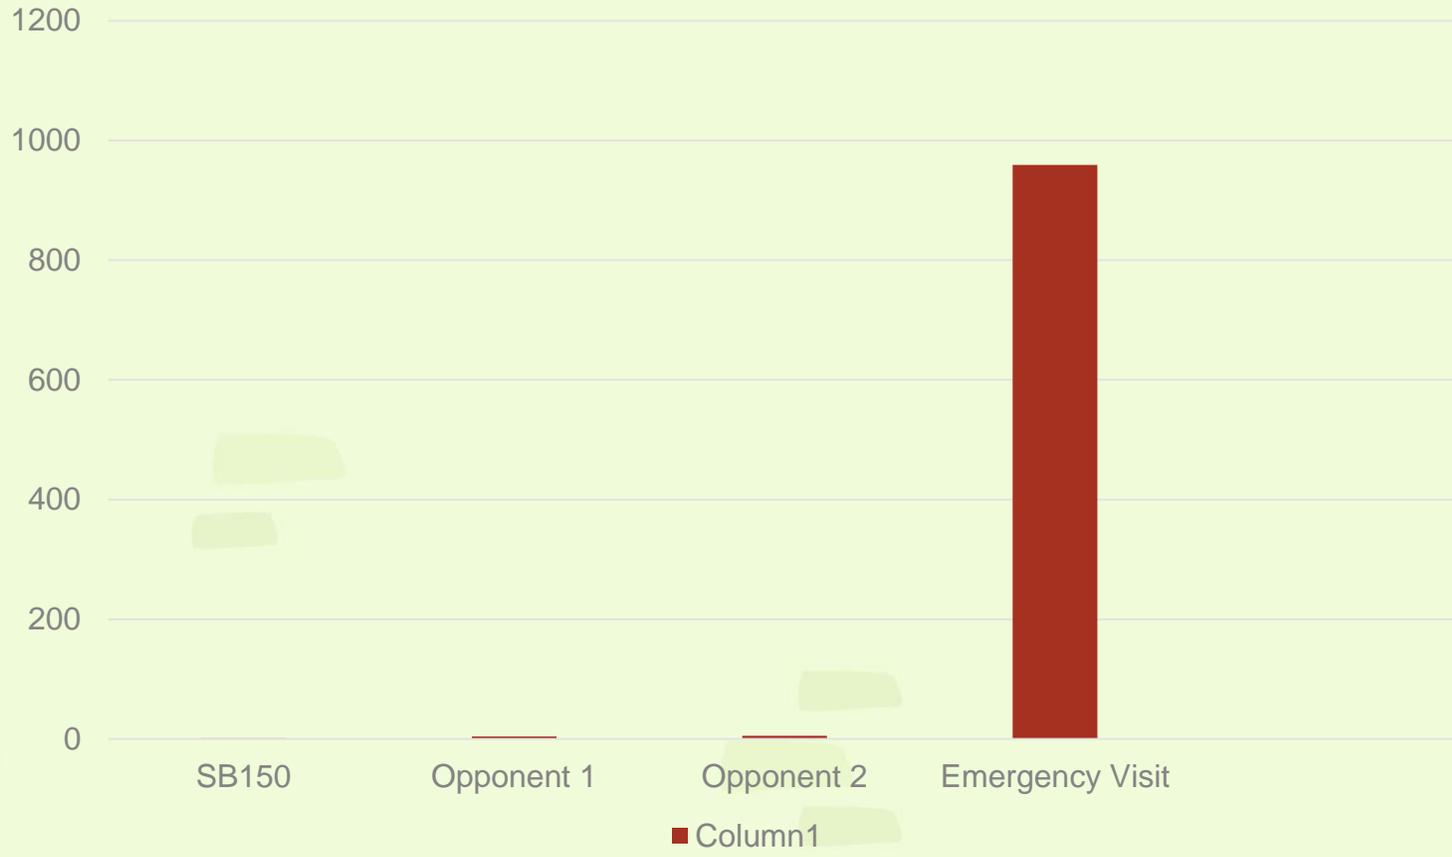

Overdose fatalities have doubled among those 17 and younger

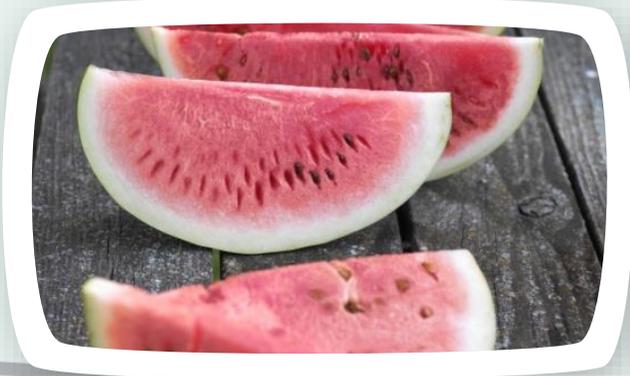

# Two Criticisms: 1) Not effective.

## 2) Costs Too Much

Cost of Safety versus Cost of 1 Emergency Visit

What is a life worth?  
What is preventing  
a lifetime of addiction  
worth?

We Are Facing An Epidemic

We Need To Act Decisively
