Please, support HB2314

Dear Legislative Members,

As a longtime Oregon resident and responsible, voting, motorcycle rider and commuter, I humbly request that you support HB 2314. There are so many factual reasons to support a bill that would promote the use of motorcycle riding as a daily conveyance and means of commuting. Lessening congestion on our wonderful states' roads without building a single lane of additional asphalt is surely reason enough, but lets not minimize the positive environmental aspect of fewer cars on the roads and less time spent idling in traffic jams as well.

Thank you for your consideration,  
Sincerely,

Renny Lutz  
Salem, Oregon (Marion County)
