

Attached is a copy of the letter going out to the existing 50 winter tenants at the Old Mill RV Park in Garibaldi. Tillamook County is already critically short of affordable housing. A shortage of affordable building sites prices most working people out of regular housing.

An estimated 500 Tillamook families have to rely on mobile homes and RVs. Under 608 many of the affordable sites will disappear. A critical situation will become even worse.

The last session provided counties with a prototype law that any county could adopt. That decision needs to be left to the counties where elected officials who are closer to their own county's needs can make the decision. **THE STATE DOES NOT NEED TO FORCE RENT CONTROL ON EVERY COUNTY.**
