

Dear Committee members:

I am sending this email to you because of concern for the proposed Clean Energy Jobs Bill (cap and trade) legislation for Oregon.

I am steadfastly OPPOSED to this legislation as it will increase costs significantly for all Oregonians.

Siting an article from Jan. 11, 2019 OPB:

" [Oregon Business & Industry](#), the [Oregon Farm Bureau](#) and [Northwest Food Processors Association](#), which together represent thousands of businesses across the state, have all spoken out against the Clean Energy Jobs Bill.

“This legislation is harmful to farmers and ranchers in Oregon because it increases our cost of production and makes us less competitive,” said Jenny Dresler of the Oregon Farm Bureau. “Raising the price of gas, electricity and natural gas on everybody will simply make it harder for Oregon family farms to survive to the next generation.” "

Thank you for your time and consideration.

Sincerely,

Margaret Snow
