

Dear Chairwoman Monnes Anderson and Members of the Committee,

I am writing you all as an Oregon citizen and parent of five children. I support SB 649, which will provide complete consumer access to the full manufacturers vaccine package inserts, via the OHA website. When my daughter went in for a tetanus vaccine, I was only given a one page Vaccine Information Sheet, whereas the manufacturers full package insert for that particular vaccine is 18 pages long. A new appliance I buy at Target will frequently come with a 10 page pamphlet and/or informational CD. I believe that vaccines should include the same level of information as any other product.

Thank you for your consideration,

Jane A Rittenhouse
