I, Wallace Grissette, am very hopeful that we gain your support on HB2314!

Motorcycles are very different from cars or trucks when it comes to stopping. They cannot stop on a dime like a four wheeled vehicle can. In traffic or even moving at a faster pace it is very difficult for a motorcycle to slow down to 0MPH rapidly. Having the ability to lane share or split can save a life in the event of a car slamming on their breaks. The impact to a car is very minor compared to a rider that is out in the open on their bike with only their gear to protect them. Coming from living in California to Oregon, it is very scary not being able to share the lane. Please support HB2314 and help save a life. Thank you for your time!
